(2) *Section of Rates and Informal Cases.* Provides rate information and interpretations of published tariffs and schedules for the Commission and its staff; assists in the settlement of informal negotiations as between shippers and carriers of controversies involving the proper interpretation of tariffs; processes reparation applications; receives, examines and maintains the official files of tariff publications for passenger and express transportation; and ascertains and checks short-line distances of rail carriers.

(3) *Board of Suspension.* See item 7.3 of the organization minutes, as amended, for functions and duties.

(4) *Fourth Section Board.* See item 7.2 of organization minutes, as amended, for functions and duties.

(5) *Released Rates Board.* See item 7.10 of the organization minutes, as amended, for functions and duties.

(6) *Special Permission Board.* See item 7.9 of the organization minutes, as amended, for functions and duties.

(7) *Tariff Rules Board.* See item 7.14 of the organization minutes, as amended, for functions and duties.

[SEAL] ROBERT L. OSWALD,
Secretary.

PART II

ENVIRONMENTAL PROTECTION AGENCY

■

Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970

Interim Regulations and Procedures for Implementation

Title 40—PROTECTION OF ENVIRONMENT

Chapter I—Environmental Protection Agency

SUBCHAPTER A—GENERAL

PART 4—INTERIM REGULATIONS AND PROCEDURES FOR IMPLEMENTING THE UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES ACT OF 1970

The Environmental Protection Agency is adding a new part 4 to implement the provisions of Public Law 91-646, the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970. The purpose of the act is to provide uniform and equitable land acquisition policies and relocation assistance for displaced persons in connection with Federal or federally assisted programs. Section 213 of the act authorizes the heads of Federal agencies to establish regulations that are necessary to carry out the purpose of the act and directs them to consult together to insure uniform implementation and administration of the act.

Pursuant to section 213 of the act and a memorandum from the President to all agency heads, dated January 4, 1971, interim guidelines for the issuance of regulations were developed by an interagency task force in conjunction with the Office of Management and Budget. The guidelines call for all Federal agencies within the Executive Branch to promptly issue interim regulations and to prepare final regulations to become effective not later than December 31, 1971. In view of the urgent need for implementation of the act, additional delays attendant to notice and public comment would not serve the public interest. I therefore find good cause exists for making this part effective upon date of publication.

The Environmental Protection Agency invites all interested persons who desire to submit written comments or suggestions concerning the preparation of final regulations to do so in triplicate to the Management and Organization Division, Office of Administration, Environmental Protection Agency, Washington, D.C. 20460. Such submissions should be received by November 1, 1971, to allow time for appropriate consideration and possible inclusion in the final regulations. Copies of the submissions will be available for examination by interested persons in Room 3224, Waterside Mall, Fourth and M Streets SW., Washington, DC, upon their receipt.

In consideration of the foregoing, Chapter I of Title 40, Code of Federal Regulations, is amended by adding a new Part 4, Interim Regulations and Procedures for Implementing the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970.

Effective date. The interim regulations and procedures of this part shall become effective the date of their publication in the FEDERAL REGISTER (8-24-71).

Dated: August 11, 1971.

ROBERT W. FRI,
Acting Administrator.

Subpart A—General

Sec.
4.1 Purpose and policy.
4.3 Definitions.
4.5 Applicability.
4.7 Displaced person; qualifications.
4.11 Comparable replacement dwelling; requirements.
4.13 Decent, safe, and sanitary dwelling; requirements.
4.17 Decent, safe, and sanitary rental sleeping rooms; requirements.
4.19 Records.

Subpart B—Requirements for Federal Projects

4.31 Scope.
4.33 Determinations; displacement of persons.
4.35 Determinations; acquisition of real property.
4.37 Appeals.
4.39 State agency providing real property for a Federal project.

Subpart C—Requirements for Federally Assisted Projects

4.51 Scope.
4.53 State agency required to submit relocation plan and statement of relocation procedure.
4.55 Prerequisites to EPA approval of Federal financial assistance to project or project phase; displacement.
4.57 Assurances required; acquisition of real property.
4.59 Use of Federal financial assistance.
4.61 Federal share of costs.
4.63 Appeals.
4.65 Retroactive effect.
4.67 Required amendment of existing grants, etc.

Subpart D—Relocation Assistance Advisory Programs

4.71 Scope.
4.73 Extension of services to adjacent occupants.
4.75 Relocation programs; general requirements.
4.77 Organizational requirements.
4.79 Coordination with other agencies.
4.81 Public information; general.
4.83 Public information; hearings.
4.85 Public information; brochure.
4.87 Public information; announcements.
4.89 Public information; notices.
4.91 Waiver of public information requirements.
4.93 Information for displaced persons.

Subpart E—Moving and Related Expenses

4.111 Scope.
4.113 Eligibility not dependent on length of occupancy.
4.115 Payment limited to one move; exception.
4.117 Family treated as person.
4.119 Noneligibility notice to rental occupants required.
4.121 Moving expenses; application and payment.
4.123 Exclusions.
4.125 Moving expenses; occupants of dwellings.
4.127 Moving expenses; businesses and farm operations.
4.129 Moving expenses; advertising businesses.
4.131 Low value, high bulk property; businesses and farm operations.
4.133 Actual direct losses; businesses and farm operations.
4.135 Expenses in searching for replacement business or farm operations.

Subpart F—Fixed Allowance in Lieu of Moving and Related Expenses

4.151 Scope.
4.153 Schedule of moving expense allowances; occupants of dwellings.
4.155 Dislocation and moving expense allowances; occupants of dwellings.
4.156 Family treated as person.
4.157 Application and payment.
4.159 Fixed allowance; businesses.
4.161 Fixed allowance; farm operation.
4.163 Computing average annual net income; businesses and farm operations.

Subpart G—Replacement Housing Payments

4.171 Scope.
4.173 Purchase of a decent, safe, and sanitary dwelling.
4.175 Occupancy.
4.177 Inspection of replacement dwelling required.
4.179 Application and payment.
4.181 Eligibility.
4.183 Replacement housing payment; purchase price.
4.185 Replacement housing payments; rent and down payments.
4.187 Rules for considering land values.
4.189 Limitations; payment for purchase price.
4.191 Reasonable cost of comparable replacement dwelling.
4.193 Owner retention.
4.195 Increased interest costs.
4.197 Incidental expenses.
4.199 Computation of rental payments; tenants.
4.201 Computation of rental payments; homeowners.
4.203 Determining reasonable monthly rent.
4.205 Rental payments; method of payment.
4.207 Computation of down payments.
4.209 Down payments.
4.211 Provisional payment pending condemnation.
4.213 Combined payments.
4.215 Partial use of home for business or farm operation.
4.217 Multiple occupants of a single dwelling.
4.219 Multifamily dwelling.
4.221 Certificate of eligibility pending purchase of replacement dwelling.

Subpart H—Relocation Assistance Functions Carried Out Through Other Agencies

4.231 Authority to carry out relocation assistance through other agencies.
4.233 Interagency agreement required.
4.235 Amendment of existing agreements required.

Subpart I—Acquisition of Real Property

4.251 Scope.
4.253 Real property acquisition practices.
4.255 Statement of just compensation to owner.
4.257 Equal interest in improvements to be acquired.
4.259 Payments to tenants for improvements.
4.261 Expenses incidental to transfer of title.
4.263 Litigation expenses.
Appendix A—Records.

AUTHORITY: The provisions of this Part 4 issued under sec. 213, 84 Stat. 1900.

Subpart A—General

§ 4.1 Purpose and policy.

(a) This part implements the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 which provides for the uniform and equitable treatment of persons displaced from their homes, businesses, or farms by Federal and federally assisted projects and establishes uniform and equitable land acquisition policies for Federal and federally-assisted programs.

(b) In implementing the act, it is the policy of the Environmental Protection Agency to deal consistently and fairly with all persons whose property is taken for public projects and all persons who are displaced from their homes, businesses or farms.

§ 4.3 Definitions.

As used in this part—

(a) "Administrator" means the Administrator of the Environmental Protection Agency or his designee.

(b) "Business" means a lawful activity, other than a farm operation, conducted primarily—

(1) For the purchase, sale, lease, or rental of personal and real property, or the manufacture, processing, or marketing of products, commodities, or other personal property;

(2) For the sale of services to the public; or

(3) By a nonprofit organization.

(c) "Displacing Agency" means EPA or the Federal or State agency responsible for carrying out the project for which real property is to be acquired.

(d) "Dwelling" includes a single-family house, a single-family unit in a multifamily building, a unit of a condominium or cooperative housing project, a mobile home, or any other residential unit.

(e) "Economic rent" means the amount of rent a tenant or homeowner would have to pay for a dwelling similar to the acquired dwelling in a comparable area on the private market.

(f) "Farm operation" means a lawful activity conducted solely or primarily for the production of one or more agricultural products or commodities, including timber, for sale or home use and customarily producing those products or commodities in sufficient quantity to be capable of providing at least one-third of the operator's income, however, in instances where such operation is obviously a farm operation it need not contribute one-third to the operation's income for him to be eligible for relocation payments.

(g) "Federal agency" means a department, agency, or instrumentality in the Executive Branch of Government (except the National Capital Housing Authority), any wholly-owned Government corporation (except the District of Columbia Redevelopment Land Agency), and the Architect of the Capitol, the Federal Reserve Banks and branches thereof.

(h) "Federal financial assistance" means a contract, grant, loan, or contribution by the United States to a State or State agency, other than a Federal guarantee or insurance or an annual payment or capital loan to the District of Columbia.

(i) "Federally assisted" means, with respect to States or State agencies, assisted by a contract, grant, loan, or contribution by the United States, other than a Federal guarantee or insurance or an annual payment or capital loan to the District of Columbia.

(j) "Homeowner" means an individual or family who owns a dwelling.

(k) "Initiation of negotiations" means the date the displacing agency makes its first personal contact with the owner of real property, or his representative, to discuss price of the property to be acquired.

(l) "Mortgage" means a lien commonly given to secure an advance on, or the unpaid purchase price of, real property under the laws of the State in which real property is located, together with any credit instruments secured thereby.

(m) "Own" means holding any of the following interests in a dwelling or a contract to purchase one of those interests:

(1) A fee title.

(2) A life estate.

(3) A 99-year lease.

(4) A lease with at least 50 years to run from the date of acquisition of the property.

(5) An interest in a cooperative housing project which includes the right to occupy a dwelling.

(n) "Person" includes a partnership, company, corporation, or association as well as individual.

(o) "State" means any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, a territory or possession of the United States, the trust territories of the Pacific Islands, or a political subdivision of any of those jurisdictions.

(p) "State agency" means a department, public body, agency or instrumentality of a State or of a political subdivision of a State, or any department, agency or instrumentality of two or more States or of two or more political subdivisions of a State or States, the National Capital Housing Authority and the District of Columbia Redevelopment Land Agency.

(q) "Tenant" means an individual or family who rents, or is temporarily in lawful possession of a dwelling, including a sleeping room.

§ 4.5 Applicability.

This part applies to projects which are part of a Federal or federally-assisted program administered by the Environmental Protection Agency and which, after January 1, 1971, cause the displacement of persons or the acquisition of real property.

§ 4.7 Displaced person; qualifications.

(a) Subject to the requirements of paragraphs (c), (d), and (e) of this section, a person qualifies as a displaced person for the purposes of this part if after January 1, 1971, he moves from real property, or moves his personal property from real property, on which he resides or conducts a business or farm operation, and the move is a direct result of—

(1) The initiation of negotiations for the real property;

(2) A written notice from the displacing agency of its intent to acquire the real property by a definite date; or

(3) A written order from the displacing agency to vacate the real property;

for a project undertaken by the Environmental Protection Agency or a State agency receiving Federal financial assistance from EPA.

(b) A person may qualify as a displaced person, regardless of—

(1) Whether the property is acquired by a Federal or State agency;

(2) The method of acquisition;

(3) The name or status of the person who acquires or holds fee title to the property; or

(4) Whether Federal funds contribute directly to the payment for the property, if the property must be acquired for a Federal or federally-assisted program or project, and the end result is to serve or be considered to serve in the public interest.

(c) A person does not qualify as a displaced person under paragraph (a) (1) or (2) of this section until—

(1) The displacing agency becomes entitled to possession of the real property under an agreement or a court order in a condemnation proceeding for acquiring the property;

(2) The owner conveys title to the real property to the displacing agency; or

(3) The owner and the displacing agency enter into a contract for the purchase of the real property, but only if the real property is not to be reoccupied before the agency is to acquire title or the right to possession.

(d) A person, other than the former owner or tenant, who enters into rental occupancy of real property after its ownership passes to the displacing agency, does not qualify as a displaced person for the purposes of this part.

(e) A person who enters into occupancy of real property after the initiation of negotiations for that property or the issuance of a notice of intent to acquire that property by a given date, as the case may be, does not qualify as a displaced person for the purposes of this part.

§ 4.11 Comparable replacement dwelling: requirements.

A dwelling is a comparable replacement dwelling for the purposes of this part if it is—

(a) Decent, safe, and sanitary;

(b) Functionally equivalent and substantially the same as the dwelling being acquired with respect to—

(1) Number of rooms;

(2) Area of living space;

(3) Age; and

(4) State of repair.

(c) In an area not generally less desirable than the dwelling being acquired with respect to—

(1) Public utilities; and
(2) Public and commercial facilities.

(d) Reasonably accessible to the place of employment of the head of the displaced family or the displaced individual, as the case may be;

(e) Adequate to accommodate the displaced family or individual;

(f) In an equal or better neighborhood;

(g) Available on the market; and

(h) Within the financial means of the displaced family or individual.

§ 4.13 Decent, safe, and sanitary dwelling; requirements.

(a) A dwelling is decent, safe, and sanitary for the purposes of this part if it—

(1) Meets the applicable State or local building, plumbing, electrical, housing, and occupancy codes or similar ordinances or regulations for existing structures;

(2) Has a continuing and adequate supply of potable safe water;

(3) Has a kitchen or an area set aside for kitchen use which contains a sink in good working condition and connected to hot and cold water, and properly connected to a sewage disposal system;

(4) Has a stove and refrigerator in good operating condition, if required by local code, ordinance, or custom, or, if not so required, utility service connections and adequate space for these installations in the kitchen or area set aside for kitchen use;

(5) Except in a geographical area where it is not normally included in new housing, has an adequate heating system in good working order capable of maintaining a minimum temperature of 70° F. in the living area (not including the bedrooms) under local outdoor design temperature conditions;

(6) Has a bathroom, well lighted and ventilated and affording privacy to a person within it, containing a lavatory and a bathtub or shower stall, properly connected to an adequate supply of hot and cold running water, and a flush toilet, all in good working order and properly connected to a sewage disposal system;

(7) Has an electrical wiring system in each room;

(8) Is structurally sound, clean, weathertight, and in good repair and adequately maintained;

(9) Has a safe, unobstructed means of egress leading to a safe open space at ground level and, in the case of a multidwelling building, access from each dwelling unit directly or through a common corridor to a means of egress to a safe open space at ground level and, in the case of a multidwelling building of more than two stories, at least two means of egress from the common corridor on each story;

(10) Has sleeping, living, cooking, and dining floor space (exclusive of such enclosed spaces as closets, pantries, bath or toilet rooms, service rooms, connecting corridors, laundries, unfurnished attics, foyers, storage spaces, cellars, utility rooms (or similar spaces) which—

(i) Measures at least 150 square feet for the first occupant and 100 square feet (70 square feet in the case of a mobile home) for each additional occupant;

(ii) Is subdivided into adequately ventilated rooms sufficient to accommodate the occupants;

(11) Is reasonably convenient to community services including schools, stores, and public transportation; and

(12) Open to all persons regardless of race, color, religion, sex, or national origin and consistent with the requirements of title VIII of the Civil Rights Act of 1968.

(b) If the applicable local housing code does not conform to all the requirements of paragraph (a) of this section but is reasonably comparable, the agency providing relocation assistance may submit a copy of the local code to the Administrator for approval as acceptable standards for decent, safe, and sanitary housing.

(c) In case of extreme hardship or other similar extenuating circumstances involving a displaced individual or family, the displacing agency may, with the concurrence of the Administrator, waive any requirement of paragraph (a) (1) through (11) of this section.

§ 4.17 Decent, safe, and sanitary rental sleeping rooms; requirements.

(a) A rental sleeping room is decent, safe, and sanitary for the purposes of this part if it—

(1) Meets the applicable State or local building, plumbing, electrical, housing, and occupancy codes or similar ordinances or regulations for existing structures;

(2) Except in a geographical area where it is not normally included in new housing, has an adequate heating system in good working order which will maintain a minimum temperature of 70° F. under local outdoor design temperature conditions;

(3) Has an electrical wiring system;

(4) Is structurally sound, clean, weathertight, and in good repair and adequately maintained;

(5) Has a safe, unobstructed means of egress leading to a safe open space at ground level and, in the case of a rooming house, access from each sleeping room directly or through a common corridor to a means of egress to a safe open space at ground level and, in the case of a rooming house of more than two stories, at least two means of egress from the common corridor on each story;

(6) Is reasonably convenient to community services such as schools, stores and public transportation;

(7) Has at least 100 square feet of habitable floor space for the first occupant and 50 square feet of habitable floor space for each additional occupant; and

(8) Has use of a bathroom, well lighted and ventilated and afforded privacy to a person within it, including a door that can be locked if the facilities are separate from the sleeping room, containing a lavatory and a bathtub or shower stall, properly connected to an adequate supply of hot and cold running water, and a flush toilet, all in good working order and properly connected to a sewage disposal system.

(9) Open to all persons regardless of race, color, religion, sex, or national origin and consistent with the requirements of title VIII of the Civil Rights Act of 1968.

(b) If the applicable local housing code does not meet all the requirements of paragraph (a) of this section but is reasonably comparable, the agency providing relocation assistance may submit a copy of the local code to the Administrator for approval as acceptable standards for decent, safe, and sanitary housing.

(c) In case of extreme hardship or other similar extenuating circumstances involving a displaced individual or family, the displacing agency may, with the concurrence of the Administrator, waive any requirement of paragraph (a) (1) through (8) of this section.

§ 4.19 Records.

Each displacing agency shall maintain relocation records in accordance with the requirements of appendix A to this part and make them available during regular business hours for inspection by the Administrator. The records shall be retained by the agency for at least 3 years after completion of a project.

Subpart B—Requirements for Federal Projects

§ 4.31 Scope.

This subpart prescribes requirements governing the administration of real property acquisition and relocation assistance for displaced persons for projects which are part of a Federal program administered by the Environmental Protection Agency.

§ 4.33 Determinations; displacement of persons.

(a) No Federal project to which this part applies which will result in the displacement of any person shall be approved by EPA until the Administrator determines that—

(1) Fair and reasonable relocation payments will be provided to displaced persons as required by Subparts E, F, and G of this part;

(2) Relocation assistance programs offering the services described in Subpart D of this part will be provided for displaced persons;

(3) The public was or will be adequately informed of the relocation payments and services which will be available under Subparts D, E, F, and G of this part; and

(4) Comparable replacement dwellings will be available, or provided if necessary, a reasonable period in advance of the time any person is to be displaced.

(b) EPA may not proceed with any phase of a Federal project if that phase will cause the displacement of any person until it is determined that—

(1) Based on a current survey and analysis of available replacement housing and in consideration of competing demands for that housing, comparable replacement dwellings will be available within a reasonable period of time prior to displacement; and

(2) Adequate provisions have been made to provide orderly, timely, and efficient relocation of displaced individuals and families to comparable replacement dwellings with minimum hardship to those affected.

§ 4.35 Determinations; acquisition of real property.

No Federal project to which this part applies and which will result in the acquisition of real property shall be approved until the Administrator determines that adequate provisions have been made to—

(a) Fully comply with the requirements of Subpart I, of this part; and

(b) Inform the public of the acquisition policies, requirements, and payments which will apply to the project.

§ 4.37 Appeals.

Any person aggrieved by a determination made by EPA, in connection with a Federal project or program, concerning the eligibility for, or amount of, any payment to such person under the regulations in this part, may appeal from such determination to the Administrator. Appeals shall be submitted in writing and addressed to the Administrator, Environmental Protection Agency, Washington, D.C. 20460. No appeal will be considered unless it is received by the Administrator within 90 days of the date of receipt by the person aggrieved of written denial, in whole or in part, of his application for payment. The appeal should include written substantiation of the appeal. An appeal may be presented by the attorney of the person aggrieved or by the person himself. The Administrator or his designated representative shall promptly issue a decision on the appeal, which decision may either uphold the original determination or allow the claimed relief in whole or in part. The decision shall be reduced to writing, and shall state the facts and law upon which it is based. A copy of the decision shall be furnished to the person aggrieved. The decision shall constitute the final EPA decision on the application for payment.

§ 4.39 State agency providing real property for a Federal project.

(a) Whenever a State agency is obligated to provide the necessary real property incident to a Federal project, the Environmental Protection Agency may not accept that real property until it is determined that the State agency has carried out all the requirements of this subpart. However, until July 1, 1972, this section is applicable to a State agency only to the extent that agency is able to meet the requirements of this subpart under State law.

(b) The cost to a State agency of providing the payments and services required by this subpart shall be paid in the same manner and to the same extent as the cost of the real property acquired for the project. However, until July 1, 1972, the Environmental Protection Agency will pay a State agency the full amount of the first $25,000 of the cost of providing payments and services for any displaced person.

Subpart C—Requirements for Federally Assisted Projects

§ 4.51 Scope.

This subpart prescribes requirements governing the administration of real property acquisition and relocation assistance for displaced persons for projects which are part of a federally assisted program administered by the Environmental Protection Agency.

§ 4.53 State agency required to submit relocation plan and statement of relocation procedure.

(a) As part of its application for Federal financial assistance for any project which will entail the displacement of any person, a State agency shall submit a relocation plan to EPA. The relocation plan shall include:

(1) An inventory of the characteristics and needs of persons to be displaced. This inventory may be based upon a representative sampling process rather than a complete occupancy survey.

(2) An estimated inventory of currently available comparable replacement dwellings.

(3) Identification of any phase of the project which will require the displacement of any person.

(4) An analysis of the information required by subparagraphs (1), (2), and (3) of this paragraph which—

(i) Discusses relocation problems and possible solutions;

(ii) Provides an analysis of Federal, State, and community programs currently in operation in the project area which will affect the availability of housing;

(iii) Provides information on concurrent displacement and relocation by other governmental agencies or private concerns;

(iv) Describes the methods to be used to relocate displaced persons; and

(v) Explains the amount of lead time necessary to carry out a timely, orderly, and humane relocation program.

(b) Before beginning any phase of a project receiving Federal financial assistance, which phase will require the displacement of any person, a State agency shall submit to EPA a complete statement of the procedure it will follow in furnishing relocation services and making payments. The statement shall include:

(1) A declaration of understanding that the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, and this regulation, are applicable to federally assisted projects including those projects on which real property acquisition is financed by State money, but where Federal financial assistance will be used in construction.

(2) A description of procedures to be used to provide public information through brochures, public hearings, newspapers, radio, television, and other means of available assistance and payments to displaced persons. A copy of brochures shall be appended.

(3) A description of the moving expense payments to which displaced persons are entitled and the methods employed in determining the amount of entitlement. Schedules shall be appended where applicable.

(4) A description of the incidental transfer expenses that are payable. A copy of a typical closing statement indicating those payments shall be appended.

(5) A description of the appeal procedures that are available to displaced persons.

(6) A copy of all forms developed to carry out the relocation program.

(7) A current survey and analysis of available replacement housing and of competing demands for such housing.

§ 4.55 Prerequisites to EPA approval of Federal financial assistance to project or project phase; displacement.

(a) Except as provided in paragraph (c) of this section, EPA will not approve a grant, contract, or agreement for a Federally assisted project to which this part applies which will result in the displacement of any person until the State agency has complied with § 4.53(a) and until the head of the State agency provides the Administrator with satisfactory written assurances that:

(1) It will provide fair and reasonable relocation payments to displaced persons as required by Subparts E, F, and G of this part;

(2) It will provide relocation assistance programs for displaced persons offering the services described in Subpart D of this part;

(3) It will adequately inform the public of the relocation payments and services which will be available under Subparts D, E, F, and G of this part; and

(4) Comparable replacement dwellings will be available, or provided if necessary, a reasonable period in advance of the time any person is displaced.

(b) Except as provided in paragraph (c) of this section, EPA will not authorize a State agency to proceed with any phase of a Federally assisted project if that phase will cause the displacement of any person until the State agency has complied with § 4.53(b) and until the head of the State agency provides the Administrator with satisfactory written assurances that:

(1) Based on a current survey and analysis of available replacement housing and in consideration of competing demands for that housing, comparable replacement dwellings will be available a reasonable period of time prior to displacement, sufficient in number for the displaced persons who require them; and

(2) The State agency relocation procedures are realistic and are adequate to

provide orderly, timely, and efficient relocation of displaced individuals and families to comparable replacement dwellings with minimum hardship to those affected.

(c) Until July 1, 1972, the requirements of paragraphs (a) and (b) of this section and the requirements of § 4.53 are applicable to a State agency only to the extent that agency is able under State law to comply with paragraphs (a) and (b) of this section.

(d) If a State agency maintains that it is legally unable to provide the assurances required by paragraphs (a) and (b) of this section, it shall furnish the Administrator a statement specifying any provisions of the relocation assistance assurances required by this section which it is unable to provide in whole or in part under the laws of that State, and an opinion of its chief legal official discussing the issues involved and citing legal authorities in support of the conclusions for each representation of legal inability to provide any part of the required assurances.

§ 4.57 Assurances required; acquisition of real property.

(a) EPA will not approve a grant, contract, or agreement for a federally assisted project to which this part applies and which will result in the acquisition of real property until the head of the State agency concerned provides the Administrator with satisfactory assurances that it will—

(1) Fully comply with the requirements of subpart I of this part; and

(2) Adequately inform the public of the acquisition policies, requirements, and payments which will apply to the project.

However, until July 1, 1972, the requirements of this paragraph are applicable to a State agency only to the extent that agency is able to comply with this paragraph under State law.

(b) If a State agency maintains that it is legally unable to provide the assurances required by paragraph (a) of this section, it shall furnish the Administrator a statement specifying any provisions of the relocation assistance assurances required by this section which it is unable to provide in whole or in part under the laws of that State, and an opinion of its chief legal official discussing the issues involved and citing legal authorities in support of the conclusions for each representation of legal inability to provide any part of the required assurances.

§ 4.59 Use of Federal financial assistance.

(a) The type of interest acquired in real property does not affect the eligibility of related relocation costs for Federal financial assistance provided the interest is sufficient to cause displacement.

(d) Federal financial assistance may not be used to pay a relocated person for any loss that is due to his negligence.

(c) Federal financial assistance may not be used for any payment under this part to a displaced person if that person receives a separate payment which is—

(1) Required by the State law of eminent domain;

(2) Determined by the Administrator to have substantially the same purpose and effect as a payment under this part; and

(3) Otherwise included as a project cost for which Federal financial assistance is available.

§ 4.61 Federal share of costs.

(a) The cost to a State agency of providing the payments and services required by Subparts A through H of this part, and the additional, identifiable cost to a State agency of providing the payments and services required by Subpart I of this part, shall be included as part of the cost of the federally-assisted project and, except as provided in paragraphs (b) and (c) of this section, the State agency is eligible for Federal financial assistance with respect to those costs in the same manner and to the same extent as other project costs.

(b) If Federal financial assistance is by grant or contribution, the Environmental Protection Agency will pay a State agency the full amount of the first $25,000 of the cost of providing the payments and services described in this part for any displaced person because of any acquisition or displacement occurring before July 1, 1972.

(c) If Federal financial assistance is by loan, the Environmental Protection Agency will loan a State agency the full amount of the first $25,000 of the cost of providing the payments and services described in this part for any displaced person because of any acquisition or displacement occurring before July 1, 1972.

§ 4.63 Appeals.

(a) An applicant for a payment under this subpart who is aggrieved by a displacing agency's determination as to the applicant's eligibility for payment or the amount of the payment may appeal that determination in accordance with the procedures established by the displacing agency under paragraph (b) of this section.

(b) Each displacing agency shall establish procedures for reviewing appeals by aggrieved applicants for payments under this subpart. The procedures shall insure that—

(1) Each appellant applicant has the opportunity for oral and written presentation and the right to have counsel participate in such presentation;

(2) Each appeal will be decided promptly;

(3) Each appeal decision will include a statement of the reasons upon which it is based and a copy of such decision will be furnished the appellant;

(4) The agency retains all documents associated with each appeal; and

(5) Each appellant applicant has a final appeal to the head of the displacing agency.

§ 4.65 Retroactive effect.

In the case of any project phase, grant, contract, or agreement approved by EPA prior to October 1, 1971, which will involve or has involved displacement of any person or acquisition of real property, after January 1, 1971, and prior to October 1, 1971, the State agency concerned shall:

(a) Comply with the provisions of this subpart providing payments or other benefits to persons as soon as possible; and

(b) Comply with the provisions of this subpart requiring submission of information or assurances to EPA, no later than November 1, 1971.

§ 4.67 Required amendment of existing grants, etc.

Any grant to, or contract or agreement with, a State agency executed before the date of publication of this part, under which Federal financial assistance is available to pay all or part of the cost of any program or project which will result in the displacement of any person on or after January 2, 1971, shall be amended to include the cost of providing payments and services under this subpart and subpart I of this part. If the Administrator determines it is necessary for the expeditious completion of a program or project he may advance to the State agency the Federal share of the cost of any payment or assistance by such State agency pursuant to sections 206, 210, 215, and 305 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970.

Subpart D—Relocation Assistance Advisory Programs

§ 4.71 Scope.

This subpart prescribes requirements for relocation assistance advisory programs for persons displaced by projects which are part of a Federal or federally assisted program administered by the Environmental Protection Agency.

§ 4.73 Extension of services to adjacent occupants.

The displacing agency shall provide the relocation assistance advisory services described in this subpart to all displaced persons. The agency may also offer those services to any person occupying property immediately adjacent to the real property being acquired who, in the agency's opinion, will suffer substantial economic injury.

§ 4.75 Relocation programs; general requirements.

The displacing agency shall carry out a relocation assistance advisory program. The program shall provide for—

(a) Explaining to displaced persons the relocation assistance and payments that are available;

(b) Assisting displaced persons to complete applications required for payments;

(c) Determining the needs of displaced persons for relocation assistance;

(d) Informing displaced persons as to the availability and costs of comparable replacement dwellings and comparable locations for displaced business and farm operations;

(e) Assisting each displaced person to obtain and move to a comparable replacement dwelling;

(f) Informing displaced persons as to Federal and State housing programs; and

(g) Providing counsel and advice to displaced persons that will minimize the hardships associated with adjusting to a new location.

§ 4.77 Organizational requirements.

The organization and procedures of the displacing agency for carrying out a relocation assistance advisory program shall include provisions for:

(a) Assigning at least one person whose primary responsibility is to provide relocation assistance for one or more projects.

(b) Establishing a local relocation office for each project where the agency determines that the volume of work or the needs of the displaced persons so require.

(c) Maintaining and providing the following information for each project:

(1) Lists of replacement dwellings available to persons without regard to race, color, religion, or national origin drawn from various sources, suitable in price, size, and condition for displaced persons.

(2) Current information as to security deposits, closing costs, typical down payments, interest rates, and terms for residential real property in the area.

(3) Maps showing the location of schools, parks, playgrounds, shopping, and public transportation routes in the area.

(4) Schedules and costs of public transportation in the area.

(5) Copies of the agency's brochure explaining its relocation program, local ordinances pertaining to housing, building codes, open housing, consumer education literature on housing, shelter costs, and family budgeting.

(6) Subscriptions for apartment directory services, neighborhood and metropolitan newspapers, and where available, multiple listing services.

§ 4.79 Coordination with other agencies.

(a) The displacing agency shall coordinate its relocation assistance activities with the local officials of the Federal Housing Administration and Veterans Administration responsible for making properties acquired by those agencies available for direct sale to persons to be relocated as a result of governmental action.

(b) The person assigned by the agency to provide relocation assistance for a particular project shall maintain personal contact and exchange information with welfare agencies, urban renewal agencies, redevelopment authorities, public housing authorities, the Federal Housing Administration, the Veterans Administration, the Small Business Administration and other agencies providing services to displaced persons. He shall also collect and maintain information on private replacement properties in the area of the project through personal contact with real estate brokers, real estate boards, property managers, apartment owners and operators, and home building contractors.

§ 4.81 Public information; general.

(a) To insure public awareness of its relocation assistance advisory program, the displacing agency shall provide an opportunity for presentation of information and discussion of relocation services and payments at public hearings, prepare a relocation brochure, and give full and adequate public notice of the relocation program for each project to which this part applies.

(b) In areas where a language other than English is predominant, public information shall be published in the predominant language as well as in English.

§ 4.83 Public information; hearings.

(a) The information to be presented at a public hearing shall include—

(1) Eligibility requirements, payment procedures, and limitations for moving expenses and replacement housing;

(2) A description of the expenses incidental to transfer of property that will be paid;

(3) Appeal procedures;

(4) A description of how relocation assistance and services will be provided;

(5) The address and telephone number of the local office of the State agency and the name of the relocation officer in charge;

(6) The identity, local address, and telephone number of any other cooperating agency;

(7) An estimate of the number of individuals or families, businesses, and farm operations to be relocated;

(8) The estimated number of dwelling units presently available to meet the replacement housing needs; and

(9) An estimate of the time necessary for relocation and the number of comparable replacement dwellings that will become available during that period.

(b) The extent of the presentation should depend on the comprehensiveness of the brochure. If the brochure covers a particular item in detail, it is sufficient to merely highlight what the brochure contains. If a particular item is not applicable to the project, it is not necessary to discuss the item in detail.

§ 4.85 Public information; brochure.

The displacing agency shall prepare a brochure which fully describes its relocation assistance advisory program, including information on payments for replacement housing and moving expenses. The brochure shall be distributed free of charge at all public hearings and given to any displaced person upon request. The brochure shall state where copies of any regulations implementing the relocation assistance program may be obtained.

§ 4.87 Public information; announcements.

The displacing agency shall provide brief public announcements of the relocation services, payments, and where the brochure describing the relocation program can be obtained. Public announcements shall be made through types of mass media that are familiar to persons who will be displaced by the project, such as local newspapers, radio, television, or posted advertisements.

§ 4.89 Public information; notices.

Within 15 days after approval to begin any phase of a project which will cause the displacement of any person, the displacing agency shall post notices of acquisition in adequate numbers and in places accessible to occupants of dwellings to be taken for the project. In addition, an adequate number of advertisements shall be run in newspapers normally read by occupants of dwellings to be taken. The posted notices and newspaper advertisements shall—

(a) State the date approval was given for that phase of the project;

(b) Define the area of the project;

(c) Advise occupants of the area of the eligibility requirements for receiving moving and replacement housing payments;

(d) Advise occupants to notify the agency before moving to insure eligibility for moving and replacement housing payments;

(e) Advise homeowners that to be eligible for relocation benefits they must sell to the agency; and

(f) State where the brochure describing the relocation program may be obtained.

§ 4.91 Waiver of public information requirements.

When persons are to be displaced from five or fewer dwellings, the displacing agency may, instead of complying with §§ 4.81, 4.83, 4.85, 4.87, 4.89, provide the information required to be provided by those sections to the displaced persons by personal delivery and detailed oral explanation of the information.

§ 4.93 Information for displaced persons.

(a) The displacing agency shall deliver to each displaced person either in person or by certified mail, return receipt requested—

(1) A brochure explaining the relocation assistance advisory program; and

(2) If it is not included in the brochure, a notice stating the eligibility requirements for payments for replacement housing and moving expenses.

(b) In addition to the information furnished under paragraph (a) of this section, the displacing agency shall deliver to each displaced homeowner or tenant, either in person or by certified mail, return receipt requested, a written statement setting forth the optional types and the actual amount of replacement housing payments to which they are entitled.

(c) The information required by paragraphs (a) and (b) of this section shall be furnished—

(1) To homeowners not later than the initiation of negotiations for the property or the issuance of a written notice of intent to acquire the property by a definite date, as the case may be; and

(2) To tenants within 7 days after the initiation of negotiations for the property or the issuance of a written notice of intent to acquire the property by a definite date; as the case may be.

(d) The displacing agency shall notify each displaced person of his right of appeal under § 4.37.

Subpart E—Moving and Related Expenses

§ 4.111 Scope.

This subpart prescribes the requirements governing the payment of moving and related expenses of persons displaced by projects which are part of a Federal or federally assisted program administered by the Environmental Protection Agency.

§ 4.113 Eligibility not dependent on length of occupancy.

A displaced person's eligibility for payment of moving and related expenses is not affected by the length of time that he occupied the real property from which he is displaced.

§ 4.115 Payment limited to one move; exception.

(a) Except as provided by paragraph (b) of this section, payment of a displaced person's moving and related expenses may not be made for more than one move in connection with a particular project.

(b) If the Administrator considers it to be in the public interest he may authorize payment of a displaced person's moving and related expenses for additional moves.

§ 4.117 Family treated as person.

For the purpose of this subpart, the term "person" includes two or more individuals living together in the same dwelling as a single family unit and who are related to each other by blood, marriage, adoption, or legal guardianship.

§ 4.119 Noneligibility notice to rental occupants required.

If an agency rents out real property acquired in connection with a project to which this part applies, it shall notify the tenant and State in the rental agreement that the tenant will not be eligible for payment of displacement, moving, and related expenses under this subpart.

§ 4.121 Moving expenses; application and payment.

(a) Upon application by a displaced person for payment of moving and related expenses, the displacing agency shall—

(1) Pay those expenses in accordance with this subpart; or

(2) If the applicant elects to receive it, pay him a fixed allowance in accordance with Subpart F of this part.

(b) The application shall be in writing and filed with the displacing agency no later than 1 year after either the date of acquisition of the dwelling by the agency or the date the applicant vacated the dwelling, whichever is later. The application shall include an itemization of the expenses involved and, except as provided in paragraphs (d) and (e) of this section, shall be supported by receipts and such other evidence as the displacing agency may require.

(c) A displaced person may not be paid for his moving expenses in advance of the actual move unless the displacing agency finds that a hardship would otherwise result.

(d) If a displaced person, his mover, and the displacing agency agree by prearrangement in writing, the displaced person may submit an unpaid bill for moving expenses for direct payment.

(e) If the displacing agency contracts with independent movers on a schedule basis and provides a displaced person with a list of movers he may choose from to move his personal property, payment shall be made directly to the mover.

(f) In the case of a self-move by a displaced person, the amount of payment for actual reasonable moving expenses may not exceed the cost of having the move accomplished by a commercial mover.

§ 4.123 Exclusions.

A displaced person is not entitled to be paid for—

(a) Additional expenses incurred because of living in a new location;

(b) Cost of moving structures or other improvements to real property which are reserved by the displaced person;

(c) Improvements to the replacement site, except when required by law;

(d) Interest on loans to cover moving expenses;

(e) Loss of good will;

(f) Loss of profits;

(g) Loss of trained employees;

(h) Personal injury;

(i) Cost of preparing the application for moving and related expenses; or

(j) Modification of personal property to adapt it to replacement site, except when required by law.

§ 4.125 Moving expenses; occupants of dwellings.

(a) Except as provided in § 4.123, persons displaced from dwellings are entitled to be paid actual reasonable expenses for—

(1) Transporting themselves and their personal property from the displacement site to a replacement site, but not more than 50 miles unless the displacing agency finds that the displaced person cannot relocate within that distance;

(2) Packing, crating, and, if the displacing agency finds it necessary, storing their personal property for not more than 6 months;

(3) If the displacing agency finds it necessary, advertising for packing, crating, storing, or transporting their personal property;

(4) Insuring against loss or damage of their personal property while in storage or transit; and

(5) Removing and reinstalling a household appliance, including reconnecting utilities, if—

(i) It is not acquired by the displacing agency as real property;

(ii) The displaced person agrees in writing that the appliance is personal property and releases the displacing agency from paying for it; and

(iii) It is not a real property improvement to the location site, unless reinstallation is otherwise required by law.

(b) A displaced person is entitled to be reimbursed for uninsurable loss or damage of his personal property while in the process of moving, if the loss or damage was not a result of his fault or negligence.

§ 4.127 Moving expenses; businesses and farm operations.

(a) Except as provided in § 4.123, a displaced person who conducts a business or farm operation which is discontinued or relocated is entitled to actual reasonable expenses for—

(1) Transporting his personal property from the displacement site to a replacement site, but not more than 50 miles, unless, in the case of relocation, the displacing agency finds that the business or farm operation cannot be relocated within that distance;

(2) Packing, crating, and, if the displacing agency finds it necessary, storing his personal property for not more than 6 months;

(3) If the displacing agency finds it necessary, advertising for packing, crating, storing, or transporting his personal property;

(4) Insuring against loss or damage of his personal property while in storage or transit; and

(5) Removing and reinstalling machinery and equipment including reconnecting utilities, if—

(i) It is not acquired by the displacing agency as real property;

(ii) The displaced person agrees in writing that the machinery or equipment is personal property and releases the displacing agency from paying it; and

(iii) It is not a real property improvement to the location site, unless the reinstallation is otherwise required by law; and

(6) Searching for a replacement business or farm operation, to the extent those expenses meet the requirements of § 4.135.

(b) A displaced person who conducts a business or farm operation which is discontinued or relocated is entitled to the actual direct losses of personal property resulting from the discontinuation or move, to the extent those losses meet the requirements of § 4.133.

(c) A displaced person who conducts a business or farm operation which is relocated is entitled to be reimbursed for uninsurable loss or damage of his personal property while in the process of moving, if the loss or damage is not the result of his fault or negligence.

§ 4.129 Moving expenses; advertising businesses.

A displaced person who conducts a lawful activity primarily for assisting in the purchase, sale, resale, manufacture, processing, or marketing of products, commodities, personal property, or services by the erection and maintenance of outdoor advertising displays, whether or not the displays are located on the premises on which any of those activities are conducted, is entitled to the moving expenses described in § 4.127.

§ 4.131 Low value, high bulk property; businesses and farm operations.

In the case of low value, high bulk personal property, such as junk, stockpiled sand, gravel, minerals, metals, or similar items, used in connection with a relocated business or farm operation, payment for actual reasonable moving expenses may not be more than the cost of replacing that property at the relocation site less the amount for which it could be sold at the displacement site.

§ 4.133 Actual direct losses; businesses and farm operations.

(a) Subject to the requirements and limitations in paragraphs (b) through (f) of this section, a displaced person who conducts a business or farm operation is entitled to payment for actual direct losses of personal property that is used in connection with the business or farm operation but is—

(1) No longer needed because the business or farm operation is being discontinued; or

(2) Not being moved to a relocation site because it is not suitable for use there.

(b) If a business or farm operation is relocated, payment for actual direct losses of personal property may not be more than the amount the displacing agency determines the reasonable moving expenses would be for moving that property to the relocation site.

(c) A displaced person who conducts a business or farm operation shall make a bona fide effort to sell personal property he does not move.

(d) If a displaced person relocates a business or farm operation and sells an item of personal property that he does not move and promptly replaces it with a comparable item, payment for actual direct loss of the original item may not be more than the replacement cost less its sale price, or the cost of moving the original item, whichever is less.

(e) If a displaced person discontinues a business or farm operation and sells an item of personal property, payment for actual direct loss of that item may not be more than the inplace value of the item less its sale price, or the cost of moving it, whichever is less.

(f) If a displaced person who conducts a business or farm operation abandons an item of personal property after making a bona fide effort to sell that property, payment for the actual direct loss of that item may not be more than the inplace value of the item less what its sale price would have been, or the cost of moving it, whichever is less.

§ 4.135 Expenses in searching for replacement business or farm operation.

(a) Except as provided in paragraph (b) of this section, a displaced person who conducts a business or farm operation is entitled to not more than $500, or such higher amount as the displacing agency considers justified under the circumstances, for actual reasonable expenses in searching for a replacement business or farm operation including—

(1) Cost of travel;

(2) Cost for meals and lodging;

(3) An amount for time spent searching, based on the salary or earnings of the displaced person from the business or farm operation, but not more than $10 per hour; and

(4) If the displacing agency considers it desirable, the cost of a broker or realtor to locate a replacement site.

(b) A displaced person who conducts an advertising business described in § 4.129, is entitled to not more than $100, or if the displacing agency considers it justified under the circumstances not more than $500, for actual reasonable expenses in searching for a replacement outdoor advertising display site.

Subpart F—Fixed Allowance in Lieu of Moving and Related Expenses

§ 4.151 Scope.

This subpart prescribes the requirements governing payment of dislocation and moving expense allowances to displaced persons who are eligible for payment of their actual moving and related expenses under Subpart E of this part, but elect to receive a fixed allowance in lieu thereof.

§ 4.153 Schedule of moving expense allowances; occupants of dwellings.

The displacing agency shall establish (or obtain) and maintain a schedule of moving expense allowances applicable to persons displaced from dwellings by projects to which this part applies, based on current moving costs in the project's locality. The allowance for any individual or displaced person may not exceed $300.

§ 4.155 Dislocation and moving expense allowances; occupants of dwellings.

A person displaced from a dwelling who elects to receive fixed dislocation and moving expense allowances in lieu of payment of actual moving and related expenses is entitled to—

(a) A dislocation allowance of $200; and

(b) The applicable moving expense allowance specified in the schedule of moving expense allowances maintained under § 4.153 for the locality concerned.

§ 4.156 Family treated as person.

For the purpose of this subpart, the term "person" includes two or more individuals who are living together in the same dwelling, as a single family unit and who are related to each other by blood, marriage, adoption, or legal guardianship.

§ 4.157 Application and payment.

Application and payment procedures under this subpart shall be as stated in § 4.121, except that a person electing to be paid under this subpart need not file an itemization of expenses of moving.

§ 4.159 Fixed allowance: businesses.

A displaced person who conducts a business and elects to receive a fixed allowance in lieu of actual moving and related expenses is entitled to a fixed amount equal to the average annual net income of the business, computed in accordance with § 4.163, but not less than $2,500 or more than $10,000, if that business—

(a) Substantially contributes to the income of the displaced person;

(b) Cannot, in the opinion of the displacing agency, be relocated without substantial loss of existing patronage taking into consideration—

(1) The type of the business;

(2) The nature of its clientele; and

(3) The relative importance of the displacement and proposed relocation sites to the business; and

(c) Is not part of a commercial enterprise having at least one other establishment engaged in the same or similar business which is not being acquired by a State agency or the United States.

§ 4.161 Fixed allowance: farm operation.

(a) A displaced person who conducts a farm operation and elects to receive a fixed allowance in lieu of actual moving and related expenses is entitled to a fixed amount equal to the average annual net income of the farm operation, computed in accordance with § 4.163, but not less than $2,500 or more than $10,000.

(b) In the case of a partial acquisition and displacement of a farm operation, the fixed allowance described in paragraph (a) of this section may be paid only if the displacing agency finds that—

(1) The displaced activity was a farm operation before the acquisition of the displacement site; and

(2) The property remaining after acquisition is not an economic unit.

§ 4.163 Computing average annual net income: businesses and farm operations.

(a) For the purposes of this subpart, the average annual net income of a business or farm operation is its average annual net earnings before Federal, State, and local income taxes during the 2 tax years immediately preceding the tax year in which it is displaced. Net earnings include compensation obtained from the business or farm operation by its owner, his spouse, or dependents, or in

the case of a corporate owner, by the holder of a majority of the common stock, his spouse, or dependents.

(b) For the purpose of determining majority ownership, stock held by an individual, his spouse, and his dependents shall be treated as a unit.

(c) If the displacing agency finds that the 2 tax years immediately preceding displacement are not representative, or if the business or farm operation has not been in operation that long, it may, with the concurrence of the Administrator, prescribe some other time period for computing average annual net income.

(d) If a displaced person who conducts a business or farm operation elects to receive a fixed payment under this subpart, he shall provide proof of his earnings from the business or farm operation to the displacing agency. Proof of earnings may be established by income tax returns, certified financial statements, or other similar evidence.

Subpart G—Replacement Housing Payments

§ 4.171 Scope.

This subpart prescribes the requirements governing payment for replacement housing for individuals and families displaced by projects which are part of a Federal or federally assisted program administered by the Environmental Protection Agency.

§ 4.173 Purchase of a decent, safe, and sanitary dwelling.

A displaced tenant or homeowner "purchases" a dwelling within the meaning of this subpart when he—

(a) Acquires an existing dwelling;

(b) Rehabilitates a substandard dwelling which he owns or acquires;

(c) Relocates a dwelling which he owns or acquires;

(d) Relocates and rehabilitates a substandard dwelling which he owns or acquires;

(e) Constructs a new dwelling on a site which he owns or acquires;

(f) Contracts to purchase a dwelling on a site provided by a builder; or

(g) Contracts for the construction of a dwelling on a site provided by a builder or on a site which he owns or acquires.

§ 4.175 Occupancy.

(a) A displaced tenant or homeowner "occupies" a dwelling within the meaning of this subpart only if the dwelling is his permanent place of residence.

(b) If a tenant or homeowner contracts for the construction or rehabilitation of a replacement dwelling, and for reasons not within his control the construction or rehabilitation is delayed beyond the date occupancy is required, the displacing agency may extend the period of eligibility for a replacement housing payment until the tenant or homeowner occupies the replacement dwelling.

§ 4.177 Inspection of replacement dwelling required.

(a) Before making a replacement housing payment to a displaced homeowner or tenant, or releasing a payment from escrow, as the case may be, the displacing agency shall inspect the replacement dwelling to determine whether or not it meets the criteria for decent, safe, and sanitary dwellings. The displacing agency may use the services of any public agency ordinarily engaged in housing inspection to conduct the inspection required by this section.

(b) A determination by the displacing agency that a dwelling meets the criteria for decent, safe, and sanitary housing is solely for the purpose of this subpart and is not a representation for any other purpose.

§ 4.179 Application and payment.

(a) Upon application by a displaced homeowner or tenant who meets the requirements of this subpart for a replacement housing payment, the displacing agency shall—

(1) If he has purchased or rented, and occupied a decent, safe, and sanitary dwelling, make the payment directly to him, or, at his option, to the seller or lessor of the decent, safe, and sanitary dwelling; or

(2) If he has purchased or rented, but not yet occupied a decent, safe, and sanitary dwelling, upon his request make the payment into an escrow account.

(b) The application shall be in writing and filed with the displacing agency within 18 months after the date the applicant was required to vacate an acquired dwelling or 6 months after final adjudication of a condemnation proceeding, whichever is later.

§ 4.181 Eligibility.

(a) A displaced homeowner is eligible for a replacement housing payment under § 4.183 if he—

(1) Qualifies a displaced person under § 4.7;

(2) Actually owned and occupied the acquired dwelling for at least 180 consecutive days immediately before the initiation of negotiations for the property or the issuance of a written notice of intent to acquire the property by a definite date, as the case may be; and

(3) Purchases and occupies a decent, safe, and sanitary dwelling within 1 year after the date he receives final payment for the acquired dwelling, or 1 year after the date he is required to move from the acquired dwelling, whichever is later.

(b) A displaced homeowner is eligible for a replacement housing payment under § 4.185 if he—

(1) Qualifies as a displaced person under § 4.7;

(2) Actually owned and occupied the acquired dwelling for at least 90 consecutive days immediately before the initiation of negotiations for the property or the issuance of a written notice of intent to acquire the property by a definite date, as the case may be; and

(3) Rents or purchases, and occupies a decent, safe, and sanitary dwelling within 1 year after the date he is required to move from the acquired dwelling, whichever is later.

(c) A displaced tenant is eligible for a replacement housing payment under § 4.185 if he—

(1) Qualifies as a displaced person under § 4.7;

(2) Actually occupied the acquired dwelling for at least 90 consecutive days immediately before the initiation of negotiations for the property or the issuance of a written notice of intent to acquire the property by a definite date, as the case may be; and

(3) Rents or purchases, and occupies a decent, safe, and sanitary dwelling within 1 year after the date he is required to move from the acquired dwelling.

(d) For the purpose of paragraphs (a)(2) and (b)(2) of this section, if a homeowner inherits an interest in a dwelling by devise or operation of law, his tenure of ownership includes the tenure of the preceding homeowner.

§ 4.183 Replacement housing payment: purchase price.

A displaced homeowner who qualifies under § 4.181(a) is entitled to a replacement housing payment of not more than $15,000. Within that limitation the payment shall consist of the following amounts:

(a) If the reasonable cost of a comparable replacement dwelling is more than the acquisition price of the acquired dwelling, the difference between them.

(b) If there was a bona fide mortgage which constituted a valid lien on the acquired dwelling for at least 180 days before the initiation of negotiations for the acquired dwelling and if the cost of financing the purchase of a replacement dwelling includes increased interest costs, an amount to compensate for that increase.

(c) An amount necessary to cover incidental expenses on the purchase of a replacement dwelling, but not including prepaid expenses.

§ 4.185 Replacement housing payments: rent and down payments.

A displaced homeowner who qualifies under § 4.181(b) or a displaced tenant who qualifies under § 4.181(c), is entitled to a replacement housing payment of not more than $4,000. Within that limitation the payment shall be that amount necessary for the homeowner or tenant to—

(a) Rent a comparable replacement dwelling for a period of not more than 4 years; or

(b) Make the down payment required for a conventional loan and cover the incidental expenses on the purchase of a comparable replacement dwelling.

§ 4.187 Rules for considering land values.

In determining the amount of a replacement housing payment under § 4.183(a) the following rules apply:

(a) If the dwelling is located on a tract typical for residential use in the area, the amount payable is the probable selling price of a comparable replacement dwelling on a tract typical for the area less the value of the acquired property.

(b) If the dwelling is located on a tract larger than typical for residential use in the area, the amount payable is the probable selling price of a comparable replacement dwelling on a tract typical for the area less the estimated value of the dwelling assuming it was located on a tract typical for the area.

(c) If the dwelling is located on a tract that has a use higher and better than residential, the amount payable is the probable selling price of a comparable replacement dwelling on a tract typical for residential use in the area less the estimated value of the dwelling assuming it was located on a tract typical for residential use in the area.

§ 4.189 Limitations; payment for purchase price.

(a) The price established as the reasonable cost of a comparable replacement dwelling sets the upper limit of the differential amount payable under § 4.183(a). To qualify for the full amount, the homeowner must purchase and occupy a decent, safe, and sanitary dwelling higher in value than the acquired dwelling.

(b) If the homeowner voluntarily purchases and occupies a decent, safe, and sanitary dwelling at a price less than the reasonable cost established for a comparable replacement dwelling, the amount payable under § 4.183(a) is that amount required to pay the difference between the acquisition price of the acquired dwelling and the actual purchase price of the decent, safe, and sanitary dwelling.

§ 4.191 Reasonable cost of comparable replacement dwelling.

In determining the reasonable cost of a comparable replacement dwelling available on the private market, the displacing agency shall use one of the following methods:

(a) It may establish a schedule of reasonable acquisition costs for the various types of comparable replacement dwellings which are available. If more than one agency is administering a project causing displacements in the area, it shall cooperate with those agencies in establishing a uniform schedule for the area. The schedule must be based on a current analysis of the market to determine a reasonable cost for each type of dwelling to be purchased. In large urban area this analysis may be confined to one area of the city, or may cover several different areas if they are comparable and equally accessible to public services and places of employment. To assure the greatest comparability of dwellings in any analysis, the analysis shall be divided into classifications of the type of construction, number of rooms, and price ranges.

(b) It may determine the reasonable cost of a comparable replacement dwelling by examining the probable selling prices of at least three comparable replacement dwellings which are available. Selection of the dwellings must be made by a qualified employee of the displacing agency who is familiar with real property values and current real estate transactions.

(c) If it finds that the methods described in paragraphs (a) and (b) of this section are not feasible for determining the reasonable cost of a comparable replacement dwelling, it may propose what it considers to be a feasible method to the Administrator for approval.

§ 4.193 Owner retention.

(a) If a displaced homeowner elects to retain and move his dwelling, the amount payable under § 4.183(a) is the difference between the acquisition price of the acquired dwelling and the sum of—

(1) The moving and restoration expenses;

(2) The cost of correcting decent, safe, and sanitary deficiencies, if any; and

(3) The estimated selling price of a comparable relocation site.

(b) The amount computed in accordance with paragraph (a) of this section is subject to the limitations prescribed in § 4.189.

§ 4.195 Increased interest costs.

(a) The amount payable for increased interest costs under § 4.183(b) is—

(1) The present value of the difference in interest costs and other debt service costs charged for refinancing an amount not more than the balance of the mortgage on the acquired dwelling at the time of acquisition over a period not more than the remaining term of that mortgage; or

(2) An amount based on a schedule prescribed or approved by the Administrator and computed in accordance with this section.

(b) For purposes of computing increased interest costs, the following rules apply:

(1) The interest charge on the new mortgage may not exceed the prevailing interest rate currently charged by mortgage lending institutions in the area.

(2) The present value of the increased interest cost shall be computed at the prevailing interest rate paid on savings deposits by commercial banks in the area.

§ 4.197 Incidental expenses.

(a) The incidental expenses payable under § 4.183(c) or § 4.185(b) is the amount necessary to compensate the homeowner or tenant for actual costs incurred incident to the purchase of a decent, safe, and sanitary dwelling, including the following:

(1) Legal closing costs, including title search, preparing conveyance contracts, notary fees, surveys, preparing drawings of plots, and charges incident to recordation.

(2) Lender, FHA, or VA appraisal fees.

(3) FHA or VA application fee.

(4) Certification of structural soundness when required by the lender, FHA, or VA.

(5) Credit report.

(6) Title policies or abstract of title.

(7) Escrow agent's fee.

(8) State revenue stamps or sale or transfer taxes.

(b) An incidental expense which is part of a finance charge under the Truth in Lending Act, Title I, Public Law 90-321, and Regulation "Z" issued thereunder by the Board of Governors of the Federal Reserve System, may not be reimbursed.

§ 4.199 Computation of rental payments; tenants.

(a) The amount payable to a displaced tenant, other than a tenant of the displacing agency, for rent under § 4.185(a) is 48 times the reasonable monthly rent for a comparable replacement dwelling, less 48 times the average month's rent paid by the displaced tenant for the last 3 months before initiation of negotiations for the acquired dwelling if that rent was reasonable, and if not reasonable 48 times the monthly economic rent for the dwelling unit as established by the displacing agency.

(b) The amount payable to a displaced tenant of the displacing agency for rent under § 4.185(a) is 48 times the reasonable monthly rent for a comparable replacement dwelling less 48 times the monthly economic rent.

§ 4.201 Computation of rental payments; homeowners.

The amount payable to a displaced homeowner is 48 times the reasonable monthly rent for a comparable replacement dwelling less 48 times the monthly economic rent, but not more than the homeowner would receive if he were eligible for a payment under § 4.183.

§ 4.203 Determining reasonable monthly rent.

In determining the reasonable monthly rent for a comparable replacement dwelling for the purposes of §§ 4.199 and 4.201, the displacing agency shall use one of the following methods:

(a) It may establish a schedule of monthly rents for each type of dwelling required. The schedule shall be based on an analysis of the available private market. If more than one agency is administering a project causing displacement in the area, it shall cooperate with those agencies in establishing a uniform schedule for the area.

(b) It may determine a reasonable rent by examining the rent of at least three comparable replacement dwellings available on the private market.

(c) If it finds that the methods described in paragraphs (a) and (b) of this section are not feasible, it may propose what it considers to be a feasible method to the Administrator for approval.

§ 4.205 Rental payments; method of payment.

If a rental payment under § 4.185(a) is more than $500, it shall be made in four equal annual installments. Before making an annual payment, the displacing agency shall verify that the

tenant still occupies a decent, safe, and sanitary dwelling.

§ 4.207 Computation of down payments.

The amount payable to a displaced homeowner or tenant for a down payment under § 4.185(b) is the full amount of the first $2,000 of the required down payment plus one-half of any amount required over $2,000. However, the homeowner or tenant must provide the other half of any amount required over $2,000.

§ 4.209 Down payments.

A displaced homeowner or tenant shall apply the full amount of the payment to which he is entitled under § 4.185(b) to the down payment and the incidental expenses described in the closing statement.

§ 4.211 Provisional payment pending condemnation.

If the exact amount of a replacement housing payment cannot be determined because of a pending condemnation suit, the displacing agency may make a provisional replacement housing payment to the displaced homeowner based on the agency's maximum offer for the property, but only if the homeowner enters into an agreement with the agency that—

(a) Upon final adjudication of the condemnation suit the replacement housing payment will be recomputed on the basis of the acquisition price determined by the court;

(b) If the acquisition price as determined by the court is greater than the agency's maximum offer upon which the provisional replacement housing payment is based, the difference shall be refunded to the agency; and

(c) If the acquisition price as determined by the court is less than the agency's maximum offer upon which the provisional replacement housing payment is based, the difference shall be paid to the homeowner.

§ 4.213 Combined payments.

(a) If a homeowner is eligible for payment under § 4.183, but has previously received a rental payment under § 4.185(a), the amount of rental payment previously received shall be deducted from any amount that he receives under § 4.183.

(b) If a homeowner or tenant is eligible for a down payment under § 4.185(b), but has previously received a rental payment under § 4.185(a), the amount of rental payment previously received shall be deducted from the amount of any down payment that he receives under § 4.185(b).

§ 4.215 Partial use of home for business or farm operation.

(a) In the case of a displaced homeowner or tenant who has allocated part of his dwelling for use in connection with a displaced business or farm operation, a replacement housing payment may not be paid for that part of the property which is allocated to the business or farm operation.

(b) The eligibility of a person to receive a payment under § 4.127 is not affected by this section.

§ 4.217 Multiple occupants of a single dwelling.

(a) If two or more families, or an individual and a family, occupy the same dwelling, each such individual or family that elects to relocate separately is entitled to a separately computed replacement housing payment.

(b) If two or more individuals, not a family, occupy the same dwelling, they shall be treated as a single family in computing a replacement housing payment.

§ 4.219 Multifamily dwelling.

In the case of a displaced homeowner who is required to move from a one-family unit of a multifamily building which he owns, the replacement housing payment shall be based on the cost of a comparable one-family unit in a multifamily building or a single family structure, without regard for the number of units in the building being acquired.

§ 4.221 Certificate of eligibility pending purchase of replacement dwelling.

Upon request by a displaced homeowner or tenant who has not yet purchased and occupied a comparable replacement dwelling, but who is otherwise eligible for a replacement housing payment under this subpart, the displacing agency shall certify to any interested party, financial institution, or lending agency, that the displaced homeowner or tenant will be eligible for the payment of a specific sum if he purchases and occupies a decent, safe, and sanitary dwelling within the time limits prescribed by § 4.181(a)(3), (b)(3), or (c)(3), as the case may be.

Subpart H—Relocation Assistance Functions Carried Out Through Other Agencies

§ 4.231 Authority to carry out relocation assistance through other agencies.

To prevent unnecessary expenses and duplication of activities, an agency that is required to provide relocation services or make relocation payments under this part may carry out any of those functions through the facilities, personnel, and services, of any Federal, State, or local governmental or private agency having an established organization for conducting relocation assistance programs.

§ 4.233 Interagency agreement required.

If the displacing agency elects to provide relocation services or make relocation payments through another agency, it shall enter into a written agreement with that agency. The agreement must be approved by the Administrator and must contain the following:

(a) An obligation on the part of the other agency to perform the services and make the relocation payments in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, and this part.

(b) A requirement that the records required by § 4.19 be retained by the other agency or turned over to the displacing agency and that they be retained for a period of at least 3 years after payment of the final voucher on each project, regardless of which agency retains them.

(c) A requirement that the records required by § 4.19 be available for inspection by representatives of the Environmental Protection Agency at any reasonable business hour.

(d) If the contract is with a public agency administering another Federal or federally assisted program, a description of the financial responsibilities of each program to finance the relocation program required by this part.

(e) A provision acknowledging that only those costs directly chargeable to the Federal or federally assisted project are eligible for Federal funds.

(f) A provision for negotiation of major changes that become necessary in the scope, character, or estimated total cost of the work to be performed.

§ 4.235 Amendment of existing agreements required.

Each agreement between a displacing agency and another agency for carrying out relocation assistance functions through the other agency that is in effect on September 1, 1971, shall be amended or supplemented as necessary to include the requirements of § 4.233. The displacing agency shall furnish the Administrator with a copy of the amended agreement or the existing agreement and the supplement, as the case may be.

Subpart I—Acquisition of Real Property

§ 4.251 Scope.

This subpart prescribes requirements for the acquisition of real property in a Federal or federally-assisted program administered by the Environmental Protection Agency.

§ 4.253 Real property acquisition practices.

(a) In acquiring real property, each displacing agency shall to the greatest extent practicable—

(1) Make every reasonable effort to acquire real property expeditiously through negotiation;

(2) Before the initiation of negotiations have the real property appraised and give the owner or his representative an opportunity to accompany the appraiser during inspection of the property;

(3) Before the initiation of negotiations, establish an amount which it believes to be just compensation for the real property, and make a prompt offer to acquire the property for that amount;

(4) Before requiring any owner to surrender possession of real property—

(i) Pay the agreed purchase price; or

(ii) Deposit with the court, for the benefit of the owner, an amount not less than the agency's approved appraisal of the fair market value of the property; or

(iii) Pay the amount of the award of compensation in a condemnation proceeding for the property;

(5) If interest in real property is to be acquired by exercise of the power of eminent domain, institute formal condemnation proceedings and not intentionally make it necessary for an owner to institute legal proceedings to prove the fact of the taking of his real property; and

(6) If the acquisition of only part of a property would leave its owner with an uneconomic remnant, offer to acquire that remnant.

(b) In acquiring real property, to the greatest extent practicable an agency may not—

(1) Schedule the construction or development of a public improvement that will require any person lawfully occupying real property to move from a dwelling, or to move his business or farm operation, without giving that person at least 90 days' written notice of the date he is required to move;

(2) If it rents acquired real property to the former owner or tenant for short term or subject to termination by the agency on short notice, charge rent that is more than the fair rental value of the property to a short-term occupant;

(3) Advance the time of condemnation;

(4) Defer negotiations, condemnation, or the deposit of funds in court for use of the owner; or

(5) Take any coercive action to compel an owner to agree to a price for his property.

§ 4.255 Statement of just compensation to owner.

At the time it makes an offer to purchase real property, the displacing agency shall provide the owner of that property with a written statement of the basis for the amount estimated to be just compensation. The statement shall include the following:

(a) An identification of the real property and the particular interest being acquired.

(b) A certification, where applicable that any separately held interest in the real property is not being acquired in whole or in part.

(c) An identification of buildings, structures, and other improvements, including fixtures, removable building equipment, and any trade fixtures which are considered to be part of the real property for which the offer of just compensation is made.

(d) An identification of any real property improvements, including fixtures, not owned by the owner of the land.

(e) An identification of the types and approximate quantity of personal property located on the premises that is not being acquired.

(f) A declaration that the agency's determination of just compensation—

(1) Is based on the fair market value of the property;

(2) Is not less than the approved appraised value of the property;

(3) Disregards any decrease or increase in the fair market value caused by the project for which the property is being acquired; and

(4) In the case of separately held interests in the real property, includes an apportionment of the total just compensation for each of those interests.

(g) The amount of damages to any remaining real property.

§ 4.257 Equal interest in improvements to be acquired.

In acquiring any interest in real property each displacing agency shall acquire at least an equal interest in all buildings, structures, or other improvements located on that real property which will be removed or which will be adversely affected by the completed project.

§ 4.259 Payments to tenants for improvements.

(a) In the case of a building, structure, or other improvement owned by a tenant on real property acquired for a project to which this part applies, the displacing agency shall, subject to paragraph (b) of this section, pay the tenant the larger of—

(1) The fair market value of the improvement, assuming its removal from the property; or

(2) The enhancement of the fair market value of the real property.

(b) A payment may not be made to a tenant under paragraph (a) of this section unless—

(1) The tenant, in consideration for the payment, assigns, transfers, and releases to the displacing agency all his right, title, and interest in the improvement;

(2) The owner of the land involved disclaims all interest in the improvement; and

(3) The payment is not duplicated by any payment otherwise authorized by law.

§ 4.261 Expenses incidental to transfer of title.

As soon as possible after real property has been acquired, the displacing agency shall reimburse the owner for—

(a) Recording fees, transfer taxes, and similar expenses incidental to conveying the real property to the agency;

(b) Penalty costs for prepayment of any preexisting recorded mortgage entered into in good faith encumbering the real property; and

(c) The pro rata portion of any prepaid real property taxes which are allocable to a period subsequent to the date of vesting title in the agency or the effective date of possession of the real property by the agency, whichever is the earlier.

§ 4.263 Litigation expenses.

(a) In any condemnation proceeding brought by the displacing agency to acquire real property, it shall reimburse the owner of any right, title, or interest in the real property for his reasonable costs, disbursements, and expenses, including attorney, appraisal, and engineering fees, actually incurred because of the proceeding, if—

(1) The final judgment is that the displacing agency cannot acquire the real property by condemnation; or

(2) The proceeding is abandoned by the displacing agency concerned.

(b) In any inverse condemnation proceeding where the owner of any right, title, or interest in real property receives an award of compensation by judgment or settlement, the displacing agency shall reimburse the plaintiff for his reasonable costs, disbursements, and expenses, including reasonable attorney, appraisal, and engineering fees, actually incurred because of the proceeding.

APPENDIX A—RECORDS

The following list sets forth relocation information which a displacing agency shall maintain for each Federal or federally-assisted project that it administers.

I. *General.* The displacing agency shall keep a record of the following general information concerning the project:

(1) Project and parcel identification.

(2) Name and address of each displaced person; his new address and telephone number if available.

(3) Dates of all personal contacts made with each displaced person.

(4) Date each displaced person is given notice of relocation payments and services.

(5) Name of agency employee who offers relocation assistance.

(6) Whether the offer of assistance is declined or accepted, and the name of the individual who accepts or declines the offer.

(7) Date each displaced person is required to move.

(8) Date of actual relocation, and whether relocation was accomplished with the assistance of the displacing agency, other agencies, or without assistance.

(9) Type of tenure held by each displaced person before and after relocation.

II. *Displacements from dwellings.* The displacing agency shall keep a record of the following information concerning each individual or family displaced from a dwelling in connection with the project:

(1) Number in family, or number of individuals.

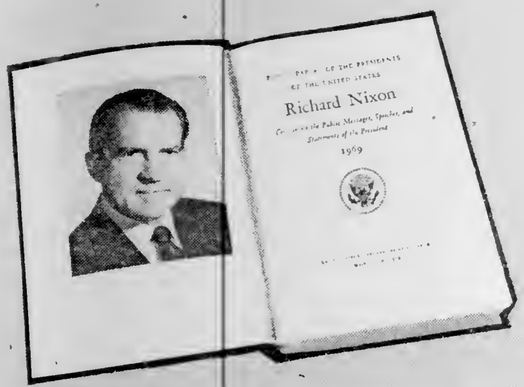
(2) Type of dwelling.
(3) Fair market value, or monthly rent.
(4) Number of rooms.

III. *Displaced businesses.* The displacing agency shall keep a record of the following information concerning each business displaced in connection with the project:

(1) Type of business.
(2) Whether or not relocated.
(3) If relocated, distance moved.
(4) Data supporting a determination that a business cannot be relocated without a substantial loss of its existing patronage and that it is not part of a commercial enterprise having at least one other establishment not being acquired by a State agency or the United States.

IV. *Moving expenses.* The displacing agency shall keep a record of the following information concerning each payment of moving and related expenses in connection with the project:

(1) The date personal property is moved, and the original and new locations of the personal property.
(2) If personal property is stored temporarily—
(a) The place of storage;
(b) The duration of storage; and
(c) A statement of why storage is necessary.
(3) An account of all moving expenses that are supported by receipted bills or similar evidence of expense;
(4) Amount of reimbursement claimed, amount allowed, and an explanation of any difference.
(5) In the case of a business or farm operation that receives a fixed allowance in lieu of moving expenses, data underlying the computation of such payment.



V. *Replacement housing payments.* The displacing agency shall keep a record of the following information concerning each relocation housing payment made in connection with the project:

(1) The date application for payment is received.
(2) The date application for payment is approved or rejected.
(3) Data substantiating the amount of payment.
(4) If replacement housing is purchased, a copy of the closing statement indicating the purchase price, down payment, and incidental expenses.
(5) Whenever a rental payment is made by annual installment, a statement confirming that the tenant still occupies a decent, safe, and sanitary dwelling.
(6) A copy of the Truth in Lending Statement, or other data, including computations, that confirms the increased interest payment.

FEDERAL REGISTER
Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

INCOME TAX—IRS proposal on consolidated returns; comments by 10–11–71 16661

Title 7—AGRICULTURE

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruit, Vegetables, Nuts), Department of Agriculture

[Lemon Reg. 493, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910; 36 F.R. 9061), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based become available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

(b) *Order, as amended.* The provision in paragraph (b)(1) of § 910.793 (Lemon Reg. 493, 36 F.R. 15423) during the period August 15, through August 21, 1971, is hereby amended to read as follows: "• • • 225,000 cartons."

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 19, 1971.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[FR Doc.71-12384 Filed 8-24-71;8:46 am]

PART 987—DOMESTIC DATES PRODUCED OR PACKED IN RIVERSIDE COUNTY, CALIF.

Expenses of California Date Administrative Committee for 1970–71 Crop Year

This action authorizes expenses of the California Date Administrative Committee in the amount of $32,850 for the 14-month crop year beginning August 1, 1970, and ending September 30, 1971, in lieu of those previously authorized (7 CFR 987.315(a)) for the Date Administrative Committee in the amount of $29,847 for the 12-month crop year beginning August 1, 1970, and ending July 31, 1971. The administrative agency recommended approval of expenses for such 14-month period. The California Date Administrative Committee is established pursuant to the marketing agreement, as amended, and Order No. 987, as amended (7 CFR Part 987), and further amended effective August 12, 1971 (36 F.R. 15036), regulating the handling of domestic dates produced or packed in Riverside County, Calif., hereinafter referred to collectively as the "order". The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The August 12, 1971 (36 F.R. 15036), amendment provides, among other things, that the name of the administrative agency established pursuant to the order is "California Date Administrative Committee"—formerly the Date Administrative Committee—that the 1970–71 crop year beginning August 1, 1970, be extended to end September 30, 1971, and that ensuing crop years be comprised of 12 successive calendar months, each beginning October 1. The administrative agency has estimated that its expenses during the 14-month crop year will be approximately $3,000 more than the expenses approved for committee operations for the 12-month crop year. Hence, the aforesaid amount of $29,847 would be insufficient to meet the 14-month 1970–71 crop year's expenses during the entire period beginning August 1, 1970, and ending September 30, 1971.

According to the administrative agency, the rate of assessment of 10 cents per hundredweight on all accessible dates fixed for the 12-month 1970–71 crop year (7 CFR 987.315(b)) should continue in effect during the entire 14-month period. Assessment income derivable from application of such assessment rate during the extended 1970–71 crop year should be sufficient to meet authorized expenses in the amount of $32,850 and, therefore, no increase in the rate of assessment is necessary.

After consideration of the aforesaid recommendation and supporting information submitted by the administrative agency, and other available information, it is found that the revised expenses of the administrative agency and the rate of assessment, as hereinafter set forth, for the 1970–71 crop year (which began August 1, 1970, and ends September 30, 1971), will tend to effectuate the declared policy of the act.

Therefore, § 987.315 of Subpart—Budget of Expenses and Rate of Assessment is hereby revised to read as follows:

§ 987.315 Expenses of the California Date Administrative Committee and rate of assessment for the 1970–71 crop year.

(a) *Expenses.* Expenses in the amount of $32,850 are reasonable and likely to be incurred by the California Date Administrative Committee during the 1970–71 crop year beginning August 1, 1970, for its maintenance and functioning and for such other purposes as the Secretary may, pursuant to the applicable provisions of this part, determine to be appropriate.

(b) *Rate of assessment.* The rate of assessment for that crop year which each handler is required, pursuant to § 987.72, to pay to the California Date Administrative Committee as his pro rata share of the expense is fixed at 10 cents per hundredweight on all assessable dates. Assessable dates are dates which the handler has certified during the crop year as meeting the requirements for marketable dates, including the eligible portion of any field-run dates certified and set aside or disposed of pursuant to § 987.45(f).

It is further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice and engage in public rule making procedure, and that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) The August 12, 1971, amendment (36 F.R. 15036) of the order extended the 1970–71 crop year which began August 1, 1970, and ended July 31, 1971, for 2 months, through September 30, 1971; (2) handlers have been aware of the possible change in period of the 1970–71 crop year from 12 to 14 months, as discussed in the recommended decision which was published in the FEDERAL REGISTER on May 27, 1971 (36 F.R. 9655), and adopted as the Assistant Secretary's decision dated July 9, 1971 (36 F.R. 13153); (3) necessary Committee expenses will be incurred during the current month and the subsequent one in addition to those previously authorized for the 12-month crop year and the agency should have authority to defray such additional expenses with assessment income; (4) the amount of $29,847 previously approved as expenses of the administrative agency for the 12-month crop year beginning August 1, 1970, and ending July 31, 1971, is insufficient to meet the authorized anticipated expenses for order operations during the 14-month crop year beginning August 1, 1970, and ending September 30, 1971; (5) handlers were afforded the opportunity to present their views on the aforesaid recommendation of the administrative agency at an open meeting on July 28, 1971, to consider the matter of expenses and assessments; (6) the relevant provisions of the amended marketing agreement and this part require that the rate of assessment fixed for a particular crop year shall be applicable to all assessable dates

VOL 36 165 XUM

during that crop year; and (7) the current crop year began August 1, 1970, and the rate of assessment will automatically apply to all such dates beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 19, 1971.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[FR Doc.71-12385 Filed 8-24-71;8:46 am]

Title 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

MISCELLANEOUS AMENDMENTS TO CHAPTER

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

PART 214—NONIMMIGRANT CLASSES

§ 214.2 [Amended]

The second sentence of subparagraph (1) *Without visas* of paragraph (c) *Transits* of § 214.2 *Special requirements for admission, extension, and maintenance of status* is amended by adding "Atlanta, Ga." to the listed ports of entry to read as follows: "Except for transit from one part of foreign contiguous territory to another part of the same territory, application for direct transit without a visa must be made at one of the following ports of entry: Buffalo, N.Y.; Niagara Falls, N.Y.; Rouses Point, N.Y.; Boston, Mass.; New York, N.Y.; Philadelphia, Pa.; Baltimore, Md.; Washington, D.C.; Norfolk, Va.; Atlanta, Ga.; Miami, Fla.; Port Everglades, Fla.; Tampa, Fla.; New Orleans, La.; San Antonio, Tex.; Dallas, Tex.; Houston, Tex.; Brownsville, Tex.; San Diego, Calif.; Los Angeles, Calif.; San Francisco, Calif.; Honolulu, Hawaii; Seattle, Wash.; Portland, Oreg.; Great Falls, Mont.; St. Paul, Minn.; Chicago, Ill.; Detroit, Mich.; Denver, Colo.; Anchorage, Alaska; Fairbanks, Alaska; San Juan, P.R.; Ponce, P.R.; Charlotte Amalie, V.I.; Christiansted, V.I.; Agana, Guam."

PART 238—CONTRACTS WITH TRANSPORTATION LINES

§ 238.3 [Amended]

The listing of transportation lines in paragraph (b) *Signatory lines* of § 238.3 *Aliens in immediate and continuous transit* is amended by adding the following transportation line in alphabetical sequence: "Shawnee Airlines, Inc."

PART 264—REGISTRATION AND FINGERPRINTING OF ALIENS IN THE UNITED STATES

Section 264.1 *Registration and fingerprinting* is amended by adding new paragraph (h) to read as follows:

§ 264.1 Registration and fingerprinting.

* * * * *

(h) *Copy of Form I-94.* An attorney or representative as defined in § 1.1 of this chapter who is representing an alien before the Service or the Board may make and retain, solely for information purposes, a copy of the Form I-94 (Arrival-Departure Record) issued to and in the possession of the alien. Such copy shall not be used for any other purpose.

PART 299—IMMIGRATION FORMS

§ 299.1 [Amended]

The listing of forms in § 299.1 *Prescribed forms* is amended to reflect the current edition date of the following forms:

Form No., Title, and description	
* * * * *	
G-28 (4-15-71)	Notice of Entry of Appearance as Attorney or Representative.
* * * * *	
G-325A (4-1-71)	Biographic Information.
G-325B (5-1-71)	Biographic Information.
* * * * *

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

This order shall be effective on the date of its publication in the FEDERAL REGISTER (8-25-71). Compliance with the provisions of section 553 of title 5 of the United States Code (80 Stat. 383), as to notice of proposed rule making and delayed effective date, is unnecessary in this instance and would serve no useful purpose because the amendment to § 214.2(c)(i) adds a port of entry; the amendment to § 238.3(b) adds a transportation line to the listing; the amendment to § 264.1 grants an exemption; and the amendment to § 299.1 is editorial in nature.

Dated: August 19, 1971.

RAYMOND F. FARRELL,
Commissioner of Immigration and Naturalization.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 71-SO-104]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zones and Transition Area

Correction

In F.R. Doc. 71-11365 appearing on page 14636 in the issue of Saturday, August 7, 1971, the paragraph reading "That airspace extending upward from 700 Evansville, Ind. transition area." following the Cincinnati, Ohio, control zone should be deleted.

Title 12—BANKS AND BANKING

Chapter II—Federal Reserve System

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Z]

PART 226—TRUTH IN LENDING

Open End Credit; Change in Method of Determining Balance on Which Finance Charges Are Computed

§ 226.705 Open end credit—change in the method of determining the balance on which finance charges are computed.

(a) The creditor of an open end credit account plan desires to change his method of determining the balance on which finance charges are computed from a method in which payments and credits made during the billing cycle are not deducted in determining such balance to a method in which such payments and credits are deducted in determining such balance. This change results in a reduction in finance charges to the customer, where full payment of the account is deferred. The question arises whether notice of such change is required to be sent to customers of open end credit accounts under § 226.7(e), since that section also provides that prior notice is not required if the only change is a reduction in the "periodic rate or rates, or in any minimum, fixed, check service, transaction, activity, or similar charge applicable to the account."

(b) Where a creditor changes his method of determining the balance on which finance charges are computed from a method in which payments and credits made during the billing cycle are not deducted in determining such balance, to a method in which such payments and credits are deducted in determining such balance, § 226.7(e) requires no prior notice of such change in terms, provided no other changes in terms applicable to the account are made simultaneously which would require § 226.7(e) notification.

(Interprets and applies 15 U.S.C. 1637)

By order of the Board of Governors, July 29, 1971.

[SEAL] NORMAND BERNARD,
Assistant Secretary.

Title 20—EMPLOYEES' BENEFITS

Chapter III—Social Security Administration, Department of Health, Education, and Welfare

[Regulations No. 5, further amended]

PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED (1965——)

Subpart B—Supplementary Medical Insurance Benefits; Enrollment, Coverage, Exclusions, and Payment

On August 6, 1970, there was published in the FEDERAL REGISTER (35 F.R. 12545) a notice of proposed rule making with proposed amendments which expand, revise, and update Subpart B of Regulations No. 5.

The statement in the preamble to the notice of proposed rule making, concerning the extension by the 1967 amendments of Part B coverage to "certain nonroutine services of podiatrists or surgical chiropodists," was subject to misinterpretation. The statement was intended to merely reflect the extension of coverage to certain services of podiatrists or surgical chiropodists as physician services.

After consideration of all such relevant matter as was presented by interested persons, the amendments as so proposed are hereby adopted, subject to the following changes:

1. Paragraph (a) of § 405.217 is changed to more explicitly set forth the requirement that States must pay the supplementary medical insurance premium for each month of coverage furnished an individual pursuant to a "buy-in" agreement under section 1843 of the Act.

2. Final decisions have not been reached with respect to the proposed revision of paragraph (c) of § 405.223 relating to coverage periods under State buy-in agreements. The proposed revision is accordingly withdrawn and the provisions of § 405.223(c) presently in effect and included herein remain in effect.

3. Subparagraph (2) of § 405.232(i) is changed so as to extend its applicability to any timely filed claim for ambulance service rendered prior to the effective date of the amendment.

Effective date. These amendments shall be effective as of the date of publication in the FEDERAL REGISTER (8-25-71).

Dated: July 23,1971.

ROBERT M. BALL,
Commissioner of Social Security.

Approved: August 18, 1971.

JOHN G. VENEMAN,
Acting Secretary of Health, Education, and Welfare.

Chapter III, Title 20, is amended by revising Subpart B of Part 405 to read as follows:

Sec.
405.201 Supplementary medical insurance; general.
405.202 Enrollment; general.
405.205 Eligibility requirements for enrollment.
405.206 Persons ineligible to enroll.
405.210 Individual enrollment; enrollment procedures.
405.211 Individual enrollment; enrollment periods; general.
405.212 Individual enrollment; initial enrollment period.
405.213 Individual enrollment; general enrollment periods.
405.214 Individual enrollment; limitation on enrollment and reenrollment.
405.215 Individual enrollment; enrollment periods ending on a nonworkday.
405.217 Enrollment pursuant to a State agreement.
405.220 Coverage period; general.
405.221 Individual enrollment; coverage period beginning date.
405.222 Enrollment pursuant to a State agreement; coverage period beginning date.
405.223 Individual enrollments; State enrollments; manner and time of termination of enrollment and coverage period.
405.224 Good cause for failure to enroll during the initial enrollment period ending May 31, 1966.
405.230 Supplementary medical insurance benefits.
405.231 Medical and other health services; included items and services.
405.232 Medical and other health services; conditions, limitations, and exclusions.
405.233 Home health services; general.
405.234 Home health services; conditions.
405.235 Home health services; place where items and services must be furnished.
405.236 Home health services; items and services included.
405.237 Home health services; items and services not included.
405.238 Home health services; "visits" defined.
405.239 Option available to patients under a home health plan who require physical therapy.
405.240 Payment of supplementary medical insurance benefits; amounts payable.
405.241 Payment of supplementary medical insurance benefits; election by group-practice prepayment plan as to method of determining amount of payment.
405.243 Psychiatric services limitation; expenses incurred for physician services.
405.244 Incurred expenses; expenses excluded from total expenses or not considered for purposes of the deductibles.
405.245 The supplementary medical insurance benefits deductible.
405.246 Supplementary medical insurance blood deductible.
405.249 Payment to a nonparticipating hospital furnishing emergency outpatient services.
405.250 Procedures for payment; medical and other health services furnished by participating provider; home health services.
405.251 Procedures for payment; medical and other health services furnished by other than a participating provider.
405.252 Conditions prohibiting payment of benefits.

AUTHORITY: The provisions of this Subpart B issued under secs. 1102, 1831-1843, 1861, 1862, 1866, 1871, 49 Stat. 647, as amended, 79 Stat. 301-312, 313, 325, 327, 331; 42 U.S.C. 1302, 1395 et seq.

§ 405.201 Supplementary medical insurance; general.

Part B of title XVIII of the Act provides for a voluntary "supplementary medical insurance plan" available to most individuals age 65 and over. This supplementary medical insurance plan (which is financed by premiums paid by (or for) each individual enrolled in the plan plus matching contributions from funds appropriated by the Federal Government) provides coverage against the costs of certain physicians' services, home health services (without any requirement of prior hospitalization), and other medical and health services in and out of medical institutions. The conditions for enrollment in the supplementary medical insurance plan, the coverage period, the types of benefits provided, amounts paid, and limitations and conditions with respect to payment are set out in this Subpart B. (For collection of premiums for supplementary medical insurance, see Subpart I of this part.)

§ 405.202 Enrollment; general.

To become entitled to supplementary medical insurance benefits, an individual must meet the eligibility requirements for enrollment (see § 405.205) and must enroll (see § 405.210) or be enrolled pursuant to an agreement with a State (see § 405.217) in the supplementary medical insurance plan.

§ 405.205 Eligibility requirements for enrollment.

An individual who is age 65 or over is eligible for enrollment in the supplementary medical insurance plan (unless excluded under § 405.206) if:

(a) He is entitled to hospital insurance benefits under title XVIII of the Act (see § 404.367 of this chapter); or

(b) He is a citizen and resident of the United States; or

(c) He is an alien lawfully admitted for permanent residence, who is a resident of the United States and who has resided in the United States continuously during the 5 years immediately preceding the month in which he applies for enrollment.

VOL 36 165 XUM

§ 405.206 Persons ineligible to enroll.

Notwithstanding the provisions specified in § 405.205, an individual is not eligible for enrollment in the supplementary medical insurance plan if he has been convicted of any offense under chapter 37 (relating to espionage and censorship), chapter 105 (relating to sabotage), or chapter 115 (relating to treason, sedition, and subversive activities) of title 18 of the United States Code, or under sections 4, 112, or 113 of the Internal Security Act of 1950, as amended (relating to conspiracies to establish dictatorships and conspiracies to commit espionage or sabotage).

§ 405.210 Individual enrollment; enrollment procedures.

To enroll in the supplementary medical insurance plan an eligible individual (see § 405.205) must file a written request for enrollment, signed by him or on his behalf, with the Administration during a period of enrollment (see §§ 405.211 through 405.214) open to such individual.

§ 405.211 Individual enrollment; enrollment periods; general.

An individual may enroll in the supplementary medical insurance plan only during an "enrollment period." There are two kinds of enrollment periods—the "initial enrollment period" (see § 405.212), which is based on the time when the individual first meets the eligibility requirements for enrollment, and the "general enrollment period" (see § 405.213) during which an individual who failed to enroll during his initial enrollment period or whose enrollment has been terminated may, with certain limitations, first enroll, or reenroll (see § 405.224 relating to good cause for failure to enroll).

§ 405.212 Individual enrollment; initial enrollment period.

(a) *General.* An individual's first opportunity to enroll in the supplementary medical insurance plan is called his "initial enrollment period." The beginning and ending dates of an individual's initial enrollment period are determined by the month in which he first meets the eligibility requirements for enrollment (see § 405.205).

(b) *Individual eligible before March 1966.* If an individual meets the eligibility requirements in § 405.205 before March 1966, his initial enrollment period begins on September 1, 1965, and ends on May 31, 1966. However, see the provisions relating to good cause for failure to enroll during the initial enrollment period ending May 31, 1966, set forth in § 405.224.

(c) *Individual first eligible after February 1966.* If an individual first meets the eligibility requirements in § 405.205 after February 1966, his initial enrollment period begins on the first day of the third month before the month in which he first meets such requirements and ends with the close of the last day of the third month following the month in which he first satisfies such requirements.

(d) *First eligibility for enrollment; individual eligible solely because of entitlement to hospital insurance benefits.* For purposes of determining the initial enrollment period of an individual who is eligible for enrollment solely because he is entitled to hospital insurance benefits (see § 405.205(a)), the individual is considered as first meeting the eligibility requirements for enrollment on the first day on which he would be entitled to hospital insurance benefits upon filing application therefor whether or not he so filed.

(e) *Deemed initial enrollment period.* Notwithstanding the provisions of paragraphs (a), (b), (c), and (d) of this section, where the Social Security Administration finds that an eligible individual (see § 405.205) failed to enroll during his initial enrollment period (based on a determination by the Administration of the month in which such individual attained age 65), because such individual (relying on erroneous documentary evidence) was mistaken as to his correct date of birth, the Administration shall, on the basis of a written request for enrollment filed on or after February 1, 1968, establish for such individual a deemed initial enrollment period based on his attaining age 65 at the time indicated by such documentary evidence with a coverage period determined under § 405.221 (c) or (d) as though he had attained age 65 at that time. Such deemed initial enrollment period will also be used in determining the amount of the individual's premiums (see § 405.902) and his right to enroll in a general enrollment period, where the use of such deemed initial enrollment period is material and advantageous to the individual.

§ 405.213 Individual enrollment; general enrollment periods.

There shall be a general enrollment period beginning on October 1, 1967, and ending on March 31, 1968, followed by subsequent general enrollment periods which shall begin on January 1 and end on March 31 of each calendar year beginning with the calendar year 1969. Subject to the provisions of § 405.224 (relating to enrollment for "good cause"), an individual who fails to enroll in the supplementary medical insurance plan during his initial enrollment period, or whose enrollment has been terminated, may enroll thereafter only during a general enrollment period.

§ 405.214 Individual enrollment; limitation on enrollment and reenrollment.

(a) *First enrollment.* An individual who fails to enroll in the supplementary medical insurance plan during his initial enrollment period may enroll thereafter only during a general enrollment period (see § 405.213) which begins no later than 3 years after the close of his initial enrollment period. An individual who does not enroll in the supplementary medical insurance plan during a general enrollment period which begins no later than 3 years after the close of his initial enrollment period, is precluded from such enrollment.

Example No. 1. An individual first meets the eligibility requirements for enrollment in August 1966. He does not enroll during his initial enrollment period—May through November 1966. If he wishes to be covered under the supplementary medical insurance plan, he must enroll during the general enrollment period—October 1967 through March 1968, or during the 3 months of the 1969 general enrollment period, i.e., January through March 1969. The individual cannot enroll after March 31, 1969, the close of the last general enrollment period which begins no later than 3 years after the close of his initial enrollment period.

Example No. 2. An individual first meets the eligibility requirements for enrollment in October 1968 but fails to enroll during his initial enrollment period—July 1968 through January 1969. If he later wishes to enroll, he must do so during the remaining 2 months of the general enrollment period then in progress, i.e., February and March 1969, or during one of the three general enrollment periods which begin no later than 3 years after the close of his initial enrollment period, i.e., January through March of the calendar years 1970, 1971, or 1972. The individual cannot enroll after March 31, 1972, the close of the last general enrollment period which begins no later than 3 years after the close of his initial enrollment period.

(b) *Second enrollment.* An individual whose enrollment under the supplementary medical insurance plan has terminated (see § 405.223) may, subject to the provisions of paragraph (c) of this section, reenroll in the supplementary medical insurance plan provided that such reenrollment occurs within a general enrollment period which begins no later than 3 years after the effective date of the termination of his prior enrollment.

Example No. 1. An individual notified the Administration in writing during May 1969 that he no longer wished to participate in the supplementary medical insurance plan and, accordingly, his enrollment terminated on September 30, 1969. If he wishes to reenroll under the supplementary medical insurance plan, he must do so within the periods January through March of the calendar years 1970, 1971, or 1972, the three general enrollment periods which begin no later than 3 years after the termination date of his prior enrollment.

Example No. 2. An individual's enrollment terminated on January 31, 1968, for nonpayment of premiums. If he wishes to reenroll under the supplementary medical insurance plan, he must do so within the remaining 2 months of the general enrollment period then in progress, i.e., February and March 1968, or during one of the three general enrollment periods which begin no later than 3 years after the termination of his prior enrollment, i.e., January through March of the calendar years 1969, 1970, or 1971. The individual cannot reenroll after March 31, 1971, the close of the last general enrollment period which begins no later than 3 years after the termination of his prior enrollment.

(c) *Limitation on number of enrollments.* No individual may enroll in the supplementary medical insurance plan more than twice. For purposes of this paragraph, the first reenrollment by an individual following the termination of any prior enrollment for which he was deemed under the provisions of § 405.223(d) to have enrolled, shall, without regard to any previous enrollment or termination of enrollment, be deemed a second enrollment by the individual.

§ 405.215 Individual enrollment; enrollment periods ending on a nonworkday.

Notwithstanding the provisions of §§ 405.212 and 405.213, where the last day of an individual's initial enrollment period (§ 405.212) or the last day of a general enrollment period (§ 405.213) falls on a nonworkday (Saturday, Sunday, legal holiday, or a day all or part of which is declared to be a nonworkday for Federal employees by statute or Executive order), a written request for enrollment (see § 405.210) received by the Social Security Administration on the first workday thereafter will be considered to have been received on the last preceding workday.

§ 405.217 Enrollment pursuant to a State agreement.

(a) Subject to the provisions of paragraph (c) of this section, the Secretary shall enter into an agreement with any State which so requests before 1970, pursuant to which the State will enroll in the supplementary medical insurance plan (without regard to any prior enrollment or termination of enrollment) all eligible individuals in either of the coverage groups described in paragraph (b) of this section (as specified in the agreement), and pay the premiums due for each such individual so enrolled for all months in his coverage period, beginning as provided in § 405.222 and ending as provided in § 405.223(c).

(b) An agreement entered into with any State pursuant to paragraph (a) of this section shall be applicable to either of the following coverage groups:

(1) Individuals receiving money payments under the plan of such State approved under title I or title XVI of the Act; or

(2) All individuals receiving money payments under any of the plans of such State approved under titles I, X, XIV, XVI, and Part A of title IV of the Act.

(c) Notwithstanding the provisions of paragraph (b) of this section:

(1) An individual may not, subject to the provisions of subparagraph (2) of this paragraph, be a member of the coverage group specified in an agreement entered into under paragraph (a) of this section for any month in which he is entitled to monthly benefits under title II of the Social Security Act or entitled to receive an annuity or pension under the Railroad Retirement Act of 1937 (without regard to the retroactivity of such entitlement) unless the State requests before 1970, and the agreement is modified to provide, that such individuals shall be members of such coverage group.

(2) The coverage group specified in an agreement entered into under paragraph (a) of this section shall, at the request of the State made before 1970, be modified to provide for the inclusion of all eligible individuals (including individuals entitled to monthly benefits under title II of the Act or entitled to receive an annuity or pension under the Railroad Retirement Act of 1937) whom the State determines to be eligible to receive medical assistance under the plan of such State approved under title XIX of the Social Security Act.

(3) Any individual whom the State has determined to be an eligible member and included in its agreement with the Administration pursuant to section 1843 of the Act, shall be deemed to be an eligible member of such coverage group for the purpose of enrollment in the supplementary medical insurance plan under such State's agreement with the Administration. See § 405.223(c) for the termination date of such individual's supplementary medical insurance coverage under such State's agreement.

(d) For purposes of this section, an individual is treated as an "eligible individual" if he meets the requirements set forth in § 405.205 on the date an agreement covering him is entered into under paragraph (a) of this section (or in the case of individuals covered by virtue of a modification described in paragraph (c) (1) or (2) of this section, as of the date the modification is entered into) or he meets such requirements at any time after such date.

(e) For purposes of this section and § 405.222, an individual is treated as receiving money payments described in paragraph (b) of this section if he receives or the State reports to the Administration in accordance with prescribed procedures that he is receiving such payments for the month in which the agreement is entered into (or in the case of individuals covered by virtue of a modification of this agreement, for the month the modification is entered into) or for any month occurring thereafter.

(f) For purposes of this section and § 405.222, an individual is treated as eligible to receive medical assistance under the plan of the State approved under title XIX of the Act if, for the month in which the modification described in paragraph (c)(2) of this section is entered into, or for any month occurring thereafter, the State has made a determination (without regard to the retroactivity of such determination) or the State reports to the Administration in accordance with prescribed procedures that such individual is eligible to receive medical assistance under such plan.

§ 405.220 Coverage period; general.

Payment is made under the supplementary medical insurance plan only for covered expenses incurred during an individual's "coverage period." Subject to the provision that an individual's coverage period continues through the month of death or until such earlier time as his enrollment is terminated, an individual's coverage period begins and terminates as described in §§ 405.221 and 405.223 (a) and (b) or, in the case of an individual enrolled pursuant to a State agreement, in accordance with the provisions of §§ 405.222 and 405.223 (c) and (d).

§ 405.221 Individual enrollment; coverage period beginning date.

An individual's "coverage period" can begin no earlier than July 1, 1966, and begins on a day as determined in accordance with this section (or in the case of an individual enrolled pursuant to a State agreement, in accordance with the provisions of § 405.222):

(a) *Enrollment during initial enrollment period; first eligibility before March 1966.* (1) The coverage period of an individual who first meets the eligibility requirements for enrollment (see § 405.205) prior to March 1966, and who enrolls during his initial enrollment period of September 1965 through May 1966, begins on July 1, 1966.

(2) The coverage period of an individual who first meets the eligibility requirements for enrollment (see § 405.205) prior to March 1966, who fails to enroll prior to June 1966, but who is authorized to enroll at a subsequent time not later than September 30, 1966, under the "good cause" provisions described in § 405.224, begins on the first day of the 6th month after the month in which he so enrolls.

(b) *Enrollment during initial enrollment period; first eligibility in March 1966.* (1) The coverage period of an individual who first meets the eligibility requirements for enrollment during the month of March 1966, and who enrolls before June 1966, begins on July 1, 1966.

(2) The coverage period of an individual who first meets the eligibility requirements for enrollment during March 1966, and who enrolls during the month of June 1966, begins on September 1, 1966.

(c) *Enrollment during initial enrollment period; first eligibility after March 1966.* The coverage period of an individual who first meets the eligibility requirements for enrollment after March 1966, and who enrolls during his initial enrollment period (including a deemed initial enrollment period under the provisions of § 405.212(e)), begins on whichever is later, July 1, 1966, or the first day of:

(1) The month in which the eligibility requirements are first met, if he enrolls during the 3 preceding months;

(2) The month following the month in which the eligibility requirements are first met, if he enrolls in the month such requirements are first met;

(3) The third month following the month in which the eligibility requirements are first met, if he enrolls in the month following the month in which such requirements are first met;

(4) The fifth month following the month in which the eligibility requirements are first met, if he enrolls in the second month following the month in which such requirements are first met;

(5) The sixth month following the month in which the eligibility requirements are first met, if he enrolls in the third month following the month such requirements are first met.

Example. An individual first meets the eligibility requirements for enrollment in April of 1967. Therefore, his initial enrollment period runs from January through July 1967. Depending upon the month in which he enrolls, his coverage period will begin as follows:

VOL 36 165 XUM

Enrolls in— Initial enrollment period:	*Coverage period begins on—*
(1) January	April 1 (month eligibility requirements first met).
(2) February	Do.
(3) March	Do.
(4) April	May 1 (month following month eligibility requirements first met).
(5) May	July 1 (third month following month eligibility requirements first met).
(6) June	September 1 (fifth month following month eligibility requirements first met).
(7) July	October 1 (sixth month following month eligibility requirements first met).

(d) *Enrollment during general enrollment period.* The coverage period of an individual who enrolls after his initial or deemed initial enrollment period or reenrolls during a general enrollment period applicable in his case (see §§ 405.213 and 405.214) begins on July 1 following the month in which he so enrolls, or reenrolls.

§ 405.222 Enrollment pursuant to a State agreement; coverage period beginning date.

The coverage period of an individual enrolled pursuant to an agreement with a State under the provisions set forth in § 405.217 begins (without regard to any prior enrollment or termination of enrollment) on whichever of the following is the latest:

(a) July 1, 1966;

(b) The first day of the third month following the month in which the State agreement is entered into (or in the case of individuals covered by virtue of a modification described in § 405.217(c)(1) or (2), as of the first day of the third month following the month such modification is entered into);

(c) The first day of the first month in which he is both an eligible individual (see § 405.205) and a member of the coverage group that is specified in such agreement, except that, if an individual is a member of such group solely by virtue of a modification described in § 405.217(c)(2) (i.e., he does not receive money payments as a member of the State's coverage group), his coverage period may not begin before the first day of the second month following the month in which he is both an eligible individual and the State has made the determination (without regard to the retroactivity of such determination) that he is eligible to receive medical assistance under the plan of such State approved under title XIX of the Act; or

(d) Such date as may be specified in the agreement, or, where the individual is covered by virtue of a modification described in § 405.217(c), as may be specified in such modification.

§ 405.223 Individual enrollments; State enrollments; manner and time of termination of enrollment and coverage period.

Subject to the provision that an individual's coverage period attributable to a State agreement may be terminated only as provided in paragraph (c) of this section and is not subject to termination by the individual, an enrollment and the coverage period may be terminated only as described in this section:

(a) *Individual requests termination.* An individual may at any time after September 1967 notify the Administration in writing that he no longer wishes to participate in the supplementary medical insurance plan. In such case, his enrollment and coverage period terminate effective with the close of the calendar quarter following the calendar quarter in which such notice is submitted to the Administration except that:

(1) Where such notice is submitted during the period October through December 1967, such individual's enrollment and coverage period shall terminate on December 31, 1967;

(2) Where such notice is submitted during the period January through March 1968, such individual's enrollment and coverage period shall terminate on March 31, 1968;

(3) Where an individual entitled to monthly benefits under title II of the Act or to an annuity or pension under the Railroad Retirement Act of 1937, whose coverage attributable to a Federal-State agreement containing the provisions described in § 405.217(c) is terminated or who ceases to be a member of the coverage group before his coverage under such agreement begins, files a written notice with the Administration before the first day of the fourth month which begins after the date of such termination, his coverage period is terminated effective with the last day of the third month which begins after the date his coverage period under a Federal-State agreement is terminated.

(b) *Nonpayment of premiums.* Enrollment under the supplementary medical insurance plan shall be terminated because of nonpayment of premiums. In such case, an individual's enrollment and coverage period is terminated at such time as is provided in Subpart I of this part.

(c) *Enrollees pursuant to State agreements.* In the case of an individual enrolled pursuant to a Federal-State agreement (see § 405.217), the coverage period attributable to the agreement ends (subject to the provisions of paragraph (d) of this section) on whichever of the following first occurs:

(1) The last day of the month in which he becomes ineligible (as determined by the State) for money payments of a kind specified in the agreement; or

(2) The last day of the month preceding the first month in which he becomes entitled to monthly benefits under title II of the Act (see Subpart D of Part 404 of this chapter) or to an annuity or pension under the Railroad Retirement Act of 1937 without regard to the retroactivity of such entitlement; or

(3) The last day of the month in which the State agreement is terminated; or

(4) The last day of the month in which he dies.

(d) *Continuation of enrollees' coverage period pursuant to State agreements.* Notwithstanding the provisions of paragraph (c) of this section, if an individual's coverage pursuant to enrollment under a State agreement is terminated under the provisions of paragraph (c) of this section, such individual is deemed to have enrolled for supplementary medical insurance benefits in the initial enrollment period described in § 405.212(b) and his coverage period continues until terminated for his failure to pay premiums or by his written notice to the Administration that he wishes to terminate his supplementary medical insurance coverage, as provided in paragraphs (a) and (b) of this section. An individual who is enrolled under a State agreement but who ceases to be a member of the coverage group before his coverage begins is also deemed to have so enrolled and his coverage as an individual begins on the date his coverage under the agreement would have begun had he continued in the coverage group.

§ 405.224 Good cause for failure to enroll during the initial enrollment period ending May 31, 1966.

An individual who first meets the eligibility requirements for enrollment prior to March 1, 1966, and who fails to enroll during the initial enrollment period ending May 31, 1966, may enroll at any time before October 1966 if such individual, or his representative, establishes to the satisfaction of the Administration that "good cause" exists because such failure was due to:

(a) Circumstances beyond the individual's control, such as extended illness, mental or physical impairment, communication difficulties;

(b) Incorrect or incomplete information furnished by official sources to the individual or another person acting on his behalf;

(c) Difficulty encountered by the individual in obtaining, within a reasonable time before the end of the initial enrollment period, an enrollment form and information about supplementary medical insurance and the manner and time limit in which enrollments may be made;

(d) Bona fide unawareness or misunderstanding of the need to enroll within the prescribed time period or of the nature of coverage under this Subpart B; or

(e) Other circumstances (as a result of which the individual was deterred from enrolling) in the light of which it would be clearly inequitable to deny him a second chance to enroll.

§ 405.230 Supplementary medical insurance benefits.

(a) *Benefits provided.* Any individual who is enrolled under the supplementary medical insurance plan established by Part B of title XVIII of the Act is, subject to the conditions, limitations, and exclusions described in this Part 405, entitled to have:

(1) Payment made to him, or on his behalf, for physicians' services;

(2) Payment made to him, or on his behalf, for medical and other health services other than outpatient physical therapy services (see § 405.231) furnished by other than a participating provider of services (in the case of certain nonparticipating hospitals which have elected to claim payment with respect to emergency outpatient services—see § 405.249);

(3) Payment made on his behalf for medical and other health services (see § 405.231) furnished to him by a participating provider of services (or furnished by others under an arrangement made with them by a participating provider of services);

(4) Payment made on his behalf for home health services (see § 405.233) for up to 100 visits (as discussed in § 405.238) furnished by a participating home health agency during a calendar year; and

(5) Payment made on his behalf to a provider of services (see § 405.231(l)) for outpatient physical therapy services furnished to him after June 30, 1968.

(b) *Reimbursable expenses.* In order to be considered incurred expenses, expenses for physicians' services, home health services, and for other medical and health services covered under the supplementary medical insurance plan must be for services furnished to an individual during his coverage period. (See §§ 405.221 through 405.223.) If such individual incurs expenses during a calendar year in meeting the $20 deductible imposed under the hospital insurance program for outpatient hospital diagnostic services furnished before April 1968 (see § 405.142(a)), such expenses shall be regarded as an incurred expense for which reimbursement (see § 405.240) may be made under this Subpart B.

§ 405.231 Medical and other health services; included items and services.

Subject to the conditions, limitations, and exclusions set forth in § 405.232, the term "medical and other health services" means the following items or services:

(a) Physicians' services (including diagnosis, therapy, surgery, consultations, and home, office, and institutional calls);

(b) Services and supplies, including drugs and biologicals which cannot be self-administered, furnished as an incident to a physician's professional service, and of kinds which are commonly furnished in a physician's office or clinic and are commonly either rendered without charge, or included in the physician's bill;

(c) Hospital services and supplies (including drugs and biologicals which cannot be self-administered) incident to physicians' services rendered to outpatients;

(d) Diagnostic X-ray tests (including portable X-ray tests), diagnostic laboratory tests, and other diagnostic tests;

(e) X-ray therapy, radium therapy, and radioactive isotope therapy (including materials and services of technicians administering such therapies);

(f) Surgical dressings, and splints, casts and other devices used for reduction of fractures and dislocations;

(g) Rental or, effective January 1, 1968, the purchase of durable medical equipment, including iron lungs, oxygen tents, hospital beds, and wheelchairs used in the patient's home. For purposes of this paragraph, the term "home" does not include an institution which meets the requirements of section 1861(e)(1) or 1861(j)(1) of the Act—see §§ 405.1001 and 405.1101;

(h) Prosthetic devices (other than dental) which replace all or part of an internal body organ, including replacement of such devices;

(i) Leg, arm, back, and neck braces, and artificial legs, arms, and eyes, including replacements if required because of a change in the patient's physical condition;

(j) Ambulance services when the use of other means of transportation is contraindicated by the individual's condition;

(k) After March 31, 1968, outpatient hospital diagnostic services (with respect to outpatient hospital diagnostic services furnished before April 1, 1968, see § 405.141) including drugs and biologicals required in the performance of such services which are:

(1) Furnished to outpatients by a hospital (or by others under an arrangement made by a hospital); and

(2) Ordinarily furnished by such hospital (or under such arrangements) to its outpatients for the purposes of diagnostic study; and

(l) Outpatient physical therapy services furnished by or under arrangements made by a participating clinic, rehabilitation agency, public health agency (see Subpart Q of this part) or other provider of services (see Subparts J, K, and L of this part).

§ 405.232 Medical and other health services; conditions, limitations, and exclusions.

In addition to the general exclusions described in Subpart C of this part, the following conditions, limitations, and exclusions shall apply with respect to the "medical and other health services" described in § 405.231:

(a) *Inpatient hospital services; extended care services; home health services; for services rendered prior to April 1, 1968.* If any item or service described in § 405.231 would otherwise constitute inpatient hospital services or outpatient hospital diagnostic services, extended care services, or home health services (see §§ 405.233 through 405.237), it is not considered as a medical or other health service for purposes of § 405.230(a)(2) or (3).

(b) *Diagnostic tests.* For purposes of § 405.231(d):

(1) Diagnostic laboratory tests are not considered as "medical or other health services" if performed in a laboratory which is independent of both the attending or a consulting physician's office or a hospital, unless such laboratory meets the requirements as set forth in Subpart M of this Part 405. For purposes of this subparagraph, the term "hospital" means a hospital which meets the requirements described in § 405.249(a)(1).

(2)(i) Except as provided in subdivision (ii) of this subparagraph, diagnostic X-ray tests are covered only if performed under the immediate personal supervision of a physician, and

(ii) Portable X-ray services, including portable X-ray services furnished on or after January 1, 1968, in a place of residence used as the patient's home, are covered if such services (*a*) are furnished under the general supervision of a physician, and (*b*) the supplier of such services meets the requirements as set forth in Subpart N of this part.

(c) *Drugs and biologicals.* For purposes of § 405.231 (b) and (c), drugs and biologicals which can be self-administered are excluded from the term "medical and other health services" whether such drugs and biologicals are furnished by a physician, a provider of services, or other than a provider of services.

(d) *Outpatient hospital diagnostic services.* There shall be excluded from the outpatient hospital diagnostic services described in § 405.231(k), any items or services (except services by interns and residents not under approved teaching programs) which:

(1) Would not be included as inpatient hospital services if they were furnished to an inpatient of a hospital or if furnished by others under an arrangement made by a hospital; or

(2) Are not furnished in the hospital or in facilities operated by or under the supervision of the hospital or its organized medical staff.

(e) *Outpatient physical therapy services.* There shall be excluded from the outpatient physical therapy services described in § 405.231(l) any item or service which:

(1) Is furnished before July 1, 1968 (with respect to services furnished before such date—see § 405.231(c)); or

(2) Would not be included as inpatient hospital services if furnished to an inpatient of a hospital.

(f) *Laboratory and X-ray services.* Laboratory or X-ray services furnished after March 1968 to a patient of a hospital which meets the emergency hospital requirements of § 405.249(a)(1) are not covered as "medical and other health services" under this Subpart B unless the hospital meets the laboratory or radiology requirements (§ 405.1028 or § 405.1029 as applicable) of the conditions of participation for hospitals.

(g) *Laboratory and radiology services furnished by a nonparticipating hospital which does not meet the requirements of § 405.249(a)(1).* Laboratory and radiology services furnished by a nonparticipating hospital which does not meet

the requirements of § 405.249(a)(1) are not considered as "medical and other health services" covered under Part B of title XVIII of the Act unless:

(1) The laboratory of the nonparticipating hospital meets the conditions for coverage of services of independent laboratories set forth in Subpart M of this part; and

(2) The radiology department of the nonparticipating hospital meets the conditions of participation for radiology departments of participating hospitals set forth in § 405.1029.

(h) *Diagnostic laboratory and portable X-ray services furnished by a nonparticipating extended care facility.* Diagnostic laboratory services and portable X-ray services furnished by a nonparticipating extended care facility are not considered as "medical and other health services" covered under Part B of title XVIII of the Act unless:

(1) The laboratory of the nonparticipating extended care facility meets the conditions for coverage of services of independent laboratories set forth in Subpart M of this part; and

(2) The portable X-ray services of the nonparticipating extended care facility meets the conditions for coverage of portable X-ray services set forth in Subpart N of this part.

(i) *Ambulance service.* (1) For purposes of § 405.231(j) payment will be made for ambulance service only when the use of other means of transportation is contraindicated by the individual's condition and where:

(i) Such individual is transported to an institution, as defined in subparagraph (4) of this paragraph, whose locality encompasses the place where the ambulance transportation began and which would ordinarily be expected to have appropriate facilities, or where the institution serving the locality lacks appropriate facilities, the individual is transported to the nearest institution having appropriate facilities; or

(ii) Such individual is transported from one hospital to another or, from one skilled nursing facility to another provided the institution from which he is transported lacks appropriate facilities and the one to which he is transported is the nearest such institution with appropriate facilities; or

(iii) Such individual is transported from an institution to his home provided that his home is within the locality of the institution or the institution in relation to his home is the nearest institution with appropriate facilities.

(2) Where the individual is transported beyond the destinations specified in subparagraph (1) of this paragraph:

(i) If the transportation was to an institution, payment is limited to that which would have been made had the individual been transported to the nearest institution with appropriate facilities; or

(ii) If the transportation was to the individual's home, payment is limited to that which would have been made had he been transported from the institution in relation to his home that is the nearest one with appropriate facilities.

(iii) The provisions of this subparagraph also apply to any timely filed claim for ambulance service rendered prior to the effective date hereof.

(3) "Ambulance" for the purposes of this paragraph means a specially designed and equipped vehicle (i.e., containing stretcher, linens, first aid supplies, oxygen equipment and such other lifesaving equipment required by State or local law, and manned by personnel trained to render first aid treatment) for transporting the sick or injured.

(4) "Institution" for the purposes of this paragraph means a hospital or skilled nursing facility which meets the requirements of section 1861(e)(1) or 1861(j)(1) of the Act.

(5) "Locality" for the purposes of this paragraph means the service area surrounding the institution from which individuals normally come or are expected to come for hospital or skilled nursing services.

(6) "Appropriate facilities" for the purposes of this paragraph means that the institution is equipped to provide the needed hospital or skilled nursing care for the illness or injury involved.

§ 405.233 Home health services; general.

Home health service benefits are provided under both the supplementary medical insurance plan described in this Subpart B and also under the hospital insurance benefits plan described in Subpart A of this part. Home health services qualify for payment under the supplementary medical insurance plan even though the individual has not been an inpatient of a hospital or extended care facility. Payments for home health services for up to 100 visits (as defined in § 405.238) in a calendar year may be made under the supplementary medical insurance plan. This is entirely separate from the 100 health visits available (after the beginning of one spell of illness and before the beginning of the next) under the hospital insurance plan during the 1-year period after the individual's latest discharge from a qualifying inpatient stay.

§ 405.234 Home health services; conditions.

The items and services described in § 405.236 are "home health services" (unless excluded under § 405.237) if such items and services are furnished:

(a) To an individual who is under the care of a physician (other than a doctor of podiatry or surgical chiropody) and confined to his home;

(b) By a participating home health agency (see Subpart L of this Part 405) or by others under arrangements with them made by such agency;

(c) Under a written plan designed for such individual, established by a physician (other than a doctor of podiatry or surgical chiropody) and periodically reviewed by a physician (other than a doctor of podiatry or surgical chiropody); and

(d) At a place as described in § 405.235.

§ 405.235 Home health services; place where items and services must be furnished.

To be considered "home health services," items and services described in § 405.236 must be:

(a) Furnished on a visiting basis to the individual in a place of residence used as his home. The term "home" does not include an institution which meets the requirements of section 1861(e)(1) or 1861(j)(1) of the Act (see §§ 405.1001 and 405.1101); or

(b) Provided on an outpatient basis at a hospital or extended care facility, or at a rehabilitation center if such items or services:

(1) Are furnished under arrangements made by a participating home health agency and such arrangements provide that payment to the agency discharges the liability of the patient or any other person to pay for the services; and

(2) Involve (or are furnished while the individual is there to receive) the use of equipment which cannot readily be made available to the individual in a place of residence used as his home, or cannot be supplied to him there (see also § 405.238).

§ 405.236 Home health services; items and services included.

Subject to the provisions described in § 405.237, "home health services" means the following items and services furnished to an individual in accordance with §§ 405.234 and 405.235:

(a) Part-time or intermittent nursing care provided by or under the supervision of a registered professional nurse;

(b) Physical (see § 405.239), occupational, or speech therapy;

(c) Medical social services provided under the direction of a physician;

(d) Part-time or intermittent services of a home health aide;

(e) Medical supplies (other than drugs and biologicals) and the use of medical appliances while under the plan described in § 405.234(c);

(f) In the case of a home health agency which is affiliated or under common control with a hospital, medical services provided by an intern or resident-in-training of such hospital, under a teaching program of such hospital approved as provided in § 405.116(f).

§ 405.237 Home health services; items and services not included.

(a) *Items and services not considered as inpatient hospital services.* Notwithstanding the provisions set forth in § 405.236, no item or service listed in § 405.236 is includable as a "home health service" if the item or service would not be included as an inpatient hospital service under Subpart A of this part, if furnished to a hospital inpatient.

(b) *Transportation services.* Transportation services, whether by ambulance or other means, required to take a homebound individual to a hospital, extended care facility, rehabilitation center, or other place, in order to furnish him with items and services which cannot be supplied to him in his home, are not included as a "home health service," even though the services provided at such hospitals, etc., are included as a home health service.

(c) *Housekeeping services.* The services of housekeepers or food service arrangements such as those of "meals-on-wheels" programs are not includable as "home health services."

§ 405.238 Home health services; "visits" defined.

For purposes of determining the 100-visit home health services limitation specified in § 405.230(a)(4), one "visit" is charged each time a "home health service" is furnished to the individual by home health agency personnel (or by personnel furnishing "home health services" under an arrangement with them made by a home health agency). For example, since one "visit" is charged each time a therapist goes to an individual's home to furnish therapy, if the individual is visited during the same day by both a speech therapist and a visiting nurse (or if provided with the same home health service twice in the same day), two "visits" are charged. Similarly, if an individual is taken to a hospital to receive outpatient therapy that could not be furnished in his own home (e.g., hydrotherapy) and, while at the hospital receives speech therapy and other services, all of which qualify as home health services under § 405.236, two or more "visits" are charged.

§ 405.239 Option available to patients under a home health plan who require physical therapy.

A patient under a home health plan may elect to receive required physical therapy service as a "medical and other health service" (see § 405.231(l) rather than as a home health service (see § 405.236(b)) and thereby save home health visits for other covered home health services. Because of the deductible and coinsurance provisions applicable to Part B, an individual who qualifies for Part A home health services will generally elect to receive physical therapy as a home health service.

§ 405.240 Payment of supplementary medical insurance benefits; amounts payable.

In the case of an individual who incurs expenses during his coverage period under the supplementary medical insurance plan, payment with respect to the total amount of such expenses incurred during a calendar year shall, subject to the provisions of §§ 405.243–405.246, be made as follows:

(a) (1) Eighty percent of the reasonable charges for physicians' services, and

(2) Effective April 1, 1968, with respect to radiological and pathological services, 100 percent of the reasonable charges for such services furnished to an inpatient of a hospital by a physician in the field of radiology or pathology (see § 405.232(f) and (g));

(b) Eighty percent of the reasonable charges for medical and health services furnished by other than a participating provider of services;

(c) Eighty percent of the reasonable cost for medical and other health services furnished by (or under arrangements made by) participating providers of services;

(d) Eighty percent of the reasonable cost of home health services furnished by (or under arrangements made by) a participating home health agency; and

(e) Eighty percent of the deductible imposed under the hospital insurance benefits plan for outpatient hospital diagnostic services furnished before April 1968 (see § 405.230(b)).

§ 405.241 Payment of supplementary medical insurance benefits; election by group-practice prepayment plan as to method of determining amount of payment.

Notwithstanding the provisions of § 405.240 (a) and (b), payment to a group-practice prepayment plan which has furnished (or arranged for the availability of) items and services qualifying as medical and other health services, may be made on the basis of the reasonable cost of such services rather than on the basis of reasonable charges, even though such organization is other than a provider of services, if the group-practice prepayment plan elects to have payment made on a reasonable cost basis and agrees to charge the individuals to whom the services were provided not more than the amount of any unpaid annual deductible (see § 405.245), if any, plus 20 percent of the difference between the deductible and the reasonable cost.

§ 405.243 Psychiatric services limitation; expenses incurred for physician services.

(a) *Limitation.* With respect to expenses incurred in any calendar year in connection with the treatment of a mental, psychoneurotic, or personality disorder of an individual who is not an inpatient of a hospital (as described in paragraph (b) of this section) at the time such expenses are incurred, only the lesser of (1) $312.50; or (2) 62½ percent of such expenses, is considered as incurred expenses for purposes of §§ 405.240 and 405.245.

(b) *Application of limitation.* Notwithstanding any other provision of this Subpart B, paragraph (a) of this section applies to specific expenses incurred for physicians' services (with no distinction being made between the services of psychiatrists and nonpsychiatrist physicians) rendered to an individual who is not an inpatient of a hospital, in connection with the treatment of a mental, psychoneurotic, or personality disorder of such individual, and any items or supplies furnished by the physician in connection with his treatment of such disorder. The term "mental, psychoneurotic, or personality disorder" means the specific psychiatric conditions described in the American Psychiatric Association's Diagnostic and Statistical Manual—Mental Disorders. Expenses incurred for services furnished by health personnel other than physicians, including home health services and outpatient services, as well as physicians' services furnished to an individual who is an inpatient of a hospital are not subject to such limitation even though the services are in connection with a condition which is included in the definition of mental, psychoneurotic, or personality disorder. For purposes of this paragraph (b), "hospital" means a hospital which is primarily engaged in providing to inpatients, by or under the supervision of physicians, diagnostic and therapeutic services for medical diagnosis, treatment, and care of injured, disabled, or sick persons, or rehabilitation services for the rehabilitation of injured, disabled, or sick persons; or psychiatric services for the diagnosis and treatment of mentally ill persons; or medical services for the diagnosis and treatment of tuberculosis.

Example. As a private patient, Mr. X's only medical expenses during the calendar year amounted to $750 for physicians' services in connection with the treatment of a mental disorder which did not require inpatient hospitalization. The statutory limit for any calendar year on the amount of these expenses that is covered under this Subpart B is $312.50 ($312.50 being lesser in amount than 62½ percent of $750). Mr. X is required to meet the first $50 as a deductible, and 20 percent of the balance. The remaining 80 percent is payable under this Subpart B.

Total covered expenses	Mr. X's payment	Payment under Subpart B
$312.50	[2] $437.50	
[1] −50.00	[1] 50.00	
262.50	[3] 52.50	[4] $210.00

[1] Deductible.
[2] In excess of $312.50.
[3] 20 percent of total covered expenses less deductible.
[4] 80 percent of total covered expenses less deductible.

If Mr. X had incurred $350 of the above expenses while an inpatient of an institution (see paragraph (b) of this section), and the remaining $400 while not an inpatient of an institution, payment would be computed as follows:

Total covered expenses	Mr. X's payment	Payment under subpart B
[1] $250	[2] $150	
[2] +350		
600	[4] 50	
[4] −50		
550	[3] 110	[5] $440

[1] 62½ percent of $400.
[2] In excess of 62½ percent of $400.
[3] 100 percent of expenses incurred while an inpatient.
[4] Deductible.
[5] 20 percent of total covered expenses less deductible.
[6] 80 percent of total covered expenses less deductible.

§ 405.244 Incurred expenses; expenses excluded from total expenses or not considered for purposes of the deductibles.

(a) To the extent that an individual is entitled (or would be entitled except for application of the deductible or coinsurance amounts described in section 1813 of the Act (other than the outpatient hospital diagnostic deductible—see § 405.230(b))) to have payment made under the provisions contained in Subpart A of this part with respect to services furnished to him, no payment

VOL 36 165 XUM

may be made under the provisions described in this Subpart B with respect to such services and the costs or charges for such services are not considered as incurred expenses for purposes of §§405.240, 405.245, and 405.246.

(b) To the extent that an indivdual incurred expenses in meeting the medical insurance blood deductible (including the value of replacements made for such blood—see § 405.246), no payment may be made under the provisions described in this Subpart B with respect to such expenses (or value), and the costs or charges incurred in meeting such deductible are not considered incurred expenses for purposes of §§ 405.240 and 405.245.

(c) To the extent that an individual incurred expenses with respect to radiological and pathological services for which payment is made in an amount equal to 100 percent of the reasonable charges for such services (see § 405.240(a)(2)), the costs or charges for such services are not considered as incurred expenses for purposes of §§ 405.245 and 405.246 and are not subject to the $50 deductible.

§ 405.245 The supplementary medical insurance benefits deductible.

Subject to the provisions of § 405.244, the total amount of expenses incurred by an individual during a calendar year is reduced, prior to applying the payment percentages in § 405.240, by a deductible in an amount equal to:

(a) $50; less

(b) The amount of any expenses incurred by such individual in the last 3 months of the preceding calendar year and applied toward such individual's deductible under this section for such preceding year.

Example. During 1969 Jones incurred total expenses of $350 for covered medical and other health services furnished to him. Ordinarily, a deductible of $50 would be imposed in determining the amount payable under the supplementary medical insurance plan. However, during November of 1968, Mr. Jones had incurred expenses of $35 for covered medical and other health services which had been applied toward his supplementary medical insurance deductible for 1968. Since any expenses incurred in the last quarter of the prior calendar year, and applied toward the supplementary medical insurance benefits deductible for such year, can be carried over to the following year and applied toward the deductible, Mr. Jones' 1969 supplementary medical insurance benefits deductible is only $15 ($50–$35).

§ 405.246 Supplementary medical insurance blood deductible.

(a) Subject to the provisions of §§ 405.244 and 405.245, where an individual incurs expenses for whole blood or equivalent quantities of packed red cells furnished to him as part of "medical and other health services" (see § 405.231) during a calendar year after 1967, the total amount of expenses incurred by such individual in such calendar year shall, after being reduced in accordance with the provisions of § 405.245, be further reduced before payment is made under this Subpart B by the reasonable and customary charge made by the supplier (e.g., physician, hospital, clinic, etc.) for any of the first 3 pints of whole blood or equivalent quantities of packed red blood cells furnished to the individual in such calendar year.

(b) For purposes of the blood deductible described in paragraph (a) of this section:

(1) A unit of packed red cells is considered equivalent to a pint of whole blood; and

(2) The amount of blood deductible is reduced to the extent that the individual replaces the blood on a pint for pint basis.

§ 405.249 Payment to a nonparticipating hospital furnishing emergency outpatient services.

(a) Payment (in amounts determined in accordance with § 405.240(c)) may be made to a hospital even though the hospital is not a participating provider (i.e., it has not entered into an agreement with the Secretary, pursuant to section 1866 of the Act—see § 405.606) if:

(1) The hospital meets the requirements of section 1861(e) (5) and (7) of the Act (see § 405.1001(a)); and

(i) Is primarily engaged in providing under the supervision of a doctor of medicine or osteopathy the services described in section 1861(e)(1); and

(ii) Is not primarily engaged in providing the services described in section 1861(j)(1)(A) (see § 405.1101(a)); and

(2) The services furnished are emergency outpatient services (see paragraph (b) of this section) furnished on or after April 1, 1968, to an individual who is enrolled under the supplementary medical insurance plan. (With respect to emergency outpatient hospital diagnostic services furnished before Apr. 1, 1968—see § 405.152.)

(3) The services are furnished by the hospital or by others under an arrangement made by the hospital;

(4) The hospital agrees to comply, with respect to the services furnished, with the provisions of Subpart F of this Part 405 regarding the charges for such services which may be imposed on the individual or any other person, and the return of any money incorrectly collected;

(5) The hospital has filed, and the Administration has accepted, the hospital's election to claim payment from the health insurance program for all emergency services furnished in the current calendar year under title XVIII of the Act (see § 405.658);

(6) Written request for payment is filed by or on behalf of the individual to whom such services were furnished;

(7) Payment for the services would have been made if an agreement under § 405.606 had been in effect with the hospital and the hospital otherwise met the conditions for payment;

(8) The hospital's claim for payment is filed with the Administration and is accompanied (attached thereto or as part thereof) by a physician's statement describing the nature of the emergency and stating that the emergency services rendered were necessary to prevent the death of the individual or the serious impairment of his health. The statement must be sufficiently comprehensive to support a finding that an emergency existed.

(b) For purposes of the supplementary medical insurance benefits plan "emergency outpatient services" are those outpatient hospital diagnostic and therapeutic services which are necessary to prevent the death or serious impairment of the health of the individual, and which, because of the threat to the life or health of the individual, necessitate the use of the most accessible hospital available and equipped to furnish such services.

(c) The requirements as to medical necessity for emergency outpatient services and as to whether the most accessible hospital available and equipped to furnish such services was utilized, will be made in accordance with the provisions of §§ 405.191 and 405.192.

§ 405.250 Procedures for payment; medical and other health services furnished by participating provider; home health services.

Payment for medical and other health services (see §§ 405.230(a)(3), 405.231, and 405.232), and for home health services (see §§ 405.230(a)(4), 405.233 through 405.236), furnished by a participating provider of services is made to such provider only if:

(a) A written request is filed by or on behalf of the individual to whom the services were furnished to have such payment made; and

(b) A physician certifies, and recertifies (see Subpart P of this part) when required, that:

(1) In the case of medical and other health services (except services described in § 405.231 (c), (k), and (l)), such services were medically required; or

(2) In the case of home health services:

(i) Such services were required because the individual was confined to his home (except when receiving items and services referred to in § 405.236(g)) and needed skilled nursing care on an intermittent basis, or physical or speech therapy, as the case may be; and

(ii) A written plan for furnishing such services to the individual has been established, and is periodically reviewed, by a physician; and

(iii) Such services were furnished while the individual was under the care of a physician.

(3) In the case of outpatient physical therapy services:

(i) Such services were required because the individual needed physical therapy services on an outpatient basis; and

(ii) A written plan for furnishing such services has been established, and is periodically reviewed, by a physician; and

(iii) Such services were furnished while the individual was under the care of a physician.

§ 405.251 Procedures for payment; medical and other health services furnished by other than a participating provider.

Payment for medical and other health services furnished by other than a participating provider of services (see §§ 405.230(a) (1) and (2), 405.231 and 405.232) may be made to the individual who incurred such expenses, or to the person who provided such services, under the following circumstances:

(a) *Payment to the individual.* Payment may be made to an individual who incurred expenses for medical and other health services furnished him by other than a participating provider of services if:

(1) He files a written request for payment;

(2) An itemized bill (which may be receipted or unpaid) is submitted which shows in detail the services provided;

(3) The items or services furnished such individual are "medical and other health services" (including "emergency outpatient services," if payment cannot be made under the provisions of § 405.249 solely because the hospital furnishing such services has not elected to claim such payment) for which payment may be made under the provisions set forth in § 405.230(a) (1) and (2).

(b) *Payment to the person who furnished the services.* Payment in the amount determined in accordance with § 405.240 may be made to a person (or organization) other than a participating provider of services who furnishes an enrolled individual medical and other health services for which payment may be made under the provisions set forth in §§ 405.230(a) (1) and (2), 405.231, and 405.232, if:

(1) The individual who was furnished the services executes an assignment of benefits to the person or organization which furnished the services;

(2) The assignment is properly filed;

(3) The items or services furnished are "medical and other health services" for which payment may be made under § 405.230(a) (1) and (2) in an amount as determined under the provisions of § 405.240; and

(4) The person or organization to whom such assignment has been made:

(i) Agrees to accept the individual's assignment of the right to receive payment for such services;

(ii) Agrees that the reasonable charge for such services shall be the full charge for such services; and

(iii) Agrees to charge the individual not more than the amount of any unpaid annual deductible (see § 405.245), if any, the blood deductible (see § 405.246), if applicable, plus 20 percent of the difference between the deductibles and the reasonable charge (as determined in subdivision (ii) of this subparagraph).

§ 405.252 Conditions prohibiting payment of benefits.

In addition to any other limitation, condition, or exclusion in the regulations in this subpart, payment of supplementary medical insurance benefits may not be made under the following circumstances:

(a) *No payment unless information furnished.* No payment may be made to any person, organization or to any provider of services unless the information necessary to determine the amount due has been furnished.

(b) *Federal provider; Federal agency.* No payment may be made to any Federal provider of services or other Federal agency, except a provider of services which may be determined by the Secretary to be providing services to the public generally as a community institution or agency.

(c) *Services furnished at public expense.* No payment may be made to any provider of services or other person or organization for any item or service which such provider, person, or organization is obligated by a law of, or contract with, the United States to render at public expense.

(d) *Alien is outside the United States for 6 full calendar months.* No payment may be made under this Subpart B with respect to items or services furnished to an individual who is not a citizen or national of the United States in any month for which monthly benefits are not being paid to such individual (or would not be paid if he were entitled to such benefits) under certain circumstances because he has been outside the United States throughout 6 full calendar months, until, and beginning with, the first full calendar month such individual has been back in the United States.

(e) *Time limitation on payment.* After March 1968, no payment may be made under Part B of title XVIII of the Act to any person, organization, or provider of services unless a bill or request for payment made pursuant to the provisions of §§ 405.249–405.251 is submitted no later than the close of the calendar year following the year in which the services were furnished. For purposes of this paragraph, services furnished during the last 3 months of any calendar year are deemed to have been rendered in the succeeding calendar year.

Title 24—HOUSING AND HOUSING CREDIT

Chapter III—Housing Assistance Administration, Department of Housing and Urban Development

[Docket No. R-71-139]

PROTOTYPE COST LIMITS FOR PUBLIC HOUSING

Washington, D.C., Area

In the FEDERAL REGISTER issued for Saturday, May 1, 1971 (36 F.R. 8213–8232), prototype per unit cost schedules were published pursuant to section 209 (a) of the Housing and Urban Development Act of 1970. While these schedules are currently being evaluated in light of public comments received pursuant to invitation in the issuing order, consideration of subsequent factual project cost data received from the Washington, D.C., Area Office indicates that certain prototype per unit cost schedules should be revised.

Inasmuch as the new prototype cost schedules cannot be utilized until the costs themselves become effective by publication in the FEDERAL REGISTER, continuity of contract approvals requires the immediate publication of this material. Accordingly, it is impracticable to provide notice and public procedure with respect to those cost limits in accordance with the Department's recently adopted Publication Policy (24 CFR Part 10), and good cause exists for making them effective on the date of publication in the FEDERAL REGISTER.

For the foregoing reasons the following changes are made to the schedule as originally published in volume 36 of the FEDERAL REGISTER:

1. On page 8216, delete the Washington, D.C., schedule under Region III and substitute the revised prototype per unit cost schedule for Washington, D.C., shown on Appendix I set forth below, Prototype Per Unit Cost Schedules, revised July 21, 1971.

(Sec. 7(d) of Dept. of HUD Act, 42 U.S.C. 3535(d))

Effective date. This rule is effective upon the date of publication in the FEDERAL REGISTER (8–25–71).

EUGENE A. GULLEDGE,
Assistant Secretary-Commissioner.

PROTOTYPE PER UNIT COST SCHEDULE

REGION III

	Number of bedrooms						
	0	1	2	3	4	5	6
Washington, D.C.							
Detached and semidetached	10,400	12,450	13,750	16,450	19,800	22,050	23,000

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

[T.D. 7137]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Amortization of Certain Coal Mine Safety Equipment

Correction

In F.R. Doc. 71-11550 appearing at page 14732 in the issue of Wednesday, August 11, 1971, the phrase "(such date)" appearing in the 12th and last lines of § 1.187-1(b)(3) should be replaced by the date "August 11, 1971".

Title 32—NATIONAL DEFENSE

Chapter XVIII—Office of Civil Defense, Office of the Secretary of the Army

PART 1802—DONATION OF FEDERAL SURPLUS PERSONAL PROPERTY FOR CIVIL DEFENSE PURPOSES

Additional Conditions

Section 1802.6 is amended as follows:

In paragraph (e) delete the figure "$50,000" and substitute the figure "$100,000."

New paragraph (g) is added to read as follows:

§ 1802.6 Additional conditions.

* * * * *

(g) *GSA review or proposed amendment, enforcement, or release of restrictions on donated property with original acquisition cost of $2,500 or more.* Actions taken by the Director of Civil Defense or other duly authorized OCD official(s) acting under his delegated authority (1) to determine and enforce compliance with the terms, conditions, reservations, and restrictions contained in any instrument by which the donated property was transferred; (2) to reform, correct, or amend any such instrument; or (3) to grant releases from any of the terms, conditions, reservations, and restrictions contained therein, and to convey or release any right or interest reserved to the United States thereby; are subject to the disapproval of the Administrator of General Services within thirty (30) days after notice to him of any action to be taken.

(64 Stat. 1255, 50 U.S.C. App. 2253; 70 Stat. 493, 40 U.S.C. 484 (j), (k); Reorg. Plan No. 1 of 1958, as amended, 72 Stat. 1799-1801, 23 F.R. 4991, E.O. 10952, as amended, 26 F.R. 6577; Establishment of the Office of Civil Defense and Delegation of Authority Regarding Civil Defense Functions, published Apr. 10, 1964, 29 F.R. 5017)

Effective date. These amendments are effective immediately.

Dated: August 12, 1971.

JOHN E. DAVIS,
Director of Civil Defense.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 1—Federal Procurement Regulations

PART 1-1—GENERAL

Miscellaneous Amendments

This amendment to the Federal Procurement Regulations changes §§ 1-1.703-1 and 1-1.703-2 to include new and revised procedures prescribed by the Small Business Administration with regard to the determination of the status of a bidder or offeror as a small business concern and the handling of protests, appeals, and requests for reconsideration relating thereto.

Subpart 1-1.7—Small Business Concerns

1. Section 1-1.703-1 is revised to make editorial changes in paragraphs (a) and (b) and to prescribe new and revised provisions in paragraph (b). As revised, the section reads as follows:

§ 1-1.703-1 Representation by bidder or offeror.

(a) Except as provided in paragraph (b) of this § 1-1.703-1, the contracting officer shall accept as conclusive for the purpose of a specific procurement as representation by a bidder or offeror that it is a small business concern as defined by SBA.

(b) In the submission of a bid or offer in connection with a specific procurement, a concern which meets the criteria in § 1-1.701 and which either has not been determined by the SBA to be ineligible, or has been determined to be ineligible but has subsequently been certified by the SBA as being a small business, may represent that it is a small businss. A representation by a bidder or offeror that it is a small business concern shall be effective, even though questioned in accordance with the terms of § 1-1.703-2, unless the SBA, in response to such question and pursuant to the procedures set forth in § 1-1.703-2, determines that the bidder or offeror in question is not a small business concern. The controlling point in time for a determination concerning the size status of a questioned bidder or offeror shall be the date of award, except that no bidder or offeror shall be eligible for award as a small business concern unless it has in good faith represented itself as a small business prior to the opening of bids or the closing date for the submission of offers (see § 1-2.405(b) regarding minor informalities and irregularities in bids). In the absence of a written protest or other information which would cause him to question the veracity of the self-certification of the bidder or offeror, the contracting officer shall accept the self-certification at face value for the particular procurement involved. If the contracting officer has cause to question the veracity of a self-certification and elects to do so, he shall refer the eligibility issue to the SBA by filing a formal protest pursuant to § 1-1.703-2. If SBA determines that a concern is ineligible as a small business concern for the purpose of a particular procurement, that concern cannot thereafter become eligible for the purpose of such procurement by taking affirmative acts to constitute itself a small business.

2. Section 1-1.703-2 is revised to prescribe new and amended provisions in paragraphs (a), (b), (c), (d), (e), (f), (g), and (h). As revised the section reads as follows:

§ 1-1.703-2 Protest regarding small business status.

(a) Any bidder or offeror or other interested party may challenge the small business status of any other bidder or offeror on a particular procurement by sending or delivering a written protest, as defined in paragraph (b) of this § 1-1.703-2, to the contracting officer responsible for the particular procurement. Any contracting officer who receives a timely protest, or who wishes to question the small business status of a bidder or offeror himself, shall promptly forward such protest (or submit his protest) to the SBA district office serving the geographical area in which the principal office of the protested concern, not including its affiliates, is located.

(b) As used in this section, "protest" means a statement in writing from any bidder or offeror on a particular procurement (or from any other party interested therein) alleging that another bidder or offeror on such procurement is not a small business concern. The statement shall contain the basis for the protest, together with specific detailed evidence in support of the protestant's claim. Such protest must be received by the contracting officer prior to the close of business on the 5th working day after bid opening date or closing date for receipt of proposals, except that in the case of negotiated procurements, a protest may be filed with the contracting officer by any other offeror or other interested party within 5 working days after receipt from the contracting officer of notification of the identity of the offeror being protested. A protest received after such time limits shall be timely for the purpose of the procurement in question if, in the case of a mailed protest, such protest is sent by registered or certified mail and the postmark thereon indicates that the protest would have been delivered within the time limit but for delays beyond the control of the protestant or, in the case of a telegraphed protest, the telegram date and time line indicates that the protest would have been delivered within the time limit but for delays beyond the control of the protestant. An untimely protest or one received after award of a contract, even though timely, shall be forwarded to the SBA district office serving the geographical area in which the principal office of the protested concern, not including its affiliates, is located. The SBA will make a determination on the protest but such determination shall not apply to the procurement in question. The contracting officer may at any time after bid or proposal opening question the small business status of any bidder or offeror for the purpose of a particular procurement by filing a written protest with the SBA district office in which the principal office of the protested concern, not including its affiliates, is located. A protest by a contracting officer shall be timely for the purpose of the procurement in question whether filed before or after award.

(c) Upon receipt of a protest, the SBA district director or his delegatee will immediately notify the contracting officer and the protestant of the date such protest was received and that the size of the concern being protested is being considered by SBA. The SBA district director or his delegatee shall also immediately advise the protested bidder or offeror of the receipt of the protest and shall forward to the protested bidder or offeror a copy of the protest and a blank SBA Form 355, Application for Small Business Determination, by certified mail with return receipt requested. Such bidder or offeror must, within 3 working days after receiving the copy of the protest and the SBA Form 355, file the completed form as directed by SBA, and must attach thereto a statement in answer to the allegations in the letter of protest, together with evidence to support its position. If such bidder or offeror does not submit the completed SBA Form 355 with the attached statement and supporting evidence within the filing period provided herein, or within any additional period of time granted by SBA for cause, the SBA will rule that the protested concern is other than a small concern.

(d) SBA will, within 10 working days, if possible, after receipt of a protest, investigate and determine the small business status of the protested bidder or offeror and, by certified mail with return receipt requested, notify the contracting officer, the protestant, and the protested bidder or offeror of its decision. Such decision shall be final unless appealed in accordance with paragraph (f) of this § 1-1.703-2 and the procuring activity is notified of the appeal prior to award. If an award has been made prior to the time the contracting officer receives notice of the appeal, the contract awarded shall be presumed to be valid and any determination rendered by SBA concerning the small business status of the concern involved shall be considered in future procurements.

(e) Following receipt by the contracting officer of a protest as set forth in paragraphs (a) and (b) of this § 1-1.703-2, procurement action by the procuring activity shall be suspended pending SBA's determination of the status of the protested bidder or offeror or the expiration of the 10-day period prescribed in paragraph (d) of this § 1-1.703-2, unless unusual conditions make it necessary that an award be made. If SBA's determination is not received by the contracting officer within 10 working days after SBA's receipt of the protest, the contracting officer shall ascertain when such determination can be expected. In cases where further delay in awarding the contract would be disadvantageous to the Government, it shall be presumed that the protested bidder or offeror is a small business concern.

(f) (1) An appeal from a size determination made by an SBA Regional Director or his delegatee may be taken by: (i) Any concern or other interested party which has protested the small business status of another concern pursuant to paragraphs (a) and (b) of this § 1-1.703-2 and whose protest has been denied by the SBA Regional Director or his delegatee; (ii) any concern or other interested party which has been adversely affected by the decision of the SBA Regional Director or his delegatee; or (iii) the SBA Associate Administrator for the SBA program involved. Written notices of appeal shall be addressed to the Chairman, Size Appeals Board, Small Business Administration, Washington, DC 20416. An appeal from a decision concerning the small business status of a bidder or offeror involved in a pending procurement may be taken within 5 working days after receipt of a decision by an SBA Regional Director or his delegatee. Unless written notice of such an appeal is received by the SBA Size Appeals Board before the close of business on the fifth working day after receipt of the decision, the appellant will be deemed to have waived its rights of appeal insofar as the pending procurement is concerned.

(2) No particular form is prescribed for the notice of appeal. However, the appellant shall submit to the SBA Size Appeals Board an original and four legible copies of such notice and, to avoid time-consuming correspondence, the notice should include the following information: (i) Name and address of the concern on which the size determination was made; (ii) the character of the determination from which the appeal is taken and its date; (iii) if applicable, the IFB or contract number and date, and the name and address of the contracting officer; (iv) a concise and direct statement of the reasons why the decision of the SBA Regional Director or his delegatee is alleged to be erroneous; (v) documentary evidence in support of such allegations; and (vi) action sought by the appellant.

(3) The SBA Size Appeals Board shall promptly acknowledge receipt of the notice of appeal and shall send a copy of such notice to the appropriate SBA Regional Director or his delegatee and to the contracting officer (if a pending procurement is involved). If the appellant is not the concern whose size status is in question, the Size Appeals Board shall also send a copy of the notice of appeal to such concern. The Board shall also notify all known interested parties that the appeal has been filed. In its discretion, the Board may also provide any of such interested parties with copies of the appellant's notice of appeal, or parts thereof, when the Board determines that this would be in the interest of fairness or would assist in the performance of its functions. After an appeal has been filed, any other interested party may file with the Board a signed statement, together with four legible copies thereof, as to why the appeal should or should not be denied. Such statement and supporting evidence shall be mailed or delivered to the SBA Size Appeals Board within 5 days of receipt of appropriate notification of appeal or other action in the proceeding unless an extension is granted for cause by the Chairman of the Board. If the appellant is the concern whose size status is in question, the Board will provide copies of such statements and appropriate evidence submitted in connection with the appeal (or reconsideration thereof) to such appellant.

(4) The SBA Size Appeals Board will consider the appeal on the written submission of the parties. The Board, in its discretion, may also conduct an oral inquiry to assist it in arriving at the facts necessary for deciding the appeal. After consideration of all relevant information, the Board will promptly render a decision which will state the reason for such decision. The decision of the SBA Size Appeals Board will be predicated upon the entire record and the Board will state in writing the basis for its findings and conclusions. The Chairman of the Board will promptly notify, in writing, the appellant and other interested parties (including the contracting officer if a pending procurement is involved) of the Board's decision, together with the reasons therefor.

(5) Within no more than 5 working days following a decision in a size appeal case, any interested party may petition the SBA Size Appeals Board for reconsideration upon presentation of appropriate justification therefor. The request for reconsideration may be in any form, with an original and four legible copies. Grounds for reconsideration will be (i) a material error of fact in the original decision, or (ii) relevant information not previously considered by the Board or relevant information not previously available to any of the parties involved. When a request for reconsideration is made by any of the interested parties, such requesting party must demonstrate to the Board that the grounds for reconsideration involve facts or information which were not previously presented to the Board through no fault or omission of such party. The Board will notify all interested parties that a request for reconsideration has been received.

(6) The SBA Size Appeals Board will consider the request for reconsideration upon the statement and other evidence submitted by the petitioners and any other evidence which the Board, in its discretion, deems necessary. If the Board denies the request for reconsideration, it will notify all parties. If the request for reconsideration is granted, the Board will so notify all interested parties and will set forth a reasonable time within which the interested parties, if appropriate, may submit additional information. The Board may, in its discretion, provide interested parties with copies of

appropriate information submitted by other parties where it determines that this is necessary in the interest of fairness or to better assist the Board in its factfinding functions. Following its reconsideration of the matter, the Board will promptly render its decision in the same manner as provided in subparagraph (4) of this paragraph. Thereafter, the Board will notify all interested parties of its decision.

(g) The determination of the appropriate classification of a product or service establishing the small business definition to be used in a specific procurement shall be made by the contracting officer. The contracting officer's determination of the appropriate classification of a product or service shall be final unless appealed in the manner prescribed in paragraph (h) of this § 1-1.703-2.

(h) A written appeal from a product or service classification determination made by a contracting officer may be taken (1) not less than 10 working days before the bid opening date or closing date for submitting proposals or quotations when the bid opening date or closing date for the submission of proposals or quotations is more than 30 calendar days after the issuance of the invitation for bids or requests for proposals or quotations, or (2) not less than 5 working days before the bid opening date or closing date for submitting proposals or quotations when the bid opening date or closing date for the submission of proposals or quotations is 30 calendar days or less after the issuance of the invitation for bids or request for proposals or quotations. The appeal shall be addressed to the Chairman, Size Appeals Board, Small Business Administration, Washington, DC 20416. No particular form is prescribed for the notice of appeal. However, the appellant shall submit to the SBA Size Appeals Board an original and four legible copies of such notice of appeal and, to avoid time-consuming correspondence, the notice of appeal should include the following information: (i) The character of the determination from which the appeal is taken and its date; (ii) the number and date of the invitation for bids or request for proposals or quotations, and the name and address of the contracting officer; (iii) a concise and direct statement of the reasons why the determination of the contracting officer is alleged to be erroneous; (iv) documentary evidence to support such allegations; and (v) the action sought by the appellant. Following receipt of the appeal by the SBA Size Appeals Board, the appeal will be handled and the decision thereon will be rendered in accordance with the procedures set forth in paragraph (f) of this § 1-1.703-2.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. These regulations are effective September 30, 1971, but may be observed earlier.

Dated: August 18, 1971.

ROBERT L. KUNZIG,
Administrator of General Services.

Title 49—TRANSPORTATION

Chapter I—Hazardous Materials Regulations Board, Department of Transportation

[Docket No. HM-1; Amdt. No. 170-1]

PART 170—RULE MAKING PROCEDURES OF THE HAZARDOUS MATERIALS REGULATIONS BOARD

Applicability

The purpose of this amendment to § 170.1 of the Hazardous Materials Regulations is to reflect (1) an updating of the Department of Transportation Order establishing the Board, (2) the transfer of the responsibility of the Assistant Secretary for Research and Technology in this area to the Assistant Secretary for Safety and Consumer Affairs, and (3) the fact that, in order to expedite rule-making activities of the Board, the Director of the Office of Hazardous Materials will issue all notices of proposed rule making relating to classification, packaging, labeling, shipping papers, compatibility (except with respect to matters solely applicable to a single mode of transportation), and general shipping requirements, after appropriate coordination with the operating administrations.

In view of the fact that these changes relate only to the internal procedures of the Department in carrying out its hazardous materials functions, the Board has determined that notice and public procedures are unnecessary and that the amendment may be made effective in less than 30 days. Therefore, this amendment becomes effective upon publication in the FEDERAL REGISTER (8-25-71).

In consideration of the foregoing, § 170.1 of Title 49 CFR is amended as follows:

In § 170.1 paragraph (b) first sentence, the words, "Department of Transportation Order 1100.11, dated July 27, 1967," are changed to read, "Department of Transportation Order 1120.10, dated August 6, 1971," and "Assistant Secretary for Research and Technology" is changed to read, "Assistant Secretary for Safety and Consumer Affairs." In paragraph (c) first sentence, the words, "Issuing a notice or" are deleted.

(Sec. 831-835, Title 18, United States Code; sec. 9, Department of Transportation Act, 49 U.S.C. 1657)

Issued in Washington, D.C., on August 19, 1971.

W. F. REA III,
Rear Admiral, Board Member, For the U.S. Coast Guard.

MAC E. ROGERS,
Board Member, for the Federal Railroad Administration.

ROBERT A. KAYE,
Board Member, for the Federal Highway Administration.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

SUBCHAPTER C—THE NATIONAL WILDLIFE REFUGE SYSTEM

PART 32—HUNTING

Seney National Wildlife Refuge, Mich.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (8-25-71).

§ 32.22 Special regulations; upland game, for individual wildlife refuge areas.

MICHIGAN
SENEY NATIONAL WILDLIFE REFUGE

The public hunting of Ruffed and Sharp-tailed Grouse, Snowshoe Hare, Gray and Black Squirrels, Coyote, Fox, Porcupine, Raccoon, Skunk, and Crow on the Seney National Wildlife Refuge is permitted only on the area designated as open to hunting. This open area, comprising 85,200 acres, is delineated on maps available at refuge headquarters, Seney, Mich., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111.

Hunting shall be in accordance with all applicable State regulations governing the hunting of these species subject to the following special conditions:

(1) That portion of the refuge designated as Area A is closed to all hunting until November 15.

(2) Foxes and raccoons may not be taken at night.

(3) All motorized conveyances are prohibited from traveling on dikes or off established roads and trails. Motorized bikes, all-terrain vehicles and snowmobiles are not permitted on the refuge.

The provisions of this special regulation supplements the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through February 29, 1972.

JOHN E. WILBRECHT,
Refuge Manager, Seney National Wildlife Refuge.

AUGUST 17, 1971.

[FR Doc.71-12404 Filed 8-24-71;8:48 am]

PART 32—HUNTING

Seney National Wildlife Refuge, Mich.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (8-25-71).

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

MICHIGAN
SENEY NATIONAL WILDLIFE REFUGE

Public hunting of deer and bear on the Seney National Wildlife Refuge is permitted only on the area designated as open to hunting. The open area, comprising 85,200 acres, is delineated on a map available at the refuge headquarters, Seney, Mich., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111.

Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of deer and bear subject to the following special conditions:

(1) Bow and arrow hunting is permitted only on 33,525 acres of the refuge designated as Area B, from October 1 through November 14; and on the 85,200 acres of the refuge designated as Area A and Area B, from December 1 through December 31.

(2) Bear may be taken by archers only from October 1 through November 14 and by gun hunters only from November 15 through November 30. Bear may not be taken with aid of dogs.

(3) Camping is permitted only west of the Driggs River during the gun season. A camp registration permit, obtainable at refuge headquarters, is required.

(4) All motorized conveyances are prohibited from traveling on dikes or off established roads and trails. Motorized bikes, all-terrain vehicles and snowmobiles are not permitted on the refuge.

The provisions of these special regulations supplement the regulations which govern hunting in wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32 and are effective through December 31, 1971.

JOHN E. WILBRECHT,
Refuge Manager, Seney National Wildlife Refuge.

AUGUST 17, 1971.

PART 32—HUNTING

PART 33—SPORT FISHING

Sequoyah National Wildlife Refuge, Okla.

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the Migratory Bird Conservation Act of February 18, 1929, as amended (45 Stat. 1222; 16 U.S.C. 715), and the National Wildlife Refuge System Administration Act of 1966 (80 Stat. 927 as amended; 16 U.S.C. 668dd), that 50 CFR Parts 32 and 33 are amended by the addition of Sequoyah National Wildlife Refuge, Okla., to the list of areas open to the hunting of upland game, and migratory game birds, and sport fishing, as legislatively permitted.

It has been determined that regulated hunting of upland game, migratory game birds, and sport fishing may be permitted as designated on the Sequoyah National Wildlife Refuge without detriment to the objectives for which the area was established.

Since this amendment is solely to conform to the State of Oklahoma game and fish laws, we find that notice and public procedure in accordance with the Administrative Procedures Act (5 U.S.C. 553(b)(B)) are impracticable and unnecessary, and since this amendment benefits the public by relieving existing restrictions on hunting of migratory game birds, upland game, and sport fishing, it shall become effective upon publication in the FEDERAL REGISTER (8-25-71).

(Sec. 7, 80 Stat. 929, 16 U.S.C. 668dd(c)(d))

1. Section 32.11 is amended by the following addition:

§ 32.11 List of open areas; migratory game birds.

* * * * *

OKLAHOMA

Sequoyah National Wildlife Refuge.

2. Section 32.21 is amended by the following addition:

§ 32.21 List of open areas; upland game.

* * * * *

OKLAHOMA

Sequoyah National Wildlife Refuge.

3. Section 33.4 is amended by the following addition:

§ 33.4 List of open areas; sport fishing.

* * * * *

OKLAHOMA

Sequoyah National Wildlife Refuge.

Title 32A—NATIONAL DEFENSE, APPENDIX

Chapter X—Oil Import Administration, Department of the Interior

[Oil Import Reg. 1 (Rev. 5); Amdt. 34]

OI REG. 1—OIL IMPORT REGULATION

Allocations to Refiners; Districts I-IV, District V

On May 8, 1971, a notice of proposed rule making to amend paragraph (c) of section 10 of Oil Import Regulation 1 (Revision 5), as amended, and paragraph (c) of section 11 of Oil Import Regulation 1 (Revision 5), as amended, was published in the FEDERAL REGISTER (36 F.R. 8587).

The proposal was that each of these paragraphs should be so amended as to implement suggestions received following the publication in the FEDERAL REGISTER of July 16, 1970 (35 F.R. 11405) of proposed amendments of these sections which would have terminated finished product import allocations based upon imports during the calendar year 1957. Comments received on the original proposal urged that some flexibility be afforded to importers in order to permit adjustments in special circumstances. The later proposal took these comments into account by providing that, with respect to section 10, paragraph (c) should be so amended as to provide, that, under an allocation made pursuant to paragraph (b) thereof, unfinished oils might be imported, but that imports of such oils should not exceed 15 percent of the allocation and that, within such 15 percent, a maximum quantity of imports, equal to 1 percent of the total allocation, might be imported in the form of finished products, subject, however, to prior written notification to the Administrator and that the entry of oils not to be further processed should be made only for extraordinary reasons of the nature therein set forth. With respect to section 11, the later proposal, taking into account the comments received regarding the earlier proposal mentioned above, was that paragraph (c) should be so amended as to provide that, under an allocation made pursuant to paragraph (b) thereof, unfinished oils might be imported, but that imports of such oils should not exceed 25 percent of the allocation and that, within such 25 percent, a maximum quantity of imports equal to 1 percent of the total allocation might be imported in the form of finished products, subject, however, to prior written notification to the Administrator and that the entry of oils not to be further processed should be made only for extraordinary reasons of the nature therein set forth.

Thirteen timely comments regarding the later proposal were received. A majority of them supported the proposal on the ground that it would afford greater flexibility and improve administrative efficiency without resulting in the exportation of a significant amount of refinery capacity. Some of the approving comments suggested that the right to import finished products should not be limited to the original license holder and that it ought not to be conditioned upon the occurrence of extraordinary circumstances. Objections to the proposal suggested that it would be only partially effective in other than coastal and border areas; that the determination as to whether extraordinary circumstances existed would present difficulties; and that the proposal would encourage the exportation of refinery capacity.

All comments have been considered with care. The provision conditioning imports of finished products upon the existence of extraordinary circumstances has been omitted; however, the nature and purpose of the change is to facilitate the importing of minimal quantities under extraordinary circumstances. Greater precision in the expression of the amount of finished products which may be imported has been achieved. Provisions forbidding the exchange of finished products thus imported have been added.

Accordingly, paragraph (c) of section 10 of Oil Import Regulation 1 (Revision 5), as amended, is hereby amended to read as follows:

SEC. 10 Allocations, refiners; Districts I–IV.

* * * * *

(c) Under an allocation made pursuant to paragraph (b) of this section, unfinished oils may be imported, but imports of such oils shall not exceed 15 percent of the allocation. Within such 15 percent, a maximum quantity of imports not exceeding 1 percent of the total allocation may be imported in the form of finished products, provided prior written notification is given to the Aministrator of each entry proposed to be made. Finished products imported pursuant to this paragraph may not be exchanged.

* * * * *

Paragraph (c) of section 11 of Oil Import Regulation 1 (Revision 5), as amended, is hereby amended to read as follows:

SEC. 11 Allocations; refiners; District V.

* * * * *

(c) Under an allocation made pursuant to paragraph (b) of this section, unfinished oils may be imported, but imports of such oils shall not exceed 25 percent of the allocation. Within such 25 percent, a maximum quantity of imports not exceeding 1 percent of the total allocation may be imported in the form of finished products, provided, that prior written notification is given to the Administrator of each entry proposed to be made. Finished products imported pursuant to this paragraph may not be exchanged.

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Parts 8, 24]

ENTRY OF MERCHANDISE

Proposed Requirement for Reporting Owner of Merchandise Importer Number

Notice is hereby given that under the authority contained in section 301 of title 5 of the United States Code and section 484 of the Tariff Act of 1930, as amended (19 U.S.C. 1484), it is proposed to amend the Customs Regulations to provide for the filing of Customs Form 5106, notification of or application for importer's number, for the owner of merchandise submitted for entry and the reporting of the number of the owner of the merchandise on the entry record, Customs Form 5101. The proposed amendment in tentative form is set forth below:

In § 8.8, paragraph (c) is amended to read as follows:

§ 8.8 Requirements on entry.

* * * * *

(c) A copy of Customs Form 5101, Entry Record, shall be prepared and presented by the importer with each dutiable consumption, warehouse, appraisement, vessel repair, or drawback entry. The importer of record number and the number of the owner of merchandise shall be reported for each such entry filed other than a consolidated entry covering the shipment of several owners. When the importer of record and the owner of merchandise are one and the same, the importer number shall be entered in both spaces provided on Customs Form 5101. When a consolidated entry is filed the notation "consolidated" shall be entered in the space for the owner of merchandise number. If an importer of record desires to have refunds, bills or notices of liquidation pertaining to his entry mailed in care of his agent, the agent's importer number shall also be reported on the Customs Form 5101. In such a case, the importer of record shall file or shall have filed previously a Customs Form 4811 authorizing the mailing of refunds, bills, or notices of liquidation to the agent.

* * * * *

In § 24.5, paragraph (a) is amended to read as follows:

§ 24.5 Filing identification number.

(a) Each person, business firm, Government agency, or other organization shall file Customs Form 5106, notification of or application for importer's number or notice of change of name or address, with the first dutiable formal entry which he submits or the first request for services that will result in the issuance of a bill or a refund check upon adjustment of a cash collection. Notification of or application for importer's number, Customs Form 5106, shall also be filed for the owner of the merchandise for which such entry is being made.

* * * * *

Prior to the issuance of the proposed amendment, consideration will be given to any relevant data, views, or arguments which are submitted in writing to the Commissioner of Customs, Washington, D.C. 20226, and received not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER.

[SEAL] EDWIN F. RAINS,
Acting Commissioner of Customs.

Approved: August 16, 1971.

EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

[FR Doc.71-12423 Filed 8-24-71;8:50 am]

Internal Revenue Service

[26 CFR Part 1]

INCOME TAX

Consolidated Return Regulations

Notice is hereby given that the regulations proposed to be prescribed under section 1502 of the Internal Revenue Code of 1954 which were published in tentative form with a notice of proposed rule making in the FEDERAL REGISTER on April 17, 1968 (33 F.R. 5878), and the regulations proposed to be prescribed under sections 531 and 1502 of the Internal Revenue Code of 1954 which were published in tentative form with a notice of proposed rule making in the FEDERAL REGISTER on July 9, 1968 (33 F.R. 9830), are withdrawn.

Further notice is hereby given that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, preferably in quintuplicate, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by October 11, 1971. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by October 11, 1971. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 1502 and 7805 of the Internal Revenue Code of 1954 (68A Stat. 367, 917; 26 U.S.C. 1502, 7805).

[SEAL] HAROLD T. SWARTZ,
Acting Commissioner of Internal Revenue.

The Income Tax Regulations (26 CFR Part 1), under section 1502 of the Internal Revenue Code of 1954, are amended as follows:

PARAGRAPH 1. Section 1.1502-1(f)(2) is amended to read as follows:

§ 1.1502-1 Definitions.

(f) *Separate return limitation year.* * * *

(2) *Exceptions.* The term "separate return limitation year" shall not include—

(i) A separate return year of the corporation which is the common parent for the consolidated return year to which the tax attribute is to be carried (except as provided in § 1.1502-75(d)(2)(ii) and subparagraph (3) of this paragraph),

(ii) A separate return year of any corporation which was a member of the group for each day of such year, or

(iii) A separate return year of a predecessor of any member if such predecessor was a member of the group for each day of such year,

provided that an election under section 1562(a) (relating to the privilege to elect multiple surtax exemptions) was never effective (or is no longer effective as a result of a termination of such election) for such year. An election under section 1562(a) which is effective for a taxable year beginning in 1963 and ending in 1964 shall be disregarded.

* * * * *

PAR. 2. Section 1.1502-3 is amended by revising paragraph (a) (3) and (4) to read as follows:

§ 1.1502-3 Consolidated investment credit.

(a) *Determination of amount of consolidated credit.* * * *

(3) *Consolidated limitation based on amount of tax.* (i) Notwithstanding the amount of the consolidated credit earned for the taxable year, the consolidated credit allowed by section 38 to the group for the consolidated return year is limited to—

(*a*) So much of the consolidated liability for tax as does not exceed $25,000 plus

(*b*) For taxable years ending on or before March 9, 1967, 25 percent of the consolidated liability for tax in excess of $25,000, or

(*c*) For taxable years ending after March 9, 1967, 50 percent of the con-

solidated liability for tax in excess of $25,000.

The $25,000 amount referred to in the preceding sentence shall be reduced by any part of such $25,000 amount apportioned under § 1.46–1 to component members of the controlled group (as defined in section 46(a)(5)) which do not join in the filing of the consolidated return. For further rules for computing the limitation based on amount of tax with respect to the suspension period (as defined in section 48(j)), see section 46(a)(2). The amount determined under this subparagraph is referred to in this section as the "consolidated limitation based on amount of tax."

(ii) If an organization to which section 593 applies or a cooperative organization described in section 1381(a) joins in the filing of the consolidated return, the $25,000 amount referred to in subdivision (i) of this subparagraph (reduced as provided in such subdivision) shall be apportioned equally among the members of the group filing the consolidated return. The amount so apportioned equally to any such organization shall then be decreased in accordance with the provisions of section 46(d). Finally, the sum of all such equal portions (as decreased under section 46(d)) of each member of the group shall be substituted for the $25,000 amount referred to in subdivision (i) of this subparagraph.

(4) *Consolidated liability for tax.* For purposes of subparagraph (3) of this paragraph, the consolidated liability for tax shall be the income tax imposed for the taxable year upon the group by chapter 1 of the Code, reduced by the consolidated foreign tax credit allowable under § 1.1502–4. The tax imposed by section 56 (relating to minimum tax for tax preferences), section 531 (relating to accumulated earnings tax), section 541 (relating to personal holding company tax), and any additional tax imposed by section 1351(d)(1) (relating to recoveries of foreign expropriation losses), shall not be considered tax imposed by chapter 1 of the Code. In addition, any increase in tax resulting from the application of section 47 (relating to certain dispositions, etc., of section 38 property) shall not be treated as tax imposed by chapter 1 for purposes of computing the consolidated liability for tax.

* * * * *

PAR. 3. Section 1.1502–11 is amended to read as follows:

§ 1.1502–11 Consolidated taxable income.

(a) *In general.* The consolidated taxable income for a consolidated return year shall be determined by taking into account—

(1) The separate taxable income of each member of the group (see § 1.1502–12 for the computation of separate taxable income);

(2) Any consolidated net operating loss deduction (see § 1.1502–21 for the computation of the consolidated net operating loss deduction);

(3) Any consolidated net capital gain (see § 1.1502–22 for the computation of the consolidated net capital gain);

(4) Any consolidated section 1231 net loss (see § 1.1502–23 for the computation of the consolidated section 1231 net loss);

(5) Any consolidated charitable contributions deduction (see § 1.1502–24 for the computation of the consolidated charitable contributions deduction);

(6) Any consolidated section 922 deduction (see § 1.1502–25 for the computation of the consolidated section 922 deduction);

(7) Any consolidated dividends received deduction (see § 1.1502–26 for the computation of the consolidated dividends received deduction); and

(8) Any consolidated section 247 deduction (see § 1.1502–27 for the computation of the consolidated section 247 deduction).

(b) *Disposition of stock of a subsidiary*—(1) *In general.* If there is a disposition (as defined in § 1.1502–19(b)) of stock (ignoring for this purpose stock which is limited and preferred as to dividends) of a subsidiary during the taxable year, the adjustments under § 1.1502–32(b) with respect to such stock and the amount of gain or loss on disposition shall be determined in accordance with this paragraph, and the amounts taken into account in computing consolidated taxable income shall be limited as provided in this paragraph.

(2) *Determination of amount of gain or loss on disposition.* For the purpose of determining gain or loss on disposition—

(i) Consolidated taxable income or consolidated net operating loss (and earnings and profits or deficit in earnings and profits) for the taxable year shall be determined tentatively without regard to gain or loss on disposition,

(ii) The adjustments under § 1.1502–32(b) with respect to the stock disposed of shall be based upon the amounts determined under subdivision (i) of this paragraph, and

(iii) Gain (including any amount included in income under § 1.1502–19(a)) or loss on disposition shall be determined in accordance with such adjustments to basis.

(3) *Limitation on carryovers.* If this paragraph applies—

(i) The portion of any consolidated net capital or net operating loss carryover attributable to the subsidiary whose stock is disposed of, and

(ii) The portion of any net capital or net operating loss carryover from a separate return year of such subsidiary,

which may be carried to the taxable year shall not exceed the amount of any such carryover which could be carried to the taxable year if the tentative consolidated taxable income determined under subparagraph (2)(i) of this paragraph were consolidated taxable income for the year.

(4) *Limitation on loss.* If there is gain (including any amount included in income under § 1.1502–19(a)) on disposition—

(i) The amount of capital losses of the subsidiary whose stock is disposed of taken into account under § 1.1502–22 shall be reduced by an amount equal to the portion of any tentative consolidated net capital loss attributable to the subsidiary under § 1.1502–79(b)(2), and

(ii) The amount of the excess of deductions over gross income of such subsidiary taken into account under paragraph (a)(1) of this section and § 1.1502–21(f)(1) shall be reduced by an amount equal to the portion of any tentative consolidated net operating loss attributable to the subsidiary under § 1.1502–79(a)(3).

The amount of any loss or excess deductions not taken into account because of the limitations of subdivisions (i) and (ii) of this subparagraph shall be treated as a net capital or net operating loss sustained in the taxable year and shall be carried to those taxable years (consolidated or separate) to which a consolidated net capital or net operating loss could be carried under §§ 1.1502–21, 1.1502–22, and 1.1502–79, but the portion of such loss which may be carried to a prior year shall not exceed the portion of the tentative consolidated net capital or net operating loss attributable to the subsidiary which could be carried to such year if the tentative consolidated net capital or net operating loss determined under subparagraph (2)(i) of this paragraph were the consolidated net capital or net operating loss for the year.

(5) *Adjustments to stock not disposed of.* If some of the stock of a subsidiary is disposed of but the subsidiary remains a member, the adjustments under § 1.1502–32 with respect to stock not disposed of shall include an allocable portion of the amount treated as a net capital or net operating loss under subparagraph (4) of this paragraph which is not carried back and absorbed in a prior taxable year.

(6) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). (a) Assume that corporation P and its wholly owned subsidiary S, both incorporated on January 1, 1969, comprise an affiliated group and file a consolidated return for the taxable years 1969 and 1970. In 1969, the group has consolidated taxable income of $30 and a consolidated net capital loss of $100, of which $50 is attributable to S. On January 1, 1970, the adjusted basis of the S stock is $300. In 1970, P has a net capital gain of $20 (computed without regard to any capital loss carryover and without regard to gain from the disposition of the S stock) and ordinary income of $30, and S has a deficit of $100. On December 21, 1970, P sells all of the stock of S for 280.

(b) Tentative consolidated taxable income consists of (1) net capital gain of zero ($20 capital gain reduced by $20 of the net capital loss carryover, of which $10 is attributable to S), and (2) a net operating loss of $70, all of which is attributable to S and $30 of which may be carried back and absorbed in 1969.

(c) Under § 1.1502–32 (b) and (e) and subparagraph (2)(ii) of this paragraph there is a net negative adjustment to the basis of the S stock of $70 (negative adjustments of $100 for the deficit and $10 for the portion of the consolidated net capital loss for 1969 attributable to S which is carried over and absorbed in the taxable year, and a positive adjustment of $40 for the portion of the consolidated net operating loss attributable to S which is not carried back and absorbed in 1969). Accordingly, the adjusted basis of the S stock is $230 and a gain of $50 is realized on the sale.

(d) Under subparagraph (3)(i) of this paragraph, the consolidated net capital loss carryover is limited to $60 (all of the portion attributable to P ($50), plus the amount attributable to S included in the tentative computation ($10) under subdivision (b)(1) of this example). Under subparagraph (4)(i) of this paragraph, the excess of deductions over income of S ($100) taken into account is reduced by an amount equal to the portion of the tentative consolidated net operating loss attributable to S ($70). Accordingly, consolidated taxable income for 1970 is computed as follows:

Consolidated net capital gain:		
Capital gain for 1970	$70 i.e., 50+20	
Capital loss carryover from 1969	60	$10
Income exclusive of capital gain:		
P	30	
S	(30) i.e. (100)−70	0
Consolidated taxable income		10

The amount by which the excess of deductions over income of S is reduced ($70) is treated as a net operating loss of S for the year; $30 of such amount is carried back and absorbed in 1969 and $40 may be carried over to a separate return year of S. In addition, S has a net capital loss carryover of $40 from 1969.

Example (2). (a) Assume that corporation P owns all 10 outstanding shares of corporation S and that P and S comprise an affiliated group which files a consolidated return for 1969, 1970, and 1971. Neither P nor S was in existence before January 1, 1969. In 1969, the group has consolidated taxable income of $100. On January 1, 1970, the adjusted basis of each of the 10 shares of S is $40. In 1970, P has a deficit of $80 (determined without regard to gain on the disposition of the S stock) and S has a deficit of $80. On December 31, 1970, P sells two shares of the S stock for $85 each.

(b) The tentative consolidated net operating loss for 1970 is $160 of which $80 is attributable to S. One hundred dollars of such tentative loss is carried back and absorbed in 1969 and of this amount the portion attributable to S is $50.

(c) Under § 1.1502–32 (b) and (e) and subparagraph (2)(ii) of this paragraph, there is a net negative adjustment to each of the two shares of S stock sold by P of $5, i.e., an allocable portion of an aggregate net negative adjustment of $50 (a negative adjustment of $80 for the deficit and a positive adjustment of $30 for the portion of the consolidated net operating loss attributable to S which is not carried back and absorbed in 1969). Accordingly, the adjusted basis of each of the two shares of S stock disposed of by P is $35 and a gain of $100 is realized on the sale of the two shares of stock.

(d) Under subparagraph (4)(ii) of this paragraph, the excess of deductions over income of S ($80) taken into account is reduced by an amount equal to the portion of the tentative consolidated net operating loss attributable to S ($80). Accordingly, consolidated taxable income for 1970 is computed as follows:

Consolidated net capital gain		$100
Income exclusive of capital gain:		
P	($80)	
S	0 i.e. (80)−80	(80)
Consolidated taxable income		20

The amount by which the excess of deductions over income of S is reduced ($80) is treated as a net operating loss of S for the taxable year. Because of the limitation of subparagraph (4) of this paragraph, only $50 of such loss may be carried back and absorbed in 1969, since the portion of such loss which may be carried back to a prior year may not exceed the portion of the tentative consolidated net operating loss attributable to S which was carried back to the prior year in the tentative computation under subparagraph (2)(i) of this paragraph. The remaining $30 may be carried over to 1971 and subsequent years.

(e) Under § 1.1502–32 (b) and (e) and subparagraph (5) of this paragraph, there is a negative adjustment of $5 to the basis of each of the remaining eight shares of S owned by P, i.e., an allocable portion of an aggregate net adjustment of $50 (see subdivision (c) of this example).

Example (3). (a) Assume that corporations P and S comprise an affiliated group and file a consolidated return for 1969. There is no income for years prior to 1969. In 1969, P has capital gain of $100 (determined without regard to loss on the disposition of the S stock) and S has a capital loss of $60. In addition to the capital loss, S has a deficit of $200. On January 1, 1969, the basis of the S stock is $400. On December 31, 1969, P sells all of the stock of S for $140.

(b) Tentative consolidated taxable income consists of (1) net capital gain of $40, and (2) a net operating loss of $160, all of which is attributable to S.

(c) Under § 1.1502–32 (b) and (e) and subparagraph (2) (ii) of this paragraph, there is a net negative adjustment to the basis of the S stock of $100 (a negative adjustment of $260 for the deficit and a positive adjustment of $160 for the portion of the consolidated net operating loss attributable to S, none of which is carried back to a prior year). Accordingly, the adjusted basis of the S stock is $300 and P realizes a loss of $160 on the sale.

(d) Consolidated taxable income for 1969 is computed as follows:

Consolidated net capital loss:		
P	($60) i.e.,100−(160)	
S	(60)	($120)
Income exclusive of capital gain:		
P	0	
S	(200)	(200)
Consolidated net operating loss		(200)

Sixty dollars of the consolidated net capital loss is attributable to S and the entire consolidated net operating loss is attributable to S. Since S is no longer a member of the group, such amounts are apportioned to S under § 1.1502–79 (a) and (b) and may be carried to a subsequent separate return year of S.

PAR. 4. Section 1.1502–12 is amended by revising paragraph (g) to read as follows:

§ 1.1502–12 Separate taxable income.

* * * * *

(g) In the computation of the deduction under section 167, property shall not lose its character as new property as a result of a transfer from one member to another member during a consolidated return year if the transfer is a deferred intercompany transaction as defined in § 1.1502–13(a)(2), or if the basis of the property in the hands of the transferee is determined (in whole or in part) by reference to its basis in the hands of the transferor;

* * * * *

PAR. 5. Section 1.1502–13 is amended by revising paragraph (e)(2), by revising that part of paragraph (f)(1) which precedes subdivision (i), and by revising paragraph (f)(2). The revised provisions read as follows:

§ 1.1502–13 Intercompany transactions.

* * * * *

(e) *Restoration of deferred gain or loss for installment obligations and sales.* * * *

(2) *Installment sales.* If—

(i) Property acquired in a deferred intercompany transaction is disposed of outside the group, and

(ii) The purchasing member-vendor reports its income on the installment method under section 453,

then on each date on which the purchasing member-vendor receives an installment payment the selling member shall take into account an amount equal to the deferred gain or loss attributable to such property (after taking into account any prior redeductions under paragraph (d)(3) of this section) multiplied by a fraction, the numerator of which is the installment payment received and the denominator of which is the total contract price. If the deferred gain includes any ordinary income, the ordinary income shall be taken into account first.

* * * * *

(f) *Restoration of deferred gain or loss on dispositions, etc.*—(1) *General rule.* The remaining balance (after taking into account any prior reductions under paragraphs (d)(3) and (e)(3) of this section) of the deferred gain or loss attributable to property, services, or other expenditure shall be taken into account by the selling member as of the earliest of the following dates:

* * * * *

(2) *Exceptions.* (i) Subparagraph (1) of this paragraph shall not apply solely because of a termination of the group (hereinafter referred to as the "terminating group") resulting from—

(*a*) The acquisition by a nonmember corporation of (*1*) the assets of the common parent in a reorganization described in subparagraph (A), (C), or (D) (but only if the requirements of subparagraphs (A) and (B) of section 354(b)(1) are met) of section 368(a)(1), or (2) stock of the common parent, or

(*b*) The acquisition (in a transaction to which § 1.1502–75(d)(3) applies) by a member of (*1*) the assets of a nonmember corporation in a reorganization referred to in (*a*) of this subdivision or (*2*) stock of a nonmember corporation,

if all the members of the terminating group (other than such common parent if its assets are acquired) immediately before the acquisition are members immediately after the acquisition of another group (hereinafter referred to as the "succeeding group") which files a consolidated return for the first taxable year ending after the date of acquisition. The members of the succeeding group shall succeed to any deferred gain or loss of members of the terminating group and to the status of such members as selling or purchasing members. This subdivision shall not apply with respect to acquisitions occurring before August 25, 1971.

(ii) Subparagraph (1)(iii) of this paragraph shall not apply in a case where—

(*a*) The selling member or the member which owns the property, as the case may be, ceases to be a member of the group by reason of an acquisition to which section 381(a) applies, and the acquiring corporation is a member, or

(*b*) The group is terminated, and immediately after such termination the corporation which was the common parent (or a corporation which was a member of the affiliated group and has succeeded to and become the owner of substantially all of the assets of such former parent) owns the property involved and is the selling member or is treated as the selling member under paragraph (c)(6) of this section.

Paragraphs (d) and (e) of this section and this paragraph shall apply to such selling member. Thus, for example, subparagraph (1)(ii) of this paragraph does not apply in a case where corporation P, the common parent of a group consisting of P and corporations S and T, sells an asset to S in a deferred intercompany transaction, and subsequently all of the assets of S are distributed to P in complete liquidation of S. Moreover, if, after the liquidation of S, P sold T, subparagraph (1)(iii) of this paragraph would not apply even though P ceased to be a member of the group.

* * * * *

PAR. 6. Section 1.1502–14 is amended by adding a new paragraph as follows:

§ 1.1502–14 Stock, bonds, and other obligations of members.

* * * * *

(f) *Acquisition of group.* Paragraphs (b)(3), (c), and (d)(2), (3), and (4)(ii) of this section shall not apply solely because of a termination of the group (hereinafter referred to as the "terminating group") resulting from—

(1) The acquisition by a nonmember corporation of (i) the assets of the common parent in a reorganization described in subparagraph (A), (C), or (D) (but only if the requirements of subparagraphs (A) and (B) of section 354(b)(1) are met) of section 368(a)(1), or (ii) stock of the common parent, or

(2) The acquisition (in a transaction to which § 1.1502–75(d)(3) applies) by a member of (i) the assets of a nonmember corporation in a reorganization referred to in subparagraph (1) of this paragraph, or (ii) stock of a nonmember corporation.

if all the members of the terminating group (other than such common parent if its assets are acquired) immediately before the acquisition are members immediately after the acquisition of another group (hereinafter referred to as the "succeeding group") which files a consolidated return for the first taxable year ending after the date of acquisition. The members of the succeeding group shall succeed to any deferred gain or loss of members of the terminating group and to the status of such members as distributing or distributee corporations. This paragraph shall not apply with respect to acquisitions occurring before August 25, 1971.

PAR. 7. Section 1.1502–15 is amended by revising paragraph (a)(2), (3), and (4) to read as follows:

§ 1.1502–15 Limitations on certain deductions.

(a) *Limitation on built-in deductions.* * * *

(2) *Built-in deductions.* (i) For purposes of this paragraph, the term "built-in deductions" for a consolidated return year means those deductions or losses of a corporation which are recognized in such year, or which are recognized in a separate return year and carried over in the form of a net operating or net capital loss to such year, but which are economically accrued in a separate return limitation year (as defined in § 1.1502–1(f)). Such term does not include deductions or losses incurred in rehabilitating such corporation. Thus, for example, assume P is the common parent of a group filing consolidated returns on the basis of a calendar year and that P purchases all of the stock of S on December 31, 1966. Assume further that on December 31, 1966, S owns a capital asset with an adjusted basis of $100 and a fair market value of $50. If the group files a consolidated return for 1967, and S sells the asset for $30, $50 of the $70 loss is treated as a built-in deduction, since it was economically accrued in a separate return limitation year. If S sells the asset for $80 instead of $30, the $20 loss is treated as a built-in deduction. On the other hand, if such asset is a depreciable asset and is not sold by S, depreciation deductions attributable to the $50 difference between basis and fair market value are treated as built-in deductions.

(ii) In determining, for purposes of subdivision (i) of this subparagraph, whether a deduction or loss with respect to any asset is economically accrued in a separate return limitation year, the term "predecessor" as used in § 1.1502–1(f)(1) shall include any transferor of such asset if the basis of the asset in the hands of the transferee is determined (in whole or in part) by reference to its basis in the hands of such transferor.

(3) *Prior law.* If the assets which produced the built-in deductions were acquired (either directly or by acquiring a new member) by the group before April 17, 1968, and the separate return limitation year in which such deductions were economically accrued ended before such date, the provisions of § 1.1502–31A(b)(9) shall apply in lieu of the provisions of subparagraphs (1) and (2) of this paragraph.

(4) *Exceptions.* (i) Subparagraphs (1), (2), and (3) of this paragraph shall not limit built-in deductions in a taxable year with respect to assets acquired (either directly or by acquiring a new member) by the group if—

(*a*) The group acquired the assets more than 10 years before the first day of such taxable year, or

(*b*) Immediately before the group acquired the assets, the aggregate of the adjusted basis of all assets (other than cash, marketable securities, and goodwill) acquired from the transferor or owned by the new member did not exceed the fair market value of all such assets by more than 15 percent.

(ii) For purposes of subdivision (i)(*b*) of this subparagraph, a security is not a marketable security if immediately before the group acquired the assets—

(*a*) The fair market value of the security is less than 95 percent of its adjusted basis, or

(*b*) The transferor or new member had held the security for at least 24 months, or

(*c*) The security is stock in a corporation at least 50 percent of the fair market value of the outstanding stock of which is owned by the transferor or new member.

* * * * *

PAR. 8. Section 1.1502–18 is amended by revising paragraph (a) and by adding paragraph (c)(4). The revised and added provisions read as follows:

§ 1.1502–18 Inventory adjustment.

(a) *Definition of intercompany profit amount.* For purposes of this section, the term "intercompany profit amount" for a taxable year means an amount equal to the profits of a corporation (other than those profits which such corporation has elected not to defer pursuant to § 1.1502–13(c)(3) or which have been taken into account pursuant to § 1.1502–13(f)(1)(viii)) arising in transactions with other members of the group with respect to goods which are, at the close of such corporation's taxable year, included in the inventories of any member of the group. See § 1.1502–13(c)(2) with respect to the determination of profits. See the last sentence of § 1.1502–13(f)(1)(i) for rules for determining which goods are considered to be disposed of outside the group and therefore not included in inventories of members.

* * * * *

(c) *Recovery of initial inventory amount.* * * *

(4) *Acquisition of group.* For purposes of this section, a member of a group shall not become a nonmember or be considered as filing a separate return solely because of a termination of the group (hereinafter referred to as the "terminating group") resulting from—

(i) The acquisition by a nonmember corporation of (*a*) the assets of the common parent in a reorganization described in subparagraph (A), (C), or (D) (but only if the requirements of subparagraphs (A) and (B) of section 354(b)(1) are met) of section 368(a)(1), or (*b*) stock of the common parent, or

(ii) The acquisition (in a transaction to which § 1.1502–75(d)(3) applies) by a member of (*a*) the assets of a nonmember corporation in a reorganization referred to in subdivision (i) of this subparagraph, or (*b*) stock of a nonmember corporation,

if all the members of the terminating group (other than such common parent if its assets are acquired) immediately before the acquisition are members immediately after the acquisition of another group (hereinafter referred to as the "succeeding group") which files a consolidated return for the first taxable year ending after the date of acquisition. The members of the succeeding group shall succeed to any initial inventory amount and to any unrecovered inventory amount of members of the terminating group. This subparagraph shall not apply with respect to acquisitions occurring before August 25, 1971.

* * * * *

PAR. 9. Section 1.1502–19 is amended by revising paragraph (a)(3), by adding subparagraphs (5) and (6) to paragraph (a), by revising examples (1) and (2) of paragraph (c)(2), by revising paragraph (e), and by revising paragraph (g). The revised and new provisions read as follows:

§ 1.1502–19 Excess losses.

(a) *Recognition of income.* * * *

(3) *Cancellation or redemption.* If stock of a subsidiary is considered to be disposed of under paragraph (b)(1)(ii) of this section other than in complete liquidation of such subsidiary, any amount which would otherwise be included in the income of the disposing member under subparagraph (1) of this paragraph shall be deferred and taken into account at the time provided in § 1.1502–14(b)(3).

* * * * *

(5) *Foreign expropriation losses.* If there is a disposition of stock of a subsidiary, subparagraph (1) of this paragraph shall not apply to the excess loss account with respect to such stock to the extent such excess loss account is attributable to a foreign expropriation loss occurring in a taxable year beginning before January 1, 1966, which is absorbed as part of a consolidated net capital or net operating loss carryover in a taxable year ending before January 1, 1971, and the regulations applicable to taxable years beginning before January 1, 1966, shall apply to such disposition.

(6) *Election to reduce basis of other investment.* If there is a disposition (as defined in paragraph (b) of this section) of stock of a subsidiary, all or any part of the excess loss account with respect to such stock may be applied to reduce the basis of any other stock or obligations of the subsidiary (whether or not evidenced by a security) held by the disposing member immediately before the disposition. Only the excess loss account which remains after such application shall be included in income under this paragraph. If subparagraph (4) of this paragraph applies to part of the excess loss account, such parts must be applied to reduce the basis of stock or obligations under this subparagraph before the other part may be so applied.

* * * * *

(c) *Effect of chain ownership.* * * *

(2) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). (a) Assume that corporations P, S, T, and U first file a consolidated return for the taxable year beginning January 1, 1966. On that date, P owns all the stock of S with an adjusted basis of $15, S owns all the stock of T with an adjusted basis of $5, and T owns all the stock of U with an adjusted basis of $10. For the year 1966, the group has consolidated taxable income but U has a deficit in earnings and profits of $20. Under § 1.1502–32(b)(2), T reduces its basis with respect to the stock of U to zero and has an excess loss account of $10, S reduces its basis in T's stock to zero and has an excess loss account of $15, and P decreases its basis in S's stock to zero and has an excess loss account of $5.

(b) In 1967 the stock of U becomes worthless. T is considered as having disposed of such stock under paragraph (b) of this section and realizes income of $10. If the group has elected to adjust earnings and profits currently, T will have earnings and profits of $10 resulting from the disposition of the stock of U (see § 1.1502–33(c)(4)(ii)(b)); if the group has not so elected, T will have a deficit in earnings and profits of $10 resulting from the disposition (see § 1.1502–33(c)(4)(i)(b)). However, for purposes of the adjustment under § 1.1502–32(b) to the basis of stock owned by higher-tier members, T's earnings and profits on the disposition are $10 regardless of whether the group adjusts earnings and profits currently (see § 1.1502–32(d)(1)(i)). S's excess loss account with respect to T's stock will be reduced to $5 (see § 1.1502–32(b)(1)(i)). P's excess loss account with respect to S's stock will be reduced to zero and its basis for S's stock will be increased to $5 (see § 1.1502–32(b)(1)(i) or (iii)).

Example (2). Assume the same facts as in example (1) except that the stock of T, rather than the stock of U, becomes worthless and therefore S is considered as having disposed of its stock in T under paragraph (b) of this section and T is considered as having disposed of its stock in U. Since U is the lowest tier subsidiary, this section is applied first with respect to the excess loss account relating to the stock of U with the same result as in example (1). This section is then also applied with respect to the stock of T. Thus, in addition to the result in example (1), S will realize income of $5, and P's basis for S's stock will be increased by $5 to $10.

* * * * *

(e) *Nontaxable liquidations and reorganizations to which the subsidiary is a party.* If, in a consolidated return year, a member is the transferor or distributor corporation and another member is the acquiring corporation in a transaction to which section 381(a) applies, members owning stock in the transferor or distributor corporation shall not, by reason of such transaction (or by reason of an exchange under section 354 pursuant to such transaction), be considered for purposes of paragraph (b) of this section as having disposed of such stock. If the transaction is a distribution in liquidation to which section 334(b)(1) applies, the excess loss account in the stock of the distributor corporation shall be eliminated. If the transaction involves an exchange to which section 354 applies, the excess loss account in the stock of the transferor corporation surrendered in exchange shall be applied to reduce the basis (or to increase the excess loss account) of the stock received in the exchange or previously owned. If, immediately before a transfer described in section 381(a), the transferor corporation owned stock of the acquiring corporation, the excess loss account in such stock shall be eliminated. For example, assume that corporation P owns all of the stock of corporation S with an excess loss account of $20, and that S owns all of the stock of T with an excess loss account of $30. If S is merged into corporation U (another member) in a transaction described in section 368(a)(1)(A), P will apply the $20 excess loss account against and reduce the basis (or increase the excess loss account) of any stock of U which P owns or receives pursuant to the merger. However, if S is merged into T, the $30 excess loss account in the T stock is eliminated (and is not included in income), and the $20 excess loss account in the S stock becomes a $20 excess loss account in the T stock in the hands of P.

* * * * *

(g) *Acquisition of group—*(1) *In general.* Paragraph (b) of this section shall not apply solely because of a termination of the group (hereinafter referred to as the "terminating group") resulting from—

(i) The acquisition by a nonmember corporation of (*a*) the assets of the common parent in a reorganization described in subparagraph (A), (C), or (D) (but only if the requirements of subparagraphs (A) and (B) of section 354(b)(1) are met) of section 368(a)(1), or (*b*) stock of the common parent, or

(ii) The acquisition, in a transaction to which § 1.1502–75(d)(3) applies, by a member of (*a*) the assets of a nonmember corporation in a reorganization referred to in subdivision (i) of this subparagraph, or (*b*) stock of a nonmember corporation,

if all the members of the terminating group (other than such common parent if its assets are acquired) immediately before the acquisition are members immediately after the acquisition of another group (hereinafter referred to as the "succeeding group") which files a consolidated return for the first taxable year ending after the date of acquisition. The members of the succeeding group shall succeed to any excess loss accounts with respect to stock of members of the terminating group as of the date of acquisition. This paragraph shall not apply with respect to acquisitions occurring before August 25, 1971.

(2) *Adjustments—*(i) *In general.* If any stock of a member of the succeeding

FEDERAL REGISTER, VOL. 36, NO. 165—WEDNESDAY, AUGUST 25, 1971

group is disposed of under this section, a higher tier limitation member (as defined in subdivision (ii) of this subparagraph) owning stock in the disposing member shall, in making the adjustment under § 1.1502–32(b) with respect to stock of such disposing member, take into account the increase in earning and profits attributable to inclusion of the excess loss account in the income of such member only to the extent that the amount of such excess loss account exceeds the amount of any excess loss account with respect to the stock disposed of at the time of the acquisition. If there are intervening members between the member disposing of stock under this section and a higher tier limitation member, and if a member owning stock in the disposing member is not a higher tier limitation member, then solely for the purpose of the adjustment under § 1.1502–32(b) by the higher tier limitation member with respect to stock of a subsidiary, the adjustments under § 1.1502–32(b) for such intervening members shall be computed as if members owning stock in the disposing member were higher tier limitation members.

(ii) *Limitation member.* A higher tier member of the succeeding group is a "higher tier limitation member" unless such member (*a*) was a member immediately before the acquisition of the same group as the member with respect to the stock of which the excess loss account existed, or (*b*) acquired the assets of the common parent of such group in a reorganization described in subparagraph (1) of this paragraph.

(3) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). (a) Assume there are two affiliated groups, one comprising P, S, and T, and the other comprising X and Y, both of which file consolidated returns for the calendar year 1971. P owns all the stock of S with an adjusted basis of $100, and S owns all the stock of T with an adjusted basis of zero and an excess loss account of $30. X owns all the stock of Y with an adjusted basis of $200. On January 1, 1972, Y acquires all the assets of P in exchange for 20 percent of the stock of X in a reorganization to which section 368(a)(1)(C) applies. As a result of the acquisition of the assets of P by Y, the P-S-T group terminates. X, Y, S, and T file a consolidated return for the first taxable year ending after the date of the acquisition.

(b) Paragraph (b) of this section does not apply, merely because of the termination of the P group, to include in S's income its excess loss account with respect to the stock of T.

(c) If T has a deficit in earnings and profits of $10 for 1972, S would increase its excess loss account with respect to the stock of T to $40, Y would decrease the basis of its S stock (which is a carryover of P's basis) to $90, and X would decrease the basis of its Y stock to $190.

(d) Assume that the stock of T becomes worthless in 1973. S would include $40 in income. For purposes of the adjustments under § 1.1502–32(b), S would have earnings and profits of $40 resulting from the disposition of the stock of T (amount realized, $40, minus the adjusted basis of zero determined by taking into account the adjustments under § 1.1502–32(e)). If S had no other earnings and profits for the year, Y (which is not a higher tier limitation member) would adjust its basis for the stock of S under § 1.1502–32(b)(1)(i) by the full amount of S's earnings and profits, thus increasing the basis of the S stock to $130. The adjustment by Y with respect to the stock of S would ordinarily be reflected under § 1.1502–32(b)(1)(i) or (iii) in the adjustment by X with respect to the stock of Y. However, X is a higher tier limitation member, and, solely for the purpose of determining the adjustment by X with respect to the stock of Y, the adjustment by Y with respect to the stock of S must be recomputed by including only $10 (i.e., the amount by which S's excess loss account in the stock of T, $40, exceeds the excess loss account with respect to such stock at the time of the acquisition, $30) in the adjustment under § 1.1502–32(b)(1)(i). Thus, if there were no other adjustments under § 1.1502–32(b) with respect to the stock of S and Y, X would make a positive adjustment under § 1.1502–32(b)(1)(i) or (iii) and (e)(2) of $10 with respect to the stock of Y, increasing the basis of such stock to $200. The basis of the stock of S held by Y is not affected by the recomputation.

Example (2). Assume the same facts as in example (1) except that the shareholders of P receive more than 50 percent of the stock of X so that the transaction is a reverse acquisition under § 1.1502–75(d)(3) with the X-Y group terminating and the P-S-T group surviving. The adjustments and limitations apply as in example (1).

Example (3). Assume the same facts as in example (1) except that subsequent to the acquisition T has earnings and profits of $100 in 1972 (thus eliminating the excess loss account with respect to the stock of T and increasing the basis of such stock to $70) and a deficit in earnings and profits of $110 in 1973, thereby decreasing the basis with respect to such stock to zero and creating an excess loss account of $40 which is included in S's income in 1973. The adjustments and limitations apply as in example (1).

PAR. 10. Section 1.1502–23 is amended to read as follows:

§ 1.1502–23 Consolidated section 1231 net gain or loss.

The consolidated section 1231 net gain or loss for the taxable year shall be determined by taking into account the aggregate of the gains and losses to which section 1231 applies of the members of the group for the consolidated return year. Section 1231 gains and losses on intercompany transactions shall be reflected as provided in § 1.1502–13. Section 1231 losses that are "built-in deductions" shall be subject to the limitations of §§ 1.1502–21(c) and 1.1502–22(c) as provided in § 1.1502–15(a).

PAR. 11. Section 1.1502–26(a) is amended to read as follows:

§ 1.1502–26 Consolidated dividends received deduction.

(a) *In general.* The consolidated dividends received deduction for the taxable year shall be the lesser of—

(1) The aggregate of the deductions of the members of the group allowable under sections 243(a)(1), 244(a), and 245 (computed without regard to the limitation provided in section 246(b)), or

(2) 85 percent of the consolidated taxable income computed without regard to the consolidated net operating loss deduction, consolidated section 247 deduction, the consolidated dividends received deduction, and any consolidated net capital loss carryback to the taxable year.

Subparagraph 2 of this paragraph shall not apply for any consolidated return year for which there is a consolidated net operating loss. (See paragraph (f) of § 1.1502–21 for the definition of a consolidated net operating loss.) If section 593 applies to one or more members and any member computes additions to the reserve for losses on loans for the taxable year under the percentage of income method provided by section 593(b)(2), the amount of the deduction under this section shall be reduced by an amount determined by multiplying the amount of the deduction under this section (determined without regard to this sentence) by the applicable percentage of the member with the highest applicable percentage (determined under subparagraphs (A) and (B) of section 593(b)(2)).

* * * * *

PAR. 12. Section 1.1502–31(b)(2)(ii) is amended to read as follows:

§ 1.1502–31 Basis of property.

* * * * *

(b) *Basis after liquidation or intercompany distributions with respect to stock.* * * *

(2) *Liquidations and redemptions.* * * *

(ii) The aggregate basis of all property acquired in a distribution in cancellation or redemption of stock (as defined in § 1.1502–14(b)(1)) by a member to another member, other than a liquidation to which section 332 applies, shall be the same as the adjusted basis of the stock exchanged therefor (adjusted in accordance with the rules prescribed in § 1.1502–32(a)), increased by the amount of any liabilities of the distributing corporation assumed by the distributee or to which the property acquired is subject, and reduced by the amount of cash received in the distribution. Such aggregate basis shall be allocated among the assets received (except cash) in proportion to the fair market values of such assets on the date received.

PAR. 13. Section 1.1502–32 is amended by revising paragraph (b)(1)(iii) and (2)(iv), by adding paragraph (c)(3), by revising paragraph (d)(1), (8), and (9), by adding paragraph (d)(10) and (11), by revising paragraph (f), by revising paragraph (g), and by deleting examples (3) and (4) in paragraph (j). The revised and added provisions read as follows:

§ 1.1502–32 Investment adjustment.

* * * * *

(b) *Stock which is not limited and preferred as to dividends—(1) Postive adjustment.* * * *

(iii) If such subsidiary owns stock in another subsidiary and § 1.1502–33(c)(4)(i) applies to the taxable year, an allocable part of the net positive adjustment made by the higher tier subsidiary for the taxable year with respect to its stock in such other subsidiary.

(2) *Negative adjustment.* * * *

(iv) If such subsidiary owns stock in another subsidiary and § 1.1502–33(c)(4)(i) applies to the taxable year, an allocable part of the net negative adjustment made by the higher tier subsidiary for the taxable year with respect to its stock in such other subsidiary.

(c) *Limited and preferred stock.* * * *

(3) *Exception.* The negative adjustment under subparagraph (2)(i) of this paragraph shall not exceed—

(i) The sum of the positive adjustments under subparagraph (1) of this paragraph for all prior years, minus

(ii) The sum of the negative adjustments under subparagraph (2)(i) of this paragraph for all prior years.

The amount by which the adjustment under subparagraph (2)(i) of this paragraph (determined without regard to this subparagraph) exceeds the amount of such adjustment determined with regard to this subparagraph shall be treated for purposes of paragraph (b)(2)(iii)(*a*) of this section as a distribution with respect to stock which is not limited and preferred as to dividends.

(d) *Operating rules.* For purposes of paragraphs (b) and (c) of this section—

(1) *Earnings and profits.* (i) The earnings and profits (or deficit in earnings and profits) of a member shall be determined under § 1.1502–33, except that—

(*a*) The earnings and profits of a member resulting from the disposition of stock of a subsidiary shall be determined in accordance with § 1.1502–33(c)(4)(ii)(*b*) whether or not such section otherwise applies,

(*b*) Section 1.1502–33(c)(4)(ii)(c)(2) and (3) shall not apply, and

(c) In computing the earnings and profits of a member resulting from the disposition of stock or an obligation to which § 1.1502–19(a)(6) applies, the adjusted basis of such stock or obligation shall be determined by taking into account any adjustments under § 1.1502–19(a)(6).

(ii) The undistributed earnings and profits for the taxable year shall first be allocated to all the outstanding stock (including the stock held by nonmembers) which is limited and preferred as to dividends in an amount equal to the excess, if any, of—

(*a*) The cumulative dividends in arrears (determined as of the last day of the subsidiary's taxable year) for all consolidated return years beginning after December 31, 1965, over

(*b*) The accumulated earnings and profits of the subsidiary as of the first day of the taxable year,

but such amount shall not exceed the accumulated earnings and profits of the subsidiary as of the last day of the taxable year. The balance, if any of the undistributed earnings and profits, and any net positive adjustment made by such subsidiary with respect to lower tier subsidiaries, for the taxable year shall be allocated among all the outstanding stock of such subsidiary (including stock held by nonmembers) which is not limited and preferred as to dividends.

* * * * *

(8) *Undistributed earnings and profits.* For purposes of this section, the term "undistributed earnings and profits for the taxable year" means earnings and profits for the taxable year after diminution by reason of distribution of dividends (as defined in § 1.1502–14(a)(1)).

(9) *Preaffiliation year.* The term "preaffiliation year" of a subsidiary means any taxable year which includes at least 1 day on which such subsidiary was not a member of the group, and each taxable year preceding such year.

(10) *Basis carryovers in certain acquisitions of stock of another corporation.* (i) If, as the result of the acquisition of stock of a corporation, (*a*) such corporation becomes a member of the group, and (*b*) the basis of stock possessing at least 80 percent of the voting power of all classes of stock and at least 80 percent of each class of nonvoting stock (other than stock which is limited and preferred as to dividends) of such corporation is determined (in whole or in part) by reference to the basis in the hands of the transferor, then distributions by such corporation which would otherwise be considered as out of earnings and profits accumulated in preaffiliation years of such corporation shall be considered as distributions not out of earnings and profits of preaffiliation years in a total amount not to exceed the amounts computed under subdivisions (ii) and (iii) of this subparagraph.

(ii) With respect to stock which is limited and preferred as to dividends, the amount referred to in subdivision (i) of this subparagraph is the excess of preaffiliation earnings and profits attributable to such stock held by members immediately after the corporation becomes a member over the aggregate of the basis of such stock at such time. The portion of preaffiliation earnings and profits attributable to such stock is the amount determined by multiplying the sum of the capital and preaffiliation earnings and profits (but not in excess of cumulative dividends in arrears) by a fraction, the numerator of which is the number of shares which are limited and preferred as to dividends owned by members immediately after the corporation becomes a member, and the denominator of which is the total number of such shares outstanding at such time. However, if any portion of the cumulative dividends in arrears at the time the corporation becomes a member is subsequently reduced other than by distribution of dividends, the amount under this subdivision shall be redetermined by substituting such reduced amount of cumulative dividends in arrears for the original such amount.

(iii) With respect to stock which is not limited and preferred as to dividends, the amount referred to in subdivision (i) of this subparagraph is the excess of preaffiliation earnings and profits attributable to such stock held by members immediately after the corporation becomes a member over the aggregate of the basis of such stock at such time. The portion of preaffiliation earnings and profits attributable to such stock is the amount determined by multiplying the sum of the capital and preaffiliation earnings and profits (reduced by the amount of cumulative dividends in arrears) by a fraction, the numerator of which is the number of shares which are not limited and preferred as to dividends owned by members immediately after the time the corporation becomes a member, and the denominator of which is the total number of such shares outstanding at such time.

(11) *Prior consolidated return years beginning after December 31, 1965.* The term "prior consolidated return years beginning after December 31, 1965" shall not include consolidated return years of a corporation which precede the most recent separate return year of such corporation. Thus, if P and its wholly owned subsidiary, S, filed a consolidated return for 1966, separate returns for 1967, and a consolidated return for 1968, P's basis in S's stock is not reduced under paragraph (b)(2)(iii) or (c)(2) of this section because of distributions by S after 1967 out of earnings and profits accumulated in 1966.

* * * * *

(f) *Special rules—(1) Transitional rules.* (i) If any subsidiary joined in filing (or was required to join in filing) a consolidated return for a taxable year beginning before January 1, 1966 (whether or not with the same group), then for purposes of determining the basis of stock of such subsidiary as of the first day of the first taxable year to which this section applies § 1.1502–34A (b)(2), and (c) shall be applied with respect to the stock (other than stock which is limited and preferred as to dividends) of such subsidiary owned by each member as if such stock were disposed of on such date. If the amount of deductions for losses availed of under § 1.1502–34A (b)(2) or (c)(2) exceeds the sum of the aggregate bases of such stock owned by all members, such excess shall be treated as an excess loss account with respect to such stock. See § 1.1502–19(a)(4) with respect to the treatment of such excess loss account.

(ii) No adjustments to the basis of a subsidiary's stock shall be made under paragraph (b)(2)(ii) of this section on account of losses sustained in taxable years beginning before January 1, 1966, to the extent that the basis of such stocks would have been higher as of the beginning of the first taxable year beginning after December 31, 1965, if this section had applied to taxable years beginning before January 1, 1966. For example, assume that subsidiary S was organized in 1961 with $100 capital by the parent of a group filing consolidated returns on a calendar year basis, that S earned $200 in 1961, had no income or losses in 1962 through 1964, and had a deficit of $225 in 1965 that was not absorbed by the parent in 1965 or prior years but was carried over to and absorbed in 1966. The basis of the S stock on January 1, 1966, is $100, but if § 1.1502–32 had applied for the years 1961 through 1965, the basis of the S stock on January 1, 1966, would have been $300. Therefore, to the extent of $200 there is no basis adjustment un-

der paragraph (b)(2)(ii) of this section on account of the absorption, and the adjustment is only $25 ($225 minus $200).

(2) *Deemed dividend.* If all the stock of a subsidiary is owned on each day of the subsidiary's taxable year by members, then at the election of the group, such subsidiary shall be treated for all tax purposes as having made a distribution on the first day of such taxable year in an amount equal to, and out of, its accumulated earnings and profits on the day preceding such day. Each member owning stock in such subsidiary shall be treated for all tax purposes as having received an allocable share of such distribution, and as having immediately contributed such allocable share to the capital of the subsidiary. The election shall be made by submitting a statement, on or before the due date (including any extensions of time) of the consolidated return for such year, to the district director with whom the group files such return.

(g) *Adjustment on disposition*—(1) *In general.* A member owning stock in a subsidiary shall, on the first day of the first separate return year of the member or of the subsidiary, whichever occurs first, decrease its basis for such stock by the excess, with respect to such stock, of

(i) The net positive adjustments under paragraph (e)(2) of this section for all consolidated return years, over

(ii) The net negative adjustments under paragraph (e)(1), plus any decreases under paragraph (f)(1), of this section, for all consolidated return years.

If the amount referred to in the preceding sentence exceeds the basis of such stock, the amount of the excess shall, as of the day immediately preceding such first day, be included in the income of such member as income described in § 1.1502–19(a).

(2) *Example.* Assume that in 1967 corporation P organizes corporation S, investing $500 for all of S's stock. For the taxable year 1967, S has earnings and profits of $100, thus increasing P's basis in S's stock to $600 on the last day of 1967. On December 31, 1967, P sells one-half of its stock in S to a nonmember for $370. P recognizes a gain of $70 on such sale, and on January 1, 1968, P's basis for its remaining stock in S is reduced by $50 to $250.

* * * * *

PAR. 14. Section 1.1502–33(c)(4) is amended to read as follows:

§ 1.1502–33 Earnings and profits.

* * * * *

(c) *Stock and obligations.* * * *

(4) *Investment adjustment*—(i) *Taxable years beginning before January 1, 1976.* Except as provided in subdivision (iii) of this subparagraph, for taxable years beginning before January 1, 1976—

(*a*) Adjustments made by a member under § 1.1502–32(e) (1) and (2), and (g) shall not be reflected in the earnings and profits of such member.

(*b*) For purposes of computing the earnings and profits of a member resulting from the disposition of stock of a subsidiary, the adjusted basis of such stock shall be—

(*1*) The adjusted basis determined without regard to adjustments under § 1.1502–32(e) (1) and (2), and (g), plus

(2) The amount of any excess loss account includible in income by such member under § 1.1502–19(a)(1) on such disposition.

(ii) *Taxable years beginning after December 31, 1975.* For taxable years beginning after December 31, 1975—

(*a*) There shall be reflected in the earnings and profits of each member for a taxable year an amount equal to any increase or decrease for such taxable year pursuant to § 1.1502–32(e) (1) and (2), and (g) in such member's basis or excess loss account for its stock in a subsidiary.

(*b*) For purposes of computing the earnings and profits of a member resulting from the disposition of stock of a subsidiary, the adjusted basis of such stock shall be determined by taking into account any adjustments under § 1.1502–32(e) (1) and (2), and (g).

(c) If subdivision (i) of this subparagraph applies for one or more taxable years before this subdivision applies—

(*1*) For purposes of computing the earnings and profits of a member resulting from the disposition of stock of a subsidiary, the adjusted basis of such stock shall be determined by taking into account any adjustments under § 1.1502–32(e) (1) and (2), and (g) for all consolidated return years;

(2) The negative adjustment applicable under § 1.1502–32 (b)(2)(iii)(*a*) or (c)(2)(i) to distributions made in years for which this subdivision applies out of earnings and profits accumulated in years for which this subdivision did not apply shall be eliminated in computing earnings and profits; and

(3) The earnings and profits of a member disposing of stock of a subsidiary shall be (*i*) increased by an amount equal to the excess of the positive adjustments with respect to such stock under § 1.1502–32 (b)(1) or (c)(1) for all years for which this subdivision did not apply, over the sum of the negative adjustments under § 1.1502–32 (b)(2) or (c)(2) for all such years plus any adjustments under § 1.1502–32 (b)(2)(iii)(*a*) or (c)(2)(i) which are described in (c)(2) of this subdivision, or (*ii*) decreased by an amount equal to the excess of the sum of the negative adjustments with respect to such stock under § 1.1502–32 (b)(2) or (c)(2) for all years for which this subdivision did not apply plus any adjustments under § 1.1502–32(b)(2)(iii)(*a*) or (c)(2)(i) which are described in (c)(2) of this subdivision, over the positive adjustments with respect to such stock under § 1.1502–32 (b)(1) or (c)(1) for all years for which this subdivision did not apply.

(iii) *Election to adjust currently.* For any taxable year beginning before January 1, 1976, the group may elect to apply the provisions of subdivision (ii) of this subparagraph. Such election shall be made by submitting a statement, on or before the due date (including any extensions of time) of the consolidated return for the first taxable year for which the election is to apply, to the internal revenue officer with whom the group files such return. However, such election may be made for any taxable year beginning after December 31, 1965, within 60 days after July 3, 1968, if it is made in conjunction with an election under paragraph (d) of this section. If an election is made under this subdivision for any taxable year, it may not thereafter be revoked and shall apply for all subsequent taxable years beginning before January 1, 1976.

(iv) *Example.* The application of subdivisions (i) and (ii) of this subparagraph may be illustrated by the following example:

Example. (a) Corporation P forms a wholly owned subsidiary, S, on January 1, 1966, with a capital contribution of $100, and the P–S group files consolidated returns for calendar years 1966 and 1967. S earns $100 in 1966 and has no earnings and profits or deficit in 1967. During 1967 S distributes a $50 dividend to P. On December 31, 1967, P sells all of the stock of S for $150.

(b) If the group has not elected under subdivision (iii) of this subparagraph, the $100 earned by S is not reflected in P's earnings and profits in 1966. However, P's earnings and profits are increased by $50 in 1967, since the dividend is reflected in earnings and profits under paragraph (c)(1) of this section and the corresponding negative adjustment under § 1.1502–32(b)(2)(iii)(*a*) is not reflected in earnings and profits. P's earnings and profits are further increased by $50 on the sale of the S stock since, for purposes of computing earnings and profits, the basis of such stock is $100 (the original basis without regard to adjustments under § 1.1502–32(e) (1) and (2)).

(c) If the group has elected under subdivision (iii) of this subparagraph, for 1966, the $100 earned by S, a net positive adjustment under § 1.1502–32(e)(2), is reflected in the earnings and profits of P for 1966. No additional earnings and profits result from the distribution in 1967, since there is a $50 increase under paragraph (c)(1) of this section, and the corresponding $50 negative adjustment under § 1.1502–32(b)(2)(iii)(*a*) is reflected as a decrease in earnings and profits. The subsequent sale of the S stock for $150 does not affect P's earnings and profits since the basis is $150 ($100 original basis plus $100 earnings and profits, minus the $50 distribution out of earnings and profits accumulated in consolidated return years beginning after December 31, 1965).

(d) If the group first elected under subdivision (iii) of this subparagraph for 1967 (so that subdivision (i) was applicable for 1966), the $100 earned by S in 1966 is not reflected in P's earnings and profits in 1966. However, P's earnings and profits are increased by $50 in 1967, since the dividend is reflected in earnings and profits under paragraph (c)(1) of this section, and the corresponding negative adjustment under § 1.1502–32(b)(2)(iii)(*a*) is eliminated under subdivision (ii)(*c*) of this subparagraph in computing earnings and profits. P's earnings and profits are further increased by $50 on the sale of the S stock, the amount by which the positive adjustment ($100) under § 1.1502–32(b)(1) for years for which subdivision (ii) did not apply exceeds the sum of the negative adjustments under § 1.1502–32(b)(2) for such years (zero) and the negative adjustment ($50) under § 1.1502–32(b)(2)(iii)(*a*) for years for which subdivision (ii) did apply.

(v) *Transitional rule.* (*a*) Adjustments under § 1.1502–32(f)(1) shall not be reflected in earnings and profits.

(*b*) For purposes of computing the earnings and profits of a member on the disposition of stock (or an obligation to which § 1.1502–19(a)(4) applies) of a subsidiary, the adjusted basis of such stock (or obligation) shall be (*1*) the adjusted basis determined without regard to adjustments under §§ 1.1502–32(f)(1), plus (2) the amount of any excess loss account includable in income by such member under § 1.1502–19(a)(4) on such disposition.

(vi) *Stock or obligations with reduced basis.* (*a*) Adjustments under § 1.1502–19(a)(6) shall not be reflected in earnings and profits.

(*b*) For purposes of computing the earnings and profits of a member on the disposition of stock or an obligation to which § 1.1502–19(a)(6) applies, the adjusted basis of such stock or obligation shall be determined by taking into account any adjustments under § 1.1502–19(a)(6) except such adjustments which were made for a taxable year to which subdivision (i) of this subparagraph applies.

* * * * *

PAR. 15. There is inserted after § 1.1502–41 the following new section:

§ 1.1502–42 Mutual savings banks, domestic building and loan associations, and cooperative banks.

In the case of mutual savings banks, domestic building and loan associations and cooperative banks—

(a) In computing for purposes of section 593(b)(1)(B)(ii) total deposits or withdrawable accounts at the close of the taxable year, the total deposits or withdrawable accounts of other members shall be excluded, and

(b) For purposes of section 593(b)(2), a member's taxable income shall be the amount computed under § 1.1502–27(b).

PAR. 16. Section 1.1502–75 is amended by revising paragraph (d)(2)(ii), by adding subdivisions (iii) and (iv) to paragraph (d)(2), by adding a sentence at the end of subdivision (i) of paragraph (d)(3), by adding titles to subdivisions (ii) and (iii) of paragraph (d)(3), by adding subdivisions (iv), (v), and (vi) to paragraph (d)(3), by reserving paragraph (i), and by adding paragraph (j). The revised and added provisions read as follows:

§ 1.1502–75 Filing of consolidated returns.

* * * * *

(d) *When group remains in existence.* * * *

(2) *Common parent no longer in existence.* * * *

(ii) *Transfer of assets to subsidiary.* The group shall be considered as remaining in existence notwithstanding that the common parent is no longer in existence if the members of the affiliated group succeed to and become the owners of substantially all of the assets of such former parent and there remains one or more chains of includible corporations connected through stock ownership with a common parent corporation which is an includible corporation and which was a member of the group prior to the date such former parent ceases to exist. For purposes of applying paragraph (f)(2)(i) of § 1.1502–1 to separate return years ending on or before the date on which the former parent ceases to exist, such former parent, and not the new common parent, shall be considered to be the corporation described in such paragraph.

(iii) *Taxable years.* If a transfer of assets described in subdivision (ii) of this subparagraph is an acquisition to which section 381(a) applies and if the group files a consolidated return for the taxable year in which the acquisition occurs, then for purposes of section 381—

(*a*) The former common parent shall not close its taxable year merely because of the acquisition, and all taxable years of such former parent ending on or before the date of acquisition shall be treated as taxable years of the acquiring corporation, and

(*b*) The corporation acquiring the assets shall close its taxable year as of the date of acquisition, and all taxable years of such corporation ending on or before the date of acquisition shall be treated as taxable years of the transferor corporation.

(iv) *Exception.* With respect to acquisitions occurring before January 1, 1971, subdivision (iii) of this subparagraph shall not apply if the group, in its income tax return, treats the taxable year of the former common parent as having closed as of the date of acquisition.

(3) *Reverse acquisitions*—(i) *In general.* * * * For purposes of determining under (*a*) of this subdivision whether the second corporation becomes (or would become) a member of the group of which the first corporation is the common parent, and for purposes of determining whether the former stockholders of the second corporation own more than 50 percent of the outstanding stock of the first corporation, there shall be taken into account any acquisitions or redemptions of the stock of either corporation which are pursuant to a plan of acquisition described in (*a*) or (*b*) of this subdivision.

(ii) *Prior ownership of stock.* * * *

(iii) *Election.* * * *

(iv) *Transfer of assets to subsidiary.* This subparagraph shall not apply to a transaction to which subparagraph (2)(ii) of this paragraph applies.

(v) *Taxable years.* If, in a transaction described in subdivision (i) of this subparagraph, the first corporation files a consolidated return for the first taxable year ending after the date of acquisition, then—

(*a*) The first corporation, and each corporation which, immediately before the acquisition, is a member of the group of which the first corporation is the common parent, shall close its taxable year as of the date of acquisition, and each such corporation shall, immediately after the acquisition, change to the taxable year of the second corporation, and

(*b*) If the acquisition is a transaction described in section 381(a)(2), then for purposes of section 381—

(*1*) All taxable years ending on or before the date of acquisition, of the first corporation and each corporation which, immediately before the acquisition, is a member of the group of which the first corporation is a common parent, shall be treated as taxable years of the transferor corporation, and

(2) The second corporation shall not close its taxable year merely because of such acquisition, and all taxable years ending on or before the date of acquisition, of the second corporation and each corporation which, immediately before the acquisition, is a member of any group of which the second corporation is the common parent, shall be treated as taxable years of the acquiring corporation.

(vi) *Exception.* With respect to acquisitions occurring before April 17, 1968, subdivision (v) of this subparagraph shall not apply if the parties to the transaction, in their income tax returns, treat subdivision (i) as not affecting the closing of taxable years or the operation of section 381.

* * * * *

(i) [Reserved]

(j) *Statements and schedules for subsidiaries.* The statement of gross income and deductions and the schedules required by the instructions on the return shall be prepared and filed in columnar form so that the details of the items of gross income, deductions, and credits for each member may be readily audited. Such statements and schedules shall include in columnar form a reconciliation of surplus for each corporation, and a reconciliation of consolidated surplus. Consolidated balance sheets as of the beginning and close of the taxable year of the group, taken from the books of the members, shall accompany the consolidated return and shall be prepared in a form similar to that required for reconciliation of surplus.

PAR. 17. Section 1.1502–76(b) is amended by revising subparagraphs (1) and (5)(i) to read as follows:

§ 1.1502–76 Taxable year of members of group.

* * * * *

(b) *Income to be included in returns for taxable year*—(1) *Inclusion of income in consolidated return.* The consolidated return of a group must include the income of the common parent for that corporation's entire taxable year (excluding any portion of such taxable year for which its income is properly included in the consolidated return of another group) and, except as provided in subparagraph (5) of this paragraph, the income of each subsidiary for the portion of such taxable year during which it was a member of the group. If § 1.1502–75(d)(2)(ii) applies to a group, then for purposes of this paragraph, the former common parent shall be deemed to continue in existence and shall be regarded as the common parent for the entire taxable year in which the acquisition occurs. If

§ 1.1502–75(d)(3)(v) applies to a group, then for purposes of the application of this paragraph (other than to a group which ceases to exist as a result of the application of § 1.1502–75(d)(3)(i)), the second corporation (whether or not it remains in existence) shall be treated as the common parent for the entire taxable year of such corporation in which the acquisition occurs, and the first corporation shall be treated as a subsidiary for the portion of such taxable year subsequent to the acquisition.

• • • • •

(5) *Period of 30 days or less may be disregarded.* • • •

(i) If within a period of 30 days after the beginning of a corporation's taxable year (determined without regard to the required change to the parent's taxable year) it becomes a member of a group which files a consolidated return for a taxable year which includes such period, then such corporation may at its option be considered to have become a member of the group as of the beginning of the first day of such corporation's taxable year, or

• • • • •

PAR. 18. Section 1.1502–78 is amended by revising paragraphs (a) and (b)(1) to read as follows:

§ 1.1502–78 Tentative carryback adjustments.

(a) *General rule.* If a group has a consolidated net operating loss, a consolidated net capital loss, or a consolidated unused investment credit for any taxable year, then any application under section 6411 for a tentative carryback adjustment of the taxes for a consolidated return year or years preceding such year shall be made by the common parent corporation to the extent such loss or unused investment credit is not apportioned to a corporation for a separate return year pursuant to § 1.1502–79 (a), (b), or (c). In the case of the portion of a consolidated net operating loss or consolidated net capital loss or consolidated unused investment credit to which the preceding sentence does not apply, and in the case of a net capital or net operating loss or unused investment credit arising in a separate return year which may be carried back to a consolidated return year, the corporation or corporations to which any such loss or credit is attributable shall make any application under section 6411.

(b) *Special rules*—(1) *Payment of refund.* Any refund allowable under an application referred to in paragraph (a) of this section shall be made directly to and in the name of the corporation filing the application, except that in all cases where a loss is deducted from the consolidated taxable income or a credit is allowed in computing the consolidated tax liability for a consolidated return year, any refund shall be made directly to and in the name of the common parent corporation. The payment of any such refund shall discharge any liability of the Government with respect to such refund.

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

[8 CFR Parts 245, 249]

ADJUSTMENT OF STATUS AND CREATION OF RECORDS OF LAWFUL ADMISSION

Notice of Proposed Rule Making

Pursuant to section 553 of title 5 of the United States Code (80 Stat. 383), notice is hereby given of the proposed issuance of the following rules pertaining to the jurisdiction of district directors to adjudicate certain initially-filed applications for adjustment of status and for the creation of records of lawful admission for permanent residence. In accordance with section 553, interested persons may submit to the Commissioner of Immigration and Naturalization, Room 757, 119 D Street NE., Washington, DC 20536, written data, views, or arguments, in duplicate, relative to the proposed rules. Such representations may not be presented orally in any manner. All relevant material received within 20 days following the date of publication of this notice will be considered.

Subparagraph (1) of paragraph (a) of § 245.2 is amended to read as follows:

§ 245.2 Application.

(a) *General*—(1) *Jurisdiction.* An application for adjustment of status under section 214(d) or 245 of the Act or section 1 of the Act of November 2, 1966, shall be submitted to the office of the Service having jurisdiction over the applicant's place of residence. The decision on any such application shall be made by the district director, unless it is a renewed application filed by the alien after he has been served with an order to show cause. The decision on a renewed application, filed after the alien has been served with an order to show cause and after a prior application for adjustment has been denied by the district director, shall be made only in proceedings under Part 242 of this chapter.

• • • • •

§ 249.2 [Amended]

The first and second sentences are amended and a new sentence is added following the existing second sentence of § 249.2 *Application* to read as follows: "An application for creation of a record of lawful admission for permanent residence under section 249 of the Act shall be submitted to the office of the Service having jurisdiction over the applicant's place of residence. The decision on the application shall be made by the district director, unless it is a renewed application filed by the alien after he has been served with an order to show cause. The decision on a renewed application, filed after the alien has been served with an order to show cause and after a prior application under section 249 of the Act has been denied by the district director, shall be made only in proceedings under Part 242 of this chapter."

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

Dated: August 19, 1971.

RAYMOND F. FARRELL,
Commissioner of Immigration and Naturalization.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Part 2800]

AREAS OF NATIONAL PARK SYSTEM

Right-of-Way Regulations

Pursuant to the authority contained in the Act of August 25, 1916 (39 Stat. 535, as amended, 16 U.S.C. 1, 3, 4), the Act of March 4, 1911 (36 Stat. 1253, as amended, 16 U.S.C. 5), the Act of February 15, 1901 (31 Stat. 790, as amended, 16 U.S.C. 79), and other authorities that may be applicable, it is proposed to amend the right-of-way regulations so that they will no longer be applicable to areas of the National Park System.

Revised regulations to be applicable to rights-of-way in areas of the National Park System, are being published as a notice of rule making, to become 36 CFR Part 14. This notice of rule making and the notice involving 36 CFR Part 14, are being published concurrently.

It is the policy of the Department of the Interior, whenever applicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed regulations to the Director, National Park Service, Washington, D.C. 20240, within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

Dated: August 20, 1971.

WILLIAM T. PECORA,
Acting Secretary of the Interior.

Part 2800 of Title 43 is amended as follows:

Section 2800.0–1(a) is amended to read as follows:

§ 2800.0–1 Purpose.

(a) This part applies to all rights-of-way covered by §§ 2800.0–1 and 2800.0–5, Subparts 2801 and 2802, §§ 2810.0–3, 2810.0–5, Subparts 2811, 2821, 2881, 2882, and Parts 2850, 2860, 2870, and 2890 of this subchapter except rights-of-way over or through reservation lands administered by the Fish and Wildlife Service or by the National Park Service.

• • • • •

Section 2801.1–7 is amended to read as follows:

§ 2801.1–7 Areas of National Park System.

(a) Pursuant to any statute, including those listed in this subpart, applicable to reservation lands administered by the National Park Service, rights-of-way over or through such lands will be issued by the Director, National Park Service, or his delegate, under the regulations in 36 CFR Part 14.

(b) [Deleted]

Section 2802.1–1 is amended to read as follows:

§ 2802.1–1 Form.

The application shall be prepared and submitted in accordance with the requirements of this section. It should be in typewritten form or legible handwriting. It must specify that it is made pursuant to the regulations in this part and that the applicant agrees that the right-of-way if approved, will be subject to the terms and conditions of the applicable regulations contained in this part. It should also cite the act to be invoked and state the primary purpose for which the right-of-way is to be used. Applications shall be filed in accordance with the provisions of § 1821.2 of this chapter, except that applications for rights-of-way over or through reservation lands administered by the National Park Service shall be filed with the Director of the National Park Service, Washington, D.C. 20240, in accordance with 36 CFR 14.3, and applications for rights-of-way over and through reservation lands administered by the Fish and Wildlife Service shall be filed with the appropriate Regional Director of the Bureau of Sport Fisheries and Wildlife in accordance with 50 CFR 29.21–2. If the right-of-way has been utilized without authority prior to the time the application is made, the application must state the date such utilization commenced and by whom, and the date the applicant alleges he obtained control of the improvements.

Section 2821.3–1 is amended to read as follows:

§ 2821.3–1 General.

Except where an application involves lands wholly within an Indian reservation, applications for rights-of-way and material sites under title 23, United States Code, for lands under the jurisdiction of the Department of the Interior, together with four copies of a durable and legible map shall be filed by the appropriate State Highway department in the manner prescribed in §§ 2802.1–1 and 2802.1–2 of this subchapter. Maps should accurately describe the land or interest in land desired, showing the survey of the right-of-way, properly located with respect to the public land surveys so that said right-of-way may be accurately located on the ground by any competent engineer or land surveyor. The map should comply with the requirements of § 2802.1–5(a) of this subchapter. Applications for lands wholly within an Indian reservation shall be filed in the office of the Superintendent of Indian Affairs agency which has jurisdiction over the lands, or for lands for which there is no agency, in the office of the Area Director who has jurisdiction over the lands. Applications for lands administered by the National Park Service shall be filed with the Director of the National Park Service, Washington, D.C. 20240, and applications for lands administered by the Fish and Wildlife Service shall be filed with the appropriate Regional Director of the Bureau of Sport Fisheries and Wildlife, both of whom shall process such applications and issue grants of rights-of-way in accordance with the regulations in 36 CFR Part 14 and 50 CFR Part 29, respectively. Applications for lands outside of the jurisdiction of the Department of the Interior shall be filed pursuant to the rules or regulations of the Department or agency having jurisdiction over the lands.

[FR Doc.71-12397 Filed 8-24-71;8:48 am]

National Park Service

[36 CFR Part 14]

AREAS OF NATIONAL PARK SYSTEM

Right-of-Way Regulations

Pursuant to the authority contained in the Act of August 25, 1916 (39 Stat. 535, as amended, 16 U.S.C. 1, 3, 4), the Act of March 4, 1911 (36 Stat. 1253, as amended, 16 U.S.C. 5), the Act of February 15, 1901 (31 Stat. 790, as amended, 16 U.S.C. 79), and 245 DM1 (27 F.R. 6395; as amended), and other authorities that may be applicable, it is proposed to establish right-of-way regulations applicable to areas of the National Park System, in Part 14 of Title 36. Present regulations applicable to rights-of-way in the National Park System are in 43 CFR Part 2800.

The purpose of the revision is to clarify and simplify the regulations and the right-of-way application procedure, and to strengthen the protection of park values in the administration of rights-of-way.

It is the policy of the Department of the Interior, whenever applicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions or objections with respect to the proposed regulations to the Director, National Park Service, Washington, D.C. 20240, within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

Dated: August 20, 1971.

WILLIAM T. PECORA,
Acting Secretary of the Interior.

Part 14 of Title 36 is added to read as follows:

PART 14—RIGHTS-OF-WAY WITHIN AREAS OF THE NATIONAL PARK SYSTEM

Sec.
14.1 Scope and definitions.
14.2 Right-of-way permits, by whom granted.
14.3 Application requirements.
14.4 Maps and other documents.
14.5 Application fees.
14.6 Application approval.
14.7 General terms and conditions.
14.8 Power transmission lines, additional terms, and conditions.
14.9 Appeals.
14.10 Nature of interest.
14.11 Payment required; exceptions; default; revision of charges.
14.12 Disposition of right-of-way.
14.13 Project.
14.14 Federal-aid highways.

AUTHORITY: The provisions of this Part 14 issued under 31 Stat. 790, 36 Stat. 1253, 39 Stat. 535, as amended, 41 Stat. 1063, 41 Stat. 1353, 49 Stat. 838, 16 U.S.C. 1–5, 79, 16 U.S.C. 796, et seq., 23 U.S.C. and other applicable statutes.

§ 14.1 Scope and definitions.

(a) *Scope.* The regulations in this part shall apply to rights-of-way within areas of the National Park System administered by the Secretary of the Interior through the Director of the National Park Service. A grant for the temporary use of park land which clearly does not involve the use of such land for more than 1 year in the entirety is not subject to these regulations and may be authorized by means of a revocable special use permit. Such special use permit grants shall be subject to necessary terms and conditions, including provisions of this Part 14, which may be incorporated into the special use permit by the Superintendent.

(b) *Definitions.* As used in this part the following definitions shall apply:

(1) "Secretary" means the Secretary of the Interior.

(2) "Director" means the Director of the National Park Service.

(3) "Regional Director" means the person in charge of a region of the National Park Service.

(4) "Superintendent" means the person in charge of an area of the National Park System or his duly authorized representative.

(5) "Park" means any federally owned or controlled land within an area of the National Park System.

(6) "Person" is an individual, association, corporation, or other entity.

(7) "Holder" is a person, association, corporation, or other entity that has been granted a right-of-way permit under this part.

(8) "Applicant" is a person, association, corporation, or other entity who has applied for a right-of-way under this part, and who has not become a holder.

(9) "Project" is the complete unit of improvement or development for which the right-of-way is requested.

(10) "Right-of-way" means any privilege or right of use of Federal land including but not limited to water, oil, gas, electrical energy, or sound transmission and the area occupied by structures associated therewith.

§ 14.2 Right-of-way permits, by whom granted.

Permits are issued by the Director, except that permits for hydroelectric powerplants and primary and secondary lines from such plants in park lands other than national parks and national monuments are issued by the Federal Power Commission under authority of the Act of June 20, 1920, as amended, 16 U.S.C. 796 and 797.

§ 14.3 Application requirements.

(a) The provisions of §§ 14.2 through 14.13, shall not apply to requests for

rights-of-way for Federal-aid highways.

(b) A person considering submission of an application involving park lands shall consult the Superintendent, prior to submission of such application, to ascertain whether use of such lands for right-of-way purposes is consistent with the park management program, and to ascertain what measures may be necessary to maintain park values. At the time of such consultation and in any application that may result, the person will be required:

(1) To demonstrate that there is no reasonable alternative to the use of park lands for the proposed right-of-way, and

(2) To demonstrate that physical developments will be planned and located so as to minimize their impact on park resources and visitor enjoyment of the natural or historic scene, and

(3) (i) To include a detailed environmental analysis with the application which shall, among other things, include information about the impact of the project on air and water quality, scenic and esthetic features, historical and archeological features, and wildlife, fish, and marine life. The analysis shall include, in addition to the above information, any other data needed so as to enable the Department of the Interior to prepare an environmental statement in accordance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321) and the regulations and guidelines adopted pursuant thereto, when such statement is required of the Department. The National Park Service, in fulfilling the policy and directives of the National Environmental Policy Act of 1969 (83 Stat. 852), shall be guided by 516 DM1-3.

(ii) When the application involves an electric transmission system, the applicants' analysis shall also be consistent with the "Environmental Criteria For Electric Transmission Systems" issued jointly by the Department of the Interior and the Department of Agriculture in 1970, which document is available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, as well as such other criteria and guidelines as the Department shall publish in the FEDERAL REGISTER.

(4) In cases where rights-of-way for utility lines are involved, to locate the lines underground, except when this would cause excessive damage to the natural ecological association of the park, or would impose an unreasonable cost burden on him.

(c) The application should be submitted to the Superintendent who shall forward it to the Regional Director with his comments and recommendations. The Regional Director shall forward the proposal to the Director with his comments and recommendations. The application should be typewritten or in legible handwriting and should be substantially in the format of Exhibit A of this part.

(d) Individuals and associations:

(1) An individual applicant shall state whether he is a native-born or naturalized citizen, and if naturalized, the date of naturalization, the court in which naturalized, and the number of the certificate, if known.

(2) An association shall submit a certificate copy of its articles of association, if any. If there are none, the application shall be submitted over the signature of each member of the association. Each member shall file evidence of citizenship where it would be required if he were applying individually.

(e) Private corporations: A private corporation, in addition to the other requirements of this section, shall file the following:

(1) A copy of the corporate charter or articles of incorporation duly certified by the appropriate State official of the State of incorporation, and

(2) A citation of the law under which the corporation was formed, and

(3) A copy of the resolution or bylaws authorizing the filing of the right-of-way application, and

(4) If a right-of-way is applied for in a State other than the State of incorporation, a certificate from the appropriate official of the State where the proposed right-of-way is located, to the effect that such foreign corporation is entitled to operate in such State.

(5) If the corporation has previously filed with the National Park Service the papers required by this paragraph, the requirements are met if, in making subsequent applications, specific reference is made to such previous filing by date, place, and case number.

(f) Public corporations: A corporation, other than a private corporation, shall file a copy of the law under which it was formed and due proof of organization under the same.

§ 14.4 Maps and other documents.

Each application shall be accompanied by a map that shows the details of the proposed development, the total acreage of the proposed right-of-way, and a survey of the right-of-way properly referenced to the public land surveys, or as otherwise provided under this section. The map should include the following:

(a) Initial and terminal points of the right-of-way survey accurately connected by course and distance to the nearest corner of the public land surveys, unless that corner is more than 6 miles distant, in which case the connection shall be made to some prominent natural object or permanent monument.

(b) At several points on the survey, the station number and plus distance to the point of intersection with a section line of the public-land surveys and the course and distance along the section line from said point of intersection to the nearest existing corner.

(c) All subdivisions of the public land surveys within the limits of the survey should be shown in their entirety, based upon the official subsisting plats, with the subdivisions, section, township, and range designations clearly marked.

(d) If the right-of-way is across or within park lands which are not covered by the public land surveys, the map shall be referenced to the boundary survey of the park to a comparable extent, as required above with respect to the public land surveys.

(e) Whenever a public land survey monument or reservation boundary monument will be destroyed or rendered inaccessible by the proposed development, at least two permanent marked witness monuments shall be established at suitable points, preferably on the public land survey lines. The map shall include a brief description of the witness monuments and show reference courses and distances to the original corner.

(f) Each copy of the map shall bear upon its face the signature of the engineer or surveyor who made the survey and the inclusive dates during which the survey was made. The map shall be prepared on standard 22" x 36" sheets and one reproducible and two prints of each page shall be included.

(g) For certain types of right-of-way, the following additional map data is required:

(1) *Canals, ditches, laterals, aqueducts.* Width at high-water line and the width of all other rights-of-way, with location and amount of changes in width. As applicable, height aboveground, vertical drop, and percentage and direction of fall.

(2) *Pipelines.* Diameter, type of construction, and pressure of the line. Invert flow line or depth below the grade, and direction of flow.

(3) *Communication structures and facilities.* (i) Platted outline of areas proposed to be occupied by structures and facilities, and location referenced by course and distance from a corner of the public land survey. Structures and facilities shall also be platted on a separate map at a scale sufficiently large to clearly show their dimensions and relative positions. When two or more such proposed structures are to be located near each other, it is sufficient to reference one of them to a corner of the public land survey provided each of the others is referenced to that structure by course and distance shown on the map.

(ii) The application shall state the proposed use of each structure, and shall clearly establish that each one is necessary for serving the intended purpose of the right-of-way. If the right-of-way is within park lands which are not covered by the public land surveys, the map shall be referenced to the boundary survey of the park.

(4) *Transmission lines.* An application shall include the following:

(i) A statement of whether the proposed line would be above or below ground, and a description of the proposed line support structures, including dimensions, type of construction, surfacing treatment, and color.

(ii) For overhead lines, a description of the transmission system of which the requested right-of-way is to form a part, covering in appropriate detail the points between which it will extend, its characteristics, purpose, and voltage, and including a plan profile drawing of the entire line within the park, and including one tower or line support structure beyond any park boundary.

(iii) For underground lines, a description of the transmission system of which the requested right-of-way is to form a part, covering in appropriate detail the points between which it will extend, its characteristics, purpose, and voltage, or other energy or capacity rating; also a plan profile drawing of the line and appurtenances within the park and extended 500 feet beyond the park boundaries showing all line support structures, existing and proposed, within such 500-foot distance.

(iv) (*a*) For both overhead and underground lines, whether the line is to serve a single customer, or a number of customers, or is intended to transmit power solely for the applicant's use. If the line is to serve a single customer or is for the applicant's own use, the nature of such use shall be stated (such as airway beacon, coal mine, irrigation pumps, etc.).

(*b*) The application and maps shall specify the width of the right-of-way desired. Rights-of-way for power lines are limited to 50 feet on each side of the centerline unless a greater width is authorized by law and sufficient justification is furnished.

(v) The "Environmental Criteria For Electric Transmission Systems" adopted by the U.S. Department of the Interior and the U.S. Department of Agriculture in 1970 is hereby incorporated by reference. An application for an electric transmission right-of-way should be prepared with appropriate references to the various paragraphs of the above mentioned environmental criteria and contain explanation as to how the proposed project is in accordance with, or deviates from, such criteria.

(vi) A transmission line shall be located at least 2,000 feet from the park, including highways, trails, and rivers, unless fully screened at all seasons of the year by intervening topography or ground cover, except that this does not apply at the minimum number of points at highways, trails, rivers, and other places where crossings are absolutely essential.

(h) Evidence of water right: If the project involves the storage, diversion or conveyance of water, the applicant shall file with the application a statement from the appropriate State official, or other evidence showing that he has a right to the use of the water. Where the State official requires an applicant to obtain a right-of-way as a prerequisite to the issuance of evidence of a water right, if all else be regular, a right-of-way may be granted conditioned only upon the applicant's filing the required evidence of water right from the State official within a specified reasonable time. The conditional right-of-way will expire if the evidence is not filed within the specified period.

§ 14.5 Application fees.

An application must be accompanied by a $10 fee, except where the permit will authorize use and occupancy of the land exclusively for irrigation projects, or nonprofit purposes, such as Rural Electrification Administration services, or where the use will be by a Federal or State agency. The fee is not refundable.

§ 14.6 Application approval.

(a) The Director may grant a right-of-way permit, provided

(1) The application is complete and conforms to statutory authority and the regulations of this part, and

(2) All required documents and supporting data have been furnished with the application, and

(3) The Director has determined that approval is compatible with the public interest and consistent with preservation of park values taking into account the natural, historic, or recreational category of the area affected, and, where applicable, after consideration of the "Environmental Criteria For Electric Transmission Systems," and

(4) That the beneficial purposes and effects of the project will not be outweighed by an adverse environmental impact.

§ 14.7 General terms and conditions.

An applicant receiving a right-of-way permit agrees to be bound by the following terms and conditions, excepting an applicant applying for a right-of-way under an Act of Congress that specifically exempts him from such terms and conditions, and excepting terms and conditions waived by the Director. The applicant agrees to:

(a) Comply with applicable State and Federal laws and regulations concerning his project on the lands included in the right-of-way,

(b) Manage the right-of-way lands, or clear and keep clear the lands, as directed by the Superintendent. Maintenance of vegetation control shall be performed annually if required by the Superintendent,

(c) Dispose of any materials cut, uprooted, or otherwise accumulated from construction and maintenance operations under the project, in such manner as to decrease the fire hazard, and the possible threat of insect infestation, in accordance with instructions that may be issued by the Superindendent,

(d) Apply soil and resource conservation and protection measures, including restoration of the land to a condition of stability, as the Superintendent may request,

(e) Comply with restrictions of Superintendent concerning the use of certain herbicides, insecticides, and other chemicals,

(f) Conduct construction work and right-of-way use in accordance with Federal and State air pollution emission standards, water quality and thermal pollution standards, and public health and safety standards affecting solid waste disposal and noise abatement,

(g) Remove or dispose of all waste generated in construction and operation, including but not limited to human waste, trash, garbage, refuse, oil drums, petroleum products, ashes, and equipment, in the manner specified by the Superintendent,

(h) Consider esthetic values in construction and operations and conform to esthetic specifications prescribed by the Superintendent,

(i) Notify Superintendent immediately of any archeological, paleontological, or historical finding during construction operations and suspend construction pending investigation and further instructions of Superintendent,

(j) Prevent and suppress fires within the right-of-way, both independently and upon request of an authorized employee of the United States Government, by every means reasonably available including the supplying of construction and/or maintenance forces as may be reasonably obtainable for suppression of such fires,

(k) Build and repair such roads, fences, and trails as may be destroyed or damaged by construction work and build and maintain necessary and suitable crossings for all roads and trails that intersect the right-of-way,

(l) Be absolutely liable to the United States for all damages to park lands and property caused by him or by his employees, contractors, or employees of the contractors,

(m) Indemnify and save and hold harmless the United States against liability for injury or damage to persons or property arising from the occupancy or use of the lands within the right-of-way. Exception: Where a right-of-way is granted to a governmental agency which has no legal power to assume such a liability with respect to property damages caused by it, if such agency in lieu thereof agrees to repair all such damages,

(n) Notify the Superintendent in advance of construction, of any timber which will be cut, removed, or destroyed in the construction and maintenance of the project, and to pay the United States through such Superintendent the full stumpage value of the timber. Such stumpage value is determined by the Superintendent, based on current market value, including the cost incurred in determining the stumpage value,

(o) Comply with other specified conditions within the scope of the applicable statute and lawful regulations thereunder, with respect to the occupancy and use of the lands as may be found necessary as a condition of approval of the right-of-way, including appropriate safety measures to protect the public.

(p) Upon revocation or termination of the right-of-way, restore the land to its original condition so far as is reasonably possible, to the satisfaction of the Superintendent,

(q) Notify Superintendent in advance of any work to be performed within the right-of-way so that the Superintendent or his representative may observe the work,

(r) Comply with applicable Federal Executive orders and statutes regarding nondiscrimination,

(s) Occupancy and use by the United States, its grantees, permittees, lessees, or the public, of any part of the right-of-way not actually occupied or required by the project,

(t) The express covenant that the right-of-way will be modified, adapted,

or discontinued, without liability or expense to the United States, if the Director deems such action necessary to prevent conflict with the use and occupancy of the land for any authorized works which may be hereafter constructed thereon under the authority of the United States,

(u) (1) File a performance bond with satisfactory surety payable to the Director, to fully insure compliance with these regulations and certain of the permit terms and conditions specified by the Superintendent, provided such performance bond is required by the Superintendent. In lieu of a performance bond, a permittee may elect to deposit cash or negotiable bonds of the U.S. Government in market value equal at least to the required sum of the bond,

(2) A Federal, State, or other governmental agency is not required to file a performance bond, however, a contractor performing functions for a governmental agency permittee is required to file a performance bond covering his functions.

(v) The further condition that the terms and conditions prescribed in this paragraph may be modified at any time by means of a supplemental right-of-way permit negotiated between the holder and the Director.

(w) That the right-of-way hereby granted is subordinate to other uses of the land by the United States, or its licensees, lessees, permittees, or grantees, for federally supported programs or projects. This right-of-way is granted subject to the express condition and covenant that it will be modified, adopted, or discontinued if such modification, adaptation, or discontinuance is found by the Director of the National Park Service to be necessary in connection with the use or construction of a federally supported program or project, and that the grantee will comply at its own expense with any findings or requirements of the Director of the National Park Service, including any required readjustment, relocation, or removal of its facilities, and will hold the United States, its licensees, permittees, or grantees, free from all liability and expense in connection with such compliance. If the land over which this right-of-way is granted is transferred to another Federal or State agency, in conjunction with federally supported programs or projects and the right-of-way has not been modified, adapted, or discontinued by the Director of the National Park Service, then such Federal or State agency may require that the grantee will comply at its own expense with any findings or requirements of the Federal or State agency, including any required readjustment, relocation, or removal of its facilities, and the grantee will hold the United States, its licensees, permittees, or grantees, free from all liability and expense in connection with such compliance.

§ 14.8 Power transmission lines, additional terms, and conditions.

The contents of paragraph (a) (3) through (5) of 43 CFR 2851.1–1, are applicable.

§ 14.9 Appeals.

(a) Action taken by the Director is subject to appeal by an applicant or holder to the Secretary. Action taken by a Regional Director, on an appeal from a Superintendent's action is subject to appeal to the Director.

(b) An appeal shall be filed in writing within 30 days after receipt of notice respecting the action to which objection is taken. It shall be filed with the officer who took the action being appealed, and that officer will then transmit the appeal with the case record to the appropriate higher officer.

§ 14.10 Nature of interest.

(a) *Nature of interest granted; settlement on right-of-way; rights of ingress and egress.* (1) The right-of-way interest granted consists of a permit that conforms to the applicable statute.

(2) (i) The term hereunder granted shall not exceed the lesser of 50 years or the maximum term allowable by statute.

(ii) Right-of-way grants are revocable in the discretion of the Director if the applicable statutory authority provides for revocability.

(3) Unless a specific statute or the permit provides otherwise, the interest granted gives no right to take any park material, earth, or stone for construction or other purpose, but stone and earth necessarily removed from the right-of-way in the construction of a project may be used elsewhere along the same right-of-way in the construction of the same project within the park.

(b) *Additional rights-of-way.* The Director may grant, to a holder or applicant, an additional right-of-way for ingress and egress to the primary right-of-way. This may include the right to construct, operate, and maintain necessary facilities. An applicant for an additional right-of-way shall apply in the same manner as is set forth in this Part 14, for other right-of-way applications. He shall also present evidence that the additional right-of-way is necessary for the use, operation, or maintenance of the primary right-of-way.

§ 14.11 Payment required; exceptions; default; revision of charges.

(a) Except as provided in paragraphs (b) and (c) of this section, the charge for use and occupancy of lands under the regulations of this part will be the fair market value of the right-of-way, as determined by appraisal by the Director. The first periodic payment or lump-sum payment, either of which is payable not later than the effective date of permit issuance, will be required at the discretion of the Director;

(1) Upon voluntary relinquishment of a permit before term expiration, any payment made for an unexpired portion of the term will be returned to the payer, to the extent that the amount paid by holder covers one or more full right-of-way years after the formal relinquishment, if proper application for repayment is made: *Provided*, That the total rental retained by the Government shall not be less than $25. The amount to be so returned will be the difference between the total payments made and the value of the expired portion of the term calculated on the same basis as the original payments.

(b) Except as provided in paragraph (c) of this section, the charge for use and occupancy of lands under the regulations of this part shall not be less than $25 per 5-year permit period.

(c) No charge will be required by the Director for the use and occupancy of lands under the regulations of this part:

(1) Where the use and occupancy are exclusively for irrigation projects, municipally operated projects, Rural Electrification Administration or other nonprofit projects, or where the use is by a Federal or State agency, except as otherwise provided by law.

(2) Where the right-of-way involves Federal-aid highways or licenses issued by the Federal Power Commission.

(d) If a required charge is not paid when due, and default continues for 30 days after notice, the right-of-way permit may be canceled. After default has occurred, no structures, buildings, or other equipment may be removed from the servient lands except by written permission from the Superintendent.

(e) At any time not less than 5 years after either the grant of the right-of-way permit or the last revision of charges thereunder, the Director may review such charges and impose such new charges as may be reasonable and proper to commence with the ensuing charge year.

(f) The provisions of paragraph (e) of this section may not operate to change the rental rates or charges imposed for existing water power projects under rights-of-way previously approved by the Department of the Interior.

§ 14.12 Disposition of right-of-way.

(a) *Cancellation.* Rights-of-way approved pursuant to this part, are subject to cancellation by the Director for the violation of any of the provisions of this part or the terms and conditions of the right-of-way permit.

(b) *Change in jurisdiction; disposal of lands.* (1) A change of administrative jurisdiction over park lands from one Federal agency or bureau to another will not cancel a right-of-way permit involving such lands.

(2) The final disposal by the United States of any tract traversed by a right-of-way shall be deemed subject to such right-of-way grant until it is specifically cancelled.

(c) *Transfer of right-of-way.* (1) Any proposed transfer of a right-of-way permit granted by the Director shall be filed with the Director for approval; shall be accompanied by the same showing of qualifications of the proposed assignee as is required of applicants; and shall be supported by a stipulation that the assignee agrees to comply with the regulations of this part and the terms and conditions of the right-of-way permit. No assignment will be valid unless and until approved by the Director.

(2) A transfer proposal made pursuant to this section shall be accompanied by a $10 nonreturnable fee, to be paid by the proposed assignee: *Provided*, That such fee is waived if the assignee is a State or Federal agency.

(d) *Disposal of property on termination of right-of-way.* Upon the termination of a right-of-way permit, the holder shall remove all property and improvements of any kind placed thereon by him, except, at the discretion of the Director, any road and usable improvements thereto. If all monies due the United States have been paid, in absence of contrary agreement, a holder will be allowed 6 months or such reasonable additional time as may be granted by the Director in which to remove such property and improvements. Property and improvements not removed within the time allowed shall become the property of the United States.

§ 14.13 Project.

(a) *Commencement.* Upon approval of an application for a right-of-way permit, the Superintendent will designate a date for the commencement of construction or use.

(b) *Unauthorized entry.* Any unauthorized construction, use, or entry upon park lands in advance of the Director's notice of application approval and the Superintendent's designation of a construction or use commencement date is prohibited.

(c) *Time period for construction.* A 5-year period is allowed for project construction from date of issuance of a right-of-way permit, unless a different period is specified in the permit or provided by statute. Upon project completion, proof thereof shall be submitted in a certificate from the holder to the Superintendent. The certificate should be essentially in the format of Exhibit B of this part, but should be modified as appropriate to the authorizing act and the nature of the project.

(d) *Authorized deviations.* If, in construction, an approved deviation is made from the location shown on the original map, the holder shall file a relinquishment of the unused portion of the right-of-way accompanied by a map of the amended right-of-way for the project. The relinquishment may be prepared so as to become effective upon approval of the amended location. No deviation shall be made prior to the approval of the Director.

(e) *Abandonment, nonuse, or nonconstruction.* Unless otherwise provided by law, rights-of-way are subject to cancellation for abandonment, nonuse, or failure to complete construction within the period allowed, as well as for violation of the regulations of this part and the terms and conditions of the permit.

(f) *Permit renewals.* An application for permit renewal will be treated as an original application for a right-of-way.

§ 14.14 Federal-aid highways.

A person considering submission of a Federal-aid highway proposal involving park lands should consult with the Superintendent, prior to submission, to ascertain whether use of such lands for right-of-way purposes is consistent with the park management program, and to ascertain what measures may be necessary to maintain park values.

(a) An application for a right-of-way over park lands under title 23 U.S.C. and the following, will be filed by the appropriate State highway department with the Secretary of the Department of Transportation as required by such Secretary. The provisions of §§ 14.2 through 14.13 shall not apply to requests for Federal-aid highways.

(b) A preliminary determination will be made by the Department of Transportation as to whether, in its view, acquisition of park lands or interests in lands is reasonably necessary as part of a Federal-aid highway proposal, within the intent of 23 U.S.C. 107, 138, and 317, and 16 U.S.C. 470f. The provisions of section 102 of the National Environmental Policy Act of 1969 shall be complied with in consideration of a proposal. The Department of the Interior, as land administering agency under 23 U.S.C. 317, may agree to or reject a request for a right-of-way within four (4) months.

(c) Any right-of-way granted pursuant to 23 U.S.C. 317, shall include terms and conditions required by the Director, National Park Service. The Department of Transportation will issue the deed conveying park lands or interests in lands to the State highway department concerned.

(d) Additional rights-of-way within Federal-aid highway rights-of-way:

(1) Rights-of-way granted under the provisions of 23 U.S.C. shall be used for highway purposes only and the grantee shall not authorize any other uses. The Director, National Park Service, may as a term and condition of the grant, retain the right to grant additional rights-of-way within the highway right-of-way which do not conflict with highway purposes.

SPECIAL CONDITIONS OF RIGHT-OF-WAY PERMIT

1. No member of, or delegate to, Congress or Resident Commissioner shall be admitted to any share or part of this permit or to any benefit that may arise herefrom but this restriction shall not be construed to extend to this permit if made with a corporation or company for its general benefit.

2. Water rights perfected during the term of this contract shall be perfected in the name of the United States.

3. This permit may be terminated by the Director, upon breach of any of the conditions to which it is subject.

4. This permit may be terminated at the discretion of the Director, National Park Service. (Include this condition if the applicable statutory authority provides for such revocability).

5. That the right-of-way hereby granted is subordinate to other uses of the land by the United States, or its licensees, lessees, permittees, or grantees, for federally supported programs or projects. This right-of-way is granted subject to the express condition and covenant that it will be modified, adapted, or discontinued if such modification, adaptation or discontinuance is found by the Director of the National Park Service to be necessary in connection with the use or construction of a federally supported program or project, and that the grantee will comply at its own expense with any findings or requirements of the Director of the National Park Service, including any required readjustment, relocation, or removal of its facilities, and will hold the United States, its licensees, permittees, or grantees, free from all liability and expense in connection with such compliance. If the land over which this right-of-way is granted is transferred to another Federal or State agency, in conjunction with federally supported programs or projects and the right-of-way has not been modified, adapted or discontinued by the Director of the National Park Service, then such Federal or State agency may require that the grantee will comply at its own expense with any findings or requirements of the Federal or State agency, including any required readjustment, relocation, or removal of its facilities, and the grantee will hold the United States, its licensees, permittees, or grantees, free from all liability and expense in connection with such compliance.

Consumer and Marketing Service

[7 CFR Part 931]

FRESH BARTLETT PEARS GROWN IN OREGON AND WASHINGTON

Proposed Limitation of Handling

Consideration is being given to the following proposal, which would limit the handling of fresh Bartlett pears by establishing grades, sizes, and packs of containers recommended by the Northwest Fresh Bartlett Pear Marketing Committee, established pursuant to the marketing agreement and Order No. 931 (7 CFR Part 931), regulating the handling of fresh Bartlett pears grown in Oregon and Washington. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than the seventh day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The recommendations of the committee reflect its appraisal of the crop and current and prospective market conditions. Shipments of Bartlett pears from the production area are currently being made subject to grade, size, and pack of container limitations which became effective August 9, 1971 (36 F.R. 14311). The grade and size requirements specified herein are the same as those in effect during the period August 9, through September 12, 1971. The committee reported that the continuation of such regulation, as herein specified, is necessary to prevent the handling on and after September 13, 1971, of any Bartlett pears of lower grades and smaller sizes than those herein specified, so as to provide consumers with good quality fruit, consistent with the overall quality of the crop, while maximizing returns to producers pursuant to the declared policy of the act.

Such proposal reads as follows:

§ 931.306 Bartlett Pear Regulation 6.

(a) Order: During the period September 13, 1971, through June 30, 1972, no handler shall handle any lot of Bartlett pears unless such pears meet the following applicable requirements, or are handled in accordance with subparagraph (4) or (5) of this paragraph:

(1) Minimum grade and size requirements: Such pears grade at least U.S. No. 1, and be of a size not smaller than 165 size when packed in the "standard western pear box", the "L.A. lug", or their carton equivalents, or in "tight-filled" containers, or be at least 2¼ inches in diameter when packed in the "western lug" or in containers containing at least 14 pounds, net weight, but not more than 15 pounds, net weight, of pears: *Provided*, That pears which grade at least U.S. No. 2 which are not smaller than the 120 size, or not smaller than the 150 size for the Red Bartlett variety, may be handled if they are packed in the "standard western pear box", the "L.A. lug", or their carton equivalents; or if they are not smaller than 2¼ inches in diameter they may be handled if packed in the "western lug" or in containers containing at least 14 pounds, net weight, but not more than 15 pounds, net weight, of pears.

(2) Pack of container requirements: Such pears are packed in the "standard western pear box", the "L.A. lug" or their carton equivalents, in "tight-filled" containers, in containers containing at least 14 pounds, net weight, but not more than 15 pounds, net weight, of pears, or in containers having a capacity equal to or greater than the "western lug".

(3) Special inspection requirements for minimum quantities: During the aforesaid period any handler may ship on any conveyance up to but not to exceed 200 containers (of those types specified herein) of pears without regard to the inspection requirements of § 931.55 under the following conditions: (i) Each handler desiring to make shipment of pears pursuant to this subparagraph shall first apply to the committee on forms furnished by the committee for permission to make such shipments. The application form shall provide a certification by the shipper that all shipments made thereunder during the marketing season shall meet the marketing order requirements, that he agrees such shipments shall be subject to spot check inspection, and that he agrees to report such shipments at time of shipment to the committee on forms furnished by the committee, showing the car or truck number and destination; and (ii) on the basis of such individual reports, the committee shall require spot check inspection of such shipments.

(4) Special purpose shipments: Notwithstanding any other provision of this section, any shipment of pears in gift packages may be handled without regard to the provisions of this paragraph, of § 931.41 (Assessments), and of § 931.55 (Inspection and certification).

(5) Notwithstanding any other provision of this section, any individual shipment of pears which meets each of the following requirements may be handled without regard to the provisions of this paragraph, of § 931.41 (Assessments), and of § 931.55 (Inspection and certification):

(i) The shipment consists of pears sold for home use and not for resale;

(ii) The shipment does not, in the aggregate, exceed 500 pounds, net weight, of pears; and

(iii) Each container is stamped or marked with the handler's name and address and with the words "not for resale" in letters at least one-half inch in height.

(b) Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order; "U.S. No. 1," "U.S. No. 2," and "size" shall have the same meaning as when used in the U.S. Standards for Summer and Fall Pears (§§ 51.1260–51.1280 of this title); "120 size," "150 size," and "165 size" shall mean that the pears are of a size which, as indicated by the size number, will pack, in accordance with the sizing and packing specifications of a standard pack, as specified in said U.S. Standards, 120, 150, or 165 pears, respectively, in a standard western pear box (inside dimensions 18 inches long by 11½ inches wide by 8½ inches deep); the term "L.A. lug" shall mean a container with inside dimensions of 5¾ by 13½ by 16⅛ inches; the term "western lug" shall mean a container with inside dimensions of 7 by 11½ by 18 inches; and the term "tight-filled" shall mean that the pears in any container shall have been well settled by vibration, according to approved and recognized methods.

Dated: August 19, 1971.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[7 CFR Part 966]

[Docket No. AO–265–A3]

TOMATOES GROWN IN FLORIDA

Revised Notice of Hearing on Proposed Amendment of Marketing Agreement and Order

A notice of a hearing with respect to proposed amendment of the Florida tomato marketing order was published in the FEDERAL REGISTER of April 28, 1971 (36 F.R. 7969). At the request of attorneys representing importers of tomatoes, the hearing was postponed (36 F.R. 9874). The aforesaid notice is hereby revised and amended to read as follows:

Notice is hereby given of a public hearing to be held in the Auditorium of the Florida Fruit and Vegetable Association, 4401 East Colonial Drive, Orlando, FL, beginning at 9 a.m., local time, October 4, 1971, with respect to proposed amendment of Marketing Agreement No. 125 and Order No. 966, both as amended (7 CFR Part 966), hereinafter referred to as the "order," regulating the handling of tomatoes grown in the production area. The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing formulation of marketing agreements and marketing orders, as amended (7 CFR Part 900).

The hearing will provide an opportunity to collect evidence with which to reevaluate the basis and method for regulating the handling of tomatoes differently for different stages of maturity. Such authority, now provided in § 966.52, has been used on a number of occasions in past seasons to impose different minimum size limitations on shipments of Florida grown mature green tomatoes than those imposed on tomatoes of more advanced maturity. On these occasions, identical minimum size limitations were imposed on imported tomatoes as required by section 608e–1 of the act. This hearing will allow all interested parties to present pertinent evidence so that all pertinent issues as they relate to the marketing order, the regulations issued pursuant thereto and the procedures utilized in recommending and issuing the regulations can be fully heard, considered, and resolved. The record of this hearing will also be available to the Secretary for consideration in connection with the issuance of future regulations under the act, the present order, or the order as it may be amended as a result of this hearing.

The proposed amendments to the marketing order, set forth below, have not received the approval of the Secretary of Agriculture.

Proposal No. 1. Amend § 966.51 of the order as follows:

§ 966.51 Recommendations for regulations.

(a) The committee may recommend regulations to the Secretary pursuant to § 966.52 after consideration of the factors specified in paragraph (b) of this section.

(b) In making its recommendations the committee shall give due consideration to the following factors:

(1) Market prices for tomatoes by maturity, grades, and sizes for production area tomatoes and tomatoes from competing areas;

(2) Estimated supplies within the production area and from competing sources, by maturity, grades, and sizes;

(3) Estimated effect on shipments, assuming alternative maturity, grade, or size requirements, or combinations thereof; and

(4) Any other relevant factors which may influence tomato marketing or prices.

(c) Each recommendation for regulations as are provided for in § 966.52, together with the committee's reason and supporting data or other material for such recommendation, shall be promptly submitted to the Secretary.

Proposal No. 2. Amend § 966.52 of the order as follows:

§ 966.52 Issuance of regulations.

The Secretary shall limit the handling of tomatoes whenever he finds from the recommendation and information submitted by the committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act. Such regulation may:

(a) Limit, in any or all portions of the production area, the handling of particular grades, sizes, qualities (including maturity as a factor of grade or quality), or packs of any or all varieties of tomatoes, during any period; or

(b) Limit the handling of particular grades, sizes, qualities, or packs of tomatoes differently for different varieties, for different stages of maturity (including lesser minimum size specifications for mature green tomatoes than for those of greater maturity), for different portions of the production area, for different containers, for different markets, and for different purposes specified in § 966.54, or any combination of the foregoing, during any period; or

* * * * *

Or in the alternative:

§ 966.52 Issuance of regulations.

The Secretary shall limit the handling of tomatoes whenever he finds from the recommendation and information submitted by the committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act. Such regulation may:

(a) Limit, in any or all portions of the production area, the handling of particular grades, sizes, qualities (including maturity as a factor of grade or quality), or packs of any or all varieties of tomatoes, during any period; or

(b) Limit the handling of particular grades, sizes, qualities, or packs of tomatoes differently for different varieties, for different portions of the production area, for different containers, for different markets, and for different purposes specified in § 966.54, or any combination of the foregoing, during any period; or

[7 CFR Part 981]

ALMONDS GROWN IN CALIFORNIA

Proposed Salable, Reserve, and Export Percentages for 1971–72 Crop Year

Notice is hereby given of a proposal to establish, for the 1971–72 crop year, which began July 1, 1971, salable, reserve, and export percentages of 55, 45, and 100 percent, respectively, applicable to California almonds. The proposed percentages would be established in accordance with the provisions of the marketing agreement as amended, and Order No. 981, as amended (7 CFR part 981), regulating the handling of almonds grown in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposal was unanimously recommended by the Almond Control Board.

All persons who desire to file written data, views, or arguments in connection with the aforesaid proposal should file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, to be received not later than 8 days after publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during official hours of business (7 CFR 1.27(b)).

The proposed percentages are based upon the following estimates (kernel weight basis) for the crop year beginning July 1, 1971:

(1) Production of 142 million pounds;

(2) Trade demand for domestic almonds of 71 million pounds (which is based on a total demand of 71.5 million pounds less 500,000 pounds of imports for consumption);

(3) Handler carryover of 29.4 million pounds on July 1, 1971;

(4) Desirable handler carryover of 36.5 million pounds on June 30, 1972;

(5) Trade demand and desirable handler carryover requirements for 1971 crop almonds of 78.1 million pounds (items 2 plus 4 minus 3);

(6) 63.9 million pounds of reserve almonds (item 1 minus item 5);

(7) Export requirements of 60 million pounds of reserve almonds;

(8) Reserve carryover of 5.6 million pounds on June 30, 1972, needed for export during the period July 1, 1972, through August 31, 1972 (minus 1.7 million pounds of reserve carry-in on June 30, 1971); and

(9) Total export requirements of 63.9 million pounds from 1971 crop (item 7 plus item 8).

On the basis of the foregoing estimates, salable, reserve, and export percentages of 55, 45, and 100 percent, respectively, appear to be appropriate for the 1971–72 season.

The proposal is as follows:

§ 981.221 Salable, reserve, and export percentages for almonds during the crop year beginning July 1, 1971.

The salable, reserve, and export percentages during the crop year beginning July 1, 1971, shall be 55, 45, and 100 percent, respectively.

Dated: August 19, 1971.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Consumer and Marketing Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration

[20 CFR Part 404]

[Regs. No. 4]

FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

Procedures, Notice of Right of Reconsideration and Waiver

Notice is hereby given, pursuant to the Administrative Procedure Act, as amended (5 U.S.C. 553) that amendments to regulations (20 CFR Part 404) as set forth below in tentative form are proposed by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments would provide that: (1) Notice of the right to reconsideration will be given in all cases when an initial determination is made, and (2) all persons to whom payment of more than the correct amount has been made will be advised of the statutory provisions for waiver of adjustment or recovery.

Prior to final adoption of the proposed amendments, consideration will be given to any data, comments, objections, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue SW., Washington, DC 20201, within a period of 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 3193, 330 Independence Avenue SW., Washington, DC 20201.

The proposed amendments are to be issued under the authority contained in sections 204, 205, 1102, 1870, and 1871; 53 Stat. 1368, as amended; 49 Stat. 647, as amended; 79 Stat. 331, as amended; section 5 of Reorganization Plan No. 1 of 1953, 67 Stat. 18, 631; 42 U.S.C. 404, 405, 1302, 1395gg, and 1395hh.

Dated: July 20, 1971.

ROBERT M. BALL,
Commissioner of Social Security.

Approved: August 18, 1971.

JOHN C. VENEMAN,
Acting Secretary of Health, Education, and Welfare.

Regulations No. 4 of the Social Security Administration (20 CFR Part 404), are further amended as follows:

1. Section 404.907 is amended to read as follows:

§ 404.907 Notice of initial determination.

Written notice of an initial determination shall be mailed to the party to the determination at his last known address, except that no such notice shall be required in the case of a determination that a party's entitlement to benefits has ended because of such party's death (see § 404.905(d)). If the initial determination disallows, in whole or in part, the application or request of a party, or if the initial determination is to the effect that a husband, widower, or parent was not receiving the requisite support from an insured individual, or that a party's entitlement to benefits has ended, or that a reduction, deduction, or adjustment is to be made in benefits or a lump sum, or that a period of disability established for a party has terminated, the notice of the determination sent to the party shall state the basis for the determination. Such notice shall also inform the party of the right to reconsideration (see § 404.910). Where more than the correct amount of payment has been made, see § 404.502a.

2. A new § 404.502a is added to read as follows:

§ 404.502a Notice of right to waiver consideration.

Whenever an initial determination is made that more than the correct amount of payment has been made, notice of the provisions of sections 204(b) and 1870(c) of the Act regarding waiver of adjustment or recovery shall be sent to the overpaid individual and to any other individual against whom adjustment or recovery of the overpayment is to be effected (see § 404.506).

[Regs. No. 5]

FEDERAL HEALTH INSURANCE FOR THE AGED

Medicare Cost Reporting Periods and Due Dates

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U.S.C. 552 et seq.) that the amendments to the regulations set forth in tentative form below are proposed by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments would require providers to align their Medicare cost reporting periods with their Internal Revenue Service income tax or informational return reporting periods and to adopt the Internal Revenue Service due dates as the due dates for filing Medicare cost reports. The proposed amendments would be effective for cost reporting periods beginning after December 31, 1971.

Prior to the final adoption of the proposed amendments to the regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue SW., Washington, DC 20201, within a period of 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 3193, 330 Independence Avenue SW., Washington, DC 20201.

The proposed regulations are to be issued under the authority contained in sections 1102, 1815, and 1871, 49 Stat. 647, as amended, 79 Stat. 296, 322, and 331, as amended; 42 U.S.C. 1302, 1395 et seq.

Dated: July 30, 1971.

ROBERT M. BALL,
Commissioner of Social Security.

Approved: August 18, 1971.

JOHN G. VENEMAN,
Acting Secretary of Health, Education, and Welfare.

Regulations No. 5 of the Social Security Administration (20 CFR Part 405) are further amended as follows:

1. Paragraph (b) of § 405.406 is revised to read as follows:

§ 405.406 Financial data and reports.

* * * * *

(b) Cost reports will be required from providers on an annual basis. In the interpretation and application of the principles of reimbursement, the fiscal intermediaries will be an important source of consultative assistance to providers and will be available to deal with questions and problems on a day-to-day basis.

2. Section 405.453 is amended by adding paragraph (f) to read as follows:

§ 405.453 Adequate cost data and cost finding.

* * * * *

(f) *Cost reports.* For cost reporting purposes, the health insurance program requires each provider of services to submit periodic reports of its operations which generally cover a consecutive 12-month period of the provider's operations. Amended cost reports to revise cost report information which has been previously submitted by a provider may be permitted or required as determined by the Social Security Administration.

(1) *Cost reporting periods beginning before January 1, 1972.* For initial cost reporting periods beginning before January 1, 1972, the reporting period covered by a provider's cost report need not coincide with any reporting period the provider uses for other purposes. Subsequent reports for reporting periods beginning before January 1, 1972, must generally cover 12-month periods of operation which end as of the same date as the period covered by the initial cost report.

(2) *Cost reporting periods beginning after December 31, 1971.* For cost reporting periods beginning after December 31, 1971, a provider of services must employ for health insurance cost reporting purposes the same reporting period the provider uses in reporting its annual operations for income tax or informational purposes to the Internal Revenue Service, except that a provider which is not required to report annually to the Internal Revenue Service may continue to prepare its health insurance cost reports in accordance with subparagraph (1) of this paragraph.

(3) *Transitional cost reports.* A provider of services which must adjust its health insurance cost reporting period to coincide with its annual Internal Revenue Service reporting period, as required by subparagraph (2) of this paragraph, shall effectuate this adjustment by submitting a transitional cost report.

(4) *Cost reports—terminated providers and changes of ownership.* A provider which voluntarily or involuntarily ceases to participate in the health insurance program or experiences a change of ownership must file a cost report for that period under the program beginning with the first day not included in a previous cost reporting period and ending with the effective date of termination of its provider agreement or change of ownership.

(5) *Due dates for cost reports.* (i) Cost reports for cost reporting periods beginning before January 1, 1972, and cost reports from providers not required to file an annual report of their operations with the Internal Revenue Service are due on or before the last day of the third month following the close of the period covered by the report.

(ii) Cost reports for cost reporting periods beginning after December 31, 1971, from providers required to file an annual report of their operations with the Internal Revenue Service must be filed on or before the day on which the provider's annual report of operations is initially due with the Internal Revenue Service.

(iii) The cost report from a provider which voluntarily or involuntarily ceases to participate in the health insurance program or experiences a change of ownership is due no later than 45 days following the effective date of the termination of the provider agreement or change of ownership.

3. Paragraph (h) of § 405.454 is deleted.

§ 405.454 Payments to providers.

[Reg. No. 5]

FEDERAL HEALTH INSURANCE FOR THE AGED

Assets Transferred Between Governmental Agencies, and Assets Donated by One Provider to Another

Notice is hereby given pursuant to the Administrative Procedure Act (5 U.S.C. 552 et seq.) that the regulation set forth in tentative form below is proposed by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. The proposed regulation relates to the depreciable basis for assets transferred from one governmental agency to another or used under the health insurance program by one provider and then donated to another.

Prior to final adoption of the proposed regulation, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue SW., Washington, DC 20201, within a period of 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 3193, 330 Independence Avenue SW., Washington, DC 20201.

The proposed regulation is to be issued under the authority contained in sections 1102, 1814(b), 1861(v), 1871, 49 Stat. 647 as amended, 79 Stat. 296, 79 Stat. 322, 79 Stat. 331, 42 U.S.C. 1302, 1395 et seq.

Dated: July 22, 1971.

ROBERT M. BALL,
Commissioner of Social Security.

Approved: August 18, 1971.

JOHN G. VENEMAN,
Acting Secretary of Health, Education, and Welfare.

Subpart D of Regulations No. 5 of the Social Security Administration (20 CFR 405.401 et seq.) is amended by adding paragraphs (i) and (j) to § 405.415, to read as follows:

§ 405.415 Depreciation: allowance for depreciation based on asset costs.

* * * * *

(i) *Intergovernmental transfer of facilities.* The basis for depreciation of assets transferred under appropriate legal authority from one governmental entity to another shall be as follows:

(1) The historical cost incurred by the present owner in acquiring the asset under a bona fide sale. The historical cost shall not exceed the lower of current reproduction cost adjusted for straight-line depreciation over the life of the asset to the time of the purchase or fair market value at the time of the purchase.

(2) The fair market value at the time of donation under a bona fide donation of the asset (subject to the limitations set forth under paragraph (j) of this section). An asset is considered donated when a governmental entity acquires the asset without assuming the functions for which the transferor used the asset or making any payment for it in the form of cash, property, or services.

(3) If neither subparagraph (1) nor (2) of this paragraph applies, e.g., the transfer was solely to facilitate administration or to reallocate jurisdictional responsibility or the transfer constituted a taking over in whole or in part of the function of one governmental entity by another governmental entity, the basis for depreciation shall be:

(i) With respect to an asset on which the transferor has claimed depreciation under the health insurance program, the transferor's basis under the health insurance program prior to the transfer. The method of depreciation used by the transferee for the transferred asset shall be the same as that used by the transferor.

(ii) With respect to an asset on which the transferor has not claimed depreciation under the health insurance program, the cost incurred by the transferor in acquiring the asset (not to exceed the basis that would have been recognized had the transferor participated in the health insurance program) less depreciation calculated on the straight-line basis over the life of the asset to the time of transfer.

(j) *Basis of assets used under the program and donated to a provider.* Where an asset that has been used or depreciated under the program is donated to a provider, the basis of depreciation for the asset shall be the lesser of the fair market value or the net book value of the asset in the hands of the owner last participating in the program. The net book value of the asset is defined as the depreciable basis used under the program by the asset's last participating owner less the depreciation recognized under the program.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

[24 CFR Part 32]

[Docket No. R–71–133]

ASSISTANCE FOR NEW COMMUNITIES

Notice of Proposed Rule Making; Correction

On July 31, 1971, at 36 F.R. 14205, the Department published a notice of proposed rule making in the above-styled proceeding. The preamble to that notice provided, at the end of the second paragraph, for public inspection of all comments received at the HUD Information Center.

The provision is being changed and all comments will be available for public inspection in the office of the Rules Docket Clerk, Office of General Counsel, Room 10256, Department of HUD, 451 Seventh Street SW., Washington, DC 20410, as otherwise provided in the preamble.

GEORGE ROMNEY,
Chairman, Community Development Corporation, Secretary of Housing and Urban Development.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 71–SW–46]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a 700-foot transition area at Natchitoches, La.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, TX 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (36 F.R. 2140), the following transition area is added:

NATCHITOCHES, LA.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Natchitoches Municipal Airport (latitude 31°44'30'' N., longitude 96°06'20'' W.) and within 3.5 miles each side of the 177° bearing from the Natchitoches, La., radio beacon, extending from the 5-mile-radius zone to 11.5 miles south of the radio beacon.

The proposed transition area will provide controlled airspace for aircraft executing the proposed approach procedure at Natchitoches, La.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on August 12, 1971.

R. V. REYNOLDS,
Acting Director, Southwest Region.

[FR Doc.71–12370 Filed 8–24–71;8:46 am]

[14 CFR Part 71]

[Airspace Docket No. 71–WE–42]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Riverside, Calif., transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 5651 West Manchester Avenue, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 5651 West Manchester Avenue, Los Angeles, CA 90045.

A review of the airspace requirements for the Orange County Airport and El Toro MCAS has revealed that additional 700-foot transition area is required. This airspace is necessary to provide more efficient use of radar vectoring procedures to the final courses for the ILS Rwy 19R and VOR Rwy 19R instrument approach procedures for Orange County and to provide for simultaneous operations at Orange County Airport and El Toro MCAS.

In consideration of the foregoing, the FAA proposes the following airspace action.

In §71.181 (36 F.R. 2140) the description of the Riverside, California transition area is amended as follows:

Delete the 700-foot portion of the transition area and substitute the following therefor "That airspace extending upward from 700 feet above the surface bounded by a line beginning at latitude 34°10'00'' N., longitude 117°59'00'' W., to latitude 34°10'00'' N., longitude 117°01'00'' W., to latitude 33°50'00'' N., longitude 117°01'00'' W., to latitude 33°42'30'' N., longitude 116°56'30'' W., to latitude 33°38'00'' N., longitude 117°09'00'' W., to latitude 33°51'00'' N., longitude 117°24'30'' W., to latitude 33°46'00'' N., longitude, 117°45'00'' W., to latitude 33°56'00'' N., longitude 117°53'00'' W., to latitude 33°56'00'' N., longitude 117°59'00'' W., thence to point of beginning; • • •".

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, Calif., on August 16, 1971.

ARVIN O. BASNIGHT,
Director, Western Region.

Hazardous Materials Regulations Board

[49 CFR Part 179]

[Docket No. HM–90; Notice No. 71–24]

TRANSPORTATION OF HAZARDOUS MATERIALS

Specifications for Tank Cars

The Hazardous Materials Regulations Board is considering amendment of Part 179 of the Hazardous Materials Regulations to update tank car specification requirements and to add new tank car specifications. Suitable corresponding changes would be made to Part 173 for commodities when the amendment is published. These proposed amendments are almost entirely based on requests submitted by the Association of American Railroads (AAR). These requests are based largely on experience gained under a very significant number of outstanding special permits.

These proposals are set forth in the type of detailed specifications that have been used for many years in this field. As has been mentioned frequently, it is the Board's intention in the future to prescribe minimum performance type requirements rather than detailed specification requirements. However, in view of the substantial amount of time and effort of both the industry and the Federal Railroad Administration that can be saved through the elimination of many special permits, it is desirable to issue this proposal in the traditional specification form rather than to let the existing situation stand while performance specifications are developed.

The major changes proposed are discussed in this preamble. Numerous editorial changes relating to clarification of text and updating of references are not specifically highlighted.

Section 179.2(a)(4) would be amended to indicate that "DOT" identifies the Department of Transportation. Section 179.5 would be revised to assure completeness of Bureau of Explosives and AAR Mechanical Division files. The Department does not maintain such records.

In § 179.6, reference would be made to Appendix R of the AAR Specifications for Tank Cars. Section 179.12–2(b) would permit a 20 percent reduction in carbon steel pipe, if welded, and would reflect provisions that have been incorporated in other tank car standards for many years.

Section 179.100, Pressure Tank Car Tanks, in addition to updating section cross-references and incorporating references to various appendices of the AAR Specifications for Tank Cars, would require, at subsection 4, that the jacket covering insulation be of a thickness not less than 11 gage. At subsection 6, more stringent requirements would be added to assure that tank plates are not reduced during forming below specification requirements. Also the welded joint efficiency factor change to 1.0 would recognize improvements in welding and weld inspection over the years in addition to the fact that all such tank welds are 100 percent radiographed. In subsection 7, the tables would be revised to update the requirements by deleting obsolete material specifications and by adding new specifications currently in use under special permits. In subsection 10, the phrase "postweld heat treatment" would be substituted for the phrase "stress relieving" to agree with terminology used in other codes such as the ASME Code. This change is also repeated later in the text. In subsection 12, minimum requirements would be added for the size and number of studs and the minimum thickness of material for dome housings. Subsection 13 would be amended by providing for the addition of a sump or siphon to the bottom of a tank. Subsection 14 would define more clearly the limitation on extreme projection of bottom outlets on cars. Paragraph (a)(5) would require a screw plug on closure which has been standard approved practice, but never specified heretofore. Subsection 15(a) would be changed to be consistent with § 179.100–1 which includes valve flow rating pressures for safety-relief valves. Subsection 15(b) would require the safety-relief valve on specification 105A500W tanks to be set for a start-to-discharge pressure of 360 p.s.i. in keeping with current practice. Subsection 16 would specify use of reinforcing pads to distribute stresses and to prevent punctures and tearing of a tank by attachments. Subsection 21 would require a water capacity stencil on a pressure tank to provide additional information to loading personnel to prevent overfilling.

Section 179.101 would provide for the construction of tank cars to new specification 114A400W. At the same time, provisions would be made for specifying valve flow rating pressure, for use of white paint in place of "reflecting paint", and for bottom outlets on certain cars.

Section 179.102 would be amended to include new requirements for cars in service transporting liquefied carbon dioxide, liquefied flammable gases, vinyl chloride, inhibited vinyl methyl ether, ethylene oxide, anhydrous hydrofluoric acid, inhibited acrolein, metallic sodium, stabilized sulfur trioxide, flammable liquids, n.o.s., and unsymmetrical dimethyl hydrazine. Provisions for the alternate setting of safety-relief valves on butadiene and vinyl chloride tank cars, for flow rating data, and for gasketing are included.

Section 179.103 is proposed to be amended to specify minimum requirements for a protective housing with cover, to eliminate the requirement for excess flow valves when the lading is nonflammable, and to broaden the application of § 179.103–4 to safety-relief devices and pressure regulators. Subsection 5 would be added to provide specific requirements for approved bottom outlet valves.

Section 179.200, general specifications applicable to nonpressure tank car tanks, would be amended to make substantive changes in subsections 3, 4, 6, 7, 8, 10, 15, 16, 17, 19, and 24. Subsection 4 would require insulation on tanks to be covered with a metal jacket not less than 11 gage. Subsection 6 would be clarified to assure that thickness of tank plate is not reduced during forming below specification requirements. Also the weld joint efficiency factor would be 1.0 for seamless heads of all tanks. In subsection 7, the tables would be revised to update the requirements by deleting obsolete material specifications and by adding new specifications currently in use under special permits. Subsection 8 would be amended to require 2:1 ellipsoidal heads for class 111A tank car tanks, except for internal compartment heads. Subsection 10 would specify that welding to certain fittings is not authorized. Subsection 15 would be amended to delete reference to AAR specification M–402, Grade 35018, malleable iron castings. Subsection 16 would require the application of shutoff valves at specific locations on the tank when top loading and discharge devices are installed, would set design parameters for sumps and siphon bowls, would provide protection for certain fittings, and would specify minimum requirements for protective housings. Subsection 17 would define more clearly the design criteria and a limitation on extreme projection of bottom outlets on cars with truck centers less than or greater than 60 feet 6 inches. Subsection 19 would specify use of reinforcing pads to distribute stresses and to prevent punctures and tearing of a tank by attachments. Subsection 21 would add a paragraph (b) to provide an abbreviated marking for class 111A tank car tanks by omitting the suffix numeral.

Section 179.201–1 would be amended to provide for the construction of tank cars to new specifications 111A100ALW, 111A60W2, 111A60W5, 117A340W, 120A300W, 111A60W1, 111A60ALW2, 111A100ALW1, 111A100ALW2, and 111A60W7. Subsection 3 would be changed to make distinct the requirements applying to rubber-lined tanks and tanks lined with material other than rubber. Subsections 4, 5, and 6 would be changed to adopt by reference the requirements specified in Appendix M of AAR Specifications for Tank Cars. Subsection 7 would require safety relief devices to comply with § 179.200–18. Subsection 9 would be amended to indicate that an excess flow valve is not needed if the gaging device does not allow passage of the lading when the device is in operation.

Section 179.202 is also proposed to be changed. Most revisions would be editorial in nature. Subsection 9 would be amended to add requirements for sodium chlorite. Subsections 12 would provide for a frangible disc to be made from other materials than lead. In subsection 14, authorization for use of Type 347 stainless steel would be deleted and addition of special safety valve requirements would be made. Subsection 18 would be amended to prohibit the use of copper or copper bearing alloys. Subsections 20, 21, and 22 would be added to provide special commodity requirements for hydrofluoric acid, nitric acid, and mixed acids.

In §§ 179.300–6 and 179.300–8 more stringent requirements would be added to assure that tank plates are not reduced during forming below specification requirements. In subsection 7 the table would be revised to update the requirements by deleting obsolete material specifications and by adding new specifications currently in use under special permits. In subsection 17 the tests for frangible discs of safety vents would be required to comply with Appendix A of the AAR Specifications for Tank Cars.

The change to § 179.302 would rearrange the commodities in alphabetical order and would consolidate the family of aluminum alkyls (pyroforic materials) under the generic description, "pyroforic liquid, n.o.s."

In consideration of the foregoing, it is proposed to amend 49 CFR Part 179 as follows:

(A) In Part 179 Table of Contents, Subpart C and §§ 179.200, 179.300, and 179.302 would be amended to read as follows:

Subpart C—Specifications for Pressure Tank Car Tanks (Classes DOT–105, 109, 112, and 114)

Secs.

179.200 General specifications applicable to nonpressure tank car tanks (Classes DOT–103, 104, 111).

179.300 General specifications applicable to multiunit tank car tanks designed to be removed from car structure for filling and emptying (Classes DOT–106, and 110).

179.302 Special commodity requirements for multiunit tank car tanks.

(B) In § 179.2, paragraph (a)(4) would be amended to read as follows:

§ 179.2 Definitions and abbreviations.

(a) • • •

(4) "DOT" and "Department" means Department of Transportation.

• • • • •

(C) Section 179.5 would be amended to read as follows:

§ 179.5 Certificate of construction.

(a) Except as provided in paragraph (b) of this section, before a tank car is placed in service, the party assembling the completed car shall furnish a Certificate of Construction, From AAR 4–2 to the owner, the Bureau of Explosives (as required by paragraph (d) of this section), and the Secretary, Mechanical Division, AAR, certifying that the tank, equipment, and car comply with all the requirements of the specification.

(b) Before a tank of Class DOT–106A, 107A, or 110A is placed in service, the builder must furnish a Certificate of Construction, Form AAR 4–2 to the owner, the Bureau of Explosives (as required by paragraph (d) of this section), and the Secretary, Mechanical Division, AAR, in addition to a Certificate of Inspector's Report as required in §§ 179.300–20 and 179.500–18 in prescribed form certifying that the tank and appurtenances comply with all the requirements of the specifications.

(c) If the owner elects to furnish the appurtenances such as valves and safety devices, the owner shall furnish to the Bureau of Explosives, and to the Secretary, Mechanical Division, AAR, a report in prescribed form, certifying that the appurtenances comply with all the requirements of the specifications.

(d) When cars or tanks which are covered on one application and are identical in all details are built in series, one certificate shall suffice for each series when submitted to the Secretary. One copy of the Certificate of Construction must be furnished to the Bureau of Explosives for each car number or consecutively numbered group or groups covered by the original application.

(D) Section 179.6 would be amended to read as follows:

§ 179.6 Repairs and alterations.

For procedure to be followed in making repairs or alterations, see Appendix R of the AAR Specifications for Tank Cars.

(E) In § 179.12–2, paragraph (b) would be amended to read as follows:

§ 179.12–2 Materials and dimensions.

• • • • •

(b) Piping must be not less than 2 inches IPS. Tubing must be not less than 2⅜ inches outside diameter and the wall thickness must be at least equivalent to the corresponding pipe size. Material specifications and nominal wall thickness must be as follows:

Material	Nominal thickness minimum [1]		Specifications ASTM
	2 inches	Over 2 inches	
Carbon steel	0.175	Schedule 40	A53–69a, A192–69, A178–70.
Alloy steel	Schedule 40S	Schedule 40S	A312–70, A269–69.
Aluminum	Schedule 80	Schedule 80	B241–69, B210–70, B221–69.
Nickel	Schedule 40	Schedule 40	B161.70.

[1] Thickness must be increased 25 percent or to next higher schedule, whichever is less, when threaded joints are used.

• • • • •

(F) Subpart C heading would be amended to read as follows:

Subpart C—Specifications for Pressure Tank Car Tanks (Classes DOT–105, 109, 112, and 114)

(G) In § 179.100–3 paragraph (a), the last sentence would be amended to read as follows: "Other openings in the tank are prohibited, except as provided in Part 173 of this chapter, §§ 179.100–14, 179.101–1(a) Table Note 11, § 179.102 or § 179.103." In § 179.100–4, paragraph (a) would be amended; in § 179.100–6, paragraph (a) would be amended; §§ 179.100–7 and 179.100–100 would be amended; in § 179.100–12, paragraphs (a) and (c) would be amended; in § 179.100–13, paragraph (e) would be added; in § 179.100–14, paragraphs (a) (1) and (3) would be amended, paragraph (a)(5) would be redesignated (a)(6), a new paragraph (a)(5) would be added; in § 179.100–15, paragraphs (a), (b), and (c) would be amended; in § 179.100–16, the heading would be amended, paragraph (a) would be redesignated paragraph (b), a new paragraph (a) would be added; in § 179.100–20 paragraph (a) table, the second entry would be amended to read: "Material ---------- ASTM A515–70"; in § 179.100–21, paragraph (b) would be added to read as follows:

§ 179.100 General specification applicable to pressure tank car tanks.

§ 179.100–4 Insulation.

(a) If insulation is applied, the tank shell and manway nozzle must be insulated with an approved material. The entire insulation must be covered with a metal jacket of a thickness not less than 11 gage (0.1196 inch) nominal (manufacturers' standard gage) and flashed around all openings so as to be weathertight. The exterior surface of a carbon steel tank, and the inside surface of a carbon steel jacket must be given a protective coating except that a protective coating is not required when foam-in-place insulation that adheres to the tank or jacket is applied.

• • • • •

§ 179.100–6 Thickness of plates.

(a) The wall thickness after forming of the tank shell and heads must not be less than that specified in § 179.101, nor that calculated by the following formula:

$$t = \frac{Pd}{2SE}$$

where:

d = Inside diameter in inches;
E = 1.0 welded joint efficiency; except for heads with seams = 0.9;
P = Minimum required bursting pressure in p.s.i.;
S = Minimum tensile strength of plate material in p.s.i., as prescribed in § 179.100–7;
t = Minimum thickness of plate in inches after forming.

• • • • •

§ 179.100–7 Materials.

(a) *Steel plate.* Steel plate materials used to fabricate tank shell and manway nozzle must comply with one of the following specifications with the indicated minimum tensile strength and elongation in the welded condition. The maximum allowable carbon content must be 0.31 percent when the individual specification allows carbon greater than this amount. The plates may be clad with other approved materials.

Specifications	Minimum tensile strength (p.s.i.) welded condition [1]	Minimum elongation in 2 inches (percent) welded condition (longitudinal)
ASTM A 515–69, Gr. 55	55,000	23
ASTM A 515–69, Gr. 60	60,000	25
ASTM A 515–69, Gr. 65	65,000	20
ASTM A 515, 69, Gr. 70	70,000	20
ASTM A 285–69, Gr. A	45,000	29
ASTM A 285–69, Gr. B	50,000	20
ASTM A 285–69, Gr. C	55,000	20
ASTM A 516–70, Gr. 55	55,000	23
ASTM A 516–70, Gr. 60	60,000	25
ASTM A 516–70, Gr. 65	65,000	20
ASTM A 516–70, Gr. 70	70,000	20
AAR TC128–70, Gr. A and B	81,000	19
ASTM A 537–69, Gr. A	70,000	23
ASTM A 302–69a, Gr. A	80,000	20

[1] Maximum stresses to be used in calculations.

(b) *Aluminum alloy plate.* Aluminum alloy plate material used to fabricate tank shell and manway nozzle must be suitable for fusion welding and must comply with one of the following specifications with its indicated minimum tensile strength and elongation in the welded condition.

Specifications	Minimum tensile strength (p.s.i.) 0 temper, welded condition [2] [3]	Minimum elongation in 2 inches (percent) 0 temper, welded condition (longitudinal)
ASTM B 209–70, Alloy 5052 [1]	25,000	18
ASTM B 209–70, Alloy 5083 [2]	38,000	16
ASTM B 209–70, Alloy 5086 [1]	35,000	14
ASTM B 209–70, Alloy 5154 [1]	30,000	18
ASTM B 209–67, Alloy 5254 [1]	30,000	18
ASTM B 209–70, Alloy 5454 [1]	31,000	18
ASTM B 209–67, Alloy 5652 [1]	25,000	18
ASTM B 209–70, Alloy 6061 [4]	[5] 24,000	[5] 5

[1] For fabrication, the parent plate material may be O, H112, or H32 temper, but design calculations must be based on minimum tensile strength shown.
[2] O temper only.
[3] Weld filler metal 5556 must not be used.
[4] Not authorized for tank shells, manways or domes.
[5] T6 temper only.
[6] Maximum stress to be used in calculations.

(c) All attachments welded to tank shell must be of approved material which is suitable for welding to the tank.

§ 179.100–10 Postweld heat treatment.

(a) After welding is complete, steel tanks and all attachments welded thereto must be postweld heat treated as a unit in compliance with the requirements of AAR Specifications for Tank Cars, Appendix W.

(b) For aluminum tanks, postweld heat treatment is prohibited.

§ 179.100–12 Manway nozzle, cover and protective housing.

(a) Manway nozzles must be of approved design of forged or rolled steel for steel tanks or of fabricated aluminum alloy for aluminum tanks, with access opening at least 18 inches inside diameter, or at least 14 inches by 18 inches obround or oval. Nozzle must be welded to the tank and the opening reinforced in an approved manner in compliance with the requirements of AAR Specifications for Tank Cars, Appendix E, Figure E10.

• • • • •

(c) Except as provided in § 179.103, protective housing of cast, forged or fabricated approved materials must be bolted to manway cover with not less than twenty ¾-inch studs. The shearing value of the bolts attaching protective housing to manway cover must not exceed 70 percent of the shearing value of bolts attaching manway cover to manway nozzle. Housing must have steel sidewalls not less than three-fourths inch in thickness and must be equipped with a metal cover not less than one-fourth inch in thickness that can be securely closed. Housing cover must have suitable stop to prevent cover striking loading and unloading connections and be hinged on one side only with approved riveted pin or rod with nuts and cotters. Openings in wall of housing must be equipped with screw plugs or other closures.

§ 179.100–13 Venting, loading and unloading valves, measuring and sampling devices.

• • • • •

(e) Bottom of tank shell may be equipped with a sump or siphon bowl welded or pressed into the shell. Such sumps or siphon bowls, if applied, are not limited in size and must be made of cast, forged, or fabricated metal. Each sump or siphon bowl must be of good welding quality in conjunction with the metal of the tank shell. When the sump or siphon bowl is pressed in the bottom of the tank shell, the wall thickness of the pressed section must not be less than that specified for the shell. The section of a circular cross section tank to which a sump or siphon bowl is attached need not comply with the out-of-roundness requirement specified in AAR Specifications for Tank Cars, Appendix W, W14.06. Any portion of a sump or siphon bowl not forming a part of cylinder of revolution must have walls of such thickness and be so reinforced that the stresses in the walls caused by a given internal pressure are no greater than the circumferential stress which would exist under the same internal pressure in the wall of a tank of circular cross section designed in accordance with § 179.100–6(a). In no case less than that specified in § 179.101–1(a).

§ 179.100–14 Bottom outlets.

(a) • • •

(1) On newly built and empty cars with truck centers through 60 feet, 6 inches, the extreme projection of the bottom washout equipment must be at least 12 inches above the top of rail on level track. On cars with truck centers greater than 60 feet, 6 inches, the minimum rail clearance must be in accordance with the graph in Appendix E of the AAR Specifications for Tank Cars.

• • • • •

(3) If the bottom washout nozzle extends 6 inches or more from shell of tank, a "V" groove must be cut (not cast) in the upper part of the nozzle at a point immediately below the lowest part of inside closure seat or plug to a depth that will leave wall thickness of nozzle at the root of the "V" not over one-fourth inch. Where nozzle is not a single piece, provision must be made for the equivalent of the breakage groove. The nozzle must be of a thickness to insure that accidental breakage will occur at or below the "V" groove or its equivalent. On cars without continuous center sills, the breakage groove or its equivalent must not be more than 15 inches below the tank shell. On cars with continuous center sills, the breakage groove or its equivalent must be above the bottom of the center sill construction.

• • • • •

(5) The closure of the washout nozzle must be equipped with a ¾-inch solid screw plug. Plug must be attached by at least a ¼-inch chain.

(6) Joints between closures and their seats may be gasketed with suitable material.

§ 179.100–15 Safety relief valves.

(a) The tank must be equipped with one or more safety relief valves of approved design, made of metal not subject to rapid deterioration by the lading. The safety relief valve, or valves, must be mounted on manway cover, except as provided in § 179.103. The total valve discharge capacity must be sufficient to prevent building up pressure in tank in excess of 82½ percent of the tank test pressure or 10 p.s.i. above the start-to-discharge pressure, whichever is higher. The start-to-discharge and vapor-tight pressures must comply with § 179.101 and must not be affected by any auxiliary closure or other combination. For certain commodities, alternate pressures are permitted (see § 179.102–11). See AAR Specifications for Tank Cars, Appendix A, for formula for calculating discharge capacity.

(b) When a safety relief valve is used in combination with a breaking pin device, the breaking pin device must be designed to fail at a pressure of 75 percent of the tank test pressure and safety relief valve must be set for a start-to-discharge pressure of 71 percent of the tank test pressure. However, for spec. DOT–105A500W tanks, the start-to-discharge pressure must be 360 p.s.i.

(c) When a safety relief valve is used in combination with a frangible disc, the frangible disc must be designed to burst at a pressure of 75 percent of the tank test pressure and the safety relief valve must be set for a start-to-discharge pressure of 71 percent of the tank test pressure, as prescribed in § 179.101. Provisions must be made to prevent any accumulation of pressure between the frangible disc and safety relief valve.

§ 179.100–16 Attachments.

(a) Reinforcing pads must be used between external brackets and shells if the attachment welds exceed 6 linear inches of ¼-inch fillet or equivalent weld per bracket or bracket leg. When reinforcing pads are used, they must not be less than one-quarter inch in thickness, have each corner rounded to a 1 inch minimum radius, and be attached to the tank by continuous fillet welds except for venting provisions. The ultimate shear strength of the bracket-to-reinforcing pad weld must not exceed 85 percent of the ultimate shear strength of the reinforcing pad-to-tank weld.

• • • • •

§ 179.100–21 Stenciling.

• • • • •

(b) Water capacity stencil is required.

(H) In § 179.101–1 paragraph (a), the table would be amended in its entirety to read as follows:

§ 179.101 Individual specification requirements applicable to pressure tank car tanks.

§ 179.101–1 Individual specification requirements.

[1] When steel of 65,000 to 81,000 p.s.i. minimum tensile strength is used, the thickness of plates shall be not less than 5/8 inch, and when steel of 81,000 p.s.i. minimum tensile strength is used, the minimum thickness of plate shall be not less than 9/16 inch.

[2] When approved material other than aluminum alloys are used, the thickness shall be not less than 2¼ inches.

[3] When steel of 65,000 p.s.i. minimum tensile strength is used, minimum thickness of plates shall be not less than 7/16 inch.

[4] At least the upper two-thirds of the exterior of the tank, manway nozzle and all appurtenances in contact with this area of the tank shall have a finish coat of white paint.

[5] For inside diameter of 87 inches or less the thickness of plates shall be not less than ¼ inch.

[6] See 179.102–11 for optional setting for certain commodities.

[7] See A A R specifications for tank cars, appendix E, E4.01 and 179.103–2.

[8] Purposely left blank.

[9] When the use of nickel is required by the lading, the thickness shall not be less than 2 inches.

[10] Each tank head may be equipped with not more than one opening for use in purging tank interior.

[11] Tanks converted to DOT-112A400F from existing forge-welded specification DOT–105A500 tanks by modification using conversion details complying with DOT-112A400W specification requirements, shall be stenciled by substituting the letter "F" for the letter "W" in the specification designation.

(1) In § 179.102–1, the introductory text of paragraph (a) and (a)(1) would be amended; in § 179.102–3, paragraph (a) would be amended; in § 179.102–5, the introductory text of paragraph (a) would be amended; in § 179.102–6, paragraph (a) would be amended; in § 179.102–7, the introductory text of paragraph (a) would be amended; in § 179.102–8, the heading and the introductory text of paragraph (a) would be amended, in §§ 179.102–9 and 179.102–10, the introductory text of paragraph (a) would be amended; § 179.102–11 would be amended; §§179.102–12 through 179.102–17 and 179.102–20 would be added to read as follows:

§ 179.102 Special commodity requirements for pressure tank car tanks.

* * * * *

§ 179.102–1 Liquefied carbon dioxide.

(a) Tank cars used to transport liquefied carbon dioxide must comply with the following special requirements:

(1) All plates for tank, manway nozzle, and anchorage of tanks used in the transportation of liquid carbon dioxide must be made of carbon steel complying with ASTM Specification A300–68, Class 1. Impact specimens must be Type A Charpy V-notch as shown in ASTM Specification A370–68 and must meet the impact requirements at minus 50° F. using steel meeting requirements of ASTM Specification A516–70, Grade 55, 60, 65, or 70, or AAR Specification TC128–70, Grade B. Production-welded test plates prepared as required by W4.00 of AAR Specifications for Tank Cars, Appendix W, must include impact test specimens of weld metal and heat-affected zone, Type A Charpy V-notch, prepared and tested in accordance with W9.00 of AAR Specifications for Tank Cars, Appendix W, and these must meet the same impact requirements as the plate material at minus 50° F.

* * * * *

§ 179.102–3 Liquefied flammable gases.

(a) Any authorized tank car used to transport liquefied flammable gases must comply with the following special requirements:

(1) The interior pipes of the loading and unloading valves and sampling valves, also the gaging device when it provides a means for passage of the lading from the interior to the exterior of the tank, must be equipped with excess flow valves of an approved design.

(2) The protective housing cover must be provided with an opening above each safety relief valve which must be concentric with the discharge of the valve and have an area at least equal to the valve outlet area. Each opening must be provided with a weatherproof cover designed for vertical discharge.

(3) Gaskets for manway cover plates and for mounting of fittings must be asbestos type or approved high-temperature resistant equivalent.

§ 179.102–5 Nitrosyl chloride.

(a) Tank cars used to transport nitrosyl chloride must comply with the following special requirements:

* * * * *

§ 179.102–6 Vinyl chloride or vinyl methyl ether, inhibited.

(a) Tank cars used to transport vinyl chloride, or vinyl methyl ether, inhibited, must comply with the following special requirements:

(1) All parts of valves and safety relief devices in contact with the lading must be of a metal or other material suitably treated, if necessary, which will not cause formation of any acetylides.

(2) The interior pipes of the loading and unloading valves and sampling valve, also the gaging device when it provides a means for passage of the lading from the interior to the exterior of the tank, must be equipped with excess flow valves of an approved design.

(3) For vinyl chloride in specifications DOT–105A200W tank cars, openings in tank heads to facilitate nickel lining are authorized if closed in an approved manner.

(4) For alternate safety relief valve settings, see § 179.102–11.

(5) For gasket requirements, see § 179.102–11(b).

§ 179.102–7 Bromine.

(a) Tank cars used to transport bromine must comply with the following special requirements:

* * * * *

§ 179.102–8 Motor fuel antiknock compound.

(a) Tank cars used to transport motor fuel antiknock compounds must comply with the following special requirements:

* * * * *

§ 179.102–9 Nitrogen tetroxide or nitrogen tetroxide-nitric oxide mixtures.

(a) Tank cars used to transport nitrotetroxide or nitrogen tetroxide-nitric oxide mixtures must comply with the following special requirements:

* * * * *

§ 179.102–10 Hydrocyanic acid.

(a) Tank cars used to transport hydrocyanic acid must comply with the following special requirements:

* * * * *

§ 179.102–11 Liquefied petroleum gas, butadiene, anhydrous ammonia, methylacetylene-propadiene, stabilized, or vinyl chloride.

(a) Tank cars used to transport liquefied petroleum gas, butadiene, anhydrous ammonia, methylacetylene-propadiene, stabilized, or vinyl chloride may as an alternate comply with the following special requirements:

(1) Safety relief valves may be set to the following pressures, provided the total valve discharge capacity is sufficient to prevent building up pressure in the tank in excess of 90 percent of the tank test pressure.

Safety relief valves, p.s.i.	DOT specifications		
	105A300W	112A340W, 114A340W	112A400W, 114A400W
Start-to-discharge pressure	247.5	280.5	330
Start-to-discharge tolerance	±7.5	±8.4	±10
Vapor tight pressure (minimum)	196	224	264
Flow rating pressure	270	306	360

(b) Gaskets for manway covers and for mounting of fittings must be asbestos type or approved high-temperature resistant equivalent.

§ 179.102–12 Ethylene oxide.

Tank cars used to transport ethylene oxide must be registered and jackets stenciled DOT–105A100 or DOT–105A-100W and equipped with the safety relief valve required by such specifications. Tanks may have openings in the heads to facilitate nickel lining provided openings are closed in an approved manner. No copper or copper bearing alloys shall be used in any part of the tank or appurtenances if such part is normally in contact with ethylene oxide liquid or vapor. Tank jacket must be stenciled on both sides in letters not less than 1½ inches high "Ethylene Oxide Only".

§ 179.102–13 Hydrofluoric acid, anhydrous.

(a) Tank cars used to transport hydrofluoric acid, anhydrous, must comply with the following special requirements:

(1) Tanks must be equipped with valves and appurtenances approved for this particular service, made of metal not subject to rapid deterioration by the lading. For safety relief valves, see § 179.100–15(b) and (c).

(2) For specification DOT–114A400W tanks, valves and fittings must be located on the top of the tank.

(3) Bottom opening in tank prohibited.

§ 179.102–14 Acrolein inhibited.

Tank cars used to transport acrolein inhibited must be specification DOT–105A300W, or higher rated tanks registered and jackets stenciled DOT–105A-200W and must be equipped with the safety relief valve required by that specification. Jackets must be stenciled on both sides in letters not less than 1½ inches high "Acrolein Only".

§ 179.102–15 Sodium, metallic.

Tank cars used to transport metallic sodium must have exterior heater coils fusion welded to tank shell.

§ 179.102–16 Sulfur trioxide stabilized.

Tank cars used to transport sulfur trioxide stabilized must be equipped with safety relief valves of approved design. Tanks equipped with interior heating coils not permitted.

§ 179.102–17 Flammable liquids not specifically provided for.

Tank cars used to transport flammable liquids not specifically provided for may be equipped with openings in tank heads to facilitate application of lining provided openings are closed in an approved manner.

§ 179.102–20 Dimethyl hydrazine unsymmetrical.

Tank cars used to transport dimethyl hydrazine may have openings in the heads to facilitate nickel lining provided openings are closed in an approved manner. Class DOT–105AW tank cars used to transport dimethyl hydrazine unsymmetrical must be stenciled DOT–105A100W. Tanks must be equipped with steel or stainless steel safety relief valves of the type and size used on specification DOT–105A100W tank cars.

(J) In § 179.103–1, paragraph (f) would be added; in § 179.103–3 paragraphs (b) and (c) would be amended; § 179.103–4 would be amended; § 179.103–5 would be added to read as follows:

§ 179.103 Special requirements for class 114A * * * tank car tanks.

* * * * *

§ 179.103–1 Type.

* * * * *

(f) Class DOT–114 tank cars are uninsulated tank cars for the transportation of compressed gases as authorized in § 173.314 of this chapter.

§ 179.103–3 Venting, loading and unloading valves, measuring and sampling devices.

* * * * *

(b) These valves and appurtenances must be grouped in one location and, except as provided in § 179.103–5, must be equipped with a protective housing with cover, or may be recessed into tank shell with cover. An additional set grouped in another location may be provided. Protective housing with cover, when used, must have steel sidewalls not less than three-fourths inch in thickness and a metal cover not less than one-

fourth inch in thickness that can be securely closed. Underframe sills are an acceptable alternate to the protective housing cover, provided the arrangement is of approved design. For fittings recessed into tank shells, protective cover must be metal and not less than one-fourth inch in thickness.

(c) When tank car is used to transport liquefied flammable gasses, the interior pipes of the loading, unloading, and sampling valves must be equipped with excess flow valves of approved design except when quick closing internal valves of approved design are used. When the interior pipe of the gaging device provides a means for the passage of lading from the interior to the exterior of the tank, it must be equipped with an excess flow valve of approved design or with an orifice not exceeding a No. 54 drill size.

§ 179.103–4 Safety relief devices and pressure regulators.

(a) Safety relief devices and pressure regulators must be located on top of the tank near the center of the car on a nozzle, mounting plate or recess in the shell. Through or stud bolts, if used, must not enter the tank.

(b) Metal guard of approved design must be provided to protect safety relief devices and pressure regulators from damage.

§ 179.103–5 Bottom outlets.

(a) In addition to or in place of the venting, loading, and unloading valves, measuring and sampling devices as prescribed in § 179.103–3, tanks may be equipped with approved bottom outlet valves. If applied, bottom outlet valves must meet the following requirements:

(1) When external bottom outlet valve without interior pipes is used in liquefied flammable gas service, the valve opening must be closed with an internal bolted or self-energizing closure of approved design. Protective housing is not required. On cars with center sills, a ball valve may be welded to the outside bottom of the tank or mounted on a pad or nozzle with a tongue and groove or male and female flange attachment, but in no case shall the breakage groove or equivalent extend below the bottom flange of the center sill. On cars without continuous center sills, a ball valve may be welded to the outside bottom of the tank or mounted with a tongue and groove or male and female flange attachment on a pad attached to the outside bottom of the tank. The mounting pad must have a maximum thickness of 2½ inches measured on the longitudinal centerline of the tank. The valve operating mechanism must be provided with a suitable locking arrangement to insure positive closure during transit.

(2) When internal bottom outlet valve is used in liquefied flammable gas service, the outlet of the valve must be equipped with an excess flow valve of approved design, except when a quick-closing internal valve of approved design is used. Protective housing is not required.

(3) Bottom outlet valve must be equipped with a liquid tight closure at its lower end.

(b) Bottom outlet equipment must be of approved design and must meet the following requirements:

(1) On newly built empty cars with truck centers through 60 feet, 6 inches, the extreme projection of the bottom outlet equipment must be at least 12 inches above the top of rail on level track. On cars with truck centers greater than 60 feet, 6 inches, the minimum rail clearance must be in accordance with the graph in Appendix E of the AAR Specifications for Tank Cars. All bottom outlet reducers and closures and their attachments must be secured to car by at least ⅜-inch chain or its equivalent, except that outlet closure plugs may be attached by ¼-inch chain. When the bottom outlet closure is of the combination cap and valve type, the pipe connection to the valve must be closed by a plug, cap, or approved quick-coupling device.

(2) Bottom outlet must be provided with a liquid tight closure at its lower end.

(3) The valve operating mechanism must be provided with a suitable locking arrangement to insure positive closure during transit.

(4) If outlet nozzle extends 6 inches or more from shell of tank, a breakage groove or its equivalent must be provided immediately below the lowest part of the valve. Breakage groove, if used, must consist of a "V" groove cut (not cast) in the nozzle to depth that will leave thickness of nozzle wall at the root of the "V" not over one-fourth inch. On cars without continuous center sills, the breakage groove or its equivalent must not be more than 15 inches below the tank shell. On cars with continuous center sills, the breakage groove or its equivalent must be above the bottom of the center sill construction.

(5) The valve body must be of a thickness which will insure that accidental breakage of the outlet nozzle will occur at or below the "V" groove, or its equivalent, and will not cause distortion of the valve seat or valve.

(K) The heading of § 179.104–1 would be amended to read as follows:

§ 179.104 Special requirements for spec. 105A200F tank car tanks.

§ 179.104–1 Tanks built under these specifications must meet the requirements of §§ 179.100, 179.101, and when applicable, §§ 179.102 and 179.104.

(L) In §§ 179.200 and 179.200–1, the headings would be amended; in § 179.200–3, paragraph (a) would be amended; in § 179.200–4 paragraph (a) would be amended; in § 179.200–6, paragraphs (a), (b), (c), (d), (e), and (f) would be amended, paragraph (g) would be added; § 179.200–7 would be amepded, in § 179.200–8, paragraphs (a) and (b) would be amended, paragraph (c) would be canceled; in § 179.200–9, paragraph (a) would be amended; in § 179.200–10 paragraph (b) would be added; § 179.200–11 would be amended; in § 179.200–13, the introductory text of paragraph (d) would be amended; in § 179.200–14, subparagraph (e)(3) would be amended; in § 179.200–15, paragraph (c) would be amended; in § 179.200–16, paragraphs (c) and (e) would be amended, paragraphs (f) and (g) would be added; in § 179.200–17, paragraphs (a) and (b)(1), (3), and (4) would be amended, paragraph (b)(5) would be redesignated (b)(6), a new paragraph (b)(5) would be added; in §179.200–19, paragraph (b) would be added; in § 179.200–24, paragraph (b) would be added to read as follows:

§ 179.200 General specifications applicable to non-pressure tank car tanks (Classes DOT–103, 104, and 111).

§ 179.200–1 Tanks built under these specifications must meet the requirements of §§ 179.200, 179.201, and when applicable § 179.202.

§ 179.200–3 Type.

Tanks built under these specifications must be circular in cross section, with formed heads designed convex outward. When specified in § 179.201–1, the tank must have at least one manway or one expansion dome with manway, and such other external projections as are prescribed herein. When the tank is divided into compartments, each compartment must be treated as a separate tank.

§ 179.200–4 Insulation.

(a) If insulation is applied, the tank shell and expansion dome when used must be insulated with an approved material. The entire insulation must be covered with a metal jacket of a thickness not less than 11 gage (0.1196 inch) nominal (manufacturer's standard gage) and flashed around all openings so as to be weathertight. The exterior surface of a carbon steel tank and the inside surface of a carbon steel jacket must be given a protective coating, except that protective coating is not required when foam-in-place insulation that adheres to the tank or jacket is applied.

* * * * *

§ 179.200–6 Thickness of plates.

(a) The wall thickness after forming of the tank shell, dome shell, and of 2:1 ellipsoidal heads must be not less than specified in § 179.201–1, nor that calculated by the following formula:

$$t = \frac{Pd}{2SE}$$

where:

d = Inside diameter in inches;
E = 0.9 welded joint efficiency; except E = 1.0 for seamless heads;
P = Minimum required bursting pressure in p.s.i.;
S = Minimum tensile strength of plate material in p.s.i. as prescribed in § 179.200–7;
t = Minimum thickness of plate in inches after forming.

(b) The wall thickness after forming of 3:1 ellipsoidal heads must be not less than specified in § 179.201–1, nor that calculated by the following formula:

$$t = \frac{Pd}{2SE} \times 1.83$$

where:

d = Inside diameter in inches;
E = 0.9 welded joint efficiency; except E = 1.0 for seamless heads;
P = Minimum required bursting pressure in p.s.i.;
S = Minimum tensile strength of plate material in p.s.i. as prescribed in § 179.200–7;
t = Minimum thickness of plate in inches after forming.

(c) The wall thickness after forming of a flanged and dished head must be not less than specified in § 179.201–1, nor that calculated by the following formula:

$$t = \frac{5PL}{6SE}$$

where:

E = 0.9 welded joint efficiency; except E = 1.0 for seamless heads;
L = Main inside radius to which head is dished, measured on concave side in inches;
P = Minimum required bursting pressure in p.s.i.;
S = Minimum tensile strength of plate material in p.s.i. as prescribed in § 179.200–7;
t = Minimum thickness of plate in inches after forming.

(d) If plates are clad with material having tensile strength properties at least equal to the base plate, the cladding may be considered a part of the base plate when determining thickness. If cladding material does not have tensile strength at least equal to the base plate, the base plate alone must meet the thickness requirements.

(e) For a tank constructed of longitudinal sections, the minimum width of bottom sheet of the tank must be 60 inches measured on the arc, but in all cases the width must be sufficient to bring the entire width of the longitudinal welded joint, including welds, above the bolster.

(f) For a tank built of one-piece cylindrical sections, the thickness specified for bottom sheet must apply to the entire cylindrical section.

(g) See § 179.200–9 for thickness requirements for a compartmented tank.

§ 179.200–7 Materials.

(a) Plate material used to fabricate the tank and, when used, expansion dome or manway nozzle material, must meet one of the following specifications with the indicated minimum tensile strength and elongation in the welded condition.

(b) Carbon steel plate: The maximum allowable carbon content must be 0.31 percent when the individual specification allows carbon content greater than this amount. The plates may be clad with other approved materials:

Specifications	Minimum tensile strength (p.s.i.) welded condition [1]	Minimum elongation in 2 inches (percent) welded condition (longitudinal)
ASTM A 515–69, Gr. 55	55,000	28
ASTM A 515–69, Gr. 60	60,000	25
ASTM A 515–69, Gr. 65	65,000	20
ASTM A 515–69, Gr. 70	70,000	20
ASTM A 285–69, Gr. A	45,000	24
ASTM A 285–69, Gr. B	50,000	20
ASTM A 285–69, Gr. C	55,000	20
ASTM A 516–70, Gr. 55	55,000	28
ASTM A 516–70, Gr. 60	60,000	25
ASTM A 516–70, Gr. 65	65,000	20
ASTM A 516–70, Gr. 70	70,000	20
AAR TC 128–70, Gr. A and B	81,000	19

[1] Maximum stresses to be used in calculations.

(c) Aluminum alloy plate: Aluminum alloy plate must be suitable for welding and comply with one of the following specifications:

Specifications	Minimum tensile strength (p.s.i.) 0 temper welded condition [3] [6]	Minimum elongation in 2 inches (percent) 0 temper welded condition (longitudinal)
ASTM B 209–70, Alloy 5052 [1]	25,000	18
ASTM B 209–70, Alloy 5083 [2]	38,000	16
ASTM B 209–70, Alloy 5086 [1]	35,000	14
ASTM B 209–70, Alloy 5154 [1]	30,000	18
ASTM B 209–67, Alloy 5254 [1]	30,000	18
ASTM B 209–70, Alloy 5454 [1]	31,000	18
ASTM B 209–67, Alloy 5652 [1]	25,000	18
ASTM B 209–70, Alloy 6061 [4]	[5] 24,000	[5] 5

[1] For fabrication, the parent plate material may be 0, 11112, or 1132 temper, but design calculations must be based on minimum tensile strength shown.
[2] 0 temper only.
[3] Weld filler metal 5556 must not be used.
[4] Not authorized for tank shells, manways or domes.
[5] T6 temper only.
[6] Maximum stresses to be used in calculations.

(d) High alloy steel plate: [1] High alloy steel plate must comply with one of the following specifications:

[1] High alloy steel materials used to fabricate tank and expansion dome, when used, must be tested in accordance with the following procedures in ASTM Specification A 262–68 titled, "Recommended Practices for Detecting Susceptibility to Intergranular Attack in Stainless Steels," and must exhibit corrosion rates not exceeding the following:

Test procedure	Material	Corrosion rate i.p.m.
Practice B	Types 304, 304L, 316, and 316L	0.0040
Practice C	Type 304L	.0020
Practice C	Type 430A	.0060

Type 304L and Type 316L test specimens must be given a sensitizing treatment prior to testing. (A typical sensitizing treatment is 1 hour at 125° F.)

Specification	Minimum tensile strength (p.s.i.) welded condition [1] [2]	Minimum elongation in 2 inches (percent) welded condition (longitudinal)
ASTM A 240–70, Type 304	75,000	30
ASTM A 240–70, Type 304L	70,000	30
ASTM A 240–70, Type 316	75,000	30
ASTM A 240–70, Type 316L	70,000	30
ASTM A 240–70, Type 430A	65,000	22

[1] Maximum stresses to be used in calculations.
[2] High alloy steel materials used to fabricate tank and expansion dome, when used, must be tested in accordance with the following procedures in ASTM Specification A 262–68 titled, "Recommended Practices for Detecting Susceptibility to Intergranular Attack in Stainless Steels," and must exhibit corrosion rates not exceeding the following:

Test procedure	Material	Corrosion rate i.p.m.
Practice B	Types 304, 304L, 316, and 316L	0.0040
Practice C	Type 304L	.0020
Practice C	Type 430A	.0060

Type 304L and Type 316L test specimens must be given a sensitizing treatment prior to testing. (A typical sensitizing treatment is 1 hour at 125° F.)

(e) Nickel plate: [1] Nickel plate must comply with the following specification:

Specification	Minimum tensile strength (p.s.i.) welded condition [1]	Minimum elongation in 2 inches (percent) welded condition (longitudinal)
ASTM B 162–69	40,000	20

[1] Maximum stresses to be used in calculations.

(f) Manganese-molybdenum steel plate: Manganese-molybdenum steel plate must be suitable for fusion welding and comply with the following specification:

Specifications	Minimum tensile strength (p.s.i.) welded condition [1]	Minimum elongation in 2 inches (percent) welded condition (longitudinal)
ASTM A 302–69a, Gr. B	80,000	20

[1] Maximum stresses to be used in calculations.

(g) All parts and items of construction in contact with the lading must be made of material compatible with plate material and not subject to rapid deterioration by the lading, or be coated or lined with suitable corrosion resistent material.

(h) All external projections which may be in contact with the lading and

[1] When used as cladding for carbon steel plate, low-carbon nickel is required.

all castings, forgings, or fabrications used for fittings or attachments to tank and expansion dome, when used, in contact with lading must be made of material to an approved specification. See AAR Specifications for Tank Cars, Appendix M, M4.05 for approved material specifications for castings for fittings.

§ 179.200–8 Tank heads.

(a) All external tank heads must be an ellipsoid of revolution in which the major axis must equal the diameter of the shell and the minor axis must be one-half the major axis.

(b) Internal compartment tank heads may be 2:1 ellipsoidal, 3:1 ellipsoidal, or flanged and dished to thicknesses as specified in § 179.200–6. Flanged and dished heads must have main inside radius not exceeding 10 feet, and inside knuckle radius must not be less than 3¾ inches for steel, alloy steel, or nickel tanks, and not less than 5 inches for aluminum alloy tanks.

(c) [Canceled]

§ 179.200–9 Compartment tanks.

(a) When a tank is divided into compartments, by inserting interior heads, interior heads must be inserted in accordance with AAR Specifications for Tank Cars, Appendix E, E7.00, and must comply with the requirements specified in § 179.201–1. Voids between compartment heads must be provided with at least one tapped drain hole at their lowest point, and a tapped hole at the top of the tank. Top hole must be closed, and the bottom hole may be closed, with not less than three-fourths of an inch nor more than 1½ inches solid pipe plugs having NPT threads.

* * * * *

§ 179.200–10 Welding.

* * * * *

(b) Welding is not permitted on or to ductile iron or malleable iron fittings.

§ 179.200–11 Postweld heat treatment.

After welding is complete, postweld heat treatment must be in compliance with the requirements of AAR Specifications for Tank Cars, Appendix W, when specified in § 179.201.1.

§ 179.200–13 Manway ring or flange, safety relief device flange, bottom outlet nozzle flange, bottom washout nozzle flange and other attachments and openings.

* * * * *

(d) Rivets, if used, must comply with AAR Specification M–110–64 or its equivalent, must be compatible with plate material, and must meet the following additional requirements:

* * * * *

§ 179.200–14 Expansion capacity.

* * * * *

(e) * * *

(3) The dome head, if dished, must be dished to a radius not exceeding 96 inches. Thickness of dished dome head must be calculated by the formula in § 179.200–6(c).

* * * * *

§ 179.200–15 Closures for manways.

* * * * *

(c) Manway covers must be of approved cast, forged or fabricated metals. Malleable iron, if used, must comply with ASTM A47–68, Grade 35018. Cast iron manway covers must not be used.

* * * * *

§ 179.200–16 Gaging devices, top loading and unloading devices, venting and air inlet devices.

* * * * *

(c) A tank may be equipped with a vacuum relief valve of an approved design. Protective housing is not required.

* * * * *

(e) Bottom of tank shell may be equipped with a sump or siphon bowl welded or pressed into the shell. Such sumps or siphon bowls, if applied, are not limited in size and must be made of cast, forged or fabricated metal. Each sump or siphon bowl must be of good welding quality in conjunction with the metal of the tank shell. When sump or siphon bowl is pressed in the bottom of the tank shell, the wall thickness of the pressed section must not be less than that specified for the shell. The section of a circular cross section tank to which a sump or siphon bowl is attached need not comply with the out-of-roundness requirement specified in Appendix W, W14.06, of the AAR Specifications for Tank Cars. Any portion of a sump or siphon bowl not forming a part of a cylinder of revolution must have walls of such thickness and be so reinforced that the stresses in the walls caused by a given internal pressure are not greater than the circumferential stress which would exist under the same internal pressure in the wall of a tank of circular cross section designed in accordance with § 179.200–6 (a) and (d). In no case shall the wall thickness be less than that specified in § 179.201–1(a).

(f) When top loading and discharge devices, or venting and air inlet devices are installed with exposed piping to a removed location, shut-off valves must be applied directly to reinforcing pads or nozzles at their communication through the tank shell, and must be enclosed in a protective housing with provision for a seal. The piping must include breakage grooves, and suitable bracing. Relief valves must be applied to liquid lines for protection in case lading is trapped. Provision must be made to insure closure of the valves while the car is in transit.

(g) Protective housing, when required, must be fabricated of approved material and have cover and sidewalls not less than 0.119 inch in thickness.

§ 179.200–17 Bottom outlets.

(a) If indicated in § 179.201–1, tank may be equipped with bottom outlet. Bottom outlet, if applied, must comply with the following requirements:

(1) On newly built empty cars with truck centers through 60 feet, 6 inches, the extreme projection of the bottom outlet equipment must be at least 12 inches above the top of rail on level track. On cars with truck centers greater than 60 feet, 6 inches, the minimum rail clearance must be in accordance with the graph in Appendix E of the AAR Specifications for Tank Cars. All bottom outlet reducers and closures and their attachments must be secured to car by at least ⅜-inch chain or its equivalent, except that outlet closure plugs may be attached by ¼-inch chain. When the bottom outlet closure is of the combination cap and valve type, the pipe connection to the valve must be closed by a plug, cap, or approved quick coupling device.

(2) Bottom outlet must be of approved construction, and be provided with a liquid-tight closure at its lower end.

(3) On cars with center sills, a ball valve may be welded to the outside bottom of the tank or mounted on a pad or nozzle with a tongue and groove or male and female flange attachment. In no case shall the breakage groove or equivalent extend below the bottom flange of the center sill. On cars without continuous center sills, a ball valve may be welded to the outside bottom of the tank or mounted with a tongue and groove or male and female flange attachment on a pad attached to the outside bottom of the tank. The mounting pad must have a maximum thickness of 2½ inches measured on the longitudinal centerline of the tank. The valve operating mechanism must be provided with a suitable locking arrangement to insure positive closure during transit.

(4) The valve operating mechanism for valves applied to the interior of the tank, and outlet nozzle construction must insure against the unseating of the valve due to stresses or shocks incident to transportation.

(5) Bottom outlet nozzle of interior valves and the valve body of exterior valves, must be of cast, fabricated or forged metal. If welded to tank, they must be of good weldable quality in conjunction with metal of tank.

(6) To provide for the attachment of unloading connections, the bottom of the main portion of the outlet nozzle or valve body of exterior valves, or some fixed attachment thereto, must be provided with threaded cap closure arrangement or bolted flange closure arrangement having minimum 1 inch threaded pipe plug or approved quick-coupling device. When two-piece quick-coupling devices (i.e., adapter and dust cap) are used on bottom outlet extensions, an inline auxiliary valve must be applied between the bottom outlet valve and the quick-coupling closure. The quick-coupling closure (dust cap) or outlet nozzle wall must be fitted with a minimum 1-inch threaded plug. The auxiliary valve and dust cap may be omitted when the quick-coupling adapter is threaded internally and fitted with a minimum 1-inch plug.

(7) If outlet nozzle extends 6 inches or more from shell of tank, a "V" groove must be cut (not cast) in the upper part of outlet nozzle at a point immediately below lowest part of valve to a depth that will leave thickness of nozzle wall at the root of the "V" not over one-fourth inch. The outlet nozzle on interior valves or the valve body on exterior valves may be steam jacketed, in which case the breakage groove or its equivalent must be below the steam chamber but above the bottom of center sill construction. If outlet nozzle is not a single piece, or if exterior valves are applied, provision must be made for the equivalent of the breakage groove. On cars without continuous center sills, the breakage groove or its equivalent must be not more than 15 inches below the tank shell. On cars with continuous center sills the breakage groove or its equivalent must be above the bottom of the center sill construction.

(8) The flange on the outlet nozzle or the valve body of exterior valves must be of a thickness which will prevent distortion of the valve seat or valve by any change in contour of the shell resulting from expansion of lading, or other causes, and which will insure that accidental breakage of the outlet nozzle will occur at or below the "V" groove, or its equivalent.

(9) The valve must have no wings or stem projecting below the "V" groove or its equivalent. The valve and seat must be readily accessible or removable for repairs, including grinding.

(10) The valve operating mechanism on interior valves must have means for compensating for variation in the vertical diameter of the tank produced by expansion, weight of the liquid contents, or other causes, and may operate from the interior of the tank, but in the event the rod is carried through the dome, or tank shell, leakage must be prevented by packing in stuffing box or other suitable seals and a cap.

(b) * * *

(1) On newly built empty cars with truck centers through 60 feet, 6 inches, the extreme projection of the bottom washout equipment must be at least 12 inches above the top of rail on level track. On cars with truck centers greater than 60 feet, 6 inches, the minimum rail clearance must be in accordance with the graph in Appendix E of the AAR Specifications for Tank Cars.

* * * * *

(3) If washout nozzle extends 6 inches or more from shell of tank, a "V" groove must be cut (not cast) in the upper part of the nozzle at a point immediately below the lowest part of inside closure seat or plug to a depth that will leave wall thickness of nozzle at the root of the "V" not over one-fourth inch. Where nozzle is not a single piece, provision must be made for the equivalent of the breakage groove. The nozzle must be of a thickness to insure that accidental breakage will occur at or below the "V" groove or its equivalent. On cars without continuous center sills, the breakage groove or its equivalent must not be more than 15 inches below the tank shell. On cars with continuous center sills the breakage groove or its equivalent must be above the bottom of the center sill construction.

(4) The closure plug and seat must be readily accessible or removable for repairs, including grinding.

(5) The closure of the washout nozzle must be equipped with a ¾-inch solid screw plug. Plug must be attached by at least a ¼-inch chain.

(6) Joints between closures and their seats may be gasketed with suitable material.

§ 179.200–19 Reinforcements, when used, and appurtenances not otherwise specified.

* * * * *

(b) Reinforcing pads must be used between external brackets and shells if the attachment welds exceed 6 lineal inches of ¼-inch fillet or equivalent weld per bracket or bracket leg. When reinforcing pads are used, they must not be less than one-fourth inch in thickness, have each corner rounded to a 1-inch minimum radius, and be attached to the tank by continuous fillet welds except for venting provisions. The ultimate shear strength of the bracket to reinforcing pad weld must not exceed 85 percent of the ultimate shear strength of the reinforcing pad to tank weld.

§ 179.200–24 Stamping.

* * * * *

(b) On Class DOT–111 tank cars, the last numeral of the specification number may be omitted from the stamping; for example, DOT–111A100W.

(M) In § 179.201–1 paragraph (a), the entire table would be amended; in § 179.–201–2 paragraph (a), the sentence preceding the table would be amended; in § 179.201–3, paragraphs (a), (b), and (c) would be amended; (d), (e), (f), and (g) would be added; § 179.201–4 would be amended; §§ 179.201–5 and 179.201–6 would be amended; in § 179.201–7, paragraph (a) would be amended; § 179.201–9 would be amended to read as follows:

§ 179.201 Individual specification requirements applicable to nonpressure tank car tanks.

[1] Tanks converted to DOT-111A series from existing forge-welded specification. DOT-105A300, 400, or 500 tanks, by modification using conversion details complying with DOT-111A specification requirements, shall be stenciled by substituting the letter "F" for the letter "W" in the specification designation.

§ 179.201–2 Minimum plate thickness.

(a) The minimum plate thickness after forming must be as follows:

* * * * *

§ 179.201–3 Lined tanks.

(a) Rubber-lined tanks:

(1) Each tank or each compartment thereof must be lined with acid-resistant rubber or other approved rubber compound vulcanized or bonded directly to the metal tank, to provide a nonporous laminated lining, at least 5/32-inch thick, except overall rivets and seams formed by riveted attachments the lining must be double thickness. The rubber lining must overlap at least 1½ inches at all edges which must be straight and be beveled to an angle of approximately 45°, or butted edges of lining must be sealed with a 3-inch minimum strip of lining having 45° beveled edges.

(2) As an alternate method, the lining may be joined with a skived butt seam then capped with a separate strip of lining 3 inches wide having 45° beveled edges. An additional rubber reinforcing pad at least 4½ feet square and at least ½-inch thick must be applied by vulcanizing to the lining on bottom of tank directly under the manway opening. The edges of the rubber pad must be beveled to an angle of approximately 45°. An opening in this pad for sump is permitted. No lining must be under tension when applied except due to conformtaion over rivet heads. Interior of tank must be free from scale, oxidation, moisture, and all foreign matter during the lining operation.

(3) Other approved lining materials may be used provided the material is resistant to the corrosive or solvent action of the lading in the liquid or gas phase and is suitable for the service temperatures.

(b) Before a tank car tank is lined with rubber, or other rubber compound, a report certifying that the tank and its equipment have been brought into compliance with specification DOT–103B, 103W, 111A60W5 or 111A100W5 must be furnished by car owner to the party who is to apply the lining. A copy of this report in approved form, certifying that tank has been lined in compliance with all requirements of one of the above specifications, must be furnished by party lining tank to car owner. Reports of the latest lining application must be retained by the car owner until the next relining has been accomplished and recorded.

(c) All rivet heads on inside of tank must be buttonhead, or similar shape, and of uniform size. The under surface of heads must be driven tight against the plate. All plates, castings and rivet heads on the inside of the tank must be rounded and free from fins and other irregular projections. Castings must be free from porosity.

(d) All surfaces of attachments or fittings and their closures exposed to the lading must be covered with at least ⅛-inch acid-resistant material. Attachments made of metal not affected by the lading need not be covered with rubber or other acid resistant material.

(e) Hard rubber or polyvinyl chloride may be used for pressure retaining parts of safety vents provided the material is resistant to the corrosive or solvent action of the lading in the liquid or gas phase and is suitable for the service temperatures.

(f) Polyvinyl chloride lined tanks. Tank car tanks or each compartment thereof may be lined with elastomeric polyvinyl chloride having a minimum lining thickness of three-thirty-seconds of an inch.

(g) Polyurethane lined tanks. Tank car tanks or each compartment thereof may be lined with elastomeric polyurethane having a minimum lining thickness of one-sixteenth of an inch.

§ 179.201–4 Material.

All fittings, tubes and castings and all projections and their closures, except for protective housing, must also meet the requirements specified in AAR Specifications for Tank Cars, Appendix M, M3.03(b) and M4.05(d).

§ 179.201–5 Postweld heat treatment and corrosion resistance.

(a) Tanks and attachments welded directly thereto must be postweld heat treated as a unit at the proper temperature except as indicated below. Tanks and attachments welded directly thereto fabricated from ASTM A240–70 Type 430A, Type 304, and Type 316 materials must be postweld heat treated as a unit and must be tested to demonstrate that they possess the corrosion resistance specified in AAR Specifications for Tank Cars, Appendix M, M3.03(b). Tanks and attachments welded directly thereto, fabricated from ASTM A240–70 Type 304L or Type 316L materials are not required to be postweld heat treated.

(b) Tanks and attachments welded directly thereto, fabricated from ASTM A240–70 Type 304L and Type 316L materials must be tested to demonstrate that they possess the corrosion resistance specified in AAR Specifications for Tank Cars, Appendix M, M3.03(b).

§ 179.201–6 Manways and manway closures.

(a) The manway cover for specification DOT 103ALW, 103DW, 103W, 104W, 111A60ALW1, 111A60W1, 111A100ALW1, 111A100W1, 111A100W3, or 111A100W6 must be designed to make it impossible to remove the cover while the interior of the tank is subjected to pressure.

(b) The manway cover for specification DOT 103BW, 111A60W5, or 111A100W5 must be made of a suitable metal. The top, bottom and edge of manway cover must be acid resistant material covered as prescribed in § 179.201–3. Through bolt holes must be lined with acid resistant material at least ⅛-inch in thickness. Cover made of metal not affected by the lading need not be acid resistant material covered.

(c) The manway ring and cover for specification DOT–103CW, 103DW, 103EW, 111A60W7 or 111A100W6 must be made of the metal specified in AAR Specifications for Tank Cars, Appendix M, M3.03(b).

(d) The manway ring for DOT 103ANW must be made of cast, forged or fabricated nickel and be a good weldable quality in conjunction with the metal of the dome. Manway cover must be made of nickel.

§ 179.201–7 Safety relief devices.

(a) Each tank or compartment must be equipped with a safety vent unless characteristics of the lading require a safety relief valve. These devices must comply with § 179.200–18.

* * * * *

§ 179.201–9 Gaging device.

A gaging device of an approved design must be applied to permit determining the liquid level of the lading. The gaging device must be made of materials not subject to rapid deterioration by the lading. When the interior pipe of the gaging device provides a means for passage of the lading from the interior to the exterior of the tank, it must be equipped with an excess flow valve of an approved design. The gaging device must be provided with a protective housing.

(N) In §§ 179.202–1, 179.202–2, and 179.202–3, paragraph (a) would be amended; in § 179.202–4, paragraph (a) would be amended by deleting "Specification 103–W" at the beginning of the paragraph: in §§ 179.202–5, 179.202–6, 179.202–7, and 179.202–8, paragraph (a) would be amended; in § 179.202–9, the Heading and paragraph (a) would be amended, paragraph (b) would be added; in § 179.202–10, paragraph (a) would be amended; § 179.202–11 would be amended; in § 179.202–12, paragraph (a) would be amended, paragraph (b) would be added; in § 179.202–13, paragraph (a) would be amended; in § 179.202–14, paragraphs (a) and (b) would be amended, paragraph (c) would be canceled; in §§ 179.202–15, 179.202–16, 179.202–17, 179.202–18, and 179.202–19, paragraph (a) would be amended; §§ 179.202–20, 179.202–21, and 179.202–22 would be added to read as follows:

§ 179.202 Special commodity requirements for non-pressure tank car tanks.

* * * * *

§ 179.202–1 Flammable liquids not specifically provided for.

Tank cars used to transport flammable liquids not specifically provided for must have manway closures so designed that pressure will be released automatically by starting the operation of removing the manway cover. Openings in tank heads to facilitate application of lining are authorized and must be closed in an approved manner. Specifications ARA–III, ARA–IV and ICC–103, DOT–103W, 103ALW, 104, 104W, 111A60ALW1 or 111A100W3, used to transport flammable liquids not specifically provided for, having a vapor pressure exceeding 27 pounds per square inch absolute at 100° F. but not exceeding 40 p.s.i.a. at 100° F., must have their manway closures equipped with approved safeguards making removal of closures from the manway opening practically impossible while car interior is subjected to vapor pressure of lading. These cars must be stenciled on each side of dome in line with the ladders, and in a color contrasting to the color of the dome with the identification mark as prescribed in AAR Specifications for Tank Cars, Appendix C.

§ 179.202–2 Dimethyl dichlorosilane, ethyl dichlorosilane, ethyl trichlorosilane, methyl trichlorosilane, trimethyl chlorosilane, vinyl trichlorosilane, methyl dichlorosilane and trichlorosilane.

Tank cars used to transport dimethyl dichlorosilane, ethyl dichlorosilane, ethyl trichlorosilane, methyl trichlorosilane, trimethyl chlorosilane, vinyl trichlorosilane, methyl dichlorosilane, and Trichlorosilane, must be equipped with bottom discharge outlet.

§ 179.202–3 Amyl mercaptan, Butyl mercaptan, Ethyl mercaptan, Isopropyl mercaptan, Propyl mercaptan, and Aliphatic mercaptan mixtures.

Tank cars used to transport amyl mercaptan, butyl mercaptan, ethyl mercaptan, isopropyl mercaptan, propyl mercaptan, and aliphatic mercaptan mixtures must have bottom outlets effectively sealed. Bottom washout permitted.

§ 179.202–5 Phosphorus, white or yellow.

Tank cars used to transport phosphorus, white or yellow, must be equipped with approved dome fittings, external heater systems and with insulation at least 4 inches in thickness, except that thickness of insulation may be reduced to 2 inches over external heater coils. Bottom washout nozzle of approved design may be applied. Bottom outlet for discharge of lading prohibited.

§ 179.202–6 Cumene hydroperoxide, Diisopropylbenzene hydroperoxide and Paramenthane hydroperoxide.

Tank cars used to transport cumene hydroperoxide of strength not exceeding 90 percent in a nonvolatile solvent. Paramenthane hydroperoxide of strength not exceeding 60 percent in a nonvolatile solvent and diisopropylbenzene hydroperoxide of strength not exceeding 60 percent in a nonvolatile solvent, must have bottom outlets effectively sealed from the inside.

§ 179.202–7 Titanium tetrachloride, anhydrous.

Tank cars used to transport titanium tetrachloride, anhydrous, must be equipped with safety relief valves. Safety vents not permitted.

§ 179.202–8 Chloracetyl chloride.

Tank cars used to transport chloracetyl chloride must have a nickel cladding of 1/16-inch minimum thickness. Nickel cladding in tanks must have a minimum nickel content of at least 99 percent pure nickel. Specification DOT–103ANW tank cars used to transport chloracetyl chloride must be of solid nickel at least 99 percent pure and all cast metal parts of the tank in contact with the lading must have a minimum nickel content of 96.7 percent.

§ 179.202–9 Hydrochloric (muriatic) acid, hydrochloric (muriatic) acid mixtures, hydrochloric (muriatic) acid solution, inhibited; sodium chlorite solution (not exceeding 42 percent sodium chlorite), and cleaning compounds, liquid, containing hydrochloric (muriatic) acid.

(a) For acids not over 38 percent strength by weight, except hydrochloric (muriatic) acid of not over 22° Baume strength, tank cars may be equipped with safety vent of approved design having a frangible disc with 1/8-inch breather hole in the center, or a safety vent of approved design using carbon discs permitting continuous venting.

(b) Sodium chlorite solution: Specification DOT–103CW tank cars having tanks of Type 304L stainless steel authorized for sodium chlorite solution not exceed 42 percent sodium chlorite only.

§ 179.202–10 Hydrogen peroxide solution in water exceeding 52 percent by weight.

Tank cars used to transport hydrogen peroxide solution in water exceeding 52 percent by weight, must be equipped with a venting arrangement approved by the Bureau of Explosives.

§ 179.202–11 Phosphorus oxybromide, phosphorus oxychloride, phosphorus trichloride, and thiophosphoryl chloride.

Specification DOT–103ANW tank cars used to transport phosphorus oxybromide, phosphorus oxychloride, phosphorus trichloride, and thiophosphoryl chloride must be solid nickel at least 99 percent pure and all cast metal parts of the tank in contact with the lading have a minimum nickel content of approximately 96.7 percent. Specification DOT–103A tank cars used to transport phosphorus trichloride must be lead-lined steel, or made of steel at least 10 percent nickel clad. Specification DOT–103AW, 111A100F2, or 111A100W2 tank cars used to transport phosphorus trichloride must be lead-lined steel or made of steel with a minimum thickness of nickel cladding of one-sixteenth inch. Nickel cladding in tanks must have a minimum nickel content of at least 99 percent pure nickel. Specification DOT–103EW tank cars used to transport phosphorus trichloride and thiophosphoryl chloride must have tanks fabricated from Type 316 stainless steel. Unlined specification DOT–103A, 103AW, 111A100F2, or 111A100W2 tank cars authorized for phosphorus trichloride only.

§ 179.202–12 Sulfuric acid of concentrations 65.25 percent (approximately 1.559 specific gravity) (52° Baume) or greater.

(a) Specification DOT–103A, 103AW, 111A100F2, or 111A100W2 tank cars used for this service may be equipped with safety vent of approved design having a frangible disc with 1/8-inch breather hole in the center.

(b) Specification DOT–103A, 103AW, 111A100F2, or 111A100W2 tank cars used in oleum and other fuming acids must be equipped with safety vent of approved design. Breather hole in frangible disc prohibited. Safety valve prohibited.

§ 179.202–13 Sulfur trioxide, stabilized.

Tank cars used to transport sulfur trioxide stabilized must be equipped with safety relief valves of approved design. Tanks equipped with interior heating coils not permitted.

§ 179.202–14 Anhydrous hydrazine and hydrazine solutions containing 50 percent or less of water.

(a) Tank cars used to transport anhydrous hydrazine or hydrazine solutions containing 50 percent or less water, must have tanks fabricated of Type 304L stainless steel with molybdenum content not exceeding one-half of 1 percent. Specification DOT–111A100W6 tanks must not be equipped with bottom outlet.

(b) Safety relief valves for specifications DOT–103A–ALW and 103CW tank cars used to transport anhydrous hydrazine may have a start-to-discharge pressure of 45 p.s.i. with a tolerance of plus or minus 3 p.s.i. and a vapor tight pressure of 36 p.s.i. Refer to AAR Specifications for Tank Cars Appendix A, A8.05.

(c) [Canceled]

§ 179.202–15 Formic acid and Formic acid solutions.

Tank cars used to transport formic acid and formic acid solutions must be stenciled "Formic Acid Only". Specification DOT–103EW tank car tanks must be fabricated from Type 316 stainless steel.

§ 179.202–16 Monochloroacetic acid, liquid.

Tank cars used to transport monochloroacetic acid, liquid, must have tanks nickel clad at least 20 percent.

§ 179.202–17 Benzyl chloride.

Tank cars used to transport benzyl chloride, stabilized, must be 10 percent nickel clad. Specification DOT–103ANW tank cars used to transport benzyl chloride must have all cast metal parts in contact with the lading made from metal having a minimum nickel content of 96.7 percent.

§ 179.202–18 Ethylene oxide.

Specifications ARA–IVA and DOT–111A100W4 tank cars used to transport ethylene oxide may have openings in the heads to facilitate nickel lining provided openings are closed in an approved manner. No copper or copper bearing alloys must be used in any part of the tank or appurtenances if such part is normally in contact with ethylene oxide liquid or vapor. Tank jacket must be stenciled on both sides in letters not less than 1½ inches high "Ethylene Oxide Only".

§ 179.202–19 Dimethylhydrazine, unsymmetrical.

Tank cars used to transport dimethylhydrazine, unsymmetrical, must be equipped with steel safety valves of approved design. Specification DOT–103W tank cars must not be equipped with bottom outlets.

§ 179.202–20 Hydrofluoric acid.

Breather hole in frangible disc prohibited.

§ 179.202–21 Nitric acid.

(a) Tank cars used to transport nitric acid must comply with the following requirements.

(1) Bottom washout or bottom outlet is prohibited unless effectively sealed with an approved arrangement to prevent use during loading and unloading of acid.

(2) Safety vent is prohibited.

§ 179.202–22 Mixed acid (nitric and sulfuric acid) (nitrating acid).

Specifications DOT–103A, 103AW, 111A100F1, or 111A100W2 tank cars used in nitrating and other fuming acids service must be equipped with safety vent of approved design. Breather hole in frangible disc prohibited. Safety valve prohibited.

(O) In § 179.300, the heading would be amended; in § 179.300–6, the text in paragraph (a) preceding the formula and line "t" of the formula's explanation would be amended; § 179.300–7 would be amended; in § 179.300–8, paragraph (b) would be amended; in § 179.300–9, paragraphs (a) and (b) would be amended; § 179.300–10 would be amended; in § 179.300–14, paragraph (a) would be amended; in § 179.300–16, the first sentence of paragraph (a) would be amended by substituting "postweld heat treatment" for "stress relieving" in the first line; in § 179.300–17, paragraph (b) would be amended; in § 179.300–20, paragraph (b) would be amended to read as follows:

§ 179.300 General specifications applicable to multiunit tank car tanks designed to be removed from car structure for filling and emptying. (Classes DOT–103, 104, and 111.)

§ 179.300–6 Thickness of plates.

(a) For class DOT–110A tanks the wall thickness after forming of the cylindrical portion of the tank must not be less than that specified in § 179.301 nor that calculated by the following formula:

. . . . . .

t=Minimum thickness of plate material in inches after forming.

. . . . . .

§ 179.300–7 Materials.

(a) Carbon steel plate material used to fabricate tanks having heads fusion welded to tank shell must comply with the following specifications with the indicated minimum tensile strength and elongation in the welded condition. The maximum allowable carbon content must be 0.31 percent when the individual specification allows carbon content greater than this amount. The plates may be clad with other approved materials.

Specifications	Minimum tensile strength (p.s.i.) welded condition [1]	Minimum elongation in 2 inches (percent) welded condition (longitudinal)
ASTM A 285–69 Gr. A	45,000	29
ASTM A 285–69 Gr. B	50,000	29
ASTM A 285–69 Gr. C	55,000	29
ASTM A 515–69 Gr. 65	65,000	29
ASTM A 515–69 Gr. 70	70,000	29

[1] Maximum stresses to be used in calculations.

(b) Carbon steel plate material used to fabricate tanks with forge welded heads must comply with the following specifications:

Specifications	Minimum tensile strength (p.s.i.) welded condition [1]	Minimum elongation in 2 inches (percent) welded condition (longitudinal)
ASTM A 285–69 Gr. A	45,000	29

[1] Maximum stresses to be used in calculations.

(c) All plates must have their heat number and the name or brand of the manufacturer legibly stamped on them at the rolling mill.

§ 179.300–8 Tank heads.

(b) Class DOT–106A tanks must have forged-welded heads, formed convex to pressure. Heads for forge welding must be torispherical with an inside radius not greater than the inside diameter of the shell. They must be one piece, hot formed in one heat so as to provide a straight flange at least 4 inches long. They must have snug drive fit into the shell for forge welding. The wall thickness after forming must be sufficient to meet the test requirements of § 179.300–16 and to provide for adequate threading of openings.

§ 179.300–9 Welding.

(a) Longitudinal joints must be fusion welded. Head-to-shell joints must be forge welded on class DOT–106A tanks and fusion welded on class DOT–110A tanks. Welding procedures, welders and fabrication must be approved in accordance with AAR Specifications for Tank Cars, Appendix W.

(b) Fusion-welded joints must be in compliance with the requirements of AAR Specifications for Tank Cars, Appendix W, except that circumferential welds in tanks less than 36 inches inside diameter need not be radiotaped.

. . . . . .

Specifications	Minimum tensile strength (p.s.i.) welded condition [1]	Minimum elongation in 2 inches (percent) welded condition (longitudinal)
ASTM A 285–69 Gr. A	45,000	29

[1] Maximum stresses to be used in calculations.

§ 179.300–10 Postweld heat treatment.

After welding is complete, steel tanks and all attachments welded thereto, must be postweld heat treated as a unit in compliance with the requirements of AAR Specifications for Tank Cars, Appendix W.

§ 179.300–14 Attachments not otherwise specified.

Siphon pipes and their couplings on the inside of the tank head and lugs on the outside of the tank head for attaching the valve protective housing must be fusion-welded in place prior to postweld heat treatment. All other fixtures and appurtenances, except as specifically provided for, are prohibited.

§ 179.300–17 Tests of safety relief devices.

. . . . . .

(b) Frangible discs of safety vents must be tested as prescribed in AAR Specifications for Tank Cars, Appendix A, A5.03.

. . . . . .

§ 179.300–20 Reports.

. . . . . .

(b) For builder's Certificate of Construction, see § 179.5 (b), (c), and (d).

(P) In § 179.301 paragraph (a), the table would be amended by adding "p.s.i." after the following entries.

"Start-to-discharge, or burst maximum p.s.i."
"Vapor-tight, minimum p.s.i."

. . . . . .

(Q) Section 179.302 would be amended to read as follows:

§ 179.302 Special commodity requirements for multi-unit tank car tanks.

(a) In addition to §§ 179.300 and 179.301, the following requirements are applicable:

Commodity	Safety relief device	Valve protective housing	Miscellaneous
Chlorine trifluoride	Prohibited [1]		
Chlorpicrin	Prohibited [1]	Gas tight [2]	
Hydrofluoric acid	Prohibited [1]	Gas tight [2]	
Hydrogen sulfide	Prohibited [1]		(3)
Methyl mercaptan	Prohibited [1]		
Nitrogen dioxide liquid	Prohibited [1]	Gas tight [2]	
Nitrogen peroxide liquid	Prohibited [1]	Gas tight [2]	
Nitrogen tetroxide liquid	Prohibited [1]	Gas tight [2]	
Nitrogen tetroxide-nitric oxide mixtures	Prohibited [1]	Gas tight [2]	
Nitrosyl chloride	Fusible plugs required		(4)
Phosgene	Prohibited [1]	Gas tight [2]	
Pyroforic liquid, n.o.s	Valve required		
Titanium tetrachloride (anhydrous)	Prohibited [1]		
Vinyl chloride			(3)
Vinyl methyl ether			(3)

[1] When safety relief devices are prohibited, containers may be equipped with solid steel plugs in the safety device openings.
[2] The detachable protective housing for the loading and unloading valves must withstand tank test pressure without leakage and must be approved by the Bureau of Explosives.
[3] All parts of valves and safety relief devices in contact with the lading must be of a metal or other material, suitably treated if necessary, which will not cause formation of any acetylides.
[4] Tanks for nitrosyl chloride must be nickel-clad.
[5] Valve outlets must have gas tight plugs or caps applied.

Interested persons are invited to give their views on this proposal. Communications should identify the docket number and be submitted in duplicate to the Secretary, Hazardous Materials Regulations Board, Department of Transportation, 400 Sixth Street SW., Washington, DC 20590. Communications received on or before October 5, 1971, will be considered before final action is taken on the proposal. All comments received will be available for examination by interested persons at the Office of the Secretary, Hazardous Materials Regulations Board,

both before and after the closing date for comments.

This proposal is made under the authority of sections 831–835 of Title 18, United States Code, and section 9 of the Department of Transportation Act (49 U.S.C. 1657).

Issued in Washington, D.C., on August 16, 1971.

W. F. REA III,
Rear Admiral, Board Member, for the U.S. Coast Guard.

MAC E. ROGERS,
Board Member, for the Federal Railroad Administration.

TIRES FOR MULTIPURPOSE PASSENGER VEHICLES, TRUCKS, BUSES, TRAILERS, AND MOTORCYCLES

Proposed Motor Vehicle Safety Standard; Correction

In F.R. Doc. 71-11091 appearing at page 14392 in the issue of Thursday, August 5, 1971, the following changes should be made in the text of proposed Motor Vehicle Safety Standard No. 119 in § 571.21:

1. The word "minimum" appearing in the fourth line of S6.4(c) on page 14395 should read "maximum".

2. The ZIP code specified as "20591" in the seventh line of S7.3 on page 14395 should read "20590".

This notice of correction is issued under the authority of sections 102, 112, 113, 114, 119, and 201 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1392, 1401, 1402, 1403, 1407, 1421), and the delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.

Issued on August 18, 1971.

CIVIL AERONAUTICS BOARD

[14 CFR Part 249]

[Docket No. 23736; EDR-210]

PRESERVATION OF AIR CARRIER ACCOUNTS, RECORDS AND MEMORANDA

Optional Use of Records on Microfilm and/or Microfiche as Original Records

AUGUST 19, 1971.

Notice is hereby given that the Civil Aeronautics Board has under consideration proposed amendments to Part 249 of its economic regulations (4 CFR Part 249) which would permit air carriers the option to retain data on microfilm and/or microfiche as an acceptable record in lieu of computer-prepared hard copy reports, listings, etc.

The principal features of the proposed amendment are described in the explanatory statement below and the proposed amendment is set forth in the proposed rule. The amendment is proposed under the authority of sections 204(a) and 407 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 766; 49 U.S.C. 1324, 1377.

Interested persons may participate in the proposed rule making through submission of twelve (12) copies of written data, views, or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before September 24, 1971, will be considered by the Board before taking final action on the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 712 Universal Building, 1825 Connecticut Avenue NW., Washington, DC upon receipt thereof.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

Explanatory statement. Part 249 of the Board's economic regulations (14 CFR Part 249) governs the preservation of records of air carriers and permits the microfilming of original documents in specific instances. When a carrier chooses to microfilm one of the original documents specified under the regulation, the microfilm copy is then accepted in lieu of the original document. Under the present Part 249, original documents consist of paper records such as printed matter, correspondence, memoranda, working sheets, tabulating equipment listings, etc.

In a letter dated March 23, 1971, the Corporate Accounting Committee (Committee) of the Airline Finance and Accounting Conference of the Air Transportation Association of America requested that the Board amend Part 249 so as to permit the optional retention of data on microfilm and/or microfiche as an acceptable record in lieu of computer-prepared hard copy reports, listings, etc. The Committee points out that some air carriers are presently using microfilm systems which are capable of rapid retrieval of information directly from magnetic tape. These systems provide the carrier with the means to preserve and store vast quantities of information within a minimum of space by eliminating the computer production of paper records. The Committee says, however, that the full operating and economic advantages from such systems cannot be realized under the Board's present record-retention provisions.

In order to alleviate this situation by updating the rules to reflect current technological improvements, the Board herewith proposes to alter the definition of "records" in Part 249 to include punched cards, computer-produced listings, microfilm, microfiche, or magnetic storage media (i.e., magnetic tapes, disks). A related proposed change would require each air carrier to accompany each nonreadable form of media with a statement clearly indicating the type of data included in the media and certifying that the information contained therein is complete and accurate. It is further proposed that the air carrier be required to maintain a capability for reading and reproducing the data in printed form from the storage media.

Proposed rule. It is proposed to amend Part 249 of the economic regulations (14 CFR Part 249) as follows:

1. Amend the definition of "Records" in § 249.2 to read:

§ 249.2 Definitions.

* * * * * *

"Records" means original documents [1] constituting integral links in developing the history of, or facts regarding, financial transactions or physical operations. The term "records" embraces not only accounting records in a limited technical sense but all other evidentiary accounts of events such as memoranda, correspondence, working sheets tabulating equipment listings, punched cards, computer produced listings, microfilm, and magnetic storage media (i.e., magnetic tapes, disks). The term "records" also encompasses microfilm reproductions of original documents made as authorized herein. In addition, the term "records" includes any material coming into the possession of the air carrier through merger, consolidation, succession, transfer, or other acquisition.

* * * * * *

2. Delete the definition of "Microfilms" in § 249.2, and in its place substitute the following:

The term "microfilm" includes microfiche.

3. Designate existing § 249.3 as § 249.3 (a) and add new paragraph (b) as follows:

§ 249.3 Preservation of records.

(a) * * *

(b) Each nonreadable form of media, such as punched cards, magnetic tapes and disks, shall be accompanied by a statement clearly indicating the type of data included in the media and certifying that the information contained therein is complete and accurate. Also, each air carrier shall maintain capability for reading and reproducing the data on printed form from storage media.

[14 CFR Part 373]

[Docket No. 23739; SPDR-24]

STUDY GROUP CHARTERS

Definition of Study Group

AUGUST 20, 1971.

Notice is hereby given that the Civil Aeronautics Board has under consideration an amendment to Part 373 of its special regulations (14 CFR Part 373), which would liberalize the definition of "study group" therein contained.

[1] Relating to a particular segment, operating division, or entire system of the carrier's operations.

The purpose of the proposed amendment is described in the explanatory statement below, and the proposed amendment is set forth in the proposed rule. The amendment is proposed under the authority of sections 101(3), 101(33), 204(a), 401, and 402 of the Federal Aviation Act of 1958, as amended, 72 Stat. 737, 743, 754, and 757; 49 U.S.C., 1301, 1324, 1371, and 1372.

Interested persons may participate in the proposed rule making through submission of twelve (12) copies of written data, views, or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before September 27, 1971, will be considered by the Board before taking final action on the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 712 Universal Building, 1825 Connecticut Avenue NW., Washington, DC, upon receipt thereof.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

Explanatory statement. Part 373 of the Board's special regulations (14 CFR Part 373) authorizes, subject to conditions, study group charters by study group charterers with the air transportation portion thereof provided by direct air carriers and foreign air carriers. "Study group" is presently defined as a charter group comprised solely of bona fide participants in a formal academic course of study abroad which is of at least 4 weeks' duration, and in which (1) the charterer is an educational institution or (2) such a study course is conducted at one or more foreign educational institutions abroad and, on or after September 1, 1971, includes a minimum of 15 hours of classroom instruction per week for the first 4 weeks of such study course.

The Board is of the tentative view that the present definition of study group is unduly restrictive, inasmuch as it requires that the requisite hours of classroom instruction be conducted in the first 4 weeks of the course. This might unnecessarily limit the freedom of the study group charterer to structure the program, with its mix of classroom instruction and travel, in a manner most beneficial to the students. Moreover, it should be considered that the first day or two of the program must usually be spent in traveling to the locale of the classroom instruction, and this problem could be aggravated in cases in which the study course is conducted at more than one foreign educational institution. Thus, we are of the tentative view that an amendment to permit the 4 weeks of classroom instruction to be scheduled anytime during the study course would provide the study group charterers with increased flexibility, without altering the concept of the study group charter.

Proposed rule. It is proposed to amend Part 373 of the Special Regulations (14 CFR Part 373), as follows:

Amend the definition of "study group" in § 373.2 to read as follows:

§ 373.2 Definitions.

* * * * * *

"Study group" means a charter group comprised solely of bona fide participants in a formal academic course of study abroad which is of at least 4 weeks' duration, and in which (1) the charterer is an educational institution or (2) such a study course is conducted at one or more foreign educational institutions abroad and, on or after September 1, 1971, includes a minimum of 15 hours of classroom instruction per week for 4 weeks of such study course: *Provided, however,* That nothing contained herein shall preclude a study group charterer from utilizing any unused space on an aircraft chartered by it pursuant to this part for the transportation, on a free or reduced-rate basis, of such charterer's employees, directors, and officers, and the parents and immediate families of such persons, subject to the provisions of Part 223 of this chapter.

FEDERAL RESERVE SYSTEM

[12 CFR Part 222]

[Reg. Y]

BANK HOLDING COMPANIES

Interests in Nonbanking Activities

On May 27, 1971, the Board of Governors announced the initial implementation of its regulatory authority under section 4(c)(8) of the Bank Holding Company Act to permit holding companies to engage directly or through a subsidiary in activities that are "so closely related to banking or managing or controlling banks as to be a proper incident thereto" (36 F.R. 10777).

One of the activities the Board determined to be closely related to banking is "acting as investment or financial adviser, including (i) serving as the advisory company for a mortgage or a real estate investment trust and (ii) furnishing economic or financial information". In announcing that determination the Board indicated that acting as investment adviser to an open-end investment company is not regarded by the Board as within the description of this activity. The Board stated that it was considering whether to propose expanding such activity to include acting in that capacity.

The Board has considered such action in the light of the U.S. Supreme Court's decision in "Investment Company Institute v. Camp" (401 U.S. 617). It has concluded that such decision does not affect the Board's authority to permit holding companies to provide advisory services to open-end or closed-end investment companies.

Accordingly, the Board proposes to amend § 222.4(a) of Regulation Y to permit bank holding companies, subject to the procedures of § 222.4(b), to serve as an investment adviser to an investment company. The text of the proposed amendment reads as follows:

§ 222.4 Nonbanking activities.

(a) *Activities closely related to banking or managing or controlling banks.* * * * The following activities have been determined by the Board to be so closely related to banking or managing or controlling banks as to be a proper incident thereto:

* * * * * *

(5) Acting as investment or financial adviser, including (i) serving as the advisory company for a mortgage or a real estate investment trust; (ii) serving as investment adviser to an investment company registered under the Investment Company Act of 1940; and (iii) furinterested persons are also given opportion.

* * * * * *

To aid in the consideration by the Board of this matter, interested persons are invited to submit relevant data, views, or arguments. In accordance with the provisions of section 4(c)(8) of the Act, interested persons are also given opportunity to request a hearing on this matter. Any comments or requests for hearing should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than September 24, 1971. Such material will be made available for inspection and copying upon request, except as provided in § 261.6(a) of the Board's Rules Regarding Availability of Information.

By order of the Board of Governors, August 12, 1971.

[SEAL] ELIZABETH L. CARMICHAEL,
Assistant Secretary.

[FR Doc.71-12377 Filed 8-24-71;8:46 am]

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

[Release 34-9288]

MINIMUM NET CAPITAL REQUIREMENTS FOR BROKER-DEALERS

Notice of Proposed Rule Making

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to amend its Rule 15c3-1 (17 CFR 240.15c3-1) under the Securities Exchange Act of 1934 (Exchange Act). This rule now provides that brokers or dealers engaged in the general securities business have a net capital ratio of 20 to 1 and maintain a minimum net capital of $5,000. The proposed amendments which would be adopted under the provisions of the Exchange Act and particularly sections 15c(3) and 23(a) thereof would impose an initial net

capital ratio of 8 to 1 on all brokers and dealers for the first 12 months of their existence and an increased capital requirement of $25,000 except for those whose businesses are limited as specified in clauses (A), (B), and (C) of paragraphs (a)(2).

The hardships as well as financial losses faced in recent years by customers respecting their securities and cash in the possession of brokers or dealers who became insolvent have highlighted the inadequacy of the present capital requirements of brokers and dealers. It is accordingly imperative that increased net capital requirements be applied to brokers and dealers so that as going businesses they can meet all of their current obligations to transmit funds and securities to customers. In this connection, the Commission has recently cooperated with the New York Stock Exchange in its revision of the Exchange's net capital rule. One of the changes achieved thereby was to increase minimum net capital requirements to $100,000 for member firms which carry customer accounts.

Rule 15c3–1 (17 CFR 240.15c3–1) provides that brokers or dealers, with certain exceptions, must have and maintain a net capital of not less than $5,000. This minimum amount was established by an amendment to the rule which became effective on December 1, 1965.[1] Prior to that date no minimum was required. The $5,000 minimum was imposed in part because of the findings of the special study[2] that a significant proportion of firms with low capital have a tendency to incur net capital difficulties under the Commission's ratio rule and to become subject to revocation proceedings. The recent Committee Staff Study for a Special Subcommittee of the House Committee on Interstate and Foreign Commerce noted the following:

> Our review of broker-dealers recently involved in liquidation proceedings or adjudged bankrupt, disclosed that many of these firms were relatively newly organized firms and had small initial capitalization ranging from the minimum of $5,000 to as much as $250,000. The small capitalization tended to produce a rapid and a relatively serious deterioration in financial stability during the period of market decline in 1969 and 1970.[3]

[1] See Securities Exchange Act Release No. 7611 (May 26, 1965) and the FEDERAL REGISTER of June 2, 1965, 30 F.R. 7276.

[2] See Report of Special Study of Securities Markets, Pt. I, pp. 83–93, 152–153, and 160–162.

[3] Review of SEC Records of the Demise of Selected Broker-Dealers, Staff Study for the Special Subcommittee on Investigations of the Committee on Interstate and Foreign Commerce, House of Representatives, 92d Congress, first sess., pp. 26–27 (July 1971).

This study also suggested that attention be directed to the need for increasing the minimum net capital provisions of brokers and dealers "particularly those just entering the securities industry."[4] The Commission concurs with this conclusion and is proposing an amendment to paragraph (a) of 15c3–1 (17 CFR 240.15c3–1) which would require brokers and dealers to have and maintain a minimum net capital of not less than $25,000 except those brokers and dealers who are now required to have a minimum net capital of $2,500 by reason of their limited operations as specified in clauses (A), (B), and (C) of paragraph (a)(2) of Rule 15c3–1 (17 CFR 240.15c3–1). Moreover, the Commission is also proposing another amendment to paragraph (a) of the rule which would require brokers or dealers upon entry into the securities business to initially have, and to maintain for a period of 12 months thereafter, an aggregate indebtedness not in excess of 800 percent of net capital. This initial ratio requirement will help assure that new brokers or dealers will be able to meet their current obligations to transmit funds and securities to customers.

All brokers or dealers now in operation would be required to have a minimum net capital of $15,000 not later than 6 months after the effective date of the proposed amendment to the rule and $25,000 within 12 months after the amendment goes into effect. If the amendment is adopted, all brokers or dealers who commence business on or after the date of this release will be required to have the initial net capital ratio requirement of 8 to 1 and a minimum net capital of $25,000 within 30 days after the effective date of the proposed amendment.

Rule 17a–3(b) (17 CFR 240.17a–3(b)) in effect prohibits brokers or dealers who are not members of a national securities exchange from acting as clearing firms or from introducing customer accounts on a fully disclosed basis to other firms. The Commission is considering the advisability of issuing a later release respecting an amendment to permit over-the-counter brokers or dealers to introduce accounts on a fully disclosed basis and to carry customer accounts for other brokers or dealers, and to impose greater net capital requirements on the firms which carry customer accounts. All interested persons are invited to submit their views and comments on this proposal.

[4] Id. at 33.

The proposed amendments of Rule 15c3–1 (17 CFR 240.15c3–1) are indicated below.

Paragraph (a) and subparagraph (2) of paragraph (b) of § 240.15c3–1 of Chapter II of Title 17 of the Code of Federal Regulations would be amended as follows:

§ 240.15c3–1 Net capital requirements for brokers and dealers.

(a) * * *

(1) His aggregate indebtedness to all other persons shall not exceed 2,000 per centum of his net capital; except that when a person first becomes a broker or dealer on and after _____ and for 12 months after he first becomes a broker or dealer his aggregate indebtedness to all other persons on and after _____ shall not exceed 800 per centum of his net capital, and

(2) He shall have and maintain net capital of not less than $15,000 on and after _____. He shall have and maintain net capital of not less than $25,000 on and after _____:

Provided, however, That every person who becomes a broker or dealer on and after _____ shall have and maintain net capital of not less than $25,000 on and after _____; and the minimum net capital to be maintained by a broker or dealer meeting all of the following conditions shall be $2,500:

* * * * *

(b) *Exemptions.* * * *

(2) * * * This exemption shall not be available to the members of any exchange whose capital rules fail to provide for a minimum net capital of not less than that provided in subparagraphs (1) and (2) of paragraph (a) of this section.

* * * * *

All interested persons are invited to submit their views and comments on the above proposal, in writing, to the Securities and Exchange Commission, Washington, D.C. 20549 on or before September 17, 1971. All such communications will be available for public inspection.

By the Commission, August 13, 1971.

[SEAL] RONALD F. HUNT,
Acting Associate Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24SF–3705]

CEM-COTE, INC.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

AUGUST 7, 1971.

I. Cem-Cote, Inc. (Issuer), 120 East Flamingo Road, Suite 450, Las Vegas, NV 89109, was incorporated in Nevada on August 28, 1969 to engage in the manufacturing of Cem-Cote "an entirely new product which is a surfacing coating substance which will add new beauty and longer life to wall surfaces with decorative concrete facing for exterior and interior walls."

On April 16, 1971, Issuer filed with the San Francisco Regional Office a Notification and offering circular pursuant to Regulation A for the sale of 200,000 shares of common stock at an offering price of $0.01 per share and 225,900 shares of preferred common stock at an offering price of $2 per share for a total offering of $453,800. The offering further purports to cover 40,200 unregistered shares of preferred common stock which were sold within 1 year prior to the filing of the Notification for $1 per share under a claimed exemption from registration pursuant to section 4(2) of the Securities Act of 1933, as amended.

II. The Commission, on the basis of information reported to it by its staff, has reasonable cause to believe that:

A. The offering would be made in violation of section 17 of the Securities Act of 1933 in that:

(1) The Notification and offering circular omit to state material facts necessary in order to make the statements made, in the light of circumstances under which they were made, not misleading in that:

a. Issuer fails to disclose that commissions on sales of the securities being offered would accrue to officers and directors of Issuer.

b. Issuer makes unsubstantiated claims for its product's durability, toughness, and appearance.

c. The offering circular states that G. W. Barnes, the Issuer's president, was a real estate salesman and president of G. W. Barnes Investment Co., but omits to state that during part of the period referred to G. W. Barnes' principal occupation was as a gasoline service station operator, and for a part of the period he was manager of a golf driving range.

d. Issuer omits to state advantages that could accrue to officers and directors should they purchase for the nominal cost of $2,000 the 200,000 common shares included in the offering. The per share book value of these common shares would increase substantially as a result of the offering, while the shares of preferential common stock would be offered at $2 per share with a liquidation value of $1.25, a substantial decrease benefitting the common shareholders.

e. Issuer fails to disclose that use of the name Cem-Cote for its product could give rise to an action against it for infringement of trademark (owned by another company).

(2) Issuer is and would be engaging in acts, practices, and courses of business which would operate as a fraud and deceit upon the purchasers of the securities being offered in that the adoption of the term "Cem-Cote" as part of its corporate name and as the brand name of the wall coating which it proposes to manufacture, is misleading and deceptively similar to a registered trade mark "Kem" which is widely used as a prefix to nationally advertised brands of paint manufactured and sold under such names as Kem-Tone, Kem-Glo, and other like combinations by a large paint manufacturer.

B. The terms and conditions of Regulation A have not been complied with in that:

(1) Issuer includes in its offering 40,200 preferential common shares which were sold prior to the filing of the Notification.

(2) Issuer failed to list G. W. Barnes Investment Co. as an affiliate of Issuer, as required by the Notification, Form 1–A.

(3) Issuer does not include a reasonably itemized statement of the purposes for which the net cash proceeds to the Issuer from the sale of the securities are to be used.

(4) Issuer failed to state the location and general character of its plant; and, if none, failed to state its plans for such and failed to allocate funds for such.

III. It appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of the Issuer under Regulation A be temporarily suspended.

It is ordered, Pursuant to Rule 261(a) of the General Rules and Regulations under the Securities Act of 1933, as amended, that the exemption of Cem-Cote, Inc. under Regulation A be, and it hereby is, temporarily suspended.

It is further ordered, Pursuant to Rule 7 of the Commission's rules of practice, that the Issuer file an answer to the allegations contained in this order within 30 days of the entry thereof.

Notice is hereby given that any person having an interest in the matter may file with the Secretary of the Commission a written request for hearing within 30 days after the entry of this order; that within 20 days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission, for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; that if no hearing is requested and none is ordered by the Commission, this order shall become permanent on the 30th day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission; and that notice of the time and place for any hearing will be promptly given by the Commission.

By the Commision.

[SEAL] RONALD F. HUNT,
Acting Associate Secretary.

LOV'N LEATHER, INC.

Order Permanently Suspending Exemption

AUGUST 16, 1971.

Lov'n Leather, Inc., 1169 Cushman Street, San Diego, CA, a Nevada corporation, filed with the Commission a notification and offering circular for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933 (Act) pursuant to section 3(b) thereof and regulation A thereunder, with respect to a public offering of 5,000 shares of its common stock at $1 per share.

On June 8, 1971, the Commission issued an order, pursuant to rule 261 of regulation A, temporarily suspending the exemption. The order alleged that the notification and offering circular contained untrue and misleading statements of material facts in that, among other things, they failed to disclose that four individuals who purchased the entire 5,000 shares being offered were underwriters of the offering; the States in which the offering was intended to be made; and the issuer's intent to increase the number of shares outstanding by 500 for 1 stock split. The temporary suspension order further alleged that the terms and conditions of regulation A were not complied with in that the company failed to state the method by which the shares were to be offered and its report on Form 2–A was false and misleading in stating that the offering was completed on October 21, 1970, and in misstating the offering price to the public and the proceeds accruing to the underwriters; and that the offering was made in violation of section 17(a) of the Act.

The order specified that if no hearing was requested within 30 days on the issue

whether the suspension order should be vacated or made permanent, and if none was ordered by the Commission, the temporary suspension would become permanent. The issuer filed a response containing denials of the allegations in the temporary suspension order, but thereafter, without admitting or denying those allegations, the issuer stated that it did not desire to have and it did not request a hearing, and further stated that it understood that as a result of that decision on its part the suspension will become permanent.

In view of the foregoing, it is appropriate to enter an order permanently suspending the exemption.

Accordingly, it is ordered, Pursuant to rule 261 of regulation A under the Securities Act of 1933, that the exemption from registration with respect to the offering of securities by Lov'n Leather, Inc. be, and it hereby is, permanently suspended.

For the Commission, by the Office of Opinions and Review, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Acting Associate Secretary.

[FR Doc.71-12407 Filed 8-24-71;8:48 am]

FEDERAL TRADE COMMISSION

MODERN ADVERTISING PRACTICES

Notice of Public Hearing and Opportunity to Submit Data or Views

Notice is hereby given that the Federal Trade Commission, pursuant to the Federal Trade Commission Act, as amended, 15 U.S.C. 41, et seq., will conduct open hearings designed to explore modern advertising practices and their impact on consumers, with special attention to television advertising.

The hearings will involve neither review nor evaluation of specific advertising representations or claims in terms of their possible violation of the law. Individual questions of advertising deception or misrepresentation will continue to be dealt with by complaint or rulemaking procedures. The hearings will attempt to elicit empirical information from a wide variety of authorities regarding a number of aspects of advertising. The Commission's current primary interests are the following:

Children. As a class, children have always been the subject of the special protection of law. Underlying this proposition is a recognition of the vulnerability of children to suggestion, and their immaturity of judgment. This special protection afforded for children includes protecting them as consumers or television viewers. The unique aspects of television may provide compelling reasons for arguments that special standards should be developed in the regulation of advertising addressed to children. In order to better acquaint itself with the considerations involved in developing such standards, the Commission desires to explore how children learn, perceive, and make decisions.

Advertising themes. The Commission desires to inform itself about the extent to which some advertising may appeal to such fears or anxieties as social acceptance or personal well-being.

Technical aspects. The Commission desires to inform itself about whether and how certain photographic and other techniques used in making TV and other commercials may make use of nonverbal persuasion which may not be recognized by viewers.

Physical, emtiondl and psychological responses. New methods of advertising may be causing effects in viewers different from those customarily generated by advertising. The Commission desires to learn about consumers' physical, psychological, and emotional responses to advertising.

The hearings will be for informational purposes only and will not be geared to the adoption of a rule or other form of guideline. Whether future Commission action will result from the information developed will depend on the facts obtained from the record of these hearings.

All interested persons, including the consuming public, having information based upon empirical data or other expertise, are hereby notified that they may file written data or views concerning modern advertising practices with the Director, Bureau of Consumer Protection, Federal Trade Commission, Pennsylvania Avenue and Sixth Street NW., Washington, DC 20580. To the extent practicable, persons wishing to file written presentations in excess of two pages should submit 20 copies.

All interested parties are also given notice of opportunity to present data or views orally at the public hearings to be held 10 a.m., October 20, 21, and 26, 1971, in Room 532 of the Federal Trade Commission Building, Washington, D.C.

Any person desiring to present his views orally at the hearing should so inform the Attorney-Advisor to the Chairman not later than September 15, 1971, and state the estimated time required for his oral presentation. Reasonable limitations upon the length of time alloted to any person may be imposed. In addition, all parties desiring to deliver a prepared statement at the hearing should file such statement with the Director, Bureau of Consumer Protection, on or before October 1, 1971.

NOTES: (1) Depending on the geographical location of those persons desiring to present views or data orally, the Commission will consider holding hearings in locations other than Washington, D.C. Notice of hearings scheduled for locations other than Washington, D.C., will appear in the FEDERAL REGISTER. (2) Because the duration of the hearings is contingent on the number of persons wishing to express views or data orally, the public record in this proceeding will remain open until further notice appears in the FEDERAL REGISTER.

The data or views presented at the hearings or filed for the record will be available for examination by interested parties at the Office of the Assistant Secretary for Legal and Public Records, Federal Trade Commission, Washington, D.C.

By direction of the Commission dated August 17, 1971.

[SEAL] PAUL M. TRUEBLOOD,
Acting Secretary.

TARIFF COMMISSION

[TEA-I-22]

CERAMIC ARTICLES, INCLUDING DINNERWARE

Notice of Change in Scope of Investigation and Rescheduling of Hearing

Following receipt of communications filed by the American Dinnerware Emergency Committee and the American Fine China Guild on August 17 and 19, respectively, the U.S. Tariff Commission, on August 19, 1971, amended the scope of investigation No. TEA-I-22 under section 301(b) of the Trade Expansion Act of 1962 (36 F.R. 11617).

The investigation, as amended, is to determine whether, as a result in major part of concessions granted under trade agreements—

articles chiefly used for preparing, serving, or storing food or beverages, or food or beverage ingredients, all the foregoing of fine-grained earthenware, of fine-grained stoneware, of chinaware, or of subporcelain, and provided for in items 533.14 through 533.77 of the Tariff Schedules of the United States, inclusive, but excluding item 533.51 thereof,

are being imported into the United States in such increased quantities as to cause, or threaten to cause, serious injury to the domestic industry or industries producing articles which are like or directly competitive with the imported articles. Notice of the investigation was published in the FEDERAL REGISTER of June 16, 1971 (36 F.R. 11617).

Public hearing rescheduled. The public hearing ordered to be held beginning September 14, 1971 (36 F.R. 14682), is rescheduled to begin at 10 a.m., e.s.t., on November 30, 1971, in the Hearing Room, Tariff Commission Building, Eighth and E Streets NW., Washington, DC. Appearances at the hearing should be entered in accordance with § 201.13 of the Tariff Commission's rules of practice and procedure.

Requests to appear must contain a careful estimate of the aggregate time desired for presentation of oral testimony by all witnesses for whose appearances the request is filed.

Issued: August 20, 1971.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

Notice of Proposed Withdrawal and Reservation of Lands

AUGUST 16, 1971.

The Bureau of Customs, Department of the Treasury, has filed an application, serial number F-13962, for the withdrawal of the lands described herein from all forms of appropriation except the mineral leasing laws. The land is to be used jointly by the Bureau of Customs and the Immigration and Naturalization Service as the site for a border inspection station to aid in the enforcement of the customs and immigration laws. The Bureau proposes to construct upon the land an inspection station and a residence to accommodate a staff of aproximately four persons. The proposed withdrawal is subject to a 60-foot withdrawal along the Alaska-Canada border, established by Presidential proclamations of June 15, 1908 (35 Stat. 2189) and May 3, 1912 (37 Stat. 1741).

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, 555 Cordova Street, Anchorage, AK 99501.

The Department's regulation, 43 CFR 2351.4(c), provides that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are described as follows:

Beginning at the intersection of the Alaska-Canada international boundary with the centerline of the road between boundary, Alaska and Dawson, Yukon Territory, at approximate latitude 64°05.1' N., longitude 141°00' W.; thence 330 feet south along the international boundary to corner No. 1; thence at a right angle west 660 feet to corner No. 2; thence at a right angle north 660 feet to corner No. 3; thence at a right angle east 660 feet to corner No. 4; thence at a right angle south 330 feet along the international boundary to the point of beginning.

Containing approximately 10 acres at Poker Creek on the Boundary-Dawson Highway.

CURTIS V. MCVEE,
Acting State Director.

Bureau of Reclamation

DESCHUTES NATIONAL FOREST, OREG.

Order of Transfer of Administrative Jurisdiction of Land at Wickiup Reservoir

By virtue of the authority vested in the Secretary of the Interior by section 7(c) of the Act of July 9, 1965 (79 Stat. 217), and his delegation of authority to the Commissioner of Reclamation dated February 25, 1966, published March 4, 1966 (31 F.R. 3426), jurisdiction over the following described lands, aggregating some 1,412.79 acres which lie within or adjacent to exterior boundaries of the Deschutes National Forest, Oreg., and which were acquired by the Bureau of Reclamation in the development of the Wickiup Reservoir, Deschutes Project, is hereby transferred to the Secretary of Agriculture for recreational and other National Forest System purposes:

WILLAMETTE MERIDIAN

T. 21 S., R. 8 E.,
Sec. 34, S½SW¼SE¼SW¼, SE¼SE¼SW¼, SW¼SW¼SE¼.
T. 22 S., R. 8 E.,
Secs. 2 and 3, all lands in H.E.S. 225;
Sec. 3, lots 3, 7, 8, W½SW¼NE¼NE¼, S½NW¼NE¼, S½NW¼NW¼, NE¼SW¼NW¼, NW¼SE¼NW¼;
Sec. 12, E½SW¼SE¼, NW¼SE¼SE¼, S½SE¼SE¼;
Sec. 13, NE¼NE¼, E½NW¼NE¼, NE¼SW¼NE¼, N½SE¼NE¼;
Sec. 25, E½E½NE¼NE¼.

T. 22 S., R. 9 E.,
Sec. 7, lot 1, NE¼, NE¼NW¼, E½E½SW¼SW¼, SE¼SW¼, W½SE¼, W½SW¼SE¼SE¼;
Sec. 17, S½NW¼NW¼;
Sec. 18, S½NE¼NE¼NE¼, W½NE¼NE¼SE¼NE¼NE¼, NE¼NE¼NW¼, W½NE¼NW¼, E½NW¼NW¼, SW¼NW¼NW¼, NW¼SW¼NW¼;
Sec. 19, lot 7, all;
Sec. 30, lots 1, 2, 5, W½E½NW¼NE¼, W½W½NE¼, NE¼NW¼, W½W½SE¼NW¼, W½NW¼SE¼, W½W½SW¼SE¼;
Sec. 31, W½SW¼NW¼NE¼, S½NE¼SW¼NE¼, W½SW¼NE¼, SE¼SW¼NE¼, SE¼NW¼, NE¼SW¼, E½SE¼SW¼, W½NW¼NE¼SE¼, W½SE¼.

The lands above described aggregate 1,412.79 acres, more or less.

Pursuant to said section 7(c) of the aforesaid Act of July 9, 1965, the above lands shall become National Forest lands provided that all lands and waters within the Wickiup Reservoir area needed or used for the operation of the project or for other Reclamation purposes shall continue to be administered by the Commissioner of Reclamation to the extent he determines to be necessary for such operation.

This order shall be effective upon publication in the FEDERAL REGISTER (8-25-71).

Dated: August 17, 1971.

W. H. KEATING,
Acting Commissioner of Reclamation.

DEPARTMENT OF COMMERCE

Bureau of International Commerce

[File No. 23(71)-15]

SEUROLEC S.A. AND ALBERT ROLLAND

Order Temporarily Denying Export Privileges

In the matter of Seurolec S.A. (Societe Europeene Electronique S.A.), and Albert Rolland, 39-41 rue de l'Est, 92 Boulogne-sur-Seine, France, and 41 East 42d Street, New York, NY 10017, respondents; File No. 23(71)-15.

The Director, Investigations Division, Office of Export Control, Bureau of International Commerce, pursuant to § 388.11 of the Export Control Regulations, has applied to the Compliance Commissioner for an order against the above respondents temporarily denying all U.S. export privileges. The Compliance Commissioner has reviewed the application and the evidence presented in support thereof and has submitted his report, together with a recommendation that the application be granted and that a temporary denial order be issued for 90 days.

On the evidence presented there is reasonable basis to believe the following: The respondent Seurolec S.A., whose full name is Societe Europeene Electronique S.A., is a dealer and distributor of electric measuring instruments and testing equipment and also of electronic accessories and components; the company has a place of business in Boulogne-sur-Seine near Paris, France; the respondent, Albert Rolland, is president of the company and is its chief executive officer; the said Rolland participated in the transactions hereinafter described on behalf of Seurolec; in July 1970 Rolland ordered U.S.-origin strategic equipment from the French distributor of a U.S. manufacturer; in order to effect the exportation Rolland represented to the U.S. Government that the equipment was for Seurolec's own use in its manufacturing activities; the equipment was exported to Seurolec in France and on its arrival Rolland turned the equipment over to one Roland Hagn. There is also reason to believe that Rolland ordered the equipment to fill a previous order from said Hagn and at all times intended to turn the equipment over to Hagn. Further, the evidence does not show that the ultimate destination of the equipment was one that would have been authorized by the Office of Export Control. There is also reason to believe that Rolland has been purchasing equipment in the United States and exporting same without the required validated export licenses.

The investigation relating to respondents' participation in transactions involving U.S.-origin commodities is continuing. I find that it is reasonably necessary to protect the public interest pending final disposition of the investigation to issue an order against respondents denying all U.S. export privileges for a period of 90 days.

Accordingly, it is hereby ordered:

I. All outstanding validated export licenses in which respondents appear or participate, in any manner or capacity, are hereby revoked and shall be returned forthwith to the Bureau of International Commerce for cancellation.

II. The respondents, their assigns, representatives, agents, and employees hereby are denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction involving commodities or technical data exported from the United States, in whole or in part, or to be exported, or which are otherwise subject to the Export Control regulations. Without limitation of the generality of the foregoing, participation prohibited in any such transaction, either in the United States or abroad, shall include participation, directly or indirectly, in any manner or capacity: (a) As a party or as a representative of a party to any validated export license application; (b) in the preparation or filing of any export license application or reexportation authorization, or any document to be submitted therewith; (c) in the obtaining or using of any validated or general export license or other export control document; (d) in the carrying on of negotiations with respect to or in the receiving, ordering, buying, selling, delivering, storing, using, or disposing of any commodities or technical data in whole or in part exported or to be exported from the United States; and (e) in the financing, forwarding, transporting, or other servicing of such commodities or technical data.

III. Such denial of export privileges shall extend not only to the respondents, but also to their agents and employees and to any person, firm, corporation, or business organization with which they now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade or services connected therewith.

IV. This order shall become effective forthwith and shall remain in effect for a period of 90 days unless it is hereafter extended, modified, or vacated in accordance with the provisions of the U.S. Export Control Regulations.

V. No person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of International Commerce, shall do any of the following acts, directly or indirectly, or carry on negotiations with respect thereto, in any manner or capacity, on behalf of or in any association with the respondents, or whereby the respondents may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) Apply for, obtain, transfer, or use any license, Shipper's Export Declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for any respondent, or (b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

VI. A copy of this order shall be served on respondents.

VII. In accordance with the provisions of § 388.11(c) of the Export Control Regulations, the respondents may move at any time to vacate or modify this temporary denial order by filing with the Compliance Commissioner, Bureau of International Commerce, U.S. Department of Commerce, Washington, D.C. 20230, an appropriate motion for relief, supported by substantial evidence, and may also request an oral hearing thereon, which, if requested, shall be held before the Compliance Commissioner, at Washington, D.C., at the earliest convenient date.

Dated: August 19, 1971.

RAUER H. MEYER,
Director, Office of Export Control.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

OFFICE OF THE DEPUTY ASSISTANT SECRETARY (MANAGEMENT PLANNING AND TECHNOLOGY)

Statement of Organization and Functions

Chapter 1-G Assistant Secretary (Planning and Evaluation), is amended to delete from 1-G .20-G Deputy Assistant Secretary (Program Systems), the function "* * * the development of systems designed to measure the Nation's progress toward its stated goal." This function is transferred to the Assistant Secretary for Administration and Management and assigned to a newly created Office of the Deputy Assistant Secretary for Management Planning and Technology.

1U06.00 *Mission.* The Office of the Deputy Assistant Secretary (Management Planning and Technology), under the general direction of the Assistant Secretary for Administration and Management serves as the Secretary's principal staff for developing and operating the overall management and control system for the Department, including the development of major performance indicators and the coordination and policy direction over the statistical and program information activities of the Department.

The functions of the office are built around the Department's Operational Planning System which insures that budgeted resources are applied in accordance with the strategy for attaining the specified short-term objectives through:

A. The communications of the Secretary's program priorities.

B. The management planning within budget resources to achieve these measurable objectives.

C. Monitoring of progress in achieving these objectives.

D. Identifying needs for corrective action and following up on these actions to insure their application.

E. Encouraging cooperation and coordination among agencies and regional offices.

F. The personal involvement by the Secretary and top managers by timely reporting and through a dialogue between agencies and the Secretary at regularly scheduled management conferences.

1U06.10 *Organization.* The Office of the Deputy Assistant Secretary (Management Planning and Technology), is organized into the following components:

A. Operational Planning Staff.

B. Management Science Staff.

C. Statistical and Program Information Staff.

1U06.20 *Functions.* A. The Operational Planning Staff provides leadership and guidance in the development and operation of a management by objective system for measuring program performance in its relationship to the goals and objectives laid down by the Secretary.

B. The Management Science Staff provides leadership and guidance in the design, development, and implementation of systems and methods for evaluating program operations. Conducts cost-benefit, cost-effectiveness, and similar studies and analyses in the application of advanced management and operations research techniques to improve work and management methods.

C. The Statistical and Program Information Staff works closely with the other Office of the Secretary components and the Agencies and provides technical guidance and policy supervision over the Department's vast statistical and program reporting systems. This includes the development plans for data collection, statistical standards, reports clearance, and the relationships between program information and other management information sources. Its efforts are directed toward the provision of timely, pertinent, and comprehensive consolidated information about the conditions of health, education, and social welfare of the country.

Dated: August 18, 1971.

RONALD BRAND,
Deputy Assistant Secretary for Management.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. D-71-123]

ACTING FEDERAL INSURANCE ADMINISTRATOR

Designation

The Assistant Administrator for Program Development, the Assistant Administrator for Special Programs, and the Assistant Administrator for Flood Insurance, in the order named, are hereby designated to serve as Acting Federal Insurance Administrator during the absence of the Federal Insurance Administrator, with all the powers, functions, and duties delegated or assigned to the Administrator.

This designation supersedes the delegation published at 35 F.R. 12360, effective July 22, 1970.

(Secretary's delegations of authority effective Feb. 27, 1969 (34 F.R. 2680, Feb. 27, 1969))

Effective date. This designation shall be effective as of Friday, August 13, 1971.

GEORGE K. BERNSTEIN,
Federal Insurance Administrator.

ATOMIC ENERGY COMMISSION

[Docket No. 50-293]

BOSTON EDISON CO.

Notice of Prehearing Conference

In the matter of Boston Edison Co. (Pilgrim Nuclear Power Station).

On July 12, 1971 the AEC issued a notice of hearing on a facility operating license in the above-entitled matter. (36 F.R. 13287) The notice authorized the Atomic Safety and Licensing Board designated therein to set the date and place of a Prehearing Conference.

Pursuant to this authorization, notice is hereby given that a Prehearing Conference in the above-entitled proceeding will be held at 10 a.m. on Wednesday, October 6, 1971, in the:

Probate Courtroom, Registry Building, Russell Street, Plymouth, Mass. 02360.

Dated this 19th day of August 1971 at Washington D.C.

ATOMIC SAFETY AND LICENSING BOARD,
NATHANIEL H. GOODRICH,
Chairman.

CIVIL AERONAUTICS BOARD

[Docket No. 23627; Order 71-8-82]

BUCKEYE AIR SERVICE, INC.

Order to Show Cause

Issued under delegated authority August 18, 1971.

The Postmaster General filed a notice of intent July 19, 1971, pursuant to 14 CFR Part 298, petitioning the Board to establish for the above captioned air taxi operator, a final service mail rate of 62.41 cents per great circle aircraft mile for the transportation of mail by aircraft between Traverse City, Lansing, Saginaw, and Detroit, Mich., based on five round trips per week.

No protest or objection was filed against the proposed services during the time for filing such objections. The Postmaster General states that the Postal Service and the carrier agree that the above rate is a fair and reasonable rate of compensation for the proposed services. The Postmaster General believes these services will meet postal needs in the market. He states the air taxi plans to initiate mail service with Beechcraft S-18 or equivalent twin-engine aircraft.

It is in the public interest to fix, determine, and establish the fair and reasonable rate of compensation to be paid by the Postmaster General for the proposed transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, between the aforesaid points. Upon consideration of the notice of intent and other matters officially noticed, it is proposed to issue an order [1] to include the following findings and conclusions:

The fair and reasonable final service mail rate to be paid to Buckeye Air Service, Inc., in its entirety by the Postmaster General pursuant to section 406 of the Act for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, shall be 62.41 cents per great circle aircraft mile between Traverse City, Lansing, Saginaw, and Detroit, Mich., based on five round trips per week flown with Beechcraft S-18 or equivalent twin-engine aircraft.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 406 thereof, and regulations promulgated in 14 CFR Part 302, 14 CFR Part 298, and 14 CFR 385.16(f):

It is ordered, That:

1. Buckeye Air Service, Inc., the Postmaster General, North Central Airlines, Inc., United Air Lines, Inc., and all other interested persons are directed to show cause why the Board should not adopt the foregoing proposed findings and conclusions and fix, determine, and publish the final rate specified above for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith as specified above as the fair and reasonable rate of compensation to be paid to Buckeye Air Service, Inc.;

2. Further procedures herein shall be in accordance with 14 CFR Part 302, and notice of any objection to the rate or to the other findings and conclusions proposed herein, shall be filed within 10 days, and if notice is filed, written answer and supporting documents shall be filed within 30 days after service of this order;

3. If notice of objection is not filed within 10 days after service of this order, or if notice is filed and answer is not filed within 30 days after service of this order, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter an order incorporating the findings and conclusions proposed herein and fix and determine the final rate specified herein;

4. If answer is filed presenting issues for hearing, the issues involved in determining the fair and reasonable final rate shall be limited to those specifically raised by the answer, except insofar as other issues are raised in accordance with Rule 307 of the rules of practice (14 CFR 302.307); and

5. This order shall be served on Buckeye Air Service, Inc., the Postmaster General, North Central Airlines, Inc., and United Air Lines, Inc.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.71-12419 Filed 8-24-71;8:49 am]

[1] As this order to show cause is not a final action, it is not regarded as subject to the review provisions of 14 CFR Part 385. These provisions will apply to final action taken by the staff under authority delegated in § 385.16(g).

[Docket No. 23651; Order 71-8-80]

BUCKEYE AIR SERVICE, INC.

Order To Show Cause

Issued under delegated authority August 18, 1971.

The Postmaster General filed a notice of intent July 23, 1971, pursuant to 14 CFR Part 298, petitioning the Board to establish for the above captioned air taxi operator, a final service mail rate of 71 cents per great circle aircraft mile for the transportation of mail by aircraft between Detroit, Mich., and Columbus, Ohio, based on five round trips per week.

No protest or objection was filed against the proposed services during the time for filing such objections. The Postmaster General states that the Postal Service and the carrier agree that the above rate is a fair and reasonable rate of compensation for the proposed services. The Postmaster General believes these services will meet postal needs in the market. He states the air taxi plans to initiate mail service with Beech S-18 or equivalent twin-engine aircraft.

It is in the public interest to fix, determine, and establish the fair and reasonable rate of compensation to be paid by the Postmaster General for the proposed transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, between the aforesaid points. Upon consideration of the notice of intent and other matters officially noticed, it is proposed to issue an order [1] to include the following findings and conclusions:

The fair and reasonable final service mail rate to be paid to Buckeye Air Service, Inc., in its entirety by the Postmaster General pursuant to section 406 of the Act for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, shall be 71 cents per great circle aircraft mile between Detroit, Mich., and Columbus, Ohio, based on five round trips per week flown with Beech S-18 or equivalent twin-engine aircraft.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 406 thereof, and regulations promulgated in 14 CFR Part 302, 14 CFR Part 298, and 14 CFR 385.16(f):

It is ordered, That:

1. Buckeye Air Service, Inc., the Postmaster General, Delta Air Lines, Inc., Allegheny Airlines, Inc., American Airlines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., and all other interested persons are directed to show cause why the Board should not adopt the foregoing proposed findings and conclusions and fix, determine, and publish the final rate specified above for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith as specified above as the fair and reasonable rate of compensation to be paid to Buckeye Air Service, Inc.;

2. Further procedures herein shall be in accordance with 14 CFR Part 302, and notice of any objection to the rate or to the other findings and conclusions proposed herein, shall be filed within 10 days, and if notice is filed, written answer and supporting documents shall be filed within 30 days after service of this order;

3. If notice of objection is not filed within 10 days after service of this order, or if notice is filed and answer is not filed within 30 days after service of this order, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter an order incorporating the findings and conclusions proposed herein and fix and determine the final rate specified herein;

4. If answer is filed presenting issues for hearing, the issues involved in determining the fair and reasonable final rate shall be limited to those specifically raised by the answer, except insofar as other issues are raised in accordance with Rule 307 of the rules of practice (14 CFR 302.307); and

5. This order shall be served on Buckeye Air Service, Inc., the Postmaster General, Delta Air Lines, Inc., Allegheny Airlines, Inc., American Airlines, Inc., Trans World Airlines, Inc., and United Air Lines, Inc.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.71-12420 Filed 8-24-71;8:50 am]

[1] As this order to show cause is not a final action, it is not regarded as subject to the review provisions of 14 CFR Part 385. These provisions will apply to final action taken by the staff under authority delegated in § 385.16(g).

[Docket No. 23428, etc.]

EASTERN AIR LINES, INC.

Order Denying Petition for Reconsideration

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 19th day of August 1971.

In the matter of Eastern Air Lines, Inc., conditional reservation rule; Dockets 23428, 23454, 23458, 23461, 23462, 23466.

By Order 71-6-120, dated June 24, 1971, the Board dismissed complaints of various carriers and permitted Eastern Air Lines, Inc. (Eastern), to establish a conditional reservation rule effective July 1, 1971. A subsequent petition for reconsideration was denied by Order 71-6-164 dated June 30, 1971.

Northwest Airlines, Inc. (Northwest) has petitioned for reconsideration of Order 71-6-120, requesting inter alia that the Board (1) institute an investigation of Eastern's conditional reservation rule; (2) establish a number of reporting requirements; (3) impose a 6-month expiry date on the rule; and (4) order Eastern to cease and desist certain advertising practices used in publicizing the rule.

Eastern has filed an answer in opposition to Northwest's petition alleging that the petition is in essence a successive petition for reconsideration which is barred by the Board's rules of practice. It states that if the Board decides to entertain the petition it should be denied on the merits.

The Board finds that Northwest's petition sets forth no facts showing why the Board should depart from its position, originally expressed in Order 71-6-120 and subsequently reaffirmed in Order 71-6-164, that an investigation of the conditional reservation rule at this time is not warranted. As we indicated in Order 71-6-120 the subject rule represents a novel approach to the "no-show" problem whose feasibility should be determined by practical experience. Now that Delta, Northeast, National, and the petitioner itself have joined Eastern in publishing the subject rule, the experimental value of the proposal will be enhanced in that we shall have the benefit of results from several carriers in addition to Eastern. An investigation at this stage would be particularly inappropriate in light of the pendency of intercarrier discussions which we authorized in Order 71-7-99 dated July 19, 1971.

Nor is the Board persuaded by Northwest's request that reporting requirements should be formally established. The Board has decided to permit a 9-month experiment and we do not believe that interim results would be of sufficient usefulness to the Board to warrant the administrative effort which would be involved in Northwest's request. Of course, Eastern will be required to justify any request for extension of the plan beyond its present 9-month experimental period with detailed data of its experience.

To the extent that Northwest requests us to shorten the trial period from 9 months to 6 months, even if we possessed legal authority to change the date in an already effective tariff, we find no persuasive reason in the instant petition why the shorter period is more preferable or more justifiable than the longer one. On the contrary, a 6-month experiment would exclude the development of data for the peak winter months when the "no-show" problem is most severe.

The aspect of the instant petition dealing with Eastern's alleged advertising practices with regard to the subject rule will be dealt with in Docket 23587.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof:

It is ordered, That:

1. The request by Northwest Airlines, Inc., for reconsideration of Order 71-6-120 is denied; and

2. Copies of this order will be served upon the Aviation Consumer Action Project, Allegheny Airlines, Inc., American Airlines, Inc., Braniff Airways, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., National Airlines, Inc., Northeast Airlines, Inc., and Northwest Airlines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[Docket No. 23626; Order 71-8-87]

SEDALIA, MARSHALL, BOONVILLE STAGE LINE, INC.

Order to Show Cause

Issued under delegated authority August 18, 1971.

The Postmaster General filed a notice of intent July 19, 1971, pursuant to 14 CFR Part 298, petitioning the Board to establish for the above captioned air taxi operator, a final service mail rate of 77 cents per great circle aircraft mile for the transportation of mail by aircraft between Columbus, Ohio and Chicago, Ill., based on 10 one-way trips per week.

No protest or objection was filed against the proposed services during the time for filing such objections. The Postmaster General states that the Postal Service and the carrier agree that the above rate is a fair and reasonable rate of compensation for the proposed services. The Postmaster General believes these services will meet postal needs in the market. He states the air taxi plans to initiate mail service with two twin-engine Beechcraft, Model S-18, or equivalent aircraft.

It is in the public interest to fix, determine, and establish the fair and reasonable rate of compensation to be paid by the Postmaster General for the proposed transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, between the aforesaid points. Upon con-

sideration of the notice of intent and other matters officially noticed, it is proposed to issue an order[1] to include the following findings and conclusions:

The fair and reasonable final service mail rate to be paid to Sedalia, Marshall, Boonville Stage Line, Inc:, in its entirety by the Postmaster General pursuant to section 406 of the Act for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, shall be 77 cents per great circle aircraft mile between Columbus, Ohio and Chicago, Ill., based on 10 one-way trips per week flown with two twin-engine Beechcraft, Model S–18 or equivalent aircraft.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 406 thereof, and regulations promulgated in 14 CFR Part 302, 14 CFR Part 298, and 14 CFR 385.16 (f):

It is ordered, That:

1. Sedalia, Marshall, Bonnville Stage Line, Inc., the Postmaster General, Allegheny Airlines, Inc., American Airlines, Inc., Delta Air Lines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., and all other interested persons are directed to show cause why the Board should not adopt the foregoing proposed findings and conclusions and fix, determine, and publish the final rate specified above for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith as specified above as the fair and reasonable rate of compensation to be paid to Sedalia, Marshall, Boonville Stage Line, Inc.;

2. Further procedures herein shall be in accordance with 14 CFR Part 302, and notice of any objection to the rate or to the other findings and conclusions proposed herein, shall be filed within 10 days, and if notice is filed, written answer and supporting documents shall be filed within 30 days after service of this order;

3. If notice of objections is not filed within 10 days after service of this order, or if notice is filed and answer is not filed within 30 days after service of this order, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter an order incorporating the findings and conclusions proposed herein and fix and determine the final rate specified herein;

4. If answer is filed presenting issues for hearing, the issues involved in determining the fair and reasonable final rate shall be limited to those specifically raised by the answer, except insofar as other issues are raised in accordance with Rule 307 of the rules of practice (14 CFR 302.307); and

5. This order shall be served on Sedalia, Marshall, Boonville Stage Line, Inc., the Postmaster General, Allegheny Airlines, Inc., American Airlines, Inc., Delta Air Lines, Inc., Trans World Airlines, Inc., and United Air Lines, Inc.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.71–12418 Filed 8–24–71;8:49 am]

[1] As this Order to Show Cause is not a final action, it is not regarded as subject to the review provisions of 14 CFR Part 385. These provisions will apply to final action taken by the staff under authority delegated in § 385.16(g).

[Docket No. 19154; FCC 71–826]

BROADCAST RENEWAL APPLICANTS

Formulation of Policies; Further Notice of Inquiry

In the matter of formulation of policies relating to the broadcast renewal applicant, stemming from the comparative hearing process.

1. We have just issued an order extending the filing dates in this proceeding (FCC 71–425). This Further Notice deals with substance and is called for in light of the recent decision of the U.S. Court of Appeals for the District of Columbia Circuit in Citizens Communications Center v. FCC, Case No. 24,471, decided June 11, 1971.

2. The essence of that decision is that in a comparative hearing involving a regular renewal applicant, the Communications Act and Ashbacker Radio Corp. v. FCC, 326 U.S. 327 (1945), require a single full hearing in which the parties may develop evidence and be adjudged on all relevant criteria. The Court for this reason held invalid the Commission's "Policy Statement Concerning Comparative Hearings Involving Regular Renewal Applicants," 22 FCC 2d 424 (1970), which provided a full comparison of incumbent and challenger only where in an initial stage of the hearing the incumbent could not demonstrate a past record of substantial service without serious deficiencies. Only with a single comparative hearing, the Court ruled, would all matters material to the public interest judgment in the particular case be fully developed.

3. The Court's decision does not obviate the need for this proceeding. On the contrary, it reinforces it. For, the Court stressed that "* * * incumbent licensees should be judged primarily on their records of past performance * * *," and that "[i]nsubstantial past performance should preclude renewal of a license * * * [while] [a]t the same time, superior performance should be a plus of major significance in renewal proceedings" (Sl. Op. 25). Further, the Court states that it "* * * recognizes that the public itself will suffer if incumbent licensees cannot reasonably expect renewal when they have rendered superior service" (Sl. Op. 25, fn. 35). It urges the Commission to strive to clarify in rulemaking proceedings what constitutes superior service, and notes "with approval that such rule making proceedings may soon be underway. News Notes, 39 U.S.L. Week 2513 (March 16, 1971)" (Sl. Op. 26, fn. 35). The proceedings referred to are, of course, the instant proceedings in this Docket.

4. We believe that while the Court disapproved the procedure set up in the Renewal Policy Statement, and emphasized the need for a more flexible weighing of the good and bad points of both the renewal applicant and the new applicant, it did not intend to overturn the policy that "a plus of major significance" should be awarded to a renewal applicant whose past record warrants it or to undercut the purpose of the present proceeding to seek out and quantify, at least in part, that degree of performance. We therefore continue to propose for the comment of interested persons the percentage guidelines set forth in our prior Notice. It appears to us that they would prima facie indicate the type of service warranting a "plus of major significance" in the comparative hearing. That is the standard at whose recognition we are directing our efforts. We recognize that particular labels can be misleading. Thus, we used the term "substantial service" in the sense of "strong, solid" service—substantially above the mediocre service which might just minimally warrant renewal (see 22 FCC 2d at p. 425, n. 1).[1] We believe that the Court may have read this use of "substantial" service as meaning minimal service meeting the public interest standard (Sl. Op. 20), and therefore employed the term "superior" service to make clear that it had in mind a contrast with mediocre service—as it put it (Sl. Op. 26, fn. 35), a "lapse into mediocrity, to seek the protection of the crowd."[2] In short, we believe that it is unnecessary to further refine the label. What rather counts are the guidelines actually adopted to indicate the "plus of major significance"—the type of service which, if achieved, is of such nature that one can "* * * reasonably expect renewal" (Sl. Op. 25, fn. 35). Interested parties should therefore address themselves to the appropriateness in this respect of the percentages set forth in the prior Notice.

5. Parties may also advance other proposals. Thus, the Court raised for consideration the criterion of "whether and to what extent the incumbent has reinvested the profit on his license to the service of the viewing and listening public." (Sl. Op. 26, fn. 35.) We had previously considered the possible use of a guideline directed to the relationship between revenues and program expenditures but had tentatively concluded that this matter should be left to exploration as appropriate in the hearing process. Parties may of course address themselves to this and other possible guidelines. The issue is whether in any proposed area a guideline is appropriate or whether the matter is one best left to the full hearing where its significance can be adjudged in the particular circumstances.

6. Thus, the important factor of diversification of control of media of mass communications is one which must be evaluated on the facts of each case. This, we think, is the thrust of the Court's statement that, "Diversification is a factor properly to be weighed and balanced with other important factors, including the renewal applicant's prior record, at a renewal hearing." (Sl. Op. 27, fn. 36.) While generally a renewal licensee who had performed in the meritorious manner described above could "reasonably expect renewal" (Sl. Op. 25, fn. 36), the full hearings could adduce facts that change the picture. Thus, where a large multiple owner or newspaper licensee was involved in a hearing, it might win renewal based on defects in its opponent's comparative case, but to gain renewal on its own record, it might have to make a strong public interest showing as to its past broadcast record. It is, we think, impossible to formulate any general standard here since, as the Court has indicated, the matter turns upon the facts of the diversification issue and the renewal applicant's record. Finally, we add our belief that the Court is not seeking to have the ownership patterns of the broadcast industry restructured through the renewal process. This would be chaotic in the extreme and administratively a horror. If overall restructuring is to be considered—and there are more substantial issues on this score—it should be in the context of an appropriate rule making, with a reasonable opportunity for all parties to comment fully on the proposed rules; Notice of Proposed Rule Making in FCC Docket No. 18110, 33 F.R. 5315; 35 F.R. 5948 (22 FCC 2d 396); cf. Hale & Wharton v. FCC, 425 F.2d 556, 560 (C.A.D.C., 1970); and, if rules requiring restructuring are subsequently adopted, they should fairly apply to all and should allow reasonable periods for divestment or other appropriate arrangements.

7. The Court indicated serious doubt as to the Commission's procedures in adopting the Policy Statement (Sl. Op. 7, fn. 5). This proceeding affords full opportunity for all interested persons to set forth their views on the formulation of appropriate policies in this important area. Such views must of course be consistent with the Court's essential holding of the necessity for a full hearing.

8. In view of the foregoing, we shall also revise the timetable for comments in this proceeding, with comments due on or before November 1, 1971 and reply comments on or before December 1, 1971.

Adopted: August 4, 1971.

Released: August 20, 1971.

FEDERAL COMMUNICATIONS COMMISSION,[3]
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.71–12447 Filed 8–24–71;8:52 am]

[1] We there stated: We wish to stress that we are not using the term "substantially" in any sense of partial performance in the public interest. On the contrary, as the discussion within makes clear, it is used in the sense of "solid," "strong," etc. (see p. 3, supra) performance as contrasted with a service only minimally meeting the needs and interests of the area. In short, we would distinguish between two types of situations—one where the licensee has served the public interest but in the least permissible fashion still sufficient to get a renewal in the absence of competing applications (defined herein as minimal service) and the other where he has done so in an ample, solid fashion (defined herein as substantial service).

[2] Here again confusion can arise, since the term "superior" is sometimes used comparatively, and it is a quantum of service to the public—not a comparison—which is the essence of the matter. That the matter is not of a comparative nature may be shown by assuming that every licensee improved its performance 100 percent or 200 percent, or 300 percent, in the categories denoted in our prior Notice. Under a comparative approach, only the top would continue to warrant the "plus." Further, while it is critical to the public interest to have "strong," or "solid," or "superior," or "meritorious," service in these categories (whatever the appropriate label may be), it does not serve the public interest artificially to require ever advancing amounts, to the detriment of what the public reasonably wants in light of other interests.

[3] Commissioner Houser absent; concurring statements of Commissioner Robert T. Bartley and Commissioner Nicholas Johnson filed as part of the original documents.

[FCC 71–863]

STANDARD BROADCAST APPLICATION READY AND AVAILABLE FOR PROCESSING

AUGUST 19, 1971.

The following application was tendered July 21, 1971, seeking the identical facilities of former station WCFV, Clifton Forge, Va. The application (BR–2540) of Image Radio, Inc., for renewal of license of station WCFV was denied on May 27, 1971, and the call letters were deleted July 20, 1971. Accordingly, we have waived the provisions of note 2 to § 1.571 of the Commission's rules and accepted this application for filing. Similarly, we will accept any other application for consolidation which proposses essentially the same facilities.

NEW, Clifton Forge, Va.
James R. Reese, Jr.
Req.: 1230 kc., 250w., 1 kw.-LS, U.

Pursuant to the provisions of §§ 1.227 (b)(1), 1.591(b) and note 2 to § 1.571 of the Commission's rules, an application, in order to be considered with this application must be in direct conflict and tendered no later than October 5, 1971.

The attention of any party in interest desiring to file pleadings concerning this application, pursuant to section 309(d)(1) of the Communications Act of 1934, as amended, is directed to § 1.580(i) of the Commission's rules for the provisions governing the time of filing and other requirements relating to such pleadings.

Action by the Commission August 18, 1971.[1]

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[Dockets Nos. 19168-19170; FCC 71-823]

COWLES FLORIDA BROADCASTING, INC., AND CENTRAL FLORIDA ENTERPRISES, INC.

Order Regarding Policy Statement

In regard applications of Cowles Florida Broadcasting, Inc. (WESH-TV), Daytona Beach, Fla., for renewal of license, Docket No. 19168, File No. BRCT-354; Cowles Florida Broadcasting, Inc. (WESH-TV), Daytona Beach, Fla., for modification of authorized facilities, Docket No. 19169, File No. BPCT-4158; Central Florida Enterprises, Inc., Daytona Beach, Fla., for a construction permit, Docket No. 19170, File No. BPCT-4346.

1. The Commission has under consideration: (1) Its order (FCC 71-237, released March 10, 1971), designating the above applications for hearing in a consolidated comparative renewal proceeding and stating that the proceeding would be governed by the Policy Statement on Comparative Hearings Involving Regular Renewal Applicants (FCC 70-62, released January 15, 1970;[2] and (2) the decision of the U.S. Court of Appeals for the District of Columbia Circuit in Citizens Communications Center, et al., v. FCC, et al. (Case Nos. 24, 471, decided June 11, 1971), ordering that the Policy Statement, "being contrary to law, shall not be applied by the Commission in any pending or future comparative renewal hearings," and directing the Commission to redesignate all comparative renewal hearings to which the Policy Statement was deemed applicable to reflect the Court's judgment.[3]

2. We note that the only references to the Policy Statement in our above designation order are contained in paragraph 20, which states that the renewal applicant's program service and operation will be scrutinized in the light of the provisions of the Policy Statement, and in the last two sentences of paragraph 26, which state that the proceeding will be governed by the Policy Statement and that prehearing discovery for the purposes of making a comparative evaluation of the competing applications should await a determination under the Policy Statement. Paragraph 20 and the last two sentences of paragraph 26 should be deleted from our order and the order will be modified accordingly, thus making clear that the Policy Statement is not applicable to this proceeding.

3. Our designation order contains a standard comparative issue (No. 3), "To determine which of the proposals would better serve the public interest." We believe that, with the elimination of all reference to the Policy Statement, the comparative issue as presently framed properly provides for a full comparative hearing.

4. This comparative renewal proceeding is now pending before the Hearing Examiner. The Examiner and, where appropriate, the Review Board are directed to take any steps necessary to conform the conduct of the proceeding to this order.

5. *Accordingly, it is ordered,* That our order designating the above applications for hearing (FCC 71-237, released March 10, 1971) is amended by the deletion of the references to the Policy Statement on Comparative Hearings Involving Regular Renewal Applicants (FCC 70-62, released January 15, 1970); and that the Policy Statement shall not be applied to this comparative renewal proceeding.

6. *It is further ordered,* That the Hearing Examiner and, where appropriate, the Review Board, are directed to take any further steps necessary to conform the conduct of the proceeding to this order.

Adopted: August 4, 1971.

Released: August 20, 1971.

FEDERAL COMMUNICATIONS COMMISSION,[3]
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.71-12450 Filed 8-24-71;8:52 am]

[Dockets Nos. 18401, 18402; FCC 71-815]

KBLI, INC., AND EASTERN IDAHO TELEVISION CORP.

Order Regard Policy Statement

In regard applications of KBLI, Inc. (KTLE), Pocatello, Idaho, for renewal of broadcast license, Docket No. 18401, File No. BRCT-485; Eastern Idaho Television Corp., Pocatello, Idaho, for construction permit for new television broadcast station, Docket No. 18402, File No. BPCT-4156.

1. The Commission has under consideration (1) its Order (FCC 68-1187, adopted December 12, 1968),[4] designating the above applications for hearing in a consolidated comparative renewal proceeding; (2) its Policy Statement on Comparative Hearings Involving Regular Renewal Applicants (FCC 70-62, released January 15, 1970),[2] providing that the policy was applicable to pending proceedings; and (3) the decision of the U.S. Court of Appeals for the District of Columbia Circuit in Citizens Communications Center, et al., v. FCC, et al. (Case Nos. 24,471 and 24,491, decided June 11, 1971), ordering that the Policy Statement, "being contrary to law, shall not be applied by the Commission in any pending or future comparative renewal hearings," and directing the Commission to redesignate all comparative renewal hearings to which the Policy Statement was deemed applicable to reflect the Court's judgment.[3]

2. Our designation order in this proceeding, which was adopted prior to the release of the Policy Statement, contains a standard comparative issue (No. 3) "To determine which of the proposals would better serve the public interest." Since we are expressly ordering herein that the Policy Statement shall not be applied to this proceeding, we believe that the comparative issue as presently framed provides for a full comparative hearing.

3. This proceeding is now pending before the Hearing Examiner. The Examiner and, where appropriate, the Review Board are directed to take any further steps necessary to conform the conduct of the proceeding to this order.

4. *Accordingly, it is ordered,* That the Policy Statement on Comparative Hearings Involving Regular Renewal Applicants (FCC 70-62, released January 15, 1970) shall not be applied to this comparative renewal proceeding; and that the Hearing Examiner and, where appropriate, the Review Board are directed to take any further steps necessary to conform the conduct of the proceeding to this order.

Adopted: August 4, 1971.

Released: August 20, 1971.

[Docket No. 19275, etc.; FCC 71-679]

MOBILE RADIO SYSTEM OF VENTURA, INC., ET AL.

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues; Correction

In regard applications of Mobile Radio System of Ventura, Inc., Ventura, Calif., Docket No. 19275, File No. 2142-C2-P-69; Orange County Radiotelephone Service, Inc., Santa Ana, Calif., Docket No. 19276, File No. 3031-C2-P-69; Mobilfone, Inc., Los Angeles, Calif., Docket No. 19277, File No. 3397-C2-P-69; American Mobile Radio, Inc., Long Beach, Calif., Docket No. 19278, File No. 3465-C2-P-69; Intrastate Radio Telephone, Inc., of Los Angeles, Burbank, Calif., Docket No. 19279, File No. 3556-C2-P-69; for construction permits to establish new facilities in the Domestic Public Land Mobile Radio Service on 152.24 MHz.

1. On June 30, 1971, the Commission released a Memorandum Opinion and Order (FCC 71-679) in the above-captioned matter (36 F.R. 13054). The name of the applicant in Docket 19279 was incorrectly described as "Intrastate Radio Telephone, Inc." The purpose of this Erratum is to strike the incorrect name and insert the correct name, which is "Intrastate Radio Telephone, Inc., of Los Angeles."

Released: August 18, 1971.

Secretary.

[FR Doc.71-12452 Filed 8-24-71;8:53 am]

[Dockets Nos. 19157-19159; FCC 71R-252]

PETTIT BROADCASTING CO. ET AL.

Memorandum Opinion and Order Enlarging Issues

In regard applications of Claud M. Pettit and Margaret E. Pettit, doing business as Pettit Broadcasting Co., Brush, Colo., Docket No. 19157, File No. BP-18125; A. V. Bamford, Colorado Springs, Colo., Docket No. 19158, File No. BP-18467; Enid C. Peppard and Dona B. West doing business as Brocade Broadcasting Co., Boulder, Colo., Docket No. 19159, File No. BP-18470; for construction permits.

1. The mutually exclusive applications of Pettit Broadcasting Co., A. V. Bamford (Bamford), and Brocade Broadcasting Co., (Brocade) for a new standard broadcast station in Brush, Colorado Springs, and Boulder, Colo., respectively, were designated for hearing by Commission Order, FCC 71-189, 36 F.R. 4634, published March 10, 1971. Subsequently, by Memorandum Opinion and Order, FCC 71R-200, ____ FCC 2d ____, 22 RR 2d 251, the Review Board added, inter alia, a § 1.65 issue against Bamford. Presently before the Review Board is a petition to enlarge issues, filed March 25, 1971, by Brocade, seeking the addition of several issues inquiring into the qualifications of Bamford.[1]

ENGINEERING ISSUES

2. Brocade requests the addition of issues to determine whether Bamford can provide coverage to Colorado Springs as required by § 73.188(b)(1) of the rules, whether Bamford's proposed transmitter site is sufficient to effectuate his proposal, and whether Bamford will be able to maintain his directional antenna array. Brocade's engineer contends that although, based on the conductivity depicted on FCC Figure M-3,[2] the 25 mv/m contour of the Bamford proposal adequately covers the city of Colorado Springs, his study of measured ground conductivities made for other purposes and at various other times indicates that the actual ground conductivities in the area around the Bamford site and between the site and Colorado Springs are lower than shown on Figure M-3, and that, consequently, the Bamford 25 mv/m contour may not adequately cover Colorado Springs. Brocade's engineer further alleges that, based on his personal inspection, there is a question about the suitability of Bamford's proposed site, alleging that (a) there is a lack of level ground in the area surrounding the site, although the site itself is on a relatively level, high dry mesa, which normally has low conductivity; (b) very high mountains are located close to the west and southwest, with mountains or hills in several other directions, which are apt to cause reduced coverage and could adversely affect the directional operation; (c) the lack of roads would make the adjustment and maintenance of the array difficult; and (d) reradiation and interference could result from railroad tracks and accompanying communications lines located near the site. Thus, Brocade contends, a further question is raised as to whether Bamford can effectuate his proposal and whether he would be able to maintain his proposed directional antenna system.

3. In opposition, Bamford submits his engineer's statement wherein he states that the low conductivity values found by Brocade were determined by the inverse application of measurement data, which is not a commonly accepted practice. Further, Bamford contends that Brocade's assertion that the ground conductivity between the Bamford site and Colorado Springs is substantially lower than the value depicted on the Commission's Figure M-3 is not based on actual studies on a pertinent radial made according to the rules, and is therefore invalid. Noting that Brocade concedes that the site itself is relatively level, Bamford states that the mountains cited by Brocade are located more than 2 miles from the site, sufficiently removed so as not to interfere with the broad nulls of the proposed pattern; that secondary roads are available for establishing monitoring points, and that close-in measurements out to about 2 miles will be taken by the standard method of walking the radials; and that the railroad tracks and communications lines can be easily avoided in the selection of monitoring points. Thus, asserts Bamford, there is no apparent reason why he can not maintain his proposed directional array within the specified values.

4. The Broadcast Bureau opposes addition of the requested issues. Asserting that the engineering measurements relied upon by Brocade cannot be accepted, the Bureau contends that the distance between Bamford's site and those from which the measurements were taken is too great; that those measurements are at best reciprocals of the path from the Bamford site to Colorado Springs, and such application of measurements has not been accepted in practice; and that Brocade's generalized contentions lack the specificity required for a threshold showing warranting addition of issues relating to the sufficiency of Bamford's site, and his ability to maintain his directional array.

5. In its reply, Brocade reiterates the allegations that the area does not have a sufficiently high conductivity and that Bamford will be unable to adequately maintain his directional antenna. Brocade also argues, inter alia, that reciprocity in the use of measurement data for this area was accepted by the Commission in 1965 when measurements for Station KOSI, Aurora, Colo., were made to confirm conductivity indicated by an inverse analysis. Also, petitioner cites measurements made on Station KBOL, Boulder, Colo., on radials located 3½ and 5½ miles from the Bamford site, which indicate lower conductivity. Therefore, in view of its showing, Brocade urges addition of the requested engineering issues.

6. It is well established that the inverse application of measurement data (reciprocity of ground conductivity determined by field strength measurements) is not an acceptable practice. See Cosmopolitan Enterprises, Inc., 4 FCC 2d 265, 8 RR 2d 325 (1966); and North Atlanta Broadcasting Co., FCC 63R-35, 24 RR 939, and cases cited therein. Contrary to the assertion of Brocade's engineer, the ground conductivity measurements made on Station KOSI are insufficient to establish that inverse direction conductivity measurements have provided evidence of the effective conductivity in the vicinity of Colorado Springs. As the Commission explained to Station KOSI in its October 28, 1964, letter,[3] since reciprocity in the use of measurement data does not always depict the same attenuation in signal characteristics, the inverse application of field strength measurements is not acceptable. Thus, contrary to the contention of Brocade's engineer, the single instance of conductivity measurements made on one radial and its reciprocal from Station KOSI are insufficient to establish conductivity in the vicinity of Colorado Springs. Further invalidating Brocade's contentions are the facts that the KOSI measurements were made at locations in the vicinity of Denver, Colo., more than 25 miles north of Bamford's proposed site and that Brocade concedes that the KOSI measurements were taken over terrain less rocky than that involved in the path from KVOR, Colorado Springs (measurements

[1] Also before the Review Board are: (a) opposition, filed May 10, 1971 by A. V. Bamford; (b) comments, filed May 10, 1971, by the Broadcast Bureau; and (c) reply, filed June 2, 1971, by Brocade.
[2] Figure M-3, the Commission's Map of Estimated Effective Ground Conductivities in the United States, indicates the conductivity in the area to be 15 mmhos/m.
[3] A copy of this letter is in the Station KOSI application file at the Commission.

on KVOR were used by Brocade in an inverse direction), to Bamford's proposed site. Next, the Board agrees with the Bureau that Brocade has not made the necessary threshold showing to warrant inclusion of a site suitability and directional antenna adjustment and maintenance issues. The site photographs in the Bamford application depict the site area as being relatively level—a fact conceded by Brocade. Although Brocade describes mountains as being close-by to the west and southwest, Brocade does not dispute Bamford's responsive statement in his opposition that such mountains rise more than two miles to the west of his proposed site and are well outside the proposed 1 mv/m contour. In addition, Brocade's very general statements concerning the railroad tracks and communication lines, possible reduced coverage and reflections lack the specificity required by § 1.229(c). No study has been submitted in support of such allegations which delineates the alleged problems and their possible effect on the type of directional operation proposed by Bamford. Brocade's allegation that the lack of roads may present a problem in the adjustment and maintenance of Bamford's proposed array constitute inadequate generalizations, which, as noted by the Bureau, are undermined by Brocade's engineering showing—which establishes that at least three sets of measurements (two by Brocade's engineer) have at least partially been taken over the same terrain. In view of all of the foregoing, the Review Board is of the opinion that Brocade has failed to set forth sufficient factual data to warrant addition of the requested engineering issues.

SITE AVAILABILITY AND § 1.65 ISSUES

7. Brocade's request for site availability and § 1.65 issues has its genesis in Bamford's action on June 15, 1970, when he advised the Commission that the option agreement submitted in his application for the purchase of land was not renewed and that its proposed site was unavailable. Subsequently, after an amendment changing the location of the transmitter site,[4] Bamford again amended his application to specify the original site.[5] Under these circumstances, petitioner insists, Bamford has the duty to update its application to reveal the new option or other arrangement for obtaining the land as well as the cost of the land, and, absent such information, an issue should be added to determine the availability of the land and the financial ability of Bamford to implement its proposal. The above-described events, Brocade maintains, also raise a substantial question as to whether Bamford has kept the Commission fully informed of a matter of decisional significance. Bamford, incorporating in the instant petition his opposition to a petition to enlarge issues, filed April 9, 1971, by the Broadcast Bureau,[6] simply contends that since the first site specified in the application is now being used, the cost information has already been furnished and therefore no issue is warranted.

8. Brocade's request for a site availability issue will be granted. The Commission has long held that while an applicant need not demonstrate absolute assurance of site availability, it must show that it has reasonable assurance the site will be available. See, e.g., El Camino Broadcasting Corp., 23 FCC 2d 173, 19 RR 2d 53 (1970); and North American Broadcasting Co., 15 FCC 2d 984, 15 RR 2d 367 (1969). Originally, Bamford's option agreement provided reasonable assurance that its proposed site was available. However, when the option expired and was not renewed, Bamford conceded that the site was no longer available; therefore, when Bamford again specified the site, it was, in our view, incumbent on that applicant to show that he had reasonable assurance that the site was again available. No such showing has been made. Thus, under the circumstances, a substantial question has been raised as to the availability of Bamford's site, and therefore an appropriate issue is warranted. Petitioner's requests for 1.65 and financial issues will be denied. Brocade has not supported these requests with specific allegations of fact as required by § 1.229. However, if evidence adduced under the site availability issue indicates that there have been substantial changes in the underlying basis of Bamford's assurance of site availability[7] which may be of decisional significance, or that such changes might materially effect Bamford's financial showing, petitioner can renew its requests.

9. *Accordingly, it is ordered,* That the petition to enlarge issues, filed March 25, 1971, by Brocade Broadcasting Co., is granted to the extent indicated herein, and is denied in all other respects; and

10. *It is further ordered,* That the issues in the instant proceeding are enlarged to include the following issues: To determine whether A. V. Bamford has reasonable assurance of the availability of his proposed antenna site; and

11. *It is further ordered,* That the burden of proceeding with the introduction of evidence and the burden of proof under the issue added herein shall be upon A. V. Bamford.

Adopted: August 16, 1971.

Released: August 18, 1971.

[Dockets Nos. 19122-19125; FCC 71-822]

STAR STATIONS OF INDIANA, INC., ET AL.

Order Amending Order Designating Applications for Hearing

In regard applications of Star Stations of Indiana, Inc., for renewal of license of WIFE and WIFE-FM, Indianapolis, Ind., Docket No. 19122, File Nos. BR-1144, BRH-1276; Indianapolis Broadcasting, Inc., for a construction permit for a standard broadcast station, Indianapolis, Ind., Docket No. 19123, File No. BP-18706; Central States Broadcasting, Inc., for renewal of license of KOIL and KOIL-FM, Omaha, Nebr., Docket No. 19124, File Nos. BR-516, BRH-992; Star Broadcasting, Inc., for renewal of license of KISN, Vancouver, Wash., Docket No. 19125, File No. BR-1027.

1. The Commission has under consideration: (1) its designation order (FCC 70-1256, released as corrected December 15, 1970) in the above consolidated proceeding, stating that the WIFE renewal-new applicant aspect of the proceeding[1] would be governed by the Policy Statement on Comparative Hearings Involving Regular Renewal Applicants (FCC 70-62, released January 15, 1970)[2]; and (2) the decision of the U.S. Court of Appeals for the District of Columbia Circuit in Citizens Communications Center, et al. v. FCC, et al (Cases Nos. 24,471 and 24,491, decided June 11, 1971), ordering that the Policy Statement, "being contrary to law, shall not be applied by the Commission in any pending or future comparative renewal hearings," and directing the Commission to redesignate all comparative renewal hearings to which the Policy Statement was deemed applicable to reflect the Court's Judgment.[3]

2. The evidentiary hearing in this proceeding has not yet commenced. We note that the only reference to the Policy Statement in our above designation order is contained in paragraph 5 which states that the renewal-new applicant aspect of the proceeding will be governed by the Policy Statement and that prehearing discovery for the purposes of making a comparative evaluation of the competing applications should await a determination of the renewal applicant's basic qualifications and a determination of its program service and operation under the Policy Statement. This paragraph should be deleted from our order and the order will be modified accordingly, thus making clear that the Policy Statement is not applicable to this proceeding.

3. Our designation order contains a standard comparative issue (No. 24) "To determine which of the mutually exclusive applications for a standard broadcast station in Indianapolis, Ind., would better serve the public interest, convenience and necessity." We believe that, with the elimination of all reference to the Policy Statement, this comparative issue as presently framed properly provides for a full comparative hearing.

4. This proceeding is now pending before the Hearing Examiner. The Examiner and, where appropriate, the Review Board are directed to take any further steps necessary to conform the conduct of the proceeding to this order.

5. *Accordingly, it is ordered,* That our order designating the above applications for hearing (FCC 70-1256, released as corrected December 15, 1970) is amended by the deletion of paragraph 5 and all reference to the Policy Statement on Comparative Hearings Involving Regular Renewal Applicants (FCC 70-62, released January 15, 1970); and that the Policy Statement shall not be applied to the comparative renewal aspects of this proceeding.

6. *It is further ordered,* That the Hearing Examiner and, where appropriate, the Review Board are directed to take any further steps necessary to conform the conduct of the proceeding to this order.

Adopted: August 4, 1971.

Released: August 20, 1971.

[Docket No. 18559, etc.; FCC 71-816]

UNITED TELEVISION CO., INC., ET AL.

Order Regarding Policy Statement

In regard applications of United Television Company, Inc. (WFAN-TV), Washington, D.C., for renewal of license, Docket No. 18559, File No. BRCT-585; United Television Co., Inc. (WFAN-TV), Washington, D.C., for construction permit, Docket No. 18561, File No. BPCT-3917; United Broadcasting Co., Inc. (WOOK), Washington, D.C., for renewal of license, Docket No. 18562, File No. BR-1104; Washington Community Broadcasting Co., Washington, D.C., for construction permit for new standard broadcast station, Docket No. 18563, File No. BP-17416.

1. The Commission has under consideration (1) its designation order (FCC 69-618, released June 13, 1969) in the above consolidated comparative renewal proceeding;[1] (2) its Policy Statement on Comparative Hearings Involving Regular Renewal Applicants (FCC 70-62, released January 15, 1970),[2] providing that the policy was applicable to pending proceedings; and (3) the decision of the U.S. Court of Appeals for the District of Columbia Circuit in Citizens Communications Center, et al., v. FCC, et al. (Case Nos. 24,471 and 24,491, decided June 11, 1971), ordering that the Policy Statement, "being contrary to law, shall not be applied by the Commission in any pending or future comparative renewal hearings," and directing the Commission to redesignate all comparative renewal hearings to which the Policy Statement was deemed applicable to reflect the Court's judgment.[3]

2. Our designation order in this proceeding, which was adopted prior to the release of the Policy Statement, contains a standard comparative issue (No. 5) "To determine which of the mutually exclusive applications for a license to operate on 1340 kc in Washington, D.C., would better serve the public interest, convenience and necessity." Since we are expressly ordering herein that the Policy Statement shall not be applied to this proceeding, we believe that the comparative issue as presently framed provides for a full comparative hearing.

3. This proceeding is now pending before the Hearing Examiner. The Examiner and, where appropriate, the Review Board are directed to take any further steps necessary to conform the conduct of the proceeding to this order.

4. *Accordingly, it is ordered*, That the Policy Statement on Comparative Hearings Involving Regular Renewal Applicants (FCC 70-62, released January 15, 1970) shall not be applied to this comparative renewal proceeding; and that the Hearing Examiner and, where appropriate, the Review Board are directed to take any further steps necessary to conform the conduct of the proceeding to this order.

Adopted: August 4, 1971.

Released: August 20, 1971.

WHCN, INC., AND COMMUNICOM MEDIA

Order Amending Order Designating Applications for Hearing

In regard applications of WHCN, INC. (WHCN (FM)), Hartford, Conn., for renewal of license, Docket No. 18805, File No. BRH-24; Kenneth W. Sasso, W. Francis Pingree, and Lawrence H. Buck, doing business as Communicom Media, Berlin, Conn., Requests: 105.9 mcs, No. 290; 7 kw.; 758 feet, for construction permit, Docket No. 18806, File No. BPH-6806.

1. The Commission has under consideration: (1) its designation order (FCC 70-211, released March 4, 1970), in the above consolidated comparative renewal proceeding, stating that the proceeding would be governed by our Policy Statement on Comparative Hearings Involving Regular Renewal Applicants (FCC 70-62, released January 15, 1970)[1]; and (2) the decision of the U.S. Court of Appeals for the District of Columbia Circuit in Citizens Communications Center, et al., v. FCC, et al. (Cases Nos. 24,471 and 24,491, decided June 11, 1971), ordering that the Policy Statement, "being contrary to law, shall not be applied by the Commission in any pending or future comparative renewal hearings," and directing the Commission to redesignate all comparative renewal hearings to which the Policy Statement was deemed applicable to reflect the Court's judgment.[2]

2. The evidentiary hearing in this proceeding has not yet commenced. We note that the only reference to the Policy Statement in our above designation order is contained in the last sentence of paragrap 5 which states that this proceeding will be governed by the Policy Statement. This sentence should be deleted from our order and the order will be modified accordingly, thus making clear that the Policy Statement is not applicable to this proceeding. Our designation order contains a standard comparative issue (No. 5) "To determine which of the proposals would, on a comparative basis, better serve the public interest". We believe that, with the elimination of all reference to the Policy Statement, the comparative issue as presently framed properly provides for a full comparative hearing.

3. This proceeding is now pending before the Hearing Examiner. The Examiner and, where appropriate, the Review Board are directed to take any further steps necessary to conform the conduct of the proceeding to this order.

4. *Accordingly, it is ordered*, That our order designating the above applications for hearing (FCC 70-211, released March 4, 1970) is amended by the deletion of the reference to the Policy Statement on Comparative Hearings Involving Regular Renewal Applicants (FCC 70-62, released January 15, 1970); and that the Policy Statement shall not be applied to this comparative renewal proceeding.

5. *It is further ordered*, That the Hearing Examiner and, where appropriate, the Review Board are directed to take any further steps necessary to conform the conduct of the proceeding to this order.

Adopted: August 4, 1971.

Released: August 20, 1971.

Order Regarding Policy Statement

In regard applications of WPIX, INC. (WPIX), New York, N.Y., for renewal of broadcast license, Docket No. 18711, File No. BRCT-98; Forum Communications, Inc., New York, N.Y., for construction permit for new television broadcast station, Docket No. 18712, File No. BPCT-4249.

1. The Commission has under consideration: (1) its order (FCC 69-1162, released October 28, 1969),[1] designating the above applications for hearing in a consolidated comparative renewal proceeding; (2) its Policy Statement on Comparative Hearings Involving Regular Renewal Applicants (FCC 70-62, released January 15, 1970),[2] providing that the policy was applicable to pending proceedings; and (3) the decision of the U.S. Court of Appeals for the District of Columbia Circuit in Citizens Communications Center, et al., v. FCC, et al. (Case Nos. 24,471 and 24,491, decided June 11, 1971), ordering that the Policy Statement, "being contrary to law, shall not be applied by the Commission in any pending or future comparative renewal hearings," and directing the Commission to redesignate all comparative renewal hearings to which the Policy Statement was deemed applicable to reflect the Court's judgment.[3]

2. Our designation order in this proceeding, which was adopted prior to the release of the Policy Statement, contains a standard comparative issue (No. 3) "To determine which of the proposals would better serve the public interest." Since we are expressly ordering herein that the Policy Statement shall not be applied to this proceeding, we believe that the comparative issue as presently framed provides for a full comparative hearing.

3. This proceeding is now pending before the Hearing Examiner. The Examiner and, where appropriate, the Review Board are directed to take any further steps necessary to conform the conduct of the proceeding to this order.

4. *Accordingly, it is ordered*, That the Policy Statement on Comparative Hearings Involving Regular Renewal Applicants (FCC 70-62, released January 15, 1970), shall not be applied to this comparative renewal proceeding; and that the Hearing Examiner and, where appropriate, the Review Board are directed to take any further steps necessary to conform the conduct of the proceeding to this order.

Adopted: August 4, 1971.

Order Amending Order Designating Applications for Hearing

In regard applications of WTAR Radio-TV Corp. (WTAR-TV), Norfolk, Va., for renewal of broadcast license, Docket No. 18791, file No. BRCT-54; Hampton Roads Television Corp.; Norfolk, Va., for construction permit for new television broadcast station, Docket No. 18792, File No. BPCT-4281.

1. The Commission has under consideration: (1) its designation order (FCC 70-97, released January 27, 1971), in the above consolidated comparative renewal proceeding, stating that the proceeding would be governed by our Policy Statement on Comparative Hearings Involving Regular Renewal Applicants (FCC 70-72, released January 15, 1970)[1]; and (2) the decision of the U.S. Court of Appeals for the District of Columbia Circuit in Citizens Communications Center, et al., v. FCC, et al. (Case Nos. 24,471 and 24,491, decided June 11, 1971), ordering that the Policy Statement, "being contrary to law, shall not be applied by the Commission in any pending or future comparative renewal hearings," and directing the Commission to redesignate all comparative renewal hearings to which the Policy Statement was deemed applicable to reflect the Court's judgment.[2]

2. The evidentiary hearing in this proceeding has not yet commenced. We note that the only reference to the Policy Statement in our above designation order is contained in the last sentence of paragraph 5 which states that this proceeding will be governed by the Policy Statement. This sentence should be deleted from our order and the order will be modified accordingly, thus making clear that the Policy Statement is not applicable to this proceeding. Our designation order contains a standard comparative issue (No. 2) "To Determine which of the proposals would better serve the public interest." We believe that, with the elimination of all reference to the Policy Statement, the comparative issue as presently framed provides for a full comparative hearing.

3. This proceeding is now pending before the Hearing Examiner. The Examiner and, where appropriate, the Review Board are directed to take any further steps necessary to conform the conduct of the proceeding to this order.

4. *Accordingly, it is ordered*, That our order designating the above applications for hearing (FCC 70-97, released January 27, 1970) is amended by the deletion of the reference to the Policy Statement on Comparative Hearings Involving Regular Renewal Applicants (FCC 70-62, released January 15, 1970); and that the Policy Statement shall not be applied to this comparative renewal proceeding.

5. *It is further ordered*, That the Hearing Examiner and, where appropriate, the Review Board are directed to take any further steps necessary to conform the conduct of the proceeding to this order.

FEDERAL MARITIME COMMISSION

COMMON CARRIERS BY WATER

Transportation Charges

AUGUST 18, 1971.

To all Common Carriers by water in the Foreign Commerce of the United States, Conferences of such Carriers, Terminal Operators and Carriers in the United States Domestic Offshore Trades.

On August 15, 1971, by virtue of the power vested in him by the Constitution and statutes of the United States, President Richard M. Nixon ordered, among other things, as follows:

SECTION 1. (a) Prices, rents, wages, and salaries shall be stabilized for a period of 90 days from the date hereof at levels not greater than the highest of those pertaining to a substantial volume of actual transactions by each individual, business, firm or other entity of any kind during the 30-day period ending August 14, 1971, for like or similar commodities or services. If no transactions occurred in that period, the ceiling will be the highest price, rent, salary, or wage in the nearest preceding 30-day period in which transactions did occur. No person shall charge, assess, or receive, directly or indirectly, in any transaction prices or rents in any form higher than those permitted hereunder, and no person shall, directly or indirectly, pay or agree to pay in any transaction wages or salaries in any form, or to use any means to obtain payment of wages and salaries in any form, higher than those permitted hereunder, whether by retroactive increase or otherwise.

In an official briefing concerning President Nixon's Directive, the Commission was informed that transportation charges are included within the meaning of the order. Therefore, effective August 15, 1971, through November 12, 1971, no collection may be made of any transportation charge which results in an increase in cost to shippers except as noted in section 1 above. The order applies notwithstanding the fact that proposed increases in rates or charges may otherwise have been lawfully filed pursuant to the provisions of the Shipping Act, 1916, the Intercoastal Shipping Act, 1933, and various Commission Orders. The order also applies whether or not increases in certain charges are under the control of the carrier.

It is to be particularly noted that the United States of America dollar has not been devalued and, therefore, various clauses published in conference and independent tariffs may not be put into effect, and, further, such clauses when requiring the payment of additional charges are contrary to the order.

In an effort to be of assistance to common carriers by water in the foreign commerce of the United States and conferences of such carriers and terminal operators, it is suggested that supplements be filed to existing tariffs providing tariffs providing therein postponement to November 13, 1971, of any change in rates, rules, or regulations resulting in an increase in cost to shippers which would have become effective during the period August 15, 1971, through November 12, 1971.

Common carriers in the domestic offshore commerce of the United States are hereby granted under blanket Special Permission No. 5380 authority to file supplements to their tariffs postponing increases for the period of time noted in the preceding paragraph. The order, it should be noted, applies to increases in rates suspended by the Commission prior to August 15 and which otherwise become effective during the period August 15, 1971, through November 12, 1971.

Failure to adopt the procedures outlined above will require amendment of each tariff page on which an increase is published to be effective during the period August 15, 1971, through November 12, 1971.

It is incumbent upon each carrier and conference publishing increases for the period noted in the order to promptly revise its tariff.

Section 7(a) of the order provides that: "Whoever willfully violates this Order or any order or regulation issued under authority of this Order shall be fined not more than $5,000 for each such violation."

The staff is prepared to be of assistance should such be required by you. Any questions, including questions of the applicability of or exceptions from these provisions, should be directed to the Federal Maritime Commission.

Sincerely,

HELEN DELICH BENTLEY,
Chairman.

[FR Doc.71-12436 Filed 8-24-71;8:51 am]

[Docket No. 71-77]

DILLINGHAM LINES, INC.

Order of Investigation and Suspension Regarding Increases in Rates on All Commodities in U.S. Pacific Coast/Hawaii Trade

Dillingham Lines, Inc., has filed with the Federal Maritime Commission various pages (see Appendix A [1]) to its Hawaii Freight Tariff No. 2, FMC-F No. 3 to become effective August 23, 1971. These pages increase rates by 90 cents per ton on all commodities to cover Marine Insurance between Hawaiian Ports and U.S. Pacific Coast Ports.

Upon consideration of said tariff pages the Commission is of the opinion that the above-designated tariff matter may be unjust, unreasonable, or otherwise unlawful and that a public investigation and hearing should be instituted to determine its lawfulness under section 18(a) of the Shipping Act, 1916, and/or sections 3 and 4 of the Intercoastal Shipping Act, 1933, and good cause appearing therefore:

It is ordered, That pursuant to the authority of section 22 of the Shipping Act, 1916, and sections 3 and 4 of the Intercoastal Shipping Act, 1933, an investigation is hereby instituted into the lawfulness of said matter, published on the tariff pages listed in Appendix A [1] with a view to making such findings and orders in the premises as the facts and circumstances warrant. In the event the matter hereby placed under investigation is further changed, amended or reissued, such matter will be included in this investigation.

It is further ordered, That pursuant to section 3, Intercoastal Shipping Act, 1933, the pages listed in Appendix A are suspended and the use thereof deferred to and including December 22, 1971, unless otherwise ordered by this Commission;

It is further ordered, That there shall be filed immediately with the Commission by Dillingham Lines, Inc., a consecutively numbered supplement to the aforesaid tariff which supplement shall bear no effective date, shall reproduce the portion of this order wherein the suspended matter is described and shall state that the aforesaid matter is suspended and may not be used until December 23, 1971, unless otherwise authorized by the Commission; and the rates and charges or other provisions heretofore in effect, and which were to be changed by the suspended matter shall remain in effect during the period of suspension, and neither the matter suspended, nor the matter which is continued in effect as a result of such suspension, may be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission;

It is further ordered, That copies of this order shall be filed with the said tariff schedule in the Bureau of Compliance of the Federal Maritime Commission;

It is further ordered, That Dillingham Lines, Inc. be named respondent in this proceeding;

It is further ordered, That the provisions of Rule 12 of the Commission's rules of practice and procedure which require leave of the Commission to take testimony by deposition or by written interrogatory if notice thereof is served within 20 days of the commencement of the proceeding, are hereby waived for this proceeding inasmuch as the expeditious conduct of business so requires. The provision of Rule 12(h) which requires leave of the Commission to request admissions of fact and genuineness of documents of notice thereof is served within 10 days of commencement of the proceeding, is similarly waived;

It is further ordered, That this proceeding be assigned for public hearing before an examiner of the Commission's Office of Hearing Examiners and that the hearing be held at a date and a place to be determined and announced by the presiding examiner;

It is further ordered, That (I) a copy of this order shall be forthwith served upon the respondent and published in the FEDERAL REGISTER; and (II) the said respondent be duly served with notice of time and place of hearing.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) having an interest in this proceeding and desiring to intervene therein, should notify the Secretary of the Commission promptly and file petitions for leave to intervene in accordance with Rule 5(l) of the Commission's rules of practice and procedure (46 CFR 502.72) with a copy to all parties to this proceeding.

By the Commission.

[SEAL] JOSEPH C. POLKING,
Assistant to the Secretary.

[FR Doc.71-12439 Filed 8-24-71;8:51 am]

[Docket No. 71-49; Special Permission 5377]

GULF PUERTO RICO LINES, INC.

General Increases in Rates in the U.S. Gulf Puerto Rico Trade; Fourth Supplemental Order

By the Original Order in this proceeding served April 30, 1971, the Commission placed under investigation a general rate increase of the subject carrier, and suspended to and including September 1, 1971, supplement No. 7 and various pages to Tariff FMC-F No. 1. The Commission's order prohibits changes in tariff matter held in effect by reason of suspension, during the period of suspension, unless otherwise ordered by the Commission.

By Special Permission Application No. 57 authority is sought to depart from the terms of Rule 20(c) of Tariff Circular No. 3 and the terms of the Original Order in this proceeding to permit the filing, upon not less than 5 days' notice, to make changes in rates and provisions held in effect by reason of suspension in said docket, but only to the extent that such changes will result in the filing of reduced rates on plastic household utensils previously rejected by the Commission.

A full investigation of the matters involved in the application having been made, which application is hereby referred to and made a part thereof:

It is ordered, That:

1. Authority to depart from Rule 20 (c) of Tariff Circular No. 3 and the terms of the Order in Docket No. 71-49 to make the changes in rates and provisions as set forth in Special Permission Application No. 57, said changes to become effective on not less than 5 days' notice, is hereby granted.

2. The authority granted hereby does not prejudice the right of this Commission to suspend any publications submitted pursuant thereto, either upon receipt of protest or upon the Commission's own motion under section 3 of the Intercoastal Shipping Act, 1933.

3. Publications issued and filed under this authority shall bear the following notation: "Issued under authority of Fourth Supplemental Order in Docket No. 71-49 and Federal Maritime Commission Special Permission No. 5377."

4. This special permission does not modify any outstanding formal orders of the Commission except insofar as it allows the aforementioned changes, nor waive, except as herein authorized, any of the requirements of its rules relative to the construction and filing of tariff publications.

By the Commission.

[SEAL] JOSEPH C. POLKING,
Assistant to the Secretary.

[FR Doc.71-12440 Filed 8-24-71;8:52 am]

[Docket No. 71-79]

PUERTO RICAN FORWARDING CO., INC.

Order of Investigation and Suspension Regarding General Increases in Rates in U.S. Atlantic and Puerto Rico Trade

Puerto Rican Forwarding Co., Inc., has filed with the Federal Maritime Commission Supplements Nos. 8, 9, 10, and 11 to its Tariff FMC-F No. 3 to become effective August 26, 1971. These supplements generally increase the rates and charges in the subject trade.

Upon consideration of said supplements, the Commission is of the opinion that the above-designated tariff matter may be unjust, unreasonable, or otherwise unlawful and that a public investigation and hearing should be instituted to determine its lawfulness under section 18(a) of the Shipping Act, 1916, and/or sections 3 and 4 of the Intercoastal Shipping Act, 1933; and good cause appearing, therefore:

One of the cost factors which Puerto Rican Forwarding has submitted to the Commission as justification for its proposed increase in rates is the 18 percent cost increase in the purchase of transportation from its underlying water carriers effective August 25, 1971, which has been postponed until November 13, 1971, by the Commission Circular letter of August 18, 1971.

It is ordered, That pursuant to the authority of section 22 of the Shipping Act, 1916, and sections 3 and 4 of the Intercoastal Shipping Act, 1933, and investigation is hereby instituted into the lawfulness of said increased rates and charges with a view to making such findings and orders in the premises as the facts and circumstances warrant. In the event the matter hereby placed under investigation is further changed, amended or reissued, such matter will be included in this investigation;

It is further ordered, That pursuant to section 3, Intercoastal Shipping Act, 1933, Supplements Nos. 8, 9, 10, and 11 to Tariff FMC-F No. 3 is suspended and the use thereof deferred to and including December 25, 1971, unless otherwise ordered by this Commission;

It is further ordered, That there shall be filed immediately with the Commission by Puerto Rican Forwarding Co., Inc., a consecutively numbered supplement to the aforesaid tariff which supplement shall bear no effective date, shall reproduce the portion of this order wherein the suspended matter is described and shall state the aforesaid matter is suspended and may not be used until December 26, 1971, unless otherwise authorized by the Commission; and the rates and charges heretofore in effect, and which were to be changed by the suspended matter shall remain in effect during the period of suspension, except as hereinbefore provided, and neither the matter suspended, nor the matter which is continued in effect as a result of such suspension may be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission: *Provided, however*, That changes in rates and provisions held in effect by reasons of suspension in this docket but only to the extent that such changes will result in a reduction in rates or charges, upon lawful notice, are hereby authorized.

It is further ordered, That the granted authority to effect reductions in rates or charges does not prejudice the right of the Commission to suspend any publications submitted pursuant thereto, either upon receipt of protests or upon the Commission's own motion, and that publications issued and filed pursuant to such authority shall bear the notation: "Authority granted by the Federal Maritime Commission in its Order of Investigation and Suspension in Docket No. 71-79 to make changes in rates and provisions held in effect by reason or suspension in said Docket, but only to the extent that such departure will result in a reduction of rates or charges."

It is further ordered, That copies of this order shall be filed with the said tariff schedules in the Bureau of Compliance of the Federal Maritime Commission;

It is further ordered, That the provisions of Rule 12 of the Commission's rules of practice and procedure which require leave of the Commission to take testimony by deposition or by written interrogatory if notice thereof is served within 20 days of the commencement of the proceeding, are hereby waived for this proceeding inasmuch as the expeditious conduct of business so requires. The provision of Rule 12(h) which requires leave of the Commission to request admissions of fact and genuineness of documents if notice thereof is served within 10 days of commencement of the proceeding, is similarly waived;

It is further ordered, That Puerto Rican Forwarding Co., Inc., be named as respondent in this proceeding;

It is further ordered, That this proceeding be assigned for public hearing before an examiner of the Commission's Office of Hearing Examiners and that the hearing be held at a date and a place to be determined and announced by the presiding examiner;

It is further ordered, That (I) a copy of this order shall forthwith be served on the respondent herein, the petitioner, Commonwealth of Puerto Rico, and published in the FEDERAL REGISTER; and (II) the said respondent and petitioner, be duly served with notice of time and place of hearing.

All persons (including individuals, corporations, associations, firms, partnerships and public bodies) having an interest in this proceeding and desiring to intervene therein, should notify the Secretary of the Commission promptly and file petitions for leave to intervene in accordance with Rules 5(l) of the Commission's rules of practice and procedure (46 CFR S 502.72), with a copy to all parties to this proceeding.

By the Commission.

[Docket No. 71–78]

WEST COAST OF ITALY, SICILIAN, AND ADRIATIC PORTS NORTH ATLANTIC RANGE CONFERENCE

Order of Investigation and Hearing Regarding Modification

The Commission has before it the application of The West Coast of Italy, Sicilian, and Adriatic Ports North Atlantic Range Conference, Agreement No. 2846–13, as amended, to modify Article 1, paragraph 9 of the basic agreement by redefining the term "Conference Freights" and listing exceptions to which the definition does not apply. Said paragraph would read as follows:

The term "Conference Freights" means the rates and conditions of freight as adopted by the Conference, which, unless otherwise stipulated hereunder, are applicable on all cargo loaded at W.I.N.A.C. loading ports and discharged at W.I.N.A.C. unloading ports irrespective of the origin and destination named in the bill of lading.

The only exceptions are:

(A) Cargo of non-Italian origin loaded at ports outside of the W.I.N.A.C. loading range in transshipment by water at W.I.N.A.C. loading ports and covered by a W.I.N.A.C. member bill of lading issued at and covering transportation from the port of origin.

(B) Cargo discharged at a W.I.N.A.C. port of destination but moving on a thru bill of lading issued by a W.I.N.A.C. member to points outside of U.S.A. or, by water, to any U.S.A. seaport outside the W.I.N.A.C. range of discharging ports.

which is excluded from W.I.N.A.C. jurisdiction.

The Conference has not furnished us with any justification for such a radical change in its basic rate concept. Further, it appears that the proposed modification could impose an unreasonable restraint on through intermodal movements, thereby creating a detriment to the foreign commerce of the United States.

It is therefore ordered, That pursuant to sections 15 and 22 of the Shipping Act, 1916, as amended, an investigation and hearing be instituted to establish a record showing the impact of the subject modification upon the foreign commerce of the United States to enable the Commission to determine whether the subject modification should be approved, disapproved or modified; and

It is further ordered, That the parties listed in appendix A hereto, are hereby made respondent in this proceeding; and

It is further ordered, That this matter be assigned for public hearing before an examiner of the Commission's Office of Hearing Examiners and that the hearing be held at a date and place to be determined and announced by the presiding examiner; and

It is further ordered, That notice of this order be published in the FEDERAL REGISTER and that a copy thereof and notice of hearing be served upon respondents; and

It is further ordered, That any person, other than respondents, who desires to become a party to this proceeding and participate therein, shall file a petition to intervene with the Secretary, Federal Maritime Commission, Washington, D.C. 20573, in accordance with Rule 5(1) (46 CFR 502.72) of the Commission's rules of practice and procedure.

And it is further ordered, That all future notices issued by or on behalf of the Commission in this proceeding, including notices of time and place of hearing or prehearing conference, shall be mailed directly to all parties of record.

By the Commission.

[SEAL] JOSEPH C. POLKING,
Assistant to the Secretary.

FEDERAL POWER COMMISSION

[Docket No. RP72–21]

EASTERN SHORE NATURAL GAS CO.

Notice of Proposed Changes in FPC Gas Tariff To Establish New Policies Regarding Curtailment and Interruption of Deliveries

AUGUST 20, 1971.

Take notice that on August 1, 1971, Eastern Shore Natural Gas Co. (Eastern Shore) tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 1,[1] to be effective September 10, 1971, for the purpose of establishing procedures to govern curtailments of service in case of a gas shortage resulting either from curtailment of deliveries by Eastern Shore's interstate supplier or from other causes. Eastern Shore also asks that its filing of a prior curtailment proposal in Docket No. RP71–121 be withdrawn. The tariff sheets filed in Docket No. RP71–121 were suspended by the Commission's order issued June 7, 1971, in that docket and have not become effective by reason of Eastern Shore's election not to file a motion to make those provisions effective.

The basic provisions of Eastern Shore's proposed curtailment plan are set forth on Original Sheet Nos. 32A, 32B, 32C, and 32D which would revise section 13 of the General Terms and Conditions of its tariff. Section 13.1 provides for curtailments of service when there is a gas supply deficiency. In such cases, interruptible service, including sales to direct pipeline customers and interruptible consumers served by resale customers, will be proportionately reduced until all such sales are entirely discontinued. Thereafter, direct firm pipeline customers will be curtailed along with transportation service to direct industrial customers if such curtailment is necessary to maintain sufficient pressure to provide adequate service to firm resale customers. Then firm industrial service, including firm sales made by resale customers, will be proportionately curtailed until all firm industrial sales are completely curtailed except industrial customers whose daily requirements are 100 Mcf or less. The final curtailment step will be to reduce firm service to resale customers purchasing under Rate Schedules CD–1, CD–E, and G–1 in proportion to the total daily contract demand of all customers, including industrial customers, including industrial customers using 100 Mcf or less per day.

In making the curtailments provided for in section 13.1, Eastern Shore will give its customers as much notice as possible and will specify the percentage of their contractual volumes they are entitled to take during a specific curtailment period.

Section 13.2 sets forth Eastern Shore's curtailment procedures in cases of gas shortages arising from force majeure causes or resulting from repairs, modifications, etc., of Eastern Shore's pipeline system. Curtailments under such circumstances will be made exactly as specified in section 13.1 described above, except that transportation services will be curtailed at the same time and in the same proportion as firm industrial service even if such curtailment would not be necessary in order to maintain operating pressures to protect firm service to resale customers. Additionally, section 13.2 specifically provides for highest priority to be given to service rendered under Eastern Shore's Rate Schedules GSS–1 (General Storage Service) and PS–1 (Peaking Service) Rate Schedules.

The remaining proposed tariff changes would modify the provisions of Rate Schedules CD–1, CD–E, and G–1 to recognize that they are subject to the revised changes in curtailment procedures as set forth in sections 13.1 and 13.2.

Eastern Shore's filing indicates that it was served upon its customers and interested State Commissions.

In view of the fact that any comments should be submitted prior to the requested effective date of September 10, 1971, good cause exists to shorten the notice period with respect to Eastern Shore's filing.

Any person desiring to be heard or to make any protest with reference to the proposed tariff changes hereinbefore described should on or before August 31, 1971, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Persons wishing to become parties to the proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. Eastern Shore's proposed tariff sheets, submitted in response to Order No. 431, are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.71–12470 Filed 8–24–71;8:53 am]

[1] Original Sheet Nos. 9G, 12A, 32A, 32B, 32C, and 32D; First Revised Sheet Nos. 6, 7A, 9A, 9C, 9D, 9E, 9F, 12, 32, and 33; Second Revised Sheet Nos. 7 and 10; Third Revised Sheet No. 4; Eighth Revised Sheet No. 9B; and 25th Revised Sheet Nos. 5 and 8 to its FPC Gas Tariff, Original Volume No. 1.

FEDERAL RESERVE SYSTEM

FIRST NATIONAL CITY CORP.

Notice of Application for Approval of Acquisition of Shares of Bank

Notice is hereby given that application has been made, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)), by First National City Corp., which is a bank holding company located in New York, N.Y., for prior approval by the Board of Governors of the acquisition by applicant of 100 percent of the voting shares (less directors' qualifying shares) of Citibank, N.A., Islip, N.Y., a proposed new bank.

Section 3(c) of the Act provides that the Board shall not approve:

(1) Any acquisition or merger or consolidation under section 3 which would result in a monopoly, or which would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the business of banking in any part of the United States, or

(2) Any other proposed acquisition or merger or consolidation under section 3 whose effect in any section of the country may be substantially to lessen competition, or to tend to create a monopoly, or which in any other manner would be in restraint of trade, unless the Board finds that the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served.

Section 3(c) further provides that, in every case, the Board shall take into consideration the financial and managerial resources and future prospects of the company or companies and the banks concerned, and the convenience and needs of the community to be served.

Not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER, comments and views regarding the proposed acquisition may be filed with the Board. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. The application may be inspected at the office of the Board of Governors or the Federal Reserve Bank of New York.

Board of Governors of the Federal Reserve System, August 18, 1971.

[SEAL] NORMAND BERNARD,
Assistant Secretary.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 71–8]

CERTAIN FINAL ENVIRONMENTAL IMPACT STATEMENTS

Availability

Notice is hereby given of the public availability of final Environmental Impact Statements with respect to the following installations of the National Aeronautics and Space Administration:

(a) Ames Research Center, Moffett Field, Calif.

(b) Flight Research Center, Edwards, Calif.

(c) Langley Research Center, Hampton, Va.

(d) Lewis Research Center, Cleveland, Ohio.

Each of these separate Installation Statements describes the respective installation, its mission, and operations.

Comments on the draft Environmental Statements for the above installations were previously solicited from State and local agencies and members of the public through notices in the FEDERAL REGISTER of March 3, 1971 and March 18, 1971.

Copies of the draft statements were sent to the Office of Management and Budget, the Council on Environmental Quality, and the Environmental Protection Agency.

Copies of the final statements are being furnished to the Council on Environmental Quality and the Office of Management and Budget.

Copies of the final statements may be purchased (price $1 each), or examined at any of the following locations:

(a) National Aeronautics and Space Administration, Public Documents Room (Room 126), Independence Avenue SW., Washington, D.C. 20546.

(b) Ames Research Center, NASA (Building 201, Room 17), Moffett Field, Calif. 94035.

(c) Flight Research Center, NASA (Building 4800, Room 1017), Post Office Box 273, Edwards, CA 93523.

(d) Goddard Space Flight Center, NASA (Building 8, Room 150), Greenbelt, Md. 20771.

(e) John F. Kennedy, Space Center, NASA (Headquarters Building, Room 1207), Kennedy Space Center, Fla. 32899.

(f) Langley Research Center, NASA (Building 1219, Room 304), Hampton, Va. 23365.

(g) Lewis Research Center, NASA (Administration Building, Room 120), 21000 Brookpark Road, Cleveland, OH 44135.

(h) Manned Spacecraft Center, NASA (Building 1, Room 136), Houston, Tex. 77058.

(i) George C. Marshall Space Flight Center, NASA (Building 4200, Room G–11), Hunstville, Ala. 35812.

(j) Mississippi Test Facility, NASA (Building 1100, Room A–213), Bay St. Louis, Miss. 39520.

(k) NASA Pasadena Office (Jet Propulsion Laboratory, Building 180, Room 600), 4800 Oak Grove Drive, Pasadena, CA 91103.

[Notice 71-7]

PIONEER F/G PROGRAM

Availability of Draft Environmental Impact Statement

Notice is hereby given of the public availability of the draft Environmental Impact Statement on the NASA Pioneer F/G Program.

The Pioneer F and G spacecraft are the sixth and seventh of an on-going series of planetary and interplanetary space exploration missions which will be launched by Atlas-Centaur launch vehicles from Cape Kennedy, Fla., to the vicinity of the planet Jupiter in 1972 and 1973.

Comments on the draft Environmental Statement and on matters set forth therein are solicited from and may be submitted by State and local agencies and members of the public. Such comments should be submitted to the Associate Administrator, National Aeronautics and Space Administration, Washington, D.C. 20546. All comments must be received within 60 calendar days of the publication of this Notice in the FEDERAL REGISTER in order to be considered in the preparation of the final Environmental Statement and in the ultimate program or activity reassessment.

Copies of the draft statement may be purchased (price $1 each) or examined at any of the following locations:

(a) National Aeronautics and Space Administration, Public Documents Room (Room 126), Independence Avenue SW., Washington, DC 20546.

(b) Ames Research Center, NASA (Building 201, Room 17), Moffett Field, Calif. 94035.

(c) Flight Research Center, NASA (Building 4800, Room 1017), Post Office Box 273, Edwards, CA 93523.

(d) Goddard Space Flight Center, NASA (Building 8, Room 150), Greenbelt, Md. 20771.

(e) John F. Kennedy Space Center, NASA (Headquarters Building, Room 1207), Kennedy Space Center, Fla. 32899.

(f) Langley Research Center, NASA (Building 1219, Room 304), Hampton, Va. 23365.

(g) Lewis Research Center, NASA (Administration Building, Room 120), 21000 Brookpark Road, Cleveland, OH 44135.

(h) Manned Spacecraft Center, NASA (Building 1, Room 136), Houston, Tex. 77058.

(i) George C. Marshall Space Flight Center, NASA (Building 4200, Room G-41), Huntsville, Ala. 35812.

(j) Mississippi Test Facility, NASA (Building 1100, Room A-213), Bay St. Louis, Miss. 39520.

(k) NASA Pasadena Office (Jet Propulsion Laboratory, Building 180, Room 600), 4800 Oak Grove Drive, Pasadena, CA 91103.

(l) Wallops Station, NASA (Library Building, Room E-105), Wallops Island, Va. 23337.

Done at Washington, D.C., this 17th day of August 1971.

By direction of the Administrator.

HOMER E. NEWELL,

OFFICE OF EMERGENCY PREPAREDNESS

[OEP Economic Stabilization Order 1]

SECRETARY OF THE TREASURY

Delegation of Authority

By virtue of the authority vested in the Director of the Office of Emergency Preparedness by section 5 of Cost of Living Council Order No. 1, it is hereby ordered as follows:

SECTION 1. *Purpose.* The purpose of this order is to delegate to the Secretary of the Treasury, hereinafter referred to as the Secretary, certain administrative and operating functions relating to the implementation of the program providing for stabilization of prices, rents, wages, and salaries pursuant to Executive Order 11615 of August 15, 1971. The Secretary shall, in carrying out said functions, provide by redelegation or otherwise for their performance.

SEC. 2. *Functions delegated.* There is hereby delegated to the Secretary the responsibility and authority for the establishment, operation and maintenance of local service and compliance centers established in support of the economic stabilization program in Standard Metropolitan Statistical Areas and such other places as the Secretary may determine. The functions to be exercised through these centers will include but not be limited to the following:

a. Dissemination of information and guidance to the public;

b. Receipt, analysis, and evaluation of complaints received with respect to program violations;

c. Subject to the general policy guidance and coordination of the Director of the Office of Emergency Preparedness, or his designee, the investigation, compliance, and enforcement of the stabilization of prices, rents, wages and salaries as directed by section 1(a) of Executive Order No. 11615.

Sec. 3. *Effective date.* This Order is effective the date of issuance.

Dated: August 19, 1971.

G. A. LINCOLN,
Director, Office of Emergency Preparedness.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Loan Area 840; Class B]

RHODE ISLAND

Declaration of Disaster Loan Area

Whereas, it has been reported that during the month of July 1971, because of the effects of certain disasters damage resulted to business property located in the State of Rhode Island;

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act, as amended.

Now, therefore, as Associate Administrator for Operations and Investment of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in the Lederer Building, Stewart and Conduit Streets, Providence, RI, suffered damage or destruction resulting from fire on July 28, 1971.

OFFICE

Small Business Administration District Office, 57 Eddy Street, Providence, RI 02903.

2. Applications for disaster loans under the authority of this Declaration will not be accepted subsequent to February 29, 1972.

Dated: August 9, 1971.

A. H. SINGER,
Associate Administrator for Operations and Investment.

[FR Doc.71-12367 Filed 8-24-71;8:45 am]

RULE MAKING PROCEDURES

Policy on Public Participation

Effective in 30 days from publication of this notice, the Small Business Administration intends to be governed by the public participation provisions of the Administrative Procedure Act, 5 U.S.C. section 553, notwithstanding the exemptions given by such section 553 for matters relating to agency management or personnel, or to public property, loans, grants, benefits, or contracts. Where, as provided by 5 U.S.C. section 553, it is determined that such public participation procedures would be impracticable, unnecessary, or contrary to the public interest, a specific finding to this effect shall be published with the rules or regulations in question. Such exceptions from public participation procedures are not to be favored and will be used sparingly, as for example, in emergencies and in instances where public participation would be useless or wasteful because proposed amendments to regulations cover minor technical matters.

In connection with any notice of proposed rule making, written material or suggestions submitted will be available for public inspection during regular business hours at the office indicated in such notice.

Dated: August 18, 1971.

THOMAS S. KLEPPE,
Administrator.

INTERSTATE COMMERCE COMMISSION

ASSIGNMENT OF HEARINGS

AUGUST 20, 1971.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 134915 Sub 2, Southwest Refrigerated Distributing, Inc., doing business as Refrigerated Distributing, now assigned September 16, 1971, at Jefferson City, Mo., postponed indefinitely.

MC 61592 Sub 199, Jenkins Truck Line, Inc., assigned September 21, 1971, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 106398 Sub 308, National Trailer Convoy, Inc., assigned September 27, 1971, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 682 Sub 11, Burnham Van Service, Inc., assigned for continued hearing September 21, 1971, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 135413, Henry's Transfer, Inc., assigned September 20, 1971, in Room 1510, Federal Building, 51 Southwest First Avenue, Miami, FL.

MC-F-10960, Briggs Transportation Co.—Purchase (Portion)—Ringsby Truck Lines, Inc., and MC 52709 Sub 313, Ringsby Truck Lines, Inc., assigned October 4, 1971, in Room 15036, Federal Building, 1961 Stout Street, Denver, CO.

MC 115092 Sub 14, Weiss Trucking, Inc., assigned September 30, 1971 in Room 314, Federal Annex Building, 135 South State Street, Salt Lake City, UT.

MC 115904 Sub 24, Louis Grover, assigned September 27, 1971, in Room 314, Federal Annex Building, 135 South State Street, Salt Lake City, UT.

MC 133496 Sub 3, Diehl Lumber Transportation Co., assigned September 29, 1971, in Room 314, Federal Annex Building, 135 South State Street, Salt Lake City, UT.

MC 120098 Sub 19, Uintah Freightways, assigned October 4, 1971, in Room 284, Post Office Building, 1823 Stout Street, Denver, CO.

MC 115826 Sub 21, W. J. Digby, Inc., assigned for continued hearing October 12, 1971, in Room 15036, Federal Building, 1961 Stout Street, Denver, CO.

MC 121162 Sub 8, Morton John Kavanaugh, Jr., d.b.a. Kavanaugh Motor Freight, assigned for continued hearing October 4, 1971, in Room 55, U.S. Post Office and Courthouse, 424 Texas Street, Shreveport, LA.

MC-F-11074, Point Transfer, Inc.—Purchase—The Coraopolis Transfer and Storage Co., assigned September 27, 1971, at the offices of the Interstate Commerce Commission, Washington, D.C.

MC-F-11093, C & H Transportation Co., Inc.—Purchase (Portion)—Equipment Transport, Inc., assigned September 23, 1971, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-C-7220, Chemical Leaman Tank Lines, Inc., Matlack, Inc., and M & M Trucking Company, a corporation—Investigation of Practices, assigned September 22, 1971, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 83539 Sub 305, C & H Transportation Co., Inc., assigned September 20, 1971, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 115841 Sub 397, Colonial Refrigerated Transportation, Inc., assigned September 22, 1971, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 117574 Sub 197, Daily Express, Inc., assigned September 22, 1971, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 112304 Sub 45, Ace Doran Hauling & Rigging Co., assigned October 7, 1971, in Room 183, Federal Building, 600 Federal Place, Louisville, KY.

MC 112304 Sub 46, Ace Doran Hauling & Rigging Co., assigned October 8, 1971, in Room 183, Federal Building, 600 Federal Place, Louisville, KY.

MC 118831 Sub 79, Central Transport, Inc., assigned October 12, 1971, in Room 183, Federal Building, 600 Federal Place, Louisville, KY.

MC 127834 Sub 59, Cherokee Hauling & Rigging, Inc., assigned October 4, 1971, in Room 183, Federal Building, 600 Federal Place, Louisville, KY.

MC 133633 Sub 5, Highway Express, Inc., assigned October 18, 1971, in Room 403, Sun-N-Sand Motel, North Lamar Street, Jackson, Miss.

FD 26409, Atlas Van Lines, Inc. Investigation of Practices, FD 26654, Atlas Van Lines, Inc. Agreement of Subordinated Participation, assigned October 13, 1971, in Room 183, Federal Building, 600 Federal Place, Louisville, KY.

[No. MC-C4; Sub-No. 1]

LOS ANGELES HARBOR COMMERCIAL ZONE

Notice of Filing of Petition Regarding Boundaries

AUGUST 20, 1971.

No. MC-C 4 (Sub-No. 1) (Notice of filing of petition for clarification of a portion of the northern boundary of the Los Angeles Harbor Commercial Zone at Compton, Calif.), filed August 10, 1971.

Petitioner: Cabot, Cabot & Forbes Los Angeles Industrial Center, Inc., Compton, Calif.

Petitioner's representatives: William H. Allen, Richard D. Copahen, 888 16th Street NW., Washington, DC 20006.

Petitioner's industrial center is located south of the former corporate limits of Compton, Calif. The Los Angeles Harbor commercial zone limits are described in part as including that area south of the corporate limits of Compton. Since defining the limits of the Los Angeles Harbor commercial zone in 51 M.C.C. 676, Compton has expanded its corporate limits in a southerly direction to include the area encompassing petitioner's industrial center. By the instant petition, petitioner requests that the Commission interpret the present Los Angeles Harbor commercial zone limits so as not to exclude petitioner's industrial center from the commercial zone now that its industrial center is north of the new southern corporate limits of Compton. Redefinition of the limits of the Los Angeles Harbor commercial zone (49 CFR 1048.5) may be required. No oral hearing is contemplated at this time, but any person (including petitioner), wishing to make representations in favor of, or against, the above-proposed clarification or possible redefinition of the Los Angeles Harbor commercial zone, limits at Compton, may do so by the submission of written data, views, or arguments. An original and seven copies of such data, views, or arguments shall be filed with the Commission on or before September 20, 1971. Each such statement should include a statement of position with respect to the proposed revision, and copy thereof should be served upon petitioner's representative.

Notice to the general public of the matter herein under consideration will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection and by filing a copy thereof with the Director, Office of the Federal Register. Written material or suggestions submitted will be available for public inspection at the offices of the Interstate Commerce Commission, 12th and Constitution, Washington, DC, during regular business hours.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 24]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

AUGUST 20, 1971.

The following letter-notices of proposals to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised

Deviation Rules-Motor Carriers of Passengers, 1969 (49 CFR 1042.2(c)(9)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.2(c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PASSENGERS

NO. MC-1515 (Deviation No. 591), GREYHOUND LINES, INC. (Western Division), 371 Market Street, San Francisco, CA 94106, filed August 10, 1971. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over a deviation route as follows: From Roseville, Calif., over Sunrise Boulevard to junction Greenback Lane, thence over Greenback Lane to Folsom, Calif., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over pertinent service routes as follows: (1) From the point where Interstate Highway 80 intersects the Nevada-California State line over Interstate Highway 80 to Sacramento, Calif., (connects with Nevada Route 1), and (2) from the point where U.S. Highway 50 intersects the Nevada-California State line over U.S. Highway 50 to junction unnumbered highway southeast of Folsom (East Folsom Junction), thence over unnumbered highway via Folsom and Nimbus to junction U.S. Highway 50, thence over U.S. Highway 50 to Sacramento, Calif. (connects with Nevada Route 4), and return over the same routes.

No. MC-109780 (Deviation No. 37), CONTINENTAL TRAILWAYS, INC. (Central Division), 300 South Broadway Avenue, Wichita, KS 67201, filed August 9, 1971. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over a deviation route as follows: From Chicago, Ill., over city streets to junction Interstate Highways 94 and 57 (city of Chicago), thence over Interstate Highway 57 to Onarga, Ill., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: From Chicago, Ill., over U.S. Highway 41 to Hammond, Ind., thence over U.S. Highway 6 to Harvey, Ill. (also from Hammond over Sibley Boulevard to Harvey), thence over U.S. Highway 54 via Kankakee, Ill., to junction Illinois Highway 115, thence over Illinois Highway 115 to junction U.S. Highway 54, thence over U.S. Highway 54 to Fullerton, Ill., and return over the same route.

By the Commission.

[Notice 29]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

AUGUST 20, 1971.

The following letter-notices of proposals to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 CFR 1042.4(d)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(d)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(d)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC-8600 (Deviation No. 9), WERNER CONTINENTAL, INC., Post Office Box 3609, St. Paul, MN 55101, filed August 6, 1971. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From junction U.S. Highways 66 and 12 (near Hodgkins, Ill.), over U.S. Highway 12 to junction Interstate Highway 294, thence over Interstate Highway 294 to junction Interstate Highway 80 (near Hazel Crest, Ill.), thence over Interstate Highway 80 to junction Interstate Highway 71 (near Cleveland, Ohio), thence over Interstate Highway 71 through Cleveland, Ohio, to junction Interstate Highway 90 (near Cleveland, Ohio), thence over Interstate Highway 90 to Albany, N.Y., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: from Chicago, Ill., over U.S. Highway 12 to junction U.S. Highway 41, thence over U.S. Highway 41 to junction U.S. Highway 30, thence over U.S. Highway 30 to junction U.S. Highway 30S (Near Delphos, Ohio), thence over U.S. Highway 30S to junction U.S. Highway 30 (near Mansfield, Ohio), thence over U.S. Highway 30 to Pittsburgh, Pa., thence over U.S. Highway 22 to Newark, N.J., thence over city streets and connecting highways to New York, N.Y., thence over U.S. Highway 9 to Albany, N.Y., and return over the same route.

No. MC-33641 (Deviation No. 25), IML FREIGHT, INC., Post Office Box 2277, Salt Lake City, UT 84110, filed August 10, 1971. Carrier proposes to operate as a *common carrier* by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Reading, Pa., over U.S. Highway 222 to junction Pennsylvania Turnpike Northeast Extension, near Wescosville, Pa., thence over the Pennsylvania Turnpike Northeast Extension to junction U.S. Highway 22 (Interstate Highway 78), thence over U.S. Highway 22 (Interstate Highway 78) to junction Pennsylvania Highway 512 near Bethlehem, Pa., thence over Pennsylvania Highway 512 to junction Pennsylvania Highway 115 near Wind Gap, Pa., thence over Pennsylvania Highway 115 to junction U.S. Highway 611, thence over U.S. Highway 611 to junction U.S. BR Highway 209 near Stroudsburg, Pa., thence over U.S. BR Highway 209 to junction U.S. Highway 209, thence over U.S. Highway 209 to junction Interstate Highway 84 near Milford, Pa., thence over Interstate Highway 84 to junction Interstate Highway 87 near Newburgh, N.Y., thence over Interstate Highway 87 to Albany, N.Y., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) from Harrisburg, Pa., over U.S. Highway 422 to Philadelphia, Pa., thence over the Delaware River Bridge to Camden, N.J., thence over U.S. Highway 130 to junction U.S. Highway 1, thence over U.S. Highway 1 to New York, N.Y., and (2) from New York, N.Y., over U.S. Highway 9 to Albany, N.Y., and return over the same routes.

No. MC-42487 (Deviation No. 91), CONSOLIDATED FREIGHT WAYS CORPORATION OF DELAWARE, 175 Linfield Drive, Menlo Park, CA 94015, filed August 10, 1971. Carrier's representative: V. R. Oldenburg, Post Office Box 5138, Chicago, IL 60680. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (1) From Salem, Ill., over Illinois Highway 37 to Mt. Vernon, Ill., thence over U.S. Highway 460 to Evansville, Ind., and (2) from junction U.S. Highway 50 and Interstate Highway 57, at or near Salem, Ill., over Interstate Highway 57 to junction U.S. Highway 460, at or near Mt. Vernon, Ill., thence over U.S. Highway 460 to Evansville, Ind., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: from Salem, Ill., over U.S. Highway 50 to Vincennes, Ind., thence over U.S. Highway 41 to Evansville, Ind., and return over the same route.

By the Commission.

[Notice 66]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

AUGUST 20, 1971.

The following publications are governed by the new Special Rule 247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

APPLICATIONS ASSIGNED FOR ORAL HEARING

MOTOR CARRIERS OF PROPERTY

No. MC 134542 (Sub-No. 4) (Amendment), filed August 3, 1970, published in the FEDERAL REGISTER issue of August 27, 1970, and republished as amended, this issue. Applicant: QUICK-LIVICK, INC., 708 C Street, Staunton, VA 24401. Applicant's representative: John R. Sims, Jr., Suite 605, 711 14th Street NW., Washington, DC 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in charter operations, from points in Rockbridge and Allegheny Counties, Va., to points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maine, Massachusetts, Maryland, Michigan, Mississippi, Missouri, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Virginia, Vermont, West Virginia, Wisconsin, and the District of Columbia, and return. NOTE: The purpose of this republication is to (1) add the District of Columbia to the territorial scope of the application, and (2) reflect that pursuant to order of the Commission, Review Board No. 4, served July 27, 1971, the application is to be assigned for oral hearing at a time and place to be fixed later, subject to republication of this notice showing the scope of the application as amended.

No. MC 105369 (Sub-No. 11) (Republication), filed August 10, 1970, published in the FEDERAL REGISTER issue of September 3, 1970, and republished this issue. Applicant: N.Y. & N.J. FREIGHTWAYS, INC., 31-07 Starr Avenue, Long Island City, NY 11101. Applicant's representative: Arthur J. Piken, 160-16 Jamaica Avenue, Jamaica, NY 11432. A Report and Order of the Commission, Review Board No. 3, decided July 22, 1971, and served August 12, 1971, finds; that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of dental supplies, hospital supplies, textbooks, science laboratory apparatus and supplies, business machines, business machine equipment and supplies, cleaning compounds (except in bulk), printed matter (except newspapers and magazines), office supplies and equipment, office furniture, and photographic equipment and supplies, between New York, N.Y., and points in Hudson County, N.J., on the one hand, and, on the other, points in New Jersey (except points in Essex, Union, Hudson, Bergen, Passaic, Morris, and Middlesex Counties, N.J.). Because it is possible that other persons who may have relied upon the notice of the application as published in the FEDERAL REGISTER may have an interest in and would be prejudiced by the lack of proper notice, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 125826 (Sub-No. 8) (Republication), filed March 11, 1971, published in the FEDERAL REGISTER issue of April 8, 1971, and republished this issue. Applicant: BARTLESON BROTHERS, INC., Courses Landing Road, Penns Grove, NJ 08069. Applicant's representative: Morton E. Kiel, 140 Cedar Street, New York, NY 10006. An Order of the Commission, Operating Rights Board, dated July 23, 1971, and served August 17, 1971, finds; that operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of solidified carbon dioxide, from the plantsite of Cardox Division of Chemetron Corp., at Delaware City, Del., to points in Ohio, Virginia, West Virginia, the District of Columbia, Maryland, New Jersey, Pennsylvania, New York, Connecticut, Rhode Island, and Massachusetts, under continuing contract with Cardox Division of Chemetron Corp., will be consistent with the public interest and the national transportation policy. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings of this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate pleading setting forth in precise detail the manner in which it has been so prejudiced.

NOTICE OF FILING OF PETITIONS

No. MC 114989 (Sub-No. 6) (Notice of Filing of Petition To Change Shipper), filed August 2, 1971. Petitioner: KENTUCKY WESTERN TRUCK LINES, INC., Post Office Box 623, Hopkinsville, KY 42240. Petitioner's representative: Richard D. Gleaves, 833 Stahlman Building, Nashville, Tenn. 37201. Petitioner states it is authorized in No. MC 114989 (Sub-No. 6) to transport malt beverages, from Peoria, Ill., to Hopkinsville, Ky., for John and William Higgins, doing business as Hopkinsville Beverage Co. By the instant petition, petitioner requests permission to substitute the name of Loyd W. Ford, doing business as Ford Beer Distributors, in lieu of John and William Higgins, doing business as Hopkinsville Beverage Co. Any interested person desiring to participate may file an original and six copies of his written representations, views or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 126450 (Sub-No. 2), (Notice of filing of petition for modification of certificate), filed August 12, 1971. Petitioner: W. C. WINTER, INC., Atlanta, Ga. Petitioner's representative: Monty Schumacher, 2045 Peachtree Road NE., Suite 310, Atlanta, GA 30309. Petitioners states it holds a certificate in MC 126450 (Sub-No. 2), authorizing the transportation of: *Scrap metal* and *scrap ingots*, and *green or salted hides and casings*, over irregular routes, between points in Georgia, on the one hand, and, on the other, points in Alabama, Kentucky, Ohio, Tennessee, North Carolina, South Carolina, Pennsylvania, Missouri, Indiana, Illinois, Virginia, Michigan, Connecticut, Massachusetts, New York, New Jersey, Maryland, Wisconsin, and Texas. Restriction: The operations authorized herein are restricted against the transportation of (1) scrap metal and scrap ingots from Marietta, Ga., to Kansas City or St. Louis, Mo., and (2) green or salted animal hides and casings from points in Georgia to points in North Carolina, Pennsylvania, Virginia, Connecticut, Massachusetts, New York, New Jersey, and Maryland, and from points in Texas to points in Georgia. By the instant petition, petitioner requests that the modifying word "scrap" as it pertains to ingots be removed from the certificate. Any interested person desiring to participate may send an original and six copies of his written representations, views or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 128648 (Sub-No. 3) (Notice of filing of petition for modification of permit to add a contract shipper), filed August 12, 1971. Petitioner: TRANS-

UNITED, INC., Torrance, Calif. Petitioner's representative: William J. Lippman, 1819 H Street NW., Washington, DC 20006. Petitioner states that it holds a permit in No. MC 128648 (Sub-No. 3), authorizing the transportation of: *Candy*, in vehicles equipped with mechanical refrigeration, from points in Alabama, Colorado, Georgia, Illinois, Indiana, Iowa, Massachusetts, Minnesota, Missouri, New Jersey, New York, Ohio, Pennsylvania, Texas, and Virginia, to points in California, with no transportation from compensation on return except as otherwise authorized. Restriction: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with Customer Warehouse Co., of Maywood, Calif. By the instant petition, petitioner seeks to add the name of Pangburn Co., Inc., as a contract shipper. Any interested person desiring to participate may file an original and six copies of his written representations, views or argument in support of or against the petition within 30 days from the date ~~of publication~~ in the FEDERAL REGISTER.

No. MC 129572 (Sub-No. 1) (Notice of filing of petition for modification of permit), filed August 9, 1971. Petitioner: ANDICO, INC., Magna, Utah. Petitioner's representative: Irene Warr, Suite 419 Judge Building, Salt Lake City, Utah 84111. Petitioner holds a permit in No. MC 129572 Sub 1 authorizing the transportation, over irregular routes, of: "Pipe and pipe valves and fittings, tubing, beams, bar stock, and sheet and plate metals (except oilfield and pipeline commodities as defined in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), and equipment, materials, and supplies used in the machining or installation of the above-described commodities, between points in Utah, Idaho, Wyoming, Montana, Colorado, Arizona, New Mexico, Nevada, and California, under continuing contract, or contracts, with Tubular Service Corp., of Salt Lake City, Utah" (now known as Keystone Tubular Service Corp.). By the instant petition, petitioner seeks to amend the territorial description to read: "Between points in Utah, Idaho, Wyoming, Montana, Colorado, Arizona, New Mexico, Nevada, California, Washington, and Oregon." Any interested persons desiring to participate may file an original and six copies of his written representations, views or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 133211 (Sub-No. 1) (Notice of filing of petition to add name of shipper), filed August 12, 1971. Petitioner: JERSEY FURNITURE WAREHOUSE & TRUCKING CO., INC., North Bergen, N.J. Petitioner's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Petitioner states that it holds a permit in No. MC 133211 (Sub-No. 1) authorizing the transportation of furniture, from the storage facilities of Arbed Co. at North Bergen, N.J., to points in Nassau, Suffolk, Westchester, Orange, and Rockland Counties, N.Y., and points in New Jersey, under continuing contract with Arbed Co. of North Bergen, N.J. By the instant petition, petitioner desires to add to this the names of The Pilliod Cabinet Co. and Chromcraft, Inc., as additional contracting shippers. Any interested person desiring to participate may file an original and six copies of his written representations, views or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE

No. MC 2253 (Sub-No. 46), filed June 22, 1971. Applicant: CAROLINA FREIGHT CARRIERS CORPORATION, Post Office Box 697, Cherryville, NC 28021. Applicant's representative: James E. Wilson, 1032 Pennsylvania Building, Pennsylvania Avenue and 13th Street NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), between points in North Carolina on and east of U.S. Highway 21, and on and west and north of a line beginning at the Virginia-North Carolina State line and extending along U.S. Highway 258 to Kinston, N.C., thence along North Carolina Highway 11 to junction North Carolina Highway 41 near Wallace, N.C., thence along North Carolina Highway 41 to Lumberton, N.C., thence along U.S. Highway 301 to the North Carolina-South Carolina State line. Note: the instant application is a matter directly related to No. MC-F 11202 published in the FEDERAL REGISTER issue of June 23, 1971. Applicant states that the requested authority could be tacked with its existing authority at numerous points in North Carolina. If a hearing is deemed necessary, applicant requests it be held at Charlotte, Raleigh, or Greensboro, N.C.

No. MC 116254 (Sub-No. 126), filed July 21, 1971. Applicant: CHEM-HAULERS, INC., Post Office Drawer M, Sheffield, AL 35660. Applicant's representative: Walter Harwood, 1822 Parkway Towers, Nashville, TN 37219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid acids and chemicals, and other liquids* (except petroleum and petroleum products), but to include *coal tar and coal tar products, wood tar and wood tar products, creosote and molasses*, in bulk, (1) between points in Bedford, Cannon, Cheatham, Clay, Coffee, Davidson, DeKalb, Dickson, Fentress, Franklin, Giles, Grundy, Hickman, Houston, Humphreys, Jackson, Lawrence, Lewis, Lincoln, Macon, Marshall, Maury, Montgomery, Moore, Overton, Perry, Pickett, Putnam, Robertson, Rutherford, Sequatchie, Smith, Sumner, Stewart, Trousdale, Van Buren, Warren, Wayne, White, Williamson, and Wilson Counties, Tenn., and (2) from points in the counties specified in (1) above, to points in Tennessee. NOTE: The instant application is a matter directly related to No. MC-F 11248, published in the FEDERAL REGISTER issue of August 4, 1971. Applicant states that the requested authority represents the conversion of certain authority held by Waverly Transfer Co,. Inc., pursuant to a certificate of registration, and that the requested authority will be tacked with its existing authority under MC 116254 (Sub-Nos. 20, 52, 79, 99, and 105), but does not identify the points or territories which can be served through tacking. Applicant further states that no duplicating authority is sought. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn, or Birmingham, Ala.

No. MC 128944 (Sub-No. 9), filed July 16, 1971. Applicant: RELIABLE TRUCK LINES, INC., 402 Maplewood Avenue, Nashville, TN 37210. Applicant's representative: Clarence Evans, 1800 Third National Bank Building, Nashville, Tenn. 37219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, household goods as defined by the Commission, commodities in bulk, dangerous explosives and commodities requiring special equipment, between Birmingham, Ala., and points within 15 miles thereof, on the one hand, and, the following points, to wit: Tuscumbia and Sheffield, Ala., on the other hand. NOTE: Applicant states it will tack at Sheffield and/or Tuscumbia with its basically regular route authority; through such joinder would reach Memphis and Nashville, Tenn., and also Florence, Athens, Decatur, Huntsville, etc., in North Alabama. This application is a matter directly related to MC-F-11133, published in the FEDERAL REGISTER issues of April 14 and May 5, 1971. If a hearing is deemed necessary, applicant requests it be held at Memphis and Nashville, Tenn., or Birmingham, Ala.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto (49 CFR 1100.240).

MOTOR CARRIERS OF PROPERTY

Finance Docket No. 26737. (Correction) (KATY INDUSTRIES, INC.—Control—CENAC TOWING CO., INC.), published in the August 11, 1971, issue of the FEDERAL REGISTER on page 14792. Prior notice should have read: Any person wishing to object to the applicant's proposal should file its protest with the Secretary of the Interstate Commerce Commission within 30 days from the date of this publication.

No. MC-F-11221. (Correction) (ALLEGHANY CORPORATION, doing business as JONES MOTOR—Control—R. F. POST, INC.), published in the July 14, 1971, issue of the FEDERAL REGISTER on page 13121. Previous notice read *in truck loads only*, notice should have shown: *NOTE: *Truckload restriction removed in ex-parte M68 6-19-68*. This correction will not alter in any way the date for filing of protest which was August 16, 1971.

No. MC-F-11235 (Correction) (MACHINERY TRANSPORTS, INC.—Purchase (Portion)—L. J. WELLENHOFER TRANSFER CO.), published in the July 28, 1971, issue of the FEDERAL REGISTER on page 13962. Prior notice should be modified to show that the authority sought to be acquired covered the transportation of *heavy machinery and property of unusual weight, length, and width, to or from any point or points*, in lieu of *general commodities*.

No. MC-F-11263. Authority sought for purchase by PARAMOUNT MOVING & STORAGE CO., INC., 3 Commercial Avenue, Garden City, NY 11530, of the operating rights of CHARLES D. STRANG, INC., 360 Coney Island Avenue, Brooklyn, NY 11218, and for acquisition by BERNARD J. KURLANDER and JOSEPH VERDERBER, both also of 3 Commercial Avenue, Garden City, NY 11530, of control of such rights through the purchase. Applicants attorneys: Alvin Altman and Robert J. Gallagher, 1776 Broadway, New York, NY 10019. Operating rights sought to be transferred: *Household goods*, as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, as a common carrier, over irregular routes, between points in New York in the New York, N.Y., commercial zone, as defined by the Commission in 1 M.C.C. 665, and certain specified points in New Jersey, on the one hand, and, on the other, points in Pennsylvania, Massachusetts, Connecticut, Delaware, Maryland, Virginia, West Virginia, and New Jersey, between points in the New York, N.Y., commercial zone, as defined by the Commission in 1 M.C.C. 665, and those outside certain specified points in New Jersey, on the one hand, and, on the other, points in Maine, Rhode Island, Ohio, Indiana, Illinois, North Carolina, South Carolina, Alabama, Georgia, Florida, and the District of Columbia. Vendee is authorized to operate as a *common carrier* in New York, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, Pennsylvania, Delaware, Maryland, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC-F-11264. Authority sought for purchase by HELEN H. SCHAEFFER and EDWARD P. SCHAEFFER, 5200 W. Bethany Home Road, Glendale, AZ 85001, of a portion of the operating rights of VINCENT J. HERZOG, 200 Delaware Street, Honesdale, PA 19431, and for acquisition by HELEN H. SCHAEFFER and EDWARD P. SCHAEFFER, both of Glendale, Ariz. 85001, of control of such rights through the purchase. Applicants' attorney: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Operating rights sought to be transferred: *General commodities*, except those of unusual value, class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, as a *common carrier* over irregular routes, between New York, N.Y., and points in Orange County, N.Y., on the one hand, and, on the other, points in Sussex County, N.J. Vendee is authorized to operate as a *common carrier* in Massachusetts, New Hampshire, Vermont, New York, Pennsylvania, Ohio, Illinois, New Jersey, Connecticut, California, Maine, Nevada, Arizona, Washington, Oregon, Georgia, Michigan, Indiana, Minnesota, Missouri, Texas, Oklahoma, New Mexico, and Colorado. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-11265. Authority sought for purchase by J. J. SCHILLING, doing business as SUPERIOR EXPRESS, 210 West Third Street, Waterloo, IL 62298, of the operating rights of L. C. FRICK, CO., INC., 1060 Route 460, Belleville, IL Applicants' attorney: Delmar O. Koebel, 107 West St. Louis Street, Lebanon, IL 62254. NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

AUGUST 20, 1971.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

State Docket No. 37,262M, Route No. 3517, filed July 26, 1971. Applicant: DONALD L. HERBS AND NEAL J. LOVIN, doing business as C AND R TRUCK LINE, 703 North Fifth Street, Salina, KS 67401. Applicant's representative: Clyde N. Christey, 641 Harrison Street, Topeka, KS 66603. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, between Talmadge, Kans., and Clay Center, Kans., serving all intermediate points. From Talmage north and west over an unnumbered county road to Manchester; thence north over an unnumbered county road through Longford to Oakhill; thence east over an unnumbered county road to Kansas Highway No. 15; thence north over Kansas Highway No. 15 to Clay Center, Kans., serving the intermediate points of Manchester, Longford, Oakhill, and all other intermediate points, and return over the same route. The above described authority to be tacked with existing authority. Also, between Oakhill, Kans., and Clay Center, Kans. From Oakhill west over an unnumbered county road approximately 7 miles; thence north over an unnumbered county road to Miltonvale; thence over Kansas Highway No. 189 to its intersection with U.S. Highway No. 24; thence east over U.S. Highway No. 24 to Clay Center; serving the intermediate point of Miltonvale and all other intermediate points and Idana as an off-route point; and return over the same route. The above described authority to be tacked with existing authority. Also, between Clay Center, Kans., and Abilene, Kans. From Clay Center south over Kansas Highway No. 15 to Abilene and return, serving all intermediate points, and serving industry as an off-route point, and return over the same route. The above described authority to be tacked with existing authority. Also, between Chapman, Kans., and Clay Center, Kans. From Chapman north over an unnumbered county road through Upland to Wakefield; thence west over Kansas Highway No. 82 to its intersection with Kansas Highway No. 15; thence north to Clay Center, serving the intermediate points of Upland, Wakefield, and all other intermediate points and return over the same route. The above described authority to be tacked with existing authority. Both interstate and intrastate authority sought. HEARING: Tuesday, Sepember 28, 1971 at Trails End Motel, Intersection Highway 70 and K–15, Abilene, Kans. Requests for procedural information including the time for filing protests concerning this application should be addressed to the State Corporation Commission, Transportation Division, Fourth Floor, State Office Building, Topeka, Kans. 66612 and should not be directed to the Interstate Commerce Commission.

By the Commission.

[Notice 352]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 19, 1971.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 4483 (Sub-No. 16 TA), filed August 12, 1971. Applicant: MONSON DRAY LINE, INC., Route 1, Red Wing, MN 55066. Applicant's representative: Robert Monson (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Newsprint paper*, from the port of entry on the international boundary line between the United States and Canada at or near Grand Portage, Minn., to Bloomington, Carlton, Duluth, Madelia, Mankato, Minneapolis, Rochester, St. Cloud, and St. Paul, Minn., and Grand Forks, N. Dak., for 180 days. Supporting shippers: The Great Lakes Paper Co., Ltd., Thunder Bay, Ontario, Canada; Domtar Limited, 395 de Maisonneuve Blvd., West, Montreal, PQ, Canada. Send protests to: A. N. Spath, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 448 Federal Building and U.S. Court House, 110 South Fourth Street, Minneapolis, MN 55401.

[Notice 737]

MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 20, 1971.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR, Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-72938. By order of August 18, 1971, the Motor Carrier Board, on reconsideration, approved the transfer to Allied Delivery System, Inc., Detroit, Mich., of portion of the Certificate of Registration No. MC-121341 (Sub-No. 1), issued December 20, 1965, to City Messenger Co., a corporation, Detroit, Mich., of a portion which relates to that portion of certificate No. L-670 issued prior to October 15, 1962, and currently renewed, by the Michigan Public Service Commission authorizing the transportation of restaurant and store fixtures, office equipment, printing machinery and supplies, janitor supplies, and salvage materials, between Detroit and various Michigan points. Walter N. Bieneman, Suite 1700, 1 Woodward Avenue, Detroit, MI 48226, attorney for applicants.

No. MC-FC-72940. By order of August 18, 1971, the Motor Carrier Board approved the transfer to Ira L. Erwin doing business as Erwin Trucking, Omaha, Nebr., of a portion of the operating rights set forth in Certificate No. MC-61231 and of all of the operating rights set forth in Certificate No. MC-61231 (Sub-No. 20), issued by the Commission April 28, 1971, and June 4, 1968, respectively, to Ace Lines, Inc., Des Moines, Iowa, authorizing the transportation of packinghouse products from Omaha, Nebr., to Chicago, Ill., and Whiting, Ind.; and meats, meat products, meat byproducts and articles distributed by meat packinghouses from the plant-site of American Beef Packers, Inc., in Pottawattamie County, Iowa, to Chicago, Ill. William L. Fairbank, 900 Hubbell Building, Des Moines, Iowa 50309, attorney for applicants.

No. MC-FC-73035. By order of August 17, 1971, the Motor Carrier Board approved the transfer to James Fleming Trucking, Inc., Suffield, Conn., of portion of the operating rights in Permit No. MC-65106 (Sub-No. 4) issued August 3, 1965, to M. E. Flemming & Sons, Inc., Brooklyn, N.Y., authorizing the transportation of groceries, between New York, N.Y., on the one hand, and, on the other, points in Connecticut within 100 miles of New York, N.Y. Thomas W. Murrett, 342 North Main Street, West Hartford, CT 06117, attorney for transferee. Martin Werner, 2 West 45th Street, New York, NY 10036; attorney for transferor.

No. MC-FC-73043. By order of August 18, 1971, the Motor Carrier Board approved the transfer to Eagle Trans. Co., Inc., Charlton, Mass., of Certificate of Registration No. MC-99167 (Sub-No. 1), issued September 21, 1964, to L. A. Lajois, Jr., doing business as Eagle Trans. Co., Oakham, Mass., evidencing a right to engage in transportation in interstate commerce as described in Route Common Carrier Certificate No. 4530 dated June 3, 1963, issued by the Massachusetts Department of Public Utilities, Kenneth B. Williams, 111 State Street, Boston, MA 02109, attorney for applicants.

No. MC-FC-73054. By order of August 17, 1971, the Motor Carrier Board approved the transfer to Richard S. Swanson, doing business as Swanson Boat Transport, New Rochelle, N.Y., of the operating rights in Certificate No. MC-98953 (Sub-No. 1), issued August 26, 1960 to Boat Hauling Corp., Lindenwold, N.J., authorizing the transportation of boats and boat accessories between points in Massachusetts, Maine, New Hampshire, Vermont, Rhode Island, Connecticut, New York, and New Jersey. William D. Traub, 10 East 40th Street, New York, NY 10016, representative for transferee. Joseph A. Maressa, 201 North South Street, Camden, NJ 08102, attorney for transferor.

No. MC-FC-73060. By order of August 18, 1971, the Motor Carrier Board approved the transfer to T & R Transport, Inc., Cherry Hill, N.J., of the operating rights in Permit No. MC-102583 and MC-102583 (Sub-No. 1) issued May 5, 1961, and May 23, 1969, respectively, to Abe Perlstein, Philadelphia, Pa., authorizing the transportation of new furniture and parts, between Philadelphia, Pa., on the one hand, and, on the other, Wilmington, Del., New York, N.Y., Baltimore, Md., points within 15 miles of Baltimore, points on Long Island, N.Y., within 120 miles of Philadelphia, Pa., and those in New Jersey; new furniture and parts, from Philadelphia, Pa., to points in 12 States and the District of Columbia, and furniture parts, from points in 12 States and the District of Columbia to Philadelphia, Pa. Robert B. Einhorn, 1540 Philadelphia Saving Fund Building, 12 South 12th Street, Philadelphia, PA 19107, attorney for applicants.

No. MC-FC-73069. By order of August 18, 1971, the Motor Carrier Board approved the transfer to Henry J. Dornisch, Inc., Philadelphia, Pa., of the operating rights in Certificate No. MC-46625 issued June 7, 1949 to Henry J. Dornisch, Philadelphia, Pa., authorizing the transportation of new and used furniture between Philadelphia, Pa., on the one hand, and, on the other, points in a described area of New Jersey, and household goods between Philadelphia, Pa., on the one hand, and, on the other, points in New Jersey, Delaware, and Maryland. Raymond A. Thistle, Jr., Suite 1012, Four Penn Center Plaza, Philadelphia, Pa., 19103, attorney for applicants.

[Notice 737-A]

MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 20, 1971.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR, Part 1132), appear below:

As provided in the Commission's general rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 30 days from the date of service of the order. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-72835. By order of August 3, 1971, Division 3 approved the transfer to Kern Trucking, Inc., Bedford, Ind., of the operating rights in Permit Nos. MC-119815 (Sub-No. 3) and MC-119815 (Sub-No. 6) issued December 14, 1965 and February 9, 1967, respectively, to Interstate Highway Express, Inc., Bedford, Ind., authorizing the transportation of building materials as described in 61 M.C.C. 209, and gypsum products from the plantsite of the National Gypsum Co. located 3 miles east of Shoals (Martin County), Ind., to St. Louis, Mo., and points in Illinois, Kentucky, Ohio, Tennessee, West Virginia, and those in specified Missouri counties and return; and to points in the Lower Peninsula of Michigan. Walter F. Jones, Jr., 601 Chamber of Commerce Building, Indianapolis, Ind. 46204, attorney for applicants.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 737-B]

MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 20, 1971.

Application filed for temporary authority under section 210a(b) in connection with transfer application under section 212(b) and transfer rules, 49 CFR, Part 1132:

No. MC-FC-72987. By application filed August 18, 1971, MONIOWCZAK TRANSIT COMPANY, Post Office Box 123, Bark River, MI 49807, seeks temporary authority to lease the operating rights of JOHN SWANSON, doing business as SWANSON TRUCKING COMPANY (Estate of John Swanson by William J. Swanson, Special Administrator of the Estate of John G. Swanson, Deceased), 110 Pearl Street, Manistique, MI 49854, under section 210a(b). The transfer to MONIOWCZAK TRANSIT COMPANY, of the operating rights of JOHN SWANSON, doing business as SWANSON TRUCKING COMPANY (Estate of John Swanson by William J. Swanson, Special Administrator of the Estate of John G. Swanson, Deceased), is presently pending.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

Minimum Wages for Federal and Federally Assisted Construction

Regions VI and VII

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Area Wage Determination Decisions for Specified Localities in Certain States

There are set forth below general Area Wage Determination Decisions Nos. AM-2441, AM-2442, AM-2443, AM-2447 through AM-2459, AM-3554 through AM-3574, AM-3601 through AM-3629 of the Secretary of Labor. These decisions specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein. The decisions are applicable to Federal and federally assisted construction in described localities situated within the States of Arkansas, Iowa, Kansas, Louisiana, Missouri, Nebraska, New Mexico, Oklahoma, and Texas. No general area wage determinations are currently applicable to localities within such States other than those described in these decisions; only determinations for specific projects are made in such other localities.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 F.R. 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of the Code of Federal Regulations, Procedure for Predetermination of Wage Rates, and of Secretary of Labor's Orders 13-71 and 15-71 (36 F.R. 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal or federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 533, and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes such procedures to be impractical and contrary to the public interest. These wage determination decisions shall, accordingly, be effective on publication in the FEDERAL REGISTER, except as otherwise provided hereinafter.

The wage determinations in these decisions replace all prior general or area wage determinations for localities in the above States, the expiration dates of which were extended by the notice of variation published in the FEDERAL REGISTER on April 3, 1971 (36 F.R. 6467). The replaced determinations are hereby cancelled: *Provided, however,* That where bids have been opened or will be opened within 10 days from the date of publication of this document in the FEDERAL REGISTER, the expiration date of the prior wage determination decision provided for preparation of such bids may be extended by the contracting agency for an additional 30-day period to permit orderly contracting procedures.

These wage determinations are effective for a period of 120 days from the date of publication in the FEDERAL REGISTER and are to be used in accordance with the provisions of 29 CFR Part 5. Accordingly, the applicable determination together with any modification issued subsequent to this date during this 120 day period, shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained herein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Area wage determination decisions for specific localities in other States and insular possessions will be published in series on August 27, and September 3, 1971. Changes in published area decisions will be made as necessary and will appear in Friday issues of the FEDERAL REGISTER.

Any person, organization, or governmental agency having an interest in the wages determined or to be determined as prevailing in any locality is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, Washington, D.C. 20210.

The area wage determination decisions for localities within the above States are set forth below.

Dated at Washington, D.C., this 18th day of August 1971.

HORACE E. MENASCO,
Administrator,
Wage and Hour Division.

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

GOVERNMENT PATENT POLICY—Presidential memorandum 16887

TELECOMMUNICATIONS—
FCC amendments on the operation of field disturbance sensors; effective 10–5–71 16907
FCC expansion of use of non-voice operations in land mobile radio services; effective 10–5–71 16914
FCC amendments providing for reciprocal sharing of operational fixed stations; effective 10–5–71 16913
FCC amendment to list of prohibited frequencies for radio door controls; effective 11–1–71 16911
FCC amendment regarding use of frequencies by ship stations; effective 10–5–71 16912
FCC proposal for new priority system for leased intercity private line services; comments by 10–5–71 16944

CRANBERRIES—USDA revision of standards; effective 8–26–71 16893

BARIUM-133—AEC addition to schedule of exempt quantities 16898

CIVIL PENALTIES—AEC procedural rules on enforcement of licensing requirements 16894

LEASING—FRS interpretation regarding "Edge corporations" 16899

EMERGENCY LIGHTING—FAA amendment excluding certain slide lighting systems from operating requirements; effective 9–25–71 16899

(Continued inside)

Current White House Releases

WEEKLY COMPILATION OF PRESIDENTIAL DOCUMENTS

This unique service makes available transcripts of the President's news conferences; messages to Congress; public speeches, remarks, and statements; and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. It includes an Index of Contents and a system of cumulative indexes. Other finding aids include lists of laws approved by the President and of nominations submitted to the Senate, a checklist of White House releases, and a digest of other White House announcements.

This systematic publication of Presidential items provides users with up-to-date information and a permanent reference source concerning Presidential policies and pronouncements.

Subscription Price: $9.00 per year

FEDERAL REGISTER
Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

PROCUREMENT—NASA regulations on debriefing of unsuccessful proposers; effective 9–1–71 . 16901

ECONOMIC STABILIZATION—
FPC statement of policy; effective 8–15–71 ... 16902
ICC notices on rates and charges (2 documents) ... 16975, 16976

COLOR ADDITIVES—FDA amendments on definitions, procedures and interpretations; effective 8–26–71 ... 16902

PUBLIC HOUSING—HUD amendments to prototype cost limits for specific locations (2 documents); effective 8–26–71 ... 16903, 16904

Title 3—The President

MEMORANDUM OF AUGUST 23, 1971

Government Patent Policy

Memorandum for Heads of Executive Departments and Agencies

THE WHITE HOUSE,
Washington, August 23, 1971.

On October 10, 1963, President Kennedy forwarded to the Heads of Executive Departments and Agencies a Memorandum and Statement of Government Patent Policy for their guidance in determining the disposition of rights to inventions made under Government-sponsored grants and contracts. On the basis of the knowledge and experience then available, this Statement first established Government-wide objectives and criteria, within existing legislative constraints, for the allocation of rights to inventions between the Government and its contractors.

It was recognized that actual experience under the Policy could indicate the need for revision or modification. Accordingly, a Patent Advisory Panel was established under the Federal Council for Science and Technology for the purpose of assisting the agencies in implementing the Policy, acquiring data on the agencies' operations under the Policy, and making recommendations regarding the utilization of Government-owned patents. In December 1965, the Federal Council established the Committee on Government Patent Policy to assess how this Policy was working in practice, and to acquire and analyze additional information that could contribute to the reaffirmation or modification of the Policy.

The efforts of both the Committee and the Panel have provided increased knowledge of the effects of Government patent policy on the public interest. More specifically, the studies and experience over the past 7 years have indicated that:

(a) A single presumption of ownership of patent rights to Government-sponsored inventions either in the Government or in its contractors is not a satisfactory basis for Government patent policy, and that a flexible, Government-wide policy best serves the public interest;

(b) The commercial utilization of Government-sponsored inventions, the participation of industry in Government research and development programs, and commercial competition can be influenced by the following factors: the mission of the contracting agency; the purpose and nature of the contract; the commercial applicability and market potential of the invention; the extent to which the invention is developed by the contracting agency; the promotional activities of the contracting agency; the commercial orientation of the contractor and the extent of his privately

financed research in the related technology; and the size, nature and research orientation of the pertinent industry;

(c) In general, the above factors are reflected in the basic principles of the 1963 Presidential Policy Statement.

Based on the results of the studies and experience gained under the 1963 Policy Statement certain improvements in the Policy have been recommended which would provide (1) agency heads with additional authority to permit contractors to obtain greater rights to inventions where necessary to achieve utilization or where equitable circumstances would justify such allocation of rights, (2) additional guidance to the agencies in promoting the utilization of Government-sponsored inventions, (3) clarification of the rights of States and municipal governments in inventions in which the Federal Government acquires a license, and (4) a more definitive data base for evaluating the administration and effectiveness of the Policy and the feasibility and desirability of further refinement or modification of the Policy.

I have approved the above recommendations and have attached a revised Statement of Government Patent Policy for your guidance. As with the 1963 Policy Statement, the Federal Council shall make a continuing effort to record, monitor and evaluate the effects of this Policy Statement. A Committee on Government Patent Policy, operating under the aegis of the Federal Council for Science and Technology, shall assist the Federal Council in these matters.

This memorandum and statement of policy shall be published in the FEDERAL REGISTER.

Richard Nixon

Statement of Government Patent Policy

BASIC CONSIDERATIONS

A. The Government expends large sums for the conduct of research and development which results in a considerable number of inventions and discoveries.

B. The inventions in scientific and technological fields resulting from work performed under Government contracts constitute a valuable national resource.

C. The use and practice of these inventions and discoveries should stimulate inventors, meet the needs of the Government, recognize the equities of the contractor, and serve the public interest.

D. The public interest in a dynamic and efficient economy requires that efforts be made to encourage the expeditious development and civilian use of these inventions. Both the need for incentives to draw forth private initiatives to this end, and the need to promote healthy competition in industry must be weighed in the disposition of patent rights under Government contracts. Where exclusive rights are acquired by the contractor, he remains subject to the provisions of the antitrust laws.

E. The public interest is also served by sharing of benefits of Government-financed research and development with foreign countries to a degree consistent with our international programs and with the objectives of U.S. foreign policy.

F. There is growing importance attaching to the acquisition of foreign patent rights in furtherance of the interests of U.S. industry and the Government.

G. The prudent administration of Government research and development calls for a Government-wide policy on the disposition of inventions made under Government contracts reflecting common principles and objectives, to the extent consistent with the missions of the respective agencies. The policy must recognize the need for flexibility to accommodate special situations.

POLICY

SECTION 1. The following basic policy is established for all Government agencies with respect to inventions or discoveries made in the course of or under any contract of any Government agency, subject to specific statutes governing the disposition of patent rights of certain Government agencies.

(a) Where

(1) a principal purpose of the contract is to create, develop or improve products, processes, or methods which are intended for commercial use (or which are otherwise intended to be made available for use) by the general public at home or abroad, or which will be required for such use by governmental regulations; or

(2) a principal purpose of the contract is for exploration into fields which directly concern the public health, public safety, or public welfare; or

(3) the contract is in a field of science or technology in which there has been little significant experience outside of work funded by the Government, or where the Government has been the principal developer of the field, and the acquisition of exclusive rights at the time of contracting might confer on the contractor a preferred or dominant position; or

(4) the services of the contractor are

(i) for the operation of a Government-owned research or production facility; or

(ii) for coordinating and directing the work of others,

the Government shall normally acquire or reserve the right to acquire the principal or exclusive rights throughout the world in and to any inventions made in the course of or under the contract.

In exceptional circumstances the contractor may acquire greater rights than a nonexclusive license at the time of contracting where the head of the department or agency certifies that such action will best serve the public interest. Greater rights may also be acquired by the contractor after the invention has been identified where the head of the department or agency determines that the acquisition of such greater rights is consistent with the intent of this Section 1(a) and is either a necessary incentive to call forth private risk capital and expense to bring the invention to the point of practical application or that the Government's contribution to the invention is small compared to that of the contractor. Where an identified invention made in the course of or under the contract is not a primary object of the contract, greater rights may also be acquired by the contractor under the criteria of Section 1(c).

(b) In other situations, where the purpose of the contract is to build upon existing knowledge or technology, to develop information, products, processes, or methods for use by the Government, and the work called for by the contract is in a field of technology in which the contractor has acquired technical competence (demonstrated by factors such as know-how, experience, and patent position) directly related to an area in which the contractor has an established nongovernmental commercial position, the contractor shall normally acquire the principal or exclusive rights throughout the world in and to any resulting inventions.

(c) Where the commercial interests of the contractor are not sufficiently established to be covered by the criteria specified in Section 1(b) above, the determination of rights shall be made by the agency after the invention has been identified, in a manner deemed most likely to serve the public interest as expressed in this policy statement, taking particularly into account the intentions of the contractor to bring the invention to the point of commercial application and the guidelines of Section 1(a) hereof, provided that the agency may prescribe by regulation special situations where the public interest in the availability of the inventions would best be served by permitting the contractor to acquire at the time of contracting greater rights than a nonexclusive license.

(d) In the situations specified in Sections 1(b) and 1(c), when two or more potential contractors are judged to have presented proposals of equivalent merit, willingness to grant the Government principal or exclusive rights in resulting inventions will be an additional factor in the evaluation of the proposals.

(e) Where the principal or exclusive rights in an invention remain in the contractor, he should agree to provide written reports at reasonable intervals, when requested by the Government, on the commercial use that is being made or is intended to be made of inventions made under Government contracts.

(f) Where the principal or exclusive rights in an invention remain in the contractor, unless the contractor, his licensee, or his assignee has taken effective steps within three years after a patent issues on the invention to bring the invention to the point of practical application or has made the invention available for licensing royalty-free or on terms that are reasonable in the circumstances, or can show cause why he should retain the principal or exclusive rights for a further period of time, the Government shall have the right to require the granting of a nonexclusive or exclusive license to a responsible applicant(s) on terms that are reasonable under the circumstances.

(g) Where the principal or exclusive rights to an invention are acquired by the contractor, the Government shall have the right to require the granting of a nonexclusive or exclusive license to a responsible applicant(s) on terms that are reasonable in the circumstances (i) to the extent that the invention is required for public use by governmental regulations, or (ii) as may be necessary to fulfill health or safety needs, or (iii) for other public purposes stipulated in the contract.

(h) Whenever the principal or exclusive rights in an invention remain in the contractor, the Government shall normally acquire, in addition to the rights set forth in Sections 1(e), 1(f), and 1(g),

(1) at least a nonexclusive, nontransferable, paid-up license to make, use, and sell the invention throughout the world by or on behalf of the Government of the United States (including any Government agency) and States and domestic municipal governments, unless the agency head determines that it would not be in the public interest to acquire the license for the States and domestic municipal governments; and

(2) the right to sublicense any foreign government pursuant to any existing or future treaty or agreement if the agency head determines it would be in the national interest to acquire this right; and

(3) the principal or exclusive rights to the invention in any country in which the contractor does not elect to secure a patent.

(i) Whenever the principal or exclusive rights in an invention are acquired by the Government, there may be reserved to the contractor a revocable or irrevocable nonexclusive royalty-free license for the practice of the invention throughout the world; an agency may reserve the right to revoke such license so that it might grant an exclusive license when it determines that some degree of exclusivity may be necessary to encourage further development and commercialization of the invention. Where the Government has a right to acquire the principal or exclusive rights to an invention and does not elect to secure a patent in a foreign country, the Government may permit the contractor to acquire such rights in any foreign country in which he elects to secure a patent, subject to the Government's rights set forth in Section 1(h).

SEC. 2. Under regulations prescribed by the Administrator of General Services, Government-owned patents shall be made available and the technological advances covered thereby brought into being in the shortest time possible through dedication or licensing, either exclusive or nonexclusive, and shall be listed in official Government publications or otherwise.

SEC. 3. The Federal Council for Science and Technology in consultation with the Department of Justice shall prepare at least annually a report concerning the effectiveness of this policy, including recommendations for revision or modification as necessary in light of the practices and determinations of the agencies in the disposition of patent rights under their contracts. The Federal Council for Science and Technology shall continue to

(a) develop by mutual consultation and coordination with the agencies common guidelines for the implementation of this policy, consistent with existing statutes, and to provide overall guidance as to disposition of inventions and patents in which the Government has any right or interest; and

(b) acquire data from the Government agencies on the disposition of patent rights to inventions resulting from federally financed research and development and on the use and practice of such inventions to serve as bases for policy review and development; and

(c) make recommendations for advancing the use and exploitation of Government-owned domestic and foreign patents.

Each agency shall record the basis for its actions with respect to inventions and appropriate contracts under this statement.

SEC. 4. Definitions: As used in this policy statement, the stated terms in singular and plural are defined as follows for the purposes hereof:

(a) *Government agency*—includes any executive department, independent commission, board, office, agency, administration, authority, Government corporation, or other Government establishment of the executive branch of the Government of the United States of America.

(b) *States*—means the States of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, American Samoa, Guam and the Trust Territory of the Pacific Islands.

(c) *Invention, or Invention or discovery*—includes any art, machine, manufacture, design, or composition of matter, or any new and useful improvement thereof, or any variety of plant, which is or may be patentable under the Patent Laws of the United States of America or any foreign country.

(d) *Contractor*—means any individual, partnership, public or private corporation, association, institution, or other entity which is a party to the contract.

(e) *Contract*—means any actual or proposed contract, agreement, grant, or other arrangement, or subcontract entered into with or for the benefit of the Government where a purpose of the contract is the conduct of experimental, developmental, or research work.

(f) *Made*—when used in relation to any invention or discovery means the conception or first actual reduction to practice of such invention in the course of or under the contract.

(g) *To the point of practical application*—means to manufacture in the case of a composition or product, to practice in the case of a process, or to operate in the case of a machine and under such conditions as to establish that the invention is being worked and that its benefits are reasonably accessible to the public.

Rules and Regulations

Title 7—AGRICULTURE

Chapter I—Consumer and Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

SUBCHAPTER C—REGULATIONS AND STANDARDS UNDER THE AGRICULTURAL MARKETING ACT OF 1946

PART 51—FRESH FRUITS, VEGETABLES, AND OTHER PRODUCTS (INSPECTION, CERTIFICATION AND STANDARDS)

Subpart—U.S. Standards for Grades of Fresh Cranberries [1]

On page 13396 of the FEDERAL REGISTER of July 21, 1971 there was published a notice of proposed rule making to revise these grade standards by revising the definitions of damage by bruises and by moisture in § 51.2781, and by changing the title of the standards from U.S. Consumer Standards for Fresh Cranberries to U.S. Standards for Grades of Fresh Cranberries. The grade name U.S. Grade A is changed to U.S. No. 1. These grade standards are issued under authority of the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621–1627), which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use of producers, buyers and consumers. Official grading services are also provided under this Act upon request of any financially interested party and upon payment of a fee to cover the cost of such services.

Interested persons were given until August 15, 1971 to submit written data, views, or arguments regarding the proposal. No comments have been received and the proposed revised standards are hereby adopted without change and are set forth below.

It is hereby found that good cause exists for not postponing the effective date of this revision beyond the date of publication hereof in the FEDERAL REGISTER, in that: (1) The 1971 packing season for fresh cranberries will begin early in September and it is in the interest of the public and the industry that this revision be placed in effect at the earliest possible date; and (2) no special preparation is required for compliance with this revision on the part of members of the cranberry industry or of others.

Accordingly these standards shall become effective upon publication in the FEDERAL REGISTER (8–26–71) and will thereupon supersede the U.S. Consumer Standards for Fresh Cranberries which have been in effect since August 7, 1956 (7 CFR 51. 2775–51.2784).

Dated: August 23, 1971.

G. R. GRANGE,
Deputy Administrator,
Marketing Services.

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

GENERAL

Sec.
51.2775 General.

GRADES

51.2776 U.S. No. 1.

DEFINITIONS

51.2777 Similar varietal characteristics.
51.2778 Clean.
51.2779 Mature.
51.2780 Damage.
51.2781 Fairly well colored.
51.2782 Fairly uniform in color.
51.2783 Diameter.

METRIC CONVERSION TABLE

51.2784 Metric conversion table.

AUTHORITY: The provisions of this subpart issued under secs. 203, 205, 60 Stat. 1087, as amended, 1090 as amended; 7 U.S.C. 1622, 1624.

GENERAL

§ 51.2775 General.

(a) These standards apply only to the commonly cultivated cranberry (Vaccinium macrocarpon).

(b) Compliance with these standards is determined by analyzing samples of 100 berries each drawn at random from individual containers representative of the lot. The tolerances for off-size and defective berries apply to the lot and there is no restriction on the percentage that may occur in individual samples or containers: *Provided,* That the averages for the entire lot are within the tolerances specified for the grade.

GRADES

§ 51.2776 U.S. No. 1.

"U.S. No. 1" consists of cranberries which meet the following requirements:

(a) Basic requirements:

(1) One variety or similar varietal characteristics;
(2) Clean;
(3) Mature;
(4) Firm; and,
(5) Not soft or decayed.

(b) Free from damage caused by:

(1) Moisture;
(2) Bruises;
(3) Freezing;
(4) Smothering;
(5) Scarring;
(6) Sunscald;
(7) Foreign material;
(8) Disease;
(9) Insects; or,
(10) Mechanical or other means.

(c) Color: Individual cranberries shall be at least fairly well colored, and the cranberries in the container shall be fairly uniform in color.

(d) Size: Unless otherwise specified, the diameter of each cranberry shall be not less than thirteen thirty-seconds of an inch.

(e) Tolerances: In order to allow for variations incident to proper grading and handling in this grade, the following tolerances, by count, in any lot are provided:

(1) 3 percent for cranberries which fail to meet the size requirements;

(2) 5 percent for cranberries which fail to meet the remaining requirements of the grade, but not more than three-fifths of this amount, or 3 percent, shall be allowed for cranberries which are soft or decayed at shipping point: *Provided,* That an additional tolerance of 2 percent, or a total of not more than 5 percent, shall be allowed for soft or decayed berries en route or at destination; and,

(3) 5 percent for containers in which the cranberries fail to meet the requirements of fairly uniform in color.

DEFINITIONS

§ 51.2777 Similar varietal characteristics.

"Similar varietal characteristics" means that the cranberries in the container are similar in color and shape.

§ 51.2778 Clean.

"Clean" means that the cranberries are practically free from dirt, dust, spray residue, or other foreign material.

§ 51.2779 Mature.

"Mature" means that the cranberry has reached the stage of development which will insure the proper completion of the ripening process. Cranberries which show more than a slight amount of green color shall be considered immature.

§ 51.2780 Damage.

"Damage" means any specific defect described in this section; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which materially detracts from the appearance, or the edible or marketing quality of the individual cranberry or the general appearance of the cranberries in the container. The following specific defects shall be considered as damage:

(a) Moisture when the cranberries in the container are wet from the juice from crushed, leaking, or decayed berries. Cranberries which are moist from condensation or which have been cleaned by water shall not be considered damaged by moisture;

(b) Bruises when the affected area is soft and watery beneath the skin;

(c) Scarring which detracts from the appearance of the individual cranberry to a greater extent than scars aggregating the area of a circle one-fourth inch in diameter on a cranberry eighteen thirty-seconds of an inch in diameter;

(d) Insects when any larvae or holes caused by them are present or when feeding injury exceeds the area of a circle one-eighth inch in diameter; and,

(e) Foreign material which materially detracts from the appearance of the cranberries in the container.

§ 51.2781 Fairly well colored.

"Fairly well colored" means that 75 percent of the surface of the individual cranberry, in the aggregate, shows pink or red color characteristic of the variety.

§ 51.2782 Fairly uniform in color.

"Fairly uniform in color" means that the berries in the individual containers do not show sufficient variation in color to materially detract from the general appearance of the berries in the container.

§ 51.2783 Diameter.

"Diameter" means the greatest dimension measured at right angles to a line from stem to blossom end of the berry.

METRIC CONVERSION TABLE

§ 51.2784 Metric conversion table.

Inches	Millimeters (mm)	Inches	Millimeters (mm)

PART 55—VOLUNTARY INSPECTION AND GRADING OF EGG PRODUCTS

Laboratory Analysis Fees

Correction

In F.R. Doc. 71-8599 appearing at page 11795 in the issue of Saturday, June 19, 1971, the first entry in the table under § 55.5504b) should read as follows:

Solids $5.50

Chapter IX—Consumer and Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Valencia Orange Reg. 363]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.663 Valencia Orange Regulation 363.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908, 35 F.R. 16625), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will trend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 24, 1971.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period August 27, 1971, through September 2, 1971, are hereby fixed as follows:

(i) District 1: 132,000 cartons;
(ii) District 2: 468,000 cartons;
(iii) District 3: Unlimited.

(2) As used in this section, "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: August 25, 1971.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Consumer and Marketing Service.

Title 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

CIVIL PENALTIES

On December 17, 1970, the Atomic Energy Commission published in the FEDERAL REGISTER (35 F.R. 19122) proposed amendments to 10 CFR Part 2, "Rules of Practice", regarding civil penalties.

The proposed amendments set out the procedures which the Commission proposed to follow in imposing civil penalties authorized under section 234 of the Atomic Energy Act of 1954, as amended (the Act). Conforming amendments to 10 CFR Parts 20, 30, 40, 50, 55, 70, 71, 73, and 150 were also proposed.

Interested persons were invited to submit written comments and suggestions for consideration in connection with the proposed amendments within 60 days after publication of the notice of proposed rule making in the FEDERAL REGISTER. After consideration of the comments received and other factors involved, the Commission has adopted the proposed amendments with certain modifications.

Significant differences from the amendments published for comment are:

(1) Section 2.700, which describes the scope of Subpart G, governing procedure in Commission adjudications, has been amended to cover specifically hearings held on civil penalties.

(2) The provision in proposed § 2.205 for requesting a hearing in connection with the assessment of a civil penalty has been revised to make clear that a request for a hearing need not be made until after an answer to a notice of violation has been filed and an order imposing a civil penalty entered by the Director of Regulation.

(3) The provision in proposed § 2.205 for reference of unpaid civil penalty orders to the Attorney General for collection has been clarified to cover specifically situations in which no answer is filed or an answer is filed but no hearing is requested, as well as situations in which the order is issued after a hearing.

(4) Section 2.203, which requires approval of the presiding officer of a stipulation for settlement in other enforcement proceedings (such as modification, suspension or revocation of a license) has been amended to include also compromise of civil penalties. Since a monetary penalty would be assessed as a deterrent to actions which affect such important matters as the public health and safety and the common defense and security, it appears that, once the matter has been set for hearing, the compromise of a civil penalty, like the settlement of a matter involving a situation such as license suspension or revocation imposed for the same reasons, should not be effected without the approval of the presiding officer. The provision in proposed § 2.205 to the effect that the Director of Regulation may compromise any civil penalty has been revised to reflect the amendment of § 2.203.

Editorial and organization changes have also been made.

Several comments noted the absence of criteria to be used by the Commission in defining the types of cases in which civil penalties will be used and the size of civil penalties likely to be imposed. Although subject to modification, as experience is gained, the Commission's plans for utilization of civil penalties are described below.

Civil penalties, as a method of enforcement, are believed to be appropriate in cases where the illegal acts do not involve an immediate serious threat to public health and safety or the common defense and security (such as the diversion of nuclear materials), but the circumstances of the case indicate that an enforcement measure more severe than a notice of violation is appropriate. Civil penalties, where appropriate, will provide suitable remedial action without the undesirable side effects of suspension or revocation, such as depriving a licensee or his employees of their means of livelihood or the public of an essential service.

Cases involving an immediate serious threat to public health and safety or the common defense and security (such as the diversion of nuclear materials) will continue to be handled by immediate steps as necessary to remove the threat, and by enforcement action such as license suspension or revocation, cease and desist order, or other appropriate action.

Civil penalties and other enforcement methods are, however, not necessarily mutually exclusive and may in appropriate cases be cumulative. For example, rather than a lengthy suspension, a briefer suspension coupled with a civil penalty might be best adapted to the enforcement situation.

The Commission believes that the following cases are typical of those that would be appropriate for imposition of a civil penalty, when the violations represent a threat to public health and safety or the common defense and security (such as the diversion of nuclear materials), but the threat is not of an immediate nature:

(1) Those in which a licensee is found to have repeated violations of license requirements.

(2) Those in which a licensee has willfully violated the provisions of the Commission's rules or regulations or conditions of the license.

(3) Those cases in which a licensee fails to take timely corrective action on matters which may affect public health and safety or the common defense and security (such as the diversion of nuclear materials), and which have previously been brought to the attention of the licensee.

(4) Certain cases in which a person has violated the various requirements for a license in the Act and in the Commission's regulations.

In addition, violations which do not represent a threat to public health and safety or the common defense and security (such as the diversion of nuclear materials) will be subject to a civil penalty if it is determined that the violations are willful.

In determining the amount of a suitable penalty, the Commission will consider all relevant factors including, among others, the nature and number of the violations (i.e., the significance from the standpoint of health and safety of the public or of the common defense and security such as safeguarding of special nuclear material), the steps taken by the person to correct the violations, the licensee's history of previous violations and his demonstrated good faith in correcting them promptly, and the appropriateness of the penalty to the size of the licensee's business conducted under license. Where a person is found to have multiple violations, the amount of the penalty would be multiplied by the number of violations. Furthermore, section 234 of the Act provides that if any violation is a continuing one, each day of violation shall constitute a separate violation for the purpose of computing the applicable civil penalty. In a case where, despite the exercise of reasonable diligence, a licensee was not aware of the violation until brought to its attention by the Commission, the computation of the period of violation would normally begin at that time or after the time allowed the licensee for corrective action. On the other hand, if the evidence showed that a licensee had knowingly permitted violations to continue, the computation of the period of violation might begin at the time the licensee permitted the violations to continue.

In summary, a penalty of up to $5,000 may be imposed for each violation and for each day that the violation exists, up to a maximum total penalty of $25,000 during a 30-day period. Generally, however, the notice of violation will specify the total penalty being assessed, which will include consideration of the number of violations and the number of days the violations have existed. The notice of violation could also impose a daily penalty which would accrue, if the violations are not corrected as of a prescribed date.

The Commission plans to assess civil penalties in amounts ranging up to a maximum of $5,000 per violation. Such factors, among others, as the extent of the threat to public health and safety or the common defense and security resulting from the violation, the willfulness of the violation and the number of similar violations by the person charged will be considered in fixing the amount of the civil penalty. As experience in the use of civil penalties for enforcement purposes is gained, the Commission may develop and publish additional criteria for the determination of the amounts of civil penalties for specific types of violations.

Several of the comments expressed concern about such matters as the failure of the proposed amendments to provide specifically for informal conferences with the regulatory staff or the Director of Regulation with respect to the subject matter of the notice of violation or the amount of the proposed penalty either before or after the notice of violation is sent; the use of the term "notice of violation" rather than "notice of alleged violation"; the fact that the Director of Regulation has been delegated authority by the Commission to institute the notice of violation and proposed penalty and also has been delegated authority to consider the answer and revise the penalty thereafter; and the failure to provide specifically for alternative actions such as cease and desist orders.

Most of the above comments would apply equally to the other provisions of Subpart B of Part 2 dealing with other types of enforcement action. It has not proved necessary in the past to refer to "alleged violations" rather than "violations" or provide specifically in the regulation for such matters as informal conferences on the subject matter of the violation or the proposed enforcement action, which are, of course, available to persons charged with violation of AEC regulations. No persuasive reason has been presented for making such changes in Part 2 with respect to civil monetary penalties, which are less drastic than other available enforcement actions such as suspension or revocation of a license.

The Commission considers that the provisions of §§ 2.205 and of 2.203, which have been specifically made applicable to civil penalty proceedings, are sufficient

to permit the informal disposition of proceedings for imposition of civil penalties.

The Commission does not view as unfair or otherwise inappropriate the fact that the Director of Regulation will have authority to institute the proceeding for the imposition of a civil penalty and will also have authority to consider the answer to the charges and thereafter revise, impose or mitigate the penalty, particularly in view of the opportunity provided for an administrative hearing before an officer other than the Director of Regulation and for a trial de novo in a civil action to collect a civil penalty under section 234c of the Act.

Under the Commission's organization, inspectors and first-line supervisory personnel would not be authorized to impose civil penalties. The pertinent delegations of authority from the Director of Regulation to the Directors of the Divisions of Compliance and Nuclear Materials Safeguards, and delegations from the Directors to their staffs will be available for inspection in the Commission's Public Document Room at 1717 H Street NW., Washington, D.C.

The Commission does not view a decision to institute proceedings for the imposition of a civil penalty as precluding the use of other kinds of enforcement action, if such other action later appears desirable. However, it is not deemed necessary to provide specifically for such alternatives.

The comments exhibited disparate views on the matter of whether the notice pertaining to the proposed imposition of civil penalties should be included in the notice of violation issued pursuant to § 2.201. Ordinarily, such notices will be combined wherever practicable. The amendments set forth below, however, do not require a combined notice. There may be occasions when the Commission will wish to issue a notice of proposed imposition of civil penalty if no answer, or an inadequate answer, is received to a notice of violation issued under § 2.201 (a). Conversely, if it is initially determined that the imposition of a civil penalty is appropriate in a particular case of violation, it would be appropriate to inform the person charged with violation of the intended enforcement action at the time the notice of violation is issued.

Pursuant to the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of Title 5 of the United States Code, the following amendments to Title 10, Chapter I, Code of Federal Regulations, Parts 2, 20, 30, 40, 50, 55, 70, 71, 73, and 150, are published as a document subject to codification effective thirty (30) days after publication in the FEDERAL REGISTER.

PART 2—RULES OF PRACTICE

1. Section 2.1 of 10 CFR Part 2 is amended to read as follows:

§ 2.1 Scope.

This part governs the conduct of all proceedings under the Atomic Energy Act of 1954, as amended, for (a) granting, suspending, revoking, amending, or taking other action with respect to any license, authorization, construction permit, or application to transfer a license; (b) imposing civil penalties under section 234 of the Act; (c) public rulemaking; and (d) declaring a patent to be affected with the public interest, and the granting of a patent license under section 153 of the Act, but excluding all other patent matters.

2. The heading of Subpart B of 10 CFR Part 2 is amended to read as follows:

Subpart B—Procedure for Imposing Requirements by Order, or for Modification, Suspension, or Revocation of a License, or for Imposing Civil Penalties

3. Section 2.200 of 10 CFR Part 2 is amended to read as follows:

§ 2.200 Scope of subpart.

(a) This subpart prescribes the procedure in cases initiated by the regulatory staff to impose requirements by order on a licensee or to modify, suspend, or revoke a license, or for such other action as may be proper.

(b) This subpart also prescribes the procedures in cases initiated by the regulatory staff to impose civil penalties pursuant to section 234 of the Act.

4. Section 2.203 of 10 CFR Part 2 is amended to read as follows:

§ 2.203 Settlement and compromise.

At any time after the issuance of an order designating the time and place of hearing in a proceeding to modify, suspend, or revoke a license or for other action, the regulatory staff and a licensee or other person may enter into a stipulation for the settlement of the proceeding or the compromise of a civil penalty. The stipulation or compromise shall be subject to approval by the designated presiding officer or, if none has been designated, by the Chief Hearing Examiner, according due weight to the position of the regulatory staff. The presiding officer, or if none has been designated, the Chief Hearing Examiner, may order such adjudication of the issues as he may deem to be required in the public interest to dispose of the proceeding. If approved, the terms of the settlement or compromise shall be embodied in a decision or order settling and discontinuing the proceeding.

5. A new § 2.205 is added to 10 CFR Part 2 to read as follows:

§ 2.205 Civil penalties.

(a) Before instituting any proceeding to impose a civil penalty under section 234 of the Act, the Director of Regulation shall serve a written notice of violation upon the person charged. This notice may be included in a notice issued pursuant to § 2.201. The notice of violation shall specify the date or dates, facts, and the nature of the alleged act or omission with which the person is charged, and shall identify specifically the particular provision or provisions of the law, rule, regulation, license, permit, or cease and desist order involved in the alleged violation and shall state the amount of each penalty which the Director of Regulation proposes to impose. The notice of violation shall also advise the person charged that the civil penalty may be paid in the amount specified therein, or the proposed imposition of the civil penalty may be protested in its entirety or in part, by a written answer, either denying the violation, or showing extenuating circumstances. The notice of violation shall advise the person charged that upon failure to pay a civil penalty subsequently determined by the Commission, if any, the penalty may, unless compromised, remitted or mitigated, be collected by civil action pursuant to section 234c of the Act.

(b) Within twenty (20) days of the date of a notice of violation or other time specified in the notice, the person charged may either pay the penalty in the amount proposed or answer the notice of violation. The answer to the notice of violation shall state any facts, explanations, and arguments, denying the charges of violation, or demonstrating any extenuating circumstances, error in the notice of violation, or other reason why the penalty should not be imposed and may request remission or mitigation of the penalty.

(c) If the person charged with violation fails to answer within the time specified in paragraph (b) of this section, the Director of Regulation will issue an order imposing the civil penalty in the amount set forth in the notice of violation described in paragraph (a) of this section.

(d) If the person charged with violation files an answer to the notice of violation, the Director of Regulation, upon consideration of the answer, will issue an order dismissing the proceeding or imposing, mitigating, or remitting the civil penalty. The person charged may, within twenty (20) days of the date of the order or other time specified in the order, request a hearing.

(e) If the person charged with violation requests a hearing, the Commission will issue an order designating the time and place of hearing.

(f) If a hearing is held, an order will be issued after the hearing by the presiding officer or the Commission dismissing the proceeding or imposing, mitigating, or remitting the civil penalty.

(g) The Director of Regulation may comprise any civil penalty, subject to the provisions of § 2.203.

(h) If the civil penalty is not compromised, or is not remitted by the Director of Regulation, the presiding officer or the Commission, and if payment is not made within ten (10) days following either the service of the order described in paragraph (c) or (f) of this section, or the expiration of the time for requesting a hearing described in paragraph (d) of this section, no such request having been made, the Director of Regulation may refer the matter to the Attorney General for collection.

(i) Except when payment is made after compromise or mitigation by the Department of Justice or as ordered by a court of the United States, following reference of the matter to the Attorney General for collection, payment of civil penalties imposed under section 234 of the Act shall be made by check, draft, or money order payable to the Treasurer of the United States, and mailed to the Director of Regulation.

6. 2.700 of 10 CFR Part 2 is amended to read as follows:

§ 2.700 Scope of subpart.

The general rules in this subpart govern procedure in all adjudications initiated by the issuance of an order to show cause, an order pursuant to § 2.205 (e), or a notice of hearing.

PART 20—STANDARDS FOR PROTECTION AGAINST RADIATION

7. Section 20.601 of 10 CFR Part 20 is amended to read as follows:

§ 20.601 Violations.

An injunction or other court order may be obtained prohibiting any violation of any provision of the Act or any regulation or order issued thereunder. A court order may be obtained for the payment of a civil penalty imposed pursuant to section 234 of the Act for violation of section 53, 57, 62, 63, 81, 82, 101, 103, 104, 107, or 109 of the Act or any rule, regulation, or order issued thereunder, or any term, condition or limitation of any license issued thereunder, or for any violation for which a license may be revoked under section 186 of the Act. Any person who willfully violates any provision of the Act or any regulation or order issued thereunder may be guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both, as provided by law.

PART 30—RULES OF GENERAL APPLICABILITY TO LICENSING OF BY-PRODUCT MATERIAL

8. Section 30.63 of 10 CFR Part 30 is amended to read as follows:

§ 30.63 Violations.

An injunction or other court order may be obtained prohibiting any violation of any provision of the Act or any regulation or order issued thereunder. A court order may be obtained for the payment of a civil penalty imposed pursuant to section 234 of the Act for violation of section 53, 57, 62, 63, 81, 82, 101, 103, 104, 107, or 109 of the Act of any rule, regulation, or order issued thereunder, or any term, condition, or limitation of any license issued thereunder, or for any violation for which a license may be revoked under section 186 of the Act. Any person who willfully violates any provision of the Act or any regulation or order issued thereunder may be guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both, as provided by law.

PART 40—LICENSING OF SOURCE MATERIAL

9. Section 40.81 of 10 CFR Part 40 is amended to read as follows:

§ 40.81 Violations.

An injunction or other court order may be obtained prohibiting any violation of any provision of the Act or any regulation or order issued thereunder. A court order may be obtained for the payment of a civil penalty imposed pursuant to section 234 of the Act for violation of section 53, 57, 62, 63, 81, 82, 101, 103, 104, 107 or 109 of the Act or any rule, regulation, or order issued thereunder, or any term, condition, or limitation of any license issued thereunder, or for any violation for which a license may be revoked under section 186 of the Act. Any person who willfully violates any provision of the Act or any regulation or order issued thereunder may be guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both, as provided by law.

PART 50—LICENSING OF PRODUCTION AND UTILIZATION OF FACILITIES

10. Section 50.110 of 10 CFR Part 50 is amended to read as follows:

§ 50.110 Violations.

An injunction or other court order may be obtained prohibiting any violation of any provision of the Act or any regulation or order issued thereunder. A court order may be obtained for the payment of a civil penalty imposed pursuant to section 234 of the Act for violation of section 53, 57, 62, 63, 81, 82, 101, 103, 104, 107 or 109 of the Act or any rule, regulation, or order issued thereunder, or any term, condition, or limitation of any license issued thereunder, or for any violation for which a license may be revoked under section 186 of the Act. Any person who willfully violates any provision of the Act or any regulation or order issued thereunder may be guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both, as provided by law.

PART 55—OPERATORS' LICENSES

11. Section 55.50 of 10 CFR Part 55 is amended to read as follows:

§ 55.50 Violations.

An injunction or other court order may be obtained prohibiting any violation of any provision of the Act or any regulation or order issued by the Commission under the Act. A court order may be obtained for the payment of a civil penalty imposed pursuant to section 234 of the Act for violation of sections 53, 57, 62, 63, 81, 82, 101, 103, 104, 107, or 109 of the Act or any rule, regulation, or order issued thereunder, or any term, condition or limitation of any license issued thereunder, or for any violation for which a license may be revoked under section 186 of the Act. Any person who willfully violates any provision of the Act or of the regulations in this part may be guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both, as provided by law.

PART 70—SPECIAL NUCLEAR MATERIAL

12. Section 70.71 of 10 CFR Part 70 is amended to read as follows:

§ 70.71 Violations.

An injunction or other court order may be obtained prohibiting any violation of any provision of the Act or any regulation or order issued thereunder. A court order may be obtained for the payment of a civil penalty imposed pursuant to section 234 of the Act for violation of section 53, 57, 62, 63, 81, 82, 101, 103, 104, 107, or 109 of the Act or any rule, regulation, or order issued thereunder, or any term, condition, or limitation of any license issued thereunder, or for any violation for which a license may be revoked under section 186 of the Act. Any person who willfully violates any provision of the Act or any regulation or order issued thereunder may be guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both, as provided by law.

PART 71—PACKAGING OF RADIOACTIVE MATERIAL FOR TRANSPORT

13. Section 71.64 of 10 CFR Part 71 is amended to read as follows:

§ 71.64 Violations.

An injunction or other court order may be obtained prohibiting any violation of any provision of the Act or any regulation or order issued thereunder. A court order may be obtained for the payment of a civil penalty imposed pursuant to section 234 of the Act for violation of section 53, 57, 62, 63, 81, 82, 101, 103, 104, 107, or 109 of the Act or any rule, regulation, or order issued thereunder, or any term, condition, or limitation of any license issued thereunder, or for any violation for which a license may be revoked under section 186 of the Act. Any person who willfully violates any provision of the Act or any regulation or order issued thereunder may be guilty of a crime, and, upon conviction, may be punished by fine or imprisonment or both, as provided by law.

PART 73—PHYSICAL PROTECTION OF SPECIAL NUCLEAR MATERIAL

14. An undesignated centerhead "Enforcement" is added to 10 CFR Part 73 following § 73.42.

15. A new § 73.51 is added to 10 CFR Part 73 to read as follows:

§ 73.51 Violations.

An injunction or other court order may be obtained prohibiting any violation of any provision of the Act or any regulation or order issued thereunder. A court

order may be obtained for the payment of a civil penalty imposed pursuant to section 234 of the Act for violation of section 53, 57, 62, 63, 81, 82, 101, 103, 104, 107, or 109 of the Act or any rule, regulation, or order issued thereunder, or any term, condition, or limitation of any license issued thereunder, or for any violation for which a license may be revoked under section 186 of the Act. Any person who willfully violates any provision of the Act or any regulation or order issued thereunder may be guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both, as provided by law.

PART 150—EXEMPTIONS AND CONTINUED REGULATORY AUTHORITY IN AGREEMENT STATES UNDER SEC. 274

16. Section 150.30 of 10 CFR Part 150 is amended to read as follows:

§ 150.30 Violations.

An injunction or other court order may be obtained prohibiting any violation of any provision of the Act or any regulation or order issued thereunder. A court order may be obtained for the payment of a civil penalty imposed pursuant to section 234 of the Act for violation of section 53, 57, 62, 63, 81, 82, 101, 103, 104, 107, or 109 of the Act or any rule, regulation, or order issued thereunder, or any term, condition, or limitation of any license issued thereunder, or for any violation for which a license may be revoked under section 186 of the Act. Any person who willfully violates any provision of the Act or any regulation or order issued thereunder may be guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both, as provided by law.

(Secs. 161, 234, 68 Stat. 948, 83 Stat. 444; 42 U.S.C. 2201, 2282)

Dated at Washington, D.C., this 6th day of August 1971.

For the Atomic Energy Commission.

W. B. McCool,
Secretary of the Commission.

[FR Doc.71-12491 Filed 8-25-71;8:48 am]

EXEMPT QUANTITY OF BARIUM-133

On May 25, 1971, the Atomic Energy Commission published in the FEDERAL REGISTER (36 F.R. 9468) proposed amendments to Parts 20, 30, and 31 of its regulations. The proposed amendments would (a) add a listing of 10 microcuries for barium-133 to the schedule of exempt quantities of byproduct material, § 30.71, Schedule B, 10 CFR Part 30; (b) add a similar listing to Appendix C, 10 CFR Part 20; (c) revoke § 31.4, 10 CFR Part 31 which sets forth the existing general license for small quantities of byproduct material that was extended to accommodate the petition from Nuclear-Chicago Corp.; and (d) amend § 30.18(b), 10 CFR Part 30, to reference the new date of revocation of that general license.

Interested persons were invited to submit written comments and suggestions for consideration in connection with the proposed amendments within 30 days after publication of the notice of proposed rule making in the FEDERAL REGISTER. After consideration of the comments received on the notice of proposed rule making and other factors involved, the Commission has adopted the proposed amendments without modification, as set forth below.

The addition of a listing for barium-133 to § 30.71, Schedule B, 10 CFR Part 30, accommodates two of three items for which Nuclear-Chicago Corp., requested exemption from regulatory control, i.e., a sealed source of barium-133 contained within a Liquid Scintillation Counting System for the purpose of internal calibration and standardization, and a unit identified as a "Thyroid Phantom" containing barium-133 and cesium-137, used to educate medical students and practitioners in the identification of thyroid maladies. A third item was withdrawn from consideration by the petitioner. The Commission considers the "Thyroid Phantom" marketed by Nuclear-Chicago Corp., to be an encapsulated source which, with the inclusion of barium-133 in § 30.71, Schedule B, falls within the specification of items which may be transferred in accordance with a license issued under § 32.18, 10 CFR Part 32, "Specific Licenses to Manufacture, Distribute, or Import Exempted and Generally Licensed Items Containing Byproduct Material", to persons exempt pursuant to § 30.18, 10 CFR Part 30. Following addition of barium-133 to § 30.71, Schedule B, existing § 30.15(a)(9), 10 CFR Part 30, will provide exemption from licensing requirements for such sources in liquid scintillation counters.

Under the amendments and the provision of § 150.15(a)(6), 10 CFR Part 150, "Exemptions and Continued Regulatory Authority in Agreement States Under Section 274", a producer, packager, repackager, or importer who intends to distribute, on a commercial basis, quantities of byproduct material for use under the exemption, even if licensed to manufacture, process, or produce such quantities by an Agreement State, would be required to obtain a specific license from the Commission authorizing the import or commercial distribution of such quantities. To obtain a license, the applicant must meet the criteria of § 32.18, 10 CFR Part 32. Likewise, a person who intends to incorporate byproduct material into ionizing radiation measuring instruments or to import such products containing byproduct material for sale or distribution to persons exempt pursuant to § 30.15(a)(9), 10 CFR Part 30, would be required to obtain a specific license from the Commission pursuant to § 32.14, 10 CFR Part 32.

The Commission has found that the exemption from licensing of 10 microcuries of barium-133 under the conditions set forth in the regulations will not constitute an unreasonable risk to the common defense and security and to the health and safety of the public.

Pursuant to the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of title 5 of the United States Code, the following amendments to Title 10, Chapter I, Code of Federal Regulations, Parts 20, 30, and 31, are published as a document subject to codification, to be effective thirty (30) days after publication in the FEDERAL REGISTER.

PART 20—STANDARDS FOR PROTECTION AGAINST RADIATION

1. Appendix C of 10 CFR Part 20 is amended by adding a value of 10 microcuries for barium-133, to be inserted between the listings for barium-131 and barium-140, as follows:

APPENDIX C

Material	*Microcuries*
• • •	• • •
Barium-133	10
• • •	• • •

PART 30—RULES OF GENERAL APPLICABILITY TO LICENSING OF BYPRODUCT MATERIAL

2. Section 30.18(b) is amended to read as follows:

§ 30.18 Exempt quantities.

• • • • • •

(b) Any person who possesses byproduct material received or acquired prior to September 25, 1971 under the general license then provided in § 31.4 of this chapter is exempt from the requirements for a license set forth in section 81 of the Act and from the regulations in Parts 30-34 of this chapter to the extent that such person possesses, uses, transfers, or owns such byproduct material.

• • • • • •

3. Section 30.71, Schedule B, is amended by adding a value of 10 microcuries for barium-133, to be inserted between the current listings for barium-131 and barium-140, to read as follows:

§ 30.71 Schedule B.

Byproduct material	*Microcuries*
• • •	• • •
Barium-133 (Ba 133)	10
• • •	• • •

PART 31—GENERAL LICENSES FOR BYPRODUCT MATERIAL

§ 31.2 [Amended]

§§ 31.4, 31.100 [Revoked]

4. Sections 31.2(b), 31.4 and 31.100 of 10 CFR Part 31 are revoked.

(Sec. 81, 68 Stat. 935; 42 U.S.C. 2111; sec. 161, 68 Stat. 948; 42 U.S.C. 2201)

Dated at Germantown, Md., this 18th day of August 1971.

For the Atomic Energy Commission.

W. B. McCool,
Secretary of the Commission.

[FR Doc.71-12511 Filed 8-25-71;8:50 am]

Title 12—BANKS AND BANKING

Chapter II—Federal Reserve System

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. K]

PART 211—CORPORATIONS ENGAGED IN FOREIGN BANKING AND FINANCING UNDER THE FEDERAL RESERVE ACT

Leasing

§ 211.106 Leasing of personal property and equipment.

(a) A question has been raised with the Board as to the extent to which a corporation organized under section 25(a) of the Federal Reserve Act (an "Edge corporation") may engage, directly or indirectly, in leasing personal property and equipment. Pursuant to section 25(a) of the Federal Reserve Act, Edge corporations are organized for the purpose of engaging in international or foreign banking or other international or foreign financial operations and are empowered, among other things, to lend money and to exercise powers incidental thereto. Accordingly, the Board has in the past granted consent to such leasing activities if they are confined to financing and to this end has conditioned its consent in such a way as to restrict such activities to full-payout leases (without allowance for salvage value or estimated tax benefits) and to prohibit the acquisition of property for leasing purposes prior to the signing of a lease.

(b) In implementing a portion of the "Bank Holding Company Act Amendments of 1970," the Board has recently determined that the leasing of personal property and equipment is under certain circumstances "closely related to banking" within the meaning of section 4(c)(8) of the Bank Holding Company Act, as amended. The types of leasing activities that qualify in this respect are described in § 222.4(a)(6) of this chapter (Regulation Y), and are the subject of a Board interpretation at § 222.123(d) of this chapter. The standard there adopted by the Board is somewhat less rigorous than the full-payout standard previously employed in conditioning the Board's consent to leasing activities of Edge corporations and their subsidiaries.

(c) The Board's interpretation to which reference has been made states: "Permissible leasing activities are limited to transactions where the lease is the functional equivalent of an extension of credit to the lessee." The Board is satisfied that the purpose of confining the leasing activities of Edge corporations and their subsidiaries to financing will be adequately served if their activities are governed by the standard adopted by the Board with respect to permissible leasing activities of bank holding companies and their subsidiaries. The Board therefore has concluded that an Edge corporation may, directly or indirectly, conduct leasing operations of a type permitted by § 222.4(a)(6) of this chapter (Regulation Y).

(d) The Board continues to view leasing operations which include the maintenance of an inventory for future rental as not being financial in nature and hence as being outside both the purposes and the powers of Edge corporations and their subsidiaries.

(Interprets and applies 12 U.S.C. 615)

By order of the Board of Governors, August 17, 1971.

[SEAL] NORMAND BERNARD,
Assistant Secretary.

[FR Doc.71-12494 Filed 8-25-71;8:48 am]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 10745; Amdt. Nos. 25-28, 121-77]

PART 25—AIRWORTHINESS STANDARDS: TRANSPORT CATEGORY AIRPLANES

PART 121—CERTIFICATION AND OPERATIONS: DOMESTIC, FLAG, AND SUPPLEMENTAL AIR CARRIERS AND COMMERCIAL OPERATORS OF LARGE AIRCRAFT

Emergency Slide Lighting

The purpose of these amendments to Parts 25 and 121 of the Federal Aviation Regulations is to exclude from the emergency lighting operating requirements, emergency slide lighting systems that serve only one assist means, are independent of the airplane's emergency lighting system, and are automatically activated when the slide is deployed.

These amendments were proposed in Notice 70-48 issued on December 18, 1970, and published in the FEDERAL REGISTER (35 F.R. 250), on December 25, 1970.

Parts 123 and 135 of the Federal Aviation Regulations require compliance with the emergency lighting operating requirements of § 121.310(d). Therefore, these amendments apply to air travel clubs conducting operations under Part 123 and Part 135 certificate holders using large, passenger-carrying airplanes.

Two of the comments received to Notice 70-48 contained unqualified support for the proposal, and another suggested that the proposal would not increase the level of safety above that provided by the present regulations. The agency is of the opinion, however, that the regulations must be responsive to improvements in technology and should not exclude those developments which provide at least a level of safety equivalent to that now required.

Another comment suggested that slide-illuminating lights be mounted on the airplane external to the slide, and connected so that they can be used to illuminate the area below the associated exit should the slide fail to deploy. Since this recommendation is outside the scope of the proposal, it cannot be included in this regulatory action.

One comment noted that the proposal makes no provision for manual activation of the lights and stated that this would not allow a backup for the automatic activation, nor allow the system to be checked by a crewmember prior to flight. The FAA believes that since the slide lighting systems covered by the amendment are periodically checked and maintained, they provide an adequate level of safety without provisions for manual activation. However, if service experience should indicate otherwise, further regulatory action will be taken. In this connection, it should be pointed out that the amendments do not prohibit the use of slide lighting systems which provide both manual activation and automatic activation upon deployment.

Two of the comments received point out that the FAA has approved at least one slide lighting system that is activated automatically upon deployment in which both the light and power source are mounted on the exit door, external to the slide. The commentators suggest that while this system is not "wholly contained" in the slide as that term is used in the notice, the system does satisfy the intent of the proposal, and should be authorized by the regulations.

The FAA agrees that the slide lighting systems proposed to be excepted need not be wholly contained, but they must serve one slide only, be independent of the airplane's main emergency lighting system, and be automatically activated when the slide is deployed. Accordingly, the amendments to §§ 25.812(e) and 121.310(d) are changed from the proposal in the notice to reflect this means of compliance. Consistent with these changes, § 25.812(g)(2) is also amended to achieve consistency within the regulations.

Interested parties have been given an opportunity to participate in the making of these amendments, and due consideration has been given to all comments received. Since the changes made by this amendment to the wording of the proposal in notice 70-48 are minor in nature and impose no additional burden on any person, I find that further notice and public procedure relating to them are unnecessary.

In consideration of the foregoing, and for the reasons given in Notice 70-48, Parts 25 and 121 of the Federal Aviation Regulations are amended, effective September 25, 1971, as follows:

1. The introductory sentences in paragraphs (e) and (g)(2) of § 25.812 are amended respectively to read:

§ 25.812 Emergency lighting.

• • • • • •

(e) Except for subsystems provided in

accordance with paragraph (g) of this section that serve no more than one assist means, are independent of the airplane's main emergency lighting system, and are automatically activated when the assist means is deployed, the emergency lighting system must be designed as follows:

• • • • •

(g) • • •

(2) If the emergency lighting subsystem illuminating the assist means serves no other assist means, is independent of the airplane's main emergency lighting system, and is automatically activated when the assist means is deployed, the lighting provisions—

• • • • •

2. The introductory sentence to paragraph (d) of § 121.310 is amended to read:

§ 121.310 Additional emergency equipment.

• • • • •

(d) *Emergency light operation.* Except for lights forming part of emergency lighting subsystems provided in compliance with § 25.812(g) of this chapter (as prescribed in paragraph (h) of this section) that serve no more than one assist means, are independent of the airplane's main emergency lighting systems, and are automatically activated when the assist means is deployed, each light required by paragraphs (c) and (h) of this section must comply with the following:

• • • • •

(Secs. 313(a), 601, 604, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1424; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on August 19, 1971.

J. H. SHAFFER,
Administrator.

[Airspace Docket No. 71-RM-1]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On June 22, 1971 a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 11869), stating that the Federal Aviation Administration was considering amendments to Part 71 of the Federal Aviation Regulations that would alter the descriptions of the Lewiston, Mont., control zone and transition area.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections. No objections have been received and the proposed amendments are hereby adopted without change.

Effective date. These amendments shall be effective 0901 G.m.t., October 14, 1971.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Aurora, Colo., on August 9, 1971.

M. M. MARTIN,
Director, Rocky Mountain Region.

In § 71.171 (36 F.R. 2055) the description of the Lewistown, Mont., control zone is amended to read as follows:

LEWISTOWN, MONT.

Within a 5-mile-radius of the Lewistown Municipal Airport (latitude 47°02'39" N., longitude 109°28'15" W.) and within 1.5 miles each side of the Lewistown VORTAC 090° radial, extending from the 5-mile-radius zone to the VORTAC.

In § 71.181 (36 F.R. 2140) the description of the Lewistown, Mont., transition area is amended to read as follows:

LEWISTOWN, MONT.

That airspace extending upward from 700 feet above the surface within a 7-mile-radius of the Lewistown, Mont., Municipal Airport (latitude 47°02'39" N., longitude 109°28'15" W.) and within 4 miles each side of the Lewistown VORTAC 289° radial, extending from the 7-mile-radius area to 10.5 miles west of the VORTAC; that airspace extending upward from 1,200 feet above the surface within 4.5 miles north and 9.5 miles south of the Lewistown VORTAC 289° radial, extending from the VORTAC to 18.5 miles west of the VORTAC, and within 5 miles north and 8 miles south of the Lewistown VORTAC 109° radial, extending from the VORTAC to 7 miles east of the VORTAC.

[FR Doc.71-12467 Filed 8-25-71;8:46 am]

[Docket No. 11337; Amdt. 771]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs), that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 F.R. 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20590. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue SW., Washington, DC 20590, or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft, or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $125 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the date specified:

Section 97.19 is amended by establishing, revising, or canceling the following Radar SIAPs, effective September 23, 1971:

Wilkes-Barre, Pa.—Wilkes-Barre-Wyoming Valley Airport; Radar 1, Original; Canceled.

Section 97.21 is amended by establishing, revising, or canceling the following L/FM SIAPs, effective September 23, 1971:

Delta Junction, Alaska—Allen AAF; LFR-A, Amdt. 12; Revised.

Section 97.23 is amended by establishing, revising, or canceling the following VOR-VOR/DME SIAPs, effective September 23, 1971:

Atlantic City, N.J.—NAFEC Atlantic City/Pomona Airport; VOR Runway 4, Amdt. 9; Revised.
Atlantic City, N.J.—NAFEC Atlantic City/Pomona Airport; VOR Runway 13, Original; Established.
Atlantic City, N.J.—NAFEC Atlantic City/Pomona Airport; VOR Runway 31, Amdt. 9; Revised.
Big Lake, Alaska—Big Lake No. 2 Airport; VOR Runway 6, Amdt. 1; Revised.
Delta Junction, Alaska—Allen ARF; VOR Runway 18, Amdt. 3; Revised.
East Stroudsburg, Pa.—Birchwood-Pocono Airpark; VOR-A, Original; Canceled.
East Stroudsburg, Pa.—Stroudsburg Pocono Airport; VOR-1, Original; Canceled.
Portland, Oreg.—Portland International Airport; VOR-A, Amdt. 5; Revised.
Tucson, Ariz.—Tucson International Airport; VOR-A, Amdt. 1; Revised.
Atlantic City, N.J.—NAFEC Atlantic City/Pomona Airport; VOR/DME Runway 22, Original; Established.

Section 97.25 is amended by establishing, revising or canceling the following LOC-LDA SIAPs, effective August 5, 1971:

Oklahoma City, Okla.—Will Rogers World Airport; LOC (BC) Runway 17R, Amdt. 13; Canceled.

Section 97.25 is amended by establishing, revising or canceling the following LOC-LDA SIAPs, effective September 23, 1971:

Portland, Oreg.—Portland International Airport; LOC (BC) Runway 10L, Amdt. 8; Revised.
Shreveport, La.—Shreveport Regional Airport; LOC (BC) Runway 31, Amdt. 10; Revised.

Section 97.27 is amended by establishing, revising or canceling the following NDB/ADF SIAPs, effective August 5, 1971:

Oklahoma City, Okla.—Will Rogers World Airport; NDB (ADF) Runway 35L/R, Amdt. 16; Canceled.

Section 97.27 is amended by establishing, revising or canceling the following NDB/ADF SIAPs, effective August 12, 1971:

Oklahoma City, Okla.—Will Rogers World Airport; NDB Runway 17L, Amdt. 13; Revised.

Section 97.27 is amended by establishing, revising or canceling the following NDB/ADF SIAPs, effective September 23, 1971:

Atlantic City, N.J.—NAFEC Atlantic City/Pomona Airport; NDB Runway 13, Amdt. 6; Revised.
Klamath Falls, Oreg.—Kingsley Field; NDB-A, Amdt. 1; Revised.
Portland, Oreg.—Portland International Airport; NDB-A, Amdt. 18; Revised.
Portland, Oreg.—Portland International Airport; NDB Runway 28R, Amdt. 6; Revised.
Shreveport, La.—Shreveport Regional Airport; NDB Runway 13, Amdt. 15; Revised.
Tucson, Ariz.—Tucson International Airport; NDB-A, Amdt. 1; Revised.

Section 97.29 is amended by establishing, revising, or canceling the following ILS SIAPs, effective August 5, 1971:

Oklahoma City, Okla.—Will Rogers World Airport; ILS Runway 35L, Amdt. 14; Canceled.

Section 97.29 is amended by establishing, revising, or canceling the following ILS SIAPs, effective September 23, 1971:

Atlantic City, N.J.—NAFEC Atlantic City/Pomona Airport; ILS Runway 13, Amdt. 11; Revised.
Portland, Oreg.—Portland International Airport; ILS Runway 10R, Amdt. 21; Revised.
Portland, Oreg.—Portland International Airport; ILS Runway 28R, Amdt. 6; Revised.
Shreveport, La.—Shreveport Regional Airport; ILS Runway 13, Amdt. 15; Revised.

Section 97.31 is amended by establishing, revising, or canceling the following Radar SIAPs, effective September 23, 1971:

Atlantic City, N.J.—NAFEC Atlantic City/Pomona Airport; Radar-1, Amdt. 9; Revised.
Portland, Oreg.—Portland International Airport; Radar-1, Amdt. 18; Revised.

(Secs. 307, 313, 601, 1110, Federal Aviation Act of 1958; 49 U.S.C. 1438, 1354, 1421, 1510; sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c) and 5 U.S.C. 552(a)(1))

Issued in Washington, D.C., on August 19, 1971.

JAMES F. RUDOLPH,
Director, Flight Standards Service.

NOTE: Incorporation by reference provisions in §§ 97.10 and 97.20 (35 F.R. 5610) approved by the Director of the Federal Register on May 12, 1969.

[FR Doc.71-12369 Filed 8-25-71;8:45 am]

Chapter V—National Aeronautics and Space Administration

PART 1204—ADMINISTRATIVE AUTHORITY AND POLICY

Subpart 12—Debriefing of Unsuccessful Companies in Competitive Negotiated Procurements

New Subpart 12 is added:

Sec.
1204.1200 Scope of subpart.
1204.1201 Policy.
1204.1202 Procedures.

AUTHORITY: The provisions of this Subpart 12 issued under 42 U.S.C. 2473(b)(1).

§ 1204.1200 Scope of subpart.

This subpart sets forth NASA policy and procedures for debriefing unsuccessful proposers in competitive negotiated procurements.

§ 1204.1201 Policy.

(a) It is NASA policy to provide a debriefing, when so requested in writing, to a company that has unsuccessfully competed for a NASA procurement. Such a debriefing is to inform the unsuccessful competitor of those areas of his proposal where he was judged to be weak or deficient; whether those weaknesses or deficiencies were factors in his not having been selected; and, importantly, also identify the factors which were the basis on which the successful contractor was selected. If the successful competitor was selected on the basis of the quality of his proposal to satisfy the mission requirement, the unsuccessful firm should be told that, including a general comparison of significant areas, but not by engaging a point-by-point comparison of all elements considered in the evaluation criteria. If the successful competitor was selected on the basis of cost, the unsuccessful competitor should be told that such is the case. If the successful contractor was selected on the basis of other factors, those specific factors should be identified.

(b) If an unsuccessful proposer feels that his exclusion from the award was not justified, he will rely, at least in part, on the information given him in the debriefing to determine whether he should seek recourse against that exclusion. Accordingly, it is essential that debriefings be conducted in a scrupulously fair, objective, and impartial manner, and that the information given the company be absolutely factual and consistent with: (1) The findings of the Source Evaluation Board and with the basis on which the Selection Official made his decision; or (2) where Source Evaluation Board procedures were not employed, the findings of the Contracting Officer and the basis on which he made his decision.

(c) The debriefing should not reveal:

(1) Confidential business information, trade secrets, techniques, or processes of the other companies which competed for the contract;

(2) The relative merits or technical standing of the other unsuccessful competitors or the scoring of the Source Evaluation Board when such a Board was employed.

(d) The principles expressed in this subpart, except where relevant only to Source Evaluation Board procedures, apply to all NASA competitive negotiated procurements.

§ 1204.1202 Procedures.

(a) Any NASA employee who receives from an unsuccessful proposer a request, written or oral, for a debriefing shall immediately refer that request to the official designated to coordinate debriefing matters at the cognizant field installation or headquarters office.

(b) When the designated installation official has received a request for a debriefing, he shall so inform other concerned officials at the installation and, in the case of procurement actions where the Administrator was the Selection Official, cognizant NASA headquarters personnel.

(c) Debriefings are to be conducted by senior NASA officials. In cases where the selection has been made by the Administrator, the Associate Administrator for Organization and Management will designate an official familiar with the rationale for the selection to conduct the debriefing, with participation by cognizant field installation personnel. Similarly, in cases where the selection has been made by the field installation Director or a headquarters staff or program office head, the Director or office head shall designate an official and necessary supporting staff to perform the debriefing. In cases where formal Source Evaluation Board procedures have not been applied, the installation Procurement Officer or his designee shall perform the debriefing.

(d) Where a company has been an unsuccessful competitor in a negotiated NASA procurement and submits, prior to the award of the contract, a written request for a debriefing, such a debriefing will be provided at the earliest feasible time after announcement of the selection decision and prior to award of contract. "Selection decision" means the final selection of the one successful contractor of the contractors where more than one contract is to be awarded.

Effective date. The provisions of this Subpart 1204.12 are effective September 1, 1971.

RICHARD C. MCCURDY,
Associate Administrator for Organization and Management.

[FR Doc.71-12460 Filed 8-25-71;8:53 am]

Title 18—CONSERVATION OF POWER AND WATER RESOURCES

Chapter I—Federal Power Commission

[Docket No. R-427, Order 437]

PART 2—GENERAL POLICY AND INTERPRETATIONS

Statement of Policy

Statement of policy implementing the Economic Stabilization Act of 1970 (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38) and Executive Order No. 11615, Docket No. R-427, Order No. 437.

The Commission finds:

(1) The requirements of 5 U.S.C. section 553(b) for notice and hearing do not apply to this general Statement of Policy.

(2) In addition, the provisions of 5 U.S.C. section 553 need not be followed because notice and public procedure are impracticable and contrary to the public interest.

(3) Present national and international conditions as described by the President of the United States in his address to the Nation on August 15, 1971, Executive Order No. 11615, and the President's invocation of the powers conferred upon him by the Congress in the Economic Stabilization Act of 1970 as amended necessitate the assertion of the Commission policy delineated heretofore in this Statement of Policy.

The Commission orders:

(A) Part 2, General Policy and Interpretations, Subchapter A, Chapter I of Title 18, Code of Federal Regulations is amended by adding a new § 2.90 to read as follows:

§ 2.90 Implementation of Executive Order No. 11615.

(a)(1) It is the general policy of the Federal Power Commission to implement the Economic Stabilization Act of 1970, as amended, and Executive Order No. 11615 (Attachment A)[1] concerning the stabilization of prices, rents, wages, and salaries insofar as those laws pertain to the Commission's regulatory jurisdiction under the Natural Gas Act (52 Stat. 821 et seq. as amended), the Federal Power Act (41 Stat. 1063 et seq. as amended), and all other statutes vesting legal authority in this Commission, including such regulations, definitions, orders, exceptions and exemptions as may be hereinafter issued by the President or the Cost of Living Council.

(2) This Statement of Policy may be amended from time to time as circumstances require.

(b)(1) In any situation where it is unlawful to collect rates or charges except in accordance with a rate schedule in effect pursuant to the Regulations of the Commission, no natural gas company, public utility, nor licensee (herein "company") will be deemed in default of any law, or regulation thereunder, administered by the Commission because that company has complied with Executive Order 11615, or any modification thereof. In our view, the Executive Order precludes upward revision of any rate schedule in effect during the 30-day period ending August 14, 1971. In the event of a change in rate schedule during that 30-day period, the rate schedule last permitted to go into effect by the Commission shall control.

(2) A rate which is being collected on August 14, 1971, whether or not subject to refund, shall continue to be collected, subject to further Commission order.

(3) Any rate filing made subsequent to August 14, 1971 (or such filing having been made prior to August 14, 1971, but with rates to become effective after August 14, 1971, whether by termination of a suspension period or by automatic or other escalations, including tracking, or otherwise), which rate would be an increase proscribed by Executive Order 11615, shall not take effect for the duration of the period set forth in the Executive Order, including any extension or modification thereof, or for the duration of any suspension period set by the Commission pursuant to the Natural Gas Act or the Federal Power Act, whichever is longer.

(4) The charges of "small producers" (as defined in Order No. 428, issued March 18, 1971, 36 F.R. 5598, March 25, 1971), shall be stabilized at levels not greater than the highest of those pertaining to a substantial volume of actual transactions by each individual small producer during the 30-day period ending August 14, 1971, for so long as Executive Order No. 11615 is applicable.

(c) Nothing herein contained shall be construed as preventing any filing permitted by the Federal Power Act, the Natural Gas Act, or other authorities, and the regulations issued thereunder. The Commission's regulatory functions shall continue to be operative and shall be in accordance with the requirements, purposes, and policies of those Acts, subject to Executive Order No. 11615, as it may affect implementation of Commission orders.

(B) This Statement of Policy is effective as of August 15, 1971.

(C) This Statement of Policy shall remain in full force and effect until modified by subsequent Commission order or Statement of Policy and shall be applicable to all orders of this Commission heretofore or hereafter issued pertaining to the subject matter of Executive Order No. 11615.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

Issued: August 18, 1971.

Effective: August 15, 1971.

By the Commission.

KENNETH F. PLUMB,
Secretary.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 8—COLOR ADDITIVES

Subpart A—Definitions and Procedural and Interpretative Regulations

MISCELLANEOUS AMENDMENTS

In response to the opinion of the Court of Appeals for the Second Circuit in the case of Toilet Goods Association, et al. v. Finch and Ley, and the judgment of the District Court for the Southern District of New York on remand in that case, and pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 701(a), 706, 52 Stat. 1055, 74 Stat. 399 et seq.; 21 U.S.C. 371(a), 376), and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), Part 8 is amended as follows:

1. Section 8.1 is amended by revising paragraphs (f) and (u) to read as follows:

§ 8.1 Definitions and interpretations.

* * * * *

(f) A "color additive" is any material, not exempted under section 201(t) of the act, that is a dye, pigment, or other substance made by a process of synthesis or similar artifice, or extracted, isolated, or otherwise derived, with or without intermediate or final change of identity, from a vegetable, animal, mineral, or other source and that, when added or applied to a food, drug, or cosmetic or to the human body or any part thereof, is capable (alone or through reaction with another substance) of imparting a color thereto. Substances capable of imparting a color to a container for foods, drugs, or cosmetics are not color additives unless the customary or reasonably foreseeable handling or use of the container may reasonably be expected to result in the transmittal of the color to the contents of the package or any part thereof. Food ingredients such as cherries, green or red peppers, chocolate, and orange juice which contribute their own natural color when mixed with other foods are not regarded as "color additives"; but where a food substance such as beet juice is deliberately used as a color, as in pink lemonade, it is a "color additive." Food ingredients as authorized by a definition and standard of identity prescribed by regulations pursuant to section 401 of the act are "color additives," where the ingredients are specifically designated in the definitions and standards of identity as permitted for use for coloring purposes. An ingredient of an animal feed whose intended function is to impart, through the biological processes of the animal, a color to the meat, milk, or eggs of the animal is a color additive and is not exempt from the requirements of the statute. This definition shall apply whether or not such ingredient has nutritive or other functions in addition to the property of imparting color. An ingested drug the intended function of which is to impart color to the human body is a "color additive." For the purposes of this part, the term "color" includes black, white, and intermediate grays, but substances including migrants from packaging materials which do not contribute any color apparent to the naked eye are not "color additives."

* * * * *

(u) The "hair dye" exemption in section 601(a) of the act applies to coal tar hair dyes intended for use in altering the color of the hair and which are, or which bear or contain, color additives derived from coal tar with the sensitization potential of causing skin irritation in certain individuals and possible blindness when used for dyeing the eyelashes or eyebrows. The exemption is permitted with the condition that the label of any such article bear conspicuously the statutory caution and adequate directions for preliminary patch-testing. The exemption does not apply to coloring ingredients in hair dyes not derived from coal tar, and it does not extend to poisonous or deleterious diluents that may be introduced as wetting agents, hair conditioners, emulsifiers, or other components in a color shampoo, rinse, tint, or similar dual-purpose cosmetic that alter the color of the hair.

* * * * *

2. Section 8.35 is amended by revising the section heading and paragraph (a), as follows:

§ 8.35 Criteria for evaluating the safety of color additives.

(a) In deciding whether a petition is complete and suitable for filing and in reaching a decision on any petition filed, the Commissioner will apply the "safe-for-use" principle. This will require the presentation of all needed scientific data in support of a proposed listing to assure that each listed color additive will be safe for its intended use or uses in or on food, drugs, or cosmetics. The Commissioner may list a color additive for use generally in or on food, in or on drugs, or in or on cosmetics when he finds from the data presented that such additive is suitable and may safely be employed for such general use; he may list an additive only for more limited use or uses for which it is proven suitable and may safely be employed; and he is authorized to prescribe broadly the conditions under which the additive may be safely employed for such use or uses. This may allow the use of a particular dye, pigment, or other substance with certain diluents, but not with others, or at a higher concentration with some than with others.

* * * * *

Notice and public procedure and delayed effective date are unnecessary prerequisites to this promulgation, since these amendments reflect the decision of the Court of Appeals for the Second Circuit and of the District Court for the Southern District of New York.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER (8-26-71).

(Secs. 701(a), 706, 52 Stat. 1055, 74 Stat. 399 et seq.; 21 U.S.C. 371(a), 376)

Dated: August 16, 1971.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

Title 24—HOUSING AND HOUSING CREDIT

Chapter III—Housing Assistance Administration, Department of Housing and Urban Development

[Docket No. R-71-137]

PROTOTYPE COST LIMITS FOR PUBLIC HOUSING

In the FEDERAL REGISTER issued for Saturday, May 1, 1971 (36 F.R. 8213-8232), prototype per unit cost schedules were published pursuant to section 209(a) of the Housing and Urban Development Act of 1970. While these schedules are currently being evaluated in light of public comments received pursuant to invitation in the issuing order, consideration of subsequent factual project cost data received from the Boston, Mass. Area Office indicates that certain prototype per unit cost schedules should be revised.

Inasmuch as the new prototype cost schedules cannot be utilized until the costs themselves become effective by publication in the FEDERAL REGISTER, continuity of contract approvals requires the immediate publication of this material. Accordingly, it is impracticable to provide notice and public procedure with respect to those cost limits in accordance with the Department's recently adopted Publication Policy (24 CFR Part 10), and good cause exists for making them effective on the date of publication in the FEDERAL REGISTER.

For the foregoing reasons the following changes are made to the schedules as originally published in Volume 36 of the FEDERAL REGISTER:

1. On page 8214 delete the Boston, Cape Cod, Pittsfield, Springfield, Worcester, Fall River, Lowell, Salem, Mass., and Providence, Newport, Westerly, Pawtucket, and Woonsocket, R.I. schedules under Region I and substitute the revised prototype per unit cost schedules shown on appendix I set forth below, Prototype Per Unit Cost Schedules.

(Sec. 7(d) of Dept. of HUD Act, 42 U.S.C. 3535(d))

Effective date. This rule is effective upon the date of publication in the FEDERAL REGISTER (8-26-71).

EUGENE A. GULLEDGE,
Assistant Secretary-Commissioner.

[Docket No. R-71-138]

PROTOTYPE COST LIMITS FOR PUBLIC HOUSING

In the FEDERAL REGISTER issued for Saturday, May 1, 1971 (36 F.R. 8213-8232), prototype per unit cost schedules were published pursuant to section 209(a) of the Housing and Urban Development Act of 1970. While these schedules are currently being evaluated in light of public comments received pursuant to invitation in the issuing order, consideration of subsequent factual project cost data received from the Camden, N.J. Area Office indicates that certain prototype per unit cost schedules should be revised.

Inasmuch as the new prototype cost schedules cannot be utilized until the costs themselves become effective by publication in the FEDERAL REGISTER, continuity of contract approvals requires the immediate publication of this material. Accordingly, it is impracticable to provide notice and public procedure with respect to these cost limits in accordance with the Department's recently adopted Publication Policy (24 CFR Part 10), and good cause exists for making them effective on the date of publication in the FEDERAL REGISTER.

For the foregoing reasons the following changes are made to the schedules as originally published in Volume 36 of the FEDERAL REGISTER:

1. On page 8215, delete the Camden, Atlantic City, Burlington, Gloucester, and Trenton, N.J. prototype per unit cost schedules under Region II and substitute the revised prototype per unit cost schedules for Camden, Atlantic City, Burlington, Gloucester, Trenton, and a new addition to the schedule, Vineland, N.J., shown on appendix I set forth below, Prototype Per Unit Cost Schedules, revised July 19, 1971.

(Sec. 7(d) of Dept. of HUD Act, 42 U.S.C. 3535(d))

Effective date. This rule is effective upon the date of publication in the FEDERAL REGISTER (8-26-71).

EUGENE A. GULLEDGE,
Assistant Secretary-Commissioner.

Title 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

SUBCHAPTER S—CONSTRUCTION

PART 217—MONSE UNIT, COLVILLE INDIAN IRRIGATION PROJECT, WASHINGTON

AUGUST 18, 1971.

This notice is published in the exercise of rule-making authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2 (32 F.R. 13938). The authority to issue or delete regulations on Indian affairs is vested in the Secretary of the Interior by sections 161, 463, and 465 of the Revised Statutes (5 U.S.C. 301; 25 U.S.C. 2 and 9).

The lands within the Monse Unit of the Colville Indian Irrigation Project were acquired by the Public Utilities District No. 1, Douglas County, State of Washington, as a part of the Wells Hydroelectric Project. A Notice of Satisfaction of All Federal Irrigation Charges, Release of Liens for Such Charges, and Termination of Federal Responsibility was published on page 8714 of the June 3, 1969 issue of the FEDERAL REGISTER (34 F.R. 8714). Since the Federal Government's responsibility to operate and maintain the Monse Unit of the Colville Indian Reservation has ended, Part 217 is no longer applicable.

Therefore, Subchapter S, Chapter I, of Title 25 of the Code of Federal Regulations is hereby amended by the deletion of Part 217—Monse Unit, Colville Indian Irrigation Project, Washington.

Since this deletion removes regulations no longer applicable, advance notice and public procedure thereon have been deemed unnecessary. Therefore, advance notice and public procedure are dispensed with under the exception provided in subsection (b)(B) of 5 U.S.C. 553 (Supp. V, 1965-1969).

Since this notice deletes regulations which have not been in effect since June 3, 1969, the 30-day deferred effective date is considered unnecessary and is dispensed with under the exception provided in subsection (d)(3) of 5 U.S.C. 553 (Supp. V, 1965-1969). Accordingly, this deletion will become effective upon the date of publication in the FEDERAL REGISTER (8-26-71).

JOHN O. CROW,
Deputy Commissioner.

[FR Doc.71-12499 Filed 8-25-71;8:49 am]

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of Transportation

SUBCHAPTER J—BRIDGES

[CGFR 71-78]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Neponset River, Mass.

This amendment revokes the regulations for the New York, New Haven, and Hartford railroad bridge across the Neponset River, mile 1.4, and the Neponset Avenue bridge at mile 1.5. The New York, New Haven, and Hartford railroad drawbridge has been removed and replaced by a fixed bridge. The bascule leaves of the Neponset Avenue bridge have been removed and a fixed bridge will be completed that will replace this bridge.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by revising subparagraphs (1) and (3) of § 117.75(*l*) to read as follows:

§ 117.75 Boston Harbor, Massachusetts, and adjacent waters; bridges.

* * * * *

(*l*) *Neponset River.* (1) Granite Avenue Bridge:

(i) From May 1 through October 31 the draw shall open on signal.

(ii) From November 1 through April 30 from 8 a.m. to 4 p.m. the draw shall open on signal.

(iii) From November 1 through April 30 from 4 p.m. to 8 a.m. the draw shall open on signal if at least 24 hours' notice has been given.

* * * * *

(3) The owners of or agency controlling the bridge shall post the drawbridge regulations and the procedures for giving advance notice on the upstream and downstream sides of the bridge or elsewhere in such a manner that they can read from an approaching vessel.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Effective date. This revision shall become effective on the date of publication in the FEDERAL REGISTER (8-26-71).

Dated: August 17, 1971.

R. E. HAMMOND,
Rear Admiral, U.S. Coast Guard, Chief, Office of Operations.

Title 43—PUBLIC LANDS

Chapter II—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5084]

[Oregon 7256 (Wash.)]

WASHINGTON

Withdrawal for National Forest Research Natural Area

Correction

In F.R. Doc. 71-10677 appearing on page 13925 in the issue for Wednesday, July 28, 1971, in the sixth line of the description for Wind River Research Natural Area the reference to "E½NW¼ N½SE¼" should read "E½NW¼, N½ SE¼".

[Public Land Order 5109]

[Wyoming 27005]

WYOMING

Withdrawal for Administrative Site

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands which are under the jurisdiction of the Department of Agriculture, are hereby withdrawn from appropriation under the mining laws (30 U.S.C., Ch. 2), but not from leasing under the mineral leasing laws, and reserved for use by the Bureau of Land Management for the South Pass Administrative Site:

SHOSHONE NATIONAL FOREST

SIXTH PRINCIPAL MERIDIAN

T. 30 N., R. 100 W.,
Sec. 36, lots 9 and 17.

The areas described contain 75.90 acres in Fremont County.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the national forest lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws. However, leases, licenses, or permits will be issued only if it is determined that such use will not interfere with the use of the lands for the purpose for which they are withdrawn by this order.

HARRISON LOESCH,
Assistant Secretary of the Interior.

AUGUST 20, 1971.

Title 45—PUBLIC WELFARE

Chapter XII—Environmental Protection Agency

PART 1201—CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLES AND NEW MOTOR VEHICLE ENGINES

Definition of "Useful Life" and Requirements for Maintenance Instructions

On May 11, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 8698) which set out the text of proposed amendments to the regulations in this part to define the "useful life" of motor vehicles and engines and to prescribe requirements relative to the obligation of the manufacturer of any motor vehicle or engine subject to any standard in this part to provide to the ultimate purchaser of such vehicle or engine maintenance instructions necessary to assure the proper functioning of its emission control systems.

Pursuant to the above notice, a number of comments have been received from representatives of domestic and foreign manufacturers and from other interested parties. Due consideration has been given to all relevant matter presented and a number of amendments have been made to the regulations as proposed.

It has been determined that it is not appropriate to make the Administrator's approval of maintenance instructions a condition precedent to certification. However, such instructions will have to be submitted to the Administrator before being supplied to the ultimate purchaser. The Administrator will notify the manufacturer of his determination whether such instructions are "reasonable and necessary to assure the proper functioning of emission control devices and systems."

Industry generally objected to the requirement to provide a description of maintenance necessary to correct major malfunctions and a description of the noticeable symptoms of such malfunctions. Since such descriptions would have had to be quite complex and since most malfunctions related to emission control are not detectable by the vehicle operator, this requirement would have had little practical effect and therefore has been deleted from the final rule.

Representatives of the automotive aftermarket industry commented that these regulations raised a possibility that original equipment manufacturers would put unnecessary restrictions on the purchasers as a condition of maintaining the warranty required by section 207 of the Act and this would operate to the detriment of the independent service and replacement parts industries. Because of the extraordinary complexity of this issue and the antitrust implications of such conduct, it is inappropriate to deal with this issue in these regulations, which cover only a small part of the warranty area. However, it emphasized that nothing in these regulations is intended to encourage original equipment manufacturers to limit in any way the choice of the ultimate purchaser between comparable replacement parts and service operations.

In addition, the final rule contains some clarifying modifications.

The amendments to 45 CFR Part 1201, set forth below are hereby adopted effective on publication in the FEDERAL REGISTER (8-26-71) and are applicable to motor vehicles and engines beginning with the 1972 model year, except that Subpart M is applicable to motor vehicles and engines beginning with the 1973 model year.

The current regulations which appear at 45 CFR Part 1201, will remain in effect for the purpose of their applicability to earlier model year vehicles and engines.

(Secs. 202(d), 208, 301(a) of the Act; secs. 6, 8, Public Law 91-604, sec. 2, Public Law 90-

148; 84 Stat. 1690, 1694, 81 Stat. 504; 42 U.S.C. 1857f–1, 1857f–5, 1857g(a))

Dated: August 23, 1971.

WILLIAM D. RUCKELSHAUS,
Administrator.

Part 1201 of Chapter XII, Title 45 of the Code of Federal Regulations is amended as follows:

1. In § 1201.1, a new definition is added as follows:

§ 1201.1 Definitions.

(a) * * *

(33) "Useful life" means:

(i) In the case of light duty vehicles, a period of use of 5 years or 50,000 miles, whichever first occurs;

(ii) In the case of gasoline fueled heavy duty engines, a period of use of 5 years or of 50,000 miles of vehicle operation (or an equivalent period of 1,500 hours of dynamometer operation), whichever first occurs;

(iii) In the case of heavy duty diesel engines, a period of use of 5 years or of 100,000 miles of vehicle operation (or an equivalent period of 1,000 hours of dynamometer operation), whichever first occurs.

2. In § 1201.3, paragraph (b)(2) is revised to read as follows:

§ 1201.3 General standards: Increase in emissions, unsafe conditions.

* * * * *

(b) * * *

(2) Every manufacturer of new motor vehicles or new motor vehicle engines subject to any of the standards imposed by this part shall, prior to taking any of the actions specified in section 203(a)(1) of the Act, test or cause to be tested motor vehicles or motor vehicle engines in accordance with good engineering practice to ascertain that such test vehicles or engines will meet the requirements of this section for the useful life of the vehicle or engine.

3. In § 1201.12, the first sentence is revised. As amended, § 1201.12 reads as follows:

§ 1201.12 Test Procedures.

Every manufacturer of new motor vehicles or new motor vehicle engines subject to the standard prescribed in this subpart shall, prior to taking any of the actions specified in section 203(a)(1) of the Act, test or cause to be tested motor vehicles or motor vehicle engines in accordance with good engineering practice to ascertain that such test vehicles or engines, with proper maintenance, will meet the requirements of § 1201.11 for the useful life of the vehicle or engine. * * *

4. In § 1201.92, paragraphs (a) and (b) are revised. As amended, § 1201.92 reads as follows:

§ 1201.92 Compliance with emission standards.

(a) The exhaust and fuel evaporative emission standards in §§ 1201.21 and 1201.22 apply to the emissions of vehicles for their useful life.

(b) Since emission control efficiency decreases with mileage accumulated on the vehicle, the emission level of a vehicle which has accumulated 50,000 miles will be used as the basis for determining compliance with the standards.

* * * * *

5. In § 1201.113, paragraphs (a) and (b) are revised. As amended, § 1201.113 reads as follows:

§ 1201.113 Compliance with emission standards.

(a) The exhaust emission standards in § 1201.31 apply to the emissions of engines for their useful life.

(b) Since emission control efficiency decreases with the accumulation of hours on the engine, the emission level of an engine which has accumulated 1,500 hours of dynamometer operation will be used as the basis for determining compliance with the standards.

* * * * *

6. In § 1201.133, paragraphs (a) and (b) are revised. As amended, § 1201.133 reads as follows:

§ 1201.133 Compliance with emission standards.

(a) The emission standards in § 1201.41 apply to the emissions of engines for their useful life.

(b) Since emission control efficiency decreases with the accumulation of hours on the engine, the emission level of an engine which has accumulated 1,000 hours of dynamometer operation will be used as the basis for determining compliance with the standards.

* * * * *

7. A new subpart M, is added as follows:

Subpart M—Performance of Motor Vehicles and Motor Vehicle Engines During Their Useful Life

Sec.
1201.160 Maintenance instructions.
1201.161 Submission of maintenance instructions.

(AUTHORITY: The provisions of this Subpart M issued under secs. 202(d), 208, 301(a) of the Act; secs. 6, 8, Public Law 91–604, sec. 2, Public Law 90–148; 84 Stat. 1690, 1694, 81 Stat. 504; 42 U.S.C. 1857f–1, 1857f–5, 1857g(a))

Subpart M—Performance of Motor Vehicles and Motor Vehicle Engines During Their Useful Life

§ 1201.160 Maintenance instructions.

(a) The manufacturer shall furnish or cause to be furnished to the ultimate purchaser of each new motor vehicle or engine subject to any of the standards prescribed in this part, written instructions for the mantenance and use of the vehicle or engine by the ultimate purchaser as may be reasonable and necessary to assure the proper functioning of emission control systems.

(1) Such instructions shall be provided for those vehicle and engine components listed in Appendix F to this part (and for any other components) to the extent that maintenance of these components is necessary to assure the proper functioning of emission control systems.

(2) Such instructions shall be in clear, and to the extent practicable, nontechnical language.

(b) The maintenance instructions required by this section shall contain a general description of the documentation which the manufacturer will require from the ultimate purchaser or any subsequent purchaser as evidence of compliance with the instructions.

§ 1201.161 Submission of maintenance instructions.

(a) The manufacturer shall provide to the Administrator, no later than the time of the submission required by § 1201.53, a copy of the maintenance instructions which the manufacturer proposes to supply to the ultimate purchaser in accordance with § 1201.160(a). The Administrator will review such instructions to determine whether they are reasonable and necessary to assure the proper functioning of the vehicle's or engine's emission control systems. The Administrator will notify the manufacturer of his determination whether such instructions are reasonable and necessary to assure the proper functioning of the emission control systems.

(b) Any revision to the maintenance instructions which will affect emissions shall be supplied to the Administrator at least 30 days before being supplied to the ultimate purchaser unless the Administrator consents to a lesser period of time.

8. Appendix F is added as follows:

APPENDIX F

VEHICLE AND ENGINE COMPONENTS

A. Gasoline Fueled Light Duty Vehicles and Heavy Duty Engines.

I. Basic Mechanical Components—Engine:
1. Intake and exhaust valves.
2. Drive belts.
3. Manifold and cylinder head bolts.
4. Engine oil and filter.
5. Engine coolant.
6. Cooling system hoses and connections.
7. Vacuum fittings, hoses and connections.

II. Fuel System
1. Fuel specification—octane rating, lead content.
2. Carburetor—idle r.p.m., mixture ratio.
3. Choke mechanism.
4. Fuel system filter and fuel system lines and connections.
5. Choke plate and linkage.

III. Ignition Components
1. Ignition timing and advance systems.
2. Distributor breaker points and condenser.
3 Spark plugs.
4. Ignition wiring.
5. Operating parts of distributor.

IV. Crankcase Ventilation System:
1. PCV valve.
2. Ventilation hoses.
3. Oil filler breather cap.
4. Manifold inlet (carburetor spacer, etc).

V. External Exhaust Emission Control System:
1. Secondary air injection system hoses.
2. Air system manifolds.
3. Control valves and air pump.
4. Manifold reactors.
5. Catalytic mufflers.
6. Exhaust recirculation.
7. Water injection.

VI. Evaporative Emission Control System:
1. Engine compartment hose connections.
2. Carbon storage media.
3. Fuel tank pressure-relief valve operation.
4. Fuel vapor control valves.

VII. Air Inlet Components
1. Carburetor air cleaner filter.
2. Hot air control valve.

B. Heavy Duty Diesel Engines.

I. Engine Mechanical Components:
1. Valve train.
2. Cooling system.
   a. Coolant.
   b. Thermostat.
   c. Filter.
3. Lubrication.
   a. Oil Filter.
   b. Lubricant.

II. Fuel System:
1. Fuel type.
2. Fuel pump.
3. Fuel filters.
4. Injectors.
5. Governor.

III. Air Inlet Components:
1. Air cleaner.
2. Inlet ducting.

IV. External Exhaust Emission Control System
1. Back limiting devices (aneroid, throttle delay, etc.)
2. Manifold reactor.
3. Catalytic mufflers.
4. Exhaust recirculation.
5. Water injection.

AUTHORITY: The provisions of this Subpart M issued under secs. 202(d), 208, 301(a) of the Act; secs. 6, 8, Public Law 91–604, sec. 2, Public Law 90–148; 84 Stat. 1690, 1694, 81 Stat. 504; 42 U.S.C. 1857 (f–1, 1857 f–5, 1857g(a))

Title 46—SHIPPING

Chapter II—Maritime Administration, Department of Commerce

SUBCHAPTER G—EMERGENCY OPERATIONS

[General Order 75, 2d Rev., Amdt. 23]

PART 308—WAR RISK INSURANCE

Miscellaneous Amendments

Part 308 is hereby amended to reflect the following changes:

Amend § 308.6 *Period of interim binders and renewal procedure,* § 308.106 *Standard form of war risk hull insurance interim binder and optional disbursements insurance endorsement,* § 308.206 *Standard form of war risk protection and indemnity insurance interim binder,* and § 308.305 *Standard form of Second Seamen's war risk insurance interim binder,* by changing the expiration dates contained therein to read "midnight, March 7, 1972, G.m.t."

(Sec. 204, 49 Stat. 1987, as amended; 46 U.S.C. 1114)

Dated: August 23, 1971.

By order of the Assistant Secretary of Commerce for Maritime Affairs.

JAMES S. DAWSON, Jr.,
Secretary.

[FR Doc.71-12552 Filed 8-25-71;8:51 am]

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 71-875]

PART 0—COMMISSION ORGANIZATION

Facilities Required for Coast Stations

Order. In the matter of amendment of Part 0 of the Commission's rules to authorize the staff to waive the equipment requirements of § 81.104(c)(2).

1. When requested, limited coast station licensees are granted exemptions from the watch requirements on 156.8 MHz, as set forth in § 81.191(d), in those cases where it is determined that the area served by the limited coast VHF station is covered by either a public coast VHF station, a U.S. Coast Guard or other government VHF station. Such exemptions do not relieve the licensee from complying with § 81.104(c)(2). This section requires, in effect, that the licensee install the equipment necessary to receive and transmit on 156.8 MHz.

2. To grant an exemption from the watch requirement and then require the licensee to install and maintain appropriate 156.8 MHz equipment often serves no useful purpose. The Commission has concluded that it would be conductive to the orderly and expeditious handling of its business and would serve the public interest to authorize appropriate staff members to act in these matters when it is determined that there is little, if any, derogation of the safety system and the equipment requirement would place an unreasonable burden on the applicant.

3. The amendment relates to internal Commission organization and practice, and hence, the prior notice, procedure, and effective date provisions of 5 U.S.C. section 553 are not applicable. Authority for the promulgation of this amendment is contained in sections 4(i), 5(d), and 303(r) of the Communications Act of 1934, as amended.

4. *Accordingly, it is ordered,* Effective September 8, 1971, that Part 0 of the rules and regulations is amended, as set forth below.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303)

Adopted: August 18, 1971.

Released: August 23, 1971.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary

Part 0 *Commission Organization,* is amended as follows:

1. In paragraph (b) of § 0.331 a new subparagraph (22) is added to read as follows:

§ 0.331 Authority delegated.

* * * * *

(b) * * *

(22) To act on requests for waivers of the equipment requirements of § 81.104(c)(2) of this chapter when a limited coast station has been exempted from the watch requirements of § 81.191(d).

[FR Doc.71-12533 Filed 8-25-71;8:53 am]

[1] Commissioner H. Rex Lee absent.

[Docket No. 13863; FCC 71-873]

PART 1—PRACTICE AND PROCEDURE

PART 15—RADIO FREQUENCY DEVICES

Field-Disturbance Sensors

1. On December 7, 1960, the Commission issued a Notice of Inquiry[1] in the instant proceeding for the purpose of eliciting technical and background information to aid in making a decision on petitions filed by Radar-Eye Corp. (RM–64) and Electro-Security Corp. (RM–153). Both of these petitions requested amendment of the rules to provide for the operation of field-disturbance sensors used as intrusion detection alarms.

2. After giving due consideration to the information elicited by the Inquiry, the Commission, on June 20, 1963, issued a notice of proposed rule making[2] hereafter, First NPRM), which anticipated amendment of Part 15 to provide regulations governing the use of a radio frequency operated intruder alarm. The First NPRM proposed classification of field-disturbance sensors (intruder alarms) as restricted radiation devices under Part 15; operation on 915±5 MHz, 2450±15 MHz, and 22,125±100 MHz; and limitation of emission field strength to 500 uV/m at 100 feet in the specified bands and to 15 u/Vm at 100 feet outside of the specified bands. The First NPRM also proposed field-disturbance sensors (intruder alarms) be type approved. Comments in response to the First NPRM indicated that the alarm industry could not market reliable systems at a reasonable cost under the rules as proposed. A major objection categorized the Commission's proposed limitations on both the fundamental and out-of-band emissions as unduly stringent. Objections were also raised to the proposed requirement for type approval.

3. In view of these objections, the Commission reconsidered its proposal, and on May 5, 1965, issued a Second Notice of Proposed Rule Making[3] (hereafter, Second NPRM). As requested by several respondents, band limits on two of the frequencies proposed in the First NRPM were relaxed to provide wider permitted bands—tolerance at 915 MHz was increased from ±5 MHz to ±10 MHz and at 2450 MHz from ±15 MHz to ±25 MHz; with the tolerance at 22,125 MHz remaining unchanged at ±100 MHz. A fourth band, 10,525 MHz ±25 MHz, was added to the three originally proposed, spanning the gap between 2450 and

[1] 25 F.R. 12956, Dec. 17, 1960.
[2] 28 F.R. 6567, June 26, 1963.
[3] 30 F.R. 6541, May 12, 1965.

22,125 MHz. In line with several recommendations, the level of permitted emission on the fundamental frequency of operation was increased from 500 uV/m at 100 feet to one volt per meter at 100 feet, while the limit on out-of-band emissions was relaxed from the original across-the-board absolute level of 15 uV/m at 100 feet to require 60 dB suppression on harmonics and 80 dB suppression on other spurious emissions.

4. Comments in response to the Second NPRM requested that the Commission revise the proposed rules to provide for the use of modulation; this would permit sophisticated range control techniques to be used for reducing the incidence of false alarms. These comments pointed out that such techniques had become economically feasible through technological advancements and development of solid state components.

5. During the pendency of this proceeding, other changes had occurred. In a rule making proceeding, the frequencies between 806 and 960 MHz had been reallocated largely to the land mobile services.[4] The Communications Act had been amended by the addition of § 302 to give the Commission authority to control the manufacture and marketing of devices capable of causing interference.[5] The Commission was made aware that the so-called intruder alarm not only was being used to warn of unauthorized entry upon property, but also was being used to count objects on production lines and for other similar detection purposes. In view of these changes, the Commission found it necessary to issue a further notice of proposed rule making, to update the rules proposed in the Second NPRM and to take cognizance of the technological development that had occurred.

6. On December 2, 1970, the Commission issued a Third Notice of Proposed Rule Making (hereafter, Third NPRM)[6] which redesignated "RF operated intruder alarms" as "field disturbance sensors", to broaden the coverage of the regulations. The Third NPRM added a provision for modulated emissions on all permitted bands of operation except at 10,525 MHz, where emission was restricted to A0 only. In providing for modulation, the Commission proposed to increase operating band limits at 915 MHz from ±10 MHz to ±13 MHz. A fifth band, 5800 MHz ±15 MHz, was added to the four proposed in the Second NPRM, thus making all of the ISM microwave frequencies available for these sensors. To reduce the likelihood of interference to the newly allocated land mobile frequencies, the permitted level of emission was reduced from the 1 volt per meter at 100 feet, as proposed in the Second NPRM, to 50,000 uV/m at 100 feet. In addition, to reconcile the proposed certification procedure for field disturbance sensors to the requirements of its marketing regulations[7] adopted on May 22, 1970, the Commission revised its proposed certification procedure to require application to the Commission for a grant of certification prior to marketing and operation. A concomitant amendment was proposed in Part 1 to add filing and grant fees[8] for the certification of a field disturbance sensor.

7. Comments on the Third NPRM were received from the following manufacturers of field disturbance sensors:

Advanced Devices Laboratory, Inc. (Advanced Devices).
Alarmtronics Engineering, Inc. (Alarmtronics).
Electro Security Devices.
Frowds, Ltd.
Hewlett-Packard Co. (H-P).
Johnson Service Co.
Minnesota Mining and Manufacturing Co. (3M).
Mosler Safe Co. (Mosler).
Pacific Technology, Inc.
Monsanto Radio Communications Co. (Monsanto).

Other comments were received from two industry representatives:

Central Station Industry Frequency Advisory Committee.
Security Equipment Manufacturers Association (SEMA).

In addition, a comment was filed by Oliver F. Cheney, as an individual, and a reply comment was filed by Mosler.

8. Essentially the comments were divided into two categories with regard to allowable level of on-frequency emission and frequency of operation; one group limited discussion to operation at 915 MHz, whereas the other discussed operation either at 10,525 MHz, or at 10,525 and 22,125 MHz. In general, the four comments that were addressed to operation at 915 MHz did not object to the Commission's proposed limitation on the permitted level of emission at the fundamental frequency for field disturbance sensors although one manufacturer of a 915 MHz CW sensor which uses a directional antenna requested an allowable emission limit of at least 250,000 uV/m at 100 feet for this frequency. The second manufacturer of a 915 MHz sensor commented that our proposed limit was reasonable, and the third, recommending an even lower limit, stated that our proposed limit was more than adequate. The fourth manufacturer acquiesced to our proposed in-band emission limitation, but voiced objections to other aspects of our proposal. On the other hand, each comment addressed to operation at 10,525 MHz objected to the Commission's on-frequency emission limitation and argued for a higher allowable limit, except for one manufacturer who was in accord with the proposed limitation. A number of the objecting comments alleged that our proposed limitation would not permit sensors to emit sufficient signal within a protected area to obtain satisfactory surveillance coverage unless a supersensitive receiver were used. Several of these comments argued, also, that the Commission's proposed limitation on out-of-band emissions was likely to impose excessively high manufacturing costs. Contending that lack of a provision for modulation seriously limits the usefulness of sensors, the majority of respondents questioned the need for a proscription against modulation at 10,525 MHz, and cited the absence of data showing that operation of field disturbance sensors would actually result in harmful interference to any licensed service.

COMMENTS PERTAINING TO 10,525 MHz

9. Hewlett-Packard states that it has developed a Doppler radar module operating at 10,525 MHz which is suitable for use in a field disturbance sensor. Arguing that use of modulation would improve the reliability of a field disturbance sensor by allowing the detection range to be set at a predetermined distance, thereby reducing the possibility of false alarms, Hewlett-Packard requests that modulation be permitted at 10,525 MHz. Further, Hewlett-Packard argues that operation in the 10,525 MHz band allows more precise range resolution and more accurate control of field patterns, for the purpose of reducing the possibility of interference by a field disturbance sensor to the licensed services, or to other adjacent field disturbance sensors. Stating that certain modulation techniques which do not require excessive bandwidth can be employed to control range resolution to within a few feet, H-P recommends that the Commission allow frequency modulation at 10,525 MHz with the condition that total bandwidth not exceed 10 MHz.

10. In further argument which opposes the Commission's proposed emission limitations. H-P states that its testing programs have determined that a 50,000 uV/m signal strength at 100 feet is insufficient to give reliable sensor operation at 10,000 MHz. Receiver sensitivity in the face of this level of field strength, H-P maintains, must be set so high that the sensor would be susceptible to false triggering by spurious signals. Based on calculations and experiment, H-P states it has determined that a more reasonable level of field strength is 300,000 uV/m at 100 feet which gives its sensor a range of 150 to 200 feet. In anticipation of opposition to raising the permitted emission level at 10,525 MHz, H-P submitted supplemental information containing calculations to support statements made in its original comment. These calculations show that, under normal operating conditions, H-P's field disturbance sensor, even when modulated, would emit a signal well below the threshold sensitivity of the typical police radar unit, and consequently H-P claims that the police radar would receive a signal incapable of affecting its operation.

11. SEMA also argues that modulation at 10,525 MHz is essential to prevent mutual interference in a multi-unit installation and to reduce the incidence of false alarms, caused by extraneous disturbances. In addition, SEMA in argument similar to that of H-P, contends emission limitations are too severe in view of present sensor technology. SEMA also points out that the best way of reducing false alarms is to use a relatively strong output signal with a relatively insensitive receiver. This method of operation SEMA contends, could not be achieved under the proposed regulations. To provide for satisfactory field disturbance sensor operation, SEMA suggests that our proposed emission limitations be revised so as to permit on-frequency emissions of 200,000 uV/m at 100 feet and harmonic emissions of 1000 uV/m at 100 feet. The Johnson Service Company argues that restricting 10,525 MHz transmission to A0 emission while permitting modulation at all other frequencies appears to be both inconsistent and unnecessary, particularly in view of the lack of any documented evidence showing that harmful interference would occur if modulation were permitted. Acknowledging the need to use modulation techniques and then excluding one frequency from the use of such techniques, the Johnson Service Co. argues, is tantamount to removing the excluded frequency from the permitted bands. To provide for the current version of its field disturbance sensor, which operates as a homodyne CW Doppler radar using a high gain antenna to achieve a controlled detection range in excess of 100 feet, the Johnson Service Co. requests that the Commission adopt a 2-year limitation of 500,000 uV/m at 100 feet for in-band emissions. During this 2-year period, the Johnson Service Co. suggests that adequacy of emission levels be studied in terms of permitted frequencies, with a view toward reducing the emission limit to 50,000 uV/m at 100 feet. In further discussion, the Johnson Service Co. claims that its sensor is designed to take advantage of the reflective and absorptive properties of common building materials on microwave energy, and thereby confine emissions to the desired surveillance area.

12. Alarmtronics contends that from a cost and reliability standpoint, operation in the 10,525 MHz band is optimum because of the present level of development in state-of-the-electronics art components. Modulation, however, is a must Alarmtronics argues, because it is the only practical method for preventing mutual interference among multiple-unit installations, and for reducing false alarming caused by a disturbance outside of the intended detection range. In addition, Alarmtronics argues that the permitted on-frequency emission limitation should be raised from 50,000 uV/m at 100 feet to 150,000 uV/m at 100 feet to provide for sensors that are capable of operating effectively without being so supersensitive as to operate on the edge of instability. At the same time, Alarmtronics objects to our proposed limitation on harmonics, and suggests that the limit be raised to 1000 uV/m at 100 feet. To support its argument for relaxing our proposed emission limitations at 10,525 MHz, Alarmtronics contends that, at higher frequencies, the radiated field can be precisely defined and confined to the protected area by ordinary building materials. Advanced Devices, claiming to be the largest U.S. manufacturer of field disturbance sensors operating at 10,525 MHz, states that, although all existing space protection sensors now operate without modulation, new, more sophisticated sensors operating at this frequency will use modulation in many applications to limit the range of detection. Advanced Devices, describes its sensor which uses a solid state RF generator and a 20 dB directional antenna, and argues that our proposed emission limitations will not permit practical performance levels. In this connection, Advanced Devices suggests that our proposed limit for on-frequency emissions be increased to 500,000 uV/m at 100 feet. For harmonic emissions, Advanced Devices requests that required suppression be no greater than 40 dB, and for other spurious emissions, that require suppression be set at 60 dB. Alleging that, since RF energy emitted at 10,525 MHz and 22,125 MHz is easier to confine to a given area because of the greater attenuating effect of ordinary building materials in the walls of a structure on microwave energy than on energy at lower frequencies, the Central Station Industry Frequency Advisory Committee recommends that the permitted emission limitation be increased to 500,000 uV/m for these two frequencies.

13. Monsanto, another proponent of modulation at 10,525 MHz, states that it is currently conducting field demonstrations to show that frequency modulation of a sensor at a rate greater than the maximum Doppler frequency generated by a police radar would eliminate the possibility of interference to radar speed meters. Except for its opposition to our prohibition against modulation at 10,525 MHz, Monsanto is in complete accord with the technical provisions of our proposed rules, including the proposed limitation on emissions, and supports the requirement for equipment certification.

COMMENTS PERTAINING TO OPERATION AT 915 MHz

14. Electro Security Devices, addressing its comment to operation at 915 MHz, states that the Commission's proposed limit is far more than adequate for detection of a human at 100 feet, and recommends that the permitted level of emission on the fundamental be lowered to 10,000 uV/m at 100 feet. Continuing its comment, Electro Security Devices states that detection beyond 100 feet is not limited to the same extent by the field strength of emissions as it is limited by trade-off of detector stability for gain. Moreover, Electro Security Devices maintains that reliable and highly sensitive detection devices (sensors) can be manufactured with present state-of-the-electronic-art components, at a reasonable cost. Stating that rules making sensors immediately available to the consumer will be of great public service, 3M, without opposition to our proposed limitation on emissions at the fundamental frequency, strongly endorses the course of action taken in the Third NPRM. However 3M objects to our proposed limitations on harmonic and other spurious emissions, and argues that these limitations are unnecessarily stringent. Alternatively, 3M proposes suppressing harmonics 25 dB below the fundamental or providing an absolute limit of 250 uV/m at 100 feet, and suppressing other spurious emissions 50 dB below the fundamental or providing an absolute limit of 25 uV/m at 100 feet. These limits, 3M contends are typical of what is practicable for a well designed CW field disturbance sensor. Pacific Technology states that the Commission's proposed emission limitations are reasonable for a single sensor. For facilities which cannot be protected adequately by a single sensor, Pacific Technology suggests a multi-sensor installation using a number of CW Doppler sensors operating on closely spaced crystal controlled frequencies. Mosler states that, to maintain an adequate signal-to-noise ratio, its sensor operating at 915 MHz, in competition with ISM equipment, must radiate a field of not less than 250,000 uV/m at 100 feet, and accordingly urges the Commission to revise its proposed limitation upward to this level for CW sensors. The Mosler sensor as described in its engineering statement uses a sophisticated processing technique, plus a directional antenna to eliminate the occurrence of false alarms. Rather than using modulation techniques to reduce false alarms, Mosler states that its sensor relies on the properties of a directional antenna to restrict the area of coverage.

15. Proponents of a higher allowable level of emission presented arguments which purport to show that the limitation of 50,000 uV/m at 100 feet proposed by the Commission is too stringent to provide for reliable and efficient sensor operation. In general, the sensors developed by these parties operate either at 10,525 MHz or at 22,125 MHz, and employ relatively high gain directional antennas to direct the radiated energy, and thus extend the range of detection while restricting the field of coverage. This technique, which concentrates the radiated energy along the axis of the antenna, yields, in most cases, a higher level of field strength than proposed in our Second NPRM. The comments indicated that the various sensors using such techniques emit up to 500,000 uV/m at 100 feet to achieve an adequate detection range. In contrast to sensors which operate at 10,525 and 22,125 MHz, and cannot function satisfactorily within our proposed on-frequency limitation of 50,000 uV/m at 100 feet, it would appear that most sensors operating at 915 MHz (and

[4] For the record of this rule making proceeding, see FCC Docket No. 18262. For the notice of inquiry and notice of proposed rule making, see 33 F.R. 10807, July 30, 1968. For the first report and order and second notice of inquiry, and notice of proposed rule making, see 35 F.R. 8644, June 4, 1970.

[5] Section 302, entitled "Devices which Interfere with Radio Reception", was added to the Communications Act on July 5, 1968, by Public Law 90-379, 82 Stat. 290. Under authority granted by § 302, the Commission adopted marketing regulations for radio frequency devices in its Report and Order in Docket No. 18426 (35 F.R. 7894, May 22, 1970).

[6] 35 F.R. 18674, December 9, 1970.

[7] See footnote 5 supra.

[8] The matter of fees for equipment authorizations is discussed in the Commission's Report and Order in Docket No. 18802, adopted July 1, 1970 (35 F.R. 10988, July 8, 1970).

presumably at 2,450 MHz and 5,800 MHz) are capable of operating satisfactorily within this limitation. In this connection, three manufacturers of 915 MHz sensors stated that they have developed sensors capable of operating at or below the Commission's proposed limit. None of the comments indicated that serious design work had been done at either 2,450 or at 5,800 MHz, although at least one manufacturer expressed an interest in investigating feasibility of operation on these two frequencies.

16. In several comments, manufacturers objected to the Commission's proposed emission limitations on the ground that an inadequate detection range would be provided. Stating that the required detection range for a sensor was roughly from 100 to 200 feet, these manufacturers urged the Commission to raise the permissible level of emissions. None of these manufacturers, however, presented definitive information showing why an extended detection range is necessary for effective operation of a simple space protection sensor. Moreover, none of the objecting parties presented technical data to show what levels of field strength are required to give reliable operation at varying detection ranges. More important, no information was submitted showing that a sensor emitting the recommended levels of RF energy would not constitute a source of harmful interference.

COMMISSION'S DECISION

17. The Commission is not convinced that a detection range on the order of 200 feet is necessary to provide adequate security protection for the limited areas envisaged by the instant proceeding. In this connection, the Commission reiterates its discussion characterizing the nature of a space protection field disturbance sensor. The Commission in its Third NPRM in this subject proceeding stated in part:

> In the course of this proceeding, it has become evident that field disturbance sensors (intrusion detection devices) can be divided into two general types. One type uses essentially a point source of RF energy to detect motion in a limited area in the vicinity of the source. In this type of sensor (alarm), the emitter and the receiver (or detector) are essentially at the same point and the sensor (alarm) can be described as a space protection system. This is the type of field disturbance sensor (intruder alarm system) dealt with in these proposed regulations.

18. The Johnson Service Co., Alarmtronics, Frowds, Ltd., SEMA, and the Central Station Industry Frequency Advisory Committee have contended individually that when a microwave sensor is operated within a building constructed of ordinary building materials there results a certain amount of signal attenuation, because of the absorption and reflection of microwave energy. On the basis that only an insignificant amount of RF energy will leak out of most buildings, these parties have asked the Commission to revise upward its proposed limitations on emissions at 10,525 MHz and at 22,125 MHz. The Commission agrees that some attenuation does occur when RF energy propagates through walls. Such attenuation, however, is so variable, depending as it does on the nature of the construction, that little reliance can be placed thereon in establishing levels of emission. Accordingly, the Commission is not persuaded on this basis to revise its proposed emission limitations for field disturbance sensors.

19. However, in view of the other arguments presented, the Commission has reconsidered the in-band emission limitations proposed for 10,525 MHz and for 22,125 MHz, and has adopted an on-frequency emission limitation of 250,000 uV/m at 100 feet for these two frequencies. For the bands 915, 2450, and 5800 MHz the Commission has adopted an on-frequency emission limitation of 50,000 uV/m at 100 feet, as originally proposed in its Third NPRM. At the same time, the Commission has been persuaded by the comments opposing its proposed proscription against modulation at 10,525 MHz, and has deleted the AO emission limitation proposed for this frequency; this will provide for modulation at each of the permitted bands of operation. In making this decision, the Commission noted that none of the parties who had responded to its Second NPRM and had objected [9] to sensor operation at 10,525 MHz reiterated these objections by responding to the Third NPRM. In line with the requests of several respondents to the Third NPRM, the Commission has relaxed its proposed limitations on out-of-band emissions, and has adopted regulations requiring that the emission of RF energy both on harmonics and on all other spurious frequencies be suppressed at least 50 dB below the level permitted for the fundamental.

20. SEMA has recommended that a "grandfather clause" be adopted to provide for the thousands of field disturbance sensors now in operation. Alarmtronics requested that a reasonable amount of time be provided for manufacturers and importers to obtain the necessary certification. The Commission is aware that prior to October 1, 1970, when its marketing regulations became effective, many noncomplying field disturbance sensors used as security alarms were being sold to consumers who, in good faith, purchased them with little or no knowledge of their interference potential. Most of these devices were being operated illegally, since they could not meet the technical standards set out in § 15.7 of the rules.[10]

SEMA is now asking the Commission to give legal status to these devices by providing limits to accommodate their operation. Alarmtronics, in effect, is asking that the Commission permit continued marketing of noncomplying intruder detection sensors until grant of certification can be secured; however, Alarmtronics gives no guarantee that these devices can ultimately comply with the rules being adopted. The major objective of the Commission's marketing regulations [11] is to keep devices which do not accord with its technical standards out of the user market. In light of the duration of this proceeding, we believe that industry has had sufficient opportunity to prepare for the rules it had requested.[12] Accordingly, the Commission can find no basis for granting either request, and consequently is not authorizing the marketing or operation of any field disturbance sensor unless it complies with the technical standards and certification requirements herein adopted.

21. Pointing out that speed measuring equipment (such as police radars) will be operated on a share basis with field disturbance sensors at 10,525 MHz, Advanced Devices argues that, if the limitations proposed for field disturbance sensors are applied to measuring equipment, the useful range of this equipment would be limited to impractically short distances. This argument is specious, since it is based on an unwarranted assumption. Speed measuring epuipment is classified as radiolocation equipment and may be licensed as such in various bands of the Public Safety Radio Services (§ 89.101), Industrial Radio Services (§ 91.604), and/or Land Transportation Services (§ 93.112). As a licensed station such speed measuring equipment is governed by the regulations under which it is licensed—not by these new Part 15 regulations. Notwithstanding, the Commission will interpose no objection to the operation of speed measuring equipment (or other radiolocation devices) under the regulations for field disturbance sensors where it is shown that the device comes within the scope of these regulations. It also follows that a speed measuring equipment operated under Part 15 must operate on a sufferance basis only (§ 15.311) and may not cause interference to any of the licensed services.[13]

22. Pursuant to our policy to impose filing and grant fees for certification of equipment § 1.1120 of Part 1 is amended to set out a fee schedule for the certification of field disturbance sensors.

23. In view of the foregoing and pursuant to the authority contained in §§ 4(i), 302, 303(g), and 303(r) of the Communications Act of 1934, as amended: *It is ordered*, That, effective October 5, 1971, Parts 1 and 15 are amended in the manner set forth below. *It is further ordered*, That this proceeding is hereby terminated.

(Secs. 4, 302, 303, 48 Stat., as amended, and 82 Stat.; 1066, 290, 1082; 47 U.S.C. 154, 302, 303)

Adopted: August 18, 1971.

Released: August 24, 1971.

FEDERAL COMMUNICATIONS COMMISSION,[14]
[SEAL] BEN F. WAPLE,
Secretary.

Parts 1 and 15 are amended as follows:

1. Section 1.1120 of Part 1 is amended by adding a new item 6 in the fee schedule under Certification to read as follows:

§ 1.1120 Schedule of fees for equipment approval, acceptance or certification.

* * * * *

Item	Certification	Filing fee	Grant fee
...	...	...	...
6	Application for certification of a field disturbance sensor	$10	$25

2. Section 15.4 is amended by adding a new paragraph (j) to read as follows:

§ 15.4 General definitions.

* * * * *

(j) *Field disturbance sensor.* A restricted radiation device which establishes a radio frequency field in its vicinity and detects changes in that field resulting from movement of persons or objects within the radio frequency field.

3. A new Subpart F (§§ 15.301–15.317) is added to Part 15 to read as follows:

Subpart F—Field Disturbance Sensors

Sec.
15.301 Scope of this subpart.
15.303 Restriction on operation.
15.305 General technical specification.
15.307 Frequency tolerance.
15.309 Emission limitations.
15.311 Interference from a field disturbance sensor.
15.313 Certification of a field disturbance sensor.
15.315 Description of measurement procedure.
15.317 Frequency range over which measurements are required.

AUTHORITY: The provisions of this Subpart F issued under secs. 4, 302, 303, 48 Stat., as amended, and 82 Stat., 1066, 290, 1082; 47 U.S.C. 154, 302, 303.

Subpart F—Field Disturbance Sensors

§ 15.301 Scope of this subpart.

This subpart provides rules governing the operation of restricted radiation devices which are used as field disturbance sensors. Typical examples of devices regulated by these rules are microwave intrusion sensors and devices that use RF energy for production line counting and sensing.

§ 15.303 Restriction on operation.

No field disturbance sensor may be operated unless it has been certificated and labeled as complying with the requirements of this part.

§ 15.305 General technical specification.

(a) A field disturbance sensor may be operated on any frequency (including frequencies above 900 MHz) subject to the requirement that the field strength of emissions on the fundamental or on a harmonic or on other spurious frequencies shall not exceed 15 uV/m at a distance of $\lambda/2\pi$ from the sensor.

NOTE: The distance $\lambda/2\pi$ is equivalent in feet to 157 divided by the frequency in MHz.

(b) Alternative to paragraph (a) of this section, a field disturbance sensor may be operated on any frequency listed below, subject to the technical requirements set out in §§ 15.307 and 15.309 of this part.

915 MHz	10,525 MHz
2450 MHz	22,125 MHz
5800 MHz	

§ 15.307 Permitted bands of operation.

The carrier frequency of a field disturbance sensor operating on one of the frequencies listed in § 15.305(b) and any modulation components thereof shall be kept within the following band limits:

Nominal operating frequency (MHz)	*Band Limits (MHz)*
915	±13
2450	±15
5800	±15
10,525	±25
22,125	±50

NOTE. To minimize the possibility of out-of-band operation because of frequency drift due to aging of components or other causes, it is recommended that the carrier frequency be kept within the central 80 percent of the permitted band.

§ 15.309 Emission limitations.

(a) For a field disturbance sensor operating within any frequency band listed in § 15.307, the field strength of emissions on the fundamental shall be limited in accordance with the following:

Frequency (MHz)	*Field Strength*
915, 2450, 5800	50,000 uV/m at 100 ft.
10,525, 22,125	250,000 uV/m at 100 ft.

(b) Spurious emissions (including emissions on a harmonic of any frequency listed in paragraph (a) of this section) shall be suppressed at least 50 dB below the level of the fundamental; however, suppression below 15 uV/m at 100 ft. is not required.

NOTE. For pulsed operation, measured field strength shall be determined from the averaged absolute voltage during a 0.1 second interval when field strength is at its maximum value. Below 1000 MHz, the measurement bandwidth shall comply with the requirements set out in the American National Standards Institute Specifications C63.2–1963 and C63.3–1964. Above 1000 MHz the measurement bandwidth shall be 5 MHz.

§ 15.311 Interference from a field disturbance sensor.

(a) Operation of a field disturbance sensor is subject to the general conditions of operation set out in § 15.3.

(b) The operator of a field disturbance sensor who is advised that his sensor is causing interference to an authorized radio service shall promptly stop operating the sensor, and operation shall not be resumed until the condition causing the harmful interference has been eliminated.

§ 15.313 Certification of a field disturbance sensor.

The procedure for certification of a field disturbance sensor is identical to the procedure for a radio control for a door opener as set out in §§ 15.260–15.264 inclusive, and §§ 15.268–15.272 inclusive, except that § 15.264(b) shall not apply.

§ 15.315 Description of measurement procedure.

The report of measurements shall describe in detail the measurement procedure that was used. If a published standard was used, reference to the standard is sufficient, provided any departure from the standard is described in detail.

§ 15.317 Frequency range over which measurements are required.

(a) For a field disturbance sensor operating below 100 MHz, the spectrum shall be scanned from the lowest frequency generated in the device up to 1000 MHz. Field strength for all significant emissions shall be measured and reported.

(b) For a field disturbance sensor operating above 100 MHz the spectrum shall be scanned from the lowest frequency generated in the device up to 10 GHz, provided that for sensors operating on frequencies above 5 GHz, the spectrum shall be scanned to the highest frequency feasible, above 10 GHz. Field strengths of all significant emissions shall be measured and reported.

[FR Doc.71-12528 Filed 8-25-71;8:53 am]

[FCC 71-847]

PART 15—RADIO FREQUENCY DEVICES

Radio Control Transmitter for a Door Opener

Order. In the matter of amendment of Part 15 of the Commission's rules and regulations to conform § 15.215 to Part 2.

1. Section 15.215(c), adopted on March 24, 1971, by a second report and order [1] in Docket No. 15657, lists, among others, 404–406 MHz as a prohibited

---

[9] See paragraph 20, Third NPRM, Docket No. 13863, 35 F.R. 18674, Dec. 9, 1970.

[10] Under the provisions of § 15.7, these alarms are treated as restricted radiation devices, and are subject to a field strength limitation of 15 uV/m at a distance of $\lambda/2\pi$. With the issuance of this order, devices will no longer be subject to the provisions of § 15.7 but must comply with the regulations in Subpart F of Part 15 adopted herein.

[11] See footnote 5 supra.

[12] In this connection, it should be noted that the Third NPRM issued on December 2, 1970, represented a third change in the proposed regulations and was designed to meet the requirements of industry as indicated in the comments submitted in this proceeding.

[13] Regardless of whether licensed or intended for operation under Part 15 all speed measuring equipment is, or shortly will be, subject to a Commission equipment authorization procedure. For type acceptance under Part 89, see § 89.117(b); for type acceptance under Part 93, see § 93.109(b); and for type acceptance under Part 91, see the proposal in RM-1773. For certification under Part 15, see § 15.313, herein adopted.

[14] Commissioner H. Rex Lee absent.

[1] 36 F.R. 6504, Apr. 6, 1971.

band for a radio door control.[2] This regulation provides that emissions from neither the transmitter part nor the receiver part of the control may fall on any of the prohibited frequencies in order to minimize the probability of interference to either the aeronautical or the radio astronomy services.

2. On November 10, 1970, the Commission by order[3] shifted the Radio Astronomy Service allocation from 404–406 MHz to 406–410 MHz. To continue providing the protection to radio astronomy heretofore provided, it is necessary to conform § 15.215 by making a similar shift in the list of prohibited frequencies in that section. Accordingly, the rule amendment herein adopted revises § 15.215(c) to delete the band 404–406 MHz, and to add the band 406–410 MHz.

3. Since the amendment adopted by the instant order conforms Part 15 to a previous rule revision that was made in accordance with required rule making procedures, the Commission finds that compliance with the prior notice provisions of 5 U.S.C. 553 is unnecessary.

4. *Accordingly, it is ordered*, That, pursuant to the authority contained in sections 4(i), 302, and 303(r) of the Communications Act of 1934, as amended, § 15.215(c) in Part 15 of the Commission's rules is amended effective November 1, 1971, to read as follows:

§ 15.215 Provisions for a radio control transmitter for a door opener.

* * * * *

(c) Emission of RF energy from the transmitter, as well as from the receiver part of the control, shall not fall within any of the bands listed below:

MH:	*MHz*	*GH:*
73–75.4	608–614	10.68–10.70
108–118	960–1215	15.35–15.4
121.4–121.6	1400–1427	19.3–19.4
242.8–243.2	1535–1670	31.3–31.5
265–285	2690–2700	88–90
328.6–335.4	4200–4400	
406–410	4990–5250	

(Secs. 4, 302, 303, 48 Stat., as amended & 82 Stat.; 1006, 290, 1082; 47 U.S.C. 154, 302, 303)

* * * * *

Adopted: August 18, 1971.

Released: August 23, 1971.

FEDERAL COMMUNICATIONS COMMISSION,[4]
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.71-12534 Filed 8-25-71;8:53 am]

[Docket No. 19076; FCC 71-851]

PART 83—STATIONS ON BOARD IN MARITIME SERVICES

Use of Frequencies by Ship Stations

Report and order. In the matter of amendment of Part 83 of the Commission's rules with respect to use of frequencies by ship stations.

1. A notice of proposed rule making in the above captioned matter was released on November 6, 1970, and published in the FEDERAL REGISTER of November 11, 1970 (35 FR 17360). The dates for filing comemnts and replies have passed.

2. The notice proposed revisions to permit channel 09 to be used for intership communications between all types of vessels concerning commercial, operational or economic matters directly relating to the purposes for which the commercial vessels are used; or for the needs of the other vessels. As we said in our Notice of Proposed Rulemaking, there is an unsatisfied requirement for a common VHF channel, other than a safety channel, for intership communications available to all vessels for their needs. At present, the Commission's rules, Part 83 provide for the use of 156.450 MHz, channel 09, by all vessels for ship to shore communications concerning the needs of the vessel. In addition, commercial transport vessels may use the frequency for intership communications with other commercial transport vessels concerning the needs of this class of vessel. Vessels that are not commercial transport vessels may not use channel 09 for intership communications. This limitation has caused some misunderstanding and confusion on the part of ship station licensees. Vessels other than commercial transport vessels monitoring channel 09 will hear intership commmunications and often they assume that they may engage in intership communciations on this channel. In other situations, a commercial vessel will work another vessel on channel 09 and not know if it is a commercial vessel or not. No information has been received that indicates that these reasons for the proposal are incorrect or inappropriate.

3. Associated Branch Pilots (PILOTS) were the only commentators on this proposal. PILOTS provide pilotage for the port of New Orleans and state that they have used Channel 09 for intership communications with 500 commercial vessels per month since the inception of VHF and to permit noncommercial vessels to use Channel 09 for intership communications would force PILOTS to change to another channel. PILOTS state that in order to change the intership channel for commercial vessels operating in the New Orleans area, it would be necessary to notify vessels worldwide to make this change. PILOTS requested that, should the Commission implement the rules as proposed, the effective date be delayed 1 year to allow for changeover to other intership channels.

4. PILOTS asserts that our proposal would add from 50–100 recreational and fishing vessels to those now permitted to use Channel 09 for intership communications. We believe that the majority of these vessels now equipped with VHF will have one or more of the existing noncommercial intership channels installed and will continue to use these channels for intership communications with noncommercial vessels. We do not believe that the increased traffic on Channel 09 caused by the addition of noncommercial operators would render the channel useless; therefore, no extended changeover period is necessary.

5. In view of the foregoing, *it is ordered*, That pursuant to the authority contained in section 4(i) and 303 (b) and (r) of the Communications Act of 1934, as amended, Part 83 of the Commission's rules is amended, effective October 5, 1971, as set forth below.

6. *It is further ordered*, That the proceeding in Docket 19076 is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: August 18, 1971.

Released: August 23, 1971.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

Part 83 is amended as follows:

1. In § 83.351 paragraph (a)(5) is amended to add 6 and 40 to conditions of use for the frequency 156.450 MHz and paragraph (b)(6) is changed to express limitations and conditions of use.

§ 83.351 Frequencies available.

(a) * * *

(5) * * *

Carrier frequency (MHz)	*Conditions of use*
* * *	* * *
156.450	6, 34, 40, 41, 49, 50
* * *	* * *

(b) * * *

(6) The frequency 156.450 MHz may be used for communications between commercial transport vessels and other vessels:

(i) Concerning the commercial, operational or economic matters relating directly to the purposes for which the commercial transport vessel is used; or

(ii) Relating directly to the needs of the other vessel.

* * * * *

2. In § 83.359 the table "noncommercial" is amended to change the points of communications on channel 09.

§ 83.359 Frequencies in the band 152-162Mc/s available for assignment.

Channel designator	Frequency (MHz) Ship	Coast	Points of communication
* * *	* * *	* * *	* * *
NONCOMMERCIAL			
68	156.425	156.425	Intership and ship to coast.
09	156.450	156.450	Do.
69	156.475	156.475	Ship to coast.
70	156.525	.....	Intership.
71	156.575	156.75	Ship to coast.
72	156.625	.....	Intership.
78	156.925	156.925	Ship to coast.
* * *	* * *	* * *	* * *

[FR Doc.71-12535 Filed 8-25-71;8:53 am]

[1] Commissioner H. Rex Lee absent.

[2] The list of prohibited frequencies was adopted as § 15.211(a)(6) by the First Report & Order, July 21, 1965, in Docket 15657 (30 F.R. 9315). This proceeding is commonly referred to as the garage door rule making.

[4] Commissioner H. Rex Lee absent.

[Docket No. 19174; FCC 71-874]

RECIPROCAL SHARING OF OPERATIONAL FIXED STATIONS

1. On March 17, 1971, we issued a notice of proposed rule making to amend Parts 87, 89, 91, and 93 of the Commission Rules to provide specifically for reciprocal sharing of private microwave systems. The Notice was published in the FEDERAL REGISTER on March 24, 1971, 36 F.R. 5522.

2. In that notice, we noted that in recent years licensees of private microwave systems have found it advantageous to enter into arrangements under which one permits the use of communications channels in his system in exchange for the use of comparable communications channels in the microwave system of the other, and that these sharing arrangements have obvious merit, both in terms of spectrum economy and the fuller utilization of private systems. We also noted, however, that compliance by licensees proposing to share their systems in this manner with the precise cost-sharing and annual report requirements of the existing rules is extremely difficult, if not impossible, and we proposed to amend those rules to make specific provisions to cover mutual sharing arrangements. With one exception, the comments filed[1] supported our proposal and urged its early approval.

3. The only opposition was filed by GTE Service Corporation. GTE's stated position is that sharing of private systems should not be "liberalized" because of the "* * * possible adverse impact of expanded sharing upon existing communications common carriers". GTE's concern is misplaced. The purpose of our proposal was not to expand or liberalize permissible sharing of private microwave sharing beyond that now authorized by our rules. Sharing, even under the mutual sharing arrangements considered here, will still be limited as specified by the rules. See, for example, § 91.9(b) of the Commission's rules. The purpose of our proposal was to exempt mutual sharing arrangements, which are permissible under the basic sharing rules, from strict compliance with the cost-sharing and annual reporting requirements of those rules because, as we said above, compliance is impractical. Thus, the issue in this proceeding is a narrow one. On this issue, we stated in the Notice that it would serve no useful purpose to require a licensee proposing to enter into a mutual sharing arrangement with another to evaluate the monetary worth of the microwave channels it would receive and of the microwave channels it would furnish so as to insure a strict equalization of costs. Nothing GTE has stated persuades us that our initial tentative conclusion on this matter was unsound.

4. Accordingly, on the basis of the record of this proceeding and our experience with the limited number of mutual sharing arrangements we have authorized in the past, we conclude that it would be in the public interest to facilitate such arrangements for the shared use of private microwave systems in the manner proposed. *Therefore, it is ordered*, Pursuant to sections 4(i) and 303 of the Communications Act of 1934, as amended, That, Parts 87, 89, 91, and 93 of the Commission's rules are amended, as shown below, effective October 5, 1971.

5. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: August 18, 1971.

Released: August 23, 1971.

FEDERAL COMMUNICATIONS COMMISSION,[2]
[SEAL] BEN F. WAPLE,
Secretary.

Parts 87, 89, 91, and 93, of the Commission's rules are amended as follows.

PART 87—AVIATION SERVICES

1. In § 87.467, paragraphs (d) and (i) are amended to read as follows:

§ 87.467 Cooperative use of operational stations.

* * * * *

(d) Licensed facilities may be cooperatively used under this section only (1) without charge to any of the participants in its use, or (2) on a nonprofit, cost sharing basis pursuant to a written contract between the parties involved which provides that the licensee shall have control of the licensed facilities and that contributions to capital and operating expenses are accepted only on a cost sharing nonprofit basis, prorated equitably, among all participants using the facilities, or (3) on a reciprocal basis (e.g., use of one licensee's facilities in exchange for the use of another licensee's facilities) without charge for either capital or operating expense, pursuant to a written contract between the licensees involved.

* * * * *

(i) When radio facilities are shared under the provisions of this section without charge and without any other consideration from any other participants, or on a reciprocal basis, or when the facilities are shared solely by governmental entities, in lieu of the statements required to be filed by paragraph (h) of this section, the licensee shall file with the Commission within 90 days after the close of his fiscal year a statement advising the Commission of that fact.

* * * * *

PART 89—PUBLIC SAFETY RADIO SERVICES

2. In § 89.14 paragraphs (d) and (i) are amended to read as follows:

§ 89.14 Cooperative use of fixed radio stations.

* * * * *

(d) Licensed facilities may be cooperatively used under this section only (1) without charge to any of the participants in its use, or (2) on a nonprofit, cost sharing basis pursuant to a written contract between the parties involved which provides that the licensee shall have control of the licensed facilities and that contributions to capital and operating expenses are accepted only on a cost sharing nonprofit basis, prorated equitably, among all participants using the facilities, or (3) on a reciprocal basis (e.g., use of one licensee's facilities in exchange for the use of another licensee's facilities) without charge for either capital or operating expense, pursuant to a written contract between the licensees involved.

* * * * *

(i) When radio facilities are shared under the provisions of this section without charge and without any other consideration from any other participants, or on a reciprocal basis, or when the facilities are shared solely by governmental entities, in lieu of the statements required to be filed by paragraph (h) of this section, the licensee shall file with the Commission within 90 days after the close of his fiscal year a statement advising the Commission of that fact.

* * * * *

PART 91—INDUSTRIAL RADIO SERVICES

3. In § 91.9, paragraphs (d) and (i) are amended to read as follows:

§ 91.9 Cooperative use of operational fixed radio stations.

* * * * *

(d) Licensed facilities may be cooperatively used under this section only (1) without charge to any of the participants in its use, or (2) on a nonprofit, cost sharing basis pursuant to a written contract between the parties involved which provides that the licensee shall have control of the licensed facilities and that contributions to capital and operating expenses are accepted only on a cost sharing nonprofit basis, prorated equitably, among all participants using the facilities, or (3) on a reciprocal basis (e.g., use of one licensee's facilities in exchange for the use of another licensee's facilities) without charge for either capital or operating expense, pursuant to a written contract between the licensees involved.

* * * * *

(i) When radio facilities are shared under the provisions of this section without charge and without any other consideration from any other participants, or on a reciprocal basis, or when the facilities are shared solely by governmental entities, in lieu of the statements

[1] Comments were filed by the Association of American Railroads (AAR), the Central Committee on Communication Facilities of the American Petroleum Institute, Forest Industries Radio Communications (FIRC), GTE Service Corp. (GTE), Microwave Communications, Inc. (MCI), the National Association of Manufacturers (NAM), the Utilities Telecommunications Council (UTC), and the Southern Pacific Transportation Co. (Southern Pacific). Reply comments were not filed.

[2] Commissioner H. Rex Lee absent.

required to be filed by paragraph (h) of this section, the licensee shall file with the Commission within 90 days after the close of his fiscal year a statement advising the Commission of that fact.

* * * * *

PART 93—LAND TRANSPORTATION RADIO SERVICES

4. In § 93.4, paragraphs (d) and (i) are amended to read as follows:

§ 93.4 Cooperative use of fixed radio stations.

* * * * *

(d) Licensed facilities may be cooperatively used under this section only (1) without charge to any of the participants in its use, or (2) on a nonprofit, cost-sharing basis pursuant to a written contract between the parties involved which provides that the licensee shall have control of the licensed facilities and that contributions to capital and operating expenses are accepted only on a cost-sharing nonprofit basis, prorated equitably, among all participants using the facilities, or (3) on a reciprocal basis (e.g., use of one licensee's facilities in exchange for the use of another licensee's facilities) without charge for either capital or operating expense, pursuant to a written contract between the licensees involved.

* * * * *

(i) When radio facilities are shared under the provisions of this section without charge and without any other consideration from any other participants, or on a reciprocal basis, or when the facilities are shared solely by governmental entities, in lieu of the statements required to be filed by paragraph (h) of this section, the licensee shall file with the Commission within 90 days after the close of his fiscal year a statement advising the Commission of that fact.

[FR Doc.71-12532 Filed 8-25-71;8:53 am]

[Docket No. 19086; FCC 71-854]

EXPANDED USE OF NONVOICE EMISSIONS

1. On November 13, 1970, a notice of proposed rule making (FCC 70-1205) was released in the above-entitled matter to amend rule parts 89, 91 and 93 to permit general non-voice operations on voice frequencies in the land mobile radio services. The notice was published in the FEDERAL REGISTER on November 18, 1970 (35 F.R. 17747). By subsequent Order (Mimeo 60476), adopted December 17, 1970, the comment and reply comment periods were extended from December 21, 1970 to January 21, 1971, and from December 31, 1970 to February 1, 1971, respectively. All comments[1] and reply comments submitted in response to the Notice have been fully considered in arriving at the determinations herein.

2. Rule changes proposed in this proceeding reflect recent trends in equipment development and increased user interest for licensing non-voice radio operations to combat growing congestion on private land mobile frequencies. Nonvoice techniques appear to be capable of accommodation on mobile frequencies, make relatively little demand upon the spectrum, and promise significant advantages in speeding up communications and reducing the redundancy rate associated with voice communications. The proposals would allow operation of nonvoice systems on most of the same land mobile channels below 950 MHz that are used for voice operations in the Public Safety, Industrial and Land Transportation Radio Services. Within this framework, the comments unanimously supported amendment of the rules to allow operation of non-voice systems on land mobile voice frequencies. The comment of Communications Industries, Inc. was typical of the reaction:

> In the past 10 or 15 years the State of the electronic art has advanced so that it is now feasible in certain applications to gain an overall circuit efficiency by using nonvoice techniques along with voice communications on Land Mobile channels. The Commission has recognized this by permitting under certain conditions nonvoice emissions for alarms telemetering, etc. Technical progress is continuing, particularly in the solid state field, and it is now possible to transmit data reliably, economically, and at very high speeds. We have reason to believe that future solid state developments will further improve efficiency of such transmission. It is, therefore, timely that the Commission now consider permitting data transmissions on a secondary noninterference basis to radiotelephone transmissions on a particular channel.

3. The Commission agrees on the basis of its own observations as well as the comments that limited use of nonvoice techniques is feasible and should be encouraged to improve efficiency of operations on land-mobile frequencies. Accordingly, we are amending our rules to implement a program essentially as proposed to permit the use of nonvoice methods on voice channels. The rule changes will not, however, cover telemetry, radioteleprinter, radio facsimile, or automatic mobile locating systems as these activities were excluded in the proposals. Nor did the proposals affect operations or frequencies already designated for use of F2, F9, A2, or A9 emission, or present specific rule provisions for secondary alarming or paging systems.[2]

4. In advancing rule changes for expanded nonvoice operations, it was necessary that consideration be given to minimizing harmful impact upon regular voice communications. The Commission proposed to maintain the priority of voice operations by permitting nonvoice systems to operate on land mobile frequencies only on a secondary, noninterference basis to radiotelephone systems. The comments generally agreed with this proposal and a number stated that we should give meaning to the noninterference standard by requiring licensees to employ automatic monitoring or sensoring devices to test occupancy and prevent operation on an occupied channel. A requirement of this nature can be met at nominal cost and will "give teeth" to the noninterference standard. For these reasons, we are adopting the suggested "sensoring" requirement as an adjunct to the protection of voice transmissions.

5. Another proposal designed to reduce interference would limit the length of a nonvoice transmission together with automatic repeats to not more than 2 seconds duration. Speed Call Corporation (formerly Dynacoustics Laboratories, Inc), the original petitioner in this proceeding, had proposed a 3-second transmission time but now contends that even 3 seconds "would tend to inhibit unnecessarily" nonvoice communications. It maintains that "the only perceivable purpose of restriction on the duration of the tones is to prevent overwhelming or encroachment upon the primary voice uses" which "can be accomplished by electronic monitoring" of channel occupancy. Another objection was from SEACO–Computer Display and Northern California APCO who believe that time limitations on nonvoice transmissions should not be adopted until experience dictates what the standard should be.

6. The Commission does not agree with these views. We share the opinion expressed in many of the comments that 2 seconds provides an adequate and reasonable transmission period for accommodating the limited types of nonvoice communications contemplated by this proceeding and will encourage the use of more efficient digital systems as opposed to tone systems that require somewhat longer transmission times. Consequently, the 2-second limitation should not unduly restrict nonvoice operations. The time limit will help, however, to reduce potential interference from devices that utilize excessive redundancy and will contribute to maximizing efficiency in the use and development of nonvoice techniques. We are, therefore, adopting the 2-second limitation.

7. One other provision related to protection of voice operations was the proposal that nonvoice users have a primary voice requirement. While this requirement would no doubt help to preserve voice systems on land mobile frequencies, it would also, as stated by the Association of American Railroads, "appear to prohibit the obtaining of licenses under this rule for controlling the movement of locomotives and trains * * * because * * * a frequency used for this purpose could not be used for simultaneous voice emissions in any given geographical area." A similar issue was raised by Phelps Dodge and Wisconsin Power and Light Co. with respect to remote control of railroad cars in open pit mining operations.[3] The Commission finds that the noninterference requirements which we have already determined to adopt will afford sufficient protection to voice systems. Imposing a primary voice requirement would not add significantly to that measure of protection. Therefore, we are deleting the proposed primary voice requirement to permit the operations described for railroad and mining activities and other similar purposes where the use of voice transmissions would not be necessary.

8. The Commission asked for comments concerning standardized use of the ASCII[4] code to transmit nonvoice instructions, canned messages and identification. There was no support for this requirement. It was argued that a standard code is premature, that the ASCII code may be too sophisticated for many purposes, or, most importantly, that the ASCII code may not be the most efficient standard code available. The consensus was that nonvoice systems should be permitted to develop and be proven in operation before standardization can be attempted. The Special Industrial Radio Association for example refers to the need for "maximum flexibility in the development of equipment and operating techniques", while RYDAX Inc. suggests that "it would be better if industry groups could be persuaded to make recommendations on details of modulation and codes" before adopting standards. In light of these factors, we have determined not to standardize on a nonvoice coding system for message content at the present time. Instead, for these communications, licensees will be permitted to use codes of their choice which should be described as an attachment to applications.

9. The use of nonstandard codes for required station identification is a different problem. The Commission cannot meet its regulatory responsibility by permitting different codes for identification since it is neither practical nor possible to equip our monitoring staff to interpret the multiplicity of codes that might be used if no limitation was placed upon station identification. For now, therefore, required station identification of nonvoice operations will have to be made by voice. Fortunately, as noted by Aeronautical Radio, Inc.: "Most, if not all, nonvoice systems will be used in conjunction with a voice system which could be used for unambiguous station identification." Nevertheless, the Commission recognizes that voice identification is inefficient and burdensome. Consequently, we expect to propose in the near future a requirement that land mobile stations be automatically identified. Until this requirement can be put into effect, to somewhat offset the deficiencies of voice identification methods, we are providing that base and mobile stations may be identified by the base station alone even when the mobile units operate on a different frequency.

10. A number of the comments raised issues which the Commission is not going to attempt to deal with in this proceeding. One question commonly posed was whether or not different, perhaps less stringent, nonvoice standards should be adopted for public safety services than for the other categories of land mobile services. There were also suggestions for additional operating standards such as the possibility of imposing a delay requirement between the 2-second nonvoice transmission, or limiting the repetition rate of these communications. The point is, however, that, as with regard to the question of whether to adopt the ASCII code requirement, these problems and similar matters in the comments can not be satisfactorily resolved at this time. It is simply too soon to determine or evaluate the effects of widespread nonvoice operations on land mobile voice channels. That there will be difficulties and that changes will be necessary appears inevitable. For example, the limitations adopted to protect voice operations from nonvoice transmission are reasonably consistent with the present relative status of these different modes. This does not mean, however, that if experience indicates the need for phasing out radio telephone on specific frequencies, this will not be done. On the contrary, the Commission intends regular review of practices and developments in this operational area to assure that changes of these kinds which prove warranted are promptly effected. Thus, the rules being adopted should be regarded as an operating plan for the immediate future only since they will be updated as necessary in a continuing effort to achieve optimum and effective utilization of land mobile frequencies.

11. In consideration of the foregoing, the Commission finds that amendment of its rules, essentially as proposed, to permit the operation of nonvoice radio systems on voice channels in the land mobile radio services is in the public interest and should be approved. *Accordingly, it is ordered,* That effective October 5, 1971, Parts 89, 91, and 93 of the Commission's rules are amended as shown in the attached Appendix II. *It is further ordered,* That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended. 1066, 1082; 47 U.S.C. 154, 303)

Adopted: August 18, 1971.

Released: August 23, 1971.

FEDERAL COMMUNICATIONS COMMISSION,[5]

[SEAL] BEN F. WAPLE, *Secretary.*

---

[1] A complete listing of the parties who submitted comments is contained in Appendix I.

[2] However, paging on a case-by-case basis, as now included under the general provisions of §§ 89.105(d), 91.103(b), and 93.103(b), is affected by necessary rule revisions. To assure that these paging operations can continue to be authorized without regard to the proposed rule revisions, an exception is being provided in the new rules.

[3] We are not concerned here with those activities which require a continuous carrier mode of operation. Those operations are covered in part by rules which became effective May 21, 1971 (Docket No. 18642, FCC 71-333), to permit expanded use of remote control and digital signaling devices utilizing low power on certain 150 and 450 MHz frequencies in the Business Radio Service. Also, under consideration in a separate proceeding is a petition (RM-1548) from the Association of American Railroads requesting expanded uses of radio for remote control of locomotives.

[4] American Standard Code for Information Interchange.

[5] Commissioner H. Rex Lee absent.

APPENDIX II

Parts 89, 91, and 93 of the Commission's Rules are amended as follows:

PART 89—PUBLIC SAFETY RADIO SERVICES

1. Section 89.105(d) is revised to read as follows:

§ 89.105 Types of emission.

* * * * *

(d) Except for tone paging utilization and except as otherwise provided in this part, use of A2, A9, F2, or F9 emission (audio frequency tone shift or tone phase shift) by stations in these services may be authorized only in accordance with the following limitations and requirements:

(1) Authorizations are limited to mobile service frequencies below 950 MHz.

(2) Operations must be on a secondary, non-interference basis to any authorized radiotelephony operation.

(3) Sensoring or monitoring devices must be employed to minimize interference to co-channel transmissions and shall be incorporated as automatic circuitry in the associated receiver to prevent non-voice signaling in the presence of another signal.

(4) Maximum duration of a non-voice transmission, including automatic repeats, may not exceed 2 seconds.

(5) Required station identification for non-voice operations must be made by A3 emission and may be given by the base station for a base-mobile system.

(6) Applications to use non-voice operations must include detailed description of the coding system(s) to be employed for message content.

PART 91—INDUSTRIAL RADIO SERVICES

2. Section 91.103(b) is revised to read as follows:

§ 91.103 Types of emission.

• • • • •

(b) Except for tone paging utilization and except as otherwise provided in this part, use of A2, A9, F2, or F9 emission (audio frequency tone shift or tone phase shift) by stations in these services may be authorized only in accordance with the following limitations and requirements:

(1) Authorizations are limited to mobile service frequencies below 950 MHz.

(2) Operations must be on a secondary, non-interference basis to any authorized radiotelephony operation.

(3) Sensoring or monitoring devices must be employed to minimize interference to co-channel transmissions and shall be incorporated as automatic circuitry in the associated receiver to prevent non-voice signaling in the presence of another signal.

(4) Maximum duration of a non-voice transmission, including automatic repeats, may not exceed 2 seconds.

(5) Required station identification for non-voice operations must be made by A3 emission and may be given by the base station for a base-mobile system.

(6) Applications to use non-voice operations must include detailed description of the coding system(s) to be employed for message content.

PART 93—LAND TRANSPORTATION RADIO SERVICES

3. Section 93.103(b) is revised to read as follows:

§ 93.103 Types of emission.

• • • • •

(b) Except for tone paging utilizations and except as otherwise provided in this Part, use of A2, A9, F2, or F9 emission (audio frequency tone shift or tone phase shift) by stations in these services may be authorized only in accordance with the following limitations and requirements:

(1) Authorizations are limited to mobile service frequencies below 950 MHz.

(2) Operations must be on a secondary, noninterference basis to any authorized radiotelephony operation.

(3) Sensoring or monitoring devices must be employed to minimize interference to co-channel transmissions and shall be incorporated as automatic circuitry in the associated receiver to prevent nonvoice signaling in the presence of another signal.

(4) Maximum duration of a nonvoice transmission, including automatic repeats, may not exceed 2 seconds.

(5) Required station identification for nonvoice operations must be made by A3 emission and may be given by the base station for a base-mobile system.

(6) Applications to use nonvoice operations must include detailed description of the coding system(s) to be employed for message content.

Title 49—TRANSPORTATION

Chapter III—Federal Highway Administration, Department of Transportation

SUBCHAPTER B—MOTOR CARRIER SAFETY REGULATIONS

[Docket No. MC-7; Notice 71-21]

APPENDIX C—QUESTIONS FOR WRITTEN EXAMINATION

The Director, Bureau of Motor Carrier Safety, is revising Appendix C to the Motor Carrier Safety Regulations for the purpose of taking into account recent amendments to the regulations and in order to clarify some questions found to be unclear. Since this amendment imposes no additional burden on any person and does not affect substantive rights, duties, or obligations, notice and public procedure are unnecessary, and it is effective upon publication in the FEDERAL REGISTER (8-26-71).

In consideration of the foregoing, Appendix C to Subchapter B in Chapter III of Title 49 CFR is revised to read as set forth below.

(Sec. 204, the Interstate Commerce Act, 49 U.S.C. 304; sec. 6, Department of Transportation Act, 49 U.S.C. 1655; delegations of authority at 49 CFR 1.48 and 389.4)

Issued on August 18, 1971.

KENNETH L. PIERSON,
Acting Director,
Bureau of Motor Carrier Safety.

APPENDIX C—(REVISED 7/71) QUESTIONS FOR WRITTEN EXAMINATION

As required in § 391.35, the written examination shall consist of at least 30 questions, and they shall be chosen in such manner as to test the examinee's knowledge of Parts 390-397 of the Motor Carrier Safety Regulations (and Hazardous Materials Regulations, if the examinee may drive a vehicle transporting hazardous materials).

Questions shall be taken from those formulated below and reproduced in such form and manner as to be answered True or False. Each question is preceded by the applicable section of the Motor Carrier Safety Regulations and the correct answer in parentheses.

Sections	*Questions*
391.1(b) (True)	A motor carrier may require drivers to meet additional or more stringent requirements than those in the Federal regulations.
391.1(c) (True)	A motor carrier who employs himself as a driver must comply with both the rules in this part that apply to motor carriers and the rules in this part that apply to drivers.
391.11(b)(1) (True)	A driver engaged in over-the-road interstate transportation must be at least 21 years of age.
391.11(b)(2) (True)	A driver must be able to understand highway traffic signs in the English language.
391.15(b)(2) (False)	Under the Motor Carrier Safety Regulations, a driver's traffic record does not affect his qualification to drive in interstate commerce.
391.15(b)(2) (False)	A driver may drive a commercial vehicle in interstate commerce if his State operator's license has been suspended.
391.41(a) (True)	A driver required to have a physical examination must carry on his person the Medical Examiner's Certificate or a photographically reproduced copy of the certificate whenever he is on duty.
391.41(b)(3) (True)	A person who has diabetes and must take insulin for its control is not qualified to drive a commercial vehicle.
391.41(b)(10) (False)	A driver who cannot distinguish the colors red, green, and amber, is qualified to drive.
391.41(b)(10) (True)	A driver is qualified even though he must wear corrective lenses to meet minimum vision requirements.
391.41(b)(11) (True)	A driver is qualified even though he needs to use a hearing aid to meet the minimum hearing level.
391.41(12) (True)	A driver may not be addicted to or use narcotics or habit-forming drugs.
391.45(b) (True)	A driver must be physically examined at least every 24 months.
391.45(c) (True)	If a driver suffers a physical or mental injury or impairment which could affect his ability to perform normal duties, he must undergo a new physical examination and recertification before returning to driving.
392.1 (True)	A driver must be familiar with the rules set forth in the Motor Carrier Safety Regulations.
392.2 (False)	A driver may exceed the posted speed limit if he is late and must make a scheduled arrival.
392.2 (False)	A driver operating in interstate commerce is required to comply with only Federal regulations, not State laws.
392.3 (False)	A driver may continue to drive if he is ill or fatigued in order to complete his run.
392.5(a)(2) (False)	A driver may drink an alcoholic beverage while on duty.
392.9 (True)	No motor vehicle shall be driven unless the driver assures himself that the emergency equipment (fire extinguishers, flares, flags, etc.) is in place and ready for use.
392.9(a) (True)	A driver may not drive if the load or other objects obscure his view or interfere with his driving.

Sections	*Questions*
392.9(c) (True)	If the emergency equipment or exit from the cab is blocked by a person, cargo, or other objects, the driver may not operate the unit.
392.9(e) (False)	A driver of a bus transporting passengers need not be concerned with the loading of baggage, miscellaneous express, or freight aboard the vehicle.
392.10 (False)	All commercial motor vehicles must stop at railroad crossings.
392.11 (True)	The driver of a vehicle approaching a railroad crossing, who is not required to stop, should slow down so that he can stop in the event of danger before he reaches the rails and should proceed only if it is safe to cross.
392.15(e) (True)	Drivers shall not use turn signals as "do pass," or "okay to pass" for vehicles approaching from the rear.
392.21 (False)	There are no regulations for parking of trucks in the Motor Carrier Safety Regulations.
392.22(c)(1).(2) (True)	If your vehicle becomes disabled, an emergency signal must be placed at a minimum of 100 feet to the front, another 10 feet from the rear, and a third 100 feet to the rear of the disabled vehicle on a straight and level road.
392.25 (False)	Flame-producing emergency signals may be carried on motor vehicles transporting explosives.
392.33 (True)	A motor vehicle may not be driven if any of the required lights or reflectors are obscured by dirt or part of the load.
392.40(e) (True)	A driver must report all details of an accident in which he is involved, to the motor carrier employing him, regardless of the amount of property damage.
392.41 (True)	After his vehicle strikes a parked vehicle, a driver must stop immediately and attempt to locate the owner of the parked vehicle.
392.41 (False)	If, after striking a parked vehicle, the driver has been unable to find the owner or operator, he can leave the scene without taking any further action.
392.42 (True)	If a driver receives a notice that his license, permit, or privilege to operate a motor vehicle has been revoked, suspended, or withdrawn, he must notify the carrier that employs him before the end of the following business day.
392.50(b) (False)	A driver may smoke in the vicinity of his vehicle while it is being fueled.
392.60 (False)	There are no restrictions in the Motor Carrier Safety Regulations preventing a driver from transporting passengers on a vehicle other than a bus.
392.62 (True)	No driver, while driving a bus, may engage in any unnecessary conversation or other activities tending to distract his attention from the operation of the bus.
392.65 (True)	If there is direct access between the sleeper berth and a cab, a driver does not have to stop the vehicle when the co-driver enters or leaves the sleeper berth.
392.68 (False)	A driver may disengage the gears while going down a slight grade in order to pick up speed.
393.1 (True)	The regulations prohibit driving a motor vehicle if certain of its parts and accessories are not in working order.
393.12(a) (True)	All buses and trucks over 80 inches wide must have three identification lamps mounted on the vehicle centerline.
393.18(d) (False)	During hours of darkness, loads projecting beyond the sides and over 4 feet beyond the rear of a motor vehicle must be marked by red flags only.
393.32 (True)	Detachable connections cannot be made by twisting together wires from the towed and towing units.
393.41(a) (True)	Parking brakes must be adequate to hold the vehicle on any grade on which it is operated.
393.42(c) (False)	Truck-tractors having only two axles need not have brakes on the front wheels.
393.43(d) (True)	Trailer brakes must automatically apply when the trailer "breaks loose" from the tractor.
393.60(c) (False)	Labels and stickers required by law may be affixed at the top of motor vehicle windshields.
393.65(e)(1) (True)	The filing opening of every fuel tank must be covered by a secure cap or similar device.
393.70(f)(5) (True)	Full trailers and converter dollies must have safety chains in addition to the tow bar, attaching them to the towing vehicle.
393.77(a)(6) (False)	Portable heaters may be used in the cabs of motor vehicles.
393.80 (False)	Only one rear vision mirror is required on all motor vehicles.
393.82 (True)	All vehicles must be equipped with a speedometer, except driveway-towaway operations.
393.95(a) (True)	All vehicles must be equipped with fire extinguishers.
393.95(d) (True)	Tire chains must be carried when a driver is likely to encounter conditions requiring their use.
393.95(f)(3) (True)	Three red emergency reflectors and two red flags provide adequate warning devices for a stopped or disabled vehicle.
393.96(c) (False)	First aid kits are required on all motor vehicles.
395.1 (False)	Drivers shall be familiar with the rules governing the hours-of-service limitations.
395.1(a)(1) (False)	If a dispatcher notifies you that your truck will not be ready for an hour but that you must stand by until it is ready, your time waiting for the truck is logged as off-duty.
395.2(a)(1) (False)	A driver awaiting dispatch at a carrier's terminal may show his time as off-duty time.
395.2(a)(2) (False)	Time spent inspecting or servicing your vehicle is off-duty time.
395.2(a)(4) (True)	In a two-man operation using a conventional cab truck or tractor not equipped with a sleeper berth, time spent by each occupant riding but not driving would be logged as on-duty time.
395.2(a)(5) (False)	Time spent loading or unloading a vehicle may be logged as off-duty time.
395.2(a)(7) (True)	Time spent at the scene of a breakdown, or repairing vehicle must be logged as on-duty time.
395.2(g) (False)	A driver may use the seat of his vehicle as a sleeper berth and log his time in it as sleeper berth time.
395.3(a) (False)	A driver may drive after having been on duty for 15 hours.
395.3(a) (True)	Off-duty time may be spent resting in a sleeper berth in two periods, neither of which is less than 2 hours.
395.3(a) (False)	Local drivers are not subject to the hours-of-service regulations.
395.3(b) (True)	A driver may not be on duty more than 60 hours in any period of 7 consecutive days, or 70 hours in any 8 consecutive days in the case of a carrier who operates every day of the week.
395.8(a) (True)	Drivers are required to make true and accurate entries on their logs.
395.8(a) (False)	Failure to make logs when required, or making false entries on the logs, make both the driver and the carrier liable to prosecution.
395.8(a) (True)	A driver is accountable for each entry he makes on his daily log even when he makes entries under company instructions.

Sections	Questions
395.8(b) (True)	A driver's logs must be kept current to the time of his last change of duty status.
395.8(c) (True)	A driver must make out his logs in his own handwriting.
395.8(r) (False)	A driver may wait until the end of a trip to make out his logs even if the trip takes 2 or more days.
395.8(r) (True)	When drivers' logs are required, the driver must forward the original of his log to the carrier each day.
395.8(s) (False)	A driver must retain a duplicate copy of each daily log for 30 days in his files at home.
395.8(t) (True)	If all of your driving is wholly within a 50-mile radius of your home terminal and the carrier keeps required records you do not have to keep a daily log.
395.13 (True)	If a driver is stopped during a road check and is found to be in violation of the on-duty or driving time rules, he may be placed "out of service" at that point.
396.4 (False)	If a motor vehicle, being operated on a highway, is discovered to be in an unsafe condition, likely to be hazardous or to result in a breakdown, the driver may continue to operate it to the carrier's terminal or shop facility, if the terminal or shop is within 200 miles.
396.4 (False)	A driver may drive a motor vehicle, which by reason of its mechanical condition is so imminently hazardous as to be likely to cause an accident or breakdown, if he has reported the vehicle's condition to his supervisor.
396.5(a) (True)	Certain representatives of the Bureau of Motor Carrier Safety are authorized to inspect vehicles and cargo of motor carriers in operation.
396.5(c)(1) (True)	Representatives of the Bureau of Motor Carrier Safety may declare a motor vehicle "out of service" if, by reason of its mechanical condition or loading, it is so imminently hazardous as to be likely to cause an accident or a breakdown.
396.5(c)(2) (False)	Vehicles that have been marked "out of service" may be operated before necessary repairs have been made.
396.5(c)(4) (True)	Only the person who makes the repairs may certify that the repairs required by an out-of-service notice have been completed.
396.5(c)(4) (True)	The Motor Carrier Safety Regulations allow drivers to make repairs to their vehicles if assistance is not readily available.
396.6 (True)	Motor vehicles damaged in an accident may not be driven until a qualified inspector determines that they are in safe operating condition.
396.7 (True)	Drivers are required to prepare written daily vehicle condition reports.
396.7 (False)	A written vehicle condition report need not be prepared by a driver who informs his shop steward of all defects or deficiencies of the motor vehicle within two hours after returning to the terminal or shop facility.
397.1(a) (False)	The rules in Part 397, Transportation of Hazardous Materials; Driving and Parking Rules, do not apply to over-the-road drivers (interstate), only to city deliveries.
397.1(a)(1) (False)	Motor carriers are not required to instruct their employees about the hazardous materials regulations.
397.5(a) (True)	Motor vehicles transporting Class A or Class B explosives must be attended at all times.
397.5(c) (False)	Motor vehicles transporting dangerous articles other than explosives may never be left unattended upon any public street or highway.
397.9(a) (True)	Motor vehicles transporting explosives and other dangerous articles must avoid congested places, unless there is no practicable alternative.
397.13 (False)	Smoking is permitted on any motor vehicle transporting hazardous materials.
397.15(b) (True)	When a motor vehicle, which contains hazardous materials is being fueled, a person must be in control of the fueling process at the point where the fuel tank is filled.
177.817(c) (True)	When transporting dangerous articles, a driver must have in his possession a shipping paper which shows the proper name and classification of the article in transit.
177.823(a)(3) (True)	When required, hazardous material placards must be on both sides, front and rear of the vehicle.
177.823(b)(1) (True)	A tank vehicle used exclusively for transporting gasoline or other flammable liquids must be marked or placarded, whether it is loaded or empty.
177.823(d) (True)	All hazardous material placards must be removed from van-type trailer after a hazardous commodity is unloaded from the trailer.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 32—HUNTING

Certain Wildlife Refuges in Kansas, New Mexico, and Oklahoma

The following special regulations are issued and are effective on date of publication in the FEDERAL REGISTER (8–26–71).

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

KANSAS

FLINT HILLS NATIONAL WILDLIFE REFUGE

Public hunting of teal ducks on the Flint Hills National Wildlife Refuge, Kans., is permitted from September 4 through September 12, 1971, inclusive, but only on the area designated by signs as open to hunting. This open area, comprising 5,165 acres, is delineated on maps available at refuge headquarters, Burlington, Kans., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, NM 87103. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of teal ducks subject to the following special conditions:

(1) Vehicle access shall be restricted to designated parking areas and to existing roads.

(2) Blind construction by the public is permitted but limited to temporary above-ground construction. Blind construction does not constitute a reservation of hunting space. Daily occupancy of blinds erected on refuge hunting units will be determined on a first-come first-served basis.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 12, 1971.

KIRWIN NATIONAL WILDLIFE REFUGE

Public hunting of teal ducks on the Kirwin National Wildlife Refuge, Kans., is permitted from September 4 through September 12, 1971, inclusive, but only on the area designated by signs as open to hunting. This open area, comprising 3,300 acres, is delineated on maps available at refuge headquarters, 5 miles west of Kirwin, Kans., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, NM 87103. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of teal ducks subject to the following special condition:

(1) Temporary blinds, constructed above ground from natural vegetation, are permitted. Digging of holes or pits to serve as blinds is prohibited.

QUIVIRA NATIONAL WILDLIFE REFUGE

Public hunting of teal ducks on the Quivira National Wildlife Refuge, Kans., is permitted from September 4 through September 12, 1971, inclusive, but only on the areas designated by signs as open to hunting. This open area, comprising 7,990 acres, is delineated on maps available at refuge headquarters, Stafford, Kans., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, NM 87103. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of teal ducks.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 12, 1971.

NEW MEXICO

BITTER LAKE NATIONAL WILDLIFE REFUGE

Public hunting of teal ducks on the Bitter Lake National Wildlife Refuge, N. Mex., is permitted from September 18 through September 26, 1971, inclusive, but only on the area designated by signs as open to hunting. This open area, comprising 3,320 acres in hunting areas B and C, is delineated on maps available at refuge headquarters, Roswell, N. Mex., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, NM 87103. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of teal ducks.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through September 19, 1971.

W. O. NELSON, Jr.,
Regional Director,
Albuquerque, N. Mex.

AUGUST 20, 1971.

[FR Doc.71-12503 Filed 8-25-71;8:49 am]

PART 32—HUNTING

Lacreek National Wildlife Refuge, S. Dak.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (8–26–71).

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

SOUTH DAKOTA

LACREEK NATIONAL WILDLIFE REFUGE

Public hunting of upland game on the Lacreek National Wildlife Refuge, S. Dak., is permitted only on the areas designated by signs as open to hunting. The two open areas; Little White Recreation Area (310 acres) and Habitat Unit 10 (1,000 acres) are delineated on a map available at the refuge headquarters, Martin, S. Dak. 57551 and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of upland game subject to the following special conditions:

Little White River Recreation Area

(a) Species permitted to be taken: Pheasants and grouse (sharp-tailed and pinnated) during the seasons specified below.

(b) Open season: Grouse—from sunrise to sunset each day from September 18 through October 31, 1971; Pheasants from noon to sunset daily from October 16 through October 31, 1971.

(c) The hunting of other upland species, as may be authorized by South Dakota State regulations, is permitted from October 16 through October 31, 1971

Habitat Unit 10

(a) Species permitted to be taken: Pheasants during the season specified below. The hunting of other upland species, as may be authorized by South Dakota State regulations, is prohibited.

(b) Open season: Pheasant—from noon to sunset daily from October 16 through October 31, 1971.

(c) Hunting will be allowed by special permit only. Hunting permits will be issued at designated entrances to the hunting area.

The provision of this special regulation supplement the regulations which govern hunting in wildlife refuge area generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 21, 1971.

VICTOR M. HALL,
Refuge Manager, Lacreek National Wildlife Refuge, Martin, S. Dak.

AUGUST 18, 1971.

[FR Doc.71-12509 Filed 8-25-71;8:49 am]

PART 32—HUNTING

Long Lake National Wildlife Refuge, N. Dak.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (8–26–71).

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NORTH DAKOTA

LONG LAKE NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Long Lake National Wildlife Refuge, N. Dak., is permitted only on the area designated by signs as open to hunting. This open area, comprising approximately 19,500 acres, is delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer subject to the following conditions:

(1) Hunting is permitted from 12 noon to sunset November 12, 1971, and from sunrise to sunset November 13, 1971, through November 21, 1971.

(2) All hunters must exhibit their hunting license, deer tag, game and vehicle contents to Federal and State officers upon request.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 21, 1971.

LOUIS S. SWENSON,
Refuge Manager, Long Lake National Wildlife Refuge, Moffit, N. Dak.

AUGUST 19, 1971.

[FR Doc.71-12508 Filed 8-25 71:8:49 am]

PART 32—HUNTING

National Elk Refuge, Wyo.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (8–26–71).

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

WYOMING

NATIONAL ELK REFUGE

Public hunting of elk on the National Elk Refuge, Wyo., is permitted from October 16, 1971, through November 5, 1971, only on the area designated by

signs as open to hunting. This open area, comprising 18,247 acres is delineated on maps available at refuge headquarters, Jackson, Wyo., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, NM 87103. Hunting shall be in accordance with all applicable State regulations covering the hunting of elk subject to the following special conditions:

(1) A special permit is required in addition to a valid 1971 State elk hunting license. Sixty special permits shall be issued to applicants by drawing at refuge headquarters at 12:30 p.m. on Friday, October 15, 1971, and every Friday thereafter through October 29, 1971. Permits are good for 1 week only.

(2) Access to the refuge shall be only through the main gate east of refuge headquarters in Jackson.

(3) Motorized vehicle travel in the hunting area is restricted to the roads designated by appropriate signs and delineated on maps available at refuge headquarters. This is interpreted to mean that motor vehicles may not leave designated roadways for the purpose of loading or picking up a kill.

(4) Persons without permits may accompany special permit holders in the same vehicle but only permit holders are allowed to possess a firearm.

(5) Persons successful in drawing a permit may not draw again in succeeding weeks.

(6) Permits will be revoked in the event of a violation of refuge regulations and violations can result in denial of future privileges as per the Code of Federal Regulations.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 5, 1971.

DON E. REDFAERN,
Refuge Manager, National Elk Refuge, Jackson, Wyo.

AUGUST 16, 1971.

[FR Doc.71-12510 Filed 8-25-71;8:49 am]

PART 32—HUNTING

Slade National Wildlife Refuge, N. Dak.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (8-26-71).

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NORTH DAKOTA

SLADE NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Slade National Wildlife Refuge, N. Dak., is permitted only on the area designated by signs as open to hunting. This open area, comprising 2,840 acres, is delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer subject to the following conditions:

(1) Hunting is permitted from 12 noon to sunset November 12, 1971, and from sunrise to sunset November 13, 1971, through November 21, 1971.

(2) All hunters must exhibit their hunting license, deer tag, game and vehicle contents to Federal and State officers upon request.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 21, 1971.

LOUIS S. SWENSON,
Refuge Manager, Slade National Wildlife Refuge, Dawson, N. Dak.

AUGUST 19, 1971.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Emergency Preparedness

[OEP Economic Stabilization Reg. 1; Circular No. 2]

SUPPLEMENTARY GUIDANCE FOR APPLICATION

Economic Stabilization Circular No. 2

This circular is designed for general information only. The statements herein are intended solely as general guides drawn from OEP Economic Stabilization Regulation No. 1 and from specific determinations by the Cost of Living Council and do not constitute legal rulings applicable to cases which do not conform to the situations clearly intended to be covered by such guides.

NOTE: Provisions of this and subsequent circulars are subject to clarification, revision, or revocation.

This second circular covers determinations by the Council from August 21, 1971, through August 24, 1971.

APPENDIX I

ECONOMIC STABILIZATION CIRCULAR NO. 2

100. *Purpose.* (a) On August 15, 1971, President Nixon issued Executive Order No. 11615 providing for stabilization of prices, rents, wages, and salaries, and establishing the Cost of Living Council, a Federal agency. The order delegated to the Council all of the powers conferred on the President by the Economic Stabilization Act of 1970, as amended.

(b) By its order No. 1 the Council delegated to the Director of the Office of Emergency Preparedness authority to administer the program for the stabilization of prices, rents, wages, and salaries as directed by section 1 of Executive Order No. 11615.

(c) The purpose of this circular, the second in a series to be issued, is to furnish guidance to Federal officials and the public in order to promote maximum understanding and cooperation in the application of the program.

200. *Authority.* Relevant legal authority for the program includes the following:

The Constitution
Economic Stabilization Act of 1970, Public Law 91-379, 84 Stat. 799; Public Law 92-15, 85 Stat. 38.
Executive Order No. 11615, 36 F.R. 15127, August 17, 1971.
Cost of Living Council Order No. 1.
OEP Economic Stabilization Regulation No. 1, as amended (36 F.R. 16515, August 21, 1971).

300. *General guidelines.* (a) The guidance provided in this circular is in the nature of additions to or clarifications of previous determinations of the Cost of Living Council covered in OEP Economic Stabilization Circular No. 1.

(b) The numbering system used in this circular corresponds to that used in OEP Economic Stabilization Circular No. 1.

400. *Price guidelines.*

406. *Commodities and services.* (a) The rate for renewal of insurance policies may be increased if the rate was announced prior to August 15, 1971, and a substantial number of transactions occurred at the increased rate. No additional increases in rates are permitted during the freeze.

(b) Service charges and other fees charged by banks (for example, safe deposit boxes) are subject to the freeze.

(c) The fees or charges which a State or local government charges for water, gas, sewer, and similar services may not be increased during the freeze. However, fees for licenses or legal penalties, such as traffic tickets, may be increased.

(d) Utility rates and transportation fares are covered by the freeze.

(e) Prices to be charged for items such as second-hand furniture shall be determined on the basis of what comparable items were sold for during the base period (usually July 15 to August 14, inclusive). In such cases, the facts determining the price arrived at should be kept as a matter of record.

(f) Prices of school lunches which are supported by the Department of Agriculture are covered by the freeze.

(g) The food industry relies heavily on promotional discounts to encourage retailers to carry a particular item. When such discounts were offered in the month prior to August 15, must they be continued through the entire freeze period?

The answer depends on the price at which substantial transactions were made in the firm's normal marketing area during the base period. If an item was discounted to certain retailers within a marketing area who had not previously carried the item while substantial transactions were also being made to other retailers in the same marketing area at regular prices, the price can be increased to the nondiscounted rate. Otherwise, the discounts must be offered throughout the freeze.

(h) Rate increases on maritime freight which were filed before the freeze to take effect on September 1 and October 1, 1971, will not be allowed to take effect as scheduled.

500. *Wage and salary guidelines.*

501. *Specific guidelines.* (a) Military pay is subject to the terms and conditions of the President's freeze on wage increases. Military personnel who qualify for proficiency pay increases and similar learning pay programs of the military will be treated in the same manner as civilians are treated, i.e., increases will be authorized if the person has increased his proficiency or has been promoted to a new position.

Exemptions. Certain exemptions are granted to the military: Pay for personnel in the combat zone, missing in action personnel, prisoners of war and hospitalized war casualties are exempted from the freeze and their increases may go into effect as scheduled.

In addition, benefits for military personnel placed in a retired status during the freeze period will be computed and paid as if the freeze were not in effect on the date of their establishing that status.

(b) If a firm has a range of salaries for the same job, the employee may be paid any salary within the range which the qualifications of the applicant justify as long as the average wage paid by the firm in this job classification does not increase.

(c) Wage increases may be granted during the freeze for workers whose wages are closely tied to increases for other workers that were negotiated before the freeze if the following conditions prevail:

(1) The agreement to which the increases are linked was reached before August 15;

(2) Prior to August 15, work was performed (by the workers whose wages are closely tied to the increases reached before the freeze) that would be eligible for payment at the new rate;

(3) The increased wage rate for the workers whose wages are closely tied to negotiated increases was scheduled to go into effect on the same day as the negotiated wage increases as a matter of established practice;

(4) The workers are employees of the same firm; and

(5) The company is able to demonstrate that this procedure is an established practice.

(d) Previously planned increases in pension benefits for those retired before the freeze or those about to retire are allowed, but unplanned increases are not allowed. For example, a scheduled increase in pensions which is planned for October 1 may go into effect. A person who retires on October 15 may also receive this increase.

(e) Fringe benefits are considered a form of compensation and cannot be raised during the freeze period.

(f) A company cannot institute a previously planned profit sharing program during the freeze. Such a program is considered to be a fringe benefit and cannot be increased from the base period level during the freeze.

(g) Welfare payments are not payments for services rendered and therefore are not wages.

(h) Teachers who were eligible to be paid over a 12-month period but in fact are being paid over a 10-month period are eligible for a pay raise which was in effect in the school district before August 15, 1971.

600. *Rent guidelines.*

602. *Specific guidelines.* (a) If a tenant's lease expires during the freeze, his rent cannot be raised to the level which is being paid by new tenants in similar units.

(b) Stated-aided and Federal low-rent housing programs mandate that rents raise according to the income of the individual. Therefore, under these programs, increases in rentals tied to family incomes at rates established prior to August 15, 1971, will be permitted as long as rates per given amount of family income are not raised.

1001. *Effective date.* This circular, unless modified, superseded or revoked, is effective on the date of publication for a period terminating on November 12, 1971.

Dated: August 25, 1971.

G. A. LINCOLN,
Director, Office of Emergency Preparedness.

[FR Doc.71-12630 Filed 8-25-71;12:06 pm]

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Parts 1, 13]

INCOME TAX

Amortization of Certain Railroad Rolling Stock

Notice is hereby given that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, preferably in quintuplicate, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by September 27, 1971. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by September 27, 1971. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

In order to conform the Income Tax Regulations (26 CFR Part 1) to the amendments made by the portion of section 705 of the Tax Reform Act of 1969 (83 Stat. 670) relating to amortization of certain railroad rolling stock, such regulations are amended as set forth hereinafter. Section 1.184-5 of the regulations hereby adopted supersedes those provisions of § 13.0 of Temporary Income Tax Regulations Under the Tax Reform Act of 1969 (26 CFR Part 13), relating to section 184(b) of the Internal Revenue Code of 1954, which were prescribed by T.D. 7032, approved March 9, 1970 (35 F.R. 4330).

PARAGRAPH 1. The following new sections are added immediately after § 1.182-6.

§ 1.184 Statutory provisions; amortization of certain railroad rolling stock.

SEC. 184. *Amortization of certain railroad rolling stock*—(a) *Allowance of deduction.* Every person, at his election, shall be entitled to a deduction with respect to the amortization of the adjusted basis (for determining gain) of any qualified railroad rolling stock (as defined in subsection (d)), based on a period of 60 months. Such amortization deduction shall be an amount, with respect to each month of such period within the taxable year, equal to the adjusted basis of the qualified railroad rolling stock at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in the period. Such adjusted basis at the end of the month shall be computed without regard to the amortization deduction for such month. The amortization deduction provided by this section with respect to any qualified railroad rolling stock for any month shall be in lieu of the depreciation deduction with respect to such rolling stock for such month provided by section 167. The 60-month period shall begin, as to any qualified railroad rolling stock, at the election of the taxpayer, with the month following the month in which such rolling stock was placed in service or with the succeeding taxable year.

(b) *Election of amortization.* The election of the taxpayer to take the amortization deduction and to begin the 60-month period with the month following the month in which the qualified railroad rolling stock was placed in service, or with the taxable year succeeding the taxable year in which such rolling stock is placed in service, shall be made by filing with the Secretary or his delegate, in such manner, in such form, and within such time, as the Secretary or his delegate may by regulations prescribe, a statement of such election.

(c) *Termination of amortization deduction.* A taxpayer which has elected under subsection (b) to take the amortization deduction provided by subsection (a) may, at any time after making such election, discontinue the amortization deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Secretary or his delegate before the beginning of such month. The depreciation deduction provided under section 167 shall be allowed, beginning with the first month as to which the amortization deduction does not apply, and the taxpayer shall not be entitled to any further amortization deduction under this section with respect to such rolling stock.

(d) *Qualified railroad rolling stock.* Except as provided in subsection (e)(4), the term "qualified railroad rolling stock" means, for purposes of this section, rolling stock of the type used by a common carrier engaged in the furnishing or sale of transportation by railroad and subject to the jurisdiction of the Interstate Commerce Commission if—

(1) Such rolling stock is—

(A) Used by a domestic common carrier by railroad on a full-time basis, or on a part-time basis if its only additional use is an incidental use by a Canadian or Mexican common carrier by railroad on a per diem basis, or

(B) Owned and used by a switching or terminal company all of whose stock is owned by one or more domestic common carriers by railroad, and

(2) The original use of such rolling stock commences with the taxpayer after December 31, 1968.

(e) *Special rules*—(1) *In general.* Except as otherwise provided in this subsection, this section shall apply to qualified railroad rolling stock placed in service after 1968 and before 1975.

(2) *Placed in service in 1969.* If any qualified railroad rolling stock is placed in service in 1969—

(A) The month as to which the amortization period shall begin with respect to such rolling stock shall be determined as if such rolling stock were placed in service on December 31, 1969, and

(B) Subsections (a) and (b) shall be applied by substituting "48" for "60" each place that it appears in such subsections.

This section shall not apply to any qualified railroad rolling stock placed in service in 1969 and owned by any person who is not a domestic common carrier by railroad, or a corporation at least 95 percent of the stock of which is owned by one or more such common carriers.

(3) *Placed in service in 1970.* If any qualified railroad rolling stock is placed in service in 1970 by a domestic common carrier by railroad or by a corporation at least 95 percent of the stock of which is owned by one or more such common carriers, then subsection (a) shall be applied, without regard to paragraph (2), as if such rolling stock were placed in service on December 31, 1969.

(4) *Railroad rolling stock not in short supply.* The Secretary or his delegate shall determine (with the assistance of the Secretary of Transportation) which types of railroad rolling stock are not in short supply and shall prescribe regulations designating such types. The term "qualified railroad rolling stock" shall not include any rolling stock which—

(A) Is of the type of rolling stock designated by such regulations as not in short supply, and

(B) Is placed in service after (i) 1972, or (ii) 30 days after the date on which such regulations are promulgated, whichever is later.

(5) *Adjusted basis.* (A) The adjusted basis of any qualified railroad rolling stock, with respect to which an election has been made under this section, shall not be increased, for purposes of this section, for amounts chargeable to capital account for additions or improvements after the amortization period has begun.

(B) Costs incurred in connection with a used unit of railroad rolling stock which are properly chargeable to capital account shall be treated as a separate unit of railroad rolling stock for purposes of this section.

(C) The depreciation deduction provided by section 167 shall, despite the provisions of subsection (a), be allowed with respect to the portion of the adjusted basis which is not taken into account in applying this section.

(6) *Constructive termination.* If at any time during the amortization period any qualified railroad rolling stock ceases to meet the requirements of subsection (d)(1), the taxpayer shall be deemed to have terminated under subsection (c) his election under this section. Such termination shall be effective beginning with the month following the month in which such cessation occurs.

(7) *Method of accounting for date placed in service.* For purposes of subsections (a) and (b), in the case of qualified railroad rolling stock placed in service after December 31, 1969, and before January 1, 1975, the taxpayer may elect (unless paragraph (3) is applicable), to begin the 60-month period with the date when such rolling stock is treated as having been placed in service under a method of accounting for acquisitions and retirements of property which—

(A) Prescribes a date when property is placed in service, and

(B) Is consistently followed by the taxpayer.

(f) *Life tenant and remainderman.* In the case of qualified railroad rolling stock leased to a domestic common carrier, and held by one person for life with remainder to another person, the deduction under this section shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant.

(g) *Cross reference.* For treatment of certain gain derived from the disposition of property the adjusted basis of which is determined with regard to this section, see section 1245.

[Sec. 184 as added by sec. 705, Tax Reform Act 1969 (83 Stat. 670)]

§ 1.184-1 Amortization of certain railroad rolling stock.

(a) *Allowance of deduction.*—(1) *In general.* (i) Under section 184(a), every person, at his election, shall be entitled to a deduction with respect to the amortization of the adjusted basis (as defined in § 1.184-4) of any qualified railroad rolling stock (as defined in § 1.184-2) placed in service after December 31, 1968, and before January 1, 1975, based on a period of 60 months (or 48 months if the rules in subparagraph (2) of this paragraph are applicable). Under section 184(b) and § 1.184-5, the taxpayer may elect to begin such 60-month period (or 48-month period, if applicable), either with the month following the month in which such railroad rolling stock is placed in service or with the first month of the taxable year succeeding the taxable year in which such railroad rolling stock is placed in service. However, a taxpayer may elect to begin amortization deductions on the date a unit of railroad rolling stock is deemed placed in service under certain consistently followed accounting conventions as described in paragraph (d) of § 1.184-3. See § 1.184-3 for rules regarding when a unit of railroad rolling stock is deemed placed in service for purposes of section 184 and this section.

(ii) Under section 184(c), a taxpayer which has elected to take the amortization deduction provided by section 184 (a) may, at any time after making such election and prior to the expiration of the amortization period, elect or be deemed to elect to discontinue the amortization deduction for the remainder of the amortization period in the manner prescribed in subparagraphs (1) and (2) of § 1.184-5(b) respectively. In addition, if on or before [the date of publication in the FEDERAL REGISTER of the regulations under section 184] an election under section 184(a) has been made, consent is hereby given to revoke such election without the consent of the Commissioner in the manner prescribed in paragraph (b)(3) of § 1.184.5.

(2) *Railroad rolling stock placed in service in 1969.* (i) In the case of qualified railroad rolling stock placed in service within the meaning of paragraph (a) of § 1.184-3 after December 31, 1968, and before January 1, 1970, section 184 and this section shall be applicable only with respect to such railroad rolling stock which is owned either by a domestic common carrier by railroad or by corporation of which at least 95 percent of each class of stock, voting and non-voting, is owned by one or more domestic common carriers by railroad. The stock ownership requirement in the preceding sentence must be met on the date the railroad rolling stock is placed in service (within the meaning of paragraph (a) of § 1.184-3) and at all times subsequent during the taxpayer's taxable year in which such railroad rolling stock is so placed in service. For any subsequent month for which the taxpayer claims amortization based on a period of 48 months such requirement must be met as of the beginning of such month. See paragraph (c) of § 1.184-2 for the definition of the term "domestic common carrier by railroad".

(ii) The amortization deduction under section 184 and § 1.184-1 with respect to such railroad rolling stock shall be determined based on a 48-month period rather than on a 60-month period. The month as to which the 48-month amortization period shall begin with respect to such railroad rolling stock shall be determined as if such railroad rolling stock were placed in service on December 31, 1969. See the rules in paragraph (b) of § 1.184-3.

(3) *Amount of deduction.* (i) With respect to each month of such 60-month (or 48-month) period which falls within the taxable year, such amortization deduction shall be an amount equal to the adjusted basis of the unit of qualified railroad rolling stock at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in such 60-month (or 48-month) period. For purposes of this paragraph, the adjusted basis at the end of any month shall be computed without regard to the amortization deduction for such month. The total amortization deduction with respect to a unit of qualified railroad rolling stock for a particular taxable year is the sum of the amortization deductions allowable for each month of the 60-month (or 48-month) period which falls within such taxable year.

(ii) If a unit of qualified railroad rolling stock is sold, exchanged, or otherwise disposed of during a particular month, the amortization deduction (if any) allowable to the original holder in respect of that month shall be that portion of the amount to which such person would be entitled for a full month which the number of days in such month during which the unit of qualified railroad rolling stock was held by such person bears to the total number of days in such month. See subparagraph (5)(ii) (of this paragraph for rules applicable in the case of certain corporate acquisitions.

(4) *Effect on other deductions.* (i) The amortization deduction provided by section 184 with respect to any railroad rolling stock for any month shall be in lieu of the depreciation deduction which would otherwise be allowable under section 167 for such month.

(ii) (*a*) Under section 184(e)(5)(C), if a portion of the adjusted basis (as determined under section 1011) of a unit of railroad rolling stock is not subject to amortization under section 184, such portion may be subject to an allowance for depreciation under section 167 and the regulations thereunder.

(*b*) For example, if a unit of used railroad rolling stock placed in service prior to January 1, 1969, with respect to which an election under section 184 cannot be made (see section 184(e)(1)), is reconstructed in 1971, the reconstruction expenditures which are treated as a separate unit of railroad rolling stock for purposes of section 184 under section 184(e)(5)(B) and § 1.184-4(b)(3) may be amortized under section 184. The portion of the adjusted basis which is not attributable to such reconstruction may continue to be depreciated over the period authorized under section 167.

(iii) See section 179 and paragraph (e)(1)(ii) of § 1.179-1 for additional first-year depreciation in respect of qualified railroad rolling stock.

(5) *Special rules.* (i) Under section 184(f), if qualified railroad rolling stock is leased to a domestic common carrier by railroad, and is held by one person for life with the remainder to another person, the amortization deduction under section 184(a) shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant during his life.

(ii) If the assets of a corporation which has elected to take the amortization deduction under section 184(a) are acquired by another corporation in a transaction to which section 381 (relating to carryovers in certain corporate acquisitions) applies, the acquiring corporation is to be treated as if it were the acquired corporation for purposes of this section.

(iii) For rules relating to the deduction for amortization under section 184 for estates and trusts, see section 642(f) and § 1.642(f)-1. For rules relating to amortization in the case of partnerships, see section 703 and § 1.703-1.

(iv) For rules relating to the treatment of certain gain derived from the disposition of property the adjusted basis of which is determined with regard to section 184, see section 1245 and the regulations thereunder.

(b) *Examples.* This section may be illustrated by the following examples:

Example (1). On September 30, 1971, the M Railroad, a domestic common carrier by railroad which is a calendar year taxpayer, placed in service a new boxcar, a unit of qualified railroad rolling stock, at a cost of $18,000. M Railroad elects to take amortization deductions with respect to the boxcar and to begin the 60-month amortization period with October 1971, the month following the month in which the boxcar was placed in service. The adjusted basis for purposes of computing the amortization deduction under section 184(a) at the end of October 1971 (determined without regard to the amortization deduction under section 184

(a) for that month) is $18,000. The allowable amortization deduction with respect to the boxcar for the taxable year 1971 is $900, computed as follows:

Monthly amortization deductions:	
October: $18,000 divided by 60	$300
November: $17,700 ($18,000 minus $300) divided by 59	300
December: $17,400 ($17,700 minus $300) divided by 58	300
Total amortization deduction for 1971	$900

Example (2). Assume the same facts as in example (1). Assume further that on November 10, 1971, the boxcar is materially damaged in a train wreck, as a result of which its adjusted basis is properly reduced by $8,850 pursuant to section 1016 and the regulations thereunder because of a deduction allowed under section 165. The allowable amortization deduction with respect to such boxcar for the taxable year ending December 31, 1971, is $600, computed as follows:

Monthly amortization deductions:	
October: $18,000 divided by 60	$300
November: $8,850 ($18,000 minus $300 and $8,850) divided by 59	150
December: $8,700 ($8,850 minus $150 divided by 58	150
Total amortization deduction for 1971	$600

Example (3). Assume in example (1) that M elects to begin the 60-month amortization period with January 1972, the taxable year succeeding the taxable year in which the railroad rolling stock is placed in service. M is entitled to take a deduction for depreciation of such railroad rolling stock for the taxable year 1971, such deduction being assumed for purposes of this example to be $1,500. Accordingly, the adjusted basis of such railroad rolling stock at the end of January 1973 (without regard to the amortization deduction for such month) is $16,500 ($18,000 minus $1,500). For the taxable year 1972, M is entitled to an amortization deduction of $3,300, computed as follows:

Monthly amortization deductions:	
January: $16,500 divided by 60	$275
February: $16,225 ($16,500 minus $275) divided by 59	275
March: $15,950 ($16,225 minus $275) divided by 58	275
For the remaining 9 months (similarly computed)	2,475
Total amortization deduction for 1972	$3,300

Example (4). Assume the same facts as in example (3). Assume further that on April 15, 1973, M properly files notice of its election to discontinue the amortization deduction beginning with the month of May 1973. The adjusted basis of the railroad rolling stock as of May 1, 1973, is $12,100, computed as follows:

Depreciation deduction for 1971 (see example (3))	$1,500
Yearly amortization deductions:	
1972 (as computed in example (3)) $3,300	
1973 (for the first 4 months of 1973 computed in accordance with with example (3)) 1,100	
Total amortization deductions for 16 months	$4,400
Total depreciation and amortization deductions	$5,900
Basis of railroad rolling stock	$18,000
Less: Depreciation and amortization deductions	5,900
Adjusted basis as of May 1, 1973	$12,100

Beginning as of May 1, 1973, the deduction for depreciation under section 167 is allowable with respect to the railroad rolling stock on its adjusted basis of $12,100.

§ 1.184–2 Definitions.

(a) *Qualified railroad rolling stock*—(1) *In general.* The term "qualified railroad rolling stock" means, for purposes of section 184 and section 1.184–1, railroad rolling stock (as defined in subparagraph (2) of this paragraph)—

(i) Of the type normally used by a common carrier engaged in the furnishing or sale of transportation by railroad and subject to regulation under part I of the Interstate Commerce Act (49 U.S.C. Chapter 1),

(ii) Which is used as provided in subparagraph (3) of this paragraph,

(iii) The original use of which begins as provided in subparagraph (4) of this paragraph, and

(iv) Which is not railroad rolling stock

not in short supply (see section 184(e)(4) and paragraph (b) of this section).

(2) *Railroad rolling stock.* The term "railroad rolling stock" means transportation equipment designed to move exclusively by means of fixed rail or rails, the expenditures for which are of a type chargeable to the equipment investment accounts in the uniform system of accounts for railroad companies prescribed by the Interstate Commerce Commission (see 49 CFR Part 1201). Such railroad rolling stock shall not include floating equipment or other equipment which does not move exclusively by means of fixed rail. For example, the term "railroad rolling stock" includes locomotives, boxcars, gondola cars, flatcars, piggyback cars, three-tiered automobile carriers, passenger cars, self-propelled passenger cars, and cars designed to carry containerized freight. However, such term does not include barges, tugboats, truck trailers, and removable containers which are used on cars designed to carry containerized freight.

(3) *Use requirement.* (i) Railroad rolling stock must be—

(*a*) Used by a domestic common carrier by railroad (as defined in paragraph (c) of this section) on a full-time basis, or

(*b*) Used by a domestic common carrier by railroad on a part-time basis if its only additional use is an incidental use on a per diem basis by a common carrier by railroad organized under the laws of, and operating in, Canada or Mexico, of

(c) Owned and used by a railroad switching corporation or a railroad terminal corporation (as defined in paragraph (d) of this section) all the stock of which is owned by one or more domestic common carriers by railroad.

(ii) For purposes of this subparagraph, in the case of railroad rolling stock owned by one person and leased or subleased to another, the railroad rolling stock shall be considered to be used by the ultimate lessee or sublessee who actually uses such rolling stock.

(iii) For purposes of subdivision (i)(*b*) of this subparagraph a use on an assigned service, such as an assigned use primarily between two points (whether or not for the benefit of more than one shipper), shall not be deemed to be an incidental use between such points. For purposes of this section a specifically identified unit of railroad rolling stock which is assigned, either directly or pursuant to an arrangement, to a particular shipper other than on a shipment by shipment basis shall be deemed to be used by the shipper and not by the railroad which transports the rolling stock. For purposes of this section, if a unit of railroad rolling stock is not owned by a domestic common carrier by railroad but is merely transported by such carrier from one place to another for another person, such unit of railroad rolling stock shall not be deemed to be used by such domestic common carrier by railroad.

(iv) A unit of railroad rolling stock shall be deemed to be used on a full-time basis by a domestic common carrier by railroad even though such unit of railroad rolling stock is transported by a water carrier, railroad switching company, or railroad terminal company for part of its journey.

(v) A unit of railroad rolling stock shall not be deemed to be used on a full-time basis by a domestic common carrier by railroad if such unit is used primarily to transport passengers for recreation or amusement. For example, railroad rolling stock which is used primarily to transport passengers from a point of origin along a scenic route or within an amusement park, returning such passengers to the point of origin within a period of 24 hours or less, will not be deemed to be used on a full-time basis by a domestic common carrier by railroad for purposes of section 184.

(4) *Original use requirement.* (i) The original use of the railroad rolling stock must commence after December 31, 1968, with the person electing the amortization deduction under section 184(a). The term "original use" means the first use to which the railroad rolling stock is put, whether or not such use corresponds to the use of such railroad rolling stock by the person electing amortization.

(ii) Where new railroad rolling stock which is to be purchased by a third party and leased to a domestic common carrier by railroad is temporarily (for a period no longer than 12 months) delivered to the common carrier by the manufacturer of such railroad rolling stock under interim short-term arrangements made to insure ultimate conveyance of full title to a third-party lessor, "original use" for purposes of section 184(d)(2) of such railroad rolling stock will be deemed to have commenced with the third-party lessor provided a lease of the railroad rolling stock to the same common carrier is consummated within the above-mentioned 12-month period. In such a case if such third-party lessor elects the amortization deduction under section 184 with respect to such railroad rolling stock, no depreciation or amortization under either Code section 167, 179 or this section will be allowable prior to the completion of the permanent financing arrangement and acquistion of ownership by the third-party lessor. Under these circumstances, the railroad rolling stock will be considered "placed in service" on the date the lease is consummated.

(b) *Railroad rolling stock not in short supply.* (1) The term "qualified railroad rolling stock" shall not include any railroad rolling stock of the types designated in subparagraph (2) of this paragraph as not in short supply, which is placed in service after—

(i) December 31, 1972, or

(ii) 30 days after the date of publication of the Treasury decision which designates such type of railroad rolling stock as not in short supply,

whichever is later.

(2) [Reserved]

(c) *Domestic common carrier by railroad.* (1) The term "domestic common carrier by railroad" means a domestic common carrier by railroad which is regulated with respect to rates, routes, or schedules either by the Interstate Commerce Commission under Part I of the Interstate Commerce Act (49 U.S.C. Chapter 1), or by a similar regulatory agency of a State or territory. However, the term "domestic common carrier by railroad" does not include a railroad switching or terminal company.

(2) The term "railroad" means a line of rails providing a track for railroad rolling stock. A barge company which transports railroad rolling stock is not a common carrier by railroad even though the railroad rolling stock rests upon rails affixed to a barge, and even though the barge company maintains trackage with which to connect its barges to the trackage of a carrier by railroad.

(d) *Railroad terminal corporation.* For purposes of this section, the term "railroad terminal corporation" means a domestic railroad corporation—

(1) All of the shareholders of which are domestic common carriers by railroad, and

(2) The primary business of which is the providing of railroad terminal and switching facilities and services to domestic common carriers by railroad and to the shippers and passengers of such domestic common carriers by railroad.

§ 1.184–3 Special rules for date placed in service.

(a) *In general.* (1) Section 184 and section 1.184–1 shall be applicable only with respect to qualified railroad rolling stock placed in service after December 31, 1968, and before January 1, 1975.

(2) Except as otherwise provided in this section, railroad rolling stock shall be deemed to be placed in service in the earlier of the following months:

(i) The month in which, under the taxpayer's depreciation practice, the period for depreciation with respect to such railroad rolling stock begins or would have begun; or

(ii) The month in which such railroad rolling stock is placed in a condition or state of readiness and availability for use.

Thus, if a unit of railroad rolling stock meets the conditions of subdivision (ii) of this subparagraph in a given month, it shall be considered placed in service in such month notwithstanding that the period for depreciation with respect to such railroad rolling stock begins in a succeeding month because, for example, under the taxpayer's depreciation practice such railroad rolling stock is accounted for in a multiple asset account and depreciation is computed under an "averaging convention" (see § 1.167(a)–(10), or depreciation with respect to such railroad rolling stock is computed under the retirement method. See the principles set forth in paragraph (d) of § 1.46–3.

(3) Notwithstanding the provisions of subparagraph (2) of this paragraph, in the case of railroad rolling stock with respect to which the original use is deemed to commence at the time specified in subparagraph (4)(ii) of § 1.184–2(a), such railroad rolling stock shall be deemed to be placed in service for purposes of section 184 and this section at such time.

(b) *Placed in service in 1969.* (1) In the case of qualified railroad rolling stock placed in service (within the meaning of paragraph (a) of this section) after December 31, 1968, and before January 1, 1970, section 184 and § 1.184–1 shall be applicable only with respect to railroad rolling stock owned either by a domestic common carrier by railroad or by a corporation of which at least 95 percent of the outstanding shares of each class of stock, voting and nonvoting, is owned by one or more domestic common carriers by railroad. The stock ownership requirement in the preceding sentence must be met on the date the railroad rolling stock is placed in service (within the meaning of paragraph (a) of this section) and at all times subsequent during the taxpayer's taxable year in which such railroad rolling stock is so placed in service. For any subsequent month for which the taxpayer claims amortization based on a period of 48 months such requirement must be met as of the beginning of such month.

(2) In the case of such railroad rolling stock placed in service during 1969—

(i) The month with respect to which the amortization period under § 1.184–1 shall begin with respect to such railroad rolling stock shall be determined as if such railroad rolling stock were placed in service on December 31, 1969, and

(ii) The amortization deduction under section 184 and § 1.184–1 with respect to such railroad rolling stock shall be determined based on a 48-month period rather than on a 60-month period. The adjusted basis for purposes of computing the amortization deduction under section 184 shall be based on the adjusted basis of such railroad rolling stock as of the beginning of the 48-month period.

(3) The provisions of this paragraph may be illustrated by the following examples:

Example (1). M Company, a corporation with two classes of stock outstanding, a voting common and a nonvoting preferred, purchased a new railroad hopper car on April 1, 1969, for $21,000, and immediately placed it in service by leasing it to R Railroad, a domestic common carrier by railroad. On April 1, 1969, and subsequently throughout 1969 and 1970 all of the outstanding preferred and common stock of M is owned by R and two other railroads, both of which are domestic common carriers by railroad. M, a calendar year taxpayer, elects to begin taking amortization deductions with respect to the hopper car for the month of January 1970, since under this paragraph the hopper car is deemed to be placed in service on December 31, 1969, for purposes of the amortization deduction under section 184. M claims depreciation during 1969 which, for purposes of this example, is assumed to be $1,125. The adjusted basis on January 1, 1970, for purposes of computing the amortization deduction under section 184 is $19,875 ($21,000 less $1,125 depreciation taken). The amortization deduction for the month of January 1970, based on a 48-month amortization period is $414.06 ($19,875 divided by 48 months). Similar amortization deductions could be claimed for each remaining month of 1970.

Example (2). If, in example (1) above, only 80 percent of the outstanding preferred stock of M Corporation was owned by one or more domestic common carriers by railroad, the railroad rolling stock placed in service during 1969 would not be eligible for the amortization deduction under section 184 (see paragraph (a)(2) of § 1.184–1).

Example (3). If, in example (1) above, on December 15, 1970, M Corporation issued a sufficient number of new shares of preferred and common stock to persons who are not domestic common carriers by railroad so that 95 percent of the outstanding stock of each class is not owned by one or more domestic common carriers by railroad, the railroad rolling stock is no longer eligible for the amortization deduction under section 184 after December 31, 1970. M Corporation is deemed to have terminated its election under section 184(c) and paragraph (b)(2) of § 1.184–5.

(c) *Placed in service in 1970.* (1) In the case of qualified railroad rolling stock which is placed in service (within the meaning of paragraph (a) of this section) after December 31, 1969, and before January 1, 1971, and which is owned—

(i) By a domestic common carrier by railroad,

(ii) By a corporation of which at least 95 percent of the outstanding shares of each class of stock, voting and nonvoting, is owned by one or more domestic common carriers by railroad, or

(iii) By a lessor who leases the railroad rolling stock to either a domestic common carrier by railroad or a corporation described in subdivision (ii) of this subparagraph,

such railroad rolling stock shall be deemed to have been placed in service on December 31, 1969, for purposes of the amortization deduction provided by section 184. The 95 percent stock ownership requirement must be met with respect to each unit of such qualified railroad rolling stock on the date such railroad rolling stock is placed in service (within the meaning of paragraph (a) of this section) and at all times subsequent thereto during 1970.

(2) If the taxpayer elects the amortization deduction under section 184(a)

and § 1.184–1 with respect to such railroad rolling stock, the month with respect to which the 60-month amortization period begins shall be determined as if such railroad rolling stock were placed in service on December 31, 1969.

(3) The provisions of this paragraph may be illustrated by the following examples:

Example (1). M Company, a corporation with two classes of stock outstanding, a voting common and a nonvoting preferred, purchased a new railroad gondola car on July 1, 1970, for $12,000, and immediately placed it in service by leasing it to R Railroad, a domestic common carrier by railroad. On July 1, 1970, and subsequently throughout 1970, all of the outstanding preferred stock and all of the outstanding common stock of M is owned by R and two other railroads, both of which are domestic common carriers by railroad. M, a calendar year taxpayer, elects to amortize the gondola car over a 60-month period under section 184. Since, under this paragraph, the gondola car is deemed to have been placed in service on December 31, 1969, M is allowed a full 12 months amortization for 1970 even though the gondola car was actually placed in service on July 1, 1970. M is not entitled under any circumstances to a deduction for depreciation under section 167 or for the additional first year depreciation under section 179 with respect to the gondola car for its 1970 taxable year.

Example (2). Assume that until January 1, 1971, all of the outstanding preferred stock and all of the outstanding common stock of M is owned by R and two other railroads, both of which are domestic common carriers by railroad. On January 1, 1971, M issues a sufficient number of previously unissued shares of its nonvoting preferred stock to persons who are not domestic common carriers so that less than 95 percent of the outstanding preferred shares of M are owned by domestic common carriers by railroad. The special rule in this paragraph, which treats the qualified railroad rolling stock as having been placed in service on December 31, 1969, is only of consequence for determining whether amortization may be claimed for 1970 commencing as of January 1, 1970. The change in stock ownership in 1971 will not affect the amortization claimed under this special rule for 1970 or for subsequent years.

(d) *Method of accounting for date placed in service.* (1) In the case of qualified railroad rolling stock placed in service after December 31, 1969, and before January 1, 1975, the taxpayer may, pursuant to section 184(e)(7), elect to begin the 60-month amortization period with the date such rolling stock is treated as placed in service under a method of accounting for acquisitions and retirements of property which (i) prescribes a specific date when the property is treated as having been placed in service, provided that such date falls on the beginning of a calendar month within the taxable year in which such rolling stock is actually placed in service, and (ii) is consistently followed by the taxpayer.

This paragraph shall not be applicable for qualified railroad rolling stock with respect to which section 184(e)(3) and paragraph (c) of this section are applicable. An election under this paragraph shall be made by using such method of accounting for the date placed in service in computing the deduction for amortization.

(2) For example, if the taxpayer follows a method of accounting under which it is assumed that all additions and retirements during the first half of a taxable year were made on the first day of that year and that all additions and retirements during the second half of the year were made on the first day of the following taxable year, the 60-month amortization period would begin on the first day of the taxable year with respect to qualified railroad rolling stock placed in service during the first half of the taxable year and on the first day of the succeeding taxable year with respect to qualified railroad rolling stock placed in service during the second half of the taxable year.

§ 1.184–4 Adjusted basis for amortization.

(a) *In general.* The adjusted basis of a unit of qualified railroad rolling stock for the purpose of computing the amortization deduction under section 184 is the adjusted basis of such railroad rolling stock for purposes of determining gain (see part II (section 1011 and following) subchapter 0, chapter 1 of the Code). For conditions under which the additional first-year allowance for depreciation may be allowable see paragraph (e)(1)(ii) of § 1.179–1. The basis of qualified railroad rolling stock shall be adjusted only for depreciation allowed or allowable. No deductions for depreciation under section 167 or 179 shall be allowed or allowable with respect to such railroad rolling stock during the time an election under section 184(a) is effective.

(b) *Additions or improvements.* (1) If, after a unit of qualified railroad rolling stock is placed in service, costs chargeable to capital account are paid or incurred for additions or improvements thereto, the adjusted basis for determining the amortization deduction with respect to such railroad rolling stock shall be increased by such costs which are paid or incurred prior to the beginning of the amortization period. Costs paid or incurred in connection with railroad rolling stock which are treated as deductible repairs under section 162 or 212 shall not be treated as costs chargeable to capital account for purposes of this section.

(2) If costs chargeable to capital account are paid or incurred after the amortization period has commenced, the adjusted basis of such railroad rolling stock shall not be increased for purposes of amortization under section 184. However, for purposes of section 184, such costs shall be treated as a separate unit of railroad rolling stock which is placed in service on the date the addition or improvement to which such costs relate is completed.

(3) For purposes of section 184, costs chargeable to capital account paid or incurred with respect to a used unit of railroad rolling stock which is not "qualified railroad rolling stock" shall be treated as a separate unit of railroad rolling stock which is placed in service on the date the addition or improvement to which such costs relate is completed.

(4) The provisions of this paragraph may be illustrated by the following examples:

Example (1). M railroad, a domestic common carrier by railroad which is a calendar year taxpayer, placed in service on December 31, 1971, a new boxcar which cost $18,000. M properly elected to begin taking amortization deductions on January 1, 1972. On July 31, 1972, M completed an addition to the boxcar at a cost of $6,000 in order to adapt it to a specialized use. M elected to amortize the $6,000 cost, which is treated as a separate unit of railroad rolling stock for purposes of section 184, beginning with August 1, 1972. The allowable amortization deduction with respect to the boxcar for the taxable year 1972 is $4,100, computed as follows:

Monthly amortization deductions with respect to the original unit:	
January: $18,000 divided by 60	$300
February: $17,700 ($18,000 minus $300) divided by 59	300
March through December: similarly computed	3,000
Total	$3,600
Monthly amortization deductions with respect to the costs of the addition which is treated as a separate unit of railroad rolling stock:	
August: $6,000 divided by 60	$100
September: $5,900 ($6,000 minus $100) divided by 59	100
October through December: similarly computed	300
Total	$500
Total amortization deduction for 1972 ($3,600 plus $500)	$4,100

Example (2). X railroad, a domestic common carrier by railroad, sells a used unit of railroad rolling stock which is not "qualified railroad rolling stock" to Y company for $10,000. In 1971, Y company, engaged in the business of rebuilding railroad equipment, rehabilitates that used unit of railroad rolling stock and immediately sells the unit for $15,000 to Z company which then leases such unit to X railroad. The $5,000 amount ($15,000 less $10,000) represents the cost to Y company of the rehabilitation and Y company's profit on such work. Such $5,000 attributable to rehabilitating this used unit shall be treated as a separate unit of railroad rolling stock. This separate unit will be deemed to be placed in service in accordance with the rules prescribed in § 1.184–3(a).

§ 1.184–5 Time and manner of making and terminating elections.

(a) *Election of amortization.* (1) Under section 184(b), an election by the taxpayer to take amortization deductions with respect to qualified railroad rolling stock and to begin the 60-month (or 48-month) amortization period (either with the month following the month in which such railroad rolling stock is placed in service, or with the taxable year succeeding the taxable year in which such railroad rolling stock is placed in service) shall be made by a statement to that effect attached to its return for the taxable year in which falls the first month of the 60-month (or 48-month) period so elected. If the taxpayer does not file a timely return (taking into account extensions of the time for filing) for such taxable year, the election shall be made at the time the taxpayer files its first return for that year. Except as provided in subparagraph (3) of this paragraph, the election may be made with an amended return only if such amended return is filed no later than the time prescribed by law (including extensions thereof) for filing the return for the taxable year of election. An election under this section may be made either on a unit by unit basis or with respect to a group of units of qualified railroad rolling stock which are placed in service and accounted for on a group basis. For election by a partnership see section 703(b) and the regulations thereunder.

(2) The statement required by subparagraph (1) of this paragraph shall include the following information:

(i) A description identifying each unit, or group of units, of qualified railroad rolling stock for which an amortization deduction is claimed under section 184;

(ii) The date on which such unit or group of units of railroad rolling stock was placed in service within the meaning of paragraph (a) of § 1.184–3;

(iii) The date as of which the amortization period is to begin;

(iv) A computation showing the adjusted basis for determining amortization of such railroad rolling stock as of the beginning of the first month for which the amortization deduction under section 184 is elected; and

(v) Stock ownership information, where essential to the allowance of amortization under section 184.

(3) If the taxpayer claims expenditures in connection with a unit of railroad rolling stock as an expense deduction (for example under section 263(e)) for the taxable year in which paid or incurred, and subsequently on audit such expenditures are capitalized, the taxpayer may, notwithstanding the other provisions of this paragraph, make an election under section 184 with respect to such expenditures if such expenditures qualify for amortization under section 184 and the regulations thereunder.

(4) No method for making the election in section 184(a) other than the method prescribed in this paragraph shall be permitted on or after [the date of publication in the FEDERAL REGISTER of the regulations under section 184]. If an election to amortize qualified railroad rolling stock is not made within the time and in the manner prescribed in this paragraph, no election may be made (by the filing of an amended return or in any other manner) with respect to such qualified railroad rolling stock.

(b) *Election to discontinue or revoke amortization*—(1) *Election to discontinue.* Under section 184(c), if a taxpayer has elected to take the amortization deduction provided by section 184(a) with respect to qualified railroad rolling stock, it may, after such election and prior to the expiration of the amortization period, elect to discontinue the amortization deduction for the remainder of such period. An election to discontinue the amortization deduction shall be made by a statement in writing filed with the district director, or with the director of the Internal Revenue service center, with whom the return of the taxpayer is required to be filed for its taxable year in which falls the first month for which the election terminates. Such statement shall specify the month as of the beginning of which the taxpayer elects to discontinue such deductions. Such notice shall be filed before the beginning of the month specified therein. In addition, such notice shall contain a description clearly identifying the unit or group of units of qualified railroad rolling stock with respect to which the taxpayer elects to discontinue the amortization deduction. If the taxpayer so elects to discontinue the amortization deduction, it shall not be entitled to any further amortization deductions under sections 184 with respect to such railroad rolling stock.

(2) *Constructive termination of election.* If at any time during the amortization period any qualified railroad rolling stock ceases to meet the requirements contained in section 184(d)(1) and in § 1.184–2(a)(3), the taxpayer shall be deemed to have terminated its election under section 184(c) and this paragraph with respect to such railroad rolling stock. For example, if at any time during the amortization period all of the stock of a railroad switching corporation or a railroad terminal corporation ceases to be owned by one or more domestic common carriers by railroad, such corporation shall be deemed to have terminated its election under section 184(c) and this paragraph with respect to all of the railroad rolling stock owned and used by it with respect to which an election under section 184(a) has been made. If 95 percent of the outstanding shares of each class of stock of a taxpayer, which is entitled to amortization based on a 48-month period under paragraph (a)(2) of § 1.184–1 with respect to railroad rolling stock placed in service in 1969, ceases at any time during the amortization period to be owned by one or more domestic common carriers by railroad (as, for example, in the case where this occurs as a result of the taxpayer issuing more shares to a person who is not a domestic common carrier by railroad), the taxpayer is deemed to have terminated its election under section 184(c) and this paragraph with respect to all such qualified railroad rolling stock placed in service during 1969 which has not been fully amortized. A termination under this subparagraph shall be effective with the month following the month in which such cessation occurs. If a termination of amortization occurs under this subparagraph, the taxpayer shall not be entitled to any further amortization deductions with respect to such railroad rolling stock.

(3) *Revocation of election made prior to [the date of publication in the* FEDERAL REGISTER *of the regulations under section 184].* If before [such date], an election under section 184(a) has been made, consent is hereby given for the taxpayer to revoke such election without the consent of the Commissioner. Such election may be revoked by filing on or before [the 90th day after the date] a written notice to revoke amortization deductions under section 184(a) with the district director, or the director of the Internal Revenue Service center, with whom the return of the taxpayer is required to be filed. Such notice shall contain a description clearly identifying the unit or group of units of qualified railroad rolling stock with respect to which the taxpayer elects to revoke amortization deductions under section 184(a). If such election to revoke is for a period which falls within one or more taxable years for which an income tax return has been filed, amended income tax returns shall be filed for any taxable years in which deductions were taken under section 184 on or before [such 90th day] and additional tax, and interest or penalties, if any, for such years shall be paid. See § 1.461–1(a)(3).

§ 1.184–6 Depreciation subsequent to discontinuance or in the case of revocation of amortization.

(a) *In general.* A taxpayer which elects in the manner prescribed under paragraph (b)(1) of § 1.184–5, or which is deemed to have elected under paragraph (b)(2) of § 1.184–5 to discontinue amortization deductions, or which elects under paragraph (b)(3) of § 1.184–5, to revoke an election under section 184(a) with respect to qualified railroad rolling stock may be entitled, subject to the provisions of section 167 and the regulations thereunder, to an allowance for depreciation with respect to such railroad rolling stock.

(b) *Depreciation after discontinuance of amortization.* In the case of a discontinuance of an amortization deduction under subparagraph (1) or (2) of § 1.184–5(b), the deduction for depreciation shall begin with the first month as to which such amortization deduction is not applicable, and shall be based on the adjusted basis of the property as of the beginning of such month. (See section 1011 and the regulations thereunder.) Such depreciation shall be based upon the remaining portion of the period authorized under section 167 and the regulations thereunder for such property as determined as of the first day of the first month as of which the amortization deduction is not applicable. In the case of such a discontinuance of the amortization deduction under subparagraph (1) or (2) of § 1.184–5(b), the taxpayer shall not be entitled to any further amortization deduction under section 184(a) and § 1.184–1 with respect to such railroad rolling stock.

(c) *Depreciation in the case of revocation of amortization.* In the case of a revocation of an election under section 184(a) the deduction for depreciation shall begin as of the time such depreciation deduction would have been taken but for the election under section 184(a). See paragraph (b)(3) of § 1.184–5 for rules as to the filing of amended returns for taxable years for which amortization deductions have been taken.

PAR. 2. Subdivision (iii) of § 1.179–1 (e)(1) is amended to add a new (c) to read as follows:

§ 1.179–1 Additional first-year depreciation allowance.

* * * * *

(e) *When allowance is available.* (1) * * *

(iii) * * *

(c) Qualified railroad rolling stock which the taxpayer elects to amortize under the provisions of section 184.

* * * * * *

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

[7 CFR Ch. IX]

[Docket No. AO-373]

LETTUCE GROWN IN CALIFORNIA, ARIZONA, COLORADO, NEW MEXICO, AND A DESIGNATED PART OF TEXAS

Notice of Extension of Time for Filing Written Exceptions to Recommended Decision on Proposed Marketing Agreement and Order

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given that the time fixed in the recommended decision, dated July 29, 1971, (36 F.R. 14316), with respect to proposed marketing agreement and order regulating the handling of western lettuce, for filing written exceptions to such decision is hereby extended 20 days, to and including September 13, 1971.

Requests for a longer extension have been made. However, if a program is to be submitted to growers for approval within a reasonable period of time, it is necessary that all exceptions to the recommended decision be filed not later than September 13, 1971. The time for filing exceptions is extended accordingly.

Dated: August 23, 1971.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

[FR Doc.71-12550 Filed 8-25-71;8:51 am]

[7 CFR Part 68]

DRY PEAS, SPLIT PEAS, AND LENTILS

Proposed Standards

Pursuant to sections 203 and 205 of the Agricultural Marketing Act of 1946, 60 Stat. 1087 and 1090, as amended (7 U.S.C. 1622 and 1624) notice is hereby given according to the administrative procedure provisions of 5 U.S.C., section 553, that the U.S. Department of Agriculture has under consideration a proposed revision of the United States Standards for Dry Peas (7 CFR 68.401 et seq.), Split Peas (7 CFR 68.501 et seq.), and Lentils (7 CFR 68.601 et seq.).

Statement of considerations. The Agricultural Marketing Act of 1946, as amended, provides for the issuance by the Secretary of Agriculture of standards with respect to the quality, condition, quantity, grade, and packaging of agricultural commodities for the voluntary use by producers, merchandisers, processors, and consumers in the domestic marketing of these commodities. Official grading service is provided under the Act upon request of the applicant and payment of a fee to cover the cost of the service.

Comments and recommendations from the pulse industry, including producers, merchandisers, processors, and foreign importers, and a comprehensive review by the Department indicate that certain changes should be made in the U.S. Standards for Dry Peas, Split Peas, and Lentils as follows:

1. Revise the format of the standards by:

a. Arranging the definitions in alphabetical order—for ease in use.

b. Showing color requirements in columnar form instead of the present footnotes—for ease in using the standards. (The minimum color requirements for the grades U.S. Nos. 1 and 2 dry peas, split peas, and lentils would be, respectively, "Good Color" and "Fair Color"; and for U.S. No. 3 dry peas and split peas, "Poor Color.")

c. Combining the present grade tables for Green Split Peas and Yellow Split Peas and Winter Split Peas into one grade table—for ease in use.

d. Deleting the definition for "Grades" from "Terms Defined"—the term is adequately defined in "Grades, Grade Requirements, and Grade Designations."

2. Expand the definition for dry peas, split peas, and lentils.

3. Provide a definition for whole dry peas and whole lentils—to more clearly define the basic requirements for the commodities.

4. Add "Fair Color" as a part of the color factor—to provide an additional level for this factor.

5. Change the definition for U.S. Sample grade by adding the following factors now included under "otherwise of distinctly low quality": "* * * an unknown foreign substance, broken glass, or metal fragments; * * *"—for a more complete listing.

6. Clarify the wording concerning the percentage of cracked seedcoats that shall be included in total defective peas in thresher-run dry peas of the classes with smooth seedcoats—to conform with approved inspection practices.

7. Provide definitions and maximum limits for "heat-damaged peas," "heat-damaged split peas," and "heat-damaged lentils," respectively—to provide maximum limits for peas or lentils that are severely damaged by heat.

8. Provide that when dry peas, split peas, and lentils are distinctly soiled or stained by nightshade, dirt, or similar material they shall be scored as "damaged"—to provide standards for scoring this defect.

9. Increase the maximum limits for "peas with cracked seedcoats" in the standards for dry peas by 0.5 percentage points for U.S. grades Nos. 1, 2, and 3—so the standards more nearly conform with current crop quality after harvest.

10. Provide that moisture content shall be determined in accordance with procedures prescribed by the Department as set forth in the official Equipment Manual.

11. Provide a priority order for scoring the defect factors in split peas and lentils—to avoid the multiple scoring of any one factor.

12. Provide that percentages shall be stated in whole and tenths percent to the nearest tenth of a percent—there is no provision in the present standards for "rounding off" percentages.

13. Provide that visual aide illustrating the subjective factors shall be made available for the inspection of these commodities.

14. Provide that the "color" factor in lentils shall be determined after the removal of defective lentils and foreign material—to avoid the possibility of overscoring the "color" factor.

15. Make minor editorial changes in the interest of clarity.

The Department proposes that the U.S. Standards for Dry Peas, Split Peas, and Lentils be revised to read as follows:

U.S. STANDARDS FOR DRY PEAS[1]

TERMS DEFINED

§ 68.401 Definitions.

For the purposes of these standards the following terms shall have the meanings stated below:

(a) *Bleached peas.* Whole and pieces of dry peas of green-colored varieties which are bleached distinctly yellow in color or peas of yellow-colored varieties which are bleached distinctly green in color.

(b) *Classes.* (1) Dry peas shall be divided into the following nine classes:

Alaska Dry Peas;
Austrian Winter Dry Peas;
Colorado White Dry Peas;
First and Best Dry Peas;
Perfection Dry Peas;
Romack Dry Peas; Surprise Dry Peas; White Canada Dry Peas; Mixed Dry Peas.

(2) Mixed dry peas shall be dry peas which contain either more than 1.5 percent of contrasting peas or more than 15.0 percent of peas that blend.

(3) Except with respect to the class Mixed Dry Peas, each class may contain not more than 1.5 percent of contrasting peas or not more than 15.0 percent of peas that blend.

(4) Dry peas that are not within any class listed above shall be classified according to the commonly accepted commercial name of such peas.

(c) *Contrasting peas.* Whole and pieces of dry peas which are of a contrasting color, or which differ materially in size, shape, or other characteristics from the predominating class.

(d) *Damaged peas.* Whole and pieces of dry peas which are distinctly damaged by frost, weather, disease, heat (other than to a material extent), or other causes, except weevil or material heat damage, or are distinctly soiled or stained by nightshade, dirt, or toxic material.

(e) *Defective peas.* The categories of defective peas shall be weevil-damaged peas, heat-damaged peas, damaged peas, contrasting peas, bleached peas, split peas, shriveled peas, or peas with cracked seedcoats.

(f) *Dockage.* Small underdeveloped dry peas, pieces of dry peas, and all matter other than dry peas which can be removed readily by the use of sieves and cleaning devices as set forth in the Inspection Handbook (see § 68.406).

(g) *Dockage-free dry peas.* Dry peas from which the dockage has been removed.

(h) *Dry peas.* Threshed seeds of the garden pea plant (*Pisum sativum* L.) and the winter field pea plant (*Pisum sativum* var. *arvense* (L.) Poir.) which after the removal of dockage contain 50 percent or more of whole peas and not more than 10.0 percent of foreign material.

(i) *Fair color peas.* Dry peas that in mass are off color from the characteristic color of the predominating class as a result of age or any other cause.

(j) *Foreign material in dockage-free dry peas.* All matter other than dry peas, and including detached seedcoats.

(k) *Foreign material in thresher-run dry peas.* All matter other than dry peas, and including detached seedcoats, which cannot be readily removed in the determination of dockage.

(l) *Good color peas.* Dry peas that in mass are practically free from discoloration and have the natural color and appearance characteristics of the predominating class.

(m) *Heat-damaged peas.* Whole and pieces of dry peas which have been materially discolored as a result of heating.

(n) *Peas with cracked seedcoats.* Dry peas having readily discernible cracked seedcoats or peas which have all or a part of the seedcoat removed, and broken peas which are more than one-half of a whole pea.

(o) *Peas that blend.* Dry peas of classes other than the predominating class and which are similar in color, size, and shape to the predominating class.

(p) *Poor color peas.* Dry peas that in mass are distinctly off color from the characteristic color of the predominating class as a result of age or any other cause.

(q) *Shriveled peas.* Dry peas which are distinctly shriveled in contrast to the natural shape and appearance of the predominating peas in the sample.

(r) *Split peas.* The halves or smaller pieces of dry peas and dry peas in which the halves are loosely held together.

(s) *Thresher-run dry peas.* Dry peas from which the dockage has not been removed.

(t) *Weevil-damaged peas.* Whole and pieces of dry peas which are distinctly damaged by the pea weevil or other insects.

(u) *Whole peas.* Dry peas with one-fourth or less of the cotyledons removed and with the remainder of the cotyledons firmly held together.

(v) *Wrinkled peas.* Dry peas of the wrinkled varieties of garden peas.

(w) $^{19}/_{64}$ *x* $^{3}/_{4}$ *slotted-hole sieve.* A metal sieve 0.0319 inch thick, with slotted perforations 0.1562 ($^{10}/_{64}$) inch wide by 0.750 ($^{3}/_{4}$) inch long, which are 0.2812 ($^{9}/_{32}$) inch from center to center and with 0.1562 ($^{5}/_{32}$) inch end bridges. (The perforations of each row shall be staggered in relation to the adjacent rows.)

(x) $^{11}/_{64}$ *x* $^{3}/_{4}$ *slotted-hole sieve.* A metal sieve 0.0319 inch thick, with slotted perforations 0.1718 ($^{11}/_{64}$) inch wide by 0.750 ($^{3}/_{4}$) inch long, which are 0.3125 ($^{5}/_{16}$) inch from center to center and with 0.1562 ($^{5}/_{32}$) inch end bridges. (The perforations of each row shall be staggered in relation to the adjacent rows).

(y) $^{15}/_{64}$ *round-hole sieve.* A metal sieve 0.0319 inch thick, perforated with round holes 0.2343 ($^{15}/_{64}$) inch in diameter, which are 0.3125 ($^{5}/_{16}$) inch from center to center. (The perforations of each row shall be staggered in relation to the adjacent rows.)

(z) $^{16}/_{64}$ *round-hole sieve.* A metal sieve 0.0319 inch thick, perforated with round holes 0.250 ($^{16}/_{64}$) inch in diameter, which are 0.3750 ($^{3}/_{8}$) inch from center to center. (The perforations of each row shall be staggered in relation to the adjacent rows.)

PRINCIPLES GOVERNING APPLICATION OF STANDARDS

§ 68.402 Basis of determinations.

(a) All factor determinations shall be made upon the basis of the dry peas after the removal of dockage with the following exceptions:

(1) Dockage in thresher-run dry peas shall be determined upon the basis of the peas as sampled.

(2) Color shall be determined after the removal of dockage, defective peas, and foreign material.

(b) Defects in peas shall be scored in accordance with the order shown in § 68.401(e) and once an individual pea is scored in a defective category it shall not be scored for any other defect but it shall remain as a part of the sample for purposes of determining the percentages of other defects in the sample.

§ 68.403 Moisture.

Moisture content shall be determined by the use of equipment and procedures set forth in the Equipment Manual, GR Instruction 916–6, or by any method which gives equivalent results (see § 68.406).

§ 68.404 Percentages.

All percentages shall be determined on the basis of weight and shall be rounded off in accordance with instructions shown in Inspection Handbook HB–1 (see § 68.406). Percentages, except for classes in "Mixed Dry Peas," shall be stated in whole and tenth percent to the nearest tenth percent. The percentages for classes in "Mixed Dry Peas" shall be stated to the nearest whole percent.

§ 68.405 Interpretive line samples.

Interpretive line samples showing the official scoring line for factors that are determined by visual observation shall be maintained by the Grain Division, Consumer and Marketing Service, U.S. Department of Agriculture, and shall be available for reference in all inspection offices that inspect and grade dry peas.

§ 68.406 References.

The following publications are referenced in these standards. Copies will be made available upon request to the Grain Division, Consumer and Marketing Service, U.S. Department of Agriculture.

(a) Equipment Manual, GR Instruction 916–6, U.S. Department of Agriculture, Consumer and Marketing Service.

(b) Inspection Handbook, HB–1, U.S. Department of Agriculture, Consumer and Marketing Service.

GRADES, GRADE REQUIREMENTS, AND GRADE DESIGNATIONS

§ 68.407 Grades and grade requirements for dockage-free dry peas.

(See also § 68.409.)

[1] Compliance with the provisions of these standards does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or other Federal laws.

U.S. No. 3 [1]	1.5	1.0	2.0	1.5	5.0	1.5	8.0	7.5	15.0	0.5	Poor.
U.S. Sample grade	U.S. Sample grade shall be dry peas which: (a) Do not meet the requirements for the grades U.S. Nos. 1, 2, or 3; or (b) Contain more than 15.0 percent moisture, live weevils or other live insects, metal fragments, broken glass, or a commercially objectionable odor; or (c) Are materially weathered, heating, or distinctly low quality.										

[1] Size requirements: Dry peas of any of the numerical grades shall be of such size that not more than 3.0 percent of the peas will pass readily through an oblong-hole sieve with perforations of the dimensions used in the determination of dockage on Thresher-run dry peas of the respective classes.

[2] These limits do not apply to the class Mixed Dry Peas.

[3] These limits do not apply to winter field peas and wrinkled garden peas.

§ 68.408 Grade designation for dockage-free dry peas.

The grade designation for dockage-free dry peas shall include, in the order named, the letters "U.S."; the number of the grade or the words "Sample grade"; the name of each applicable special grade; and the name of the class. The grade designation for the class Mixed Dry Peas shall also include, following the words "Mixed Dry Peas," the name and approximate percentage of each class of dry peas in the mixture, in the order of predominance.

SPECIAL GRADES, SPECIAL GRADE REQUIREMENTS, AND SPECIAL GRADE DESIGNATIONS

§ 68.409 Special grades and requirements.

The following special grades shall be applicable:

(a) *Large dry peas.* Peas of the classes Alaska Dry Peas, First and Best Dry Peas, and White Canada Dry Peas, of which not more than 3 percent of the peas will readily pass through the following sieves for the respective classes:

	Round-hole sieve
Alaska Dry Peas	16/64
First and Best Dry Peas	16/64
White Canada Dry Peas	15/64

(b) *Small dry peas.* Peas of the classes Alaska Dry Peas, First and Best Dry Peas, and White Canada Dry Peas, of which not more than 3 percent of the peas will remain on the sieve prescribed in paragraph (a) of this section, for the respective class, and not more than 3 percent will readily pass through the following sieves for the respective classes.

	Slotted-hole sieve
Alaska Dry Peas	11/64 x ¾
First and Best Dry Peas	11/64 x ¾
White Canada Dry Peas	10/64 x ¾

§ 68.410 Special grade designation.

Large dry peas and Small dry peas shall be graded and designated according to the grade requirements of the standards otherwise applicable to such dry peas, and there shall be added to and made a part of the grade designation preceding the name of the class the applicable word "Large" or "Small."

§ 68.411 Thresher-run dry peas.

Threasher-run dry peas shall be inspected without reference to grade in accordance with instructions shown in Inspection Handbook HB–1 (see § 68.406).

(a) *Factor determinations.* Thresher-run dry peas may be inspected for the following factors: Class, dockage, defective peas, foreign material, peas that blend, color description, and moisture (moisture becomes a factor when in excess of 15.0 percent).

(b) The percentage of defective peas and foreign material shall be combined and shown on the certificate as "total defects and foreign material."

(c) For the classes Alaska Dry Peas, First and Best Dry Peas, and other smooth seeded varieties, only the percentage of peas with cracked seedcoats in excess of 3.0 percent shall be included in the factor "total defects and foreign material." (Example: In a sample containing 3.2 percent of peas with cracked seedcoats, only 0.2 percent would be included in the total defects and foreign material.)

U.S. STANDARDS FOR SPLIT PEAS [1]

TERMS DEFINED

§ 68.501 Definitions.

For the purposes of these standards the following terms shall have the meanings stated below:

(a) *Bleached split peas.* Split peas of green-colored varieties which are bleached distinctly yellow in color or split peas of yellow-colored varieties which are bleached distinctly green in color.

(b) *Classes.* The following three classes:

(1) *Green split peas.* Split peas from the garden varieties which have green-colored cotyledons.

(2) *Yellow split peas.* Split peas from the garden varieties which have yellow-colored cotyledons.

(3) *Winter split peas.* Split peas from the Austrian Winter or Romack varieties, or of other similar varieties.

(c) *Contrasting split peas.* Split peas which are of a color contrasting with the predominating class of split peas. Bleached split peas of the predominating class shall not be considered as contrasting split peas.

(d) *Damaged split peas.* Split peas which are distinctly damaged by frost, weather, disease, heat (other than to a material extent), or other causes (except weevil or material heat damage), or are distinctly soiled or stained by nightshade, dirt, or toxic material.

(e) *Defective split peas.* The categories of defective split peas shall be weevil-damaged split peas, heat-damaged split peas, damaged split peas, contrasting split peas, whole peas, white caps, and bleached split peas.

(f) *Fair color split peas.* Split peas that in mass are off color from the characteristic color of the predominating class as a result of age or any other cause.

(g) *Foreign material.* All matter which will pass readily through a 2½/64 round-hole sieve and all matter other than split peas which remains on the sieve. (Foreign material shall include detached seedcoats and pieces of detached seedcoats.)

(h) *Good color split peas.* Split peas that in mass are practically free from discoloration and have the natural color and appearance characteristic of the predominating class.

(i) *Heat-damaged split peas.* Split peas which have been materially discolored and damaged by heat.

(j) *Poor color split peas.* Split peas that in mass are distinctly off color from the characteristic color of the predominating class as a result of age or any other cause.

(k) *Split peas.* Dry threshed seeds of the garden pea plant (*Pisum sativum* L.) and the winter field pea plant (*Pisum sativum* var. *arvense* (L.) Poir.) of which 50 percent or more have been split into halves or smaller pieces and which contain not more than 10.0 percent of foreign material.

(l) *Weevil-damaged split peas.* Split peas which are distinctly damaged by the pea weevil or other insects.

(m) *White caps.* Split peas with seedcoats attached.

(n) *Whole peas.* Dry peas which are not split.

[1] Compliance with the provisions of these standards does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or other Federal laws.

(o) 2½/64 *round-hole sieve.* A 2½/64 round-hole sieve shall be a metal sieve 0.0319 inch thick, perforated with round holes 0.0391 (2½/64) inch in diameter, which are 0.075 inch from center to center. (The perforations of each row shall be staggered in relation to the adjacent rows.)

(p) 9/64 *round-hole sieve.*

A 9/64 round-hole sieve shall be a metal sieve 0.0319 inch thick, perforated with round holes 0.0938 (9/64) inch in diameter which are 0.1562 (5/32) inch from center to center. (The perforations of each row shall be staggered in relation to the adjacent rows.)

(q) 8/64 *round-hole sieve.*

An 8/64 round-hole sieve shall be a metal sieve 0.0319 inch thick, perforated with round holes 0.1250 (8/64) inch in diameter which are 0.1875 (3/16) inch from cented to center. (The perforations of each row shall be staggered in relation to the adjacent rows.)

(r) 10/64 *round-hole sieve.*

A 10/64 round-hole sieve shall be a metal sieve 0.0319 inch thick, perforated with round holes 0.1562 (10/64) inch in diameter which are 0.2187 (7/32) inch from center to center. (The perforations of each row shall be staggered in relation to the adjacent rows.)

(s) 12/64 *round-hole sieve.*

A 12/64 round-hole sieve shall be a metal sieve 0.0319 inch thick, perforated with round holes 0.1875 (12/64) inch in diameter which are 0.250 (¼) inch from center to center. (The perforations of each row shall be staggered in relation to the adjacent rows.)

PRINCIPLES GOVERNING APPLICATION OF STANDARDS

§ 68.502 Basis of determinations.

(a) All factor determinations shall be made on the basis of the split peas as sampled.

(b) Defects in split peas shall be scored in accordance with the order shown in § 68.501(e) and once an individual pea is scored in a defective category it shall not be scored for any other defect but it shall remain as a part of the sample for purposes of determining the percentages of other defects in the sample.

§ 68.503 Moisture.

Moisture content shall be determined by the use of equipment and procedures set forth in the Equipment Manual, GR Instruction 916–6, or by any method which gives equivalent results (see § 68.506).

§ 68.504 Percentages.

All percentages shall be determined on the basis of weight and shall be rounded off in accordance with instructions shown in Inspection Handbook HB–1 (see § 68.506). Percentages shall be stated in whole and tenth percent to the nearest tenth percent.

§ 68.505 Interpretive line samples.

Interpretive line samples showing the official scoring line for factors that are determined by visual observation shall be maintained by the Grain Division, Consumer and Marketing Service, U.S. Department of Agriculture, and shall be available for reference in all inspection offices that inspect and grade split peas.

§ 68.506 References.

The following publications are referenced in these standards. Copies will be made available upon request to the Grain Division, Consumer and Marketing Service, U.S. Department of Agriculture.

(a) Equipment Manual, GR Instruction 916–6, U.S. Department of Agriculture, Consumer and Marketing Service.

(b) Inspection Handbook, HB–1, U.S. Department of Agriculture, Consumer and Marketing Service.

U.S. Sample grade	U.S. Sample grade shall be split peas which— (a) Do not meet the requirements for the grades U.S. Nos. 1, 2, or 3; or (b) Contain more than 15.0 percent moisture, live weevils, other live insects, insect webbing or filth, metal fragments, broken glass, or a commercially objectionable odor; or (c) Are heating, or are distinctly low quality.														

§ 68.508 Grade designation for split peas.

The grade designation for split peas shall include in the following order, the letters "U.S."; the number of the grade or the words "Sample grade"; the name of the class; and the name of each applicable special grade.

SPECIAL GRADE, SPECIAL GRADE REQUIREMENTS, AND SPECIAL GRADE DESIGNATIONS

§ 68.509 Special grade and requirements.

(a) The special grade "Split pea chips" shall be applied in accordance with the following requirements: The split peas shall readily pass through a 13/64 round-hole sieve. Additional size requirements for the respective numerical grades shall be as follows:

U.S. No. 1—Not more than 3.0 percent shall readily pass through a 6/64 round-hole sieve;

U.S. No. 2—Not more than 6.0 percent shall readily pass through a 6/64 round-hole sieve;

U.S. No. 3—Not more than 10.0 percent shall readily pass through a 6/64 round-hole sieve.

§ 68.510 Special grade designation.

Split pea chips shall be graded and designated according to the grade requirements of the standards otherwise applicable to split peas, except for size, and there shall be added to and made a part of the grade designation, the word "Chips."

U.S. STANDARDS FOR LENTILS [1]

TERMS DEFINED

§ 68.601 Definitions.

For the purposes of these standards the following terms shall have the meaning stated below.

(a) *Classes.* The following three classes:

(1) *Lentils.* All lentils of the Chilean type.

(2) *Persian Lentils.* All lentils of the Persian type.

[1] Compliance with the provisions of these standards does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or other Federal laws.

(3) *Mixed Lentils.* All lentils which do not meet the requirements for the class Lentils or Persian Lentils.

(b) *Damaged lentils.* Whole and pieces of lentils which are distinctly damaged by frost, weather, disease, heat (other than to a material extent) or other causes, except weevil or material heat damage or are distinctly soiled or stained by nightshade, dirt, or toxic material.

(c) *Defective lentils (total).* The categories of defective lentils shall be weevil-damaged lentils, heat-damaged lentils, damaged lentils, and split lentils.

(d) *Dockage.* Small underdeveloped lentils, pieces of lentils, and all matter other than lentils which can be readily removed by use of sieves and cleaning devices as set forth in the Inspection Handbook (see § 68.606).

(e) *Dockage-free lentils.* Lentils from which the dockage has been removed.

(f) *Fair color lentils.* Lentils that are not of good color.

(g) *Foreign material in dockage-free lentils.* All matter other than lentils, and including detached seedcoats.

(h) *Foreign material in thresher-run lentils.* All matter other than lentils, and including detached seedcoats, which cannot be readily removed in the proper determination of dockage.

(i) *Good color lentils.* Lentils that in mass are practically free from discoloration and have the natural color and appearance characteristic of the predominating lentils.

(j) *Heat-damaged lentils.* Whole and pieces of lentils which have been materially discolored as a result of heating.

(k) *Lentils.* Threshed seeds of the lentil plant (*Lens culinaris* Moench) which after removal of the dockage contain 50 percent or more of whole lentils and not more than 10 percent foreign material.

(l) *Skinned lentils.* Lentils from which three-fourths or more of the seedcoat has been removed.

(m) *Split lentils.* Pieces of lentils which are less than three-fourths of a lentil, and lentils in which the cotyledons are loosely held together.

(n) *Stones.* Concreted earthy or mineral matter, and other substances of similar hardness that do not readily disintegrate in water.

(o) *Thresher-run lentils.* Lentils from which the dockage has not been removed.

(p) *Weevil-damaged lentils.* Whole and pieces of lentils which are distinctly damaged by weevils or other insects.

(q) *Whole lentils.* Lentils with one-fourth or less of the cotyledons removed and with the remainder of the cotyledons firmly held together.

(r) $^{9}/_{64}$ *round-hole sieve.* A metal sieve 0.0319 inch thick, perforated with round holes 0.1406 ($^{9}/_{64}$) inch in diameter which are 0.1875 ($^{3}/_{16}$) inch from center to center. (The perforations of each row shall be staggered in relation to the adjacent rows.)

(s) $^{12}/_{64}$ *round-hole sieve.* A metal sieve 0.0319 inch thick, perforated with round holes 0.1875 ($^{12}/_{64}$) inch in diameter, which are 0.250 ($^{1}/_{4}$) inch from center to center. (The perforations of each row shall be staggered in relation to the adjacent rows.)

(t) $^{15}/_{64}$ *round-hole sieve.* A metal sieve 0.0319 inch thick, perforated with round holes 0.2343 ($^{15}/_{64}$) inch in diameter, which are 0.3125 ($^{5}/_{16}$) inch from center to center. (The perforations of each row shall be staggered in relation to the adjacent rows.)

PRINCIPLES GOVERNING APPLICATION OF STANDARDS

§ 68.602 Basis of determinations.

(a) All factor determinations shall be made upon the basis of the lentils after the removal of dockage, with the following exceptions:

(1) Dockage shall be determined upon the basis of the thresher-run lentils as sampled.

(2) Color shall be determined after removal of dockage, defective peas, and foreign material.

(b) Defects in lentils shall be scored in accordance with the order shown in § 68.601(c) and once an individual lentil is scored in a defective category it shall not be scored for any other defect but it shall remain as a part of the sample for purposes of determining the percentages of other defects in the sample.

§ 68.603 Moisture.

Moisture content shall be determined by the use of equipment and procedures set forth in the Equipment Manual, GR Instruction 916–6, or by any method which gives equivalent results (see § 68.606).

§ 68.604 Percentages.

All percentages shall be determined on the basis of weight and shall be rounded off in accordance with instructions shown in Inspection Handbook HB–1 (see § 68.606). Percentages, except for classes in "Mixed Lentils," shall be stated in whole and tenth percent to the nearest tenth percent. The percentages for each class in "Mixed Lentils" shall be stated to the nearest whole percent.

§ 68.605 Interpretive line samples.

Interpretive line samples showing the official scoring line for factors that are determined by visual observation shall be maintained by the Grain Division, Consumer and Marketing Service, U.S. Department of Agriculture, and shall be available for reference in all inspection offices that inspect and grade lentils.

§ 68.606 References.

The following publications are referenced in these standards. Copies will be made available upon request to Grain Division, Consumer and Marketing Service, U.S. Department of Agriculture.

(a) Equipment Manual, GR Instruction 916–6, U.S. Department of Agriculture, Consumer and Marketing Service.

(b) Inspection Handbook, HB–1, U.S. Department of Agriculture, Consumer and Marketing Service.

GRADES, GRADE REQUIREMENTS, AND GRADE DESIGNATIONS

§ 68.607 Grades and grade requirements for dockage-free lentils.

(See also § 68.609.)

Grade	Maximum limits of— Defective lentils: Total	Weevil-damaged lentils	Heat-damaged lentils	Foreign material: Total	Stones	Minimum requirements—color
	Percent	*Percent*	*Percent*	*Percent*	*Percent*	
U.S. No. 1	2.0	0.3	0.2	0.2	0.1	Good.
U.S. No. 2	3.5	0.8	0.5	0.5	0.2	Fair.
U.S. Sample grade	U.S. Sample grade shall be lentils which— (a) Do not meet the requirements for the grades U.S. Nos. 1 or 2; or (b) Contain more than 14.0 percent moisture, live weevils or other live insects, metal fragments, broken glass, or a commercially objectionable odor; or (c) Are materially weathered, heating, or distinctly low quality.					

§ 68.608 Grade designation for dockage-free lentils.

The grade designation for dockage-free lentils shall include, in the order named, the letters "U.S."; the number of the grade or the words "Sample grade" when applicable; the name of each applicable special grade; and the name of the class. The grade designation for the class Mixed Lentils shall include, following the words "Mixed Lentils," the name and approximate percentage of each class of lentils in the mixture, in the order of predominance.

SPECIAL GRADES, SPECIAL GRADE REQUIREMENTS, AND SPECIAL GRADE DESIGNATIONS

§ 68.609 Special grades and requirements.

The following special grades shall be applicable:

(a) *Large lentils.* Lentils of the class Lentils of which not more than 3 percent will readily pass through a $^{15}/_{64}$ round-hole sieve.

(b) *Small lentils.* Lentils of the class Lentils of which 95 percent or more will readily pass through a $^{15}/_{64}$ round-hole sieve, not less than 80 percent will readily pass through a $^{12}/_{64}$ round-hole sieve, and not more than 3 percent will readily pass through a $^{9}/_{64}$ round-hole sieve.

§ 68.610 Special grade designation.

Large lentils and Small lentils shall be graded and designated according to the grade requirements of the standards otherwise applicable to lentils, and there shall be added to and made a part of the grade designation preceding the name of the class, the applicable term "Large" or "Small."

§ 68.611 Thresher-run lentils.

Thresher-run lentils shall be inspected without reference to grade in accordance with instructions shown in Inspection Handbook HB–1 (see § 68.606).

(a) Factor determinations: Thresher-run lentils may be inspected for the following factors: Class, dockage, weevil-damaged lentils, heat-damaged lentils, damaged lentils, split lentils, foreign material, and color description.

(b) The percentage of defective lentils and foreign material shall be combined and shown on the certificate as "total defects and foreign material."

Comments and proposed effective date. If the proposed changes as set forth herein are adopted, it is intended that the changes be made effective on or about October 1, 1971.

Public hearings will not be held with respect to the above proposed amendments, but all persons who desire to submit written data, views, or recommendations in connection with these proposals may file the same in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administrative Building, Washington, D.C. 20250, not later than 30 days after the proposal has been published in the FEDERAL REGISTER. All comments filed will be available for public inspection during official hours of business (7 CFR 1.27(b)).

In deciding on the proposed changes in the aforementioned sections, consideration will be given to all written comments filed with the Hearing Clerk and to all other information available to the U.S. Department of Agriculture.

Copies of the current standards for dry peas, split peas, and lentils may be obtained from the Director, Grain Division, Consumer and Marketing Service, 6525 Belcrest Road, Hyattsville, MD 20782, or from any field office of the Grain Division. Field office locations can be found in the telephone directory.

Signed at Washington, D.C., on August 18, 1971.

G. R. GRANGE,
Deputy Administrator,
Marketing Services.

FRESH BARTLETT PEARS GROWN IN OREGON AND WASHINGTON

Notice of Proposed Rule Making With Respect to Expenses and Fixing of Rate of Assessment for 1971–72 Fiscal Period and Carryover of Unexpended Funds

Consideration is being given to the following proposals submitted by the Northwest Fresh Bartlett Pear Marketing Committee, established pursuant to the marketing agreement and Order No. 931 (7 CFR Part 931), regulating the handling of fresh Bartlett pears grown in Oregon and Washington, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

(1) That expenses that are reasonable and likely to be incurred by the Northwest Fresh Bartlett Pear Marketing Committee, during the period July 1, 1971, through June 30, 1972, will amount to $17,300.

(2) That the rate of assessment for such period, payable by each handler in accordance with § 931.41 be fixed at $0.01 per standard western pear box of pears, or an equivalent quantity of pears in other containers or in bulk.

(3) That unexpended funds in excess of expenses incurred during the fiscal period ended June 30, 1971, be carried over as a reserve in accordance with § 931.42 of the said marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112A, Administration Building, Washington, D.C. 20250, not later than the 10th day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: August 20, 1971.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[7 CFR Part 981]

ALMONDS GROWN IN CALIFORNIA

Proposed Expenses of the Control Board and Rate of Assessment for the 1971–72 Crop Year

Notice is hereby given of a proposal regarding expenses of the Almond Control Board for the 1971–72 crop year and rate of assessment for that crop year, pursuant to §§ 981.80 and 981.81 of the marketing agreement, as amended, and Order No. 981, as amended (7 CFR Part 891), regulating the handling of almonds grown in California. The amended marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The Control Board has unanimously recommended for the 1971–72 crop year beginning July 1, 1971, a budget of expenses in the total amount of $115,000 and an assessment rate of 0.09 cent per pound of almonds (kernel weight basis). Expenses in that amount and the assessment rate are specified in the proposal hereinafter set forth.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposal should file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, DC 20250, to be received not later than the 8th day after publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposal is as follows:

§ 981.321 Expenses of the Control Board and rate of assessment for the 1971–72 crop year.

(a) *Expenses.* Expenses in the amount of $115,000 are reasonable and likely to be incurred by the Control Board during the crop year beginning July 1, 1971, for its maintenance and functioning and for such purposes as the Secretary may, pursuant to the provisions of this part, determine to be appropriate.

(b) *Rate of assessment.* The rate of assessment for said crop year, payable by each handler in accordance with § 981.81, is fixed at 0.09 cent per pound of almonds (kernel weight basis).

Dated: August 20, 1971.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Consumer and Marketing Service.

[7 CFR Part 991]

HOPS OF DOMESTIC PRODUCTION

Proposed Expenses of the Hop Administrative Committee and Rate of Assessment for the 1971–72 Marketing Year

Notice is hereby given of a proposal regarding expenses of the Hop Administrative Committee for the 1971–72 marketing year and rate of assessment for that marketing year, pursuant to §§ 991.55 and 991.56 of Order No. 991, as amended (7 CFR Part 991). The amended marketing order regulates the handling of hops of domestic production, and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The Hop Administrative Committee has recommended for the 1971–72 marketing year beginning August 1, 1971, a budget of expenses in the total amount of $152,745 and a rate of assessment of 0.325 cent per pound of salable hops. Expenses in that amount and the rate of assessment are specified in the proposal hereinafter set forth.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposal should file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, to be received not later than the 8th day after publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposal is as follows:

§ 991.306 Expenses of the Hop Administrative Committee and rate of assessment for the 1971–72 marketing year.

(a) *Expenses.* Expenses in the amount of $152,745 are reasonable and likely to be incurred by the Hop Administrative Committee during the marketing year beginning August 1, 1971, for its maintenance and functioning and for such purposes as the Secretary may, pursuant to the provisions of this part, determine to be appropriate.

(b) *Rate of assessment.* The rate of assessment for said marketing year, payable by each handler in accordance with § 991.56, is fixed at 0.325 cent per pound of salable hops.

Dated: August 20, 1971.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Consumer, and Marketing Service.

COSMETIC PRODUCTS

Voluntary Registration of Producers and Voluntary Filing of Ingredients

Notice is given that two petitions have been filed by the Cosmetic, Toiletry, and Fragrance Association, Inc., 1625 Eye Street NW., Washington, D.C. 20006, proposing the issuance of regulations to establish a procedure for (1) the voluntary registration of producers of cosmetic products, and (2) the voluntary filing of cosmetic product ingredients. The petitioner also proposes that 21 CFR Chapter I be editorially amended by redesignating the present Subchapters D and E as Subchapters E and F, respectively, and that the proposed new regulations be placed in 21 CFR Chapter I under a new "Subchapter D—Cosmetics."

The Association states its membership includes approximately 200 companies which produce more than 85 percent of the United States total production of cosmetic products and the grounds given by the Association in support of the proposed regulations include the following:

1. Under section 601(c) of the Federal Food, Drug, and Cosmetic Act a cosmetic is deemed adulterated if it has been prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health, and under section 601(a) of the act a cosmetic is deemed to be adulterated if it bears or contains any poisonous or deleterious substances which may render it injurious to users under the conditions of use prescribed in the labeling or under customary or usual conditions of use. Therefore, the Association believes it is reasonable for the Food and Drug Administration to have available to it the names and addresses of establishments where cosmetic products are produced and information on the ingredients used in cosmetic products.

2. The voluntary registration of producers of cosmetic products and the voluntary filing of cosmetic product ingredients would lead to more efficient enforcement of the Federal Food, Drug, and Cosmetic Act and would be in the public interest.

3. Section 701(a) of the Act which authorizes promulgation of regulations for the efficient enforcement of the act is sufficient authority for the promulgation of the proposed regulations.

4. The proposed regulations protect the confidentiality of information filed with the FDA on the qualitative and quantitative composition of a cosmetic product. The Association states that this information is in many instances a highly valuable trade secret that would not be released by a company to competitors or the public and that could not be publicly divulged without substantial harm to the company. They further state that revelation even of the specific ingredients used in a cosmetic product could substantially jeopardize the exclusivity upon which the popularity and commercial value of many cosmetic products depend.

The Commissioner of Food and Drugs has considered the petitions and other relevant information. In the event that the proposed regulations are promulgated, he is considering adding a parenthetical statement to § 172.5(c) in order to assure that the regulations are fully informative. The introductory text of § 172.5(c) would read: "Information on the cosmetic product category should be shown by stating that the product is intended for use in one or more of the categories listed below. (The list of categories shall not be construed to relieve any product from compliance with any applicable provisions of the Federal Food, Drug, and Cosmetic Act. For example, cosmetic products in the categories listed under subparagraphs (3) (iv); (8) (iv), (v), and (viii); (10) (iii); (12) (ii), (v), (ix), (xi), and (xii); and (13) (i), (ii), and (iii) of this paragraph are also regarded as drugs by the Food and Drug Administration because of their intended use and are therefore subject to all applicable drug provisions of the act.) The list of categories is as follows:".

The regulations proposed by the Cosmetic, Toiletry, and Fragrance Association, Inc., are as follows:

SUBCHAPTER D—COSMETICS

PART 170—VOLUNTARY REGISTRATION OF PRODUCERS OF COSMETIC PRODUCTS

Sec.
170.1 Definitions.
170.2 Who should register.
170.3 Time for registration.
170.4 How and where to register.
170.5 Information requested.
170.6 Amendments to registration.
170.7 Notification of registrant; cosmetic products establishment registration number.
170.8 Inspection of registrations.
170.9 Misbranding by reference to registration or to registration number.
170.51 Exemptions.

AUTHORITY: The provisions of this Part 170 issued under secs. 601, 602, 701(a), 704, 52 Stat. 1054, as amended, 1055, 1057, as amended; 21 U.S.C. 361, 362, 371(a), 374.

§ 170.1 Definitions.

(a) As used in this part, the term "cosmetic product" means a finished cosmetic the manufacture of which has been completed.

(b) "Establishment" means a place of business under one management at one general physical location.

(c) The term "manufacture" of a cosmetic product, as used in this part, means the making of any cosmetic product by chemical, physical, biological, or other procedures, including manipulation, sampling, testing, or control procedures applied to the product.

(d) The term "packaging" of a cosmetic product, as used in this part, means filling or labeling the product container, including changing the immediate container or label (but excluding changing other labeling) at any point in the distribution of the cosmetic product from the original place of manufacture to the person who makes final delivery or sale to the ultimate consumer.

(e) The definitions and interpretations contained in sections 201, 601, 602, and 704 of the Federal Food, Drug and Cosmetic Act shall be applicable to such terms when used in the regulations in this part.

§ 170.2 Who should register.

The owner or operator of a cosmetic product establishment not exempt under § 170.51 that engages in the manufacture or packaging of a cosmetic product is requested to register, whether or not the output of such establishment enters interstate commerce. No registration fee is required.

§ 170.3 Time for registration.

The owner or operator of an establishment entering into the manufacture or packaging of a cosmetic product should register such establishment within 30 days after the beginning of such operation.

§ 170.4 How and where to register.

Registration of an establishment will be on Form FD-____ ("Registration of Cosmetic Product Establishment"), obtainable on request from the Food and Drug Administration, Department of Health, Education, and Welfare, Washington, D.C. 20204, or at any Food and Drug Administration district office. The completed form should be mailed to Cosmetic Product Establishment Registration, Food and Drug Administration, Department of Health, Education, and Welfare, Washington, D.C. 20204.

§ 170.5 Information requested.

Form FD-____ ("Registration of Cosmetic Product Establishment") will request information on the name and street address of the cosmetic product establishment, including post office zip code; all business trading names used by the establishment; the kind of ownership or operation (e.g., individually owned, partnership, or corporation); and the type of business (manufacture or packaging). The information requested should be given separately for each establishment, as defined in § 170.1(b).

§ 170.6 Amendments to registration.

Changes in the information contained in Form FD-____ ("Registration of Cosmetic Product Establishment") should be submitted by Form FD-____ ("Registration of Cosmetic Product Establishment") as an amendment to registration within 30 days of such changes.

§ 170.7 Notification of registrant; cosmetic product establishment registration number.

The Commissioner of Food and Drugs will provide, to the registrant, a validated copy of Form FD-____ ("Registration of Cosmetic Product Establishment") as evidence of registration. This validated copy will be sent only to the location shown for the registering establishment. A permanent registration number will be assigned to each cosmetic product establishment registered in accordance with these regulations.

§ 170.8 Inspection of registrations.

A copy of the Form FD-____ ("Registration of Cosmetic Product Establishment") filed by the registrant will be available for inspection at the Food and Drug Administration, Department of Health, Education, and Welfare, Washington, D.C. 20204.

§ 170.9 Misbranding by reference to registration or to registration number.

Registration of a cosmetic product establishment or assignment of a registration number does not in any way denote approval of the firm or its products. Any representation in labeling or advertising that creates an impression of official approval because of registration or possession of a registration number will be considered misleading.

§ 170.51 Exemptions.

The following classes of persons are not requested to register in accordance with this Part 170 because the Commissioner has found that such registration is not justified.

(a) Beauty shops, cosmetologists, retailers, pharmacies, and other persons and organizations that compound cosmetic products at a single location and administer, dispense, or distribute them at retail from that location and who do not otherwise manufacture or package cosmetic products at that location.

(b) Physicians, hospitals, clinics, and public health agencies.

(c) Persons who manufacture, prepare, compound, or process cosmetic products solely for use in research, pilot plant production, teaching, or chemical analysis, and not for sale.

(d) Carriers, by reason of their receipt, carriage, holding, or delivery of cosmetic products in the usual course of business as carriers.

PART 172—VOLUNTARY FILING OF COSMETIC PRODUCT INGREDIENTS

Sec.
172.1 Definitions.
172.2 Who should file.
172.3 Times for filing.
172.4 How and where to file.
172.5 Information requested.
172.6 Amendments to statement.
172.7 Notification of person filing; cosmetic product ingredient statement number.
172.8 Confidentiality of statements.
172.9 Misbranding by reference to filing or to statement number.

AUTHORITY: The provisions of this Part 172 issued under secs. 601, 602, 701(a), 704, 52 Stat. 1054, as amended, 1055, 1057, as amended; 21 U.S.C. 361, 362, 371(a), 374.

§ 172.1 Definitions.

(a) The term "commercial distribution" of a cosmetic product as used in this part, means annual gross sales in excess of $1,000 for that product.

(b) As used in this part, the term "cosmetic product" means a finished cosmetic the manufacture of which has been completed.

(c) The term "flavor", as used in this part, means any natural or synthetic substance or substances used solely to impart a taste to a cosmetic product.

(d) The term "fragrance", as used in this part, means any natural our synthetic substance or substances used solely to impart an odor to a cosmetic product.

(e) The term "ingredient", as used in this part, means any single chemical entity or mixture used as a component in the manufacture of a cosmetic product.

(f) The definitions and interpretations contained in sections 201, 601, and 602 of the Federal Food, Drug, and Cosmetic Act shall be applicable to such terms when used in the regulations in this part.

§ 172.2 Who should file.

Either the manufacturer or the distributor of a cosmetic product is requested to file a "Cosmetic Product Ingredient Statement", whether or not the cosmetic product enters interstate commerce. No filing fee is required.

§ 172.3 Times for filing.

A "Cosmetic Product Ingredient Statement" should be filed with respect to each cosmetic product being commercially distributed on the effective date of this regulation within 180 days after forms are made available to the industry for this purpose. A "Cosmetic Product Ingredient Statement" should be filed with respect to each cosmetic product not covered within the 180 day period within 60 days after the beginning of such commercial distribution.

§ 172.4 How and where to file.

Form FD-____ ("Cosmetic Product Ingredient Statement") and Form FD-____ ("Discontinuance of Commercial Distribution of Cosmetic Product") are obtainable on request from the Food and Drug Administration, Department of Health, Education, and Welfare, Washington, D.C. 20204, or at any Food and Drug Administration district office. The completed form should be mailed or delivered to: Cosmetic Product Ingredient Statement, Food and Drug Administration, Department of Health, Education, and Welfare, Washington, D.C. 20204.

§ 172.5 Information requested.

(a) Form FD-____ ("Cosmetic Product Ingredient Statement") requests information on:

(1) The name and street address including post office ZIP code of the person (manufacturer or distributor) designated on the label of the product.

(2) The cosmetic product establishment registration number or numbers assigned under § 170.7 of this chapter to the establishment or establishments where the product is manufactured and packaged.

(3) The brand name or names of the cosmetic product.

(4) The cosmetic product category or categories.

(5) The ingredients in the product.

(b) The person filing Form FD-____ ("Cosmetic Product Ingredient Statement") should:

(1) Provide the information requested in paragraph (a) of this section.

(2) Have it signed by an authorized individual.

(3) Provide either pertinent information or adequate procedures to poison control centers to permit rapid evaluation of accidental ingestion or other accidental use of the cosmetic product.

(4) Provide either pertinent information or coded ingredient samples to a licensed physician who, in connection with the treatment of a patient, requests assistance in determining whether an ingredient in the cosmetic product is the cause of the problem for which the patient is being treated and who pledges to keep the information or samples confidential.

(5) Request the manufacturer of any ingredient (other than flavor or fragrance) that is a mixture and that has not yet been assigned a cosmetic product ingredient statement number, to file a Cosmetic Product Ingredient Statement pursuant to this part.

(c) Information on the cosmetic product category should be shown by stating that the product is intended for use in one or more of the following categories:

(1) *Baby products.* (i) Baby shampoos.
(ii) Lotions, oils, powders, and creams.
(iii) Other baby products.

(2) *Bath preparations.* (i) Bath oils, tablets, and salts.
(ii) Bubble baths.
(iii) Bath capsules.
(iv) Other bath preparations.

(3) *Eye make-up preparations.* (i) Eyebrow pencil.

(ii) Eyeliner.
(iii) Eye shadow.
(iv) Eye lotion.
(v) Eye make-up remover.
(vi) Mascara.
(vii) Other eye make-up preparations.
(4) *Fragrance preparations.* (i) Colognes and toilet waters.
(ii) Perfumes.
(iii) Powders (dusting and talcum) (excluding after-shave talc).
(iv) Sachets.
(v) Other fragrance preparations.
(5) *Hair preparations (noncoloring).* (i) Hair conditioners.
(ii) Hair sprays (aerosol fixatives).
(iii) Hair straighteners.
(iv) Permanent waves.
(v) Rinses (noncoloring).
(vi) Shampoos (noncoloring).
(vii) Tonics, dressings, and other hair grooming aids.
(viii) Wave sets.
(ix) Other hair preparations.
(6) *Hair coloring preparations.* (i) Hair dyes and colors (all types requiring caution statement and patch test).
(ii) Hair tints.
(ii) Hair rinses (coloring).
(iv) Hair shampoos (coloring).
(v) Hair color sprays (aerosol).
(vi) Hair lighteners with color.
(vii) Hair bleaches.
(viii) Other hair coloring preparations.
(7) *Make-up preparations (not eye).* (i) Blushers (all types).
(ii) Face powders.
(iii) Foundations.
(iv) Leg and body paints.
(v) Lipstick.
(vi) Make-up bases.
(vii) Rouges.
(viii) Make-up fixatives.
(ix) Other make-up preparations.
(8) *Manicuring preparations.* (i) Basecoats and undercoats.
(ii) Cuticle softeners.
(iii) Nail creams and lotions.
(iv) Nail hardeners.
(v) Nail elongators.
(vi) Nail polish and enamel.
(vii) Nail polish and enamel removers.
(viii) Nail strengtheners.
(ix) Other manicuring preparations.
(9) *Oral hygiene products.* (i) Dentifrices (aerosol, liquid, pastes, and powders).
(ii) Mouthwashes and breath fresheners (liquids and sprays).
(iii) Other oral hygiene products.
(10) *Personal cleanliness.* (i) Bath soaps and detergents.
(ii) Deodorants (underarm).
(iii) Douches.
(iv) Feminine hygiene deodorants.
(v) Other personal cleanliness products.
(11) *Shaving preparations.* (i) Aftershave lotions.
(ii) Beard softeners.
(iii) Men's talcum.
(iv) Preshave lotions (all types).
(v) Shaving cream (aerosol, brushless, and lather).
(vi) Shaving soap (cakes, sticks, etc.).
(vii) Other shaving preparation products.
(12) *Skin care preparations (creams, lotions, powder, and sprays).* (i) Cleansing (cold creams, cleansing lotions, liquids, and pads).
(ii) Depilatories.
(iii) Face, body, and hand (excluding shaving preparations).
(iv) Foot powders and sprays.
(v) Hormone.
(vi) Moisturizing.
(vii) Night.
(viii) Paste masks (mud packs).
(ix) Skin lighteners.
(x) Skin fresheners.
(xi) Skin tanners (bronzers).
(xii) Wrinkle smoothing (removers).
(xiii) Other skin care preparations.
(13) *Suntan and sunscreen preparations.* (i) Suntan gels, creams, and liquids.
(ii) Indoor tanning preparations.
(iii) Other suntan preperations.
(d) Information on the ingredients in the product should be shown in the following way:
(1) A list of each ingredient of the cosmetic product in descending order of predominance by weight (except that the fragrance and flavor may be designated as such without naming each individual ingredient) with a letter designation showing that the ingredient is added at a level of:
(i) Over 50 percent by the letter A.
(ii) Over 25 percent to 50 percent by the letter B.
(iii) Over 10 percent to 25 percent by the letter C.
(iv) Over 5 percent to 10 percent by the letter D.
(v) Over 1 percent to 5 percent by the letter E.
(vi) Over 0.1 percent to 1 percent by the letter F.
(vii) 0.1 percent or less by the letter G.
(2) An ingredient that is a single chemical entity should be listed by its chemical name and any published standard (e.g., U.S.P.; "Food Chemicals Codex"; Cosmetic, Toiletry and Fragrance Association; etc.) specified.
(3) An ingredient that is a mixture should be listed by its common or usual name, if any, any published standard (e.g., U.S.P.; Cosmetic, Toiletry and Fragrance Association: "Food Chemicals Codex"; etc.) specified, trade name, code number, name and address of the manufacturer or supplier, and cosmetic product ingredient statement number if one has already been assigned to the ingredient.
(4) The fragrance and/or flavor should be listed as such, with the product name, code number, and name and address of the manufacturer or supplier of each proprietary mixture that is included.
(e) The information requested should be given separately for each cosmetic product, except that a single "Cosmetic Product Ingredient Statement" should be filed for two or more shades, flavors or fragrances of a cosmetic product where only the proportions of the ingredients are varied.

§ 172.6 Amendments to statement.

Changes in the information requested under § 172.5(a) (3) and (5) on the ingredients or brand name of a cosmetic product should be submitted by filing an amended Form FD-_____("Cosmetic Product Ingredient Statement") within 60 days after the product is entered into commercial distribution. Other changes do not justify immediate amendment, but should be shown by filing an amended form FD-_____ ("Cosmetic Product Ingredient Statement") within a year after such changes. Notice of discontinuance of commercial distribution of a cosmetic product should be submitted by Form FD-_____ ("Discontinuance of Commercial Distribution of Cosmetic Product") within 180 days after discontinuance of commercial distribution becomes known to the person filing.

§ 172.7 Notification of person filing: cosmetic product ingredient statement number.

The Commissioner of Food and Drugs will provide, to the person filing, a validated copy of the form filed, as evidence of filing. This validated copy will be sent only to the individual signing the form, at the location shown. A permanent cosmetic product ingredient statement number will be assigned to each statement filed and will be shown on the validated copy.

§ 172.8 Confidentiality of statements.

The information contained in, attached to, or included with a "Cosmetic Product Ingredient Statement" and "Discontinuance of Commercial Distribution of Cosmetic Product" and amendments (Forms FR-____ and FD-____ and amendments) and any compilation constitutes trade secrets and other privileged and confidential commercial information that will be held as confidential under the provisions of section 301(j) of the Federal Food, Drug, and Cosmetic Act, as amended (21 U.S.C. 321(j)), and section 3(e)(4) of the Administrative Procedure Act, as amended (5 U.S.C. 552(b)(4)); except that information contained in, attached to, or included with a Form FD-____ ("Cosmetic Product Ingredient Statement") or Form FD-____ ("Discontinuance of Commercial Distribution of Cosmetic Product") and amendments may be disclosed in the course of testimony by a Food and Drug Administration employee in a court action brought by the Food and Drug Administration to enforce the Federal Food, Drug, and Cosmetic Act with respect to that product where the information is relevant to the violation charged, only as much information is disclosed as is necessary under the circumstances, and the Food and Drug Administration offers to disclose the information in camera. Information voluntarily filed pursuant to this part under the foregoing obligation of confidentiality shall be destroyed or returned to the individual signing the form at the location shown if it is subsequently determined that this obligation cannot or should not be honored, unless that person or another authorized individual waives such return or destruction.

§ 172.9 Misbranding by reference to filing or to statement number.

The filing of a "Cosmetic Product Ingredient Statement" or assignment of a number to the statement does not in any way denote approval of the firm or the product. Any representation in labeling or advertising that creates an impression of official approval because of such filing or such number will be considered misleading.

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 601, 602, 701(a), 704, 52 Stat. 1054, as amended, 1055, 1057, as amended; 21 U.S.C. 361, 362, 371(a), 374) and in accordance with authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), interested persons are invited to submit comments in writing (preferably in quintuplicate) regarding this proposal within 30 days after its date of publication in the FEDERAL REGISTER. Such views and comments should be addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-62, 5600 Fishers Lane, Rockville, Md. 20852, and may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: August 17, 1971.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 117]

[CGFR 71-80]

STATE OF OREGON

Drawbridge Operation Where Constant Attendance Is Not Required

The Coast Guard is considering revising the regulations for the Oregon State Highway Division bridge at mile 24, Coquille River, to require at least 48 hours' notice for opening the draw for the passage of vessels. The draw is presently required to open on signal. This change is being considered because since 1960 only 14 openings have been required and all of these were for passage of construction equipment. Also under consideration is the establishment of a new section for drawbridges in Oregon which are not required to have drawtenders in constant attendance. These bridges would be listed in one section thus providing the vessel operators with a ready reference to such bridges.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (OAN), Thirteenth Coast Guard District, 618 Second Avenue, Seattle, WA 98104. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Thirteenth Coast Guard District.

The Commander, Thirteenth Coast Guard District, will forward any comments received before September 24, 1971, with his recommendations to the Chief, Office of Operations, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations be amended as follows:

(1) Revoke §§ 117.720 (c) and (d), 117.730(b), 117.745, 117.750(b)(5)(iii), 117.755(b) and 117.759.

(2) Add a new § 117.759b immediately after § 177.759a to read as follows:

§ 117.759b Drawbridge across navigable waters in Oregon where constant attendance is not required.

(a) Drawtenders are not required to be in constant attendance at the bridges listed in this section.

(b) The owner of or agency controlling each bridge shall keep conspicuously posted on both the upstream and downstream sides of the bridge or elsewhere, in such manner that they may be readily read from an approaching vessel, a résumé of the regulations of this section pertaining to each bridge, together with information as to whom notice should be given when an opening is required and directions for communicating with such persons by telephone or otherwise.

(c) Prompt openings of the draw shall be made at the time agreed upon.

(d) Test openings shall be made frequently enough to ascertain that the operating machinery of the draws is in serviceable condition.

(e) Signals:

(1) *Opening signal.* One long blast followed by one short blast.

(2) *Acknowledging signal.* One long blast followed by one short blast.

(3) *When the draw cannot open immediately or is to close.* Four short blasts.

(f) The bridges to which this section applies and the regulations applicable in each case are as follows:

(1) *Railroad bridge across Coalbank Slough.* The draw shall open on signal if at least 24 hours' notice has been given.

(2) *Highway bridge across Coalbank Slough.* The draw shall open on signal if at least 24 hours' notice has been given.

(3) *Railroad Bridge across Siuslaw River at Cushman.* The draw shall open on signal if at least 24 hours' notice has been given.

(4) *John Day River.* The draw shall open on signal if at least 12 hours' notice has been given.

(5) *Burlington Northern railroad bridge at North Portland Harbor (Oregon Slough).* The draw shall open on signal if at least one-half hour notice has been given.

(6) *Southern Pacific railroad bridge across the Willamette River at Albany.* The draw shall open on signal, if at least 6 hours' notice has been given.

(7) *Benton County highway bridge across the Willamette River at Corvallis.* The draw shall open on signal if at least 6 hours' notice has been given.

(8) *Highway bridge across the Columbia River between Hood River, Oregon and White Salmon, Washington.* The draw shall open on signal if at least 12 hours' notice has been given.

(9) *Highway bridge across the Coquille River at Coquille.* The draw shall open on signal if at least 48 hours' notice has been given.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5) 33 CFR 1.05-1(c)(4))

Dated: August 12, 1971.

R. E. HAMMOND,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Operations.

[FR Doc.71-12515 Filed 8-25-71;8:50 am]

[33 CFR Part 117]

[CCFR 71-83]

BLACK RIVER, S.C.

Drawbridge Operation

The Coast Guard is considering revising the regulations for the South Carolina State Highway Department swing span bridge across Black River at Brown's Ferry near Rhems, to permit the draw to remain closed to the passage of vessels. The draw is presently required to open on signal if at least 24 hours' notice has been given. This change is being considered because there have been only two openings for the passage of vessels since the construction of this bridge in 1953.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander, Seventh Coast Guard District (OAN), Room 1018, Federal Building, 51 Southwest First Avenue, Miami, FL 22120. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Seventh Coast Guard District.

The Commander, Seventh Coast Guard District, will forward any comments received before September 24, 1971, with his recommendations to the Chief, Office of Operations, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by revising § 117.245(g)(14) to read as follows:

§ 117.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridge where constant attendance of draw tenders is not required.

* * * * *

(g) * * *

(14) Black River, S.C. (i) South Carolina State Highway Department bridge near Georgetown. The draw shall open on signal if at least 12 hours' notice has been given. The agency controlling this bridge shall arrange for its representative to be reached at the same place that the representative for the Lafayette Bridge (Great Pee Dee River) may be reached in order that one notice may suffice to secure the prompt opening of either or both bridges.

(ii) South Carolina State Highway Department bridge at Brown's Ferry near Rhems. The draw need not open for the passage of vessels, and paragraphs (b) through (c) of this section shall not apply to this bridge.

* * * * *

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4) (35 F.R. 15922))

Dated: August 13, 1971.

R. E. HAMMOND,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Operations.

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 71-RM-7]

CONTROL ZONE AND TRANSITION AREA

Proposed Designation and Alteration

The Federal Aviation Administration is considering amendments to Part 71 of the Federal Aviation Regulations that would designate a control zone and alter the description of the Municipal Airport transition area for Brookings, S. Dak.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 5651 West Manchester Boulevard, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposals contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 5651 West Manchester Boulevard, Los Angeles, CA 90045.

In October 1971 the Federal Aviation Administration will commission a TVOR on the airport at Brookings Municipal Airport, S. Dak. Two new instrument approach procedures are proposed utilizing this facility (VOR Runway 12–VOR Runway 30). These procedures will utilize the 317° T (308° M) and 123° T (114° M) radials, respectively, of the Brookings VOR for procedure turn and final approach radials.

A review of the airspace requirements for the proposed new procedures and current instrument approach procedures (NDB Runway 12–NDB Runway 30 special approach) will require designation of a control zone and alteration of the transition area.

The control zone will provide controlled airspace protection for aircraft executing prescribed instrument procedures while operating below 700 feet above the surface. The 7-mile radius, 700-foot floor area is required to provide controlled airspace protection for random departing aircraft climbing from 700 feet above the surface to the base of overlying airspace. The additional 700-foot transition area to the northwest is required for the procedure turn areas for the proposed VOR Runway 12 and current NDB Runway 12 approach procedures. The 700-foot floor extension to the southeast is required for that portion of the proposed VOR Runway 30 approach procedure conducted between 1,500 and 700 feet above the surface. The proposed additional 1,200-foot portion of the transition area is required for the procedure turn areas for the proposed VOR Runway 30 and the special NDB Runway 30 approach procedures.

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 71.171 (36 F.R. 2055) the following control zone is added:

BROOKINGS, S. DAK.

That airspace within a 6-mile radius of Brookings, S. Dak. Municipal Airport (latitude 44°18'12" N., longitude 96°48'40" W.), and within 3 miles each side of the 142° bearing from the Brookings Airport, extending from the 6-mile radius area to 8 miles southeast of the airport. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

In § 71.181 (36 F.R. 2140) the description of the Brookings, S. Dak., transition area as amended by (36 F.R. 9621) is further amended to read as follows:

BROOKINGS, S. DAK.

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Brookings, S. Dak. Municipal Airport (latitude 44°18'12" N., longitude 96°48'40" W.), within 3 miles each side of the Brookings VOR 123° radial, extending from the 7-mile radius area to 9 miles southeast of the VOR, within 3 miles each side of the 142° bearing from the Brookings Municipal Airport, extending from the 7-mile radius area to 8 miles southeast of the airport, within 4.5 miles northeast and 9.5 miles southwest of the 301° bearing from Brookings Municipal Airport, extending from the airport to 18.5 miles northwest of the airport, within 4.5 miles northeast and 9.5 miles southwest of the Brookings VOR 317° radial, extending from the VOR to 18.5 miles northwest of the VOR; that airspace extending upward from 1,200 feet above the surface within 4.5 miles southwest and 9.5 miles northeast of the 142° bearing from the Brookings Municipal Airport, extending from the airport to 18.5 miles southeast of the airport.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Aurora, Colo., on August 13, 1971.

M. M. MARTIN,
Director, Rocky Mountain Region.

[Airspace Docket No. 71-RM-14]

CONTROL ZONE AND TRANSITION AREA

Proposed Designation and Alteration

The Federal Aviation Administration is considering amendments to Part 71 of the Federal Aviation Regulations that would designate a control zone and alter the description of the transition area at Livingston, Mont.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 5651 West Manchester Boulevard, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposals contained in this notice may be changed in light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 5651 West Manchester Boulevard, Los Angeles, CA 90045.

The airspace requirements for Livingston, Mont., have been reviewed in accordance with the criteria contained in the U.S. Standard for Terminal Instrument Procedures (TERPS). As a result of the review, it has been determined that a control zone must be designated and the transition area must be altered to provide controlled airspace protection for the proposed instrument procedure.

The control zone and 700-foot portion of the transition area are required to provide controlled airspace protection for aircraft executing those portions of prescribed instrument procedures below 1,500 feet above the surface. The 1,200-foot portion of the transition area is required for aircraft executing holding, transition, and missed approach procedures.

In consideration of the foregoing, the FAA proposes the following airspace action:

In § 71.171 (36 F.R. 2055), the following control zone is added:

LIVINGSTON, MONT.

That airspace within a 5-mile radius of Mission Field Airport (latitude 45°41'45" N., longitude 110°26'40" W.) and within 3 miles each side of the Livingston, Mont., VORTAC 340° radial, extending from the 5-mile radius zone to 8 miles north of the VORTAC.

In § 71.181 (36 F.R. 2140), the description of the Livingston, Mont., transition area is amended to read as follows:

LIVINGSTON, MONT.

That airspace extending upward from 700 feet above the surface within 9.5 miles west and 4.5 miles east of the Livingston VORTAC 340° radial extending from the VORTAC to 18.5 miles north of the VORTAC and within 2 miles each side of the Livingston VORTAC 068° radial, extending from a 5-mile radius circle centered on Mission Field Airport, Livingston, Mont. (latitude 45°41'45" N., longitude 110°26'40" W.) to 9 miles northeast of the VORTAC; that airspace extending upward from 1,200 feet above the surface within 6 miles south and 9.5 miles north of the Livingston VORTAC 085° radial, extending from 7 miles west to 21 miles east of the VORTAC, and within a 15-mile radius of the Livingston VORTAC extending clockwise from the 261° to the 085° radials of the VORTAC.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Aurora, Colo., on August 11, 1971.

M. M. MARTIN,
Director, Rocky Mountain Region.

[14 CFR Part 71]

[Airspace Docket No. 71-SW-48]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to alter controlled airspace in the Truth or Consequences, N. Mex., terminal area.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, TX 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

(1) In § 71.171 (36 F.R. 2055), the Truth or Consequences, N. Mex., control zone is amended to read:

TRUTH OR CONSEQUENCES, N. MEX.

That airspace within a 5-mile radius of Truth or Consequences Municipal Airport (latitude 33°14'10" N., longitude 107°16'15" W.), and within 3.5 miles either side of the Truth or Consequences, N. Mex., VORTAC 013° and 193° radials extending from the 5-mile radius zone to a point 9.5 miles north of the VORTAC.

(2) In § 71.181 (36 F.R. 2140), the Truth or Consequences, N. Mex., transition area is amended to read:

TRUTH OR CONSEQUENCES, N. MEX.

That airspace extending upward from 700 feet above the surface within an 8-mile radius of the Truth or Consequences Municipal Airport (latitude 33°14'10" N., longitude 107°16'15" W.), and within 3.5 miles either side of the Truth or Consequences, N. Mex., VORTAC 013° radial, extending from the 8-mile radius area to 11 miles north of the VORTAC.

The instrument approach procedure to Truth or Consequences, N. Mex., Municipal Airport has been revised in accordance with Terminal Instrument Procedures (TERPS) and the associated controlled airspace has been altered to conform to TERPS and airspace criteria.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on August 18, 1971.

N. W. LEPEARD,
Acting Director, Southwest Region.

[FR Doc.71-12463 Filed 8-25-71;8:46 am]

[14 CFR Part 71]

[Airspace Docket No. 71-SW-49]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a 700-foot transition area at Welsh, La.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, TX 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (36 F.R. 2140), the following transition is added:

WELSH, LA.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Welsh Municipal Airport (latitude 30°-

14°30'' N., longitude 92°49'45'' W.), but excluding that portion within the Jennings, La., 700-foot transition area.

Designation of the Welsh, La., transition area will provide controlled airspace necessary to accommodate the instrument approach procedure planned at Welsh Municipal Airport.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on August 18, 1971.

N. W. LEPEARD,
Acting Director, Southwest Region.

[FR Doc.71-12464 Filed 8-25-71;8:46 am]

[14 CFR Part 71]

[Airspace Docket No. 71-SW-50]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to alter controlled airspace in the Gallup, N. Mex., terminal area.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, TX 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

(1) In § 71.171 (36 F.R. 2055), the Gallup, N. Mex., control zone is amended to read:

GALLUP, N. MEX.

That airspace within a 5-mile radius of the Senator Clarke Field (latitude 35°30'35'' N., longitude 108°47'00'' W.), within 3.5 miles each side of the Gallup, N. Mex., VORTAC 242° and 062° radials extending from the 5-mile radius zone to a point 10.5 miles southwest of the VORTAC. This control zone is effective during the dates and times published in the Airman's Information Manual.

(2) In § 71.181 (36 F.R. 2140), the Gallup, N. Mex., transition area is amended to read:

GALLUP, N. MEX.

That airspace extending upward from 700 feet above the surface within a 9-mile radius of Senator Clarke Field (latitude 35°30'35'' N., longitude 108°47'00'' W.); within 3.5 miles each side of the Gallup VORTAC 242° radial, extending from the 9-mile radius area to 11.5 miles southwest of the VORTAC; and that airspace extending upward from 1,200 feet above the surface within an area bounded by a line beginning at latitude 35°47'30'' N., longitude 108°34'00'' W.; to latitude 35°26'50'' N., longitude 108°34'00'' W.; to latitude 35°13'15'' N., longitude 109°06'00'' W.; to latitude 35°20'25'' N., longitude 109°10'40'' W.; to latitude 35°52'00'' N., longitude 108°47'00'' W., to point of beginning, excluding the portion which coincides with the State of New Mexico transition area.

The instrument approach procedure to Senator Clarke Field, Gallup, N. Mex., has been revised in accordance with Terminal Instrument Procedures (TERP's). Controlled airspace alterations are necessary to conform to TERP's and airspace criteria.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on August 18, 1971.

N. W. LEPEARD,
Acting Director, Southwest Region.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 21]

[Docket No. 19309; FCC 71-853]

MICROWAVE RADIO FACILITIES

Notice of Proposed Rule Making

In the matter of Preston Trucking Co., Inc., Preston, Md., File Nos. 19393-19415-LJ-60X, on reconsideration of grant of applications for microwave radio facilities in the Motor Carrier Radio Service. Inquiry into certain arrangements for cooperative use of private microwave systems.

I. *Background statement.* 1. The Preston Trucking Co., Inc. (Preston), applied for a microwave relay system to operate in the 6575-6875 MHz band in the Motor Carrier Radio Service. Preston's plan called for the backbone facility to run, generally, east from Tonawanda, N.Y. (just north of Buffalo), to Albany, N.Y., then south to Jersey City, N.J., and from there southwest to Ivy Hill, Pa. (north of Philadelphia), a distance of some 480 miles.

2. At the outset, Preston proposed to share these facilities with other eligibles in the Motor Carrier Service, estimating that there were about 280 of these carriers operating in the region to be served by the system, and that, initially, 40 to 60 of them would participate in the sharing arrangements it had worked out. Further, Preston, itself, did not intend to construct the system, because, according to its allegations, the financial undertaking involved is beyond its individual economic capacity. Instead, it worked out a plan with a third-party organization, Transportation Microwave Corporation (TMC), a company with no direct connection with Preston or any other motor carrier. Under this plan, Preston was to be the licensee of the system, and accordingly, was to assume and have the full legal responsibility to the Commission for the proper operation of the facilities authorized to it, and, also, for the manner in which, and the purposes for which, and by whom, the system was to be employed. Operation and maintenance of the system was to be carried out under the terms of a lease agreement running between Preston and TMC. Shared use of the systems was to be provided for under the terms of a separate "participants agreement" between Preston and the other motor carriers involved. TMC, for its part, was to have the system built; was therefore, to own it; and was to maintain and service it for Preston and other participating motor carriers.

3. Among other matters, TMC agreed to charge each user, including Preston, itself, a fixed amount—that negotiated by Preston with TMC—for each dedicated voice and teletype channel. Initially, the charges were set at $0.50 per airline mile, per month for each dedicated voice channel and $0.10 per airline mile, per month for each dedicated teletype channel; but TMC gave Preston assurance that the rates would be scaled down as the number of users increased. Because there was no apparent bar to favorable consideration of the proposal (it had not been opposed), and, further, since the cooperative had a number of salutary features, we decided to grant it as prima facie consistent with the public interest. This action was taken on February 18, 1971.

4. Thereafter, petitions for reconsideration of our February 18, 1971, action granting Preston's applications were filed by the American Telephone & Telegraph Co. and a number of affiliated "Bell System Companies" (A.T. & T.); Chalfont Communications; Interdata Communications, Inc. (Interdata); Microwave Communications, Inc., and MCI-New York West, Inc. (MCI); Rochester Telephone Corp. (Rochester); United States Independent Telephone Association (USITA); and The Western Union Telegraph Co. (Western Union).[1] Preston opposed reconsideration; petitioners have now replied; and the matters in controversy are now at issue and may be decided. In the paragraphs following, we evaluate the various contentions of the parties in support of their respective positions, and reach decisions as to them.

II. *Argument and opinion.* 5. Petitioners argue that they are "persons aggrieved or whose interests are adversely affected" by the Commission's action granting Preston's applications, and that their requests for reconsideration should be considered, because, in this instance, the Commission's public notice listing Preston's applications did not adequately describe the nature of the sharing arrangement to be employed, and, therefore, petitioners cannot be held to have had constructive knowledge of Preston's plan to take service from TMC in the manner proposed, or that it planned to make its system available, on a fixed cost basis, to a large number of other eligibles in the Motor Carrier Radio Service. Answering, Preston argues that petitioners' pleadings are procedurally defective, because, if aggrieved, they were bound to petition the Commission to deny its applications, citing section 309 of the Communications Act of 1934, as amended, and §§ 1.106 and 1.962 of the Commission's rules. Not having done so, Preston concludes, they are now barred from seeking the relief they ask on reconsideration. Also on adjective grounds, Preston urges that some of the parties lack "standing" i.e., the kind of "interest" in the proceedings which gives rise to substantive rights, those subject to protection through reconsideration and adjudication, listing Chalfont,[2] Interdata, MCI, and USITA as examples of those parties it feels come within this class, since they are either mere applicants for facilities (or were at the time of the filing of its opposition); or plan to operate in areas other than the ones to be served by Preston's systems; or are not engaged in providing common carrier services; or are "trade association," which will sustain no direct detriment as a result of Preston's operations.

6. We have considered the procedural points and conclude, first as to standing, that, at least in the case of Rochester Telephone Corp., American Telephone and Telegraph Co., and the Western Union Telegraph Co., a sufficient showing has been made to warrant a finding that they are "persons aggrieved," within the meaning of section 405 of the Communications Act, to require consideration of their arguments on the merits, and since their contentions closely parallel, if not duplicate, the presentations of the remaining parties, we see no reason to rule more definitively on the right of the latter to participate. On the remaining point, we recognize that in certain cases (including this one) public notice is required of the acceptance for filing of applications, and that, as to them, prescribed pregrant procedures apply (See § 1.962 of the rules). In this particular case, however, we are of the opinion that there are circumstances present which justify our consideration of the merits of petitioners' major arguments. Our decision in this regard is based, among other reasons, on the fact that Preston's proposal involves a novel plan of sharing, one not heretofore authorized under the provisions of § 93.4 of the rules, and on our belief that the public interest would be better served were we to decide the matter (as we do) on substantive rather than procedural grounds. Consequently, we reject Preston's arguments on these points.

7. On the merits, petitioners urge that, under the terms of the arrangement with Preston, TMC is the real party-in-interest, the true principal, because it will own, operate, service and maintain the microwave system; that TMC is not eligible as a "motor carrier," or otherwise, to provide the proposed service to Preston or others in the Motor Carrier Radio Service, citing § 93.251 of the rules;[3] and that, in these circumstances, it should not be permitted to assume licensee functions which it is not authorized to perform. Responding, Preston points out that it will be the licensee, de facto and de jure, since it will, in practice, assume and respond to all of its rights, duties, and obligations as licensee; that the contrary views of the petitioners on this point are speculative and inconsistent with the intent of the parties and, importantly, with the written instruments setting out their respective functions and responsibilities; and that, this being so, Preston is, at least within the Commission's scheme of regulation, the real party-in-interest. The fact that TMC will be the owner of the physical facilities used to provide Preston and other motor carriers with communications service does not alter this conclusion, because, Preston reasons, it will have dominion and control over the radio spectrum entrusted to it by the Commission, and, therefore, will be in a position to carry out the licensee responsibilities it has assumed in compliance with applicable statutory requirements and the Commission's rules and regulations.

8. As to this, although we can appreciate the argument that Preston will not, at least in theory, be in the same position to "control" the operation of the system authorized to it as it would be if it owned it or leased it as an entirety from TMC, still, to say that it will fail in its licensee responsibilities before the fact, we would agree, would be speculation. Moreover, Preston retains considerable power under the terms of its agreement with TMC in that it can terminate its relationship with TMC, apparently without penalty, should it want to do so. Furthermore, Preston, not TMC, determines who may participate in the use of the system, because Preston, alone, has the power to enter into agreements with eligibles for sharing. Moreover, by statute and under our processes, it is the licensee, the only entity authorized to use the frequencies assigned for the purposes it has proposed. This fact carries with it considerable leverage in the position it will occupy vis-a-vis TMC, and, hence, it lends assurance that Preston can (will be in a position to) perform its required duties and responsibilities as licensee. In addition, we are adding a condition that Preston furnish reports as to operational matters each six months, and this gives us greater assurance that the facilities authorized to it will be used in a manner consistent with our rules and regulations and policies concerning cooperative use of private microwave stations in the Motor Carrier Radio Service. Accordingly, we do not accept petitioners' contention that TMC must be treated as the real party-in-interest. Nevertheless, in our inquiry and rule making, detailed below, we have included issues on this aspect of the proposed plan—ones designed to determine whether, in general licensing situations, under this type of arrangement, a licensee will be in a position to exercise the degree of responsibility over authorized facilities normally expected and required by rule and statute; or whether the public interest would be better served by amending the rules to permit direct licensing of entities such as TMC; or whether the arrangement should be treated as a common carrier function and regulated as such. However, we do not believe that these matters, in the circumstances of this case, form a condition precedent to our continuing Preston's grant in effect, as we indicate, below.

9. Petitioners next argue that TMC will provide services similar, and in some ways identical, to those available from communications common carriers; that it will charge "fixed rates" for the use made of its facilities by participating motor carriers; that it will "profit" as the entrepreneur in the undertaking; and that it will "assume the financial risk of profit or loss thereon." Petitioners conclude, based on these considerations, that as a matter of fact and of law, TMC is a communications common carrier, and that it should be regulated as such, if ultimately authorized at all to provide the services proposed, citing, in support, "United States et al. v. Drum et al.", 368 U.S. 370 (1962), and a series of other precedents.[4]

---

[1] The petitions asked, variously, that we set aside the grant and dismiss the applications as not meeting Commission statutory and regulatory requirements; set aside the grant and initiate adjudicatory proceedings; or set aside the grant and initiate rule making proceedings.

[2] Chalfont's petition was not filed within the statutory period allowed for such pleadings and, therefore, will not be considered. See section 405 of the Communications Act of 1934, as amended.

[3] Section 93.251(a) sets out specific eligibility criteria for licensing in the Motor Carrier Radio Service. In general, motor carriers engaged in providing "common" or "contract" motor carriage of "property" and "passengers" within and between urban areas are qualified. Additionally, "a corporation" proposing to furnish a "nonprofit radiocommunications service" to its parent or a subsidiary of the parent, and nonprofit corporations or associations organized to provide radio communications to eligibles in the Motor Carrier Radio Service, also qualify.

[4] As mentioned, below the cases cited by petitioners are used principally to draw an analogy between common carrier situations in the transportation industry and the factual situation presented by the Preston proposal, and to argue from this analogy that the Preston arrangement constitutes a common carrier function which should be regulated as such.

VOL 36 166 XUM

10. Responding to these points, Preston argues that the Commission has made it clear in two recent cases[5] that leasing and servicing of radio equipment by third persons to and for eligibles in the "private services" does not necessarily require the conclusion that such third persons are performing common carrier functions.[6] Further, Preston points out, where radio communication systems are involved, there are bound to be similarities in the manner in which facilities are constructed and function and are used, whether this be by licensees in the "private" services or by customers of radio common carriers. Thus, it concludes, this factor alone, that is the similarities to be found in "private" and "public" systems of radio communication, is not sufficient to support the conclusion that common carrier operations are involved, or that these (Preston's) arrangements are necessarily to be regulated as common carriers.

11. Further in this connection, Preston notes that the use of its system is not available through TMC; rather, that access to it is controlled by itself, Preston. In this regard, Preston observes that it, Preston, is not free to select the persons to share, rather that it is restricted and limited in the arrangements it may make by what the Commission has decided in prior allocation and rule-making proceedings, first as to the persons who may use the channels, and then as to the purpose and manner for and in which they may be employed by them. In these circumstances, Preston stresses, there cannot be, as a matter of law, a "holding out to the public" by it of the availability of its system, at least as that term has been traditionally applied in common carrier cases. That element being absent, Preston reasons, it cannot be said that what it proposed to do, here, is a common carrier function. Furthermore, it says, the arrangement is distinguishable from that carried out by common carriers, for without any legal impediment, any of the persons eligible to use its system is also eligible to apply for, and to construct and operate, one identical to it. Customers of common carriers have no corresponding rights, of course, because, stated simply, there are no provisions that permit them to do so. In Preston's view, then, all that it, Preston, asks to do, and all that it, in fact, will do, is to carry out the intent and objectives of the Commission in creating the Motor Carrier Radio Service in the first instance and in allocating frequencies in that service for use by persons it (the Commission) has designated as eligible for such purposes.

12. Further in this regard, the cases cited by petitioners, Preston contends, are not controlling, for they deal, chiefly, with the control of interstate motor carrier operations and involve regulation by the Interstate Commerce Commission whose functions are carried out under a different statute and under a different regulatory scheme (with essentially different purposes and objectives) than that administered by the Federal Communications Commission. Moreover, Preston suggests, this Commission has previously approved leasing arrangements in the mobile radio services very similar to those planned by Preston—ones in which equipment manufacturers lease equipment, service and maintain it, and make it available to licensees in the Safety and Special Radio Services on terms and under conditions which, Preston avers, cannot be distinguished from what Preston and TMC propose in this instance. Therefore, it concludes, it would have been error, both as a matter of law, and on equitable grounds, too, for the Commission to have acted adversely on its proposal.

13. Closely associated with the foregoing arguments, and we are grouping these related contentions together before expressing our opinion, is petitioners' further contention that the Preston-TMC arrangement is not a "cooperative" within the meaning of § 93.4 of the rules;[7] rather, that it is a plan under which TMC will, in practice, "render a communications common carrier service" in a violation of section 214 of the Communications Act and § 93.2 of the Commission's rules.[8] On grounds previously mentioned, Preston argues that its proposal is not a common carrier operation but merely a lease arrangement under which eligibles in the Motor Carrier Service will have available to them, on advantageous terms, the physical facilities they need for communications required in their respective trucking operations. As such, Preston concludes, section 214 of the Communications Act does not apply and, it says, the plan is not one coming within the prohibition of § 93.2 of the rules. Further, Preston stresses that it conceived its plan as a bona fide sharing arrangement, with the "lease" cost of providing the service prorated, on the most equitable and advantageous basis it could devise, among the participants. In it, it sees no conflict whatsoever with the provisions of § 93.2 or with the requirements of § 93.4 of the rules, pointing out that neither it, nor any other persons using the facilities, as licensee or as an eligible in the Motor Carrier Radio Service, will receive any remuneration (profit) for the provision of the facilities or services; and that their use of it, and the benefits that they expect to derive from such use, will be confined to the very things the Commission has authorized in the Motor Carrier Radio Service, and nothing more. Finally, Preston sees the arrangement as one which advances the public interest, with no adverse impact on the common carrier operations of A.T. & T. or of other parties providing similar services, and one which gives motor carriers, as a class, an opportunity to employ the microwave frequencies which have been allocated for their use. In the past, Preston points out, this has not been possible, because, unlike railroads and other similarly situated large concerns, trucking companies, in general, do not have the economic means or the individual communications requirements to justify construction and operation of such microwave facilities for their own, "exclusive" use. In these circumstances, Preston concludes, it would be highly inequitable for the Commission to deny this user group access to these frequencies, simply because the "form" of the arrangement it has worked out is unique and innovative, especially where, as here, it results in a very efficient and effective use of the spectrum.

14. Upon careful review, we find no basic dispute in the facts which form the predicate for the controversy in this area. Thus, both petitioners and Preston acknowledge and agree, in effect, that the facilities of TMC will be available through Preston at the fixed charges to those sharing the microwave system; that TMC will "profit," or at least endeavor to do so; and that it will "assume the financial risk" of making the facilities available to Preston and other participants. These are attributes of common carriers, and if their presence in this situation were controlling, i.e., if other factors were not present to persuade us otherwise, we would be inclined to agree with the position taken by petitioners.

15. Here, however, it must also be recognized, as Preston points out, that in any system of communications using radio there are bound to be similarities. Thus, in each there must be equipment and other facilities and there must be maintenance. Licensees often lease, rather than purchase this equipment, and contract with parties to maintain and service the equipment. This is true both in the private as well as in the common carrier services. In this instance, the only persons to use the system will be of a class we, ourselves, have established as eligibles in the Motor Carrier Service, not members of the general public, as such. They can use the facilities not in unrestricted fashion, but only for those purposes we have authorized in this specific Service. Further, the licensee of the facilities, the person to whom the privilege of use of the channel is accorded, is not permitted to profit from the use of the facilities authorized to it, unlike the case of common carriers, where the licensee is permitted to make the facilities authorized to it available to the public "for hire." Here, Preston plans to use the system to carry on its trucking operations. That is its primary business, and it is for that purpose alone that it wants the facilities.

16. Additionally, as Preston has said, there is no question that, without legal impediment, any of the other participants could apply for, and would be authorized to construct and operate, a system identical to Preston's, and could employ it "exclusively" for its own communications. And had Preston elected to build the system itself (had it had the economic capacity to do so) and then to share its cost with the same persons to participate under the present plan, the arrangement would have been subject to none of the deficiencies argued by petitioners, with the same result following had Preston chosen to lease the system, as an entirety, from TMC. Put another way, we have always permitted licensees to rent or lease their equipment (ownership is not a sine qua non to licensing in the private services), and, in fact, we have encouraged sharing in those situations where it was feasible and was shown to promote the effective and efficient use of the radio spectrum. Thus, while we find Preston's plan to be substantially consistent with the shared-use objective of Section 93.4 of the rules, we do have some reservations about precise arrangements between Preston and TMC under which the system would be made available by TMC to Preston and to other participants as well. Therefore, we want to explore this matter (i.e., the arrangement, itself, and associated factors) in the inquiry and rule-making proceeding we are instituting. Accordingly, we have decided to modify Preston's authorizations to make them subject to the outcome of that proceeding and, pending its conclusion, to permit their continuation, but further conditioned and restricted as mentioned below.

17. On this, we mention that cooperatives in the fixed service, those we have authorized up to the present time, have involved joint usage between one or two and, in a few instances, three or four persons or entities. In those situations, the licensees have either owned or have a proprietory interest in the equipment and related facilities, and the plans have not involved arrangements in which a third party (here TMC), not connected in any way with the licensee, was to own, operate, and maintain and service the system, and to make it available to the licensee, and a large number of other users, at fixed costs. These factors, we acknowledge, set Preston's plan apart from the usual, and we feel give rise to the question whether arrangements of this sort are in complete compliance with § 93.4 of the Commission's rules. These considerations have led us to conclude that this subject should be investigated through rule making. Thus, while we find good and sufficient reasons for permitting Preston to use its system in the manner proposed, we will not permit any expansion of it pending rule making. This will permit Preston to employ the basic authorized microwave system and will allow necessary connections to the terminals of present and any future participants but will preclude extension of the backbone facility. In addition, we will not authorize any arrangement of a similar nature until this rule-making is concluded. This course of action has the advantage of permitting Preston and other eligible trucking companies to use these frequencies, those which have been allocated in the Motor Carrier Radio Service for their purposes, in an effective and economical manner. It will also allow them to satisfy important communications requirements in furtherance of the fundamental activity which provides the basis for their eligibility in this service, and it will permit these things to be done in a way which manifestly promotes the efficient use of this spectrum. Furthermore, the experience we expect to gain from Preston's operation will serve to guide us in future regulation of sharing arrangements of this kind, and this is an advantage to us.

18. Finally, petitioners urge that the services of TMC will be like those available from "specialized common carriers" whose proposals are under consideration in the proceedings in Docket No. 18920. In view of the then pendency of the proceeding, petitioners felt that the immediate grant of Preston's proposal placed TMC in an advantageous competitive position vis-a-vis applicants for specialized common carrier facilities, since such action would have permitted TMC to enter the field at an early date. However, that case, i.e., the proceeding in Docket No. 18920, is now decided in major aspect, and these arguments are, as a consequence, moot.

III. Summary and conclusion on reconsideration and matters relating to initiation of notice of inquiry and notice of proposed rule making. 19. In summary, then, we have concluded that, to the extent indicated, there was standing to raise the arguments in opposition and to have them considered on the merits; and that sufficient good cause factors have been alleged to persuade us to review the matter on reconsideration, rather than hold the petitioners bound by the pre-grant procedures which were available to them. As to the ultimate merit of Preston's arrangement with TMC, we withhold final judgment. However, the plan does appear to provide obvious benefits to the users in addition to promoting a more efficient use of the spectrum. Further, aside from general policy issues raised, petitioners have made no showing from which we could reasonably conclude that the operation of Preston's system will have a substantial adverse impact on their licensed facilities or public offerings.

20. Moreover, while as we said, we will not authorize other arrangement of this type at this time, we see no bar to continuing Preston's authorization, limited and conditioned as set forth, below, because, among other reasons, through the experience we gain from it, together with the data we expect as a result of our inquiry and rule making, we will be in a better position to evaluate proposals of the class exemplified by the Preston arrangement and, also, to determine whether they should be expanded, conditioned, limited, or precluded entirely.

21. In light of the foregoing, then, we ultimately conclude that the public interest would be served by continuing Preston's authorizations on a limited and restricted basis, subject to the following conditions and limitations. First, determination as to whether Preston will be able to continue to furnish service in the future, on a cooperative basis under the plan embodied in its proposal, is conditioned upon the decision reached in the associated inquiry and rule making and, in addition, its authorizations are made subject to such rules and regulations as may be adopted as a result of these proceedings. Second, Preston may add participants, but it may not expand its system beyond that which is presently authorized to it. Third, Preston is to furnish the Commission, within 6 months of commencement of operation and at 6-month intervals thereafter, with reports stating in detail the persons served, the nature of the services provided these users and over what portion of the microwave system and in what areas; the charges made for the services performed and the amounts paid by the participants for these services; and a narrative statement of the means employed by the licensee to assure continuation of its ability to be fully responsive to its duties and obligations—under the Communications Act of 1934, as amended, the rules and regulations of the Commission and applicable Commission policy—as the licensee of the facilities authorized it.

22. In addition, it will be our interim policy not to accept any applications for similar facilities until completion of the rule making proceeding and inquiry initiated herein. It is to be understood, of course, that this policy is not to be construed to preclude cooperative use of fixed stations heretofore authorized, either pursuant to § 93.4 of the Commission's rules or in accord with parallel provisions in the other Safety and Special Radio Services.

23. Nonetheless, as we have said, there are certain features of Preston's plan which we want to evaluate through our rule making procedures; and, before permitting licensing of similar arrangement on a general or unrestricted basis, we are initiating this rule making and inquiry. In this regard, we request interested parties to submit comments as to whether the kind of arrangement for joint usage of microwave systems which, in this instance, is being authorized on a limited basis to Preston should be allowed in the private radio services, generally. In addressing themselves to this basic question, the parties are asked to give their views within the framework of the following issues:

(1) To determine the advantages and disadvantages of further authorization of sharing arrangements such as the one being used by Preston, or similar to it.

[5] The reference, here, is to the Commission decisions in "Coleman Petroleum Engineering Co.," et al., "Memorandum Opinion and Order" (FCC 70-772), 24 FCC 2d 378 (1970), and its "Memorandum Opinion and Order and Notice of Proposed Rule Making," Docket No. 18921, "Multiple Licensing—Safety and Special Radio Services," 24 FCC 2d 510 (1970).

[6] See "Multiple Licensing—Safety and Special Radio Services," op. cit., fn. 5, supra at par. 33, p. 518.

[7] Section 93.4 sets out terms and conditions for "cooperative use" of fixed radio stations. It provides, in general, that "licensees and persons eligible to become licensees of operational fixed stations may make cooperative use of such licensed facilities." The restrictions and conditions on sharing are given in subparagraphs of the rule.

[8] Section 93.2 of the rules states that, "• • • radio facilities authorized under this part shall not be used to render a communications common carrier service."

(2) To determine whether arrangements of this kind can be regulated adequately, in the public interest, under existing rules and procedures governing the private radio services.

(3) To determine whether specific rule provisions should be made for arrangements of the type typified by Preston's plan.

(4) To determine whether the licensee, in this type of arrangement, will be able to exercise the degree of licensee responsibility and control over authorized facilities required by the Communications Act and the rules and regulations of the Commission.

(5) To determine whether the rules governing the Safety and Special Radio Services should be amended to permit the licensing of entities such as Transportation Microwave Corp., to provide communications facilities to eligibles in the private services, and if so, under what terms and conditions.

(6) To determine what the potential for growth of sharing arrangements of this type would be and their potential impact on existing common carrier operations and those established by specialized common carriers under authority granted as a result of the Commission's decision in Docket No. 18920.

(7) To determine whether the Preston arrangement, and those similar to it, would be better regulated as a common carrier radio service, utilizing frequencies allocated to, and under rules and regulations governing those services.

24. We wish to be clear that we intend the questions presented in these issues, and generally in this inquiry and rulemaking proceeding, to apply not only to the specific arrangement embodied in the Preston proposal, but also, broadly, to other plans for cooperative use of fixed station facilities typified by it. Accordingly, the parties are asked to address themselves to the foregoing issues with this in mind. Furthermore, it should be understood that as a result of this proceeding we may, without further inquiry or notice, issue new or modified rules to either expand or limit the kinds of cooperatives we will permit in the private services, or to define the terms and conditions under which expanded sharing of microwave facilities will be allowed, or to preclude any such cooperative use which we determine is not in the public interest; and, additionally, that we may take such other action as we may deem required or desirable to accomplish these objectives, based on the record developed in this proceeding.

25. This action is taken pursuant to section 4 (i) and (j) and 303 and 403 of the Communications Act of 1934, as amended.

26. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before October 5, 1971, and reply comments on or before October 15, 1971. All relevant and timely comments will be considered by the Commission before final action is taken in this proceeding; and the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

27. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments filed shall be furnished the Commission.

28. Responses will be available for public inspection during regular business hours in the Commission's broadcast and docket reference room at its headquarters in Washington, D.C.

29. *Further, it is ordered,* That the foregoing referenced petitions for reconsideration are, to the extent indicated in the opinion, above, granted, and in all other respects denied.

30. *It is further ordered,* That the captioned authorizations are modified and made subject to the terms and conditions set forth at paragraph 21 of this opinion.

Adopted: August 18, 1971.

Released: August 24, 1971.

FEDERAL COMMUNICATIONS COMMISSION,*
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.71-12536 Filed 8-25-71;8:53 am]

[47 CFR Part 64]

[Docket No. 19308; FCC 71-876]

NEW PRIORITY SYSTEM FOR USE AND RESTORATION OF LEASED INTERCITY PRIVATE LINE SERVICES

Notice of Proposed Rule Making

In the matter of amendment of Part 64 of the Commission's rules to provide for a new priority system for use and restoration of leased intercity private line services.

1. Notice is hereby given of proposed rule making in the above entitled matter.

2. The National Industry Advisory Committee has transmitted a proposed revision to FCC Order 70-291 to the Commission for formal consideration.

3. In this proceeding, the Commission proposes to promulgate rules providing for "A Priority System for the Use and Restoration of Leased Intercity Private Line Services," to insure that leased intercity private line services vital to the national interest, both Government and non-Government, will be maintained, to the maximum extent possible at all times.

4. The present system does not include provision for the assignment of priority subcategories. The proposed system, set forth in detail in the Appendix below, would enable the Federal Communications Commission to provide for priority subcategories when certifying priorities to the communications common carriers for use and restoration of leased intercity private line service.

5. Paragraph 6 of the proposed system provides that the FCC will determine an appropriate subcategory designation with respect to non-Federal Government circuits in consonance with established Government procedures and, accordingly, an applicant is not expected to list a subcategory in his FCC Form 915 application for priority certification.

6. FCC Form 915 applications on file with the Commission would not be affected by the proposed proceedings and would be valid applications under the new system available for processing.

7. The proposed amendment to the rules, as set forth above, is issued pursuant to the authority contained in sections 1, 4(i) and 201 thru 205 of the Communications Act of 1934, as amended and Executive Order 11490.

8. Pursuant to the applicable procedures set forth in Section 1.145 of the Commission's rules, interested persons may file comments on or before October 5, 1971, and reply comments on or before October 15, 1971. All relevant and timely comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

9. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments filed shall be furnished the Commission. Responses will be available for public inspection during regular business hours in the Commission's Broadcast and Docket Reference Room at its Headquarters in Washington, D.C.

Adopted: August 18, 1971.

Released: August 23, 1971.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

APPENDIX

Part 64 of the Commission's rules and regulations is amended as follows:

1. Appendix A, Subpart D, Part 64 is revised to read as follows:

Appendix A. Priority system for the use and restoration of leased intercity private line services.

1. This appendix is applicable to communications common carriers and establishes a priority system for use and restoration of leased intercity private line services. These rules provide procedures to insure that leased intercity private line services vital to the national interest will be maintained, to the maximum extent possible. To meet this requirement, this system will govern the proper order of restoration of leased intercity private line services.

2. All communications common carriers shall honor this priority system both as to maintaining leased intercity private line services for essential users, and in restoring such private line service if it should be interrupted, and are expected to incorporate it in their day-to-day operations. In implementing this priority system the following principles will be applied:

* Commissioner Bartley concurring in the issuance; dissenting to the issuance; Commissioner H. Rex Lee absent, and Commissioner Wells dissenting.

[1] Commissioner Johnson abstaining from voting, and Commissioner H. Rex Lee absent.

When necessary, in order to resume a service having a given priority, services having lower or no priorities will be interrupted in the reverse order of priority, starting with nonpriority services. In the event that nonpriority or lower priority leased intercity private line circuits are interrupted to restore higher priority services, the communications common carriers will, when taking such circuits, endeavor, if feasible, to notify the user, giving him the reasons for the preemption. In the event that public correspondence circuits are used to satisfy a requirement for priority leased intercity private line service, idle circuits will be selected first. However, care must be taken not to preempt any circuits used for public correspondence which carry or may reasonably be expected to carry any priority traffic. If it is necessary to use busy public correspondence circuits, the communications common carriers will not normally interrupt conversations having a priority classification.

Prior to a state of war, or a national emergency as proclaimed by the President, it is contemplated that the application of this system of priorities by the communications common carriers will not normally require the preemption of other leased intercity private line services. If preemption is required during such normal times, however, it is authorized and restoration of interrupted services by the communications common carriers will be in the order of priority set forth in these Rules.

It is recognized that, as a practical matter in providing for the restoration of a priority service or services operating within a multiple circuit type of facility (such as a carrier band, cable or multiplex system), lower priority or nonpriority services on parallel channels within the band or system may enjoy restoration as well. Reactivation of such lower priority or nonpriority services resulting therefrom shall not, however, interfere with the expeditious restoration of priority service.

3. The priority system and procedures described herein are applicable to:

(a) U.S. domestic leased intercity private line services, including private line switched network services.

(b) U.S. international leased private line services to the point of foreign entry.

(c) Foreign extension of U.S. international leased private line services to the extent possible by agreement between U.S. communications common carriers and their foreign correspondents, except wherein arrangements exist for the restoration by foreign correspondents.

(d) International leased private line services terminating in or transiting the United States.

The priority system and procedures described herein are not applicable to operational circuits of the communications common carriers. It is recognized that a minimum number of operational circuits are needed by the communications common carriers for circuit reactivation and maintenance purposes. Such minimum number of operational circuits as are needed for these purposes shall have priority of restoration over all other circuits and shall be exempt from interruption for the purpose of restoring other priority services.

4. As used herein:

Circuit means the communications common carriers' specific designation of the overall facilities provided between, and including, terminals for furnishing of service. When the service involves network switching, "circuit" includes those circuits between subscriber premises and switching centers (access lines) and those between switching centers (trunks). Circuit is synonymous with the term service as applied to this Order and FCC Form 915.

Government when used alone means Federal, Foreign, State, county, or municipal government agencies. Specific reference will be made whenever it is intended that leased intercity private line services of a particular level of government are meant; e.g., "Federal Government", "Foreign Government", and similar elements. The term "Foreign Government" shall include coalitions of governments such as NATO, SEATO, OAS, U.N., and Associations of Governments or Governmental Agencies such as Pan American Union, International Monetary Fund, and similar elements.

Private line service means the leased intercity private line service provided by United States communications common carriers engaged in providing domestic and or international telecommunications for intercity communications purposes of customers over integrated communication pathways, including interexchange facilities, local channels and station equipment which are integral components of intercity private line services between specific locations. Service is synonymous with the term circuit as applied to this system and Federal Communications Commission Form 915.

Restoration means the recommencement of leased intercity private line service by patching, rerouting, substitution of component parts of the circuit, or otherwise, as determined by the communications common carrier(s) involved.

Station means the transmitting or receiving equipment, or combination transmitting and receiving equipment, at any location on a premise and connected for private line service.

5. For Federal Communications Commission certification to communications common carriers, the circuit requirement restoration priorities are divided into two groups.

Group A—Circuit requirements certified to the communications common carriers for the Federal Government. This includes foreign government circuit requirements. The Director, Office of Telecommunications Policy will forward priority assignments to the Federal Communications Commission for formal certification.

Group B—Circuit requirements certified to the communications common carriers for the public. This includes circuit requirements of State, county and municipal governments and quasi-State and local government agencies and essential industrial/commercial activities.

State, county, municipal governments, quasi-State and local governments and all industrial/commercial customers, including the industrial/commercial customers earmarked for prearranged participation with the Federal Government, shall submit their requests for priority assignments, using the criteria established in Part 7 hereof, to the Federal Communications Commission on FCC Form 915 (April, 1970).

6. There are four levels of restoration priorities:

Priority 1, Priority 2, Priority 3, and Priority 4.

The Federal Communications Commission will determine an appropriate subcategory designation with respect to non-Federal Government circuits in consonance with established Government procedures.

7. The following criteria will govern qualification for priority certifications for leased intercity private line services:

a. Priority 1 will be applicable only to Federal and foreign government private line services and to those industrial/commercial private line services which are earmarked for prearranged voluntary participation with the Federal Government during an emergency. Service in this category will be strictly limited to only those essential to national survival if attack occurs, and they will satisfy requirements for: obtaining critical intelligence concerning the attack; conducting diplomatic negotiations critical to the arresting or limiting of hostilities; executing command and control of military forces essential to defense and retaliation; providing warning to the nation's population; and maintaining essential Federal Government functions.

b. Priority 2 will be applicable to additional Federal and foreign government private line services and to those additional industrial, commercial private line services which are earmarked for prearranged voluntary participation with the Federal Government during an emergency. Services in this category will be strictly limited to only those essential when attack threatens and they will be required in order to minimize serious danger of: reducing significantly the preparedness of our defense and retaliatory forces; limiting our ability to conduct critical pre-attack diplomatic negotiations to reduce or limit the threat of war; interfering with the effectual direction of the nation's population in the interest of civil defense and their survival; weakening our capability to accomplish critical national internal security functions; and inhibiting our ability to conduct essential Federal Government activities necessary to meet a pre-attack situation.

c. Priority 3 will be applicable to those additional minimum Federal and foreign government services; State, county and municipal government services; quasi-government agencies' services; and industrial commercial services which require early restoration in order to maintain defense posture, our diplomatic posture, and the health and safety of our population in time of any national emergency involving heightened possibility of hostilities. Services in this priority category will be strictly limited to such activities as:

(1) Critical logistic functions, provision of critical public utility and industrial services, and administrative military support functions;

(2) Providing information and instructions to key diplomatic posts;

(3) Securing and disseminating intelligence information;

(4) Maintenance of law and order;

(5) Distribution of essential food and supplies critical to health;

(6) Preparations for air, sea, or ground operations required for safety of life; rescue operations, and movement operations;

(7) Accomplish tasks necessary to insure critical damage control functions;

(8) Preparations for adequate hospitalization;

(9) Continuity of critical Government functions;

(10) Transportation to accomplish the foregoing.

d. Priority 4 will be applicable only to those additional minimum Federal and foreign government; quasi-government agencies; State, county, and municipal government; and industrial/commercial services which are required during any national emergency for maintaining the public welfare and our national economic posture. Services in this priority category will be limited to those needed for continuing or reestablishing our more important financial, economic, and health and safety activities.

e. State, county and municipal government and quasi-State and local government agencies, and industrial commercial services in the priority 3 and 4 categories will be further limited to those where, during an emergency, at least one station on the circuit, or connected circuits if switched service is

involved will be manned continually unless such circuits are automated and under constant surveillance from a remote location.

8. U.S. communications common carriers shall, so far as practicable, effect the restoration of U.S. portions of interrupted international private line services in accordance with this system. In dealing with interrupted foreign portions of international leased private line services, the U.S. communications common carriers should endeavor by advance agreements with their foreign correspondents (except as indicated below), to effect the restoration of private line services in accordance with this system. Lacking such an arrangement, U.S. communications common carriers should handle service restoration in accordance with any system acceptable to their foreign correspondents which meets, or comes closest to meeting, the procedures described herein.

9. To insure the effectiveness of this system of priorities it is required that a rigorous examination be made by users to determine whether the requirements for a private line service justify placing it into one of the priority categories. It should be understood that communication facilities other than private line services may be available to qualified users during emergencies pursuant to Federal Communications Commission Order 69-1113, October 21, 1969.

10. Initial requests for restoration priority assignments which are denied by the Federal Communications Commission may be resubmitted by the requestor for reconsideration after 90 days, unless requirements for the priority have changed.

11. Federal Communications Commission Order 70-291 is hereby superseded by these Rules.

12. Restoration priorities must be realistically applied to available resources. This objective can be achieved only by continuous and close cooperation among agencies of the Federal Government and communications common carriers.

13. Applications for priority certifications for State and local government, and quasi-State and local government agencies, and for industrial commercial private line circuits shall be submitted to the Federal Communications Commission, Washington, D.C. 20554, in triplicate, on FCC Form 915 (revised April 1970) and signed by the head of such government agency or by an officer of the company or organization, as applicable. Requestors will be notified by the Federal Communications Commission of actions taken regarding applications.

14. A periodic review shall be made of those industrial commercial, State and local government (and quasi-State and local government agencies) circuits, which have received a certified priority assignment from the Federal Communications Commission, with the assistance of the communications common carriers, to determine the accuracy of records.

15. State and local government (and quasi-State and local government agencies) and industrial commercial users of private line services having circuits within the priority classifications, shall re-examine their circuit requirements at least every 6 months with the Federal Communications Commission. In any event the user will immediately notify the Federal Communications Commission when such priorities are no longer required.

16. These rules are issued pursuant to section 1, 4(i) and 201 through 205 of the Communications Act of 1934, as amended, and Executive Order 11490, and shall remain in effect until such time as the Commission amends, modifies, or revokes them, or until they are amended or superseded, by the President pursuant to the powers conferred upon him by, and in accordance with the procedures specified in section 606(a) of the Act.

SMALL BUSINESS ADMINISTRATION

[13 CFR Part 121]

DEFINITION OF SMALL BUSINESS FOR PURPOSE OF GOVERNMENT PROCUREMENT OF CUSTODIAL AND JANITORIAL SERVICES

Postponement of Hearing

On July 17, 1971, the Small Business Administration published in the FEDERAL REGISTER (36 F.R. 13277) a notice that it would hold a public hearing on August 17, 1971, on its proposal to decrease from $3 million average annual receipts to $2 million average annual receipts, the definition of a small business concern for the purpose of bidding on Government procurements for custodial and janitorial services.

The hearing has been postponed until Thursday, September 16, 1971. It will be held at 10 a.m., e.d.s.t., on that date in Room 214 of our building at 1441 L Street NW., Washington, D.C. The time for submission of written comment by the general public is also extended to September 16, 1971.

Dated: August 18, 1971.

THOMAS S. KLEPPE,
Administrator.

Department of the Army

INTERAGENCY CIVIL DEFENSE COMMITTEE

Boards and Committees

References: (a) Section 401 of the Federal Civil Defense Act of 1950, as amended, as affected by Reorganization Plan No. 1 of 1958, as amended; (b) Executive Order 10952, "Assigning Civil Defense Responsibilities to the Secretary of Defense and Others," dated July 20, 1961, as amended; (c) Executive Order 10958, "Delegating Functions Respecting Civil Defense Stockpiles of Medical Supplies and Equipment and Food," dated August 14, 1961; (d) Executive Order 11490, "Assigning Emergency Preparedness Functions to Federal Departments and Agencies," dated October 28, 1969; (e) OCD Instruction 5120.1, "OCD Committee Management Program," dated May 26, 1971.

1. *Establishment.* There is hereby established, pursuant to references (a) and (b), the Interagency Civil Defense Committee (hereinafter referred to as the Committee), to aid in assuring that civil defense planning and operations, pursuant to references (c) and (d), within the executive branch will be in consonance with the civil defense plans, programs, and operations of the Secretary of Defense.

2. *Composition of the Committee.* a. The Chairman of the Committee shall be the Director of Civil Defense or his named representative.

b. All dependents and agencies of the Federal Government having civil defense responsibilities under references (c) and (d) are invited to be represented on the Committee.

c. The Office of Emergency Preparedness is being invited to participate by designating observers.

3. *Responsibilities and functions.*—a. *Responsibilities.* (1) The Committee shall advise the Director of Civil Defense in carrying out his responsibilities (reference (b)) in the field of civil defense.

(2) The Chairman shall be responsible for the conduct of committee activities, shall provide secretariat services, and shall coordinate the work of the Committee with the activities of other Government agencies and interagency groups having responsibilities in the field of emergency preparedness.

(b) *Functions.* Committee functions include, but are not limited to:

(1) Promoting cooperation among Federal agencies in the prosecution of civil defense objectives.

(2) Reporting on civil defense developments at national, State, and local levels.

(3) Coordinating and correlating civil defense planning and program implementation at the Federal level.

(4) Recommending measures to assure maximum utilization of the capabilities and technical competence of the Federal establishment to provide for a more effective civil defense system at Federal, State, and local levels.

(5) Advising on policy guidance governing implementation of civil defense plans and operational procedures and on such other matters as the chairman may request.

4. *Committee management and reports*—a. *Management.* The chairman, or his named representative, shall administer activities of the Committee in accordance with reference (e) above.

b. *Reports.* Information on the Committee shall be included in the International and Interagency Committee Management Report (RCS DD-A(A)923), as prescribed by reference (e) above.

5. *Duration of Committee.* The Committee shall continue in existence until June 30, 1972, or whenever the mission is completed, whichever is earlier.

6. *Cancellation.* Notice of establishment of Interagency Civil Defense Committee published July 23, 1970 (35 F.R. 11822) is hereby canceled.

JOHN E. DAVIS,
Director of Civil Defense.

[FR Doc.71-12492 Filed 8-25-71;8:48 am]

REGIONAL DIRECTORS, OFFICE OF CIVIL DEFENSE

Delegation of Authority

References: (a) Executive Order 10952, dated July 20, 1961, "Assigning Civil Defense Responsibilities to the Secretary of Defense and Others" (26 F.R. 6577), as amended; (b) Department of Defense Directive 5160.50 "Civil Defense Functions" dated March 31, 1964 (29 F.R. 5017); (c) "Organization and Operation of the Office of Civil Defense Within the Office of the Secretary of the Army and Delegation of Administrative Authorities for Civil Defense Functions," dated April 1, 1964 (29 F.R. 50171; (d) Delegations of Authority published at 29 F.R. 11852, 11853, August 19, 1964, as amended by Delegation of Authority published at 36 F.R. 11457, June 12, 1971 and 36 F.R. 12318, June 30, 1971.

Section 4 (Regional Directors) of reference (d) is amended as follows:

1. By revision of subsection 4(d), to read as follows:

(d) Concerning personal property donated for civil defense purposes under section 203(j) of the Federal Property and Administrative Services Act of 1949, as amended, 40 U.S.C. 484(j), and having an original single item acquisition cost to the United States of two thousand five hundred dollars ($2,500) or more but less than one hundred thousand dollars ($100,000); subject to the disapproval of the Administrator of General Services within 30 days after notice to him of any action to be taken—(1) determining and enforcing compliance with the terms, conditions, reservations, and restrictions contained in any instrument by which such property was transferred; (2) reforming, correcting, or amending any such instrument; and (3) granting releases from any of the terms, conditions, reservations, and restrictions contained in, and releasing to the donee any right or interest reserved to the United States by, such instrument, if the Regional Director determines that the property so transferred no longer serves the purpose for which it was donated or that the release will not prevent accomplishment of such purpose:

Provided, That any such release may be granted on, or made subject to, such terms and conditions as the Regional Director shall deem necessary to protect or advance the interests of the United States.

2. By addition of a new subparagraph 4(l), to read as follows:

(l) Determining, on a case basis, that the loan of Federal personal property to an Office of Civil Defense financial assistance program applicant will result in a reduction in cost to the Government or enhancement of the civil defense capability accruing from the project, neither or both, as the case may be; entering into and executing agreements (OCD Forms 251 and 251-a) for the loan of Federal personal property to fulfill civil defense contributions program objectives; and taking such other action, necessary to carry out the loan program, as provided in Part F, Chapter 5, Appendix 5, Federal Civil Defense Guide.

This amendment is effective immediately.

Dated: August 12, 1971.

JOHN E. DAVIS,
Director of Civil Defense.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Serial No. Idaho 016388]

IDAHO

Notice of Proposed Withdrawal and Reservation of Lands; Addition

AUGUST 18, 1971.

In F.R. Doc. 65-7082, page 8592 of the issue for July 7, 1965, as amended by F.R. Doc. 65-8765, page 10329 of the issue for August 19, 1965; F.R. Doc. 65-9237, page 11261 of the issue for September 1, 1965; and F.R. Doc. 65-13608 of the issue for December 21, 1965, the land description is further supplemented for the Dworshak dam and reservoir project to include those lands being acquired through an exchange with the State of Idaho under the Taylor Grazing Act as described below:

BOISE MERIDIAN, IDAHO

T. 38 N., R. 2 E.,
Sec. 4, S½SW¼SW¼;
Sec. 5, W½ of lot 1, lots 2, 3, W½SE¼NE¼, SW¼NE¼, SE¼NW¼, NE¼SW¼, NE¼SE¼SW¼, W½SE¼, SE¼SE¼, S½NE¼SE¼, NW¼NE¼SE¼;
Sec. 8, NE¼SW¼NE¼;

MONTANA

Order Providing for Opening of Public Lands; Correction

AUGUST 19, 1971.

In F.R. Doc. 71-11180 appearing at page 14407 in the issue of Thursday, August 5, 1971, the following corrections should be made:

1. The document should be headed with serial number "Montana 19022."

2. The land description in Sec. 25, T. 26 N., R. 38 E., should read SE¼NE¼ and E½SE¼.

ROLAND F. LEE,
Chief, Branch of Lands and Minerals Operations.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

NATIONAL FOREST LAND DESCRIPTIONS

Boundary Changes; Correction

The following corrections are made in National Forest land descriptions published as general notices in the referenced issues of the FEDERAL REGISTER:

1. F.R., Vol. 34, No. 2, January 3, 1969, page 88.

MANISTEE NATIONAL FOREST, MICH.

T. 19 N., R. 17 W., all that part of section 6 lying north of Big Sable River, add section 5 so description will read: "all that part of sections 5 and 6 lying north of the Big Sable River."

2. F.R., Vol. 36, No. 123, June 25, 1971, page 12117.

CLARK NATIONAL FOREST, MO.—LANDS EXCLUDED

a. T. 34 N., R. 4 E., sec. 18, delete "N½W½, NW¼SE¼;" and add "N½ NE¼, Lot 1 SW¼, SE¼;".

b. T. 34 N., R. 4 W., sec. 19, lots 1 and 3 NE¼, correct "NE¼," to read "NW¼,".

WAYNE NATIONAL FOREST, OHIO, OHIO COMPANY SURVEY

T. 6 N., R. 12 W., add sec. "35" and delete "35" from fractional secs.

HOOSIER NATIONAL FOREST, IND.

T. 3 N., R. 1 W., add "Sec. 31, N½ SW¼."

ALLEGHENY NATIONAL FOREST, PA.

a. In the 17th line from the beginning, delete "northwesterly" and substitute "southwesterly".

b. In the 61st line from the beginning, delete the comma between the words "southwesterly" and "right-of-way." and add the words "along the westerly".

Effective date. This order shall become effective on the date of its publication in the FEDERAL REGISTER (8-26-71).

T. K. COWDEN,
Assistant Secretay.

AUGUST 23, 1971.

CETRIMONIUM BROMIDE VAGINAL AEROSOL FOAM

Drugs for Human Use; Drug Efficacy Study Implementation

Correction

In F.R. Doc. 71-11292 appearing on page 14512 in the issue of Friday, August 6, 1971, the word "Vega-Spray" appearing in the fifth line should read "Vaga-Spray".

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGFR 71-76A]

AMCHITKA ISLAND, ALASKA

Security Zone; Correction

J. A. Palmer, Rear Admiral, U.S. Coast Guard, Commander, Seventeenth Coast Guard District, has changed the effective date of the Security Zone for Amchitka Island, Alaska, from Wednesday, August 25, 1971 to Tuesday, August 31, 1971, and the termination date from Thursday, October 14, 1971 to Wednesday, October 20, 1971. Accordingly, the FEDERAL REGISTER F.R. Doc. 71-11140 appearing on page 14344 of the August 4, 1971 issue of the FEDERAL REGISTER is corrected in the first sentence of the security zone order by changing "Wednesday, August 25, 1971" to "Tuesday, August 31, 1971" and "Thursday, October 14, 1971" to "Wednesday, October 20, 1971".

Dated: August 23, 1971.

R. E. HAMMOND,
Rear Admiral, U.S. Coast Guard, Chief, Office of Operations.

Office of Pipeline Safety

[Docket No. OPS-5A]

CAST IRON PIPE RESEARCH ASSOCIATION

Denial of Petition for Reconsideration

On June 25, 1971, the Department of Transportation issued Federal safety standards for the control of corrosion on metallic gas pipelines and pipeline facilities (36 F.R. 12297). These standards provided for the control of external corrosion on buried pipelines through the use of bonded coatings and supplemental cathodic protection. On July 1, 1971, the Cast Iron Pipe Research Association (CIPRA) petitioned for reconsideration of these standards and for an amendment that would provide an alternative method of corrosion control for cast and ductile iron pipe by utilizing loose polyethylene encasement. In evaluating this petition, the Department has carefully reviewed all material provided by CIPRA and by other interested persons. This includes the transcript of a hearing held on July 20, 1970, oral and written comments submitted to the Department and to the Technical Pipeline Safety Standards Committee (TPSSC), the petition itself with supporting material, and comments by other interested persons supporting the petition.

The Federal safety standards were developed after review of the various practices used by the gas pipeline industry and by other industries to control corrosion on underground piping. Consideration was given to theoretical applications of these practices, as well as research and test data, and operational experience. In view of the extremely hazardous nature of natural gas leaks and the large number of such leaks caused by corrosion of pipelines, the Department concluded that only well-proven methods of corrosion control should be used on natural gas pipelines. The Federal safety standards reflected this conclusion by requiring the use of bonded coatings and cathodic protection for control and prevention of corrosion on gas pipelines, methods which are supported by extensive operational experience. Based on the information available during the rule-making proceeding, the use of a loose polyethylene encasement did not appear to be an acceptable alternative. Upon further consideration, the Department concludes that the adequacy of this method for control of corrosion has not yet been established. Therefore, the Federal safety standards will not be modified to permit its use.

In making this determination careful consideration was given to both the technical rebuttal to the rule and to other rebuttal information that was presented by the petitioner in support of the petition for reconsideration. On analysis this rebuttal material failed to substantiate the position of the petitioner. Rather, the state-of-the-art and the knowledge that is available overwhelmingly favor the previous conclusion that the use of a loose polyethylene encasement is unacceptable for use on gas pipelines, even though it may meet levels of acceptability for pipelines of other products.

In discussing the safety standards, the petitioner has made several references to the Technical Pipeline Safety Standards Committee established under the Natural Gas Pipeline Safety Act. It was suggested that the Committee's consideration of the safety standards was not as thorough and informed as it could have been and that the Committee's approval of the standards cannot be said to indicate its rejection of the methods of corrosion control proposed by the petitioner. This argument by petitioner indicates a lack of understanding of the function of the TPSSC under the Natural Gas Pipeline Safety Act. The Committee does not participate with the Department in the preparation of the proposed standards, nor does it review the Department's actions or justification for recommending proposed standards. On the contrary, the Committee's function is to apply its own independent knowledge and judgment to the standards proposed by the Secretary and determine whether, notwithstanding the Secretary's decision, it considers the proposed standards to be technically feasible, reasonable, and practicable. Thus it appears that the Committee does not consider regulations precluding the use of a loose polyethylene encasement to be unreasonable or impracticable.

It should be noted that the Act requires each member to be "* * * experienced in the safety regulation of the transportation of gas and pipeline facilities or technically qualified by training and experience in one or more fields of engineering applied in the transportation of gas or the operation of pipeline facilities." Four members are selected from the natural gas industry itself, and three of these must be actively engaged in the operation of gas pipelines.

Although one member of the Committee is a recognized authority in pipeline corrosion control and his opinion would be very carefully considered by other members of the Committee, nevertheless, each memer of the Committee is qualified to evaluate proposed standards for corrosion control and to reach his own judgment on them. Further, the members of the Committee, particularly the industry members, have a large reservoir of experience and expertise available from the corrosion personnel within their own organizations. Since the Department had specifically requested the Committee to consider the loose polyethylene encasement, and since it received materials on the subject from both the Department and the petitioner, the Committee had adequate opportunity to utilize this experience and expertise, and it is only fair to assume it did so. Therefore the petitioner is not correct in saying that the Committee members "* * * relied essentially in this particular area, on the staff of OPS and one member of the Committee for expertise."

In consideration of the foregoing, the petition of the Cast Iron Pipe Research Association for reconsideration of the Federal safety standards on the control of gas pipeline corrosion, and for an amendment of those standards to permit the use of a loose polyethylene encasement for cast and ductile iron pipe, is hereby denied. This denial of petition is issued under the authority of the Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. section 1671 et seq.), Part 1 of the Regulations of the Office of the Secretary of Transportation (49 CFR Part 1), and the delegation of authority to the Director, Office of Pipeline Safety, dated November 6, 1968 (33 F.R. 16468).

Issued in Washington, D.C., on August 23, 1971.

JOSEPH C. CALDWELL,
Acting Director, Office of Pipeline Safety.

CIVIL SERVICE COMMISSION

INTERGOVERNMENTAL PERSONNEL ACT OF 1970

Notice of Formulae for Allocation of Funds Available for Grants

Pursuant to 5 CFR 900.301(a), 36 F.R. 15515, August 17, 1971, notice is hereby given of the formulae for the allocation of funds available for grants as required by sec. 506 of the Intergovernmental Personnel Act of 1970, Public Law 91-648, 85 Stat. 1927.

PARAGRAPH 1. *Formula for the allocation of grant funds among the 50 States and the District of Columbia.* A State's percentage allocation is equal to the average of its percentage of the total national population and its percentage of the nationwide total of State and local government employees, excluding employees of special districts. (The employees of special districts were excluded from the formula since the Civil Service Commission (hereinafter "The Commission"), is authorized to make grants only to State and general local governments.)

The dollar allocation for each State and the District of Columbia is obtained by multiplying its percentage allocation by the amount of the formula grant funds, which is $10 million for fiscal year 1972.

When the dollar allocation for a State is less than $60,000 the Commission will add to the allocated sum an additional amount out of its 20 percent discretionary funds which, when added to the amount resulting from the formula allocation, will increase the State's total allocation to $60,000.

The allocation provided in this paragraph is to each State as a whole. As described in paragraph 2, the Commission will further allocate each State's allocation to meet the needs of both the State government and local governments within the State.

PAR. 2. *Formula for the allocation of funds within each State*—A. *Allocation of funds to meet the needs of the State government.* (1) The State government's percentage allocation is equal to the average of the State government's percentage of the total number of State and general local government employees in the State and its percentage of the annual total dollar amount of State and general local government direct general expenditures.

(2) The dollar allocation for the State government is obtained by multiplying its percentage allocation by the dollar allocation for the State as a whole:

B. *Allocation formula for meeting the needs of general local governments.* (1) The local governments' percentage allocation is equal to the average of the general local governments' percentage of the total number of State and general local government employees in the State and the general local governments' percentage of the annual total dollar amount of the State and general local government direct general expenditures.

(2) The dollar allocation for general local governments within a State is obtained by multiplying its percentage allocation by the dollar allocation for the State as a whole.

PAR. 3. *Intended beneficiaries of the formula.* A. The total number of State and general local government employees and the total dollar amount of the State and local government direct general expenditures used in this formula exclude the employees and expenditures of special districts and independent school districts. The State government and local government allocations are based on data which pertain to the eligible governmental recipients of grants—State governments and general local governments.

B. Section 506 of the Intergovernmental Personnel Act (84 Stat. 1927) establishes a minimum allocation of 50 percent of the total State allocation for meeting the needs of local governments in each State. If the formula results in a percentage allocation of less than 50 percent for meeting the needs of local governments in a State, the local government allocation will be adjusted upward to 50 percent.

ALLOCATIONS OF FISCAL YEAR 1972 INTERGOVERNMENTAL PERSONNEL ACT FORMULA GRANT FUNDS

State	Total State allocation	State government allocation	Local government allocation
Alabama	$163,000	$81,500	$81,500

ENVIRONMENTAL PROTECTION AGENCY

ANSUL CO.

Notice of Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 2F1181) has been filed by The Ansul Co., Marinette, Wis. 54143, proposing establishment of a tolerance (21 CFR Part 420), for negligible residues of the herbicide methanearsonic acid (calculated as As_2O_3) in or on the raw agricultural commodity citrus fruit at 0.35 part per million resulting from application of the disodium and monosodium salts of methanearsonic acid.

The analytical method proposed in the petition for determining residues of the herbicide consists of reduction of the residues to arsine and spectrophotometric measurement after reaction with silver diethyldithiocarbamate in pyridine solution.

Dated: August 23, 1971.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

[Docket No. CP71-29]

COLORADO INTERSTATE GAS CO.

Notice of Petition to Amend

AUGUST 16, 1971.

Take notice that on August 6, 1971, Colorado Interstate Gas Co., a Division of Colorado Interstate Corp. (petitioner), Post Office Box 1087, Colorado Springs, CO 80901, filed in Docket No. CP71-29 a petition to amend the order issued pursuant to section 7(c) of the Natural Gas Act in said docket on November 16, 1970 (44 FPC), by authorizing a short-term exchange of natural gas with Mountain Fuel Supply Co. (Mountain), for the 1971-72 winter heating season, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

The order of November 16, 1970, authorized, inter alia, the exchange of natural gas between petitioner and Mountain. Under the terms and conditions of this order, Petitioner was to deliver up to 30,000 Mcf of natural gas per day, but not to exceed 2,000,000 Mcf seasonally, during the period from November 1, 1970, through March 31, 1971, subject to the availability of said volumes in excess of the requirements of Petitioner's customers. Mountain is to redeliver an equivalent volume of natural gas at a rate not to exceed 10,000 Mcf during the period from April 1, 1972 through October 31, 1972.

Petitioner states that it has entered into an agreement with Mountain to provide for a similar exchange agreement for the 1971-72 winter heating season and requests that the authorization hereinbefore granted for the exchange of natural gas be extended to permit the exchange during the 1971-72 heating season.

Mountain has filed with the Commission an application pursuant to section 7(a) of the Natural Gas Act for an order of the Commission directing petitioner to sell and deliver 30,000 Mcf of natural gas per day to Mountain on a long-term basis. Petitioner states that the long term service requested by Mountain is incompatible with the deliveries proposed in Docket No. CP71-29; and therefore, petitioner requests that the instant petition be consolidated for hearing with the application of Mountain in Docket No. CP72-5 and that all common and interdependent issues be resolved on a common record.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before September 7, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.71-12523 Filed 8-25-71;8:51 am]

[Docket No. CI72-94]

DALCO OIL CO.

Notice of Application

AUGUST 17, 1971.

Take notice that on August 10, 1971, Dalco Oil Co. (applicant), 1210 Mercantile Bank Building, Dallas, Tex., filed on Docket No. CI72-94 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Northern Natural Gas Co. (Northern) from the Gomez Field, Pecos County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas to Northern within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and that it proposes to continue said sale for 24 months commencing September 21, 1971, at the rate of 28 cents per Mcf at 14.65 p.s.i.a. within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). The contract between applicant and Northern provides that deliveries may be taken by Northern for up to 6 additional months if necessary to allow Northern to take gas for which payment has been made.

Applicant, small producer certificate holder in Docket No. CS66-96, states that it has limited its proposed sale to Northern to 24 months in view of the challenges to the Commission's Order No. 428, issued March 18, 1971 (36 F.R. 5598), which amended the Commission's certificate procedure for small producers. Applicant states further that, if at the end of the term of the proposed sale it appears to applicant that Order No. 428, as amended, has been affirmed and is no longer subject to review or modification and that applicant's status and rights as a small producer have not been adversely affected as of then, applicant has agreed with Northern that it will enter into a long-term contract for a 20-year small producer sale of the same production.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before September 3, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.71-12519 Filed 8-25-71;8:50 am]

[Docket No. CP72-36]

LONE STAR GAS CO.

Notice of Application

AUGUST 17, 1971.

Take notice that on August 10, 1971, Lone Star Gas Co. (Applicant), 301 South Harwood Street, Dallas, TX 75201, filed in Docket No. CP72-36 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities for the rendition of natural gas service to the Naracco Mobile Home Park (Naracco), Denton County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, applicant proposes to construct and operate a tap and regulator station at approximate station 1258+57 on its 16-inch Line F located approximately 658 feet west of Naracco, and to use these facilities in conjunction with a natural gas distribution system for the rendition of initial natural gas service to Naracco. Applicant states that Naracco is an unincorporated community, presently under construction wherein the estimated third year peak day and annual natural gas requirements will be 124 Mcf and 6,666 Mcf respectively. The estimated cost of the tap and regulating facilities is $1,115, which cost applicant states will be financed from working capital.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 10, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.71-12524 Filed 8-25-71;8:51 am]

[Docket No. RP72-13]

LOUISIANA-NEVADA TRANSIT CO.

Order Suspending Proposed Tariff Sheets, Denying Petition to Reject, Permitting Intervention, Fixing Date of Hearing, and Specifying Procedures

AUGUST 17, 1971.

Louisiana-Nevada Transit Co. (LNT), filed on May 14, 1971, as supplemented on July 20, 1971, written reports, pursuant to paragraph (A)(2) of the Commission's Order No. 431, issued April 15, 1971, in Docket No. R-418, and tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 1, consisting of Fourth Revised Sheet No. 3A and Original Sheets Nos. 3B, 12C, and 12D, to become effective August 19, 1971, in order to establish curtailment procedures which LNT will employ in the event curtailments of gas deliveries become necessary. Notice of the filing was issued July 28, 1971, and published in the FEDERAL REGISTER on August 4, 1971, 36 F.R. 14355.

Proposed Original Sheet No. 12C would add a new section 10 to the general terms and conditions of LNT's tariff providing that if curtailment of deliveries becomes necessary for any reason whatsoever, deliveries to direct sale customers served under interruptible contracts and interruptible overrun gas delivered to LNT's sole resale customer will be curtailed proportionately or interrupted entirely to the extent necessary to protect deliveries to customers served under firm contracts. Thereafter, its direct sale customers and one resale customer served under firm contracts shall be entitled to such proportion of the total impaired deliveries from LNT's pipeline as the maximum daily quantity of gas which LNT is then obligated to deliver to each such customer bears to the total maximum daily quantities of gas LNT is then obligated to deliver to all customers affected by such impairment, provided that at such time as it becomes necessary to reduce deliveries below the customer's firm maximum daily quantity which LNT is obligated to deliver, priority shall be given to deliveries for domestic consumers' use, up to the volume of such firm maximum daily quantity.

LNT also proposes to add a new section 11 to the general terms and conditions stating that until it can obtain adequate additional gas supplies, its policy concerning additional requests for gas will be not to add any new firm customers or increase its obligation to deliver additional firm maximum daily quantities to any of its existing customers. Additionally, LNT proposes to insert in its Rate Schedule G-1 a new provision which would permit it to charge an unauthorized overrun penalty of $10.00 per Mcf for any gas taken by any buyer in excess of two percent of LNT's maximum daily delivery obligation to such buyer, or 100 Mcf in excess of such delivery obligation, whichever is greater.

The city of DeQueen, Ark. (city), on August 3, 1971, filed a timely petition seeking leave to intervene as well as a petition to reject LNT's proposed changes in its tariff. It states that it operates a municipally owned distribution system which obtains all of its natural gas from LNT and that it is the only customer which purchases gas from LNT for resale.

Four principal grounds are given by city in support of its petition asking that LNT's filing be rejected. (1) It claims that LNT's filing is in reality a rate increase and should be rejected for failure to comply with § 154.63(b)(4) of the Commission's regulations under the Natural Gas Act. Its allegation that the filing is a rate increase is based on the fact that LNT proposes to insert unauthorized overrun penalty provisions in its Rate Schedule G-1 under which only City now purchases gas. City contends that this overrun penalty will permit LNT to curtail deliveries to City below the volumes previously obtained, while enabling LNT to maintain firm deliveries to Ideal Cement Company, with the result that City will be required to subsidize the operations of the cement company. (2) City argues that the proposed tariff sheets incorrectly list LNT's firm industrial customers and the volumes of gas which they are entitled to purchase so that if the tariff sheets were to be made effective, they would permit LNT to discriminate against city by increasing LNT's firm obligations to its direct industrial customers at the expense of the overrun volumes which city has heretofore received. (3) City contends that LNT's filing seeks to establish conclusions which relate to factual and legal issues which are still being tried in the hearing now being held concerning its application in Docket No. CP71-164 wherein city is seeking an order from the Commission under section 7(a) of the Natural Gas Act requiring LNT to increase the volumes of gas which City is entitle to receive from LNT. (4) City avers that LNT's Form 15 shows that LNT has adequate gas reserves and that its allegations of an impending shortage of gas to meet its maximum daily delivery obligations are inconsistent with the data contained in its Form 15.

While city's petition to reject appears to raise factual and legal issues indicating that an evidentiary proceeding will be required to determine whether LNT's proposed tariff changes are unjust, unreasonable, unduly discriminatory, or otherwise preferential, city has not advanced any objections to the proposed tariff sheets which would justify their rejection.

City's first argument to the effect that LNT's filing of a proposed unauthorized overrun penalty constitutes a rate increase is refuted by § 154.63(a) of the Commission's regulations which specifically cites a change in penalty provisions as an example of a tariff filing which is not considered to be a change in rate level. As a general rule pipeline sellers do not install metering and regulating equipment to terminate deliveries after a specific quantity of gas has been delivered. Consequently, they must rely upon their customerss' willingness to reduce their takes when there is a gas deficiency. For that reason, among others, unauthorized overrun penalties are common tariff provisions designed to insure that customers will act responsibly when gas curtailments are necessary.

As to city's argument that LNT is seeking to have conclusions made in this proceeding which relate to the legal and factual issues involved in the proceeding in Docket No. CP71-164, there is necessarily some similarity between the facts involved in the two cases because gas supply and pipeline capacity have a bearing on both curtailment proceedings and proceedings conducted under section 7(a) of the Act. However, questions as to whether LNT's proposed curtailment provisions are just and reasonable will have to be determined on the facts to be developed in this proceeding, while entirely different issues will have to be determined in deciding whether LNT should be ordered to deliver additional gas to city at the completion of the hearing in Docket No. CP71-164.

The remaining points advanced by city in support of its petition to reject LNT's proposed tariff changes, such as the question of how curtailments should be applied to city's purchases in view of the fact that its service agreement with LNT has expired, and the question of whether LNT's gas supply has actually been depleted to such an extent that curtailments of firm maximum daily delivery obligations will be necessary, are dependent upon factual determinations which will have to be made on the basis of the record to be developed in the hearing which is hereinafter ordered.

City alternatively requests that LNT's proposed tariff sheets be suspended for the full statutory period if its petition to reject the tariff sheets is denied. In view of the fact that LNT's filing did not give specific details concerning its present gas supply situation and did not state that it would necessarily have to invoke the proposed curtailment provisions, it appears to be appropriate in carrying out the provisions of the Natural Gas Act to suspend them for the full statutory period pending a hearing to determine their justness and reasonableness. In that connection, it should be noted that the effective date requested by LNT is August 19, 1971, which is one day short of the 30-day notice period required by § 154.22 of the Commission's regulations. Since LNT did not ask for a waiver of the 30-day notice provision and gave no reason for failure to give the required 30 days' notice, the earliest date on which the proposed tariff sheets could become effective would be August 20, 1971. Therefore, the suspension period will extend to January 20, 1972, or 5 months from August 20, 1971.

In addition to the aforementioned pleadings filed by city, petitions requesting leave to intervene in this proceeding were also timely filed by Ideal Basic Industries, Inc., Cotton Valley Solvents Co., and Hope Brick Works. All of the petitioners state that they are direct firm industrial customers of LNT and that their interests may be adversely affected by the outcome of the proceeding. One of the petitioners, Cotton Valley Solvents Co., states that it is opposed to city's position insofar as the city seeks to have deliveries of gas to it assigned a lower priority than that set forth in LNT's tariff filing.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the proposed changes in LNT's FPC Gas Tariff and that the proposed tariff sheets hereinbefore specified be suspended, and the use thereof be deferred as herein provided.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the disposition of this proceeding be expedited in accordance with the procedures set forth below.

(3) The participation of the above-named petitioners may be in the public interest.

(4) Good cause has not been shown to grant the city of DeQueen's petition to reject LNT's tariff filing except for the alternative request that the proposed tariff sheets be suspended for the full statutory period.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing shall be held commencing October 27, 1971, at 10 a.m., e.d.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, concerning the lawfulness of the curtailment provisions contained in LNT's FPC Gas Tariff as proposed to be revised herein. The hearing shall begin with admission into the record of LNT's direct case, subject to appropriate motions, followed by cross-examination of LNT's witnesses. Except for very brief recesses which may be allowed by the presiding examiner upon a showing of good cause therefor, the hearing shall go forward immediately with cross-examination of witnesses sponsoring any direct testimony previously served by the interveners and the Commission's staff, followed by oral rebuttal, if any, by LNT with cross-examination thereon.

(B) Pending such hearing and decision thereon, the proposed revised tariff sheets specified in the first paragraph of this order are hereby suspended and the use thereof is deferred until January 20, 1972, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) On or before September 27, 1971, LNT and supporting parties, if any, shall prepare and file with the Commission and serve on the presiding examiner, the Commission's staff, and all parties to this proceeding their direct testimony and exhibits in support of the proposed tariff sheets submitted on July 20, 1971. LNT's presentation should include (1) an explanation of the methods used to determine the list of purchasers and firm delivery obligations set forth on proposed Original Sheets Nos. 12C and 12D, (2) an explanation of how its proposed curtailment plan would be implemented, including its interpretation of how the proposed unauthorized overrun penalty would be applied, and (3) data concerning the gas supplies presently available to it, together with a reconciliation between its Form 15 and its current supply situation if the evidence presented herein is inconsistent with data previously submitted in its Form 15.

(D) Any parties or the Commission's staff planning to present testimony in opposition to LNT's proposed curtailment procedures shall, on or before October 18, 1971, file and serve on the presiding examiner, the Commission's staff, and all parties prepared written testimony in support of their positions.

(E) The above-named petitioners are hereby permitted to become interveners in this proceeding subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such interveners shall be limited to matters affecting asserted rights and interests specifically set forth in their petitions for leave to intervene: *And provided, further,* That the admission of such interveners shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(F) A presiding examiner to be designated by the chief examiner for that purpose (see Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(G) The city of DeQueen's petition to reject filed August 3, 1971, is denied except to the extent that the alternative request for suspension of the proposed tariff sheets has hereinbefore been granted.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. CP66-208]

MICHIGAN WISCONSIN PIPE LINE CO.

Notice of Petition to Amend

AUGUST 17, 1971.

Take notice that on August 2, 1971, Michigan Wisconsin Pipe Line Co. (petitioner), One Woodward Avenue, Detroit, MI 48226, filed in Docket No. CP66-208 a petition to amend the order of the Commission heretofore issued in said docket pursuant to section 7(c) of the Natural Gas Act on May 24, 1966 (35 FPC 777), by authorizing an increase in the maximum reservoir pressure of the Loreed Storage Field, located in Osceola and Lake Counties, Mich., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The order of May 24, 1966 authorized, inter alia, the construction and operation of facilities and the development of the storage capacity of the Loreed Field. Included among the conditions imposed by the Commission on this project are a maximum inventory which is not to exceed 49,300,000 Mcf of natural gas and a maximum reservoir pressure of 2,000 p.s.i.a.

Applicant states that the operating experience gained since the project's inception indicate that progressively elevating the maximum reservoir pressure to 2,240 p.s.i.a., will accelerate the displacement of water and increase the capability of the reservoir to store the ultimate projected volume of 31,600,000 Mcf of working gas. Therefore, applicant requests that the order heretofore issued in said docket be amended to permit an increase to 2,240 p.s.i.a. maximum reservoir pressure for the Loreed Field.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before September 7, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Project 1855]

NEW ENGLAND POWER CO.

Notice of Issuance of Annual License

AUGUST 13, 1971.

On June 23, 1969, New England Power Co., licensee for Bellow Falls Project No. 1855 located in Windham and Windsor Counties, Vt., and Cheshire and Sullivan Counties, N.H., on the Connecticut River filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1-16.6). Licensee also made a supplemental filing pursuant to Commission Order No. 384 on February 24, 1970.

The license for project No. 1855 was issued effective January 1, 1938 for a period ending June 30, 1970. An annual license was issued from the original date of expiration until June 30, 1971. In order to authorize the continued operation of the project pursuant to section 15 of the Act pending completion of licensee's application and Commission action thereon it is appropriate and in the public interest to issue an annual license to New England Power Co. for continued operation and maintenance of Project No. 1855.

Take notice that an annual license is issued to New England Power Co. (licensee) under section 15 of the Federal Power Act for the period July 1, 1971 to June 30, 1972 or until Federal takeover; or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Bellow Falls Project No. 1855, subject to the terms and conditions of its license.

KENNETH F. PLUMB,
Secretary.

[FR Doc.71-12522 Filed 8-25-71;8:51 am]

[Docket No. CP72-34]

TEXAS EASTERN TRANSMISSION CORP.

Notice of Application

AUGUST 18, 1971.

Take notice that on August 9, 1971, Texas Eastern Transmission Corp. (applicant), Post Office Box 2521, Houston, TX 77001, filed in Docket No. CP72-34 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of approximately 4,500 horsepower of additional compression and related facilities at its Joaquin, Tex., Compressor Station, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the compressor facilities proposed herein are required at the Joaquin Station to bring additional supplies of natural gas into its North Louisiana pipeline system to compensate for the steady decline in natural gas reserves and deliverability available from sources presently attached to said system. The estimated cost for the installation of the 4,500 horsepower unit is $2,139,000, which cost applicant states will be financed initially by use of revolving credit.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 10, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject

to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP71-224]

UNITED GAS PIPE LINE CO.

Order Granting Interventions, Setting Date for Filing of Testimony and Fixing Date of Hearing

AUGUST 16, 1971.

On March 22, 1971, pursuant to section 7 of the Natural Gas Act, United Gas Pipe Line Co. (Applicant) filed an application in Docket No. CP71-224 for a certificate of public convenience and necessity authorizing it to transport and deliver up to 12,200 Mcf of gas per day through applicant's existing system for Jefferson Lake Sulphur Co. (Jefferson), a subsidiary of Occidental Petroleum Corp. (Occidental), for use in sulphur production operations at Lake Hermitage Dome, Plaquemines Parish, La. United maintains that the proposed transportation of gas will make a firm source of supply available to Jefferson and will enable Applicant to curtail interruptible service to this industrial customer.

Notice of the application was issued on March 26, 1971 (published April 1, 1971, 36 F.R. 6030) providing that April 19, 1971, would be the final date for the filing of protests or petitions to intervene. Pursuant to such notice, petitions to intervene have been timely filed by Consolidated Gas Supply Corp., Texas Gas Transmission Corp., Public Service Commission of the State of New York, and Mississippi Valley Gas Co.

The Commission finds:

(1) It is desirable and in the public interest to allow the above-named petitioners to intervene in this proceeding in order that they may establish the facts and law from which the nature and validity of their alleged rights and interests may be determined and show what further action may be appropriate under the circumstances in the administration of the Natural Gas Act.

(2) The expeditious disposition of this proceeding will be effectuated by the submission of applicant's case-in-chief, including all direct testimony and exhibits, on or before September 14, 1971.

(3) The expeditious disposition of this proceeding will be further effectuated by holding a hearing on November 9, 1971.

The Commission orders:

(A) The above-named petitioners are permitted to intervene in this proceeding subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions, for leave to intervene: *And provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) Applicant shall file and serve its case-in-chief, including all direct testimony and exhibits, on or before September 14, 1971, upon the Commission, the Commission staff, and all parties to this proceeding.

(C) A public hearing on the issues presented in the application in this case will be held in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, commencing at 10 a.m., e.s.t., on November 9, 1971.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

GENERAL SERVICES ADMINISTRATION

[Federal Property Management Regs.; Temporary Reg. F-117]

SECRETARY OF DEFENSE

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in a telecommunications service rate proceeding.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the Nebraska State Railway Commission in a proceeding involving a rate increase for services provided by the Northwestern Bell Telephone Co.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and, further, shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ROBERT L. KUNZIG,
Administrator of General Services.

INTERAGENCY TEXTILE ADMINISTRATIVE COMMITTEE

CERTAIN COTTON TEXTILES AND PRODUCTS PRODUCED OR MANUFACTURED IN MEXICO

Visa Requirement

AUGUST 23, 1971.

On June 29, 1971, the U.S. Government, in furtherance of the objectives of, and under the terms of, the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, concluded a new comprehensive bilateral cotton textile agreement with the Government of Mexico concerning exports of cotton textiles and cotton textile products from Mexico to the United States over a 5-year period beginning on May 1, 1971. Pursuant to paragraph 15 of that agreement, providing for administrative arrangements, the Governments of the United States and Mexico have established an administrative mechanism intended to preclude circumvention of the licensing system for exports to the United States of cotton textiles and cotton textile products produced or manufactured in Mexico. The purpose of this notice is to announce the implementation of this administrative mechanism.

Pursuant to the directive to the Commissioner of Customs dated August 23, 1971, from the Chairman of the President's Textile Advisory Committee, effective 30 days after publication of such directive in the FEDERAL REGISTER, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in categories 1 through 64 produced or manufactured in Mexico for which Mexico has not issued an appropriate visa, fully described below, will be prohibited.

The visa is to be attached to the invoice (Special Customs Invoice Form 5515 or other successor document, or to the commercial invoice when such form is used). The visa, which is required for each one of the 64 categories of cotton textiles and cotton textile products covered by a single invoice, is to indicate the quantity of goods involved in the appropriate unit or units of measure, the category under which the goods are classified, and the signature of the Mexican official authorized to issue export visas. The following Mexican officials are presently authorized to issue visas:

J. Guillermo Becker A., Director General de Industrias, Secretaria de Industria y Comercio.
Jose Arango Rojas, Subdirector General de Industrias, Secretaria de Industria y Comercio.
Daniel Basulto Verduzco, Subdirector General de la Industria Textil y Del Vestido, Secretaria de Industria y Comercio.
Melquisedec Jimenez Mendez, Jefe de Departamento, Subdireccion, General de la Industria Textil y Del Vestido, Secretaria de Industria y Comercio.
Hermenegildo Delgado Cardena, Jefe de Departamento, Subdireccion General de la Industria Textil y Del Vestido, Secretaria de Industria y Comercio.
Raymundo Apodaca Sanchez, Jefe de Departamento, Subdireccion General de la Industria Textil y Del Vestido, Secretaria de Industria y Comercio.
Cesar Franco Porras, Director de la Camara Nacional de la Industria Textil.
Guillermo Ramos Uriarte, Secretario Ejecutivo Del Comite Para la Investigacion, Reestructuracion y Desarrollo de la Industria Textil de la Rama Del Algodon (Cirditra).
Antonio Benitez Espindola, Gerente de la Camara Textil de Puebla y Tlaxcala.

A facsimile of the visa is reproduced together with this notice and is filed as part of the original document. A facsimile of the signature of those Mexican officials authorized to issue visas is also filed as part of the original document with the Office of the Federal Register.

Under the aforementioned directive of August 23, 1971, the Commissioner of Customs is directed, whenever requested to do so by the Chairman of the Interagency Textile Administrative Committee, to allow entry into the United States for consumption and withdrawal from warehouse for consumption of designated quantities of cotton textiles and cotton textile products in categories 1 through 64 from Mexico, notwithstanding the fact that the shipment or shipments so designated do not meet the visa requirements.

As indicated in prior notices, the levels of restraint applicable to cotton textile products in categories 28 through 63 and 64 (excluding knit fabrics), were established on a month-by-month basis rather than the annual levels provided for under the bilateral agreement with Mexico. This action, which was taken at the request of the Government of Mexico pending the establishment of the administrative mechanism described above, has resulted in the denial of entry of some of the goods in the subject categories. All persons wishing to be eligible to enter into the United States for consumption or withdraw from warehouse for consumption cotton textiles or cotton textile products in categories 28 through 63 and 64 (excluding knit fabrics), produced or manufactured in Mexico (including goods assembled in Mexico of United States or other origin fabrics) and exported from Mexico to the United States without a visa prior to the date of publication of this notice, which are held in the United States either in a bonded warehouse, or general order warehouse, or a foreign-trade zone, must report within 15 days from the publication date of this notice by registered mail to Mr. Stanley Nehmer, Chairman, Interagency Textile Administrative Committee, Room 3834, U.S. Department of Commerce, Washington, D.C. 20230. Reports should include the following information: Complete description of the goods, category or categories under which classified, date of exportation from Mexico and date of arrival in the United States, quantities involved, locations of goods including U.S. customs port, and warehouse entry number, general order lot number, or foreign-trade zone number and lot number assigned.

After the total quantity of goods so reported has been ascertained, the U.S. Government will consult with the Mexican authorities regarding the entry of specified quantities notwithstanding the visa requirements in effect.

STANLEY NEHMER,
Chairman, Interagency Textile Administrative Committee, and Deputy Assistant Secretary for Resources.

SECRETARY OF COMMERCE

PRESIDENT'S CABINET TEXTILE ADVISORY COMMITTEE

AUGUST 23, 1971.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20226.

DEAR MR. COMMISSIONER: Under the terms of the Long-Term Arrangements Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, pursuant to the bilateral cotton textile agreement of June 29, 1971, between the Governments of the United States and Mexico, and in accordance with Executive Order 11052 of September 28, 1962, as amended by Executive Order 11214 of April 7, 1965, you are directed to prohibit, effective 30 days after publication of this letter in the FEDERAL REGISTER and until further notice entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 1 through 64 produced or manufactured in Mexico, for which Mexico has not issued an appropriate Visa fully described below.

The Visa will be attached to the invoice (Special Customs Invoice Form 5515 or other successor document, or to the commercial invoice when such form is used); and will indicate the quantity of goods involved in the appropriate unit or units of measure, the category under which the goods are classified and the signature of the official issuing the Visa. A Visa will be required for each one of the 64 categories of cotton textiles and cotton textile products covered by a single invoice. A facsimile of the Visa, along with the signatures of those Mexican officials authorized to issue Visas, are enclosed.

You are further directed to allow entry into the United States for consumption and withdrawal from warehouse for consumption of designated shipments of cotton textiles and cotton textile products produced or manufactured in Mexico, notwithstanding that the designated shipment or shipments do not meet the aforementioned Visa requirements, whenever requested to do so in writing by the Chairman of the Interagency Textile Administrative Committee. Entries of such shipment or shipments may be charged against the appropriate annual levels of restraint established for cotton textiles and cotton textile products.

The directive of July 30, 1971, prohibiting entry of cotton textile products in Categories 28 through 63 and 64 (excluding knit fabrics), produced or manufactured in Mexico and exported to the United States, in excess of designated levels of restraint, is hereby amended by extending the period during which that directive is to remain in effect from August 31, 1971 to 30 days after publication of this letter in the FEDERAL REGISTER.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published

in the FEDERAL REGISTER on January 17, 1968 (33 F.R. 582), and amendments thereto on March 15, 1968 (33 F.R. 4600).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Mexico and with respect to imports of cotton textiles and cotton textile products from Mexico have been determined by the President's Cabinet Textile Advisory Committee to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the notice provisions of 5 U.S.C. 553 (Supp. V, 1965–69). This letter will be published in the FEDERAL REGISTER.

Sincerely,

MAURICE H. STANS,
Secretary of Commerce, Chairman, President's Cabinet Textile Advisory Committee.

[FR Doc.71-12578 Filed 8-25-71;8:54 am]

SECURITIES AND EXCHANGE COMMISSION

[24W-2868]

RONALD H. GOODMAN AND COMPUTER COUNSELING, INC.

Findings and Order Imposing Remedial Sanctions and Permanently Suspending Regulation A Exemption

AUGUST 19, 1971.

These are consolidated proceedings under section 15(b) of the Securities Exchange Act of 1934 (Exchange Act), with respect to Ronald H. Goodman, 303 East Fayette Street, Baltimore, Md., president of Computer Counseling, Inc. (Computer), 30 South Calvert Street, Baltimore, Md., and Rule 261 of Regulation A under section 3(b) of the Securities Act of 1933 (Securities Act), with respect to Computer.

Computer, incorporated in Maryland in June 1968, filed with the Commission a Notification and Offering Circular for the purpose of obtaining an exemption from the registration requirements of the Securities Act, pursuant to section 3(b) thereof and Regulation A thereunder, covering an offering of 100,000 shares of its 12 cents par value common stock at $2 per share. The offering was reported as begun on August 23, 1968 and completed on September 11, 1968. The Commission, on August 27, 1969, issued an order pursuant to Rule 261 of Regulation A, temporarily suspending the exemption under that Regulation.

Goodman and Computer have submitted an offer of settlement with respect to the allegations involved in the consolidated proceedings. Solely for the purpose of these proceedings and without admitting any violations Goodman and Computer stated that they will not contest findings that: (1) Goodman singly participated in, and in concert with others aided and abetted, certain violations alleged in the order instituting the Exchange Act proceedings, and that (2) Computer engaged in the conduct as alleged in the order temporarily suspending the Regulation A exemption. Goodman consented to the entry of an order barring him from association with any broker-dealer, and Computer agreed to withdraw its answer to the temporary suspension order and consented to the entry of an order permanently suspending such exemption. In addition, Goodman represents that he will not practice before the Commission without the Commission's prior approval.

After due consideration and upon the recommendation of its staff, the Commission determined to accept the offer of settlement.

On the basis of the offer of settlement and the allegations in the order instituting proceedings under the Exchange Act and in the temporary suspension order, the following findings are made.

EXCHANGE ACT PROCEEDINGS

(1) During the period from about June 1968 through July 1969, Goodman willfully violated and aided and abetted violations of sections 5(a) and 5(c) of the Securities Act, in that he offered, sold, and delivered Computer common stock when no registration statement had been filed or was in effect under the Securities Act as to such securities.

(2) During the period from about June 1968 through July 1969, Goodman, singly and in concert with others, willfully violated and aided and abetted violations of section 17(a) of the Securities Act and section 10(b) of the Exchange Act and Rule 10b–5 thereunder in connection with transactions in the stock of Computer. Contrary to the representations in the offering circular that 100,000 shares of Computer stock would be offered to the public at $2 per share without the use of an underwriter, he offered, sold, and underwrote on behalf of the issuer shares of such offering, of which a substantial number were withheld and purchased by him and affiliated persons at the offering price, and aided and abetted others who thereafter sold withheld shares at prices far above the offering price with excessive and undisclosed profits being thereby realized. He used a false and misleading offering circular to induce purchases of Computer stock and made false and misleading statements concerning, among other things, the plan of distribution of such stock, the source of the stock which he was offering and selling, the commissions, markups, profits, and other compensation received by him, the completion of the offering of Computer stock, and the identities and ownership interests of the issuer's promoters. In addition, he made false and misleading statements concerning the future earnings of Computer and the proposed mergers and acquisitions of other companies by it, and aided and abetted other persons who made false and misleading statements with respect to, among other things, a prospective rise in the price of Computer stock; the speculative nature and listing on the American Stock Exchange of such stock, and the financial condition and identity of the management of Computer.

(3) About April 17, 1969, Goodman aided and abetted the violation of section 15(b)(1) of the Exchange Act and Rule 15b1–1 thereunder, in that Nadel & Co. filed an application for registration as a broker-dealer which falsely recited that no persons other than those named in the application directly or indirectly, financed its business when, in fact, approximately eight undisclosed persons financed the capital contribution of Goodman who was listed as a limited partner of such firm.[1]

REGULATION A PROCEEDINGS

(1) The terms and conditions of Regulation A have not been complied with in that:

(A) Computer failed to disclose in the Notification and Offering Circular the plan of distribution, including the participation as underwriters of (a) certain broker-dealers and persons who were associated with them, including Herzfeld & Stern, Paul A. Cohen, Irving D. Karpas, Jr., Morris Lamer, John B. Ryan, Stanley Levy, C. William Smith, Marshall M. Weinberg, Alan N. Brenits, Steven A. Seidar, Kurt Berger, Alan J. Friedman, Michael Rothenberg, and Earl Bronsteen; A. P. Montgomery & Co., Inc., Gordon L. Davis, Richard Friedman, and Anthony Cassino; Daniel S. Brier & Co., Inc. and Daniel S. Brier; Stuart M. Ackerman; and Brand, Grumet & Seigel, Inc., and Joel S. Nadel; and (b) of certain persons who were closely related to Computer, including Nathan H. Cohen, Julius B. Levitt, Daniel Cohen, and Thelma Cohen.

(B) The broker-dealers and other persons named above except Paul A. Cohen, Lamer, Seiden, and Berger acted as undisclosed underwriters in offering and selling Computer securities at prices exceeding the stated offering price, and by reason of such underwriting activities the aggregate amount of Computer securities offered to the public exceeded the $300,000 limitation then prescribed by Rule 254 of Regulation A.

(C) Computer failed to disclose in the Notification and Offering Circular all of its promoters and counsel, and Nathan H. Cohen's beneficial ownership of approximately 20 percent of Computer's stock held of record by Goodman.

(D) Computer failed to furnish an offering circular to purchasers, as required, and its Form 2–A report falsely sets forth the date on which the offering was completed.

(2) The Notification and Offering Circular contain materially untrue and misleading statements with respect to the plan of distribution, the offer and sale of Computer securities by undisclosed underwriters at prices exceeding the stated offering price, the identity of all of Computer's promoters and counsel, and Nathan H. Cohen's beneficial ownership of stock held by Goodman.

(3) The offering was made in violation of the registration and antifraud provisions of sections 5 and 17 of the Securities Act.

CONCLUSIONS

It is concluded that under the circumstances it is appropriate to bar Goodman from association with any broker-dealer and permanently suspend the offering of Computer stock under Regulation A, as specified in the offer of settlement.[2]

Accordingly, it is ordered, That Ronald H. Goodman be, and he hereby is, barred from being associated with any broker or dealer.

It is further ordered, Pursuant to Rule 261 of Regulation A under the Securities Act of 1933, that the exemption from registration with respect to the above public offering of securities by Computer Counseling, Inc., be, and it hereby is, permanently suspended.

For the Commission, by the Office of Opinions and Review, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Acting Associate Secretary.

[FR Doc.71-12380 Filed 8-25-71;8:45 am]

[1] Nadel & Co's registration as a broker and dealer was revoked on November 6, 1970 following its failure to file an answer as directed by the order for proceedings (Securities Exchange Act Release No. 9018).

SMC INVESTMENT CORP. AND GOULD INVESTORS TRUST

Notice of Filing of Application for Order Exempting Transaction

AUGUST 19, 1971.

Notice is hereby given that Gould Investors Trust (Gould) 370 Lexington Avenue, New York, NY 10017, a Massachusetts business trust, and SMC Investment Corp. (SMC) 1888 Century Park East, Century City, Los Angeles, CA 90067, a closed-end, diversified investment company registered under the Investment Company Act of 1940 (Act), have filed an application for an order pursuant to section 17(b) of the Act exempting from section 17(a) of the Act a proposed transaction pursuant to a purchase agreement dated December 4, 1970 (the "1970 Purchase Agreement"). Under the terms of the agreement Gould will acquire from SMC, 100,000 shares of beneficial interest of Gould (the "Shares") and warrants for the purchase of 100,000 authorized and unissued shares of beneficial interest of Gould at an exercise price of $25 per share through June 30, 1976 (the "Existing Warrants"). As consideration Gould will pay $500,000 and will issue warrants for the purchase of 100,000 authorized and unissued shares of beneficial interest of Gould at an exercise price of $10 per share through June 30, 1976 (the "New Warrants"). All interested persons are referred to the application on file with the Commission for a statement of the representations made therein, which are summarized below.

Pursuant to a purchase agreement dated January 10, 1969 (the "1969 Purchase Agreement") between Gould Properties Inc. and SMC, SMC purchased 100,000 shares of class A stock of Gould Properties Inc. and warrants to purchase 100,000 shares of Gould Properties Inc. class A stock paying an aggregate purchase price of $2 million for such securities. The 1969 Purchase Agreement granted to SMC the right to require Gould to register the shares purchased and any shares which would be acquired through exercise of the warrants. Subsequently Gould Properties Inc. changed its corporate name to Gould Enterprises Inc. On or about July 1, 1970, all of the business and assets of Gould Enterprises Inc. were acquired in a reorganization by Gould Investors Trust. Pursuant to such reorganization Gould issued shares of beneficial interest, without par value, to Gould Enterprises Inc. and Gould Enterprises Inc., distributed such shares of beneficial interest to its shareholders on a share-for-share basis. As a result, SMC now owns of record and beneficially the Shares and the Existing Warrants. The Shares represent approximately 7.6 percent of the 1,314,704 shares of beneficial interest of Gould outstanding. By reason of this stock ownership, Gould and SMC are each affiliated persons of the other within the meaning of section 2(a)(3) of the Act. Apart from SMC's ownership of Gould securities there is no relationship between Gould and SMC.

Based upon Gould's decision to qualify as a real estate investment trust, upon SMC's assesment of the assets of Gould and its future prospects, and upon alternate investment opportunities available to SMC, SMC determined to dispose of the Shares. SMC advised Gould that it wished to have the Shares registered under the Securities Act of 1933 pursuant to its rights under the 1969 Purchase Agreement.

It was the view of the Board of Trustees of Gould that repurchase of the Shares by Gould would be desirable because (i) Gould could thereby avoid the significant expense it would incur in filing a registration statement with respect to the Shares as requested by SMC, (ii) the reduction in the outstanding number of Gould's shares of beneficial interest would be very beneficial to Gould's remaining shareholders because as a regulated real estate investment trust Gould is required to distribute at least 90 percent of its income to shareholders, and (iii) the low market price of Gould's shares of beneficial interest made the repurchase of the Shares a good opportunity for Gould.

After negotiations, Gould and SMC entered into the 1970 Purchase Agreement, described above. Both parties assert that the 1970 Purchase Agreement was negotiated on an arms-length basis.

The terms of the 1970 Purchase Agreement were satisfactory to SMC because the amount of cash it would receive was approximately the current market of the Shares and because of the additional value to be received in the form of the new warrants. It was also beneficial to SMC because SMC was relieved of market risks that might result because of delays in other methods of selling the Shares such as a sale pursuant to a registration statement.

On December 4, 1970, the closing bid price quoted for Gould's shares of beneficial interest was $47/8.[1] In the judgment of Gould management and of an investment banker as of the date of the 1970 Purchase Agreement the Existing Warrants had a value ranging from nothing to 20 cents per warrant and the new warrants had a value ranging from 50 cents to 75 cents per warrant.

Section 17(a) of the Act prohibits, with certain exceptions, an affiliated person of a registered investment company or an affiliated person of such affiliated person, from selling to, or purchasing from, such registered company any security, or other property. Section 17(b) provides that the Commission, upon application, may grant an exemption from the provisions of section 17(a) after finding that the terms of the proposed transaction are reasonable and fair and do not involve overreaching on the part of any person concerned and that the proposed transaction is consistent with the policy of each registered investment company concerned and with the general purposes of the Act.

Notice is further given that any interested person may, not later than September 7, 1971, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the addresses stated above. Proof of service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after such date as provided by rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, in-

[1] July 20, 1971 the bid price for Gould's shares of beneficial interest was $7½.

cluding the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Acting Associate Secretary.

[37-59]

SOUTHERN SERVICES, INC.

Notice of Filing of Post-Effective Amendment Regarding Increase in Amount of Notes To Be Issued by Subsidiary Service Company and Acquired by Holding Company

AUGUST 19, 1971.

Notice is hereby given that Southern Services, Inc. (Services), Perimeter Center East, Post Office Box 720071, Atlanta, GA 30346, a subsidiary service company of The Southern Co. (Southern), a registered holding company, has filed with this Commission a post-effective amendment to its application-declaration in this proceeding pursuant to sections 6, 7, and 13 of the Public Utility Holding Company Act of 1935 (Act) and Rules 40(b), 42(b)(2), and 43(b)(3) promulgated thereunder. All interested persons are referred to the application-declaration, as amended by said post-effective amendment, which is summarized below, for a complete statement of the proposed transactions.

By Order dated July 1, 1968 (Holding Company Act Release No. 16104), the Commission, among other things, authorized Services to issue and sell its long-term unsecured notes and capital stock to Southern for cash, during a 5-year period extending until June 30, 1973, of up to $5 million aggregate principal amount to be outstanding at any one time, such notes bearing interest at the prime rate in effect in Atlanta, Ga. On March 31, 1971, the outstanding capitalization of Services consisted of $725,000 aggregate par value of capital stock and $2,750,000 principal amount of long-term notes, all of which were owned by Southern. In anticipation of substantial expansion of services and personnel in general services, engineering and power pool operations, Services, to provide increased working capital, now proposes to increase the maximum principal amount of its unsecured notes and capital stock to be sold to Southern to $11 million during the remainder of the 5-year period. Such notes will have the same terms and provisions as those originally authorized, subject to the limitation that the aggregate of the principal amount of Services' outstanding unsecured notes to Southern and its issued and outstanding capital stock will be maintained at all times at an amount approximately equal to the sum of the operating expenses of Services for a period of 2 months and the depreciated cost of Services' fixed assets, including prepayment and petty cash working funds, less any unpaid indebtedness for funds borrowed from sources other than associate companies for the acquisition of fixed assets. Services anticipates that it will issue and sell only its unsecured notes to Southern, which under the present proposal would aggregate not more than $10,275,000. Southern will acquire such notes pursuant to the terms of Rule 40(b) under the Act.

It is stated that the fees and expenses to be incurred in connection with the proposed transactions are estimated at $11,200, of which $1,000 are legal fees. It is further stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than September 9, 1971, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate), should be filed with the request. At any time after said date, the application-declaration, as now amended or as may be further amended, may be granted and permitted to become effective in the manner provided by Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Acting Associate Secretary.

[70-5061]

SOUTHERN CO. AND SOUTHERN SERVICES, INC.

Notice of Proposed Issue and Sale of Notes to Bank by Subsidiary Service Company and Guarantee by Holding Company

AUGUST 20, 1971.

In the matter of the Southern Co., Southern Services, Inc., Perimeter Center East, Post Office Box 720071, Atlanta, GA 30346; notice of proposed issue and sale of notes to bank by subsidiary service company and guarantee by holding company.

Notice is hereby given that The Southern Co. (Southern), a registered holding company, and its subsidiary service company, Southern Services, Inc. (Services), have filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a), 7, 12(b), and 12(f) of the Act and Rule 45 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Services now functions as the wholly owned subsidiary service company in the Southern system pursuant to an order of this Commission dated July 7, 1964 (Holding Company Act Release No. 15100). On March 31, 1971, the outstanding capitalization of Services consisted of $725,000 aggregate par value of capital stock and $2,750,000 principal amount of long-term notes, all of which are owned by Southern. Services has filed in another proceeding for authorization to increase the maximum amount Southern may invest in Services from $5 million up to $11 million until June 30, 1973 (File No. 37-59).

Services proposes to make substantial investments in data processing and computer facilities for use in customer accounting, engineering and general financial and operating applications. It is estimated that costs for such equipment will be approximately $11 million through December 1972. In order to finance the purchase of this equipment, Services proposes to issue and sell its unsecured promissory notes to Chemical Bank, New York City (Chemical) from time to time prior to July 1, 1972, in an aggregate amount not exceeding $7 million. The notes will bear interest, payable quarterly, for each day at an annual rate equal to 1.25 times the prime commercial rate of Chemical in effect on such day. The aggregate principal will be payable in equal quarterly installments commencing June 3, 1972, with the final payment due March 31, 1979, and will be prepayable without premium at any time. The loan agreement between Services and Chemical to be dated August 1, 1971, provides that Services pay a commitment fee on the unused portion of the $7 million at the rate of one-half of 1 percent per annum. There is no compensating balance requirement. Southern proposes to guarantee the notes of Services as to principal and interest. It is stated that Southern and Services, after studying various alternative means of financings, including leasing, have determined the instant proposal to be the most economical and advantageous method.

The filing states that the fees and expenses to be paid in connection with the proposed transactions are estimated at $6,000, including $3,000 for legal fees and $2,500 for reimbursement by Services of Chemical's actual expenses incurred in connection therewith. It is further stated

that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than September 10, 1971, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Acting Associate Secretary.

COLEMAN CAPITAL CORP.

Notice of Surrender of License To Operate as Small Business Investment Company

Notice is hereby given that Coleman Capital Corp., Chicago, Ill., incorporated under the laws of the State of Illinois, on August 31, 1961, has surrendered its license (Number 02/07-0048) issued by the Small Business Administration on March 13, 1962.

Under the authority vested by the Small Business Investment Act of 1958, as amended, and pursuant to the regulations promulgated thereunder, the surrender of the license of Coleman Capital Corp. is hereby accepted and it is no longer licensed to operate as a small business investment company.

Dated: August 18, 1971.

A. H. SINGER,
Associate Administrator for Operations and Investment.

[FR Doc.71-12513 Filed 8-25-71;8:50 am]

[License No. 03/04-0103]

DISTRIBUTION SERVICES INVESTMENT CO.

Notice of Application for Exemption with Respect to Certain Conflict of Interest Transactions

Notice is hereby given that Distribution Services Investment Co. (DSIC), 1725 K Street NW., Washington, DC 20006, a small business investment company licensed by the Small Business Administration (SBA) under the Small Business Investment Act of 1958, as amended (Act), has filed an application for an exemption with respect to § 107.1004(b)(5) of the SBA rules and regulations (13 CFR 107.1004(b)(5)) (regulations).

DSIC is wholly owned by Distribution Services, Inc. (DSI), which is located at the same address as DSIC. DSI is owned by 20 wholesale drug companies and two individuals.

Approximately six of these wholesale drug companies wish to sell their stock, by way of private transaction, to certain other present stockholders.

The aforesaid § 107.1004(b)(5) of the regulations provides that " * * * no licensee shall directly or indirectly provide financing to a small business concern * * * if the financing is used to provide funds * * * for use in purchasing property from an associate of the licensee * * * ." One of the wholesalers, Bergen Brunswig Corp. (BB), of 2410 East 38th Street, Los Angeles, CA 90054, would acquire at least 10 percent of the stock as a result of the proposed transaction. Accordingly, BB Corp. would become an associate of DSIC under § 107.3 of the regulations.

In order to permit DSIC to lend funds to any drugstore (retailer) to use 50 percent or more of such proceeds to purchase inventory and/or fixtures from BB an exemption from the aforesaid § 107.1004(b)(5) of the regulations must be granted by SBA. Should SBA grant such an exemption it would be for a period of 1 year.

Interested persons are hereby afforded an opportunity to submit to SBA, not later than twenty (20) days from the date of publication of this notice, written comments concerning the granting of an exemption of the aforesaid section of the regulations by SBA as it may pertain to BB. Any such communication should be addressed to Associate Administrator for Operations and Investment, Small Business Administration, 1441 L Street NW., Washington, DC 20416.

After the aforementioned period, SBA may, under the Act and regulations, grant the aforesaid exemption from the provisions of § 107.1004(b)(5), on the basis of all relevant data submitted.

Dated: August 9, 1971.

A. H. SINGER,
Associate Administrator for Operations and Investment.

[FR Doc.71-12480 Filed 8-25-71;8:47 am]

DIVERSIFIED REALTY FUNDING CORP.

Notice of Filing of Application for Transfer of Control of Licensed Small Business Investment Company

Notice is hereby given that application has been filed with the Small Business Administration (SBA), pursuant to § 107.701 of the regulations governing Small Business Investment Companies (13 CFR 107.701 (1971)) for transfer of control of Diversified Realty Funding Corp. (DRFC), 299 Park Avenue, New York, NY 10017, a Federal licensee under the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.), License No. 02/02-0177.

DRFC was licensed on July 10, 1962, and as of March 31, 1971, had paid-in capital and paid-in surplus from private sources of $500,001.

Mr. Nelson M. Loud, owner of 50 percent of the stock of DRFC, proposes to purchase the other 50 percent of DRFC's stock presently held by Mr. Jarvis Slade. The proposed transaction is subject to and contingent upon the approval of SBA.

The names and addresses of the proposed officers, directors, and stockholders of DRFC are as follows:

Douglass N. Loud, 125 East 84 Street, New York, NY 10028, President, Assistant Treasurer, Director.

Nelson M. Loud, Creek Place, Locust Valley, NY 11560, Treasurer, Director, 100 percent Stockholder.

Roger Mulvihill, 215 East 64 Street, New York, NY 10021, Assistant Secretary, Director.

Charles D. Donohue, Jr., 401 East 88 Street, New York, NY 10028, Secretary.

Mr. Douglass N. Loud is the son of Nelson M. Loud.

Matters involved in SBA's consideration of the application include the general business reputation and character of the management and of the proposed transferees, and the possibility of successful operations of the company under their control and management (including adequate profitability and financial soundness) in accordance with the Act and regulations.

Notice is further given that any interested person may, not later than 15 days from the date of publication of this notice, submit to SBA, in writing, relevant comments on the proposed transfer of control. Any such comments should be addressed to Associate Administrator for Operations and Investment, Small Business Administration, 1441 L Street NW., Washington, DC 20416.

A copy of this notice shall be published by the proposed transferee in a newspaper of general circulation in New York City.

A. H. SINGER,
Associate Administrator for Operations and Investment.

FEDERAL RESERVE SYSTEM

AMERICAN BANCSHARES OF MICHIGAN, INC.

Order Approving Action To Become a Bank Holding Company

In the matter of the application of the American Bancshares of Michigan, Inc., Kalamazoo, Mich., for approval of action to become a bank holding company through the acquisition of 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to the American National Bank and Trust Company of Michigan, Kalamazoo, Mich.

There has come before the Board of Governors, pursuant to section 3(a)(1) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(1)) and § 222.3 (a) of Federal Reserve Regulation Y (12 CFR 222.3(a)), an application by the American Bancshares of Michigan, Inc., Kalamazoo, Mich., for the Board's prior approval of action whereby Applicant would become a bank holding company through the acquisition of 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to the American National Bank and Trust Company of Michigan (Bank), Kalamazoo, Mich.

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the Comptroller of the Currency, and requested his views and recommendation. The Comptroller recommended approval of the application.

Notice of receipt of the application was published in the FEDERAL REGISTER on June 16, 1971 (36 F.R. 11617), providing an opportunity for interested persons to submit comments and views with respect to the proposal. A copy of the application was forwarded to the U.S. Department of Justice for its consideration. Time for filing comments and views has expired and all those received have been considered.

The Board has considered the application in the light of the factors set forth in section 3(c) of the Act, including the effect of the proposed acquisition on competition, the financial and managerial resources and future prospects of the Applicant and the banks concerned, and the convenience and needs of the communities to be served, and finds that:

Applicant is a nonoperating corporation formed for the purpose of acquiring Bank as a subsidiary. (The proposed new bank into which Bank will be merged has significance only as a vehicle to accomplish the acquisition of all of the voting shares less directors' qualifying shares of Bank; hence, the proposal to acquire voting shares of the successor by merger to Bank is treated as a proposal to acquire voting shares of Bank.) Bank, which has deposits of $166.1 million, is the second largest of four banking organizations in its banking market, which approximates Kalamazoo County, and has approximately 32 percent of the commercial bank deposits within the county and 0.5 percent of total deposits in the State. (All banking data are as of December 31, 1970, and reflect holding company formations and acquisitions approved through June 30, 1971.)

Since Applicant has no present operations or subsidiaries and since the proposed acquisition involves only a corporate reorganization in the nature of a transfer of ownership of Bank from individuals to a holding company, consummation of the proposal would eliminate neither existing nor potential competition and would not appear to have any adverse effects on any other bank in the area involved.

The financial and managerial resources and prospects of Bank are regarded as satisfactory as would be those of Applicant upon acquisition of Bank. Consummation of the proposal would have no immediate effects on the convenience and needs of the community, although the more flexible operational structure of a holding company may lead to benefits in the future. Considerations related to the convenience and needs of the community as well as the financial and managerial resources and prospects of Bank and Applicant are consistent with approval. It is the Board's judgment that the proposed transaction would be in the public interest, and that the application should be approved.

It is hereby ordered, On the basis of the Board's findings summarized above, that said application be and hereby is approved, provided that the acquisition so approved shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Chicago, pursuant to delegated authority.

By order of the Board of Governors,[1]

August 19, 1971.

[SEAL] NORMAND BERNARD,
Assistant Secretary.

ATLANTIC BANCORPORATION

Order Approving Acquisition of Bank Stock By Bank Holding Company

In the matter of the application of Atlantic Bancorporation, Jacksonville, Fla., for approval of acquisition of 60 percent or more of the voting shares of Westside Atlantic Bank of Orlando, Orlando, Fla., a proposed new bank.

There has come before the Board of Governors, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)) and § 222.3 (a) of Federal Reserve Regulation Y (12 CFR 222.3(a)), an application by Atlantic Bancorporation, Jacksonville, Fla., for the Board's prior approval of the acquisition of 60 percent or more of the voting shares of Westside Atlantic Bank of Orlando (Bank), Orlando, Fla., a proposed new bank.

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the Florida Commissioner of Banking, and requested his views and recommendation. The Commissioner recommended approval of the application.

Notice of receipt of the application was published in the FEDERAL REGISTER on July 9, 1971 (36 F.R. 12927), providing an opportunity for interested persons to submit comments and views with respect to the proposal. A copy of the application was forwarded to the U.S. Department of Justice for its consideration. Time for filing comments and views has expired and all those received have been considered.

The Board has considered the application in the light of the factors set forth in section 3(c) of the Act, including the effect of the proposed acquisition on competition, the financial and managerial resources and future prospects of the applicant and the bank concerned, and the convenience and needs of the communities to be served, and finds that:

Applicant controls 17 banks with total deposits of $646 million, representing 4.6 percent of the State's total deposits. (All banking data are as of December 31, 1970, and reflect holding company formations and acquisitions approved through July 31, 1971.) Since Bank is a proposed new bank, consummation of the proposal will not increase applicant's share of total deposits in any market nor affect deposit concentration.

Applicant presently controls 2 percent of total deposits in the Orlando area, and its closest subsidiary to the proposed site of Bank is 5½ miles away in downtown Orlando. Since Bank will not be organized if the application is denied, the Board concludes that consummation of the proposal would not have significant adverse effects on competition in any relevant area.

The financial and managerial resources and future prospects of applicant, its subsidiaries, and Bank are satisfactory and, therefore, consistent with approval. Recent commercial and residential developments within Bank's proposed service area indicate some need for an additional banking office in the area. Accordingly, considerations relating to the convenience and needs of the community to be served lend some weight for approval. It is the Board's judgment that the proposed transaction would be in the public interest and that the application should be approved.

It is hereby ordered, For the reasons set forth above, that said application be and hereby is approved, provided that the acquisition so approved shall not be consummated (a) before the thirtieth calendar day following the date of this order or (b) later than 3 months after the date of this order, and provided further that (c) Westside Atlantic Bank of Orlando shall be open for business not later than 6 months after the date of this order. The periods described in (b) and (c) hereof may be extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[1] August 19, 1971.

[SEAL] NORMAND BERNARD,
Assistant Secretary.

BARNETT BANKS OF FLORIDA, INC.

Order Approving Acquisition of Bank Stock by Bank Holding Company

In the matter of the application of Barnett Banks of Florida, Inc., Jacksonville, Fla., for approval of acquisitions of 80 percent or more of the voting shares of Barnett Mall Bank, N.A., Winter Park, Fla., a proposed new bank.

There has come before the Board of Governors, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)) and § 222.3 (a) of Federal Reserve Regulation Y (12 CFR 222.3(a)), an application by Barnett Banks of Florida, Inc., (Applicant), Jacksonville, Fla., a registered bank holding company, for the Board's prior approval of the acquisition of 80 percent or more of the voting shares of Barnett

[1] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Maisel, and Brimmer. Absent and not voting: Governor Sherrill.

[1] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Maisel, and Brimmer. Absent and not voting: Governor Sherrill.

Mall Bank, N.A. (Mall Bank), Winter Park, Fla., a proposed new bank.

As required by section 3(b) of the Act, the Board gave written notice of receipt of the application to the Comptroller of the Currency and requested his views and recommendation. The Comptroller responded that he recommended approval of the application.

Notice of receipt of the application was published in the FEDERAL REGISTER on July 3, 1971 (36 F.R. 12712), providing an opportunity for interested persons to submit comments and views with respect to the proposal. A copy of the application was forwarded to the U.S. Department of Justice for its consideration. Time for filing comments and views has expired and all those received have been considered by the Board.

The Board has considered the application in the light of the factors set forth in section 3(c) of the Act, including the effect of the proposed acquisition on competition, the financial and managerial resources and future prospects of the Applicant and the banks concerned, and the convenience and needs of the communities to be served, and finds that:

Applicant has 26 subsidiary banks with aggregate deposits of approximately $785 million, representing 5.6 percent of the commercial bank deposits in Florida. (Banking data are as of December 31, 1970, and reflect holding company formations and acquisitions approved by the Board through July 31, 1971.) Approval of the acquisition of Mall Bank would not presently increase Applicant's deposits since Mall Bank, as stated above, is a proposed new bank.

Although Applicant presently has one subsidiary bank, First National at Winter Park (First National), located 1.4 miles from the proposed site of Mall Bank, the two institutions will service different customers. First National is located in downtown Winter Park and deals primarily with larger commercial interests while Mall Bank will be a neighborhood institution serving suburban residential and retail business customers. Moreover, First National has only 10 percent of the deposits in an area where the leading organization has over 40 percent of the deposits. Because of this, there seems little danger that Applicant will become the dominant factor in the Orlando area even with the addition of Mall Bank. Considering the present competition existing in the area, the Board concludes that consummation of the proposed acquisition would not adversely affect competition in any relevant area.

The financial and managerial resources and future prospects of Applicant, its subsidiary banks, and Mall Bank are regarded as satisfactory. The establishment of Mall Bank would provide a more convenient banking location for many customers, and thus considerations related to the convenience and needs of the community lend some weight in favor of approval. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

It is hereby ordered, On the basis of the Board's findings summarized above, that said application be and hereby is approved, provided that the acquisition so approved shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, and provided further that (c) Barnett Mall Bank, N.A., shall be open for business not later than 6 months after the date of this order. The periods described in (b) and (c) hereof may be extended for good cause by the Board or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[1] August 19, 1971.

[SEAL] NORMAND BERNARD,
Assistant Secretary.

FLORIDA NATIONAL BANKS OF FLORIDA

Notice of Application for Approval of Acquisition of Shares of Bank

Notice is hereby given that application has been made, pursuant to section 3(a)(3) of the Bank Holding Company Act of 1956 (12 U.S.C. 1842(a)(3)), by Florida National Banks of Florida, which is a bank holding company located in Jacksonville, Fla., for prior approval by the Board of Governors of the acquisition by applicant of 80 per cent or more of the voting shares of Brevard National Bank, Titusville, Fla.

Applicant's banks were controlled by the du Pont Trust which was required by the 1966 amendments to the Act to divest either its banking or its nonbanking assets by July 1, 1971. The Board has under review the Trust's contention that it is not a bank holding company with respect to banks controlled by applicant. Processing of the present application is not intended to reflect acquiesence by the Board in the Trust's contention.

Section 3(c) of the Act provides that the Board shall not approve:

(1) Any acquisition or merger or consolidation under section 3 which would result in a monopoly, or which would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the business of banking in any part of the United States, or

(2) Any other proposed acquisition or merger or consolidation under section 3 whose effect in any section of the country may be substantially to lessen competition, or to tend to create a monopoly, or which in any other manner would be in restraint of trade, unless the Board finds that the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served.

Section 3(c) further provides that, in every case, the Board shall take into consideration the financial and managerial resources and future prospects of the company or companies and the banks concerned, and the convenience and needs of the community to be served.

Not later than thirty (30) days after the publication of this notice in the FEDERAL REGISTER, comments and views regarding the proposed acquisition may be filed with the Board. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. The application may be inspected at the office of the Board of Governors or the Federal Reserve Bank of Atlanta.

Board of Governors of the Federal Reserve System, August 19, 1971.

[SEAL] NORMAND BERNARD,
Assistant Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice 67]

MOTOR CARRIER, BROKER, WATER CARRIER, AND FREIGHT FORWARDER APPLICATIONS

AUGUST 20, 1971.

The following applications are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's General Policy Statement Concerning Motor Carrier Licensing Procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record.

The publications hereinafter set forth reflect the scope of the applications as filed by applicants, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

No. MC 720 (Sub-No. 8), filed July 22, 1971. Applicant: BIRD TRUCKING COMPANY, INC., Post Office Box 227, Waupun, WI 53963. Applicant's representative: Allan Bryant Torhorst, Post Office Box 307, Burlington, WI 53105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Dairy products* (except in bulk), and *confectionary ingredients* (except in bulk), from the plantsite and warehouse facilities of Galloway-West Co., division of Borden's, Inc., at Fond du Lac, Wis., to points in Illinois north of U.S. Highway 36; and (2) *materials, equipment, and supplies used in the production of dairy products and confectionary ingredients* (except in bulk), from points in Illinois north of U.S. Highway 36 to the plantsite and warehouse facilities of Galloway-West Co., division of Borden's, Inc., at Fond du Lac, Wis. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Milwaukee or Madison, Wis.

No. MC 808 (Sub-No. 45), filed July 12, 1971. Applicant: ANCHOR MOTOR FREIGHT, INC., 21111 Chagrin Boulevard, Cleveland, OH 44122. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Motor vehicles* (except trailers), in initial movements, in truckaway service, between the plants of General Motors Corp. located in Detroit, Willow Run, Pontiac, Flint, and Lansing, Mich., on the one hand, and, on the other, points in Ohio, West Virginia, Virginia, Pennsylvania, Delaware, Maryland, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, and Maine, under a continuing contract or contracts with General Motors Corp. NOTE: Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 966 (Sub-No. 23), filed July 12, 1971. Applicant: CAPITOL TRUCK LINES, INC., 200 West First Street, Topeka, KS 66603. Applicant's representative: Frank W. Taylor, Jr., 1221 Baltimore Avenue, Kansas City, MO 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* except those of unusual value, classes A and B explosives, household goods, as defined by the Commission, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading, to serve Mound Valley, Kans., as an off-route point in connection with applicant's regular route operations between Kansas City, Mo.-Kans., and Coffeyville, Kans., from Kansas City, Mo., over U.S. Highway 50 to junction U.S. Highway 169, thence over U.S. Highway 169 to Coffeyville and return over the same route. NOTE: If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 1641 (Sub-No. 93), filed July 21, 1971. Applicant: PEAKE TRANSPORT SERVICE, INC., Box 366, Chester, NE 68327. Applicant's representatives: Einar Viren, 904 City National Bank Building, Omaha, Nebr. 68102, and R. B. Parker (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid asphalt, road oils, and residual fuel oil*, in bulk, in tank vehicles, from Sugar Creek, Mo., to points in Nebraska. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Kansas City, Mo.

No. MC 1641 (Sub-No. 94), filed July 29, 1971. Applicant: PEAKE TRANSPORT SERVICE, INC., Box 366, Chester, NE 68327. Applicant's representatives: Einar Viren, 904 City National Bank Building, Omaha, Nebr. 68102, and R. B. Parker (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Feed, feed ingredients, feed supplements, urea, feed grade urea, urea when used in feed or feed ingredients or feed supplements*, in bulk, in tank or hopper vehicles; (1) from Fremont, Nebr., to points in Colorado, Illinois, Iowa, Kansas, Missouri, Minnesota, North Dakota, Oklahoma, South Dakota, Texas, Wisconsin, and Wyoming; and (2) from distributing points in Nebraska to points in Kansas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Kansas City, Mo.

No. MC 1753 (Sub-No. 4), filed June 7, 1971. Applicant: RENZ TRUCK LINES, INC., 231 Walnut Street, Pacific, MO 63069. Applicant's representative: Herman W. Huber, 101 East High Street, Jefferson City, MO 65101. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, and except dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between St. Louis, Mo., and the generating plant and facilities of Union Electric Co., at or near Rush Tower, Jefferson County, Mo.: From St. Louis over U.S. Highway 61 and Interstate Highway 55, thence over Jefferson County Route AA and unnumbered county roads to the plantsite, at or near Rush Tower, Mo., with authority to serve the intermediate and off-route generation, transmission, and distribution facilities of said company, between St. Louis and said plantsite (except Crystal City-Festus, Mo.). NOTE: If a hearing is deemed necessary, applicant requests it be held at St. Louis or Jefferson City, Mo.

No. MC 2633 (Sub-No. 57), filed July 30, 1971. Applicant: CROSSETT, INC., Post Office Box 946, Warren, PA 16365. Applicant's representative: Kenneth T. Johnson, Bankers Trust of Jamestown Building, Jamestown, N.Y. 14701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products* as described in appendix III to the report in *Descriptions in Motor Carrier's Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from Clinton, Potter, and Tioga Counties, Pa., to points in Albany and Onondaga Counties, N.Y. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Pittsburgh, Pa.

No. MC 21866 (Sub-No. 69), filed July 19, 1971. Applicant: WEST MOTOR

FREIGHT, INC., 740 South Reading Avenue, Boyertown, PA 19512. Applicant's representative: Alan Kahn, 1920 Two Penn Center Plaza, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Electric storage batteries and battery parts*, from Kankakee, Ill., to points in Maryland, Virginia, and West Virginia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 22254 (Sub-No. 59), filed July 9, 1971. Applicant: TRANS-AMERICAN VAN SERVICE, INC., 7540 South Western Avenue, Chicago, IL 60620. Applicant's representative: Elliot Bunce, 618 Perpetual Building, Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Furniture*, from Benson, Ariz., to points in Colorado, Wyoming, New Mexico, Utah, Texas, Oklahoma, and Kansas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Phoenix, Ariz., Chicago, Ill., or Washington, D.C.

No. MC 30844 (Sub-No. 363), filed July 15, 1971. Applicant: KROBLIN REFRIGERATED XPRESS, INC., 2125 Commercial Street, Waterloo, IA 50704. Applicant's representatives: Paul Rhodes (same address as applicant), and Truman A. Stockton, Jr., 1650 Grant Street Building, Denver, Colo. 80202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk and hides), from Holton, Kans., to points in Connecticut, Delaware, Maine, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, and Vermont. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 32882 (Sub-No. 62), filed July 19, 1971. Applicant: MITCHELL BROS. TRUCK LINES, a corporation, 3841 North Columbia Boulevard, Portland, OR 97217. Applicant's representatives: Norman E. Sutherland, 1200 Jackson Tower, Portland, Oreg. 97205, and Ellis F. Chartier, Box 17039, Portland, OR 97217. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Conduit pipe, containing asbestos and cement with accessories, couplings, fittings and related parts made of plastic and rubber*, when traveling as part of the same shipment, from Stockton, Calif., to points in Wyoming and Colorado. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 52704 (Sub-No. 86), filed July 26, 1971. Applicant: GLENN McCLENDON TRUCKING COMPANY, INC., Post Office Drawer H, LaFayette, AL 36862. Applicant's representative: Archie B. Culbreth, Suite 417, 1252 West Peachtree Street NW., Atlanta, GA 30309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clay*, in containers, from Wrens, Ga., to points in Alabama, Arkansas, Louisiana, Mississippi, Missouri, North Carolina, South Carolina, Tennessee, Texas, and Oklahoma. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 52704 (Sub-No. 87), filed July 19, 1971. Applicant: GLENN McCLENDON TRUCKING COMPANY, INC., Post Office Drawer H, Lafayette, AL 36862. Applicant's representative: Archie B. Culbreth, Suite 417, 1252 West Peachtree Street NW., Atlanta GA 30309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs, prepared or canned, other than frozen* (except in bulk), from Lafayette and New Iberia, La., to points in Alabama, Arkansas, Georgia, Mississippi, North Carolina, South Carolina, and Tennessee. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 55896 (Sub-No. 34), filed July 28, 1971. Applicant: R-W SERVICE SYSTEM, INC., 20225 Goddard Road, Taylor, MI 48180. Applicant's representative: Martin J. Leavitt, 1800 Buhl Building, Detroit, Mich. 48226. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Perlite*, other than crude, in bags or in packages, from the plantsite of Grefco, Inc., subsidiary of General Refractories Co., Crawfordsville, Ind., to points in the Lower Peninsula of Michigan and Ohio. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Detroit, Mich.

No. MC 61231 (Sub-No. 61), filed July 12, 1971. Applicant: ACE LINES, INC., 4143 East 43d Street, Des Moines, IA 50317. Applicant's representative: William L. Fairbank, 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Urethane, urethane products, roofing and roofing materials, insulating materials, composition board and gypsum products, and materials* used in the installation thereof (except commodities in bulk), from the plantsite and warehouse facilities of the Celotex Corp. at Charleston, Ill., to points in Colorado, Iowa, Kansas, Michigan, Minnesota, Missouri, Montana, Nebraska, North Dakota, South Dakota, Wisconsin, and Wyoming. NOTE: Applicant states tacking possibilities but indicates it has no present intention of tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 61592 (Sub-No. 226), filed July 28, 1971. Applicant: JENKINS TRUCK LINE, INC., 3708 Elm Street, Bettendorf, IA. Applicant's representative: Donald W. Smith, 900 Circle Tower Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wooden fencing, posts, and accessories* used in the installation thereof, from Alpena, Carney, Gladstone, Moran, Posen, Powers, Stephenson, and Wallace, Mich., to points in the United States (except Alaska, California, Hawaii, Michigan, Idaho, Montana, Nevada, Oregon, Utah, and Washington). NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 72442 (Sub-No. 35), filed July 29, 1971. Applicant: AKERS MOTOR LINES, INCORPORATED, Post Office Box 579, Gastonia, NC 28052. Applicant's representatives: Alan E. Serby, Post Office Box 872, Atlanta, GA 30301, and Lennox O. Boyles (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except household goods as defined by the Commission, articles of unusual value, classes A and B explosives, commodities requiring special equipment, and commodities in bulk), serving points within a 15-mile-radius of Atlanta, Ga., as off-route points in connection with carrier's otherwise authorized regular routes, restricted against the transportation of traffic, direct or interline, between Atlanta, on the one hand, and, on the other, the points named herein. NOTE: If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 72495 (Sub-No. 9), filed May 3, 1971. Applicant: DON SWART TRUCKING, INC., Box 48, Route 2, Wellsburg, WV 26070. Applicant's representative: D. L. Bennett, 129 Edgington Lane, Wheeling, WV 26003. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Rock dust* (ground limestone), in bulk, in bags on flat trailers or in pneumatic tank trailers, from Benwood, W. Va., to points in Ohio on and east of U.S. Highway 23, and points in Pennsylvania on and west of U.S. Highway 219. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Pittsburgh, Pa., or Washington, D.C.

No. MC 73165 (Sub-No. 300), filed July 12, 1971. Applicant: EAGLE MOTOR LINES, INC., 830 North 33d Street, Post Office Box 11086, Birmingham, AL 35202. Applicant's representative: Robert M. Pearce, Post Office Box E, Bowling Green, KY 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum and aluminum products, and aluminum articles*, between the plantsite of Planet Corp., at Birmingham, Ala., on the one hand, and, on the other, points in and east of Texas, Oklahoma, Kansas, Nebraska, South Dakota, and North Dakota. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary applicant requests it be held at Birmingham, Ala.

No. MC 83217 (Sub-No. 56), filed July 16, 1971. Applicant: DAKOTA EXPRESS, INC., 1217 West Cherokee, Post Office Box 1252, Sioux Falls, SD 57101. Applicant's representative: Henry J. Schuette, 3109 South Lyndale, Sioux Falls, SD 57107. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meats, cooked, cured, or prepared with or without vegetables, milk, eggs, or fruit ingredients*, from Fort Madison, Iowa, to points in West Virginia, New York, Connecticut, Pennsylvania, and Minnesota; and (2) *meats, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from points in South Dakota, Nebraska, Kansas, Minnesota, Missouri, Wisconsin, Illinois, and Indiana, to Fort Madison, Iowa. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Minneapolis, Minn.

No. MC 83539 (Sub-No. 317), filed July 12, 1971. Applicant: C & H TRANSPORTATION CO., INC., 1936–2010 West Commerce Street, Post Office Box 5976, Dallas, TX 75222. Applicant's representative: Thomas E. James (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Asphalt mixing machinery, storage systems, storage silos, surge systems, control centers, heaters, and equipment, parts, materials, and supplies* used in construction or installation of said commodities; and (2) *fabricated steel tanks, dye machines, steamers, and parts and accessories* used in the installation thereof, between points in Tennessee on the one hand, and, on the other, points in the United States (except Hawaii). NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga. or Nashville, Tenn.

No. MC 83539 (Sub-No. 318), filed July 19, 1971. Applicant: C & H TRANSPORTATION CO., INC., 1936–2010 West Commerce Street, Post Office Box 5976, Dallas, TX 75222. Applicant's representative: Thomas E. James (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal panels, metal insulated panels, insulation, metal windows and doors and frames therefor, and accessories* necessary for the installation and completion of the named commodities, from Pine Bluff, Ark., to points in the United States (except Alaska, Arkansas, and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or Little Rock, Ark.

No. MC 103490 (Sub-No. 66), filed July 30, 1971. Applicant: PROVAN TRANSPORT CORP., 210 Mill Street, Newburgh, NY 12550. Applicant's representative: Bert Collins, 140 Cedar Street, New York, NY 10006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Concrete products, pipe fittings, and materials and supplies*, incidental to the manufacture of concrete products (except in bulk), between the plantsite of Price Brothers Co., Dutchess County, N.Y., on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Ohio, Delaware, Maryland, Virginia, West Virginia, and the District of Columbia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 103993 (Sub-No. 653), filed July 30, 1971. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, IN 46514. Applicant's representative: Paul D. Borghesani (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movements, from points in New York, to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. No duplicating authority is sought. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 105497 (Sub-No. 73), filed July 22, 1971. Applicant: THURSTON MOTOR LINES, INC., 600 Johnston Road, Post Office Box 10638, Charlotte, NC 28201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Boards made from wood using wood chips, wood shavings, or wood fiber*, alone or in combination, with or without added binder, with surface unfinished or finished with decorative or protective materials and with or without accessories and supplies used in the installation and application thereof, from points in Nash County, N.C., to points in Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia; and (2) *materials, equipment, and supplies*, used in the manufacture and distribution of the commodities described in (1) above, from points in Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia, to points in Nash County, N.C. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states that it now holds common carrier authority to serve points in Georgia, South Carolina, Tennessee, Virginia, and Russell County, Ala., through certain gateways. The purpose of this application is to acquire authority to serve points in States not authorized to be served and to eliminate gateway restriction. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 106051 (Sub-No. 44), filed July 12, 1971. Applicant: OLD COLONY TRANSPORTATION CO., INC., 676 Dartmouth Street, South Dartmouth, MA 02748. Applicant's representative: Francis E. Barrett, Jr., 536 Granite Street, Braintree, MA 02184. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, automobiles, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment or special handling), between Albany, N.Y., and Champlain, N.Y., from Albany over U.S. Highway 9 to Champlain, and return over the same routes, serving all intermediate points and points in Rensselaer, Saratoga, Washington, Warren, Essex, and Clinton Counties, N.Y., as off-route points. NOTE: Applicant states it seeks no duplicating authority. If authority granted, applicant will request cancellation of its duplicating irregular route authority. If a hearing is deemed necessary, applicant requests it be held at Albany, N.Y.

No. MC 106088 (Sub-No. 5), filed July 29, 1971. Applicant: WM. O. HOPKINS, 528 South Milton Street, Rensselaer, IN 47978. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (a) *Lumber, plywood, veneer, pressed wood, chipboard, flakeboard, and moldings*, from Zebulon, N.C.,

Memphis, Tenn., Baltimore, Md., Newport News, Va., and Calumet Harbor, Ill., to the plant and warehouse sites of Northway Products Co., located at or near Rensselaer, Ind.; (b) *paint, lacquer, enamel, stain, and paint supplies*, from Grand Rapids, Mich., to the plant and warehouse sites of Northway Products Co., located at or near Rensselaer, Ind., restricted against the transportation of commodities in bulk; and (c) *hardware*, from Canton, Ohio, Bridgeport, Conn., and Winston-Salem, N.C., to the plant and warehouse facilities of Northway Products Co., located at or near Rensselaer, Ind. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No MC 106088 (Sub-No. 6), filed July 29, 1971. Applicant: WM. O. HOPKINS, 528 South Milton Street, Rensselaer, IN 47978. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (a) *Wire spring assemblies, box spring constructions, paper products, lumber, wire, cord, and machinery used in the manufacture of steel springs*, from the plantsites and warehouse facilities of Indiana Spring Corp. located at or near Rensselaer, Ind., to Middletown, Ohio; Grand Rapids, Mich.; Louisville, Ky.; and Hialeah and Orlando, Fla.; (b) *wire spring assemblies, box spring constructions, paper products, lumber, wire, cord, and machinery used in the manufacture of steel springs*, from the plantsites and warehouse facilities of Sealy Spring Corp., located at or near Delano, Pa., to Detroit and Grand Rapids, Mich.; Middletown and Medina, Ohio; Tucker, Ga.; and Orlando and Hialeah, Fla.; (c) *wire, cord, springs, and machinery used in the manufacture of steel springs*, from Cleveland and Archbold, Ohio, and Pueblo, Colo., to the plantsites and warehouse facilities of Indiana Spring Corp. located at or near Rensselaer, Ind.; (d) *wire, cord, and machinery used in the manufacture of steel springs*, from Chicago, South Chicago, and Waukegan, Ill.; Archbold and Cleveland, Ohio, to the plantsites and warehouse facilities of Sealy Spring Corp. located at or near Delano, Pa.; (e) *wire carriers and damaged or reject wire*, from the plantsites and warehouse facilities of Indiana Spring Corp. located at or near Rensselaer, Ind., to Waukegan, Chicago, South Chicago, Joliet, and Alton, Ill.; Aliquippa and Johnstown, Pa.; Cleveland and Portsmouth, Ohio; Roebling, N.J.; and Pueblo, Colo.; and (f) *wire carriers and damaged or reject wire*, from the plantsites and warehouse facilities of Sealy Spring Corp. located at or near Delano, Pa., to Waukegan, Chicago, South Chicago, Joliet, and Alton, Ill.; Cleveland and Portsmouth, Ohio; Roebling, N.J., and Pueblo, Colo. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 106509 (Sub-No. 22), filed July 14, 1971. Applicant: YOUNGER TRANSPORTATION, INC., 4904 Griggs Road, Post Office Box 14066, Houston, TX 77021. Applicant's representative: Wray E. Hughes (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel and iron articles* (other than oilfield and pipeline commodities as defined in T. E. Mercer Extension, 74 M.C.C. 459), between points in Alabama, Arkansas, Kansas, Oklahoma, Louisiana, Mississippi, New Mexico, and Texas. NOTE: Applicant states that it is authorized to transport oilfield commodities as defined in T. E. Mercer Extension, 74 M.C.C. 459, between points in Alabama, Arkansas, Oklahoma, Louisiana, Mississippi, Texas, and Lea and Eddy Counties, N. Mex. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Dallas or Houston, Tex., or New Orleans, La.

No. MC 107295 (Sub-No. 542), filed July 28, 1971. Applicant: PRE-FAB TRANSIT CO., a corporation, 100 South Main Street, Farmer City, IL 61842. Applicant's representative: Mack Stephenson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Floor covering and accessories*, from Marcus Hook, Pa., and Trenton and Kearny, N.J., to points in Iowa, Minnesota, Montana, Nebraska, North Dakota, South Dakota, and Wisconsin. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn., or Washington, D.C.

No. MC 107295 (Sub-No. 543), filed July 29, 1971. Applicant: PRE-FAB TRANSIT CO., a corporation, 100 South Main Street, Farmer City, IL 61842. Applicant's representatives: Dale L. Cox and Mack Stephenson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe, conduit, and fittings, iron or steel, including accessories* incidental to the completion, erection, and installation thereof; (a) from Sharon and Wheatland, Pa., to points in Georgia, Alabama, Louisiana, Mississippi, and Texas; and (b) from Alabama State Docks at Mobile, Ala., to points in Alabama, Mississippi, Louisiana, Texas, and Georgia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Jackson, Miss.

No. MC 109637 (Sub-No. 381), filed July 12, 1971. Applicant: SOUTHERN TANK LINES, INC., 10 West Baltimore Avenue, Lansdowne, PA 19050. Applicant's representatives: John E. Nelson (same address as applicant), and Harry C. Ames, Jr., 666 11th Street NW., Washington, DC 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vegetable oils and shortening*, in bulk, in tank vehicles, from Louisville, Ky., to points in Ohio and the Lower Peninsula of Michigan. NOTE: Applicant states its present authority can be tacked to that here sought but it has no present intention of doing so. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 110420 (Sub-No. 638), filed July 8, 1971. Applicant: QUALITY CARRIERS, INC., I–94 and County Highway C, Bristol, WI. Applicant's representative: Allan B. Torhorst, Post Office Box 307, Burlington, WI 53105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, from points in Maryland and New Jersey to Janesville, Wis. NOTE: Applicant states that the requested authority could be tacked at Janesville, Wis., to serve other destinations, however, tacking is not intended. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 111812 (Sub-No. 430), filed July 28, 1971. Applicant: MIDWEST COAST TRANSPORT, INC., 405½ East Eighth Street, Post Office Box 1233, Sioux Falls, SD 57101. Applicant's representative: Donald L. Stern, 530 Univac Building, 7100 and West Center Road, Omaha, NE 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and articles distributed by meat packinghouses* as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from Pekin and Peoria, Ill., to points in Iowa, Kansas, and Nebraska, restricted to the transportation of traffic originating at the plantsites and storage facilities of Bird Provision Co. at Pekin and Peoria, Ill. NOTE: Applicant states that the requested authority can be tacked at destinations with Subs 69 and 368, however most of this service by tacking could be performed direct single line by virtue of authority held in Sub 122. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Omaha, Nebr.

No. MC 112148 (Sub-No. 53), filed July 29, 1971. Applicant: POWERS TRANSPORTATION, INC., Post Office Box 87, Storm Lake, IA 50588. Applicant's representative: William L. Fairbank, 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials, supplies, and products* used in or produced by the food processing industry (except commodities in bulk), between Lawton, Decatur, and Paw Paw, Mich., on the one hand, and, on the other, points in Wisconsin. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., Washington, D.C., or Chicago, Ill.

No. MC 113024 (Sub-No. 115), filed July 21, 1971. Applicant: ARLINGTON J. WILLIAMS, INC., Rural Delivery No. 2, Smyrna, DE 19977. Applicant's representative: Samuel W. Earnshaw, 833 Washington Building, Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Carbon black*, in bags, from North Bend, Sterlington, and Cabot, La., to Wilmington, Del., for the account of Electric Hose & Rubber Co., Wilmington, Del. NOTE: Applicant holds pending common carrier applications under MC 135046 and Subs 1, 2, and 3. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 113024 (Sub-No. 116), filed July 26, 1971. Applicant: ARLINGTON J. WILLIAMS, INC., Rural Delivery No. 2, Smyrna, DE 19977. Applicant's representative: Samuel W. Earnshaw, 833 Washington Building, Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Materials and supplies* used in the distribution of baby goods, from Chicago, Ill., to Newark, Ohio for the account of International Playtex Corp., Dover, Del. NOTE: Applicant holds pending common carrier applications under MC 135046 and Subs 1, 2, and 3. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 113298 (Sub-No. 1) (Amendment), filed May 28, 1971, published in the FEDERAL REGISTER issue of July 1, 1971, and republished as amended this issue. Applicant: WEST END TRANSFER, INC., 1508 Jefferson Street, Bluefield, WV. Applicant's representative: S. Harrison Kahn, Suite 733, Investment Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Rock dust and gravel*, from points in Tazewell County, Va., and Mercer County, W. Va., to points in Pike, Letcher, Harlan, Knott and Martin Counties Ky.; Logan, Mingo, Kanawha, McDowell, Mercer, Summers, Raleigh, Boone, Greenbrier, Fayette, and Wyoming Counties, W. Va.; and Bland, Tazewell, Russell, Wise, Giles, Buchanan, Dickenson, Lee, and Scott Counties, Va. Restriction: The transportation sought herein is restricted to movement by rail. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. The purpose of this republication is to redescribe the authority sought. If a hearing is deemed necessary, applicant requests it be held at Bluefield, W. Va.

No. MC 113981 (Sub-No. 8), filed July 16, 1971. Applicant: V. J. HUNT, doing business as VEGAS TRUCKING & MOVING CO., 2853 Cedar Street, Las Vegas, NV 89104. Applicant's representative: William J. Lippman, Suite 960, 1819 H Street NW., Washington, DC 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, (except those of unusual value, household goods as defined by the Commission, classes A and B explosives, commodities in bulk, and those requiring special equipment), between Las Vegas, Nev., and Bakersfield, Calif.; (1) from Las Vegas, Nev., over Interstate Highway 15 to Barstow, Calif., thence over California Highway 58 to Bakersfield, Calif., and return over the same route; (2) between Baker, Calif., and Tecopa, Calif., from Baker, Calif., over California Highway 127 to junction unnumbered Inyo County road thence over unnumbered Inyo County road to Tecopa, Calif., and return over the same route, serving Baker, Calif., as a point of joinder only; (3) between Beechers Corner, Calif., and Ridgecrest, Calif.; (a) from Beechers Corner, Calif., over California Highway 395 to junction unnumbered Inyo County road, known as Nine-Mile Grade, thence over unnumbered Inyo County road to junction California Highway 178 just west of West End, Calif.; and (b) from junction California Highway 395 and unnumbered Inyo County road, over unnumbered Inyo County road to Ridgecrest, Calif., and return over the same route, serving Beechers Corner, Calif., as a point of joinder only; and (4) between Freeman Junction and Mojave, Calif., over California Highway 14, serving Mojave, Calif., as a point of joinder only, as alternate routes for operating convenience only, in connection with applicant's presently authorized regular route operations between Las Vegas, Nev., and Bakersfield, Calif., serving no intermediate points in the routes described in (1), (2), (3), and (4) above. NOTE: If a hearing is deemed necessary, applicant requests it be held at Las Vegas, Nev., or Los Angeles, Calif.

No. MC 115162 (Sub-No. 226) (Amendment), filed May 6, 1971, published in the FEDERAL REGISTER issue of May 27, 1971, and republished as amended this issue. Applicant: POOLE TRUCK LINE, INC., Post Office Drawer 500, Evergreen, AL 36401. Applicant's representative: Robert E. Tate (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Boards*, building, wall or insulating; *fiberboard or pulpboard* made of vegetable, wood, or mineral fibers; *mineral or mineral and wood fibers or vegetable fibers combined; composition board; and accessories* used in the installation of the above commodities; from the plant and warehouse sites of Grefco, Inc., and facilities utilized by the Celotex Corp. located in Florence, Ky., to points in Alabama, Florida, Georgia, North Carolina, South Carolina, Tennessee, and Mississippi. NOTE; (1) Applicant states that the requested authority cannot be tacked with its existing authority, and that the authority sought herein is restricted to traffic originating at the plant and warehouse sites of Grefco, Inc., and facilities utilized by the Celotex Corp. located at Florence, Ky. (2) The purpose of this republication is to redescribe the commodity and territorial descriptions and to restrict the application to the plant and warehouse sites as shown above. If a hearing is deemed necessary, applicant requests it be held at Tampa, Fla., or Washington, D.C.

No. MC 115840 (Sub-No. 69), filed July 16, 1971. Applicant: COLONIAL FAST FREIGHT LINES, INC., 1215 West Bankhead Highway, Post Office Box 10327, Birmingham, AL 35202. Applicant's representative: C. E. Wesley (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Pipe, fittings, valves, hydrants, gaskets, and accessories* (except in bulk), from Holt, Ala., to points in the United States (except Alaska and Hawaii); and (2) *materials, supplies, and equipment* (except in bulk), used in the operations of a foundry, from points in the United States (except Alaska and Hawaii), to Holt, Ala. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Tampa, Fla., or Washington, D.C.

No. MC 115841 (Sub-No. 415), filed July 22, 1971. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., Post Office Box 168, Concord, TN 37720. Applicant's representatives: Roger M. Shaner (same address as applicant) and E. Stephen Heisley, 666 11th Street NW., Washington DC 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods* (except in bulk), from Grand Island, Nebr., to points in Alabama, Arkansas, Georgia, Florida, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Iowa, Illinois, Indiana, Michigan, Ohio, Virginia, West Virginia, Pennsylvania, New Jersey, New York, Connecticut, Massachusetts, Vermont, New Hampshire, Maine, Texas, and Tennessee. NOTE: Applicant states that the requested authority can be tacked with its existing authority, but indicates that it has no present intention to tack, and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at (1) Lincoln, Nebr.; (2) Topeka, Kans.; (3) Denver, Colo.

No. MC 116045 (Sub-No. 36), filed July 28, 1971. Applicant: NEUMAN

TRANSIT CO., INC., Post Office Box 38, Rawlings, WY 82301. Applicant's representative: Leslie R. Kehl, 420 Denver Club Building, Denver, Colo. 80202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Class A explosives*, in container, in mixed shipments with nitro-carbonitrate, from Rawlins, Wyo., to points in Arizona, Colorado, Idaho, Montana, Nevada, and Utah, restricted to the transportation of traffic originating at the above origin and destined to the indicated destination points. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo., or Denver, Colo.

No. MC 116073 (Sub-No. 177), filed July 28, 1971. Applicant: BARRETT MOBILE HOME TRANSPORT, INC., Post Office Box 919, Moorhead, MN 56560. Applicant's representative: Robert G. Tessar, 1819 Fourth Avenue South, Moorhead, MN 56560. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers* designed to be drawn by passenger automobiles, in initial movements, and *buildings* in sections mounted on wheeled undercarriages, from origins which are points of manufacture, from points in Union County, N.C., to points in the United States (except Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Charlotte, N.C.

No. MC 116628 (Sub-No. 15), filed July 9, 1971. Applicant: SUBURBAN TRANSFER SERVICE, INC., Post Office Box 168, Rutherford, NJ 07070. Applicant's representative: William P. Sullivan, 1819 H Street NW., Washington, DC 20006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by retail department stores, and *materials and supplies* used in the operation of such stores, and *exhibition and fashion show equipment, materials, and paraphernalia*, between points in Connecticut, Delaware, Georgia, Illinois, Massachusetts, New Jersey, New York, Pennsylvania, Texas, Virginia, and the District of Columbia, limited to a transportation service to be performed under a continuing contract, or contracts, with Lord & Taylor of New York, N.Y. NOTE: Applicant states coincidental cancellation will be sought of a portion of its present authority under MC 116628 (Sub-No. 1) to serve Lord & Taylor. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 116763 (Sub-No. 202), filed July 30, 1971. Applicant: CARL SUBLER TRUCKING, INC., 115 North West Street, Versailles, OH 45380. Applicant's representative: H. M. Richters (same address as applicant). Authority sought to operate as a *comman carrier*, by motor vehicle, over irregular routes, transporting: *Food, foodstuffs, and food preparations* (except in bulk), from the plantsite and storage facilities utilized by Kraft Foods, Division of Kraftco Corp., in Decatur, Atlanta, Tucker, and Doraville, Ga., to points in Florida. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. No duplicating authority held or sought. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 116763 (Sub-No. 203), filed July 30, 1971. Applicant: CARL SUBLER TRUCKING, INC., 115 North West Street, Versailles, OH 45380. Applicant's representative: H. M. Richters (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products*, from Eaton, Ind., to points in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, and Texas; and (2) *returned shipments of paper and paper products*, from points in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, and Texas, to Eaton, Ind. NOTE: Applicant states that tacking possibilities may exist in the instant application and its presently held authority, however it has no present intention to tack, and has answered "no" to Item VI(b) in the application. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 117167 (Sub-No. 2) (Amendment) filed May 13, 1971, published in the FEDERAL REGISTER issue of June 10, 1971, and republished as amended this issue. Applicant: WHEELER'S TOWING & SERVICE, INC., 5050 L Street, Omaha, NE 68117. Applicant's representative: Donald L. Stern, 530 Univac Building, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Wrecked, disabled, inoperative, stolen, abandoned, replacement, and repossessed motor vehicles and cargo trailers* by use of wrecker equipment only, between Omaha, Nebr., and Council Bluffs, Iowa, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii); and (2) *wrecked, disabled, inoperative, stolen abandoned, replacement, and repossessed motor vehicles* (except automobiles), in truckaway service, between Omaha, Nebr., and Council Bluffs, Iowa, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. The purpose of this republication is to reflect the additional word "replacement" to the commodity descriptions in (1) and (2) above. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 117883 (Sub-No. 158), filed July 12, 1971. Applicant: SUBLER TRANSFER, INC., 791 East Main Street, Versailles, OH 45380. Applicant's representative: Edward J. Subler, Post Office Box 62, Versailles, OH 45380. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs and advertising equipment, materials, and supplies* when shipped therewith (except commodities in bulk), in vehicles equipped with mechanical refrigeration, from points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania (except Bucks, Delaware, Chester, Lancaster, Dauphin, Lebanon, Berks; and Montgomery Counties, Pa.), Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia to points in Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, Ohio, Pennsylvania (on and west of U.S. Highway 219), and Wisconsin. NOTE: If a hearing is deemed necessary, applicant does not specify a location.

No. MC 118202 (Sub-No. 6), filed July 9, 1971. Applicant: SCHULTZ TRANSIT, INC., Post Office Box 503, Winona, MN 55987. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, MN 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from the plantsite or storage facilities of Illini Beef Packers, Inc., at or near Joslin, Ill., to points in Connecticut, Delaware, Indiana, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia, restricted to traffic originating at the named origin and destined to the named territory. NOTE: Applicant holds contract carrier authority under MC 134631 and subs, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Minneapolis, Minn.

No. MC 118959 (Sub-No. 98), filed July 21, 1971. Applicant: JERRY LIPPS, INC., 130 South Frederick Street, Cape Girardeau, MO 63701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (a) *Doors, garage or industrial with hardware accessories and springs, door hangers, hanger rails, track or parts thereof, iron or steel, and equipment, materials, and supplies used in the manufacture of doors*, from Waterloo, Iowa, to points in Alabama, Georgia, Florida, North Carolina, South Carolina, and Tennessee; and (b) *aluminum coil and equipment, materials, and supplies used in the manufacture of aluminum coil*, from Derry, Pa., to Monroe, Ga. NOTE: Applicant also holds contract carrier authority under MC 125664, therefore

dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Atlanta, Ga.

No. MC 118989 (Sub-No. 65), filed July 29, 1971. Applicant: CONTAINER TRANSIT, INC., 5223 South Ninth Street, Milwaukee, WI 53211. Applicant's representative: Albert A. Andrin, 29 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal containers and metal container ends and accessories and equipment* used in connection with the distribution of metal containers and metal container ends when moving with metal containers, from La Porte, Ind.; Lenexa, Kans.; Madisonville, Ky.; and Colliersville, Tenn.; to points in the United States (except Alaska and Hawaii). NOTE: Applicant states the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Milwaukee, Wis.

No. MC 119632 (Sub-No. 44), filed July 12, 1971. Applicant: REED LINES, INC., 634 Ralston Avenue, Defiance, OH 43512. Applicant's representative: John P. McMahon, 100 East Broad Street, Columbus, OH 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic containers, and closures and accessories therefor, and plastic carriers*, from the plant and warehouse sites of Owens-Illinois, Inc., at St. Louis, Mo., Chicago, Ill., and Cincinnati, Ohio, to points in Indiana, Illinois, Michigan, Missouri, Ohio, West Virginia, New York, and Pennsylvania. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 119774 (Sub-No 28), filed August 2, 1971. Applicant: MARY ELLEN STIDHAM, N. M. STIDHAM, A. E. MANKINS (INEZ MANKINS, EXECUTRIX), AND JAMES E. MANKINS, SR., a partnership, doing business as EAGLE TRUCKING COMPANY, Post Office Box 471, Kilgore, TX 75662. Applicant's representative: Bernard H. English, 6270 Firth Road, Fort Worth, TX 76116. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing and siding materials, including accessories*, in straight or mixed truck loads, from Shreveport, La., to points in Alabama, Arkansas, Florida, Illinois, Indiana, Kansas, Kentucky, Mississippi, Missouri, New Mexico, Oklahoma, Tennessee, and Texas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Shreveport, La., or Dallas, Tex.

No. MC 120673 (Sub-No. 4), filed July 21, 1971. Applicant: ACE TRANSPORT COMPANY, a corporation, City Park Road, Post Office Box 605, Oelwein, IA 50662. Applicant's representative: A. R. Fowler, 2288 University Avenue, St. Paul, MN 55114. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Nitrogen fertilizer solutions and anhydrous ammonia*, in bulk, in tank vehicles, from the plantsite of Hawkeye Chemical Co., at or near Clinton, Iowa, to points in Illinois, Minnesota, Wisconsin, and Missouri. NOTE: If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa.

No. MC 119908 (Sub-No. 15), filed July 26, 1971. Applicant: WESTERN LINES, INC., Post Office Box 1145, Houston, TX 77001. Applicant's representative: Austin L. Hatchell, 1102 Perry Brooks Building, Austin, Tex. 78701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber, lumber products, and building boards*, between points in Texas. NOTE: Applicant also holds contract carrier authority under MC 110814 and subs thereunder, therefore dual operations and common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Houston or Dallas, Tex.

No. MC 123061 (Sub-No. 60), filed July 22, 1971. Applicant: LEATHAM BROTHERS, INC., 46 Orange Street, Salt Lake City, UT 84104. Applicant's representative: Harry D. Pugsley, 400 El Paso Natural Gas Building, Salt Lake City, Utah 84111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal and poultry feed, animal and poultry foods and ingredients used in the manufacture of both* (except in bulk, in tank vehicles), between points in Idaho, Nevada, Oregon, and Washington. NOTE: Applicant states that it intends to tack the requested authority to its existing authority at points in Idaho and serve between Utah and points applied herein. If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah, or Boise, Idaho.

No. MC 124813 (Sub-No. 83), filed July 19, 1971. Applicant: UMTHUN TRUCKING CO., a corporation, 910 South Jackson Street, Eagle Grove, IA 50533. Applicant's representative: William L. Fairbank, 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Limestone, limestone products, mineral mixtures, feed supplements, feed ingredients, and fertilizer materials*, from the plantsites and storage facilities of Calcium Carbonate Co., and Midwest Mineral Co. at Quincy, Ill., to points in Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, Tennessee, and Wisconsin, restricted to traffic originating at the named plantsites and storage facilities. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant holds contract carrier authority under MC 118468 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa; Chicago, Ill.; or St. Louis, Mo.

No. MC 125647 (Sub-No. 5), filed July 12, 1971. Applicant: ABSCO, INC., 237 South Washington Street, Greenfield, OH 45123. Applicant's representative: John P. McMahon, 100 East Broad Street, Columbus, OH 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Business forms*, from Hillsboro and Greenfield, Ohio, to points in New York, New Jersey, Connecticut, Massachusetts, Pennsylvania, and Michigan; and (2) *materials and supplies* used in the manufacture, sale, and distribution of business forms, from points in New York, New Jersey, Connecticut, Massachusetts, Pennsylvania, and Michigan, to Greenfield and Hillsboro, Ohio, under contract with Rotary Forms Press, Inc., and Computor Stock Forms, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 125687 (Sub-No. 6), filed July 21, 1971. Applicant: EASTERN STATES TRANSPORTATION, INC., 1060 Lafayette Street, York, PA 17405. Applicant's representative: S. Harrison Kahn, Suite 733, Investment Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages and related advertising material, and empty containers and pallets*, between the plants and warehouses of the F & M Schaefer Brewing Co. located at Albany and New York, N.Y.; Fogelsville and Upper Macungie Township, Pa.; and Baltimore, Md. Restriction: The transportation sought herein is restricted to shipments moving between the plants, warehouses and breweries of F & M Schaefer Brewing Co. located at points named above. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or New York, N.Y.

No. MC 125687 (Sub-No. 7), filed July 21, 1971. Applicant: EASTERN STATES TRANSPORTATION, INC., 1060 Lafayette Street, York, PA 17405. Applicant's representative: S. Harrison Kahn, Suite 733, Investment Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: (1) *Malt beverages and related advertising material* from Fogelsville, Upper Macungie Township, Pa., to points in Pennsylvania, Connecticut, Delaware, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Vermont, Virginia, and the District of Columbia; and (2) the return of *empty containers and pallets* from points in the aforementioned States and the District of Columbia to Fogelsville, Upper Macungie Township, Pa. NOTE: Applicant states that it intends to tack the requested authority with its

existing authority but does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or New York, N.Y.

No. MC 126276 (Sub-No. 53), filed July 22, 1971. Applicant: FAST MOTOR SERVICE, INC., 6150 South East Avenue, Hodgkins, IL 60527. Applicant's representative: James C. Hardman, 127 North Dearborn Street, Chicago, IL 60602. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Containers, container ends, closures and accessories, paper and paper articles, and plastic articles, and materials, equipment, and supplies* used in the manufacture, distribution, and sale of the foregoing specified commodities; (a) between points in New Mexico, Oklahoma, Texas, Arkansas, Louisiana, Mississippi, Alabama, Georgia, Florida, South Carolina, Tennessee, North Carolina, Virginia, and Kentucky; and (b) between points in (a) above, on the one hand, and, on the other, points in Colorado, Nebraska, Kansas, Minnesota, Iowa, Missouri, Wisconsin, Illinois, Indiana, Ohio, Michigan, West Virginia, Maryland, Delaware, New Jersey, Pennsylvania, New York, Connecicut, Vermont, New Hampshire, Rhode Island, Maine, Massachusetts, and the District of Columbia, under contract with Continental Can Co., Inc. NOTE: If a hearing is deemed necessary applicant requests it be held at Chicago, Ill., New York, N.Y., or Atlanta, Ga.

No. MC 126305 (Sub-No. 34), filed July 20, 1971. Applicant: BOYD BROTHERS TRANSPORTATION CO., INC., Rural Delivery 1, Clayton, AL 36016. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. NOTE: If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 135518 (Sub-No. 1), filed July 29, 1971. Applicant: EVERETT TRUCKING, INC., Post Office Box 56, Mount Vernon, WA 98273. Applicant's representative: George R. LaBissoniere, 1424 Washington Building, Seattle, Wash. 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt and wine beverages*, from points in California to points in Washington and Portland, Oreg. NOTE: If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 135514 (Sub-No. 1), filed July 27, 1971. Applicant: PRESTIGE MOVING AND STORAGE, INC., 8290 Alpine Avenue, Sacramento, CA 95826. Applicant's representative: Alan F. Wohlstetter, 1700 K Street NW., Washington, DC 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, between points in Alpine, Amador, El Dorado, Nevada, Placer, Sacramento, and Yolo Counties, Calif., restricted to the transportation of traffic having a prior or subsequent movement, in containers, and further restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization, or unpacking, uncrating, and decontainerization of such traffic. NOTE: If a hearing is deemed necessary, applicant does not specify a location.

No. MC 135596 (Sub-No. 2), filed July 28, 1971. Applicant: EDWARD E. SCHMIDT, doing business as BUD SCHMIDT TRUCKING, 920 Fifth Street SW., Box 7, Waseca, MN 55402. Applicant's representative: Michael Fitzgerald, 400 Minnesota Federal Building, Sixth Street at Marquette Avenue, Minneapolis, MN 55402. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Sporting goods merchandise and articles* as are dealt in by Herters, Inc., *including pistols, rifles, shotguns, ammunition, ammunition loading tools, gun stocks, cartridge cases, ventilated shotgun ribs, binoculars, telescope rifle sights and mounts, sonar devices, shotgun varichokes, survival and camping equipment, archery equipment, fishing equipment, hunting equipment, animal traps, clay targets, fiberglass boats, snowmobiles, minibikes, and amplifying equipment*, between Waseca, Minn., on the one hand, and, on the other, points in Wisconsin and Iowa, under contract with Herters, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Minneapolis or St. Paul, Minn.

No. MC 135713 (Sub-No. 1), filed July 28, 1971. Applicant: AFRO-URBAN TRANSPORTATION, INC., 103 East 125th Street, New York, NY 10035. Applicant's representative: Charles W. Chapman, 233 Broadway, New York, NY 10007. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Water emulsion wax* (except commodities in bulk, in tank vehicles), from the site of Do-All Chemical Corp. at Brooklyn, N.Y., to G.S.A. warehouse facilities in Duluth and Savannah, Ga.; Chicago, Ill.; Middle River (Baltimore), Md.; Hingham (Boston), Mass.; Belle Meade and Metuchen, N.J.; Shelby, Ohio; and Norfolk and Franconia, Va.; under contract with Do-All Chemical Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 135751 (Sub-No. 2), filed July 29, 1971. Applicant: ATLANTIC CARRIERS, INC., Box 284, Atlantic, IA. Applicant's representative: Thomas E. Leahy, Jr., 900 Hubbell Building, Des Moines, IA 50309. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, (1) from Shenandoah, Iowa, to Kentland, Ind.; (2) from Nebraska City, Nebr., to Shenandoah, Iowa; and (3) from Chicago, Ill., to Shenandoah, Iowa, under contract with Farmaster Products, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Chicago, Ill.

No. MC 135772, filed July 22, 1971. Applicant: BARRETT TRANSFER AND STORAGE CO., a corporation, 3812 Northeast Fourth Street, Renton, WA 98055. Applicant's representative: George R. LaBissoniere, 1424 Washington Building, Seattle, Wash. 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, contractors and construction equipment, material, and supplies; building materials and iron and steel articles; and commodities*, which, because of their size and weight, require the use of special equipment, between points in King, Pierce, and Snohomish Counties, Wash., on the one hand, and, on the other, points in Washington and Oregon. NOTE: If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 135843 (Sub-No. 2), filed July 21, 1971. Applicant: IOWA GATEWAY, INC., doing business as GATEWAY TERMINAL, River Road, Keokuk, IA 52632. Applicant's representative: A. Arthur Davis, 400 Empire Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from Iowa Gateway Terminal located approximately 6 miles north of Keokuk, Iowa and 3¾ miles east of U.S. Highways 218 and 61 to points in Iowa, Illinois, Missouri, Kansas, Nebraska, Minnesota, and Wisconsin. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant holds contract carrier authority under MC 133399 and sub, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa.

MOTOR CARRIER OF PASSENGERS

No. MC 43267 (Sub-No. 14), filed July 15, 1971. Applicant: MOHAWK COACH LINES, INC., 149 Liberty Street, Little Ferry, NJ 07643. Applicant's representative: Robert E. Goldstein, 8 West 40th Street, New York, NY 10018. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage, express, and newspapers*, in the same vehicle with passengers; (1) from junction U.S. Highway 9W and Union Avenue, New Windsor, N.Y., over Union Avenue to junction Temple Hill Road, thence over Temple Hill Road to junction New York Highway 207, thence over New York Highway 207 to the entrance gate of Stewart Air Field and return over the same route, serving all intermediate points; and (2) from junction New York Highway 307 and Union Avenue (near the New York State Thruway), over Union Avenue to junction New York Highway 17K (near Newburgh, N.Y.), thence over New York Highway 17K to the city of Newburgh, N.Y., and return over the same routes, serving all intermediate points. NOTE: Applicant states it intends to tack the proposed extension of route to its present routes authorized in MC 43267 to provide service between New York, N.Y., and points in New Jersey, on the one hand, and, on the other, Stewart Air Field, New Windsor, N.Y. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 123432 (Sub-No. 10), filed July 26, 1971. Applicant: WISCONSIN COACH LINES, INC., 901 Niagara Street, Post Office Box 1085, Waukesha, WI 53186. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage*, in special operations, between Great Lakes, Ill., and Milwaukee, Wis., from Great Lakes over Illinois Highway 42 to junction Illinois Highway 137, thence over Illinois Highway 137 to junction U.S. Highway 41, thence over U.S. Highway 41 to junction Interstate Highway 94, thence over Interstate Highway 94 to Milwaukee, and return over the same routes, serving no intermediate points. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 126880 (Sub-No. 1), filed July 22, 1971. Applicant: WILKINS TRANSPORTATION, INC., 343 South Vernal Avenue, Vernal, UT 84078. Applicant's representative: Irene Warr, 419 Judge Building, Salt Lake City, Utah 84111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in charter and special operations, between points in Routt and Moffit Counties, Colo., and points on the Green River in Moffit County, Colo., and points in Uintah County, Utah. NOTE: Applicant states tacking may be possible at Vernal, Utah (Uintah County), under MC 126880 and incidental charter rights thereunder. If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah, or Denver, Colo.

APPLICATION FOR BROKERAGE LICENSE

No. MC 130151, filed July 16, 1971. Applicant: FRONTIER ENTERPRISES, INC., doing business as FRONTIER TRAVEL AGENCY, 1931 North Carson Street, Carson City, NV. Applicant's representative: Reese H. Taylor, Jr., Union Federal Building, 308 North Curry Street, Carson City, NV 89701. For a license (BMC 5), to engage in operations as a *broker*, at Carson City, Nev., in arranging for the transportation by motor vehicle, in interstate or foreign commerce, of *passengers and their baggage*, both as individuals and in groups, in special and charter operations, between points in Nevada, on the one hand, and, on the other, points in California and Oregon.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary*.

Office of the Secretary

[Suspension Docket No. 8664, Sub No. 1]

STABILIZATION OF RATES AND CHARGES, AUGUST 1971

AUGUST 23, 1971.

This supplements the Commission's Release No. 147-71 of Monday, August 16, 1971, entitled "Moratorium Set on Rate Increases."

To implement the Executive order of the President of the United States, dated August 15, 1971, the Commission on August 16, 1971, entered an order of suspension in Suspension Docket No. 8664, "Stabilization of Rates and Charges, August 1971." Under that order the Commission suspended all increased rates, fares, and charges, and all rules, regulations and practices affecting increases in rates, fares, and charges which had been filed with the Commission August 16, 1971, or earlier, with effective dates of August 17, 1971, or later.

The copy of the order[1] entered this date in Suspension Docket No. 8664 (Sub No. 1) has for its purpose the suspension of increased rate and tariff provisions which were filed August 17, 1971, through August 23, 1971.

Particular attention is directed to the fact that these orders relate to increases only and to the requirement set forth in the first paragraph on page 2 of the orders relating to the filing of supplements for the purpose of announcing the suspension of the increases.

In a related action, the Commission, Division 2, on August 16, 1971, issued Special Permission No. 72-810, which authorizes all carriers, upon not less than 1 day's notice, to postpone to November 13, 1971, the effective date of any tariff provisions not yet effective which result in increases. This permission also permits the publication, upon 1 day's notice, of tariff provisions directing the suspension, to and including November 12, 1971, of the effectiveness and operation of increases which were published to become effective August 15 and

[1] See F.R. Doc. 71-12547, *infra*.

16, 1971, and the reestablishment of the rates, fares, charges and other provisions which were in effect August 14, 1971.

The special permission also extends to tariff provisions resulting in reductions provided that they are a part of a general adjustment which included increases embraced by the Executive order.

Prompt action should be taken by all carriers to file appropriate tariff publications as may be necessary to implement the Executive order.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.71-12546 Filed 8-25-71;8:52 am]

[Suspension Docket No. 8664 (Sub No. 1)]

STABILIZATION OF RATES AND CHARGES, AUGUST 1971

Order. At a general session of the Interstate Commerce Commission held at its office in Washington, D.C., on the 23rd day of August 1971.

The President of the United States, by virtue of the authority vested in him by the Constitution and statutes of the United States, including the Economic Stabilization Act of 1970 (Public Law 91-379, 84 Stat. 799), as amended, has issued an Executive order dated August 15, 1971, providing for the stabilization of prices, rents, wages, and salaries for a period of 90 days from the date of the said order at levels not greater than the highest of those pertaining to a substantial volume of actual transactions by each individual, business, firm or other entity of any kind during the 30-day period ending August 14, 1971, for like or similar commodities or services. The Executive order also provides, inter alia, that no person shall charge, assess, or receive, directly or indirectly in any transaction prices in any form higher than as described therein.

It appearing, that there have been filed with the Interstate Commerce Commission schedules setting forth new increased rates, fares and charges and new rules, regulations and practices having the effect of increasing rates, fares and charges, applicable on interstate or foreign commerce, to become effective August 24, 1971, and later;

And it further appearing, that the said schedules would, if permitted to become effective, result in rates, fares, charges, rules, regulations or practices which would be in violation of the Executive order described above; and good cause appearing therefor:

It is ordered, That the operation of said schedules be and it hereby is suspended, and that the use thereof on interstate and foreign commerce be deferred to and including November 12, 1971, unless otherwise ordered by this Commission.

It is further ordered, That neither the schedules hereby suspended nor those sought to be altered thereby shall be changed until the period of suspension has expired, unless otherwise ordered by the Commission, except that rates, fares, charges, rules, regulations and practices may be changed if such change results in a reduction below the highest level which existed during the 30-day period preceding August 15, 1971.

It is further ordered, That all carriers, respondents to this order, be, and they are hereby, directed to file with this Commission supplements containing notice of suspension of all increased rates, fares, charges, rules, regulations and practices which are subject to this order.

And it is further ordered, That copies of this order be posted in the Office of the Secretary and in the section of tariffs of the Interstate Commerce Commission and that all carriers subject to the jurisdiction of the Interstate Commerce Commission be, and they are hereby, made respondents to this order.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 353]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 20, 1971.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 5470 (Sub-No. 63 TA), filed August 13, 1971. Applicant: TAJON, INC., Post Office Box 146, Rural Delivery No. 5, Mercer, PA 16137. Applicant's representative: Richard W. Sanguigni (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Silicon carbide*, in bulk, in dump trucks, from Jacksboro, Tenn., to Gadsden, Ala., Chicago and South Chicago, Ill., Burns Harbor, East Chicago, and Gary, Ind., Ashland, Ky., Sparrows Point, Md., Ecorse, Dearborn, and Trenton, Mich., Buffalo and Lackawanna, N.Y., Ashtabula, Cleveland, Lorain, Middletown, Steubenville and Warren, Ohio; Aliquippa, Braddock, Duquesne, Bethlehem, Conshohocken, Midland, Monessen and Natrona, Pa., and Weirton, W. Va., for 180 days. Supporting shipper: The Carborundum Company, Post Office Box 337, Niagara Falls, NY 14302. Send protests to: John J. England, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 2111 Federal Building, 1000 Liberty Avenue, Pittsburgh, PA 15222.

No. MC 44639 (Sub-No. 42 TA), filed August 13, 1971. Applicant: L & M EXPRESS CO., INC., 220 Ridge Road, Lyndhurst, NJ 07071. Applicant's representative: Herman B. J. Weckstein, 60 Park Place, Newark, NJ 07102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wearing apparel and materials and supplies* used in the manufacture of wearing apparel, between Crewe, Va., on the one hand, and, on the other, Louisa, Va., for 150 days. NOTE: Applicant states it intends to tack the authority in MC 44639. Supporting shipper: Lassie Togs, Inc., 112 West 34th Street, New York, NY 10001. Send protests to: District Supervisor Joel Morrows, Bureau of Operations, Interstate Commerce Commission, 970 Broad Street, Newark, NJ 07102.

No. MC 116073 (Sub-No. 181 TA), filed August 13, 1971. Applicant: BARRETT MOBILE HOME TRANSPORT, INC., Post Office Box 919, 1825 Maine Avenue, Moorhead, MN 56560. Applicant's representative: Robert G. Tessar (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Buildings*, complete or in sections, mounted on wheeled undercarriages, from Berwick, Pa., to points in Connecticut, New York, Michigan, Ohio, Rhode Island, Vermont, West Virginia, and Washington, D.C., for 180 days. Supporting shipper: DeLuxe Homes of Pa., Inc., 9th and Oak Streets, Post Office Box 323, Berwick, PA 18603. Send protests to: J. H. Ambs, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Post Office Box 2340, Fargo, ND 58102.

No. MC 133240 (Sub-No. 24 TA), filed August 13, 1971. Applicant: WEST END TRUCKING CO., INC., 530 Duncan Avenue, Jersey City, NJ 07306. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are dealt in or used by discount or department stores, between the facilities of Unishops, Inc., their division and subsidiaries located in Jersey City, N.J., and Bayonne, N.J., on the one hand, and, on the other, Beatrice, Nebr., Gillette and Sheridan, Wyo., Monmouth, Ill., and Rome, Ga., for 150 days. Supporting shipper: Unishops, Inc., 21 Caven Point Road, Jersey City, NJ. Send protests to: District Supervisor R. E. Johnston, Bureau of Operations, Interstate Commerce Commission, 970 Broad Street, Newark, NJ 07102.

No. MC 134599 (Sub-No. 21 TA), filed August 13, 1971. Applicant: INTERSTATE CONTRACT CARRIER CORPORATION, Post Office Box 748, Salt Lake City, UT 84110. Office: 265 West 27th South, 84115. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Games and toys*, under continuing contract with Mattel, Inc., from City of Industry, Calif., to points in Wisconsin, Michigan, Kentucky, and Mississippi, for 180 days. Supporting shipper: Mattel, Inc., City of Industry, Calif. (Jones K. Christensen, Manager Traffic). Send protests to: John T. Vaughan, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 5239 Federal Building, Salt Lake City, Utah 84111.

No. MC 134599 (Sub-No. 22 TA), filed August 13, 1971. Applicant: INTERSTATE CONTRACT CARRIER CORPORATION, Post Office Box 748, Salt Lake City, UT 84111. Office: 265 West 27th South, 84115. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Paper and paper products*, under continuous contract with the Beveridge Paper Co., a division of Scott Paper Co., from Indianapolis Ind., to points in Colorado, Utah, Washington, Oregon, New Mexico, Arizona, and California, for 180 days. Supporting shipper: The Beveridge Paper Co., a division of Scott Paper Co., 717 West Washington Street, Indianapolis, IN 46204. Send protests to: John T. Vaughn, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 5239 Federal Building, Salt Lake City, Utah 84111.

No. MC 135467 (Sub-No. 2 TA), filed August 13, 1971. Applicant: ORTNER AIR SERVICE, INC., Cleveland Hopkins International Airport, Cleveland, OH 44142. Applicant's representative: Bernard S. Goldfarb, 1625 The Illuminating Building, 55 Public Square, Cleveland, OH 44113. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, having a prior or subsequent movement by air, in an express service, between Cleveland Hopkins International Airport, Cleveland, Ohio, on the one hand, and, on the other, points in Lorain and Erie Counties, Ohio, for 180 days. Supporting shippers: Bettcher Industries, Inc., State Route 60 and Ohio Turnpike, Birmingham, Ohio.; Forest City Foam Products, Inc., 299 Clay Street, Wellington, OH 44090. Send protests to: District Supervisor G. J. Baccei, Interstate Commerce Commission, Bureau of Operations, 181 Federal Office Building, 1240 East Ninth Street, Cleveland, OH 44199.

No. MC 135834 TA, filed August 13, 1971. Applicant: STEVE CALDWELL, Route 1, Box 36, Adams, OR 97810. Applicant's representative: Lawrence V. Smart, Jr., 419 Northwest 23d Avenue, Portland, OR 97210. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Furniture*, unfinished and finished not further than primed; *furniture parts*, unassembled and partially assembled; *furniture hardware*, and *furniture samples*, from points in Umatilla and Washington Counties, Oreg., King and Spokane Counties, Wash., and Sonoma and Santa Cruz Counties, Calif., to points in Minnesota, Colorado, Texas, Illinois, Pennsylvania, Georgia, Massachusetts, California, Wisconsin, New Jersey, Washington, Oregon, and Indiana, for the account of Harris Pine Mills, for 180 days. Supporting shipper: Harris Pine Mills, Drawer 1168, Pendleton, Oreg. 97801. Send protests to: District Supervisor W. J. Huetig, Interstate Commerce Commission, Bureau of Operations, Room 450, 319 Southwest Pine Street, Portland, OR 97204.

No. MC 135885 TA, filed August 13, 1971, Applicant: COAL HAULERS, INC., Route 2, Box 388, North Little Rock, AR 72118. Applicant's representative: L. C. Cypert, 206 Fifteen, Fifteen Building, 1515 West Seventh Street, Little Rock, AR 72201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, from points in Franklin, Johnson, Logan and Pope Counties, Ark., to Rail Heads and Arkansas River Ports in Franklin, Johnson, Logan and Pope Counties, Ark., and also to Fort Smith and Van Buren, Ark., for interstate movement beyond, for 180 days. Supporting shipper: Coal Development Company, Post Office Box 3337, Little Rock, AR 72203. Send protests to: District Supervisor William H. Land, Jr., Interstate Commerce Commission, Bureau of Operations, 2519 Federal Office Building, Little Rock, Ark., 72201.

By the Commission.

CLASS 5330

PACKING, PREFORMED (GROMMETS)

Cotton-roving grommets for bolts and studs. Machine wrapped. 500 to telescopic box with snaplock closure. Packing—36 boxes to OLC container; overseas, 36 boxes to V3S container. Spec. MIL-G-20240.

5330-543-7172	¼ x 3/16"	Box	$15.70
5330-543-7173	5/16 x 3/16"	Box	$15.99
5330-242-3676	3/8 x 3/16"	Box	$16.33
5330-543-7174	½ x ¼"	Box	$16.68
5330-242-3679	5/8 x ¼"	Box	$16.96
5330-543-7175	¾ x ¼"	Box	$17.25
5330-242-3675	⅞ x ¼"	Box	$17.60
5330-543-7176	1 x ¼"	Box	$17.88
5330-543-7177	1-⅛ x ⅜"	Box	$18.23
5330-543-7178	1-¼ x ⅜"	Box	$18 52
5330-543-7179	1-½ x ⅜"	Box	$18.86

CLASS 6515

TOURNIQUET, NON-PNEUMATIC

Olive drab cotton webbing with black oxidized buckle. Used to control severe arterial bleeding of extremities. Spring-tension clamp buckle with teeth prevents slippage. Free end diagonally-cut to ½-inch and vinyl-dipped for easy insertion. Label of Caution with instructions for use, printed in permanent red ink. 144 belts to container. Spec. MIL-T-36045.

6515-383-0565 ..... 1½ x 42" ..... Each 55¢

CLASS 6530

COVER, LITTER

Canvas cover for stretcher. 74 x 22⅜" wide. Color fast olive-drab, mildew-resistant. Folded and stitched edges; side folds and cutouts for insertion of aluminum litter poles. 3-ply cotton duck and webbing, one piece construction. 1 to package, 36 to carton. Shpg. wt. 94 lbs. for carton of 36.

Material furnished by Workshop. Spec. MIL-L-16446A.

6530-784-1035 ..... For folding pole ..... Each $3.8097

Material furnished by ordering office. Spec. MIL-L-16462B.

6530-784-1250 ..... For rigid pole ..... Each $1.087

DRAPE, SURGICAL

Unbleached cotton drapes. For covering patient during surgical operations. Fed. Spec. DDD-D-626D.

(1) *24 x 24".* Shpg. wt. 74 lbs. for carton of 216.

			East	West
6530-299-9608	Green	Dozen	$13.61	$13.70

34 x 66". Shpg. wt. 70 lbs. for carton of 60.

			East	West
6530-299-9607	Green	Each	$3.25	$3.29
6530-715-9310	White	Each	$2.57	$2.61

(2) *72 x 94".* Shpg. wt. 79 lbs. for carton of 18.

6530-299-9605	Green	Each	$8.98
6530-715-9340	White	Each	$7.96

94 x 108". Shpg. wt. 77 lbs. for carton of 12.

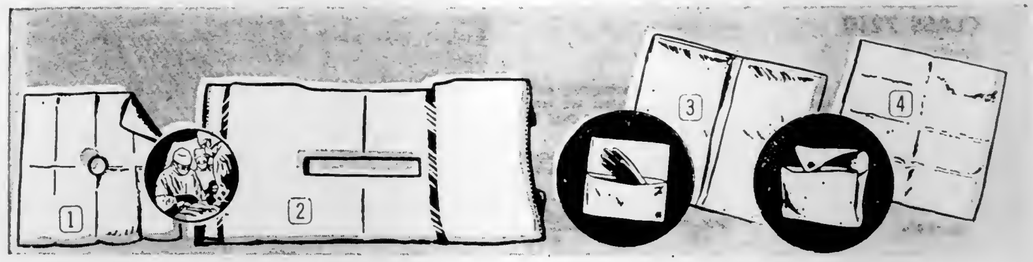
6530-299-9604	Green	Each	$12.75

STRAP, WEBBING, PATIENT SECURING

Secures patient to a litter. Material furnished by ordering office. Packing: 3 units to box; 24 boxes to carton. Shpg. wt. 58 lbs. per carton. Spec. MIL-S-36019.

6530-784-4205 ..... Each $1.63

WRAPPER, STERILIZATION



Double-thickness unbleached cotton wrappers. Holds gloves and instruments during sterilization and maintains sterility.

Int. Fed. Spec. DDD-W-00631C

(3) *Glove wrapper.* 12 x 13". Wallet type with double pocket. Shpg. wt. 68 lbs. per container of 30 dozen.

			East	West
6530-299-9603	Green	Dozen	$7.03	$7.08
6530-719-0000	White	Dozen	$6.11	$6.16

*Stocked in GSA Supply Distribution Facilities.

(4) *Pack wrapper for surgical supplies.*

12 x 12". Shpg. wt. 59 lbs. Per container of 50 dozen.

			East	West
6530-299-9602	Green	Dozen	$3.85	$3.88
6530-719-0030	White	Dozen	$3.47	$3.50

18 x 18". Shpg. wt. 82 lbs. Per container of 36 dozen.

6530-299-9601	Green	Dozen	$6.72	$6.78
6530-719-0035	White	Dozen	$5.60	$5.66

24 x 24". Shpg. wt. 79 lbs. Per container of 20 dozen.

6530-299-9600	Green	Dozen	$9.61	$9.69
6530-719-0040	White	Dozen	$8.17	$8.25

36 x 36". Shpg. wt. 85 lbs. Per container of 10 dozen.

			East	West
6530-299-9599	Green	Dozen	$19.82	$20.07
6530-719-0045	White	Dozen	$15.61	$15.86

54 x 54". Shpg. wt. 46 lbs. per carton of 30.

6530-926-4912	Green	Each	$3.16

VA DESCRIPTION 209F WRAPPERS

RENOVATED MATTRESSES

Orders for renovated mattresses may be arranged through GSA regional offices.

Cotton-felt and Innerspring mattresses, renovated in accordance with applicable military specifications, are available in standard sizes from the Agency for the Blind. A used mattress will be replaced by a renovated mattress of similar size and construction on a one-for-one basis, at prices specified in price schedule below. Mattresses which show water damage, contain clippings, nonstandard material and otherwise not suitable for renovation will be held pending instructions from the ordering office.

Prices are f.o.b. shipping point. Packaging and packing charges, specified below, are separate, with an additional charge if more than three pounds of felt is used for renovation.

Pickup and delivery, where possible, will be done by the Agency for the Blind at a nominal charge.

PRICE SCHEDULE FOR RENOVATED COTTON-FELT MATTRESS

Freight classification. To save on shipping costs of cotton-felt mattresses, mark Government Bills of Lading "Rags, n.o.i.b.n. (old mattresses having value only for reclamation of raw material)." Ship hand-made bales (bundles) second class; machine-pressed bales, fourth class.

Charges for packaging and packing (cotton-felt)

Packaging	Packing	Cost per Mattress
1 to polyethylene bag	3 to corrugated container	$1.35
1 to polyethylene bag	3 to burlap tube	1.30
None	3 to corrugated container	.85
None	3 to paper bag	.30

BERTH

(1) 7-oz. preshrunk fire-resistant ticking will be furnished by Agency for the Blind. Renovation prices are for plain box edge mattresses. If more than three pounds of felt are needed for renovation, an additional charge of 14¢ a pound will be made for class 1 mattress (25% cotton-felt, 75% linters); 19¢ a pound for class 2 mattress (50% cotton-felt, 50% linters). If specified, rolled box edge is available at the same price.

C. P. O. Mattress. 28 x 77 x 4½"
7210-M-1050.....Class 1.....Each $8.76
7210-M-1050.....Class 2.....Each $9.30

Crew Mattress. 26 x 72½ x 4"
7210-M-1050.....Class 1.....Each $7.81
7210-M-1050.....Class 2.....Each $8.12

REGULAR BED

7-oz. ticking will be furnished by Agency for the Blind. Renovation prices are for plain box edge mattresses. If specified, rolled edge is available at the same price. If more than three pounds of felt are needed for renovation, the additional charge is 14¢ a pound for grade B, and 17¢ a pound for grade C mattresses.

Grade B Mattress. 25% Cotton-felt, 75% Linters.

TRAFFIC SAFETY CLOTHING

Reflective clothing protects military police and marching troops from motor vehicles at night. Silver/white reflective sheeting attached to a smooth surface blaze orange fluorescent fabric with adjustable Velcro-type fasteners. The retro-reflective sheeting provides the safety necessary at night and will retain virtually full reflective intensity when wet from rain. Smooth surface reduces dirt pickup and allows easy cleaning. Std. pack in parentheses.

PART III

DEPARTMENT OF THE TREASURY

Comptroller of the Currency

■

INTERPRETIVE RULINGS

Title 12—BANKS AND BANKING

Chapter I—Bureau of the Comptroller of the Currency, Department of the Treasury

PART 7—INTERPRETIVE RULINGS

This part will include for the first time a codified body of interpretive rulings which heretofore were published only in the Comptroller's Manual for National Banks and in similar earlier manuals. These rulings, which interpret and apply the laws and regulations relating to national banks and general principles of prudent banking, have become of increasing importance not only to national banks but to persons dealing with national banks and to the public generally. The Comptroller has accordingly concluded that the public interest requires the publication of these rulings in the Code of Federal Regulations. Concurrently with this publication the Comptroller is publishing these rulings in a new edition of the Manual.

The following table indicates where subjects formerly appearing in Part 7—Intepretations will be found in either the new Part 7—Interpretive Rulings or elsewhere.

Old reference	Subject	New reference
7.2	Service charges	7.8000
7.3	VA mortgages	7.2145(d).
7.5	Appointment of directors	7.4305(b).
7.6	Preemptive rights	7.6060.
7.7	Capital notes	7.1100(b).
7.9	Loans to executive officers	Part 215 of this title.
7.10	Operations subsidiaries	7.7376.

This part and the new edition of the Manual reflect some substantive changes of policy from that appearing heretofore. A description of these changes follows. These brief descriptions do not affect the legal status of the text of the ruling which alone is controlling. The numerical references are to sections appearing in this part or to Manual paragraphs which have been deleted.

Section or paragraph No.	*Description of change*
1132	Deleted. Repurchase agreements covering mortgage loans are now subject to borrowing limits. See 7.7005.
1175	Deleted. In rem loans no longer excepted from lending limits.
7.1185	Changes to conform to principle of the Investment Security Regulation (Part 1 of this chapter). Public body guaranteeing a loan must have general taxing power in order for a loan to be excepted from lending limits.
1190	Deleted. Loans secured by municipal securities are no longer excepted from lending limits.
7.2125	A sentence added to paragraph (d) states that renewals of 1-year real estate loans must conform to amortization requirements.

Section or paragraph No.	*Description of change*
7.2145	Paragraph (f) was changed to conform to the principle of the Investment Security Regulation (Part 1 of this chapter). Public body guaranteeing a loan must have general taxing power in order for a loan to be excepted from real estate lending limits.
7.2400	New paragraph (c) states that apartment houses are considered residential rather than commercial for purpose of statute.
7.4210	Paragraph (a) was changed to permit joint ownership of directors' qualifying shares; new paragraph (e) was added to permit inter vivos trust of directors' qualifying shares.
7.5225	Certain reports of mysterious disappearances under $1,000 were eliminated.
5235	Deleted. Definition of executive officer is found in Part 215 of this title.
6060	Deleted. Prior approval of voting trusts is no longer required.
7.7016	New section. It embodies the office position distinguishing a letter of credit from a guaranty.
7110	Deleted in view of uncertainty caused by decision of court in Georgia Association of Independent Insurance Agents v. Saxon.
7377	Deleted. Storage warehouse is no longer considered a proper incidental activity.
7.7435	Rewritten to emphasize the local nature of the problem of holiday closings. No Federal law.
7.7479, 7.7480	7480 was divided into two parts: 7.7479 interprets the statute on charitable contributions; 7.7480 permits limited investment in community development projects.
7.7490, 7.7491	Messenger service and deposit machines. A sentence was added to conform to the decision of the court in Dickinson v. First National Bank in Plant City.
7.7519	New section. Loans sold with repurchase obligation are considered to be borrowings by selling bank.

Ruling 7.4215 is not included in the FEDERAL REGISTER since it merely restates and does not interpret the statutes cited.

Part 7, Chapter I, Title 12 of the Code of Federal Regulations of the United States of America, is amended to read as follows:

Subpart A—Lending Limits

OBLIGATIONS SUBJECT TO LENDING LIMITS

Sec.
7.1100 Lending limits.
7.1105 Purchase of open accounts.
7.1110 Purchase of paper: repurchase agreements.
7.1115 Purchase of paper: seller's reserve.
7.1120 Obligations charged off in whole or in part.
7.1125 Obligations of accommodation parties.
7.1130 Sale of Federal Reserve funds to another bank.
7.1131 Purchase or sale of securities; resale or repurchase agreement.
7.1135 Sale of loan participations: agreement on effect of default.
7.1150 Interest or discount on loan.
7.1160 Commitments to lend or pay.
7.1161 Overdrafts.
7.1180 Investment securities: separate limitation.
7.1181 Loan to industrial development authority.
7.1185 Loan or credit guarantee by State or political subdivision.

COMBINING LOANS TO SEPARATE BORROWERS

7.1310 Loans to corporations and their subsidaries.
7.1320 Loans to members of a partnership or association.

EXCEPTIONS TO 10 PERCENT LENDING LIMIT

7.1500 General principles as to exceptions.
7.1510 Exception 1: Drafts and bills of exchange.
7.1520 Exception 2: Discount of commercial and business paper.
7.1530 Exception 3: Obligations secured by goods in shipment.
7.1540 Exception 4: Guaranty of short-term paper.
7.1550 Exception 5: Banker's acceptance.
7.1560 Exception 6: Loans secured by shipping documents or warehouse receipts covering readily marketable staples.
7.1570 Exception 7: Loans secured by livestock and dairy cattle.
7.1580 Exception 8: Loans secured by U.S. obligations.
7.1590 Exception 9: Loans to banks with the approval of the Comptroller of the Currency.
7.1600 Exception 10: Take-over commitment by an agency of the Federal Government.
7.1610 Exception 11: Obligations of a local public agency.
7.1620 Exception 12: Loans insured by the Secretary of Agriculture.
7.1630 Exception 13: Obligations as endorser or guarantor of installment consumer paper.

Subpart B—Loans Secured by Real Estate

7.2000 Real estate loans.
7.2005 Loans secured by real estate mortgages of others.
7.2020 Improved real estate.
7.2040 First liens.
7.2100 Conditions upon which national banks may make real estate loans.
7.2120 Participation in real estate loan.
7.2125 Amortization of real estate loans.
7.2145 Real estate loans insured or guaranteed.
7.2146 Loan participations with Small Business Administration.
7.2148 Real estate mortgage errors and omissions insurance.
7.2150 Loans in excess of appraised value.
7.2155 Maximum aggregate of real estate loans.
7.2160 Commitment by Government agency to insure.
7.2170 Purchase at premium or discount.
7.2190 Demand and short-term real estate and construction loans.
7.2195 Condominium loans.
7.2200 Real estate loans secured by leaseholds.
7.2400 Construction loans.

Sec.
7.2405 Combined construction and permanent real estate loans.
7.2410 Construction loans held beyond the permissible period.
7.2600 Loans on forest tracts.

Subpart C—Bank Ownership of Property

7.3000 General authority.
7.3005 Real estate necessary for accommodation in the transaction of business.
7.3010 Municipal parking lots.
7.3020 Real estate acquired as salvage on uncollectible loans.
7.3025 Other real estate owned.
7.3100 Investment in bank premises or stock of a corporation holding premises.
7.3300 Leasing of public facilities.
7.3400 Leasing of personal property.
7.3500 Utilization of data processing equipment.

Subpart D—Corporate Practices

SHAREHOLDERS' MEETINGS

7.4000 Notice of shareholders' meetings.
7.4005 Date of shareholders' meeting.
7.4010 Quorum for shareholders' meeting.
7.4015 Solicitation of proxies for shareholders' meeting.
7.4020 Director or attorney as proxy.

DIRECTORS

7.4100 Number of directors.
7.4105 Annual meeting for election of directors.
7.4110 Honorary directors or advisory board.
7.4200 Qualifications of directors.
7.4205 Person convicted of crime serve as director, officer, or employee.
7.4210 Ownership of stock necessary to qualify as director.
7.4300 Cumulative voting in election of directors.
7.4305 Filling vacancy in or increasing board of directors.
7.4400 Organization meeting.
7.4410 List of directors.
7.4415 Oath of directors.
7.4420 Quorum of board of directors; proxies not permissible.
7.4425 Delegation of directors' duties.

OFFICERS, DIRECTORS AND EMPLOYEES

7.5000 Bonus and profit sharing plans.
7.5010 Pension plans.
7.5015 Employee stock option and stock purchase plans.
7.5200 President as director.
7.5210 Same person holding offices of president and cashier.
7.5215 Fidelity bonds covering officers and employees.
7.5217 Indemnification of directors and officers.
7.5220 Contracts of employment.
7.5225 Defalcations by employees.
7.5230 Purchase of employee's residence.
7.5245 Duties of cashier performed by secretary.

SHARES, STOCK CERTIFICATES, AND DIVIDENDS

7.6005 Restricting transfer of stock and record dates.
7.6010 Facsimile signatures on bank stock certificate.
7.6015 Lost stock certificates.
7.6025 Books and records of national banks.
7.6030 Purchase of own shares or loan secured by own shares.
7.6040 Fractional shares.
7.6050 Preemptive rights.
7.6060 Voting trusts.
7.6100 Limitations on payment of dividends.
7.6120 Dividends payable in property other than cash.
7.6125 Payment of dividends; bad debts.

Subpart E—Miscellaneous

GUARANTIES AND SURETYSHIP

7.7000 Guaranty or endorsement of notes or other obligations sold by the bank.
7.7010 National bank as guarantor or surety on indemnity bond.
7.7012 Foreign operations.
7.7015 Check "guaranty" plans.
7.7016 Letters of credit distinguished from guaranty.

INSURANCE

7.7100 National banks acting as general insurance agents.
7.7115 Insuring lives of bank officers.
7.7200 Authority to act as "finder".

INTEREST CHARGES AND USURY

7.7310 Charging interest at rates permitted competing institutions; charging interest to corporate borrowers.
7.7312 Loan agreement providing for share in profits, income or earnings.
7.7315 Charging additional fee for credit report or investigation of borrower.

TRANSACTIONS WITH AFFILIATES

7.7355 Debts of affiliate as bank indebtedness.
7.7360 Loans secured by stock or obligation of an affiliate.

OPERATIONS THROUGH SUBSIDIARIES

7.7376 Operating subsidiaries.
7.7378 Issuance of credit cards.
7.7379 Servicing of mortgage and other loans as agent.
7.7380 Loans originating at other than banking offices.
7.7390 Bank service corporations.

OTHER RULINGS

7.7400 Deposits by national banks in nonmember banks.
7.7405 National banks as depositaries of public money.
7.7410 Pledge of bank assets as security for deposits.
7.7415 Surety bond in lieu of pledged assets.
7.7420 Acceptances.
7.7430 Preparing income tax returns for customers or public.
7.7434 Business hours.
7.7435 Bank remaining closed.
7.7445 Charitable foundations.
7.7455 National banks holding collateral stock as nominee.
7.7475 National banks acting as travel agents.
7.7479 Charitable contributions.
7.7480 Investments in community development projects.
7.7482 Postal service by national banks.
7.7485 National banks acting as payroll issuer.
7.7490 Messenger service.
7.7491 Deposit machines.
7.7495 Debt cancellation contracts.
7.7500 Sale of money orders at nonbanking outlets.
7.7505 Accelerated depreciation for tax purposes.
7.7515 Service charges on dormant accounts.
7.7516 Sharing of banking quarters.
7.7517 Accounts without service charge.
7.7518 Bank indebtedness; Federal funds, securities repurchase agreements, Federal Reserve bills payable.
7.7519 Loan repurchase agreements.
7.7530 Issuance of promissory notes.
7.7535 Receipt of stock from SBIC.
7.7540 Reports of condition: Waiver of affiliate reports.
7.7545 Unimpaired surplus fund.
7.7550 Accrual of bond discount.
7.7560 Automatic payment plan account.
7.7570 Separate investment security limitations.
7.7590 Interest rate escalation clause.
7.7595 Acquisition of national bank stock by employees; profit-sharing or pension trust.
7.8000 Charges by banks.

AUTHORITY: The provisions of this Part 7 issued under R.S. 324 et seq., as amended; 12 U.S.C. 1 et seq.

Subpart A—Lending Limits

OBLIGATIONS SUBJECT TO LENDING LIMITS

§ 7.1100 Lending limits.

(a) *Law—12 U.S.C. 84.*

The total obligations to any national banking association of any person, copartnership, association, or corporation shall at no time exceed 10 per centum of the amount of the capital stock of such association actually paid in and unimpaired and 10 per centum of its unimpaired surplus fund.

[For exceptions to lending limits, see § 7.1510 et seq.]

(b) *Unimpaired surplus.* The term "unimpaired surplus fund" as used in 12 U.S.C. 84 includes all capital accounts (other than capital stock), derived from either paid-in capital funds or retained earnings, not subject to known charges, and which are considered interchangeable by resolution of the bank's board of directors.

(1) Some examples of capital accounts which are includable in the term "unimpaired surplus fund" are:

(i) Surplus (paid-in or earned);

(ii) Undivided profits (paid-in or earned—unearned income must be deducted);

(iii) Reserve for loan losses or bad debts, less the amount of tax which would become payable with respect to the tax-free portion of the reserve if such portion were transferred from the reserve;

(iv) Valuation reserve for securities;

(v) Reserve for contingencies;

(vi) The proceeds of capital notes, capital debentures, or other similar obligations, subordinated in right of payment to the prior payment in full of all deposit liabilities.

(2) Accounts which are subject to known specific charges are not includable in the "unimpaired surplus fund." Some examples of such accounts are:

(i) Reserve for dividends declared;

(ii) Reserve for taxes, interest and expenses.

(The above definition of "unimpaired surplus fund" also is used in computing other statutory limitations. See § 7.7545.)

§ 7.1105 Purchase of open accounts.

(a) *General.* The purchase of open accounts is a part of the business of banking and within the power of a national bank. Such accounts need not in every case represent an evidence of debt.

(b) *Export transactions.* A national bank may also purchase open accounts in connection with export transactions,

particularly when the accounts are protected by insurance such as that provided by the Foreign Credit Insurance Association and the Export-Import Bank.

§ 7.1110 Purchase of paper: repurchase agreements.

Where a bank buys third party paper (including open accounts), but the seller agrees to repurchase it upon default, the seller's obligation to repurchase is subject to the lending limit and is measured by the total unpaid balance of the paper owned by the bank less the applicable seller's reserves against defaulted paper, if any. Where the seller's obligation to repurchase is limited, it is measured by the total amount of paper the seller may ultimately be obligated to repurchase.

§ 7.1115 Purchase of paper: seller's reserve.

Where no more than an agreed percentage of the price paid for third party paper is retained and credited to a reserve to be held as a form of collateral security, and where the bank has no direct or indirect recourse against the seller for uncollectibility, neither the reserve nor the obligations of the parties liable on such paper constitute obligations of the seller subject to the lending limit.

§ 7.1120 Obligations charged off in whole or in part.

The lending limit applies to all existing obligations of the customer to the bank, including obligations whch have been charged off on the books of the bank either in whole or in part. It does not apply to obligations which have become unenforceable by reason of a discharge in bankruptcy.

§ 7.1125 Obligations of accommodation parties.

(a) Law—12 U.S.C. 84:

The term "obligations" shall mean the direct liability of the maker or acceptor of paper discounted with or sold to such association and the liability of the endorser, drawer, or guarantor who obtains a loan from or discounts paper with or sells paper under his guaranty • • •.

(b) The liability of a maker, acceptor, drawer, endorser, or guarantor is an obligation within the meaning of this section when the party has obtained a loan or has sold or discontinued the paper.

(c) The liability of an endorser, drawer, or guarantor who does not receive any of the proceeds of the loan or discount from the bank is ordinarily not considered an obligation of such endorser, drawer, or guarantor for the purposes of 12 U.S.C. 84.

§ 7.1130 Sale of Federal Reserve funds to another bank.

When a bank purchases Federal Reserve funds from another bank, the transaction ordinarily takes the form of a transfer from a seller's account in a Federal Reserve Bank to the buyer's account therein, payment to be made by the purchaser, usually with a specified fee. The transaction does not create on the part of the buyer an obligation subject to 12 U.S.C. 84 or a borrowing subject to 12 U.S.C. 82, but is to be considered a purchase and sale of such funds.

§ 7.1131 Purchase or sale of securities: resale or repurchase agreement.

The purchase or sale of securities by a bank, under an agreement to resell or repurchase at the end of a stated period, is not a borrowing subject to 12 U.S.C. 82 nor an obligation subject to the lending limit of 12 U.S.C. 84.

§ 7.1135 Sale of loan participations: agreement on effect of default.

Where a participation in a loan is sold to another bank the agreement may provide that repayment must first be applied to the share sold. Since one of the purposes of such a sale may be to reduce the bank's retention of loans which may exceed its lending limit, the agreement should as a matter of prudent banking practice also provide that, in the event of default or a comparable event defined in the agreement, the participants shall share in all subsequent repayments and collections in proportion to the percentage of participation at the time of the happening of the event.

§ 7.1150 Interest or discount on loan.

The lending limit applies, without regard to the form of the obligation, to the amounts actually advanced by the bank and not to any interest which may accrue thereon.

§ 7.1160 Commitments to lend or pay.

An agreement to lend to a customer or to pay others for its account, under irrevocable sight letters of credit or otherwise, does not result in an obligation subject to the lending limit until the bank is required to make the advance or payment. The making and management of agreements of this nature will require the exercise of prudent banking judgment to prevent the creation of loans in excess of the lending limit.

§ 7.1161 Overdrafts.

The use of overdrafts which represent prearranged financing is a legal means of extending credit. Significantly sizable overdrafts will be reviewed for credit quality and adherence to statutory lending limits in the same manner as other loans.

§ 7.1180 Investment securities: separate limitation.

The lending limits prescribed by 12 U.S.C. 84 are separate and distinct from the investment limits prescribed by 12 U.S.C. 24. Accordingly, a national bank may make loans to one borrower to the full amount permitted by 12 U.S.C. 84 and also hold eligible investment securities of the same obligor to the full amount permitted by 12 U.S.C. 24.

§ 7.1181 Loan to industrial development authority.

A loan or other extension of credit to an industrial development authority or similar public entity created for the purpose of constructing and leasing a plant facility to an industrial occupant is not an obligation of the authority for the purpose of 12 U.S.C. 84 if: (a) The bank relies on the credit of the industrial occupant in making the loan; (b) the authority's liability with respect to the loan is limited solely to whatever interest it has in the particular facility; (c) the authority's interest is assigned to the bank as security for the loan; and (d) the industrial occupant's lease rentals are assigned and paid directly to the bank.

§ 7.1185 Loan or credit guaranteed by State or political subdivision.

To the extent a loan or other extension of credit to a bank customer is guaranteed by a State or political subdivision thereof, possessing general powers of taxation, including property taxation, the loan or credit extension is not an obligation of the customer for the purpose of 12 U.S.C. 84 if the guarantee is supported by a pledge of the full faith and credit of the State or subdivision. The lending bank should obtain the opinion of competent counsel that the guaranty is a valid and enforceable obligation of the public body. See §§ 1.3(g) of this chapter and 7.2145 (a) and (f).

COMBINING LOANS TO SEPARATE BORROWERS

§ 7.1310 Loans to corporations and their subsidiaries.

(a) *Law—12 U.S.C. 84.*

The total obligations to any national banking association of any person, copartnership, association, or corporation shall at no time exceed 10 per centum of the amount of capital stock of such association actually paid in and unimpaired and 10 per centum of its unimparied surplus funds. The term "obligations" • • • shall include in the case of obligations of a copartnership or association the obligations of the several members thereof and shall include in the case of obligations of a corporation all obligations of all subsidiaries thereof in which such corporation owns or controls a majority interest. • • •

(b) *Purpose.* The section is intended to prevent one individual, or a relatively small group, from borrowing an unduly large amount of the bank's deposits for the use of the particular business enterprises in which they are engaged. It is intended to safeguard the bank's depositors by spreading the loans among a relatively large number of persons engaged in different lines of business.

(c) *General rules.* (1) Obligations of a parent corporation shall be combined with obligations of all subsidiary corporations in which the parent owns or controls a majority interest.

(2) If the parent corporation is not borrowing, obligations of subsidiary corporations are generally not combined except in the following situations:

(i) Bank is looking to a single source for repayment of the loan.

(ii) One or more loans is for the accommodation of the parent corporation or other subsidiary.

(iii) The borrowing corporations are not separate concerns in reality but merely departments or divisions of a single enterprise.

(3) Obligations of a corporation must be combined with any other extension of credit the proceeds of which are used for the benefit of the corporation.

§ 7.1320 Loans to members of a partnership or association.

(a) Under 12 U.S.C. 84 the obligations of the several members of a partnership, regardless of the purpose or the use of proceeds, are required to be combined with obligations of the partnership.

(b) In addition, where persons engaged in a common enterprise, whether in the form of a partnership, joint venture, or other association, individually borrow funds which are to be used in that enterprise, the loans must be considered as a single credit.

EXCEPTIONS TO 10-PERCENT LENDING LIMIT

§ 7.1500 General principle as to exceptions.

(a) Law—12 U.S.C. 84:

Such limitation of 10 per centum shall be subject to the following exceptions: • • •

(b) The general rule is that advances to any one customer shall not exceed 10 percent of capital and surplus, and situations in which it is permissible to go beyond this limit are exceptions. Larger loans are permitted only in exceptional circumstances, and an exception to the 10-percent limit is not applicable unless the transaction meets the standard.

§ 7.1510 Exception 1: Drafts and bills of exchange.

(a) *Law—12 U.S.C. 84(1).*

[Such limitation of 10 per centum shall be subject to the following exceptions:]

(1) Obligations in the form of drafts or bills of exchange drawn in good faith against actually existing values shall not be subject under this section to any limitation based upon such capital and surplus.

(b) *General scope.* Exception 1 applies to negotiable drafts and to bills of exchange drawn by the seller of commodities upon the purchaser and bearing the acceptance of the latter, or drawn by the purchaser of commodities upon his bank and endorsed by the seller. In order to qualify under exception 1, drafts or bills of exchange must be two name paper. Thus, unaccepted drafts are not eligible, nor are bills of exchange endorsed without recourse or not endorsed.

(c) *Drafts payable on demand or at sight.* (1) Demand or sight drafts should be presented to the drawee for payment and not for acceptance. If such a draft is accepted instead of being paid the liability of the drawer would ordinarily be discharged. A bank purchasing the instrument would not be protected by the liability of both parties to a current mercantile transaction and, consequently, the obligation would not be eligible under exception 1.

(2) A demand or sight draft executed and endorsed to the bank in such a manner as to preserve the negotiability of the instrument and the liability of both the buyer and the seller of the goods is eligible under exception 1. An appropriate waiver by the drawer of demand for acceptance and payment will ordinarily preserve the liability of the drawer after acceptance by the drawee.

(d) *Drafts where the drawer is not to be held liable.* Where there is a tacit or express understanding of all the parties concerned that the drawer is not to be held liable and the bank does not rely upon the credit of the drawer, the paper is not eligible under exception 1. Examples of this nature may occur when drafts are drawn by the grower of agricultural products upon the buyer thereof.

(e) *Drafts payable a specified period after arrival of shipment.* A draft payable a specified period after arrival of a shipment is not eligible under exception 1. Since the arrival of a shipment is not certain such a condition impairs the instrument's negotiable character. See § 7.1530(e).

(f) *Drafts where a buyer and a seller are not parties.* Where the parties to a draft do not include the buyer and the seller in an actual sale of a commodity, the draft is not eligible under exception 1. Examples:

(1) A draft drawn by a purchasing agent on his principal covering shipments of the commodities to the latter.

(2) A draft drawn by a principal upon his selling agent in connection with a shipment forwarded to the agent for sale.

(3) A draft drawn by one corporation on an affiliated corporation where both are parts of a single coordinated business enterprise.

§ 7.1520 Exception 2: Discount of commercial and business paper.

(a) *Law—12 U.S.C. 84(2).*

[Such limitation of 10 per centum shall be subject to the following exceptions:]

(2) Obligations arising out of the discount of commercial or business paper actually owned by the person, copartnership, association, or corporation negotiating the same shall not be subject under this section to any limitation based upon such capital and surplus.

(b) *General scope.* (1) Exception 2 applies to negotiable paper given in payment of the purchase price of commodities purchased for resale or to be used in connection with the fabrication of a product, or to be used for any other business purpose which may reasonably be expected to provide funds for payment of the paper, and bearing the full recourse endorsement of an actual owner.

(2) It also applies to the renewal of such paper when the renewal is consistent with these conditions.

(3) It also applies to negotiable paper given in payment of the purchase price of commodities in export transactions. In such cases it may bear the full recourse endorsement of an actual owner or may be endorsed by such owner without recourse or with limited recourse, or may be accompanied by a separate agreement for limited recourse, but if endorsed without full recourse, must be supported by an assignment of appropriate insurance covering the foreign, political, and credit risks applicable to the paper. The insurance provided by the Export-Import Bank and the Foreign Credit Insurance Association is considered appropriate insurance for this purpose and the paper for which it may be used is considered to be commercial or business paper to which exception 2 is applicable.

(4) This exception does not ordinarily apply to nonnegotiable paper and does not ordinarily apply to negotiable paper arising out of the purchase by consumers of consumer goods. Obligations on the part of the seller of such paper may be considered under exception 13.

(c) *Overdue commercial paper.* (1) When paper meets the requirements of exception 2, neither the obligation of the maker nor that of the endorser need be taken into account when applying the lending limits, so long as the paper is kept current as to principal and interest payments due. However, since the reason for the unlimited credit under exception 2 is that the paper arises from the sale of a commodity which may reasonably be expected to provide funds for payment of the paper, failure to pay either principal or interest when due removes the reason for the unlimited credit. Hence, although the line of credit to the maker or the endorser of such paper should not be classified as excessive by reason of such default, the paper on which the default has occurred must thereafter be taken into consideration in determining whether an additional extension of credit can be made within the limits of 12 U.S.C. 84 to either the maker or the endorser of such paper.

(2) If the bank renews exception 2 paper, or receives in its stead a new note signed by the same maker and indorsed by the same indorser (for either an installment or the whole note), such extended or renewed notes must be regarded as though the bank had made a new extension of credit in that amount. See § 7.1540(f).

§ 7.1530 Exception 3: Obligations secured by goods in shipment.

(a) *Law—12 U.S.C. 84(3).*

[Such limitation of 10 per centum shall be subject to the following exceptions:]

(3) Obligations drawn in good faith against actually existing values and secured by goods or commodities in process of shipment shall not be subject under this section to any limitation based upon such capital and surplus.

(b) *General scope.* Exception 3, like exception 1, relates to obligations drawn in good faith against actually existing values. The obligations must be secured by goods or commodities in process of shipment, but the form of the obligation is not specified. It is, accordingly, immaterial whether the obligation is negotiable or nonnegotiable and whether it is one name or two name paper. The remaining requirements clearly indicate, however, that exception 3 relates only to paper arising in connection with a sale transaction.

(c) *In process of shipment.* (1) The phrase "in process of shipment" embraces mainly the period of time when the good or commodities are in the hands of a carrier and actualy in transit. It may also include the period required for assembling the goods at the warehouse of the carrier and the time the

goods are in such warehouse awaiting suitable shipping facilities.

(2) It is not essential that the goods be in continuous motion toward the consignee, but all of the steps necessary to accomplish the ultimate delivery of the goods to a specified destination must have been taken by the shipper and the goods must be in the hands of the carrier with instructions to thus deliver them to that destination. Goods or commodities which are merely stored in a warehouse with the expectation that at some future date they will be sold or shipped are not "in process of shipment."

(d) *Secured by goods or commodities.* The requirement that exception 3 paper be "secured by goods or commodities in process of shipment" is satisfied only if the notes or drafts held by the bank are accompanied by order bills of lading. Such shipping documents give the bank effective legal control of, and security title to, the shipments and prevent diversion of the goods by the shipper. This is not true with respect to invoices, bills of sale, straight bills of lading, chattel mortgages, etc., and consequently documents of these types are not eligible security for the purposes of exception 3.

(e) *Drafts payable a specified period after arrival of a shipment.* A draft payable a specified period after the arrival of a shipment which is not eligible under exception 1 (see § 7.1510(e)) is eligible under exception 3 when accompanied by an order bill of lading covering the shipment.

§ 7.1540 Exception 4: Guaranty of short-term paper.

(a) *Law—12 U.S.C. 84(4).*

[Such limitation of 10 per centum shall be subject to the following exceptions:]

(4) Obligations as indorser or guarantor of notes, other than commercial or business paper excepted under (2) hereof, having a maturity of not more than 6 months, and owned by the person, corporation, association, or copartnership indorsing and negotiating the same, shall be subject under this section to a limitation of 15 per centum of such capital and surplus in addition to such 10 per centum of such capital and surplus.

(b) *Obligations as endorser or guarantor.* For the definition of this phrase as used in 12 U.S.C. 84 see § 7.1125.

(c) *Separate guaranty or repurchase agreement.* Exception 4 applies not only to endorsement and guaranties appearing on the instruments themselves, but also applies to guaranties or repurchase agreements embodied in separate documents, provided the notes covered thereby are adequately identified.

(d) *Having a maturity of not more than 6 months.* The six months maturity mentioned in exception 4 refers to the period of time from (1) the date on which the notes are acquired by the bank to (2) the final maturity of the endorsed or guaranteed notes. An agreement to repurchase in not more than 6 months a note having a later maturity is not eligible under exception 4.

(e) *Demand notes.* Exception 4 also applies to endorsements and guaranties of demand notes owned by the endorser or guarantor, but it ceases to be applicable, in the case of a demand note, 6 months after such note is acquired by the bank.

(f) *Overdue paper: renewals and extensions.* (1) Where a national bank holds endorsed or guaranteed notes under exception 4, such notes, after they mature, are no longer within the scope of that exception, and they must thereafter be included among the endorser's or guarantor's obligations subject to the 10-percent limit.

(2) If such matured paper is carried in an overdue status, an excessive loan to the endorser or guarantor is not created thereby, although the dollar amount of such paper must be taken into consideration in applying the 10-percent limit to new extensions of credit to the endorser or guarantor. However, if the bank extends the maturity or accepts renewal notes, the extended or renewed notes must be regarded as though the bank had made a new extension of credit in that amount. Renewed or extended exception 4 paper will not again qualify under exception 4. Therefore, if the endorser or guarantor already had a direct obligation to the bank equal to its 10-percent limit, renewal or extension of matured exception 4 paper would bring the endorser's or guarantor's line above the 10-percent limit permitted by 12 U.S.C. 84. Renewed or extended exception 2 paper may, however, qualify under exception 4. See § 7.1520(c).

§ 7.1550 Exception 5: Banker's acceptances.

(a) *Law—12 U.S.C. 84(5).*

[Such limitation of 10 per centum shall be subject to the following exceptions:]

(5) Obligations in the form of banker's acceptances of other banks of the kind described in (12 U.S.C. 372) shall not be subject under this section to any limitation based upon such capital and surplus.

(b) *General scope.* The obligations described in 12 U.S.C. 372 arise out of the acceptance of time drafts or bills of exchange drawn on the bank which grow out of transactions involving the importation or exportation of goods; or which grow out of transactions involving domestic shipment of goods provided certain security requirements are met. These obligations are subject to certain limitations set forth or provided for in 12 U.S.C. 372. See § 7.7420 as to use of banker's acceptances to finance credit transactions.

(c) *Acceptance by bank on behalf of customer.* A national bank may obligate itself as acceptor on a time draft drawn for the account of a particular customer even though the other obligations of that customer to the bank are equal to the bank's legal limit under 12 U.S.C. 84. The limitations of 12 U.S.C. 84 on the amount which may be lent by a national bank to one borrower are separate and distinct from the limitations of 12 U.S.C. 372 and in no way restrict the amount of time drafts that a member bank may accept for any one person, firm or corporation. If, however, the bank purchases its own acceptances under the foregoing circumstances it must treat the transaction as a loan and not as an acceptance and would have to include the amount thereof with other obligations of the customer in applying the limitations of 12 U.S.C. 84.

§ 7.1560 Exception 6: Loans secured by shipping documents or warehouse receipts covering readily marketable staples.

(a) *Nature of security—(1) Law—12 U.S.C. 84(6).*

[Such limitation of 10 per centum shall be subject to the following exceptions:]

(6) Obligations of any person • • • in the form of notes or drafts secured by shipping documents, warehouse receipts or other such documents transferring or securing title covering • • • staples • • •.

(2) *General principles.* For the purposes of exception 6, the important characteristic of warehouse receipts and order bills of lading is that the holder of such a document has control of the commodity and can obtain immediate possession. In the event of default on a loan secured by such documents, the bank would be in a position to sell the underlying commodity and promptly transfer title and possession to the purchaser, thus being able to protect itself without extended litigation. This is not true of trust receipts, chattel mortgages, and similar documents, so that documents of these types are not eligible security for loans under exception 6.

(3) *Field warehouse receipts.* Field warehouse receipts may be acceptable collateral under exception 6 whenever the receipts are issued by a duly bonded and licensed grain elevator or warehouse, having exclusive possession and control of the commodities covered thereby, even though the grain elevator or warehouse is maintained on the commodity owner's premises.

(4) *Pledge of commodities to bank.* In cases where it is not possible to establish and maintain a satisfactory field warehousing plan, it is sometimes feasible to comply with exception 6 through a pledge arrangement. The requirements of exception 6 may be satisfied by a pledge of eligible commodities to the lending bank or its agent, even though the pledged commodities remain on the borrower's premises. If an agent of the bank, acting on its behalf, actually has exclusive possession and control of the pledged property, under an arrangement which is valid under the law of the State and gives the bank power to transfer title and possession, the bank as pledgee would have protection substantially equal to that provided by shipping documents or warehouse receipts.

(5) *Warehouse receipts issued by the borrower.* Warehouse receipts issued by the borrower-owner which is a grain elevator or warehouse company, duly bonded and licensed and regularly inspected by State or Federal authorities, may be considered eligible collateral under exception 6 only when the receipts are registered with an independent registrar whose consent is required before the commodities covered thereby may be withdrawn from the warehouse. Warehouse receipts registered in this manner are issued only in a limited number of markets.

(b) *Nature of commodities—(1) Law 12 U.S.C. 84(6).*

Obligations • • • secured by • • • readily marketable nonperishable staples when such property is fully covered by insurance, if it is customary to insure such staples • • •.

• • • • •

Obligations • • • secured by • • • refrigerated or frozen readily marketable staples when such property is fully covered by insurance • • •.

(2) *Readily marketable staples.* (i) A readily marketable staple may be defined as an article of commerce, agriculture, or industry of such uses as to make it the subject of dealings in a ready market with sufficiently frequent quotations of prices as to make (*a*) the price easily and definitely ascertainable, and (*b*) the staple itself easy to realize upon by sale at any time. Although exception 6 is not limited to staples which are traded in constantly on an organized market, it does require the existence of sufficiently regular and continuous trading to assure the bank that, if it becomes necessary to sell the collateral in order to collect the loan, the staple could be readily sold by the bank at a price approximately ascertainable in advance and not involving any considerable sacrifice from the amount, at which it is valued as collateral.

(ii) Exception 6 is designed primarily to apply to such basic commodities as wheat and other grains, cotton, wool, basic metals such as tin, cooper, and lead and the like. With few exceptions, fabricated commodities, unlike such uniform staples, do not constitute standardized interchangeable units regardless of the manufacturer and, accordingly, they do not possess the same broad marketability and do not qualify as readily marketable staples.

(iii) Whether a commodity is readily marketable necessarily depends upon existing conditions, and a commodity which qualifies at one time might cease to be such at a later date because of fundamental changes in supply or scope of usefulness, for example, by which the extent and steadiness of market demand were greatly reduced.

(3) *Nonperishable staples.* Commodities sometimes fail to qualify as nonperishable because of the manner in which they are to be handled or stored during the life of the particular loan, even though the same commodity, if handled and stored in a manner in which it is protected against spoilage for a period of the loan, may qualify as nonperishable. Accordingly, the question whether certain staples are nonperishable is a question of fact to be separately ascertained in each case.

(4) *Refrigerated or frozen staples.* Exception 6 expressly covers obligations secured by refrigerated or frozen readily marketable staples when such property is fully covered by insurance.

(c) *Lending limits—(1) Nonperishable staples; collateral required.* (i) The lending limit applicable to loans made under exception 6 and secured by nonperishable staples depends upon the percentage by which the market value of the staples exceeds the amount of the loan or a portion thereof. That is, when the market value of the staples is not less than 115 percent of the amount of the loan, the lending limit is 25 percent of the bank's capital and surplus. The lending limit may be increased an additional 5 percent when the market value of the staples securing the additional obligation is not less than 120 percent of the face amount of such additional obligation. A further additional 5 percent is permitted when the market value of the collateral for the additional obligation is not less than 125 percent of such additional obligation. The lending limit increases in this manner to a maximum of 50 percent when the market value of the collateral securing the final additional obligation authorized is not less than 140 percent of such additional obligation.

(ii) Example: The following example illustrates the minimum collateral requirements for loans made under exception 6 to one obligor in the case of a national bank having unimpaired capital and surplus of $100,000:

Percent of unimpaired capital and surplus	Amount of loan	Minimum collateral at all times	
		Required percent of loan portions	Required value
10	$10,000	0	0
15 Additional	15,000 Additional	115	$17,250
5 do	5,000 do	120	6,000 Additional
5 do	5,000 do	125	6,250 Do.
5 do	5,000 do	130	6,500 Do.
5 do	5,000 do	135	6,750 Do.
5 do	5,000 do	140	7,000 Do.
50	50,000		49,750

(2) *Refrigerated or frozen staples: collateral required.* A lending limit of 25 percent of the bank's capital and surplus is applicable to loans under exception 6 secured by refrigerated or frozen readily marketable staples having a market value of not less than 115 per cent of the loan.

(3) *Time limit on applicability of collateral required.* Exception 6 is applicable to the obligation of any one person arising from a single transaction or secured by the same staples for not more than 10 months when the obligation is secured by nonperishable staples and for not more than 6 months when the obligation is secured by refrigerated or frozen staples.

§ 7.1570 Exception 7: Loans secured by livestock and dairy cattle.

(a) *Loans secured by livestock—(1) Law—12 U.S.C. 84(7).*

[Such limitation of 10 per centum shall be subject to the following exceptions:]

(7) Obligations of any person • • • in the form of notes or drafts secured by shipping documents or instruments transferring or securing title covering livestock or giving a lien on livestock when the market value of the livestock securing the obligation is not at any time less than 115 per centum of the face amount of the notes covered by such documents shall be subject under this section to a limitation of 15 per centum of such capital and surplus in addition to such 10 per centum of such capital and surplus • • •.

(2) *Application.* This first sentence of exception 7 covers obligations which are secured by first liens on readily marketable livestock (dairy and beef cattle, hogs, sheep, goats, horses and mules, poultry, and fish) whether or not such livestock are held for resale.

(3) *Grazing lien on livestock.* Under the laws of certain states, a person furnishing pasturage under a grazing contract may have a lien on the livestock for the amount due for pasturage. If the lien which is based on pasturage furnished by the lienor prior to the making of the loan (i) is assigned to the bank by a recordable instrument and (ii) is protected against being defeated by some other lien or claim, by payment to a person other than the bank, or otherwise, it would qualify under exception 7, provided the amount of such perfected lien is at least equal to the amount of the loan and the value of the livestock is at no time less than 115 per centum of the loan. Where the amount due under the grazing contract is dependent upon future performance thereunder, the resulting lien has merely prospective value and does not meet the requirements of exception 7.

(b) *Loans secured by dairy cattle.—(1) Law—12 U.S.C. 84(7).*

[Such limitation of 10 per centum shall be subject to the following exceptions:]

(7) • • • Obligations arising out of the discount by dealers in dairy cattle of paper given in payment for dairy cattle, which bear a full recourse endorsement or unconditional guarantee of the seller and are secured by the cattle being sold, shall be subject under this section to a limitation of 15 per centum of such capital and surplus in addition to such 10 per centum of such capital and surplus.

(2) *Application.* This second sentence of execption 7 applies to obligations arising out of the discount by dealers in dairy cattle of paper given in payment for dairy cattle bearing the full recourse endorsement or unconditional guarantee of the seller and secured by liens on the cattle being sold.

(c) *Character of lien.* Liens of the type contemplated by exception 7 are generally in the form of recorded chattel mortgages or bills of sale but may arise in other ways if the security provided is substantially equivalent to that afforded by a recorded chattel mortgage.

§ 7.1580 **Exception 8: Loans secured by U.S. obligations.**

(a) Law—12 U.S.C. 84(8).

(b) Regulation—See Part 6 of this title.

§ 7.1590 **Exception 9: Loans to banks with the approval of the Comptroller of the Currency.**

(a) Law—12 U.S.C. 84(9).

§ 7.1600 **Exception 10: Take-over commitment by an agency of the Federal Government.**

(a) *Law—12 U.S.C. 84(10).*

[Such limitation of 10 per centum shall be subject to the following exceptions:]

(10) Obligations shall not be subject under this section to any limitation based upon such capital and surplus to the extent that such obligations are secured or covered by guaranties, or by commitments or agreement to take over or to purchase, made by any Federal Reserve bank or by the United States or any department, bureau, board, commission, or establishment of the United States, including any corporation wholly owned directly or indirectly by the United States: *Provided,* That such guaranties, agreements, or commitments are unconditional and must be performed by payment of cash or its equivalent within 60 days after demand. The Comptroller of the Currency is hereby authorized to define the terms herein used if and when he may deem it necessary.

(b) *General scope.* Exception 10 applies to obligations, or portions thereof, with respect to which there is an unconditional guaranty, takeover agreement, or commitment by an agency of the Federal government to be performed by the payment of cash or its equivalent within 60 days after demand for payment is made. Exception 10 applies to loans insured by the Federal Housing Administration.

(c) *Definition of "unconditional".* (1) A Federal agency's guaranty, agreement, or commitment to take over or purchase is unconditional if the protection afforded the bank is not substantially diminished or impaired in the case of loss resulting from factors beyond the bank's control.

(2) Protection against loss is not materially diminished or impaired by procedural requirements, such as an agreement to take over only in the event of default, including default over a specified period of time, a requirement that notification of default be given within a specified period after its occurrence, or a requirement of good faith on the part of the bank.

§ 7.1610 **Exception 11: Obligations of a local public agency.**

(a) Law—12 U.S.C. 84(11).

§ 7.1620 **Exception 12: Loans insured by the Secretary of Agriculture.**

(a) *Law—12 U.S.C. 84(12).*

[Such limitation of 10 per centum shall be subject to the following exceptions:]

(12) Obligations insured by the Secretary of Agriculture pursuant to the Bankhead-Jones Farm Tenant Act, as amended, or the Act of August 28, 1937, as amended (relating to the conservation of water resources), or sections 1471–1485 of Title 42, shall be subject under this section to a limitation of 15 per centum of such capital and surplus in addition to such 10 per centum of such capital and surplus.

(b) *Amendment.* The Consolidated Farmers Home Administration Act of 1961 superseded and repealed the Act of August 28, 1937, and repealed titles I, II, and IV of the Bankhead-Jones Farm Tenant Act. Exception 12 should be construed as also applying to obligations insured pursuant to provisions of the Consolidated Farmers Home Administration Act which amended or superseded provisions of the Bankhead-Jones Farm Tenant Act.

§ 7.1630 **Exception 13: Obligations as endorser or guarantor of installment consumer paper.**

(a) *Law—12 U.S.C. 84(13).*

[Such limitation of 10 per centum shall be subject to the following exceptions:]

(13) Obligations as endorser or guarantor of negotiable or nonnegotiable installment consumer paper which carries a full recourse endorsement or unconditional guarantee by the [seller] • • • shall be subject under this section to a limitation of 15 per centum of such capital and surplus in addition to such 10 per centum of such capital and surplus: • • •.

[See proviso in section 7.1630(e)(1).]

(b) *General scope of exception.* This exception applies to negotiable or nonnegotiable installment consumer paper which carries a full recourse endorsement or unconditional guaranty by the seller transferring same. The obligations of an endorser or guarantor of such paper are subject to a limitation equal to 25 per centum of the bank's capital and surplus, except that no limitation is applicable to such obligations when the bank certifies that it is relying primarily upon the maker of the paper for the payment thereof.

(c) *Definition of "consumer" and "consumer paper".* (1) The term "consumer" includes the user of any product, commodity, goods, or service, whether leased or purchased. Such term does not include a user who purchases a product or commodity for the purpose of resale or for fabrication into goods for sale. For the exception and rulings applicable to such business or commercial paper, see exception 2 and § 7.1520 et seq.

(2) The term "consumer paper" includes paper relating to automobiles, mobile homes, office equipment, household appliances, tuition fees, and like consumer items, and similar paper executed for the purchase of insurance or of a residence. Also included is paper covering the lease (where the bank is not the owner or lessor) or purchase of equipment for use in manufacturing, farming, construction, or excavation.

(d) *Unconditional guaranty.* The unconditional guaranty may be in the form of a repurchase agreement or a separate guaranty agreement. (See § 7.1600(c) for definition of the term "unconditional".) A condition reasonably within the power of the bank to perform, such as, in certain cases, the repossession of the consumer product covered by a defaulted obligation, will not be considered to make conditional an otherwise unconditional agreement.

(e) *Reliance upon maker of paper: certification—(1) Law—12 U.S.C. 84(13).*

(13 • • • *Provided, however,* That if the bank's files or the knowledge of its officers of the financial condition of each maker of such obligations is reasonably adequate, and upon certification by an officer of the bank designated for that purpose by the board of directors of the bank, that the responsibility of each maker of such obligations has been evaluated and the bank is relying primarily upon each such maker for the payment of such obligations, the limitations of this section as to the obligations of each such maker shall be the sole applicable loan limitation: *Provided, further,* That such certification shall be in writing and shall be retained as part of the records of such bank.

(2) *Certification requirements.* Under certain circumstances installment consumer paper which meets the other requirements of exception 13 is subject only to the lending limitations applicable to the maker of the paper. The circumstances include the requirement that a certification be made by an officer designated by the board of directors that the responsibility of each maker has been evaluated and that the bank is relying primarily upon each maker for the payment of the obligation. In addition the bank's files or the knowledge of an officer with respect to the financial condition of each maker must be reasonably adequate. What is required essentially is the responsible exercise of prudent banking judgment supported by a reasonably adequate record. Where paper is purchased in substantial quantities the records, evaluation and certification may be in such form as is appropriate for the class and quantity of paper involved.

Subpart B—Loans Secured by Real Estate

§ 7.2000 **Real estate loans.**

(a) *Law—12 U.S.C. 371.*

Any national banking association may make real estate loans • • •. A loan secured by real estate within the meaning of this section shall be • • •.

(b) *General definition.* A real estate loan within the meaning of 12 U.S.C. 371 is any loan secured by real estate where the bank relies upon such real estate as the primary security for the loan. Where the bank in its judgment relies substantially upon other factors, such as the general credit standing of the borrower, guaranties, or security other than real estate, the loan does not constitute a real estate loan within the meaning of 12 U.S.C. 371, although as a matter of prudent banking practice it may also be secured by real estate.

(c) *Mortgage taken as security for debt previously contracted.* (1) Law—12 U.S.C. 29.

A national banking association may purchase, hold and convey real estate for the following purposes • • • Second. Such as shall be mortgaged to it in good faith by way of security for debts previously contracted.

(2) Where a real estate mortgage is taken in good faith to prevent loss on a loan previously made, the loan so secured is not a real estate loan within the meaning of 12 U.S.C. 371.

(d) *Land contracts.* Where real estate is sold under a contract which provides that legal title thereto is not to be conveyed to the purchaser until all or a specified portion of the purchase price is paid, but remains in the seller (or in a trustee) as security for such payment, the contract plus the security title retained by the seller constitute a loan secured by real estate which may be a real estate loan within the meaning of 12 U.S.C. 371.
